PRICE FIVE CENTS

COE IS SENIOR PRESIDENT

Nautical Association Selects Tom Crowley As New Commodore

Coe, Evans, Gibson Are Other Officers Picked At Wednesday Evening Meeting

Elected commodore at last Wednesday night's meeting of the Technology Nautical Association was Thomas T. Crowley, '43. Jerome T. Coe, '42, will be the new vice-commodore; while Maurice R. Evans, '43, was elected to the office of secretary and Richard C. Gibson, '42, will hold the post of treasurer of the Association. The executive committee consists of John T. Carleton, '42; J. Robert Kirby, '42, and Kenneth L. Warden, '43.

In honor of Professor George Owen, of the Naval Architecture Department, who is retiring from the Institute in the fall, a plaque was presented, which is to be placed in competition for intercollegiate racing.

Professor Erwin H. Schell, of the Business and Engineering Administration Department, was elected honorary commodore of the Nautical Association. At the conclusion of the meeting, Professor Schell gave a banquet for the new and the retiring officers of the Association.

I. F. C. Nominates Five As Chairman

Knox, LeBolt, Tyree, McGinnis, Whelan Try For New Office

Five men were nominated by the Inter-Fraternity Conference to the office of permanent chairman for the 1941-42 academic year at that group's regular monthly meeting held last night in Walker Memorial. Those nominated are Harry E. Knox, Jr., '42, John M. LeBolt, '42, Carl L. McGinnis, '42, Sheppard Y. Tyree, Jr., '42, and John L. Whelan, Jr., '42.

This position was created at the meeting last night as the result of an amendment to the I.F.C. constitution. This change in the constitution stipulates that a permanent chairman be elected in the spring to serve the following year. This man will also be the I.F.C.'s Institute Committee representative. Another change in constitution stated that members at large to that organization's executive committee be elected each month during the year.

Faculty Will Hold Photo Exhibition

Entries for the Faculty Club photo exhibition must be submitted in Room 4-334 by noon on Saturday, May 3, according to a recent announcement by J. E. Tyler, chairman of the Faculty Club Photographic Club. Use of the Photo Service exhibition galleries for the exhibition of the entries has been obtained for the two weeks beginning Monday, May 5.

Entries in this exhibition are limited to faculty members. Prints entered must be accompanied by some explanation as to the conditions under which the picture was taken. This explanation should be typewritten on a 3 by 5 or 5 by 8 inch card fastened to the lower left hand corner of the mount. Pictures must be mounted vertically on 16 by 20 inch cards, and each entry must have the contributor's name and office number written on it.

T. C. A. Will Stay Open From Five To Six Daily

For the benefit of students with five o'clock classes the Technology Christian Association will keep its office open from 5:00 to 6:00 P.M. every afternoon, Monday through Friday, starting next Monday, April 14.

At this time all of the regular activities of the T.C.A., such as the ticket service, book exchange, boys' work, handbook and others will be conducted by the students. Mr. Wallace M. Ross, general secretary of the organization, and the two office secretaries will not be there at this time, however.

Harry Marshard Signs Contract For Frosh Prom

Special Entertainment Planned For Formal At Longwood Towers

With the contracting of Harry Marshard, leader of one of the favorite bands in the metropolitan area, plans are well under way for the Freshman Prom from 9 to 1 on May 9. Marshard played for the Greek War Relief Ball of Greater Boston a few weeks ago, and is at present playing in the Hotel Somerset.

Set in the picturesque locale of Longwood Towers, the 1944 Promenade will have a few surprises for its patrons.

The tickets will go on sale on Monday, April 14, in the Main Lobby. They can also be obtained at three dollars per couple from any member of the freshman council. There will be no options sold.

Slifer, Sutton, Maxwell Chosen For Walker Comm.

The election of three Sophomores to the position of junior members of the Walker Memorial Committee was approved at the Institute Committee meeting last night.

Robert W. Maxwell, George A. Slifer, Jr., and Walter G. Sutton, Jr., will act as Junior members of the Walker Memorial Committee until the Sophomore competitions next fall, when six Sophomores will join the committee. The three men, whose elections were approved last night, automatically become members of the All-Tech Smoker Committee.

Simon, Abuza Take Lottery

Free Redemptions For All Senior Week Activities Awarded

Senior Week will be of special enjoyment to Robert H. Simon, '41, and Zachary P. Abuza, '41. Wednesday afternoon at the lottery in Building Ten they received free redemptions for the week's activities at the hands of pretty Miss Meredith Stevens, Simmons Senior, who recently graced the R.O.T.C. Ball as honorary Colonel, and who graciously drew the two winning option numbers from the glass casserole to the shouts of the enthusiastic option holders.

The lucky winners will be admitted free to the All-Tech Pops Night when the whole first floor of Symphony Hall will be filled with tables for Tech men and their dates, to the Class Day ceremonies in the horseshoe court surrounded by Building 2, where the Class Day orator will speak and the "Alumni Association" ceremonies will take place, and finally to the Senior Ball.

Senior Class to Be Polled

The entire Senior class will be polled at the Senior Week elections, which the Senior Week Committee has set for Tuesday, 9 A.M. to 5 P.M. in the lobby of Building 10. At the election the class orator will be elected, and the representatives for each of the various courses to be represented Class Day, which is to be held on Monday, June 9.

Tickets for Class Day will soon go on sale and may be obtained from any member of the Senior Week Committee.

Eve Curie Speaks In Boston, Tuesday

Noted Lecturer Gives Views On Defense, Civilian Psychology

Making her only appearance of the year in this vicinity, Eve Curie, celebrated author and lecturer, will speak in Jordan Hall this coming Tuesday evening, April 15.

Miss Curie will speak on the subject "The Spirit of Resistance", discussing defense measures from the civilian point of view and describing the effects of war on the psychology and living habits of civilian populations.

The daughter of the famous scientist was attached to the French government in Paris until that government, which was then headed by Premier Reynaud, was forced to move to Bordeaux.

Jerome T. Coe, '42, Speaks at Election Forum.

Elections Forum Speakers Decry Technology Spirit

"Technology men are sadly lacking in school spirit." This phrase was continually emphasized by the remarks of the candidates for presidency of the three lower classes when they spoke at the Elections Forum last Tuesday afternoon in Huntington Hall. The forum was sponsored by the Technology Debating Society in an attempt to enable students to hear the candidates speak, and thus be more capable of choosing the correct one in the next day's election.

Lack of spirit was first evidenced by the size of the crowd attending. Apparently only one hundred of the Institute's undergraduates were interested enough in the elections to spare an hour to find out what the candi-

Coe Reports Profit To Inst. Comm.

Junior Prom Makes \$20.53 Over Expenses, Elections Approved

A total of \$20.53 profit for the Junior Prom was announced by Jerome T. Coe, '42, Prom Committee Chairman, at the Institute Committee meeting held last night at 5 P.M. in Litchfield Lounge.

Other business of the meeting included the approval of various elections. The Institute Committee approved the elections of class officers, the Nautical Association elections, and the selection of Junior Members of the Walker Memorial Committee. The report of the Open Forum Committee was presented, but no discussion was held nor was any action taken.

Walter P. Keith, Jr., '41, was absent. W. Hoover Shaw, '42, Arnold S. Mengel, '41 and Joseph G. Gavin, Jr., '41, were represented by proxy.

Willard Mott Chosen Permanent President Of Graduating Class In Wednesday Ballot

Jerome T. Coe has been re-elected president of the Class of 1942. In the class elections held last Wednesday, April 9, he piled up a decided margin over Carl L. McGinnis, who becomes vice-president of the class.

Though the presidential elections in the Classes of 1943 and 1944 were closer than Coe's victory, S. Richard Childerhose won the Sophomore presidency over John O. Karstrom by a comfortable margin, as did Langdon S. Flowers over Robert B. Meny for presidency of the Class of 1944. Karstrom and Meny, as the losing candidates, automatically become vice-presidents in their Classes.

Mott Is President of 1941

Willard S. Mott becomes permanent president of the present Senior Class, and Stanley Backer is the permanent secretary of the Class of 1941. These two men ran alone for their respective offices. In the Senior Marshal election, Warren J. Meyers, John F. Sexton, and

Dr. Stidger Talks At Tech Embassy

"The Great And How They Got That Way" To Be Topic Of Speech

"The Great and How They Got That Way" is the topic of the address Dr. W. L. Stidger, key speaker at the 5th annual Tech Embassy, will give at the main embassy meeting in Huntington Hall next Tuesday, April 15, at 4:00 P.M. In a conference with W. Hoover Shaw, '42, T.C.A. president and Charles Holt, '43, Tech Embassy Chairman, Dr. Stidger said he will practicalize his discussion of four great men of our day by adopting a straight-forward, logical method of attack.

As examples of great men, Dr. Stidger has picked from his personal

(Continued on Page 4)

Camera Club Hears Jordan

Mr. Franklin I. Jordan, F.R.P.S., was the speaker at the meeting of the M.I.T. Camera Club which was held Thursday, April 10, at five o'clock in Room 4-231. Mr. Jordan, an associate editor of The American Photography, spoke on the subject, "Print quality and judging at salons."

Members who wish to enter prints in the spring salon may do so at the meeting or at the information office any other time before April 19. The four classifications into which submitted prints may fall are scenes, portraits, action or candid, and tabletop. All prints submitted must be at least 5 x 7 inches in size and must be placed on 16 x 20 inch mounts. The following information must accompany the pictures entered: name, class, and address of entrant, title of picture, and division classification.

THE LIGHT THAT FAILED

The student body proved conclusively that the keynote to the whole Elections Forum Tuesday, "Technology's greatest need is increased spirit in the Undergraduate population" was valid by their meager attendance.

At the maximum, only a hundred students went out of their way to attend the forum to hear what the candidates for the presidency of the Classes of '42, '43, and '44 offered by the way of policies. If the group was divided evenly, only thirty members of each class were there, and these were mainly the candidates and their immediate supporters.

Because of this, one of the main points of the Election Forum failed to materialize—the opportunity for the students to see the candidates and know for whom they were voting. From that point of view, the forum was just a waste of everybody's time.

However, there was one shining ray of light that emerged from this first effort at clarification of election issues. Every one of the presidential candidates had constructive suggestions to offer. This proved that some thought had been given by the candidates about the position for which they were running.

At the Institute Committee meeting last night, a special committee appointed to investigate the Election Forum reported that the attendance had been considerable below that expected, but that the tenor of the affair was highly favorable. They recommended that some sort of Forum on school problems be held in the fall after Field Day so that the students would still be endowed with the semblance of class spirit that hovers over the underclass struggle. In this way, student interest could be aroused in forums on student problems, and more desirable results could be obtained in the spring when elections rolled around. This was the extent of the action.

The recommendation was accepted with no discussion at all and no evidence of action even flickered for a moment. Now is the time to lay solid foundations for such affairs in the future. Nothing can be gained by waiting until the warmth of this forum has cooled down. At the very minimum, someone interested in this topic should be made responsible for promoting forums on subjects of student interest. The committee has reported, and now it is time for definite action.

A GOOD START HELPS

A revised organization of leadership was adopted by the Inter-fraternity Conference

last night in an effort to make the conference more efficient. A permanent chairman was provided who should run the executive affairs and should represent the fraternity organization on the Institute Committee.

In addition to the permanent chairman, a new method of electing the executive committee was chosen. This definitely represents a step in the right direction toward the task of edging the conference out of the doldrum in which it has fallen. While this does not insure improvement as that rests upon the chairman the conference sees fit to elect, it at least makes improvement organizationally possible.

As a further means of securing acceleration in the new direction, nominations were made before night of election so that the candidates could prepare an outline platform of plans for next year. This is to insure that a man will be elected who will carry out the theme of reorganization and progress.

The I.F.C. deserves credit for this move to realize more fully its capabilities as a campus activity. It must recognize, however, that just a start has been made, and the most difficult job still lies ahead. Ample opportunity presents itself for the chairman to prove his ability.

The proper sphere of influence for the I.F.C. must be recognized and committees formed so that the entire representation on the conference will be taking an active part in its operation. The emphasis must be changed from a hierarchy doing all the work to a central directing agency supported by an active group doing more than attending a dinner meeting once a month. Activity men of ability should be attracted to the conference fold. Obstacles are ahead, but a real start has been made.

RULE BY THE MAJORITY

Elections have come and gone, and as usual just a portion of each class has selected the officers which will govern the activities of the entire class.

Figures show that in the Senior class, only one-fifth of the total enrollment went to the polls to select its permanent class officers. Even though this is partly excusable in view that the officers have very little undergraduate duties to perform, it displays almost complete disinterest in the future of the class.

The Junior class managed to bring one-third of its total enrollment to the voting booth, to select not only the leaders of next year's Senior class but the leaders of the entire undergraduate student body. One-third of one class elected the leaders of the entire student body. A democracy too!

A little better percentage was tallied by the Class of '43 when approximately half of the class participated in the elections, and the freshmen as usual take the top position with about two-thirds registering their choice for class office.

The numbers of students voting shows that the interest in class functions decreases with time rather than increases. Clearly, this is a direct refutation of logic, since the problems and decisions that class officers must make become exponentially more important as the class progresses.

THE READER SPEAKS

Editor, The Tech
 Dear Sir,

Every year about this time the question comes up concerning ball playing in the space between Building 2 and Walker Memorial. It usually ends up with a letter from the proper authorities to the individuals concerned, asking them to stop playing on the lawns. The reason given is the protection of Institute property.

Being among the baseball and softball playing groups in the past years I have had occasion to resent these "cease and desist" orders. The reason behind the orders suddenly became clear the other day when I had the opportunity to observe a line drive miss a pedestrian's head by inches (not feet). The ball used was a typical hard baseball and not the usual soft ball.

Nothing more need be said other than to urge our baseball players to practice on the proper diamonds.

Sincerely yours
 STANLEY BACKER.

P. S. I was the pedestrian.

For Boys To Play

by Stewart Rowe and Joseph Tankoos

Biggest news tonight seems to be the signing of Harry Marshard's outfit for the freshman dance, and the announcement of the Longwood Towers ballroom as the locale of the affair. Marshard we have mentioned before: he has been playing nightly at the Balinese Room of the Hotel Somerset. The orchestra which the yearlings will dance to is a slightly enlarged version of this band: an aggregation which ought to be able to put out real music in the Marshard manner.

Intermission time at the 1944 Formal will find Personality Marshard organizing novelty dances, community singing, and a few other things which he claims to have up his sleeve.

The ballroom out at Longwood Towers is one of the most unusual in town. Decorated in the manner of a medieval castle, it is notable for the beams in the roof which rival the Gardner Museum for massiveness.

Entertainment for Alumni

Also filled with entertainment will be intermission time at the Assemblies Ball next weekend. The secrecy which always surrounds plans for this event has been keeping almost all news from our ears, but we have found out that the alumni expected to be present, as well as the undergraduates, will find plenty of interest to entertain them during the evening.

A glance at the schedule of dance shows that in its way Technology is falling into the spirit of Spring. The next few weeks will include, besides such gala affairs as the Walker Assemblies Ball and the Interfraternity Conference Dance, a considerable

number of fraternity sponsored "fun groups", as some might say, dances. Along this line we'd like to take the time to make a few comments on the most discussed topic at the recently held Elections Forum.

With few exceptions the candidates who spoke made some mention of Technology dances. Both of the freshman presidential aspirants complained that Institute dances were "stiff" and "dead". At first we were rather surprised at this, because while we'd never smashed glassware or carried on riotously in some other fashion still we seldom find ourselves excruciatingly bored at an Institute dance. It's true, however, that there is room for improvement in the conduct of many dances, and this critical spirit in our entering class may indicate revolutionary changes in Technology social life.

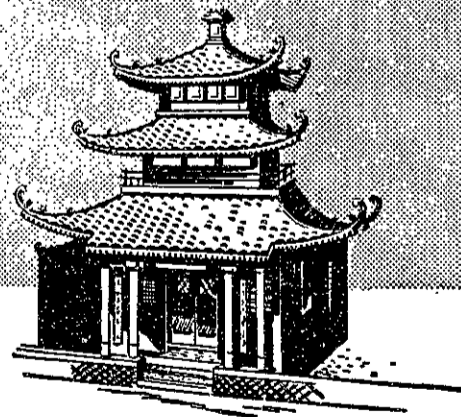

Central Band Booking?

Dick Childerhose's suggestion of a committee to handle the securing of dance bands for all dances brought out one of our favorite ideas—the rejuvenation of the I. F. C. into a potent, effective organization. It's been our theory that the I. F. C. could very effectively perform two functions: the scheduling of fraternity dances and the securing of orchestras for them.

By acting as a sort of clearing house or dispatching station to which all houses would submit the tentative dates of their dances, the I. F. C. could prevent the "crowding" of certain week-ends with four or five dances while chronologically adjacent week-ends were entirely clear.

Every operator
 in this
 telephone exchange
 must speak
 four languages!

Each operator in San Francisco's Chinatown telephone exchange must speak English plus at least three of the five Chinese dialects—Som Yup, Soy Yup, Heong Sow, Gow Gong and Aw Duck—in order to handle calls. For the average Chinese understands no dialect but his own!

Since there is no Chinese alphabet, the 36 page directory, listing 2200 subscribers, can't be printed in the usual way. It is handwritten—then reproduced by engraving and printing processes. Subscribers are listed by streets, instead of alphabetically. And operators must almost know the book by heart, for the Chinese seldom call by number—but by name and address.

Here is a Bell System exchange that in many ways is unique. But it is just like thousands of others in giving good service to telephone users.

Beaver Briefs

By Bailey Nieder and Harry Ottinger

BOATHOUSE NEWS

With the first race against Harvard and Boston University barely two weeks away, Technology's crews are reaching top condition. Spirit is still at a high pitch at the Boathouse, and with hopes for a trip to Poughkeepsie at the end of a successful season, the eights are really working.

According to the three coaches, boatings are now more or less definite. After five days as the varsity, the Metzger-stroked jayvees have been returned to second boat listing. Head coach Bob Moch made the change on Wednesday after the new varsity had nipped the former ones in a fast trial Tuesday evening.

Captain Joe Gavin is back at stroke on the varsity with Sophomore Jim Malloch picking up the beat in the number seven position. Veteran Seniors Carl Mueller, Alex Poskus, and Don Howard fill the next three seats; followed by Jim Spitz, Bill Folberth, and Phil Phaneuf in the bow. Little men Frank Clauson and Reece Wengenroth are alternating as coxswain.

Five of the eight men on the jayvee are up from last year's freshmen. These include stroke Bob Metzger, Al Bakker, Ed Mikol, Jim Leader, and Bill Cain. Ted Guething, Herm Affell, and Marsh McGuire completed the boat. Third boat is composed of Reswick at stroke followed by Titzler, Heller, Goodfriend, Walz, Bowen, and Root with Laird at cox.

Since five of the lighter men were transferred to the 150 pound crew, there is no longer a fourth boat of heavies. According to Pat Manning, chief rigger and lightweight coach, the fifties are shaping into one of the best light eights of the past few years. Pat's been connected with rowing at Tech since its inception; and he says, "This is the biggest turnout of the 150 pound crews we ever had."

Captain Bill Boise who had to shift from the starboard side is doing a top-notch job at stroke. The first fifty-eight is almost wholly made up of veterans with Herb Howell and Bob Wagner star Juniors at the seven and six seats, Sops Bob Caldwell, Bill Engels, and Bill "Lifesaver" Bryant complete the starboard side of the J. C. Molinar, new lightweight shell. Bill Vandervoort and Claude McCord finish the eight.

Set down to the 150 lb. crew because of his weight Kemp Maples is stroking the jayvee fifties. Still getting accustomed to the different stroke rowed by the lights, he is followed by his ex-heavy mates Bill Heinz, Bett Hettich, and Jay Pathe. Hayes, Smith, Crawford, and Butt are the rest of the fellows in the boat. Bob Blake and Ray Ketchledge fill the coxes' shoes.

In a time trial last night the freshmen crews did a Henley in 7:15 at a 32 stroke. Coach Jim McMillan's comment was "that it could be better." McMillan's first frosh eight has Iowan Bob Fleming at stroke with new '44 prexy Langdon Flowers at the seven place. The number six position is filled by Johnny Lehman, followed by New Englanders George DeVoe, Lou Maxson, Caleb Taft, and Alex Parker. Ed Tyberghin rows at bow with Dodge at cox.

The second frosh boat is listed as Thiede at stroke followed by Sebelle, Figgis, Moore, Turner, Garrison, Ward, McFaul, and Bush. Other frosh are Howard, Moore, Eli, Lowman, and Sliker. First 150 lb. frosh have the following boating: Stewart, Wade, Carpenter, Mathewson, Fallone, Corwin, Benepe and Chamberlain.

Sergeant Hunt Demonstrates That Football Aids Grades

"All you wallflowers who are content to go through life brownbagging, and getting no enjoyment out of life: don't worry about flunking if you should take time out from studies to go out for some sport. Go out every day; try to make the team. You'll get plenty of exercise, and there is nothing like fresh air and exercise to clear the cobwebs out of your brains." This was Coach Sergeant George C. Hunt's comment when he learned that ten of the members of last year's football team made the Dean's list.

Coach Hunt can't be wrong either, because year after year the list of comparative ratings, published in June shows that, taken as a group, the fellows who play sports stand above average.

Football Team Good Example

This year's football team is a perfect example. Starting out with the handicap of not being officially recognized by the Institute, the boys managed to finish their first year of football fairly successfully, mainly through hard work. Yet out of the twenty-six men who played on the team, ten managed to make the first term's Dean's List as announced last

week. Another man just missed making the list—he had a 3.49 rating.

Those men who played football and still managed to do well in studies were Tex Given, Pete Sibley, Mike Hook, Leon Freeman, Al Kusch, Bill Hooper, Leonard Dine, Stan Greenby, Carl Muerk, and Milt McGuire.

Of those ten football players, four—Given, Hook, McGuire and Van Greenby—acted as captain in one of the games the team played, and despite this added responsibility they still were successful scholastically. Most of the football players are turning out for many other activities besides their gridiron work.

Brainiest in Country

According to the Boston Traveler this makes Tech's football team "the brainiest in the whole country". This may or may not be true but it does prove that playing some sport does not result in scholastic failure.

So why don't some of you brown-baggers get active. Baseball, lacrosse, track, tennis, squash, swimming, boxing, wrestling—that should be enough for anyone to choose from. You don't have to make the team—just show that you have some interest in the game.

Wrestling Tournament To Be Held Next Week

Twenty-five fellows have already signed up for the annual Spring Intramural Wrestling Tournament which is to be held on Wednesday, Thursday and Friday of next week. Three medals are awarded in each of the following classes: 121, 128, 136, 145, 155, 165, 175 and unlimited. All men who are interested may sign up now in the Hangar Gym before the tournament gets under way.

The rules for the matches will conform with the regular Intercollegiate Wrestling Regulations. Varsity wrestlers cannot compete in the tournament. Gold, silver and bronze medals are given for first, second, and third places respectively.

Cantlin To Lead Pistol Squads

Vose Cup Division, Hayden Competition Begin At 2:00 P. M.

With the announcement of awards for the past season and the election of the captain for the coming year, the pistol team closed its activities for the year at a banquet last Wednesday night. John H. Cantlin, '42, was elected captain for the 1941-1942 season.

Varsity letters of "pTr" have been awarded to Seniors Richard K. Henry, Jr., John B. Murdock, Edward K. Owen, John C. Potter, Charles W. Sauer; Junior John H. Cantlin; and Sophomores Richard E. Henning, Charles I. Morton, Cyril H. Brown, and Robert L. Rorschach, it was announced. The award of the straight "T" has been made to Dick Henry for his exceptional service to the team and to the M.I.T.A.A. during his past two seasons as captain.

Highest Scorers

The special medals for the three highest individual varsity scores of the season, which were donated by the coaches, Captain Caswell and Sergeant Frey, went to Jack Cantlin, first with 283; John Murdock, second with 277; and Ed Owen, third with 275. A similar freshman award went to Lawrence S. White, '44.

Class numerals for work on the junior varsity team went to Horace J. Adelson, '41, Robert W. Maxwell, '43, and Linwood P. Adams, '42. Freshman numerals were awarded to M. Douglas Banus, Lawrence S. White, Richard R. Wareham, Edward B. Walker, III, Samuel H. Lamport, Paul H. Lee, and Norman Schulman.

Walker Appointed Manager

It was announced that the M.I.T. A.A. has appointed Malcolm C. Walker, '43, as manager for the 1941-1942 season and has awarded him the numerals of the Class of 1943 for his work as assistant manager this season.

Fencers To Duel With Brown Team

Varsity, Frosh Meets Expected To Be Won By Tech Tomorrow

The varsity fencers are greatly favored in their post-season match against Brown tomorrow afternoon at Providence, R. I. The freshman team will also try their skill with the Bear Cubs in a preliminary match.

In the New England Intercollegiate invitation tournament in New Haven last February Tech took second place as compared with a third place for Brown. This makes it probable that the Beavers will again beat the Bruins.

The probable lineup for the events are Adelson, Hinchman, and Higgins in the saber class; Krieger, Kellogg, and Scharf with the epee; and Sherburne, Ackerman, and Adelson with the foil.

Frosh Undeclared

According to Captain West, the freshmen are capable of continuing their unbroken string of victories. The probable frosh lineup is West, Lamport, and Post in the saber; Maconi, Kratz, and Depew with the epee; and foilsman, Braendle, Seamen, and Gamundi.

Ball Team Faces Jumbos In Season Opener Here

"Having heralded the spring season with practice for the last couple of weeks, the ball squad, Technology Independents, is in excellent form and we expect to beat all of our first three opponents, Tufts on Saturday, Assumption College, Worcester, on May 10, and Bakker C College on May 13," stated Ed Beaupre, who is both the captain and the coach of the Independents.

The line up against Tufts on Saturday afternoon at 3:30 here will be Christison, catcher; Beaupre and Bone, pitchers; Marakas, first base; Sadler, second; Kusch, shortstop; Artz, third base; Kosztyla, right field; Meny, centerfield; and Foster, left-field.

The remainder of the squad which will be used in a relief role are catchers Azarian and Greenes; infielders Gillen, Andrews and Bowman; and outfielders Schaefer, Broderick and Dine.

Coach Hedlund Elected To Track Association

Coach Oscar F. Hedlund was recently elected vice-president of the New England Track Officials Association, a new organization whose object is "to promote better officiating around this section and to encourage and educate new men in this field."

Other officers elected for the coming year were: Carroll E. Getchell, Harvard, president; William C. Hultgren, Y.M.C.A., secretary; William Comins, Yale, treasurer; William C. Kenney, N.E.A.A.U., Francis Niccolis, Cornell, and Don Enoch, Newton High, executive committee.

Three meetings to be held on the first Thursdays of January, May and October have been scheduled for the coming year.

Handicap Meet Opens Season For Trackmen

Tracksters Return To Briggs Field For Spring Training

Opening the spring track season, the track team will stage an intramural handicap meet tomorrow at 2:15 P.M. on Briggs Field.

The tracksters moved from their winter quarters at Barbour Field House during the vacation, and are back on the cinder oval of Briggs Field. This Saturday will be their first opportunity to run upon the track, which has been given a grooming during the entire week.

Entries Listed

Entries registered during the past few days include: High Hurdles—Jester, Stewart, Coles; Low Hurdles—Jester, Stewart; 440 yards—Kelley, Brady, Clark, Hall, McBride; 880 yards—Kelley, Brady; one mile—Turnock, Miller; two miles—Backer, Gow, Cochran; 220 yards—Clark, Hall, Hensel, Booth, McBride; and 100 yards—Hensel, Clark, Booth.

In the field events the following men signed: Shot Put—Nagle, McJunkin, Judd; Hammer Throw—Van Greenby, Meier, Baresel; Discus—Nagle, Madwed, Schwartz; High Jump—Ford, Nagle, Coles; Broad Jump—Ford, Booth, Smith; Pole Vault—Gilbert, Eberhard, Horst, Judd, Azarian; Javelin—Koss, Welch, VanVoorhees, Hosley, Sexton.

Cambridge Lads Jump Gallery, Get Free Swim

Attracted by the sparkling water of the Alumni pool, two Cambridge rascals risked the vengeance of Coach Jarosh by entering the water in unique and unconventional manner.

Seated in the gallery, the boys espied an opportunity to get an unexpected swim, and unnoticed by any of the attendants, they disrobed, climbed over the rail, and dived into the water. After a short investigation, the coach decided that they were not material for the swimming team. Cat calls proved to be of no avail in removing the intruders, for their submarine activities took them quickly out of the dangerous vicinity of the coach. The coach, having just finished swimming a grueling 440 yards, threatened to play battleship with the submarines, but found it unnecessary to do so, for just at that moment the raiders surrendered.

Sailors Start Formal Racing Tomorrow

The Nautical Association begins its spring series of formal races this weekend with starts in three divisions beginning promptly at 2:00 P.M. Saturday.

The Vose Cup competition, the Hayden division, and the Graduate division move into the foreground. On Sunday at the same time, the second start in the same series will be run off. Eight sets of races will be held in coming weeks, and each aspirant to a cup must participate in four of them.

Quadrangle Regatta

On the invasion front, four Tech dinghymen will travel to New London, Connecticut, this weekend to participate in a quadrangle regatta with the Coast Guard Academy, Yale, and the University of Pennsylvania. Jerry Coe, Richard Knapp, Frank Kolk, and Tom Crowley will make the trip on which they plan to christen the Coast Guard's new sailing pavilion.

Eligibles Posted

The names of the men eligible for the Vose Cup division have been posted in the boathouse, while all racing skippers, ineligible for the Vose competition, may participate in the Hayden division. The Vose Cup is most cherished for it is awarded to the champion dinghyman at Technology.

Freeman, Stouse Top Squash Tourney

Meet Held Tomorrow Will Decide Winner Of Emerson Trophy

Captain Phil Freeman and Lou Stouse will meet tomorrow afternoon at 2:00 o'clock on the Technology courts to battle it out for the M.I.T. Emerson squash trophy. Although Freeman is number one man on the varsity Stouse promises to be a formidable opponent.

To the winner and runner-up go individual cups donated by Mr. Charles Emerson, '04. While at Tech Mr. Emerson was an enthusiastic squash player; he was a member of the Boston Athletic Association team. The annual cup was donated to foster interest in the game of squash racquets among the M.I.T. undergraduates.

Winners of the past two years were Alfred P. Barton in 1940 and Semour Stearns in 1939. Robert G. Millar, '40 was runner-up both times. The present finalists entered this round by beating two other varsity men in hard-fought matches.

The First Church of Christ, Scientist

Falmouth, Norway and St. Paul St. Boston, Massachusetts

Sunday Services 10:45 a. m. and 7:30 p. m.; Sunday School 10:45 a. m.; Wednesday evening meetings at 7:30, which include testimonies of Christian Science healing.  7:00 P.M. Refrigerating Engineers Buffet—Pritchett Hall.

Sharp Decline In Number Of Voters Is Revealed By Elections Committee

A sharp decline in the number of men voting in nearly every class was revealed in an announcement made last night by the Elections Committee regarding the total vote cast.

Particularly noticeable was the drop in votes in the Class of 1943. From 500, out of an eligible 535, who voted in last year's closely contested election, the number this year dropped to 311, slightly under three-fifths of the registration in the class.

Freshmen Cast Most Votes

As usual, the freshman class turned out in the largest numbers. Nearly four hundred ballots were cast, and after those which did not follow the directions were eliminated, 380 ballots for president of the class were left. The Class of 1942 contest brought out 260 voters, while the Seniors, finding

little to vote for, filled in only 107 ballots.

Voting turnout throughout the years has not varied much from this year's situation. Almost always slightly over 50% of each class puts in ballots, with the freshmen having the largest representation, and grading down to the Seniors with the lowest. Last year's freshman vote, however, far outdistanced that of previous classes, with 94% of their membership voting.

A general decline in the average of the numbers voting has been observable in recent years. Concurrent with it has been a drop in the number of candidates running for each office. Before 1936 there were almost invariably five or more candidates running for each available position. This has decreased to an average this year of only two men seeking most of the important positions.

Nominees' Platforms

(Continued from Page 1)

dates look like, and the platforms for which they stand.

Coe Speaks on Sports

Jerome T. Coe, successful candidate for the presidency of next year's senior class, spoke about intramural sports. He complained of the lack of spirit and enthusiasm in the present intramural sports program as conducted by the Beaver Key Society. As a possible way to improve existing conditions and developing an intramural sports program worthy of the name and one that would receive the full cooperation and enthusiasm of all groups, he suggested the appointment of a faculty director of the program, to work in cooperation with the Beaver Key Society.

Carl L. McGinnis talked mainly on the workings of the Institute Committee. He cited another lack of student interest when he stated that, although Institute Committee meetings are open to all undergraduates, very few attend, and Litchfield Lounge is big enough to house all meetings.

Childerhose Discusses Prom

S. Richard Childerhose, who will be president of next year's Junior class, spoke about the Junior prom. He advocated a perpetuating Junior prom committee, with two Sophomores as members to gain experience, and with the previous year's chairman acting in an advisory capacity. He also suggested a tea dance for the day after the Junior Prom, and that complete records be kept in order to avoid the repetition of the mistakes of previous years.

Robert B. Meny, defeated frosh candidate, suggested the creation of a committee which would arrange periodic freshman-Sophomore competitions and thus maintain the spirit that is created each year at Field Day, but which annually dies out soon after.

Langdon S. Flowers, newly-elected frosh president, advocated a committee to procure dance bands for all Institute affairs. He stated that by dealing with New York representatives of bands instead of the Boston company a saving of \$100 could be made on every "big" dance of the year.

Jarosh To Hold Life Saving Class

Instruction To Start Monday, April 14 Continue Till May 9

Already thirty men have signed up for the classes in Red Cross Life Saving and Life Saving Instructing which will begin in the Alumni Pool next Monday. The classes for Instructors will begin at 4:30 P.M. next Monday and continue Monday through Friday every week until May 9. The classes in Life Saving will begin at 5:00 P.M. next Monday also, continuing Monday through Friday until May 9.

All men interested in these classes should contact Coach Jarosh at the Pool and sign up immediately. To qualify for lessons in Red Cross Life Saving, they should be able to swim 440 yards and know the simpler swimming and diving techniques.

To qualify for the training in becoming instructors, men must have already passed Senior Life Saving tests.

Class Elections

(Continued from Page 1)

Teddy F. Walkowicz were elected out of the eight men who were nominated.

Voting for Institute Committee representatives made Ernest F. Artz and Robert B. McBride representatives for the Class of 1942 on the undergraduate governing body. The other nominees were Carthrae M. Laffoon and John L. Collins. On the 1943 ballot, T. Kemp Maples and James A. Malloch defeated James T. Harker and Robert W. Maxwell. Freshman representatives on the Institute Committee are James R. Eberly and Douglas E. Root, Jr. Dormitory resident Bruce T. Benepe and commuter Howard Weaver were the losing candidates.

Shaw Is Secretary of 1942

Secretary-Treasurer of the Class of 1942 is Robert S. Shaw who ran against John T. Carleton. Robert J. Schaefer defeated three other nominees to gain the office of secretary-treasurer Class of 1943. Robert V. Bartz defeated Frank E. Carroll to become Secretary-Treasurer of the Class of 1944.

The Beaver Key Society election, in which the Class of 1943 voted for ten men of their class who were nominated by the Junior members of the society, brought Bernard S. Brindis, S. Richard Childerhose, Calvin B. Dunwoody, George C. Marakas, and Robert J. Schaefer into the Society.

Tech Embassy

(Continued from Page 1)

acquaintances Henry Ford, as exemplifying the great mechanical engineer and production genius, Luther Burbank, exemplifying the great botanist, Ralph Adams Cram, the great architect, and Cecil B. De Mille, the great movie director.

Support Needed

The T.C.A. will sponsor the Embassy financially, and will arrange the Tuesday afternoon meeting which Dr. Compton will call to order at 4:00 P.M. Nevertheless, the success of the dinners and the afterdinner speeches sponsored by the Dormitory, the Graduate House, the 5:15 Club, and the fraternity groups will depend on the work of the committees appointed from each of these groups.

Elected by fraternity representatives, Malcolm M. Anderson, '42, Chairman, Eric M. Wormser, '42, and Charles D. Magdsick, '42, will guide work on the fraternity meetings which will be held at the various fraternity houses. Harvey I. Kram, '42, Chairman, Robert B. McBride, '42, and Peter J. Dunne, '42, who were appointed by the Dormitory Board have secured Dr. Charles Butler, chaplain of Babson Institute to speak before the dormitory men after the dinner which will be held in Walker Memorial.

The 5:15 Club committee, composed of Richard M. Burns, '42, chairman, Bradford Torrey, '42, and Walter Eberhard, '42, has obtained a speaker, but has not announced his name.

Activity Notes

Alpha Phi Omega

An over-night camping trip is to be conducted by the M.I.T. chapter of Alpha Phi Omega this coming weekend. The campers will set out for Camp Quinepoxet from the steps of Walker Memorial at 1:30 P.M., Saturday, April 12.

Outing Club

Girls from Radcliffe, Simmons, and Sargent will mingle with Harvard and Tech students at the Outing Club square dance Saturday, April 12, from 8:00 P. M. to 12:00 at the Hangar Gym. Tickets for members only may be obtained today in the Outing Club office.
