

## Pres. Compton Speaks Sunday With Glee Club

### WBOS To Carry First Radio Concert By Short Wave

President Karl T. Compton is scheduled to speak on the radio this Sunday afternoon as guest of the Technology Glee Club, which is making its first radio appearance of the year. This program will be heard over station WBZ, from 2:30 to 3 P.M.

The program will also be broadcast over the world-wide short wave station WBOS, and will be recorded and then rebroadcast during the week over the entire Westinghouse circuit.

The program of the glee club will include the following selections: *Now Let Every Tongue Adore Thee* (choral from the cantata "Sleepers Awake," by Bach); *The Fish* (a setting of a poem by Ogden Nash, for men's voices, with piano accompaniment) with Northrop Brown, a graduate student, as accompanist; and *For a Last Goodnight*, by Schubert, with Arthur L. Lowell, '41, a baritone, as soloist.

## International Club Selects Gomez, '42

### New President Cites Committee Aims For Coming Year

Paul C. Gomez, '42, was elected president of The Technology International Club at a meeting of the society in Room 6-170 last Tuesday afternoon. With Gomez will be Stephen N. Steen, '43, vice-president; Conrad A. Lau, '42, and Hans Flegenheimer, '43, honorary secretaries, and Charles W. Thompson, '43, the retiring president, treasurer.

After the election Gomez explained the aims of the new committees as being to augment the membership of the International Club to over the 300 mark, to include in the membership of the club every student from a foreign country and any American student interested in international relations to have a very active social program cooperating with all the other schools in the Greater Boston area, with dances, debates, discussion dinners, tea-dances, and trips constituting the major part of the schedule, and lastly to try for a greater cooperation from its members by having a poll taken of suggestions for the general improvement of the club until it becomes the most socially active club on the campus.

The new committee stated that a letter would be sent to all the student club members to corral at least one other student and get him enrolled in the club. It will also apprise them of the changes made in the club.

## Course II-A Society Elects Owen As Prexy

Nathan R. Owen, '41, was elected president of the Course II-A Society at a dinner meeting of that organization held in the west dining room of the Graduate House last Wednesday evening. Also elected at this meeting were Benjamin C. Thorn, '41, as secretary, and Walter W. Aker, '41, as treasurer. These men will head the Society during their graduate year in the cooperative course.

Guest speaker at this meeting was Mr. E. C. Delano, New England manager of the Industrial Division of the Westinghouse Company. His talk was about the engineering opportunities to be found in connection with the sale of large industrial apparatus.

## Mixed Swimming Starts Trial Period, May 10

Mixed swimming on Saturdays will begin May 10 in the Alumni pool for a trial period, it was announced Wednesday by Mr. Ralph T. Jope, chairman of the Advisory Committee on Athletics. The pool will be open on Saturdays from 2 P.M. to 10:30 P.M., while the usual Sunday hours will continue.

The adoption of mixed swimming on Saturdays has not been established as a regular policy, but will be continued until the end of the term to determine its feasibility.

## Committee Plans "Grape" Punch For Frosh Prom

Staging a grand promenade as the highlight of the evening, the class of 1944 hopes to emulate the success of the upper classes in staging the 1941 edition of its annual class dance to be held Friday, May 9, in Longwood Towers with music furnished by Harry Marshard.

To lessen the "stiffness" so often derided by the Technology men-about-town, a bowl of "grape" punch is to be placed in an accessible corner for all to taste and admire, according to Perry W. Wilder, Jr., '44, chairman of the dance committee.

### To Have 13-Piece Orchestra

A 13-piece "semi-swing" band has been promised by Marshard, which is to present the danceable numbers and popular numbers now being displayed at the Balinese Room of the Hotel Somerset. A mysterious brunette, "renowned for her golden voice, and her sparkling personality," is also scheduled to present vocals throughout the evening, according to Kenneth W. Nelson, '44, chairman of the band committee.

Faculty members invited to act as patrons and patronesses are Dr. and Mrs. Karl T. Compton, Professor and Mrs. James R. Jack, Dean and Mrs. Thomas P. Pitre, Professor and Mrs. Arthur R. Davis, and Professor and Mrs. John T. Rule.

## Senior Week Redemptions Begin Next Monday, May 10

Sales of Senior Week option redemptions will begin next Monday, May 5, and will continue throughout next week. The price of the redemption is \$8.00 cash. No bursar's or R.O.T.C. pledges will be accepted, according to an announcement made by the committee last night.

The options are good for the blanket redemptions only. Individual tickets for the various highlights of Senior Week will also go on sale at the same time, at the following prices: Senior Ball \$9.00, Tech Night at the Pops \$1.50, Senior Banquet \$2.00 and the Tea Dance \$1.00.

## Associate Collegiate Press Ranks The Tech With Rating Of "Good"

Gaining increased recognition for its contribution The Tech was granted a rating of "good" by the Associate Collegiate Press in the Press' 24th Annual All-American Newspaper Critical Service. At the top of this class, The Tech has risen to this position from a rating of "fair" two years ago.

Organized to analyze and evaluate the work of the college publications of America, this critical service composed of several prominent journalists and college professors regularly criticizes constructively any college paper that enters this competition. To make the competition as fair as possible, papers are classified according to their method of publication, the type of college at which they are written, the enrollment of the school, the circulation and the frequency of the issue.

## POINT OF ORDER, MR. FRANKEL

Newly elected president, Ray Frankel speaks at the Debating Society's annual banquet. At his right is Roger Blum with featured speaker Professor F. A. Magoun at his left.

## Technique Pictures Available In Walker

All Technique pictures, except fraternity and crew pictures, that were ordered during the campaign in the Main Lobby can be obtained in the Technique office, Room 308 Walker Memorial. The office will be open from 2:00 until 6:00 P.M. daily at which time the yearbooks may be purchased for \$5.00.

There will be a representative of the Technique photographer in the Main Lobby of Building 10 from Monday, May 5 through Friday, May 9. All members of the Class of 1942 are requested to make an appointment with the young lady for sittings for the 1942 Technique.

## Beaver Key Elects Knox President

### Smith, McBride, Briggs, Selected As Other Officers

Harry E. Knox, Jr., '42, was elected president of Beaver Key, honorary Junior class society, at the elections meeting of the society held recently. Others elected were Charles H. Smith, '42, vice-president; Robert B. McBride, '42, secretary and Jack D. Briggs, '42, treasurer.

To stimulate a greater degree of cooperation between the dormitory intramural program and that of Beaver Key's, a motion was passed at the meeting to make the chairman of the dormitory athletic committee a member of the society and also a member of its executive committee.

## Institute Trains Meteorologists

### Government Branches Cooperate In Course To Begin July 1st

An urgent need for trained weather forecasters was revealed yesterday when the Institute announced that 105 selected college graduates will be given a special course in meteorology beginning July 1st.

The course is being given in cooperation with the United States Army Air Corps and the United States Weather Bureau. Applicants who are successful in satisfying either the requirements of the Air Corps or the Weather Bureau will be paid \$75. per month during the course of their training. Upon completion of the course, candidates will have an opportunity to try the Civil Service examination for junior professional meteorological assistants if they have taken the course under the supervision of the Weather Bureau, agreeing to service if necessary in the Army, Navy, or other governmental agencies, as well as the Weather Bureau.

### Obligations

If the course is taken under the supervision of the Air Corps, candidates completing the course will have the same status as "flying cadets".

(Continued on Page 4)

## Malcolm Brown Is New Pres. Of Chem. Society

To head the society for the coming year Malcolm L. Brown, '42, was elected president of the M.I.T. Chemical Society, a student branch of the American Chemical Society at a meeting held in Room 2-390 last Tuesday evening.

Henry Lemaire, '42, will be the new vice-president; William O. Strong, '42, the secretary; Victor S. Frank, '42, the treasurer; Felix R. DeLeo, '42, the plant trip manager, and John G. Sullivan, '43, the publicity manager.

The annual banquet of the society will be held soon, closing the activity's year. Before this there will be movies on Alfred Nobel, catalysis, and glass-making.

## Course XVI Aspirants Must Register At Once

All members of the class of 1944 who intend to enter Course XVI Aeronautical Engineering, should file applications immediately, it was announced. May 3 is the deadline. Blanks may be secured in Room 7-111 and filed in Room 33-307.

## Debate Society Elects Frankel As President

### Group Chooses Haas, Musgrave As Officers At Banquet Tuesday

Raymond F. Frankel, '43, was announced as the new president of the M.I.T. Debating Society and Ward J. Haas, '43, as the new vice-president, with George M. Musgrave, '43, the new manager at the annual banquet held last Tuesday evening, April 29, at 6:30 P.M. in the Myles Standish Hotel. This banquet which concludes one of the society's most active years marks the end of the old-style organization, simultaneously marking the initiation of the newly reorganized society.

Professor F. Alexander Magoun, of the department of Humanities, acted as guest speaker at the meeting and spoke on the "Peregrinations of a Little Bull." Paul M. Erlanson, '41, retiring president of the society, welcomed the new officers who in turn presented a resume of the new policy to be followed next year.

### Complete List of Officers

The complete list of officers includes Franklin P. Seeley, '42, and Robert H. Given, '42, co-chairmen of the Open Forum; James O. McDonough, '43, chairman of the freshman tournament.

(Continued on Page 4)

## Eugene Lawrence Commissioned

### U. S. Army Awards Second Lieutenantcy In Competitive Exam

Eugene F. Lawrence, '41, has been appointed a Second Lieutenant in the United States Army, as a result of the Annual examination for Army commissions held last February. Competing with five other men from the Institute, Lawrence was adjudged successful and will receive his commission as soon as he has been awarded his R.O.T.C. commission.

Lawrence came to the Institute from Falmouth High School, Falmouth, Massachusetts, and graduates this June from Course XVII, Building Engineering and Construction. At present a cadet major in the Technology unit of the R.O.T.C., Lawrence expects to begin his duties with the army soon after his graduation this June.

## C. P. T. Students Enter Air Meet

Civilian pilots trained under the Civilian Pilot Training Program at Technology and other New England colleges will be expected to participate in the Seventh Annual Intercollegiate Air Meet to be held at Turner Falls, near Greenfield, Mass., on May 10 and 11. John B. Bean, president of the Intercollegiate Flying Club, announced that he expected the meet to be the largest ever held in the history of the event, due to the increased flying among college students.

Beginning Saturday, May 10, at 2:00 P.M., the afternoon program will feature spot landings using both standard and free approaches. A "bomb" dropping contest is scheduled as well. A banquet at the Mansion House in Greenfield to be followed by a hangar dance constitutes the social program planned for Saturday evening. Beginning early Sunday morning, three events will be run off, consisting of a bull's eye landing, a navigation race, and a scavenger hunt. Competitions in the air meet are open to both undergraduate and graduate student flyers.

## TECHNIQUE MAKES GOOD

"Put all your eggs in one basket" sums up the problem that Technique faces each year. The student body got a chance to see that basket when it went on distribution to the lay Tuesday, and Technique can be justly proud of its effort.

The 1941 Technique is one of the best yearbooks that has ever left the Institute. The quality of the photography and art work is particularly fine. As is inevitable with every printed article, a few pictures are mistitled and a few typographical errors missed, but the general tenor of the book is noteworthy.

A monthly magazine or a newspaper can go along and if one issue is poor it can hope to make amends in the next one, but the annual can make no such retributions.

The Technique can stand up against the yearbook of any school. We have seen books of first class colleges selling for twice the amount that did not hold a candle to our Technique. The photo-montage in the candid activity shots, especially of the swimming pool, are classic. We feel that Technique deserves the highest of praise. It can now be classed in the top rank along with "The" Institute publication.

## WE SWIM DOUBLE

A week from tomorrow mixed swimming on Saturdays will be given a trial until the end of the term. Advocated mainly for the benefit of those students having out-of-town dates for the social events scheduled for the rest of the year, mixed swimming two days of the week should make the use of the pool much more flexible.

The request for mixed swimming was brought before the public in the editorial columns of The Tech last week upon the request of several students. This brought forth a letter by another group of students further endorsing the plan. Acting on the strength of this support, the swimming pool committee decided to give the plan a trial to determine whether increased convenience and use of the pool would result.

By this action, the committee has proved that it practices its aim of doing everything possible to give the students the benefits of the new Alumni Pool. However, it should be noted that the new schedule of mixed swimming is only under trial and has not yet been adopted as a definite policy. It must be remembered that the committee can grant this extra privilege only so long as it is popularly supported. Since we've been given our chance, let's take advantage of it!

## THE LIGHTS THAT FAIL

Modern fluorescent lighting is now in the process of being installed in the history reading room of the Walker Memorial Library, but nothing is being done toward alleviating lighting conditions at the reading tables along the two balconies.

At present most of the tables have low, dark shaded lamps which give only a semblance of light, while several tables have no lamps at all, others are minus bulbs. All in all the system is very make-shift, justifiable only for temporary arrangements.

Since the Walker Library has been moved, the effectiveness of the facilities have been improved a hundred percent, the lighting being the only major deficiency. We feel that adequate lighting is one of the most important requirements for a good library, and that every effort should be made toward protecting our eyesight by improving this aspect of the Walker Memorial Library.

## UP AND AT 'EM, BOYS

In the last two years, the Technology crew has come into its own in collegiate circles. Where we were formerly an also ran, we are now in the top circles. The New York Times review of the sporting year gave the M.I.T. crew the distinction of having made the biggest improvement of the year.

Tomorrow we enter our second race against Harvard this term. Princeton is also in the race, but it is primarily Harvard that we are out to beat, to avenge the defeat last week. Whatever the outcome, we have the distinction of being the first school in four years against which Harvard entered as the underdog.

At the races last week, one of the largest crowds in years turned out to witness the event and cheer for the crews. Tomorrow we should turn out in even greater force to urge our crew on that little increment delta that is needed for them to come out on top. Win or lose, we're behind our crew one hundred percent.

## Clippings—

This is the first edition of the "Clippings" column which will appear spasmodically in the future, if it deserves the space. Its prime purpose will be to present to you, the reader, such bits of information and humor, as gleaned from our exchange files. Any contributions or suggestions—addressed to the "Clippings" Editor, The Tech, Walker Memorial basement—will be greatly appreciated.

In reviewing the ill-fated crew races last Monday, the venerable N. Y. Times tries to tell us in its Tuesday's edition that, "Aarvard won the dual race with M.I.T.'s 150-pound jayvees by nine lengths." It was generally thought that we raced Harvard, but then you know how some people go in for that phonetic spelling.

Paul Mallon sprang a new one on us in his column "The Nation's Politics" in Tuesday's Herald. In the course of discussing seapower he says, "Japan has a fleet, but it cannot challenge joint Anglo-British control on the seas, etc." (Italics ours).

Here's a good one clipped from the Georgia Tech, "Technique":

"If you can leave your studies far behind you,  
 And go on picnics with a keg of beer;  
 If you refuse to let professors bind you  
 With rules and regulations while you're here;  
 If you refuse to lose your social viewpoint,  
 Regarding grades as just the bunk;  
 And raise your liquor content to the dew point,  
 You'll have your fun, and what's more you'll flunk!"

Also from the "Technique" is this quip which Professor Edgerton might verify. "The shortest length of time ever recorded by man is the time that elapses between when the traffic light turns green and when the guy behind you blows his horn."

It seems we're not the only ones who take pot shots at Harvard. M. Leon Rasbach, Jr., who went four years to Syracuse and then last year to Harvard, says in a letter to the editor of the Syracuse "Orange" last Saturday, "I would like to take exception to a clause in the lead editorial last Tuesday, 'Although Syracuse is not a traditionally school-spirited institution like Harvard or Yale. . . . Harvard may be said to be steeped in tradition (might better say sleep), but I'd any day take the plebian plains of Syracuse for the 'dere old yard of H'vard.' . . . I've seen enough to know that Syracuse is far richer in genuine school spirit than Harvard ever thought of being. . . ."

## For Boys To Play

by Stewart Rowe and Joseph Tankoos

Tomorrow night is the night for the Bohemian Ball at the Chi Phi house. This annual affair promises to be again one of the biggest "Fun groups" we have seen in quite a while. Plans are changing momentarily, but at last report they included decorations in keeping with the theme "A night on the Bowery," which, according to our looking-at-decorations department, will provide considerable entertainment. Also rumored as of last night was conversion of the second floor living room into a Bowery Beer Hall, complete with atmosphere and refreshments.

Costumes in tune with the theme are the idea, but don't worry if all your date has on is a sarong. Bearskins and bathing suits are equally in fashion. The omnipresent Reeves has promised the same orchestra which played at the last Chi Phi dance. Music starts at nine.

Tonight the D U's are having another one of their usually enjoyable dances. The place, rather than the chapter house, is the Hotel Bradford. We suspect that that house hasn't recovered from the effects of the Carnival a few months ago. Formal clothes are in order, and your presence will be welcome from 9:30 on.

For tomorrow night, the Student House has cooked up something in the way of an informal dance which goes by the name of a "sweater dance." Informal, we gathered, especially when we heard someone say that non-Hays-office sweaters will be required for

admission of dates. Jack Briggs, social chairman, has promised us a smooth party.

In case you hadn't heard, Seiler's has reopened their extremely popular Ten Acres. It has been doing business for about a week now, and reports filtering into this department say that it is fully as good as it was last year. The name of the orchestra seems to escape us at the moment, but one of our friends told us that the band was really worth going to hear. One way to get there is via Commonwealth Avenue. Plan on plenty of time, because it's quite a ride out to Wayland. Not far from Wellesley, Lasell, and Pine Manor, though.

The Boston Pops Orchestra under the direction of Arthur Fiedler starts its season next Tuesday at Symphony Hall. You will find the rows of seats which fill the floor there in the winter missing, and in their place tables around which the audience sits, giving a very pleasant atmosphere. Drinks of all kinds may be ordered by writing your order on a pad and giving it to a waitress. The refreshments are of a high quality and prices are reasonable. You may also buy records of the Pops; the waitress will bring them to your table.

The balconies remain unchanged from the winter, except that a substantially lower price scale is in effect, ranging from \$.25 for "rush seats" (unreserved) in the second balcony, to \$1.00 for seats on the floor.

How you get late news  
 ... so early

So much that's important is happening today—in America, in Europe, Africa, Asia. And you know about it almost as soon as it happens!

Trace most any piece of news to its source and somewhere you'll find the telephone or one of its relatives—radio telephone or teletype in the picture. These speeders of the news have either benefited from telephone research or utilize telephone equipment, or both.

In these days, the Bell System is proud that its facilities are helping in the fast and widespread dissemination of news—so essential to enlightened public opinion.

# Beaver Briefs

By Bailey Nieder and Harry Ottinger  
Official Baseball Team

Ed Beaupre and the rest of the Tech Independent baseball team are hoping that their team will receive official standing from the M.I.T.A.A. If the tide continues the winning ways of its initial 12-4 victory over the Harvard Frosh. and continues to demonstrate that a Beaver ball club can practice regularly and field an aggressive and cooperative squad, we see no reason why the fellows should not receive recognition as an official Institute team.

Sergeant George Hunt, who in the fall coaches the football team, has expressed willingness to add the chores of handling the followers of Ruth and Cobb. The sergeant has played professional ball; and with his aid the team should in time rank with other college teams in New England.

### Novars

Incidentally Sergeant Hunt tells us that the Junior-Senior Football team which has been called "the smartest football team in the country" has adopted a new name for itself. The eleven wishes to be called the "Novars" in the future. The nomicker is a contraction of the phrase "not varsity", and refers to the fact that the gridiron squad has not yet received official designation as Technology varsity team.

### Championship Pistol Team

Added honors have been garnered by the pistol team with the announcement that the Beaver varsity gunmen won the Metropolitan Pistol League title for the season. The pistolers ended their League season with 3412 points to 3377 for the second place Boston Rifle and Revolver Club.

As a reward for their triumph medals have been awarded to the top five men. First was Inst. Com. prey John Murdock who averaged 178. He was followed by "Little Man" Cy Brown, Capt. Ed Owen, Soph Fleming, and Dick Henry.

## Frosh Track Team Face Moses Brown

### Freshmen Defeat Gov. Dummer 86-31 In First Contest

Having defeated Governor Dummer by an overwhelming 86 to 31 score, the frosh track team will meet the powerful Moses Brown squad at Providence this afternoon.

When asked for a prediction Coach Oscar Hedlund stated that Moses Brown always has a powerful team; but that freshmen meets are unpredictable. Oscar also mentioned Caldwell of Moses Brown as a top-notch sprinter. In last year's meet the Tech frosh were beaten by a decisive 72 to 54.

Among the outstanding freshmen are the following, each of whom won an event in the Governor Dummer meet: Meny, Joseph, Pritchard, Ziegler, Wareham, Henrich, Walke, Adams, Goat, and Amrhein.

## Golfers Clash With W. P. I. Today

The varsity golfers will go to Worcester today to match their skill against the divot diggers of Worcester Polytechnic Institute. Although the team has lost matches to both Brown Amherst vs. W.P.I. match portends a Tech victory. The probable lineup and Amherst, the one-sided score of an will be: Arthur Avent, Chris Peek, George Urquhart, Doug Scott, Gene Morrison, and Everett Graham. Graham holds the distinction of being the only member of the team to have scored a hole in one. He accomplished the feat at the Oakland Country Club about a week ago.

The freshmen are opening their season this afternoon with a match against the Harvard 144ers at the Belmont Country Club. The lineup is: Russell Gwillim, Courtney Reeves, Francis Carey, Bob Plachta, Bob Breck, and Dick Bettes. All six men are reputedly "under 90" golfers.

## Trackmen Vie With Bates Tomorrow

### Thirty Men Leave For Lewiston, Maine To Seek Second Win

To follow up the win over Colby, by beating Bates will be the object of the Beaver tracksters on their trip to Lewiston, Maine, tomorrow.

The "men of Hedlund" have been successful in Bates meets in the past two years, winning 79 to 56 in 1939 and 90 1/3 to 44 2/3 in 1940. The trend, however, is not conclusive because the Bates cinder-pounders have several excellent men. As Coach Oscar Hedlund pointed them out they are: McLaughlin in the mile, Nickerson in the quarter, Webster in the high jump, and Drury in the two mile.

### Men to Go

On this overnight trip to Bates with only a limited number of men going the following have been chosen for the events: Stewart, Jester and Coles in the high hurdles; Hensel, Clark, Booth, Hall in the 100; Turnock and Miller in the mile; Backer, Gow, and McGregor in the two mile; McBride, Clark and Hall in the quarter; Corsa, Kelly, Brady and Czar in the 880; Hensel, Booth, Clark and McBride in the 220, Jester and Stewart in the low hurdles.

Those chosen for the field events are: Eberhard, Horst, Azarian in the pole vault; Baresel, Meier, VanGreenby in the hammer event; Nagle, Coles and Ford in the high jump; Van Greenby, Nagle and Hornor in the shot put; Booth, Coles and Ford in the broad jump; Nagle, Hornor, Madwed in the discus throw; Sexton, VanVoorhees and Koss in the javelin event.

## Interclass Meet To Be Run May 10 On Briggs Field

Seniors, Juniors, Sophomores and frosh will vie for honors in the Spring Interclass Track Meet to be held on Briggs Field next Saturday, May 10. Winners of the events will receive awards at Track banquet to be held Monday, May 19, at which time next year's captain and manager are to be elected.

The Seniors by the increment of a single point took the indoor interclass meet last February from the freshmen who led the Juniors and Sophomores in that order will attempt to confirm their laurels. To the winner of each event will be awarded a cup at the track banquet.

## 5:15 Club Takes Basketball Title

Defending their championship, the 5:15 Club won the Beaver Key Basketball Title by defeating teams representing Senior A and Delta Kappa Epsilon in final round robin games last week. In both games the Com-muters came from behind in the last quarter to overpower their opponents.

On Monday they bested the dorm boys 25 to 19 after trailing 19-17 with three minutes to go. Wednesday's game was even more spectacular as the 5:15ers won by 30-25 after beginning the fourth quarter behind by a score of 14 to 24. Wilson, Cotter, Kurkjian, and Gott were outstanding.

## Beaver Lacrossemen Drop Close Match To Cantabs

Playing a greatly improved game the Beaver lacrosse squad lost a hard fought match to the Harvard stickmen by the score of 5 to 2 on Wednesday afternoon.

Sophomore Ralph Leader continued his stellar play and with Art Power scored the two goals run up by the Institute team. The starting lineup for Tech included Hooper, Gilken, Dunwoodie, Evans, Fenton, Sibley, Hill, Gander, Leader, and Ratkin. Among the spares were Payson, Riehl, Foote, Wood, Seeley, Eisenberg, Karstrom, and Powell.

## T. C. A. - T. E. N. Attempt To Play Baseball Tuesday

The Technology Christian Association stalwarts of the baseball diamond are scheduled to cross bats with the Tech Engineering News nine on the Coop Ball Field on Tuesday afternoon, May 6, at 5:00 P.M. for no apparent championship.

The Tech sturdies smelling an opportunity to vanquish yet another victim hereby challenges the winner of the above contest to a game to be played a time to be set by The Tech's discretion.

## Tech Independents Try For 2nd Win Against Boys Club

### Ed Beaupre Changes Lineup For Game Tomorrow At 2:30

With a perfect record of one win, no losses under their belts, the Tech Independents will hitch up their pants confidently this Saturday afternoon at 2:30 as they come up to bat against opponent number two, the South Boston Boys' Club. Pitcher-Coach-Manager Ed Beaupre will be burning 'em across again and is confident of victory.

In last season's opener Beaupre pitched against the same opponent, and although The Independents lost that game, they won the return game later in the season. Beaupre believes his last year's experience against the Boys' Club team, which is made up largely of ex-prep school stars, will come in handy.

### Foster In Left

Ray Foster, who was unable to play last week, will be in his regular position in left, and his fleet fielding is expected to squelch many of the balls that went for hits last Saturday. Another switch expected to be made in last week's lineup will put Ed Welsh behind the plate and Dave Christison, who received last week, in right field.

Heading the lineup again this week will be the boys who broke up the ballgame last week in the seventh against the frosh from down the river.

### TECH BOXSCORE

Boxscore of the game against Harvard '44ers last Saturday for the Tech Independents is as follows:

	AB	R	H	O	A	E
Bill Sadler, 2B	3	2	2	2	3	0
Erne Artz, 3B	4	0	0	0	1	0
George Marakas, 1B	4	2	1	9	1	0
Jim Gillen, LF	5	1	1	1	0	0
Ed Beaupre, P; CF	5	2	1	4	4	0
Bob Schaefer, CF	4	1	1	1	0	0
Jim Welch, P	1	0	0	0	0	0
Al Kusch, SS	4	2	1	0	0	1
Dave Christison, C	4	1	2	9	1	1
Jim Broderick, RF	4	1	2	1	0	0

### Travel to Worcester

The remaining home games after this Saturday's will be a return tilt with the Boys' Club, which date has not yet been fixed, and the season's last game against the Watertown Independent City team at 2:30 on Saturday, May 17. Games away will be played with Assumption College at Worcester on May 10, and with Becker College, also at Worcester, on May 13.

Umpiring this Saturday will be Jack Flipse behind the plate, and Bill Strong and George Theriault on the base paths.

## Raqueteers Lose To B.U., To Play Dartmouth Today

The varsity racqueteers lost their tennis match with Boston University last Wednesday by a score of 6 to 3. The three Tech victors were Captain Phil Freeman, Howie Samuels and Dave Herron. This afternoon the team will play Dartmouth at the Harvard tennis courts.

The freshman team lost a close match to the B. U. freshman to the tune of 5 to 4. Wins by Nelson, Post and Greenman enabled the frosh to split the six singles matches; but Heyser and Benedict was the only pair to come through in the three doubles contests. The frosh, who won their first match against B. C., will try to better their 500 average in a meet at Exeter tomorrow.

# Changed Crew Will Face Harvard And Princeton For Compton Trophy

## Sailors Seek Championship

### Techmen Oppose Twelve Colleges This Weekend At New London

Beaver dinghymen, with four weeks of undefeated championship sailing behind them, will this weekend compete in the first New England Intercollegiate Yacht Racing Association Member Dinghy Championships for possession of "The Coast Guard Trophy" on the Thames River at New London, home of the United States Coast Guard Academy Boat Club.

Racing in the Academy's fine new fleet of two dozen twelve-foot International Dinghies will be Tech, Boston University, Brown, Coast Guard, Dartmouth, Harvard, New Hampshire, Northeastern, Trinity, Tufts, Williams, and Yale.

### Coe, Knapp Missing

Manning Tech's boats will be Tom Crowley, Commodore of the M.I.T. Nautical Association, Morris Evans, Ed Owen, and Hans Aschaffenburg unless some last minute changes are made. Jerry Coe and Dick Knapp, skippers who have recently made dinghy racing an unusually successful sport at Tech by winning in each of the last four regattas over the leading schools in the country, will not be able to make this regatta.

Second dinghy event of the weekend will be an unusual regatta in which Radcliffe, Sara Lawrence, and Connecticut College for Women girls with race for Harvard, Brown, and M.I.T. lads at Brown on Saturday afternoon.

## Beaver Booters Lose In Practice

### Prospects Look Good For Successful Season Under New Coach

As practice for a game with Harvard sometime within the next two weeks, the Technology soccer team yesterday played an informal game with the Watertown High School. Score of this game was two to one—in favor of Watertown.

An interesting sidelight of this game was the fact that both teams are coached by the same man since John F. Craig, latest addition to Technology's coaching staff, previously coached at Watertown High School. Last season his team won twelve of its fifteen games, and they proved his excellence as a coach by defeating Tech yesterday afternoon. Captain Bob Fay, commenting on the team said "prospects look very good for a successful season next fall. With a new coach the team has developed a lot of enthusiasm and is looking forward to beating Harvard in the spring game."

The lineup for Tech in yesterday's game included Berude at goal, Fay at right fullback, Szemere at left fullback, Richardson at center halfback, Michaels at right halfback, Bohr at left halfback, Ewing inside right, Whiffen inside left, Lednicki outside right, and Chang outside left.

## Jayvee, Frosh, And Fifties Also Race Here Tomorrow P. M.

In the hope of getting a winning combination to bring home the Compton Cup in races against Harvard and Princeton on the Charles River this Saturday afternoon, Head Crew Coach Bob Moch has made four shifts in his varsity eight.

### TOMORROW'S CREW PROGRAM

- 4:45 P.M.—150-lb. Frosh—M.I.T., Harvard, Cornell
- 5:00 P.M.—150-lb. Varsity—M.I.T., Harvard, Cornell
- 5:15 P.M.—Freshmen Heavy Varsity—M.I.T., Princeton, Harvard
- 5:30 P.M.—Junior Varsity—M.I.T., Princeton, Harvard
- 5:45 P.M.—Varsity—M.I.T., Princeton, Harvard

All races to be held on the Charles River Basin. Lightweight races at Henley distance. Heavy races at mile and three-quarters.

In Malloch's old place at seven, he has assigned veteran Ted Guething, while Malloch rows at bow, which was till recently Phaneuf's position. In the first part of the week McGuire was rowing in Folberth's seat but once again a change was effected which gave Bill back to number two.

The present varsity eight is stroked by Captain Joe Gavin, the others are Guething, Mueller, Poskus, Howard Spitz, Folberth, Malloch, with ex-jay-vee man Soph Frank Clauson at cox.

### The J. V. Changes

In the jayvee crew there are only two shifts, Wengenroth is now the cox of the jayvee shell. Metzger and McGuire have interchanged the six and stroke seats. Phil Phaneuf is leading the starboard side.

The jayvee eight is composed of Metzger, Phaneuf, McGuire, Affel, Bakker, Mikolajczyk, Leader, Cain, and cox Wengenroth.

Following their race the Varsity 150's stroked by Bill Boise, with Herb Howell, Bob Wagner, Bob Caldwell, Kemp Naples, Bill Heinz, Claude McCord, and Hettich replacing Bill Engels, at bow, will compete against Cornell and Crimson 150's.

## FRIDAY, MAY 2

6:15 P.M. American Society of Metals Dinner—Pritchett Hall.

## SATURDAY, MAY 3

12:00 Noon Course XVI Applications due—Room 33-307.  
Frosh Track Meet With Bates—Coop Field.  
6:45 P.M. Alpha Chi Sigma Dinner—Pritchett Hall.

## SUNDAY, MAY 4

2:30 P.M. Glee Club Concert—Station WBZ.  
6:00 P.M. T.C.A. Father-son Banquet—Copley-Plaza Hotel.  
7:30 P.M. International Club Meeting—Tyler Lounge.

## MONDAY, MAY 5

3:00 P.M. Harvey Biology Lecture—Room 4-270.  
5:00 P.M. Student-Faculty Committee Meeting—Litchfield Lounge.

## Activities

### Course XVII Meeting

Colored sound movies will be shown by the students of Course XVII in Room 6-120 at 4:00 P.M. on Wednesday, May 7. The subject is the "Great Silk Route", a description of a trip through the Balkans. All interested are invited.

### A. E.'s Election

Ronald Shainin, '42, was elected President of the M.I.T. Aeronautical Engineering Society at a meeting held last Tuesday evening April 29. Vice-president for the coming year will be James N. Hendel, '43. The post of secretary goes to Don H. Ross, '43, while Herman R. Lorence, '42, is the new treasurer of the society. John Goldsmith, '43, Edward P. Holland, '43, and John M. DeBevoise '42, are additional members of the Managing Board.

### Meteorology Course

(Continued from Page 1)

Although they will not be trained as pilots, they will be expected to fly as observers when duty requires it. Approximately two months after satisfactorily completing the course, candidates will be commissioned as Second Lieutenants in the Air Corps Reserve and will be required to agree to remain on active duty with the Air Corps for three years, though they are eligible to apply for a release after one year of active service.

Two sets of eligibility requirements have been set up, one by the Weather Bureau and the other by the Air Corps. The course is identical under either system and will cover meteorological instruments as well as descriptive, dynamic and synoptic meteorology, with special emphasis on weather analysis and weather forecasting. The Air Corps requires that applicants be unmarried, male citizens of the United States between 20 and 27 years of age and that they be graduates with physics and two years of mathematics or a degree in engineering. They will also be required to pass the regular reserve officers physical examination.

#### W. B. Requirements

If candidates plan to enter under the Weather Bureau requirements, they must present evidence of having satisfied the same academic requirements as for the Air Corps, and, in addition, they must provide a certificate of having completed the primary phase of the civilian pilot training program within the past three years.

The meteorology department received publicity lately in the Boston papers when it was learned that Miss Margaret Whitcomb, '39, is now on the instructing staff of that department. She is one of the youngest instructors at Technology as well as the first woman to become an instructor here in meteorology. Miss Whitcomb has studied in London and Switzerland as well, and has been associated with the Institute since her graduation.

### T. C. A. Handbook Articles Must Be Submitted

The T.C.A. 1941 Handbook is approaching its final stages and all fraternities, sports, and activities that wish to be represented in the handbook are urged to submit articles about themselves for publication.

Articles are to be on the same style as those that appeared in the 1940 Handbook, and are to be sent to Allen Kirkpatrick, '43, T.C.A. offices in Walker.

### Biology Lecture Scheduled May 5

#### Dr. E. Newton Harvey Of Princeton Speaks On Bioluminescence

"Bioluminescence" will be the subject of a lecture by Dr. E. Newton Harvey to be given at 3:00 P.M. on Monday, May 5, in Room 4-270. Dr. Harvey is a member of the faculty of Princeton University and is a visiting lecturer at the Institute in the Department of Biology and Public Health.

Recognized as the outstanding authority on the subject of luminescence of organisms, Dr. Harvey will deliver his lecture at the final meeting of the Graduate Seminar of the Biology Department. The meeting is open to all both staff and students in all departments.

### Technology Propeller Club Plans Open Meeting Tue.

The Port of Boston Propeller Club will meet with the Technology Propeller Club in Pritchett Hall, Walker Memorial on Tuesday, May 6, at 6:15 P.M. The guest speaker of the evening will be Mr. William K. Jackson, vice-president and counsel of the United States Fruit Company. To accommodate the visiting members 150 of whom are expected, the Naval Architecture Museum will be kept open from 5:00 to 6:00 P.M.

### Crew

(Continued from Page 3)

The Jayvee race follows on the freshmen contest. The competitors will be from Princeton, Harvard, and Tech. The Varsity will test itself against the Princeton eight that has won from Rutgers and Navy, in successive races. Rutgers nipped Pennsylvania last week, bearing out the fact that the Princeton oarsmen, whom Tech beat last year are a greatly improved crew. Third shell in the race is Tom Bolles' crack boat from up-river.

## T.C.A. Sponsors Housing Show

### Exhibit To Be Shown In Building 10 Lobby Starting Monday

Inaugurating a "housing conscious" drive for students at Technology, the T.C.A. is sponsoring an exhibit of housing and its problems to be held in the Main Lobby of Building 10 from Monday to Saturday, May 10 inclusive. Cooperating with the Boston Housing Authority and the Cambridge Housing Authority, a committee composed of five students has accumulated an exhibition on slums and slum clearance.

Sam Fry, '41; Charles C. Holt, '43; George J. Schudel, '43; Norman I. Shapira, '41, and Judith B. Turner, '45, compose the committee, which has collected the exhibits. Among the presentations is to be a model of Newtown Court, a housing project in the Cambridge area.

#### Follows Compton's Words

Following the words of President Karl T. Compton in his radio address of March 15, 1941, when he said, "I look to see people living in homes of new designs in convenience and attractiveness, based on new structural materials and methods, and located in groups planned for effective community life," the T.C.A. is planning to continue this effort for making the Technology man housing conscious and has already formulated plans for next year's action.

Further exhibits and movies are included in the projected plans for this year as well. Other colleges are holding similar exhibits in keeping with ideas expressed at a housing conference for representatives of the student Christian movement held earlier this year.

## Reviews and Previews

The theatrical industry is on the horns of a dilemma: no one knows who the bright light in Franz Schubert's life was. "Unfinished Symphony", "Blossom Time", and now "Schubert's Serenade" each tell about some different girl who inspired the composer to his unequalled heights of musical accomplishment.

The picture at the Fine Arts this week is not an outstanding example of the motion picture art. Direction is dull and lifeless, but if you like French pictures you may like this one. The music is Schubert's, and well done, so there is little to complain about in that field. In fact, the music is the outstanding feature of the film.

The picture itself is one of those things which is full of anachronisms. If you go with the idea of seeing a carefully produced, historically correct film, you will be disappointed. But if you watch with an open mind we think you will have a good time.

There are a number of Schubert's melodies strung through the picture. The melodies seem to be the main reason for the existence of the picture. It is evidently becoming increasingly hard for the Fine Arts to get pictures within its field which are of high quality, for "Schubert's Serenade" is not up to the high standards which the Fine Arts used to require of its pictures. It is nevertheless an entertaining picture, especially if you approach it in the right frame of mind, and offers a good chance to practice your French.

## LOOK WHAT ZIEGFELD MISSED

Five of the ten initiates into Agenda, Sophomore dorm honorary, display their talents with the aid of decorated barrels and sarongs.

### Debating Society

(Continued from Page 1)

with Raymond M. Redheffer, '43 as his assistant. These men will be responsible to vice-president Ward Haas under the new constitution.

G. Peter Wachtell, '43, is in charge of the personnel of debates; Philip J. Bendt, '42 will direct the varsity home debates; Richard J. Zeamer, '43, is to manage varsity trip debates while Andrew N. Obes, '43, is in charge of squad and freshman debates. These men are ranked as assistant managers and are responsible to manager George Musgrave.

#### New Managing Board Formed

Functional officers responsible directly to the Managing Board include John R. Taft, '44, publicity director, and his assistant Ernest T. Schoenwald, '44, and Edward W. Warsaw, '43, Secretary-Treasurer. The managing board, an innovation under the new system consists of the president, vice-president and manager of the society.

It was further announced that two coaches had been secured for the debaters and that John B. Rae, of the English department, who had acted in an advisory capacity during this last year, together with Peter Rutter, also of the English department will act as those coaches.

#### Seek Class A Recognition

The reorganization of the M.I.T. Debating Society follows the approval granted by the Institute Committee for a new constitution and is a step toward the gaining of Class A activity recognition. This recognition was deferred by the 1940 Institute Committee pending reorganization of the club.

Plans for the next debating year include the continuation of the Model Senate, the Open Forum, the presentation of varied speaking programs for the meetings, and the freshman debating contests. Also planned are reorganizations of Varsity and squad debates and an increased debating schedule over this year's forty debates.

### T. C. A. Group Leads Services

#### Deputation Travels To Cushing Academy This Sunday, May 4

Three representatives of the Institute undergraduate body will take charge of the regular Vesper Service for Cushing Academy, Ashburnham, Massachusetts, on Sunday, May 4 at 5:00 P.M. This will be the first time in ten years that such a deputation has performed this service and this occasion inaugurates the 1941 series.

Stanley Backer, '41, one of the representatives is scheduled to speak on "Clean Athletics", while Robert J. Fay, '42, is to speak on "Clean Speech". W. Hoover Shaw, '42, the third of the trio, will consider "Clean Living". All the speeches are to be of eight minutes duration.

A coeducational institution boasting 200 students, Cushing Academy is a preparatory school and is the alma mater of Mr. Wallace M. Ross, General Secretary of Technology Christian Association. It is anticipated that students will be sent to other schools to perform similar duties.

### The First Church of Christ, Scientist

Falmouth, Norway and St. Paul Sts. Boston, Massachusetts
