PRICE FIVE CENTS

Graduation Speaker Is R. E. Wilson

Baccalaureate Address Will Be Delivered By Dr. Anton J. Carlson

Dr. Robert E. Wilson, president of the Pan-American Petroleum and Transport Company, will give the commencement address at the seventy-fourth graduation exercises to be held in Symphony Hall on June 10, Professor Ralph G. Hudson, chairman of the committee on commencement announced.

The baccalaureate address to the class of 1941 in Walker Memorial on Sunday, June 8, will be delivered by Dr. Anton J. Carlson, one of the country's foremost physiologists who, until his retirement, was a member of the faculty of the University of Chicago.

Wilson Graduate of Wooster

Dr. Wilson was graduated from the College of Wooster in 1914, and from Technology in 1916. Following his graduation from the Institute, he was appointed research associate in applied chemistry, a post which he left in 1917 to serve as a consulting chemical engineer for the U. S. Bureau of Mines. Dr. Wilson returned to Technology in 1919 as director of the research laboratories of applied chemistry and was later appointed associate professor of chemical engineering. He joined the Standard Oil Company of Indiana in 1922, and has been president of the Pan-American Petroleum and Transport Company since 1937.

Dr. Carlson was graduated from Augustana College in 1898, and was professor of physiology at the University of Chicago from 1909 to 1940. He is a member of the National Academy of Sciences and a former president of the American Physiological Society.

Backer Selected Class Orator

Course Representatives Picked To Symbolize Their Courses In Skit

Stanley Backer has been selected Class Orator for the Senior Week exercises, the Senior Week Committee announced last night. The Course representatives who will symbolize their courses in the humorous skit which is to be presented, have been chosen as follows: Course I: William T. Butt; Course II: Franklin L. Langhammer, Jr.; Course III: Willard S. Mott; Course IV: Eugene E. D. Crawford; Course V: Mason L. Downing; Course VI: Donald D. Scarff; Course VII: Merton L. Richardson, Jr.; Course VIII: Donald B. Cameron; Course IX: Paul M. Erlanson; Course X: William Cadogan; Course XII: R. Wilson Blake, Jr.; Course XIII: Charles B. Whitney; Course XV: Joseph H. Myers; Course XVI: Robert W. Blake; Course XVII: Harold E. Dato, and Course XVIII: Albert H. Bowker.

John L. Hummer, '43, Wins Eta Kappa Nu Award

John L. Hummer, '43, won the prize offered this year by Eta Kappa Nu, electrical engineering society, in their annual contest. Cyril H. Brown, '43, and Gregory G. Gagarin, '43, were awarded honorable mention.

The award is given each year to a Sophomore who submits the best solution to a problem proposed. The problem this year was to ascertain the cost of an E. E. Experiment to the Institute.

Next Issue Of The Tech Will Be Sold At I. F. C.

The management of The Tech announces that Friday's issue of the newspaper will not appear on the newstands at the usual time. Instead, an enlarged issue is being prepared which will be distributed at the I.F.C. Dance Friday night before being made available to the entire student body.

This super colossal paper will consist of sixteen pages. This issue promises to be of special interest to all members of the Institute.

Oarsmen Will Go To Poughkeepsie On June 25

Crews To Meet B.U., Harvard For Rowe Cup On Charles Saturday

For the first time in nearly a decade, a Technology crew will compete in the Poughkeepsie Regatta, it was announced last night. The big show of the rowing circuit is set for June 25.

The invitation extended by the Poughkeepsie stewards was accepted because the late date will give the Beavers ample time to train for the four-mile race which follows the end of the regular season on May 17.

Incentive on Saturday

The acceptance of the invitation will probably serve as added incentive to the Technology boats when they meet Harvard and Boston University in the Rowe Cup regatta next Saturday. Funds for the trip to Poughkeepsie are being supplied by former Institute oarsmen.

In the first race of the season on Saturday, Harvard is slightly favored, but the Engineers are generally considered a major threat. The fact that seven out of last year's eight have returned and that the Beavers have had five more weeks of practice than the Crimson points to an upset by Technology.

Compton Writes For New T. E. N.

"Technology Girds for Defense", by Dr. Karl T. Compton is the principal article in the April issue of The Tech Engineering News, which will be placed on sale Thursday and Friday of this week. Outlining the more important activities of the Institute and its staff in defense work, the article covers both the educational and the research aspects of the work.

W. S. Farish, president of Standard Oil of New Jersey, supplies the second article in the issue. Mr. Farish predicts the opportunities which will be available to engineers when the present emergency is over. He attempts to forecast what conditions will prevail with regard to employment after the present conflict.

Other articles in the magazine include one by Dr. Percy W. Briggeman of Harvard on methods of producing very high pressures, one by Professor Ralph E. Freeman of the department of Economics on the part of the economist in industry, and completing the issue is an article on "Tech in the Last World War", by Robert V. Bartz, '44.

Magoun Talks Begin Today

Lecture On Criteria For Happiness At 4 And 5 P. M.

In the first of a new series of marriage lectures under the auspices of the T.C.A., Professor F. Alexander Magoun, department of Humanities, is to describe "Criteria for Happiness" today from 4:00 to 5:00 and again from 5:00 to 6:00 P.M. in Huntington Hall, Room 10-250. This lecture reopens the annual series of talks on marital problems by Professor Magoun.

The lectures are to follow somewhat the same channels as those of last year, but will be revised to fit the changing world conditions. The theme of all the lectures is "Marriage Problems in a War Torn World".

Broad Education Necessary

Engineers who receive thorough technical educations should not be deprived of a complete education on how to live later in life is Professor Magoun's belief. The renewal of the lectures is due to popular demand by the graduating class.

Following lectures include "The Value of Conventions" to be presented on April 29, "Emotions and the War" on May 6, and on May 13, completing the cycle, "Good Method". Although primarily for Seniors, the lectures are open to all students.

Frosh Counseling Starts Tonight

Courses V, XIII, XVII Hold Meetings At 4:00; Others Will Follow

Freshman course counseling receptions start today at 4:00 P.M. when Course V, Chemistry, holds a meeting in Room 6-321, Course XIII, Naval Architecture, in Room 5-230, and Course XVII, Building Construction, in Room 7-143. These receptions are the second step in course counseling following the discussions held last Thursday by Professor Samuel C. Prescott, Dean of Science, and Dean Edward L. Moreland, Dean of Engineering.

At these meetings, arranged by the T.C.A. Course Counseling Committee, members of the freshman class will be enabled to discuss informally matters of interest pertaining to course selection, requirements, and opportunities.

Thursday's Meetings Listed

On Thursday, April 24, at 4:00 Course X, Chemical Engineering, will meet in Room 2-190 and Course XVIII, Mathematics, will meet in Room 2-170. For next Tuesday, April 29, three courses have scheduled meetings. Course II, Mechanical Engineering, (Continued on Page 4)

Gridiron Initiates To Produce Melodrama

An informal initiation of the fifteen new members of Gridiron, honorary publications society, will take place at a banquet to be given in the Dutch Room of the Graduate House, Wednesday, April 23, at 6:00 P.M.

The fifteen new men chosen from the Voo Doon, Technique, The Tech, and T.E.N. for their work on these publications are to offer after-dinner entertainment by way of a skit. According to the initiates who are writing as well as putting on the skit, the play is to be a melodrama in four acts and eight scenes.

The Tech Rocks Collegiate World With Fiery Edit

The Tech rocked the collegiate world last month with the publication in its editorial columns of a scathing editorial questioning the claims of both the Miami Student and the Dartmouth to the position of the oldest college newspaper in the country. Coming just at a time that the staff of The Tech was beginning to wonder whether anyone bothered to read the paper, the fury set off by the edit has vindicated the faith of Technology's newsmen in their organ.

Collegiate journalism is being shaken to its very foundation with the controversy, which, since the publication of the editorial, and its quotation in full by the Collegiate Press Review, has spread like wildfire to all parts of the country. Duels are being fought daily in hundreds of colleges from coast to coast. Dartmouthies and Miamians shoot each other down on sight. Ah the power of the Press!

Tech Carnival Promises Fun

Varied Entertainment Scheduled, With Door Prizes Planned

Champagne is to be awarded as door prize at the All-Tech Carnival, on Saturday, April 26, in Walker, Walter S. Eberhard, '42, president of the 5:15 Club, announced last night.

Highlighting the affair will be the choice of a Carnival Queen who is to be selected by applause from the floor after nominations by the chaperones. The queen will receive a permanent trophy suitably inscribed for the occasion.

During the intermission, a novel quiz program on various phases of Technology life and its environments is to be held under the tutelage of Irving Berman, '41. Prizes will be awarded to the contestants.

Turtle Races, bombing machines, roulette, horse-racing and dart games, penny pitching booths, strength and nerve-testing machines will line the walls of Morss Hall, the Lounges, and the 5:15 Club room. In Morss Hall, dancing to the music of Leon Mayers is to be held from 8 until 12.

Photo Contest Winners Named

A. William Welch, '41, was awarded best-in-show prize for his picture "Headwall" in the M.I.T. Camera Club's Second Annual Salon, it was announced last night. The judges were Professor L. B. Anderson of the Architecture Department, Mr. Frank Conant of the Technology Photo Service, and Mr. Henry B. Kane, Director of the Alumni Fund.

By divisions the awards were: scenes division: first, Welch; second, John C. Potter, '41; honorable mention, Raymond A. Frigon, G; Robert Coulson, and Warren L. Knauer, '43; portraits division: first, Robert A. Mallory, '41; second, William L. Babcock, '41; and honorable mention, Warren W. Menke, '42; still life division: first, David J. Crawford, '43; second, Willis H. Yocom, '42, and honorable mention, Menke; action division: first, Welch; second, Potter; honorable mention, Geoffrey Robillard, '44, and Samuel A. Scharff, '43.

These prints will be on exhibit in the Photo Service Galleries until May 5.

I. F. C. Plans Floor Show, Door Prizes

Traditional Bottle Of Champagne To Be Given Away In Raffle

A floor show and door prizes have been added to the entertainment planned by the Intra Fraternity Conference Dance Committee for their annual Ball to be held Friday evening, April 25, in the Imperial ballroom of the Hotel Statler from 9:30 until 3:00 A.M.

Six of Technology's swing minded undergraduates have been engaged to hold a jam session during the floor show planned by the committee. William R. Ahrendt, '41, on the trombone, Vincent G. Kling, G, on the guitar, Paul M. Erlanson, '41, playing the trumpet, Arthur L. Porter, '42, on the saxophone and clarinet, Douglas E. Root, Jr., '44, beating the drums.

Professor Simpson has been assisting the committee in their attempts to find a magician who will move from table to table entertaining the guests throughout the evening.

The patrons and patronesses who have been invited by the committee include President and Mrs. Karl T. Compton, Professor and Mrs. James R. Jack, Mr. and Mrs. Nathaniel M. Sage, Mr. and Mrs. Walter H. Stockmayer, Professor and Mrs. Walter R. MacCormack, Mr. and Mrs. Horace S. Ford, Mr. and Mrs. Delbert L. Rhind, Professor and Mrs. J. Warren Horton.

Dorm Committee Elects Ten Men

Artz, Dunne, Flipse Nominated For Chairman Of Committee

In a combined meeting the Dormitory Committee last night the following Juniors were elected chairmen of the following committees: Dance Committee, Gordon H. Hill; Athletic Committee, Morris A. Steinberg; Freshman Committee, Bernard A. Greenes; Social Committee, Roswell W. Austin; Burton Room Committee, Nils Otto, John Loven; Dorm Rumor Martin B. Levene; Dinner Committee, Emilio Touche; Publicity Committee, Harvey I. Kram. The following Sophomores were elected members-at-large: Bernard S. Brindis and Samuel R. Childerhose.

Juniors Ernest F. Artz, Peter J. Dunne, and John E. Flipse were nominated for chairman of the dormitory committee.

Frosh And Sophs Vie For Boit Essay Prize

The annual Boit Prize Essay Competition open to all Sophomores and freshmen is to be held on Tuesday evening, April 22, from 7 P.M. to 9 P.M. The freshman competition will be held in Room 2-390 and the Sophomores will write in Room 6-120. Subjects will be offered just before the actual contest is to begin, the number of words is limited only by the two hours allotted.

In last year's contest, four prizes were awarded to each of the classes, \$65.00 for the Class of 1942 and \$70.00 for the Class of 1943. This year's prizes and the amount each winner is to receive will be decided by the judges, which include several Institute professors.

LET'S SWIM DOUBLE ON SATURDAYS

The spring social season which opened with the Assemblies Ball Friday night will be in full force from now until examinations. With this social season, many of the fellows will be having their best girls come up to Boston for the affairs, and the problem of showing them the best time possible will be uppermost.

The swimming pool is one of the most presentable parts of our campus and it should be the ideal place to spend a spare afternoon. However, there are several inherent difficulties because of the hours scheduled for mixed swimming. At present, mixed swimming is restricted to Sunday afternoon and evening and holidays. This means that if your date must leave before early evening Sunday, the pool facilities are completely out of your reach. You can not even show her what the pool looks like, let alone swim in it.

There appears to be no real reason why the pool could not be opened to mixed swimming Saturday afternoon and evening in addition to the hours on Sunday. This would permit a larger number of students to use the pool Saturday, yet since no team or competitive events take place at that time no one would be denied its use. We feel that this is one way the swimming pool could be made to fill a greater part in the social life of Technology undergraduates.

MUSICAL PROBLEM NUMBER 1

With the presentation of the joint concert given by the M.I.T. Glee Club and the Wellesley Choir, our attention was called to the poor home support given the Musical Clubs as attested by the absence of Tech students at this affair.

It isn't as though no one other than faculty members ever listens to our Glee Club. Whenever the club gives a recital on other campuses, it sings before large audiences, and is usually well received. Is there any reason why the same could not or should not be true for home concerts?

The real rub, however, comes at the close of these mixed concerts when the audience that was not there to listen to the concert miraculously appears, all set to enjoy the formal dance for the singers that usually follows. These playboys evidently had the time and opportunity to attend the concert, but their love for music seems to be limited to boogie woogie. As a result, Glee Club members, after singing to a very disappoint-

ing crowd, must take their chances in a stag line at their own dance. As long as both the concert and dance are open affairs, this latter effect cannot be eliminated very well. But doesn't it seem reasonable that any self-respecting student would at least have the decency to attend the concert before cutting out his best pals?

THE DRAFT

In reply to the editorial published in these columns March 25 about drafting engineers, the Massachusetts State Headquarters for Selective Service sent the following letter outlining the law as it exists today and the reasons behind its regulations.

THE READER SPEAKS

Editor, The Tech,

Dear Sir:

Your letter dated March 26th addressed to the President, has been referred to these Headquarters for reply.

We have studied your letter together with the editorial which appeared in the recent issue of The Tech on the problem of drafting engineers. A study of the purpose of Selective Service is very well described in paragraph 101 of Selective Service Regulations: "To secure an orderly, just and democratic method whereby the military manpower of the U. S. may be available for training and service in the land and naval forces of the U. S., as provided by the Congress, with the least possible disruption of the social and economic life of the nation."

The Act itself prevents any blanket deferments by groups, industries or plants. In a recent speech made by Major J. F. Battley, Occupational Adviser, National Headquarters, Selective Service System, he states:

"We recognize that Selective Service must be truly selective; and that it has a dual function. We must on the one hand procure sufficient men for the armed forces, while on the other hand we must not interfere directly or indirectly with the National Defense production program and must cause the least disruption possible to the economic and social structure of the Nation.

"Prior to the time that the Selective Service Act was enacted, much discussion was had as to the advisability or inadvisability of providing specifically for group occupational deferments. You will probably recall the great criticism that arose during the operation of Selective Service at the time of the World War when blanket occupational deferments were granted to workers in the shipyards. As a result of that experience and other experiences, it was obvious that any group occupational deferment would be subjected to charges of discrimination, for it was believed that under a group deferment men would be deferred who could in fact be replaced and who consequently should not have been deferred. Also, it was believed to be impossible to specifically set forth all groups which should be deferred without including some which should not have been included and without overlooking some which should have been included. Consequently, a provision was written into the law prohibiting group occupational deferments and requiring that deferments be granted only on an individual basis by local boards, subject to appeal, after considering the case of each registrant on its own facts.

"Actuated by none but the most patriotic impulses, representatives of different interests—agriculturists, industrialists, men engaged in shipping, educators, and religionists—have come forward with arguments for absolute exemption of their own class from the Selective Service Act. These arguments in their respective field, are almost unanswerable, but which in the broad view of the national necessity, would (if all were acceded to) result in an army composed of vagrants and sons of the idle rich, inadequate in numbers and contemptible in personnel."

To date, the 173 Local Boards of Massachusetts have registered 503,603 registrants and have classified 37.67%. Of this total classified, 12.3% are in Class I-A, immediately available for military duty. 3.58% have received occupational deferments, but are potentially I-A men. 64% have been placed in Class III having dependents and the balance in IV-F, physically and mentally unfit. From these figures you can readily see that the Massachusetts Local Boards have been doing a splendid job of classification. The state has a very large National Defense procurement project, and the Local Boards have been extremely sympathetic with this additional work that industry has undertaken. Technical men of all categories have been granted deferment where these men could be considered as key men in the light of public health, safety, and interest as well as directly connected with defense programs. Even men in training or preparation therefore, have been likewise considered.

We trust that the above will answer in some small part, the questions you have raised.

EDGAR C. ERICKSON
 State Director

By Roy C. Charron
 State Adviser on
 Occupational Deferments

For Boys To Play

by Stewart Rowe and Joseph Tankoos

To the some seven hundred people who gaily thronged Morss Hall last Friday night the Walker Dining Staff proved again that their Assemblies Ball is certainly one dance not to be missed. Well planned, well staged, and well put-on, the Seventh Annual Assemblies Ball was indeed a gala success.

The Walker Dance Committee who for quite some time have been doing what was recently suggested all dance committees staging "big" dances attempt, i.e., the presentation of entertainment during intermissions, put on a program which makes this proposal seem particularly feasible.

First event on the evening was a terpsichorean exhibition by a pair of Arthur Murray dancers whose main theme was a burlesque of New York dance floor tactics and which, despite deviations from strictly objective evidence, was really quite amusing. A later event which rated high in entertainment value was the fencing exhibition put on by Sherburne and Krieger.

A buffet served well on in the evening likewise went far towards making Friday night's dance a "super" affair.

At the gay and happy Theta Delta Chi house dance were Jim Carmody and his orchestra with music until early in the morning. Oh, yes, the roof business, it seems, was an unfounded rumor.

To those gents who came up Friday to tell us about Deanna Durbin not being married we refer you to an article in Saturday's paper date-lined Friday, April 18, telling of the marriage of Deanna Durbin to her

associate producer—Walter Winchell take notice.

Spring is in the air, and in the Spring a young man's fancy turns to thoughts of what a girl has been thinking about all winter—oh, you heard that one too? Well, anyway, this afternoon at 4 and again at 5 Professor Magoun will open a new series of marriage lectures with a talk on "Criteria for Happiness." In case you're new around here, or are one of the few upperclassmen who didn't go last year, we advise attendance. We shall be there, from purely professional interest, of course.

Back a few weeks when we went on an eating-place spree, we neglected to mention the Toll House only because we thought everyone knew about it. Since then we have discovered that lots of people don't. It started out a number of years ago as an unpretentious place, and has been enlarged nearly every year since its beginning. It is located in Whitman, Mass., which is down near Brockton, on Route 18. The food is excellent, the surroundings pleasant. What's more, when you dine at the Toll House, you can have second helpings ad infinitum of any part of your dinner. Almost all the dinners are priced between one and two dollars.

Tonight in Litchfield Lounge, someone is holding a meeting for all those who have any interest in learning about Union Now. Although we have no definite information there is probably a Technology Union Now Club in the offing. So if you are a fiend on the subject you can be a charter member, and if you are cynical you can be a heckler. The time is 7:30.

Knapp, Coe Pace Sailors; Win Owen Prize

Dinghymen Vanquish Yale And Eight Others, Score 156 Points

The George Owen Trophy, recently donated by retired Professor George Owen, '94, designer of the Tech dinghies, will remain at Tech this year as a result of the fine sailing of Jerry Coe and Dick Knapp in this year's First Annual Eastern College Dinghy Regatta for the trophy this week-end.

Jerry Coe won five firsts in the nine "A" or Red division heats to take a total of 71 points. With the highest score of the regatta, and the only score higher than Coe's, Dick Knapp, skipper in the Tech B, or Blue Division boat, took 85 points with five firsts, three seconds and a third.

Yale Second

Second to Tech was Yale, whose skippers, John Ware and Richard Besse, won only one race apiece, but placed high in the other heats. The Blue was 34 points behind the Beavers, taking 122.

One of the most outstanding performers in the Regatta was Harvard freshman Dave Noyes, who skippered his A division boat into third place, crowding Coe in the third, fourth and fifth races and edging him out in the next two. However, his luck failed him in the eighth race, when he jumped the gun and finished out of the running after being called back. Coe mentioned yesterday that, "Noyes was plenty hot Sunday!"

(Continued on Page 4)

New Coach Signed For Spring Soccer

Big Turnout Expected For Intensive Practice Starting April 28

Recently signed by the M.I.T.A.A., John F. Craig will take over his new duties as soccer coach on Monday, April 28, when spring soccer practice starts. Craig has for the past twelve years been coaching at Watertown High School which last year had a very successful season, winning twelve games of a fifteen game schedule.

When practice starts the new coach is eager to have a large turnout. Previous experience is unnecessary, and all who have played or are interested in playing will be welcome, manager Bowers said.

Practice will last only two weeks, but will be very intensive, according to Dexter K. Bowers, manager of the team, and at the conclusion of the spring workout, a practice game with Harvard may be arranged.

Craig, the new coach, played soccer in Scotland in his youth. While coaching at Tech, he will for the present continue his duties as director of athletics at Watertown High. He succeeds Malcolm Goldie as Beaver mentor.

Baseball Tourney Gets Under Way

The first round of the Beaver Key Softball Tournament held at Briggs Field was concluded over the week-end.

The results, according to manager Bill Denhard, were as follows: Alpha Tau Omega 8, Sigma Alpha Epsilon 0; Sigma Alpha Mu 14, Theta Chi 13; Phi Gamma Delta 38, Theta Xi 1; Phi Delta Theta 11, Lambda Chi Alpha 6; Delta Kappa Epsilon 32, Phi Beta Epsilon 3; Sigma Chi 19, Delta Psi 6; and Sigma Nu 19, Phi Lambda Phi 13.

Further results were: Phi Sigma Kappa 23, Phi Kappa Sigma 9; Theta Delta Chi 14, Chi Phi 10; Phi Mu Delta 40, Beta Theta Pi 0; Delta Upsilon 12, Kappa Sigma 5. The computers and Delta Tau Delta lost their games by default to Phi Kappa and the Student House, respectively.

Ball Game With Jumbos Called Off By Beaupre

Because the Jumbo team wanted to postpone the game again, last Saturday's baseball tilt with the Tufts Jayvee was called off. The game will not be played at all, according to playing captain and coach Ed Beaupre. The Beaver schedule is complete for the remainder of the season.

This Saturday afternoon the Tech Independent baseball team will take on the Harvard Frosh, Beaupre said.

Lacrosse Team Loses To Tufts In Final Minutes

Beavers To Engage Champion Wildcats In Next Scrimmage

Tied in the last three minutes and beaten in the last minute and one-half, The Tech lacrosse team lost a heart-breaker to Tufts last Saturday. Leading by one goal till the end of the game was in sight, the Beavers were nosed out by a 5-4 Tuft's victory.

Played on Briggs Field, the game turned out to be the roughest yet this season. Penalties were plentiful, as were uncalled fouls, though injuries consisted of one sprained ankle picked up by second attack-man Hill.

High Scorers

For Tech the scoring was done by Leader (2), Sibley (1), and Powell (1), with Hill and Gander completing the attack. Playing defence were Evans, Dunwoodie, Fenton, Given and Hooper. Outstanding Tufts player was Mitchell who scored 2 goals and was credited with one assist.

Next on lacrosse schedule is one of last year's winners of the New England lacrosse conference, New Hampshire. The Wildcats will defend their championship in home territory as the game is to be played at Durham on Wednesday, April 23, at 4:00 P.M.

Golfers To Open With Brown Friday

With members practicing daily at the Oakland Country Club in Belmont, the Technology Golf Team is rapidly rounding into shape. The first game of the season—against Brown University—is scheduled for next Friday at Providence.

Team members for this trip have not as yet been chosen, but according to Chris Peek, '42, manager of the team, the following men will probably be chosen, depending on their performance at practice this week: Doug Scott, George Urquhart, Arthur Avent, Gene Morrison, and Chris Peek.

Tracksters Prepare For Colby Saturday

With their first meet only four days off the tracksters are pounding cinders and clearing bars in order to defeat Colby on Saturday, April 26.

The Beavers have trimmed Colby the past two years: 80½ to 54½ in 1939 and 88½ to 46½ in 1940, and are determined to trim the White Mules again and to begin another undefeated season as they did last year.

The freshmen too are preparing for their season opener against Governor Dummer Friday, April 25, at 4:30 on Briggs Field.

Seven Champs Win Titles In Wrestling

Intramural Tournament Winners To Be Given Medals At Banquet

Seven men won wrestling titles in their respective classes in the intramural tournament last Friday in the Hangar Gym. Six men will be awarded silver runner-up medals.

Freshman John Eberhard won the heavyweight crown in the finals by defeating Mayer. He will be presented with a gold medal Wednesday at the annual boxing wrestling banquet.

Seven Champs

Bob Gillolly won champs first place in the 128-pound class by defeating Bob Chang who will receive a runner-up medal. Tony Fiorentini lost a close bout to Clark in the finals of the 136-pound class.

Damsgard topped Paterson in the 145-pound division, and Brad Torry lost to Bill Botten of the 155-pounders. Gardner after three stiff rounds won a decision over 165-pound Lew Ozimek. Masnik won a gold medal in the 175-pound class by pinning Scott.

Annual Banquet

At the annual banquet of the boxing and wrestling squads which will be held at 6:30 Wednesday, April 23, at Durgin Park Restaurant, letters, numerals, and medals will be awarded. The medals will be given to the above winners of the wrestling tournament and to Al Saer, Bob Fabacher, Maxwell and Brown, winners of the boxing tournament in the 165, 155, 145, and the 135 pound classes respectively. The medals will be presented by coaches Tommy Rawson and Joe Rivers.

Wrestling Letters will be awarded to C. H. Keno, W. A. Schwarzmann, R. C. Telts, J. B. MacKenzie, D. M. Schaeffer, F. P. Seeley, J. T. Carleton and H. W. Byfield. Freshmen Bob Gillooly, Dick Grant, Bill Clark, Bill Botten, Walt Masnik and Frank Walke will receive numerals in addition to Sophs Art Karnuth and Charles Lawson.

Basketball Men To Hold Banquet

The annual basketball banquet will be held tonight at 5:45 P.M. in the Dutch Room of the Graduate House. The usual awards of letters and numerals will be made, and next years basketball captain will be selected.

Besides the players the presence of Coach McCarthy, referees Ed Kelleher and George Clark, timer Ray Morrell, and Tom Creamer, '40, who was basketball captain and President of the M.I.T.A.A. last year, is anticipated.

Crimson Crewmen Are Heavier And Taller Than The Beavers

Having lost three men of the heavies through graduation last year, the Harvard crew that the Tech varsity eight will face on Saturday in the Rowe Cup has only three men from last year's first eight in their first boat this year.

The heavies are stroked by Wagner, weighing 174 pounds, who had been promoted from the Jayvees crew in which he rowed last year. 188 pounder Hinkley is seven in his first year on the varsity, 190 pounds of Whitman fill the space behind Hinkley, Herter who weighs 188 pounds rows at five; for both of them this is the first year in the varsity.

Captain Sherman Gray, who was six last year, is at four this year. He weighs 185 pounds. Goddard, also of last year's Crimson boat is the same weight and behind Gray; Pennoyer is a 180-pound two man, Pirnie, the other veteran, is bow. Ducey the cox was on the freshman squad of 1939 and this is his first year as Varsity cox.

Bolles Comments

Commenting on their performance head coach Tom Bolles stated that as they only had three weeks on the

river this spring it was too early to tell what they could do.

The average Crimson weight is about 180 pounds to the average Technology weight of 177, while their average height is 6 ft. 3 in., to the Beaver 6 ft. 1 in.

The Crimson Freshman are stroked by six footer Morse who tips the scales at 163. Behind him are Noyes, Chase, Eustis, Knapp, Church, Michalis, Wentworth. The freshmen are coxed by Leland. The average height is around 6 feet and the average weight is about 172. Four of the squad have rowed for their prep schools.

Tech Varsity Beats Frosh

The Engineer varsity beat the frosh by two lengths over the Henley distance last night. Having given the forty-four boat a one and a quarter boat length start, the Beaver first eight gained slowly but surely on them and at the finish were three-quarters of a boat length ahead. The time was seven minutes and two seconds and the conditions were unfavorable with a strong side-wind and choppy water. Head coach Bob Moch thought that the rowing was fairly good.

Fourteen Elected To Baton Society

Fourteen new members were elected to the Baton Society, honorary society of the M.I.T. musical Clubs, at the last meeting of the Society. The formal initiation banquet will be held in the Hotel Myles Standish, Wednesday evening, April 23, at 7:00 P.M.

Those elected were: Henry Batiuchok, '43, Frank G. Canney, '41, William C. Cooper, Jr., '43, Raymond E. Hahn, '43, John J. Hess, Jr., '43, Carleton G. Lehr, '43, Warren S. Loud, '42, James L. McClellan, '42, Christian J. Matthew, '43, Barrett B. Russell III, '43, Charles J. Swet, '43, Walter G. Wells, '42, and Benjamin F. Wilbour, Jr., '43.

The candidates for Baton were selected from those who have done the most to promote an active interest in music and Technology.

Course Counsel

(Continued from Page 1)

will meet in Room 1-110, Course IX, General Engineering, in Room 4-208, and Course VII, Biology, in Room 7-403. All these take place at 4 P.M.

Four meetings will be held on May 1 when Course I, Civil Engineering, meets in Room 1165, Course III, Metallurgy, in Room 8-219, Course VI, Electrical Engineering, Room 1-340, and Sanitary Engineering in Room 1-165. These meetings, as will all others, will be held at 4:00 P.M.

On Tuesday, May 6, Course VIII, Physics, meets in Room 6-321 and Course XV, Business Administration, in Room 1-285. Completing the receptions are those to be held Thursday, May 8, when Course XII, Geology, entertains in Room 4-354 and Course XVI, Aeronautical Engineering, meets at the Wright Brothers' Wind Tunnel.

Math Contest

Three Technology students representing the Department of Mathematics of the Institute in the annual William Lowell Putnam Mathematical Competition sponsored by the Mathematical Association of America were awarded third prize consisting of \$200.00 in the competition, which was held on March 1.

The team consisted of John R. Baumberger, '43, Eugene D. Calabi, '43, and Warren S. Loud, '42. Loud was given honorable mention for his high individual standing.

R. O. T. C. Elections

Fourteen new Cadet officers of the Technology Reserve Officers Training Corps Regiment were announced by the Department of Military Science. These officers will join those cadet officers chosen earlier in the year.

Those appointed to the rank of First Lieutenant are Norman P. Anderson, '42, Michael Driscoll, '41, Paul J. Joyce, '41, Harold Radcliffe, '41, Edward G. Sherburne, Jr., '41, Michael D. Slocum, '42, Stanley H. Van Greenby, '41, and Russell T. Werby, '40.

Second Lieutenants include Arthur L. Covitt, '41, Stanley E. Webber, '41, George M. White, '41, Earle D. Benson, '40, Irving Berman, '40, and Arthur S. Spear, '42.

Sailing

(Continued from Page 3)

Harvard and Brown tied for third with 108 apiece. Following were Dartmouth, 104; Princeton, 100; U. S. Coast Guard Academy, 79; Navy, 79; Williams, 62; and finally Cornell, 46.

The Tech victory this week-end showed promise for next Sunday's Eleventh Boston Dinghy Club Challenge Cup Regatta sponsored by the M.I.T. Nautical Association. Beginning next Sunday at 10:00 A.M., all members except Navy of the Intercollegiate Yacht Racing Association, plus qualifiers in the several elimination races which are being held in different sections of the country now.

Qualifiers in last Saturday's elimination race at Brown were R. I. State and Amherst. One school from a mid-western elimination, from the elimination to be held at Princeton, and from a race at Annapolis will soon qualify.

Activities

M.I.T. Math Society

The M.I.T. Mathematical Society announces that Mr. John S. Hermistone, '41, is to present his thesis on the significance of the difference in two normal samples on Tuesday, April 22, from 5:00 to 6:00 P.M. in Room 4-270. Mr. Hermistone is a senior in statistics.

Tech International Club

The Technology International Club has planned a Smorgasbord dinner meeting to be held at the Restaurant Thor on Tuesday, April 29, at 6:30 P.M. Mr. William S. Howe of Federal Union, Inc., will talk on "The Plans for a Federal Union" at this meeting, which will follow the regular general meeting in Room 6-120 at 5:30 P.M. Officers for the ensuing year will be elected at the regular meeting.

Menorah Club

At the last meeting of the Menorah Society, held last Friday afternoon at 5:00 P.M. in the Faculty Lounge, temporary officers were chosen for next year's activities. Those selected were Leo H. Penn, '42, President; Bernard A. Greenes, '42, Vice-president; Paul I. Pressel, '43, Treasurer; Benjamin D. Halpern, '43, Secretary; and Bernard Rabinowitz, '44, Chairman.
