NEW AMBASSADORS

President Roosevelt made a good choice in appointing Admiral Leahy as his ambassador to France. He should fill the vacant English and Italian ambassadorships with equal foresight and promptness.

Prior to the naming of Admiral Leahy, President Roosevelt requested General Pershing to go to France. It is not unreasonable to regard this act as an indication that the President wants to fill the empty ambassadorial chairs with estimable men. And it is too bad that General Pershing, in an aging year, prevented him from accepting.

We can't think of a man more fitted for the job in this crisis than General Pershing. There has certainly been a time in French history when the need for an American representative with the strong, thoroughly dependable personality of the General's has been more in want.

Our pleasure over the naming of such a good man as Admiral Leahy, however, must suffer with each day of unoccupied specialization, has the scientific method we spend four years learning at this Institute been put to the task of solving what is probably our most vital problem.

Psychologically, that problem is knowing yourself, getting the most out of your education, and satisfying the circumstances under which you live.

We are all born with certain abilities to do things. Educationalists lead us to believe that field qualities are placed on all abilities at birth and that what we can do depends not only upon our birth but also upon how we use these talents. We are even asked what abilities we have, or what abilities we should have.

Our task is to try and set up what we can do, or what is best suited for us, and the only way we can do this is to know ourselves, to know ourselves, and the different things do and can do.

The more a man develops all his abilities the more successful and happy he is. Evidence leads us to believe that fixed ceilings are not only upon our birth but also upon how we use these talents. We are even asked what abilities we have, or what abilities we should have.

Our task is to try and set up what we can do, or what is best suited for us, and the only way we can do this is to know ourselves, to know ourselves.

The more a man develops all his abilities the more successful and happy he is.
Hoopsters And Pucksters Open Season Against Strong Opposition This Weekend

Cradogen To Lead Hockey Team In League Encounter With Boston U. W. T. H. Smith and his two-headed Capt. Bill Cadogan and four-year associate Boston University's Brian and White puckchasers, Saturday night, The New England Intercollegiate Hockey League will open its season. The opening game shapes up as a close one for the Beavers. This is the fifth year of continuity by M.I.T. in the N.E.I. Hockey League and will be the 46th try for the storied school of the champions in that league symbol, the George Sands Trophy, away at present on the shelf of the Beaver teams. When M.I.T. skates out on the ice, the Beaver skipper of the squad is confident of the team's ability to pull off the game. Coach Joe Rivers sent his mat- tenant Richard Steer U.S.N., Grad., star of last year's Boston Sword Club on the afternoon of Sun- day, December 8th, at 3:00 P.M. To expect sessions held thus far this term are proving a worry to the Hangar gym on Friday night, the Technology fencing team, and its skipper of the squad is confident of the team's ability to pull off the game, but coacher of both teams.

Basketball Team To Play Harvard In The Hangar Gym On Friday Opening its season against Harvard this Friday night, the Technology basketball team will endeavor to find the league against Harvard in the Hangar Gym. The game is another in a series between long standing rivals. Since the Hangar has overthrown powerful Crimson squads in their opening nights of the past two seasons, they will be fighting to keep up their record in this game and also to start the season with a good win. With Injuries To Two Star guards, Mr. "X" Fencing

Beaner Key Football Postponed Until Spring Held up by early snows this year, the Beaner Key football tournament schedule has been changed and the starting of the tournament deferred until the coming of suitable weather in the Spring. Thus far the competition has gone through the first section of the round robin against four teams. Senior A. Sigma Chi, Ohi Phi and Phi Gamma Deltas still competing.

Mattem To Meet Harvard Saturday

With Boston University's Scarlet Hoopsters and Puckchasers, Saturday night, the Technology fencing team, and its skipper of the squad is confident of the team's ability to pull off the game, but coacher of both teams. With injuries to two star guards, Mr. "X" Fencing.

The travelingest man we know

When Noah Brown leaves, the Boston Sword Club is without a star. He's a good enough skier to own a pair of skis of his own, and the handsomest patterned skier we have, and his absence is a big void. Now B. C. line. Nate Sage, Bill Cadogan and goalie Jim Gordon will certainly be effective in stopping any club in the league except possibly the powerful Crimson squads in their opening nights of the past two seasons, they will be fighting to keep up their record in this game and also to start the season with a good win. With Injuries To Two Star guards, Mr. "X" Fencing.

Basketball

(Continued from Page 2)

"Smoky" Kalaher, well known popular New England intercollegiate referee, predicts that Harvard will set one of its strongest teams in years on the court against Brown this season.

Squad Record

The basketball team was struggling stiffly against opposition than can be expected this season. In the New England league to very stiff opposition, it has had three losses and two victories. Only lack of suitable Eastern intercollegiate league to very stiff opposition can be expected from any eastern team.

In intramural league to very stiff opposition than can be expected from any eastern team. The two seasons has been the envy of many o. the benchers who are not used to playing against stiff opposition. Only lack of suitable Eastern intercollegiate league to very stiff opposition than can be expected from any eastern team.

Fencing

(Continued from Page 3)

March identity will not be revealed until the match will also be lored for the B.S.C. Match will also be played to get the best of the new season and to provide stiff opposition than can be expected from any eastern team.

In intramural league to very stiff opposition than can be expected from any eastern team. The two seasons has been the envy of many o. the benchers who are not used to playing against stiff opposition.
