

Eddy To Speak About Britain Today At Four

President Compton To Introduce Speaker In Huntington Hall

Dr. Sherwood Eddy, author and world traveler, will speak today on "Our Stake in Britain's Danger" in a lecture open to all sponsored by the Technology Christian Association. Dr. Eddy is to deliver his address in Huntington Hall, Room 10-250, at 4:00 P.M., introduced by Dr. Karl Taylor Compton, President of the Institute. A graduate of Yale's Sheffield School, '91, where he received his Ph.B., Dr. Sherwood Eddy has devoted extensive efforts to the development of the Y.M.C.A., both at home and abroad. In 1916 he received an honorary M.A. from Yale University, and an honorary M.A. and LL.D. from the College of Wooster.

Y.M.C.A. Secretary

Dr. Eddy was in India from 1896-1911 as a National Secretary for the Y.M.C.A., working among students there. In 1911 he was appointed Secretary for Asia Y.M.C.A. work of the International Committee working among students of Japan, Korea, China, India, the Near East, and Russia, as honorary worker.

By request, Dr. Eddy has addressed Chinese provincial parliaments, boards of trade, and government institutions. In all he has made twenty trips to Russia and ten to the Orient. He was in London when the Munich Pact was signed by the late Sir Neville Chamberlain.

With British Army

Dr. Eddy was in war work with the British Army as Y.M.C.A. secretary from 1915 until the year 1917 when he transferred to the American Army that same year.

He is the author of many books dealing with moot contemporary problems. Several of these books are: "The Challenge of Russia," "The Challenge of the East," "The World's Danger Zone," "The Challenge of Europe," "Russia Today," and "A Pilgrimage of Ideas," as well as numerous books published in India and England.

Outers To Hike Over Week-End

The M.I.T. Outing Club has announced that their second scheduled trip will be an overnight outing to the White Mountains leaving Saturday morning October 11th from the steps of Walker Memorial. There will be two groups leaving, one at 6:00 A.M. and another at 1:00 P.M.

All luggage will be carried in back packs and the group will sleep in "lean-to's" over Saturday and Sunday nights. Because of the Columbus Day week end the return is scheduled for Monday night. The trip will be under the direction of Warren Schwarzmann, '43.

Rock Climbing

For the benefit of any novices who wish to participate, a Rock Climbing expedition has been planned for Monday morning, October 13. The group will assemble at 9:00 A.M. on the steps of Walker Memorial. The trip will be either to Quincy Quarry or Rattlesnake Cliffs depending on the number of cars which can be secured before Monday. The price for the trip will be \$4.00 and each man is asked to bring his own lunch. This trip will be led by Alfred L. Frueh, '43.

William A. Pearson Saves Man From Drowning In Charles

Jumping into the icy waters of the Charles River at 6:00 P.M. last night, William A. Pearson, '45, saved an unidentified individual from drowning.

While crossing Harvard Bridge on his way home from classes, Pearson saw this person jump from the bridge, and immediately shed his shoes, shirt and coat and jumped in after him, keeping his head above water until the pair were rescued by the Nautical Association's launch.

Saved From Sure Death

By acting so quickly and courageously, Pearson saved the fellow from sure death, he being apparently unable to swim. When Pearson dived in, he was floundering around and was just about to go under.

This bit of drama took place about a third of the way from the Cambridge shore of the river, and was all over in a very short time, Pearson being home, and the would-be drownee all warmed up and thawed out in the Sailing Pavilion long before the M.D.C. launch came speeding up the river, rushing to the rescue, a la "Lone Ranger."

After searching in vain the M.D.C., old time acquaintances of many a Technology rioter, at last realized that Tech had for once saved them some work.

Pearson, the typical modest hero, left the scene immediately after the rescue, going home to Theta Chi house to get warmed up, and up until a late hour could not be contacted for further details of his brave deed.

Reassigned

Captain Ashley

Mark B. Ashley Recalled By Army From Retirement

Former Instructor To Assume Duties, Posted At Fort Adams

Mark B. Ashley, who until his recent retirement had served as master sergeant in the Reserve Officers Training Corps at the Institute for 14 years, has been recalled to active duty with the rank of captain of infantry. He has been assigned to the duties of provost marshal at Fort Adams, Newport, R. I.

As an instructor in the military science department at M.I.T., Captain Ashley was popular with thousands of Technology students, who as freshmen received their first military instruction in the Reserve Officers Training Corps.

Enlisted in 1911

Captain Ashley enlisted as a private in the United States Army in Denver, Colo., in 1911, serving for three years at Fort Barrancas, Florida. During the first World War he was stationed with the coastal defense forces at Balboa in the Panama Zone.

Returning from the canal zone in 1918, Captain Ashley was assigned as an instructor in the Reserve Officers Training Corps at the University of Maine, where he served until his transfer to the Massachusetts Institute of Technology in 1927. Since 1924 Ashley has held a commission in the Officers Reserve Corps and it was upon his retirement as a master sergeant that he was recalled to active service with the rank of captain.

The Tech Smoker Tonight At 5:00 In Pritchett Hall

Killian, Fassett, And Smith To Speak To Freshmen Guests

Three prominent members of the Institute faculty, who are directly connected with the Institute's student journalists, have been announced as the speakers for The Tech's annual freshman smoker to be held in Pritchett Hall of Walker Memorial at 5:00 P.M. this afternoon.

Mr. James R. Killian, executive assistant to President Compton, is scheduled to explain to the freshmen the official attitude of the Institute towards student extra-curricular activities. Professor Frederick G. Fassett, editor of the Technology Review, will speak more particularly about publications as an activity.

Smith to Speak

Finally Professor Theodore Smith of the English department will give a humorous talk. In addition to these main talks some novel entertainment of an imaginative nature is planned.

All freshmen interested in the various aspects of journalism including news and sports writing, accounting, photography, photo engraving, advertising, and circulation are requested to attend and discover the opportunities awaiting them on the staff of The Tech.

We'll Moider Da Bums

Yesterday the Brooklyn Dodgers lost the final game of the first World series in which they have participated since 1920. Before a crowd of 35,000, Bonham pitched the New York Yankees to a 3-1 win and to their sixth World series victory in eleven years.

From the cellar the Dodgers did rise, With sustained effort, under Lippy's eyes!

Then with the pennant waving on high, "We'll take the series," the flock did cry.

On Wednesday, Reiser pulled a boner, By thinking a pop-up was a homer; Much belittled and filled with sorrow, The flock rationalized "We'll win tomorrow."

Come Saturday, Casey was the bum; He stepped in, the Yanks began to hum.

Three Dollars Offered By Collegiate Digest

Technology students who wish to make spending money in their spare time should notice that three dollars is the price that Collegiate Digest, national roto supplement for college papers distributed weekly with The Tech, is paying for timely, human-interest photographs of events occurring on the Technology campus.

The following rules must be obeyed in submission of the prints:

1. Mail all pictures to Editor, Collegiate Digest, 323 Fawkes Building, Minneapolis, Minnesota.
2. Good quality gloss prints are essential. Only pictures that are sharp in detail and have good tone quality will be accepted.
3. All photos must be properly captioned with full details.
4. Unused prints will be returned to the sender.

Vocalist To Sell Field Day Options In Main Lobby

Saleswoman Nevullis Staff Photo

Miss Claire Nevullis, ex-Miss Massachusetts and current vocalist with Baron Hugo's band, has been enlisted in the sales forces of the Field Day Dance Committee as an added incentive to option sales conducted daily in the Main Lobby of Building 10 from 12:00 to 2 P.M.

Claire, a petite and voluptuous brunette, is to start working at the sales desk today at noon and will

(Continued on Page 2)

Sophs To Rally Tonight After Frosh Fail

Class Of 1945 Shows Poor Spirit With Meager Turnout

Members of the class of 1944 will have their first opportunity as Sophomores to show the freshmen and the school what they have to offer at the rally to be held at 5:00 P.M. this afternoon in Huntington Hall (Room 10-250).

Stressing a large attendance as of paramount importance at this time, Oscar Hedlund urges every Sophomore to be present for the meeting to help engender a new high in class spirit, which is so necessary for a successful outcome on Field Day.

Flowers Asks Turnout

Langdon S. Flowers, president of the class, also urged his fellow classmates to rally to the support of the class by attending the meeting this afternoon. With class honor at stake, there should be a genuine effort on the part of each Sophomore to help where he is best suited. The rally is a good place to see where men are needed and what each class member can do, was the sentiment expressed by Flowers.

In a pre-rally report to The Tech, track coach Oscar Hedlund revealed that at this time the Sophomores held the advantage on most of the teams. More participants are needed, however, and as three weeks is not much time to organize full-strength teams and develop them into winning teams, he urged those who think they can contribute and especially those who were on freshman teams last year to be on hand at practice sessions following the rally.

Swimmers Needed

The swimming team is in dire need of new material, both quality and quantity, and every man on last year's freshman team should be at the rally and subsequent coaching classes from now until the official relays are de-

(Continued on Page 4)

Debaters Open Against Emerson Will Discuss "Future" At Annual Smoker On Friday, Oct. 10

Technology's debaters open the new season with an optimistic outlook when they meet a squad of Emerson College debaters Friday, October 10, at 5:00 P.M. in Pritchett Hall. The feature attraction for the society's smoker, the debate will be on the subject: "Resolved; that the future looks black." The Institute men will take the negative.

Held in the conventional two-man style and presided over by Raymond F. Frankel, Jr., '43, president of the society, the contest will offer two constructive speeches and one rebuttal speech for both sides. Ward J. Haas, '43, together with Franklin P. Seeley, '42, are to represent Technology. Philip J. Bendt, '42, will deliver an unofficial humorous decision at the close of the discussion.

Refreshments are to be served to all who attend this open meeting. The smoker is primarily designed to acquaint freshmen with the workings of the Debating Society. Coaches Peter Rutter and John B. Rae, both of the English Department faculty, will be present to help freshmen become acquainted.

Four bingles: the Dodgers were done, Final score read two to one.

But still the flock remained most sure, They boasted, "We only need three more."

Then Owen let slip his little finger, And Henrich, the rat, forgot to linger.

When Monday dawned, the flock had say,

"It's our turn, we'll win today." Seems like we'd heard that one before, "Hello Brooklyn," What was the score?

EXAMS

"Should M.I.T. abolish final examinations in the interest of progressive education to increase the effectiveness of its engineering instruction?" is the question we would like to place before the Institute, its administration, and student body.

All too often this topic is broached a week or two before school is over and nothing can ever be accomplished at that late date. However, this year at the very beginning of a school term, we wish to bring this issue before the faculty and students for serious consideration and discussion.

Each year as a professor outlines a course, he almost invariably comments that he does not like a final examination, but that it is one of the necessary evils of the system. If these statements have been made in sincerity, we feel that it is a basis for intelligent investigation of the problem.

Without exception, everyone will admit that a final examination has more faults than just the fact that the students dislike to take them. Therefore, it becomes a matter of determining whether or not the disadvantages outweigh the advantages. It will be necessary to overcome the natural tendency to keep that which is already established, but any change would have to be considerably better than the present system to warrant its adoption.

The most inherent evil of the final examination is its encouragement of shirking during the term, depending upon the final to give a passing grade. Then the night before the exam, the traditional cramming session takes place, but two days after the exam the mind is practically as blank as before the cramming. This condition is in reality of no value to the student even though he did get a passing grade and does not help the reputation of the Institute.

Many schools have adopted a system of having several comprehensive examinations during the term, covering all that has been covered in the course up to that time. Therefore the last examination of the series would be in effect a final, but would not require the usual three hours.

Objections might be raised on the grounds that a final exam gives a student a chance to bring up a bad grade, but in that case a final exam could be offered to students who had grades below "P."

With a series of progressive exams which he knew were to constitute the major portion of his grade, a student would make a much greater attempt to assimilate the ma-

terial as he went along. In this way he would be gaining considerably more from his courses.

Let's abolish finals!

WHAT OTHERS SAY

Open Letter To The Class Of 1945

You've been college men and women for only a little more than a week. You've hardly had time to become accustomed to the daily routine of classes and study and bull sessions and football games and all the hundred other activities that are almost uniquely collegiate. Many of you feel more insignificant than at any other time in your life. The attitude of upperclassmen too often hinders, rather than aids, the development of a feeling of self confidence.

But—and this is something you want never to forget—the verdant freshmen, the bewildered neophytes, the dust under our feet, are truly the most important people in this, or any, college.

Most important? How so? Bates, as has been stated a thousand times, is virtually an independent community. Campus life is a small-scale model of that mysterious and awesome place called (in capitals), The World. And just as The World is forced to recognize the potential importance of young people, so Bates College must realize that her future now rests in the hands of that motley crew, the class of '45.

In trying to make this clear it is possible to be horribly trite, or lightly amusing, or—most probably—deadly dull. We want to be none of these. We want to be as sincere as we are able. Please believe this.

We do not pretend to be in any position to preach to you. We want only to offer what humble advice we can. Our only excuse for this is the simple accident that we chanced to have entered college three years earlier than you. Our honest desire is to help you benefit from our mistakes. That's a tough job. Want to give it a try?

All right then, what is the chief lesson that three years of college has taught us? What is the good word that we would offer to you upon whom rests the future of Bates?

Simply this: Don't go Joe College. You know what we mean. You've heard the stories of the glib young collegiates with the smart answer to everything. You've seen the movie versions of campus life—football heroes, glamour-girl coeds, old fogey professors, drinking parties, and last minute cramming for examinations.

Well, Bates is probably not the ideal setting for a movie scenario. But the temptation to wish that it were is almost too great. And the result will be the seemingly inevitable growth of the "wise guy" attitude. The temptation to major in coeducation and minor in swing will be made even more desirable when the upperclassmen begin to demonstrate the "correct thing to do."

In the course of the next two weeks you are in for a shock, as the cold water of disillusionment is dumped over your head. Because, unless a near-miraculous change occurs, those revered and respected upperclassmen are going to reveal themselves as sadly unworthy of that reverence and respect. They, or at least some of them, will show themselves to be disrespectful to those people who deserve respect from them. They will be doing the smart thing. They will try to be Joe College.

What do you say, Freshmen? You've got quite a responsibility, not only in regard to the Chapel problem, but with all the problems of campus life. Take a tip from an old man, and don't bother with the wise guy stuff. If you can prove yourself capable of growing up a little earlier than we did, this grand old college of Bates is going to be proud of you.

You'll be proud of yourself, too. Perhaps that is even more important.

From "The Bates Student"

THE READER SPEAKS

In Defense of Pigtails

Editor, The Tech,
 Dear Sir:

If you are one of those observant males, and your campus is probably full of them, who keep a sharp weather eye on the yearly trend in fashion feminine undergraduates pursue, you have probably noted one big change this season in their hair-do's.

Perversely, and in direct contrast with last year's blows-with-the-wind coiffure, now they are doing their hair up in pigtails for all the world like Susan down on the farm. It's a practical idea, you will have to admit, and in keeping with these stern times, but do you believe it pretty?

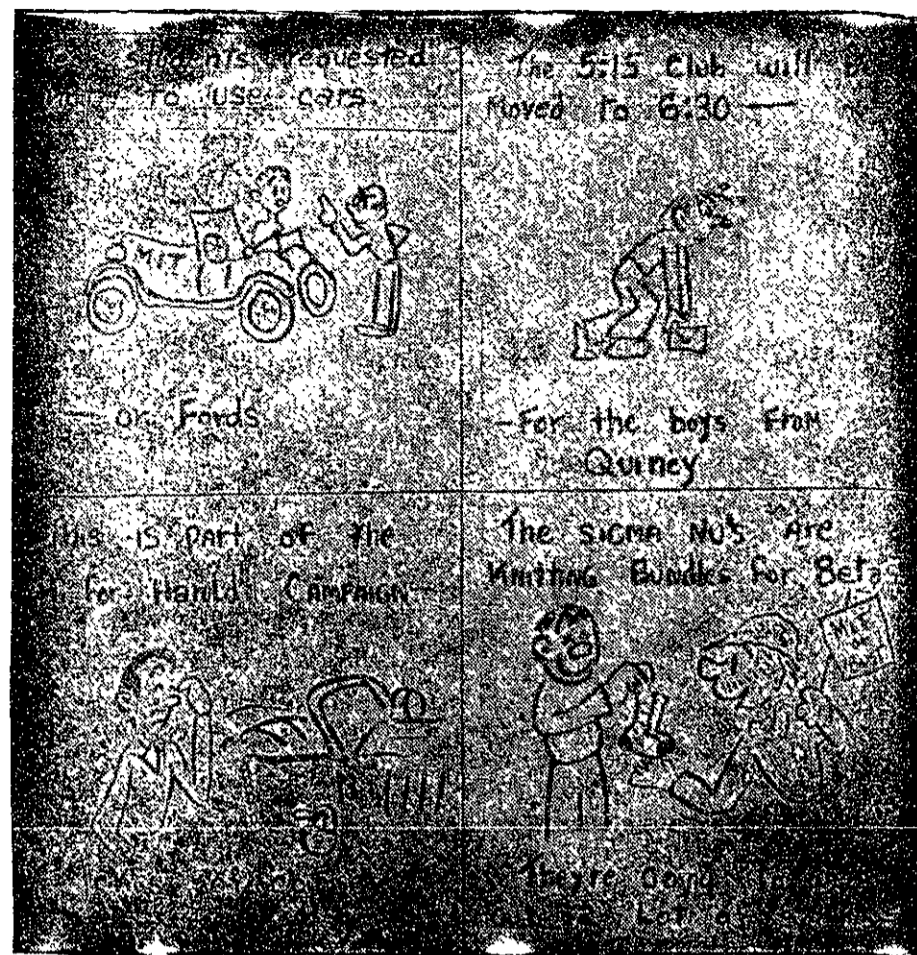

You know, yourself, that when you think of your best girl, or tell the other fellows about her, you think of her hair. Do you want her in pigtails, or do you wish she would revert to the glamor bob that hangs loosely to her shoulders, or the sophisticated upswept pompadour and curls?

Having had long research experience in what constitutes a woman's hair beauty and varying trends in styling tresses, we would like to hear your views and those of your college mates on what you think of the switch-over from curls to pigtails. Your opinions may be so interesting we may want to let them be published. So won't you send us your ideas as soon as possible? There are no costs or obligations involved for either you or us. We would be most interested to hear from you.

Sincerely yours,

ANN MICHLIN

Blame It On Ickes

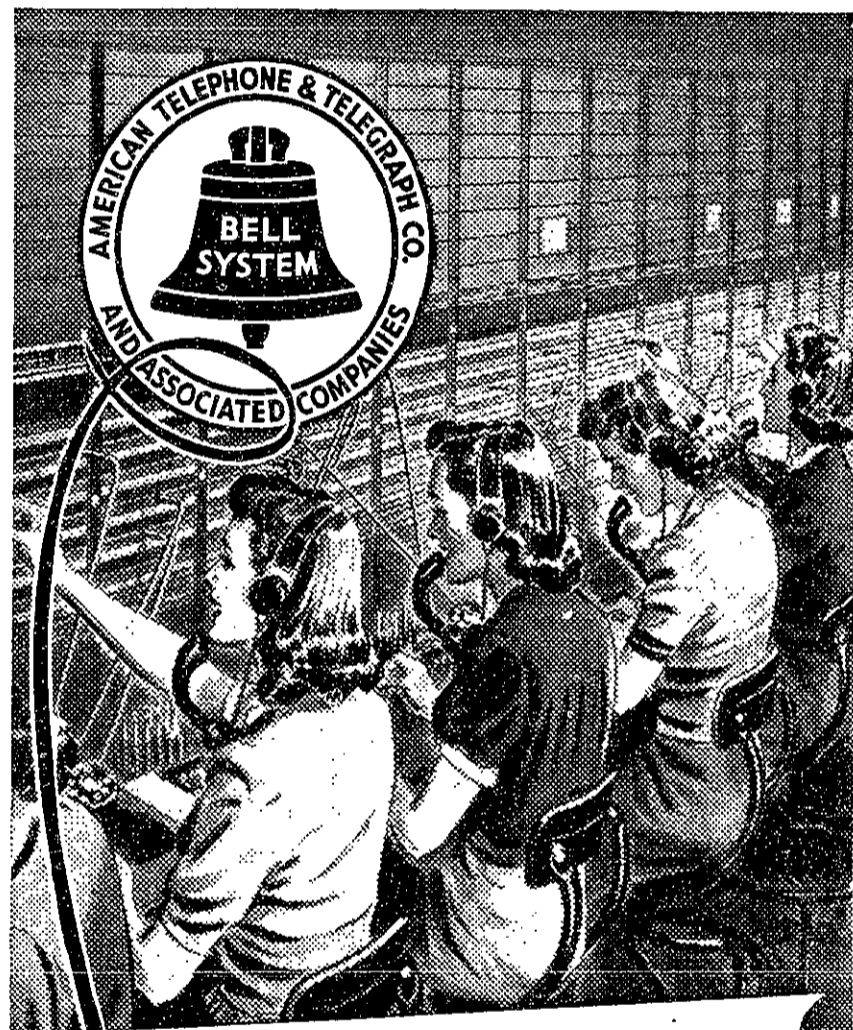

Field Day Dance

(Continued from Page 1)

remain at the stand for at least a week. She proved so popular at her recent appearance at the Dormitory Freshman Acquaintance Dance that the Field Day dance committee felt that her attractive powers could be used to better advantage attracting buyers for dance options.

Invitations Given Out

As further incentive to option sales, formal invitations are to be given to all who plan to attend the dance. The invitations are formally engraved and are to be mailed out to dates or prospective dates. Students who have already purchased options may receive their invitations by presenting their options at the sales desk during this week.

for utmost service to the Nation

In these critical times, communications play a vital part in defense. Here is how the Bell System is organized to meet its great responsibility.

American Telephone and Telegraph Company coordinates all system activities, advises on telephone operation, searches for improved methods.

24 associated operating companies provide telephone service in their respective territories.

Long Lines Department of A. T. & T. interconnects the 24 operating companies, handles Long Distance and overseas service.

Bell Telephone Laboratories carries on scientific research and development for the system.

Western Electric is the manufacturing, purchasing and distributing unit.

Highly trained through many years of working together, these Bell System companies provide a nation-wide, unified service. Never have the benefits of this system been so clear as today when the country is under pressure.

Novars Face Lowell Textile In Football Season Opener

Nine Veterans Return To Play; Win Is Possible, Says Coach Hunt

With nine of last year's squad returning and a daily turnout of at least 22 men, Technology's Novars start this second year of intercollegiate competition and their 1941 season against the men from Lowell Textile on Saturday, October 18.

"As Lowell has lost its last two games by wide margins 54-6 and 39-0, the Beavers stand a pretty good chance of coming out on top," Coach Hunt said.

Returning Veterans

Among the nine returning veterans are Monk Bunn, star of last year's 21-6 win over Tufts jayvees when he scored 14 points, and Johnny Arnold, who went over for the touchdown against the Fore River Apprentices to tie the game. The other seniors are Bob Given, Dick Small, Earle Foote, Frank Seeley, Bob Evans, Bob Crosby and Bob Fabacher, blocking back.

The team as it now stands has two men for center position, Dick Feingold and Earle Foote; three guards, Bob Given and Frank Seeley and Orenz. The tackles will be chosen from Thad Sadowski, Turner, Bob Moore, Dick Small, and Lamar Fleming, while the ends will be picked from Bob Evans, Cal Dunwoody, George Marakas, and Gene Eisenburg.

In the Backfield

Backfieldmen will be Monk Bunn, Johnny Arnold, Bob Fabacher, Bob Crosby, Bob McBride, Charley Coles, David Taylor, and Russ Bowen.

On November 1, the Beaver squad will face the jayvees from Tufts. On Armistice Day, the Novars face Bethlehem's Apprentices from Fore River. In last years game, Tech tied 6-6. On the fifteenth they tangle with the Crimson jayvees. The final game of the season is with the Boston University frosh.

On Field Day

Regarding the frosh-Soph tangle on Field Day, Hunt said that this year's frosh are burlier than the Class of 1944, but he continued the nonpartisan statement by saying that the Sophs were more experienced.

Harriers Train Under Hedlund

Cross-Country Men Hold Tryouts For Bates Meet

Under the watchful eye of Coach Oscar Hedlund, the varsity cross-country team worked out at Franklin Park last Saturday in preparation for its opening cross-country contest with Bates this Saturday.

In last Saturday's trials, said Oscar, Ken Joseph and Bob Cummings, both Sophomores, showed up well. Other stand-outs were Capt. Art Gow, Bob Miller, Malcolm McGregor, Heinie Shaw, Ralph Kelly, and George Ziegler.

Coach Oscar Hedlund has issued a call for more Sophomore and freshmen candidates for the relay teams. The track coach urged every Sophomore who was a member of last year's freshman team to get "on the ball" and turn out. Freshmen must also come out now to take part in trials for the relay team which are being held this week.

Swimming Relays To Replace Dinghy Races On Field Day

New to freshman-Sophomore competition this year is the swimming meet which will replace the dinghy race in the Field Day program. The meet is to consist of two races, a freestyle relay and a medley relay, and will contribute three points to the victor's Field Day total.

The freshmen seem to have the upper hand at present, according to the M.I.T.A.A. Both the quality and quantity of the freshmen reporting for practice are superior to that of the Sophs. As yet, however, no time trials have been held.

Freestyle and Medley

Two four-man teams from each class will participate in the freestyle relay with each man negotiating a

fifty-yard distance. In the medley, two teams per class will again compete, this time with a roster of three. They must traverse the pool length in three styles: backstroke, breaststroke, and freestyle.

Scoring is to be conducted in the following manner: freestyle; first, eight points; second, five points; and third, three points; medley; first, five points; second, three points; and third, one point.

Candidates Needed

Candidates from both the freshman and Sophomore classes can report any evening at the practice sessions at Alumni Pool. Frosh manager Gordon Smith and Soph managers Fred Cavanaugh and Johnny Jarosh will take care of any new turnouts.

T.C.A. To Sell Tickets To B.C., Harvard Games

As in the past years, the Technology Christian Association is offering football game tickets for sale to Institute students through its Ticket Service. The department is under the supervision of Warren I. Signell, '44, this year and has been enabled to sell Boston College game tickets as well as the Harvard University game tickets.

Tickets to the Harvard-Cornell tussle to be held this Saturday at Harvard Stadium are offered in the \$3.30 and \$1.65 price classes. The former are for reserved seats on or about the 35 to 40 yard line on the Cornell side and the latter are in line with the goal line. Both may be purchased at the T.C.A. office until 12:15 P.M. Saturday afternoon.

B.C. vs. Clemson

B. C. meets Clemson on the same day at Fenway Park and the tickets offered are for \$2.20 or \$1.10. The more expensive seats are located on the 35 yard line while the others are for bleacher positions, and are unreserved. Tickets for the B.C. game must be purchased before 12:15 P.M. on Friday, the day before the match.

After Cornell, Harvard will meet Dartmouth and Navy in Cambridge, Princeton at Princeton, and Army, Brown and Yale back in Harvard Stadium. Prices for all the games will be the same as previously mentioned with the exception of the Brown game when admissions are to be for \$2.20 and \$1.10.

B.C. Schedule

The Boston College schedule still to be played includes games with Manhattan College, Georgetown University, Temple University, Wake Forest College, the University of Tennessee, Boston University and finally with Holy Cross College. All games will be played at Fenway Park in Boston.

Harvard lost its opening game to Pennsylvania and B.C. defeated St. Anselm for its first game only to succumb to the Green Wave of Tulane at New Orleans in its second contest.

Ricker And Shaw Elected To M.I.T.A.A.

Charles S. Ricker, '42, was appointed vice-president of the M.I.T.A.A. at its last meeting, Sunday, October 5, in the Litchfield Lounge, a vacancy in this office having occurred due to the absence of William E. Hense, Jr., '42, on the student enrollment.

An addition to the executive committee was also made by the election of W. Hoover Shaw, '42, to the office of member-at-large. This completes the executive committee of the M.I.T.A.A.

McCarthy To Make Juniors, Seniors Into Referees

Beaver Key Society To Help Students Run Intramural Games

The Beaver Key Society's annual intramural touch football tournament will commence on Sunday, October 19. This year there will also be a class to form a roster of referees. The students in this course will be asked to referee a match for one week in order to become eligible for membership in the newly formed group of Beaver Key Referees.

These men will receive an award from the Society. All Juniors and Seniors interested in this activity should leave their names with Clinton C. Kemp, '43, Secretary of the Beaver Key Referees, in the A.A. room, Walker Memorial Building, or call him at Com. 8048.

Players Are Eligible

Students who play for their teams in the tournament are also eligible to serve as referee in matches not involving their squad. As four games will be played simultaneously, this player-referee-student will be able to referee a game before or after his team's.

Mr. Henry P. McCarthy, the physical training director will run a short instruction class for all prospective referees who may need help in this integral part of the tournament.

FEDERAL DEPOSIT INSURANCE CORPORATION

P. T. Substitution Lists Out Tomorrow

Physical Training substitution sign-ups will begin tomorrow, according to an announcement from the A.A. All freshmen who wish to substitute some sport for the required P.T. should register at Mr. H. P. McCarthy's office in Walker Memorial, third floor, as soon as possible. Sign-ups for squash, however, will not be accepted until October 15.

Before substitution of a sport will be permitted, an eligibility card must be obtained from the medical department. Participation in a Field Day event does not constitute substitution for physical training.

Tennis Tourney Begins Tomorrow; Sign-ups Today

Today is the last opportunity to sign up in the the main lobby for the annual tennis tourney which will officially get under way tomorrow. Two tournaments, one for the frosh, the other for all upperclassmen, will be staged; and the respective winners are to be awarded cups.

Competition is open to all who are interested in the sport, and five days will be allotted in which to play the initial games in the elimination series.

90 Men Entered

With one day remaining on which to sign up, the official roster lists 42 frosh and 48 upperclassmen already entered.

Some of last year's varsity tennis team members who are prospective favorites in the tourney include this season's captain, Maurice Katz, and George Spies, Bob Gunther and Arthur Mestier.

Booters Win First Match

Henkel Scores Thrice And Leads Beavers To 3-1 Victory

Scoring three goals, Sophomore Alfred Henkel led the Tech soccer team to a three to one victory over Watertown High School on Saturday, October 4, at 3:00 P.M. at Briggs Field. The game was the first one played under the new coach, John Craig.

The Cardinal and Grey scored early in the first period, but the Watertown team came back in the second period to tie the score 1 to 1. Henkel put the game on ice with his second and third goals in the third period. The fourth period passed without a score.

Beaver Line-up

The line-up for the Tech team included members of the three upper classes and is as follows: Joseph Szemere, '43, R.B.; Capt. Robert Fay, '42, L.B.; Peterson, '44, H.H.B.; Carpenter, '44, C.H.B.; William Richardson, '44, L.H.B.; John Fonseca, O.R.; S. M. Fenmen, '42, I.R.; Alfred Henkel, '44, C.F.; John Ewing, '42, I.L.; K. T. Mormose, '44, O.L.; Grant, '44, and Antipapas, '43, guarded the goal.

Dexter K. Bowers, manager of the soccer team, attributed the improvement over the 1940-41 squad to the large turnout of freshmen last year.

Exhibition Of Squash On Courts, Oct. 10

Jack Summers, varsity squash coach and a former National champion, will play varsity Captain Jack Sheetz in the squash courts on Friday, October 10 in the evening at 5:00.

The main purpose of this match is the introduction of freshmen to the technique of the sport. All shots will be explained, and the spectators will thus be able to obtain a rough idea of the game.

The freshmen who would like to substitute squash for P.T.I. are reminded here that they should sign up in Mr. Henry P. McCarthy's office in the Walker Memorial Building on October 15. Only the first 75 will be allowed to substitute this sport.

649 Men Make Dean's List; First Rank Occupied By 95

The names of 649 students were placed on the official Institute Dean's list for the second semester of the Academic year 1940-1941. The list issued yesterday, shows a marked decrease of 289 students from the all time record of 938 for the preceding semester. But an increase of 66 students is shown over the corresponding term of the preceding year.

A total of 95 students attained first rank on the list with a term rating of between 4.50 and 5.00. This marks a decrease of 20 from the list of the first term. 210 undergraduates having term ratings of between 4.00 and 4.50 were placed on the list of second rank. The third list contains the names of 344 students.

The Junior Class topped the Sophomores and freshmen with a representation of 42.0% on the roll of honor, a drop of 8.8% over the preceding term. 39.0% of the Sophomores were placed on the Dean's list, a decrease of 1.3% over the preceding semester. The freshman class alone bettered its first term record of 34.2% by placing 36.3% of their class on the list.

The Dean's list was established at the Institute in 1931 to give recognition to students of high scholastic standing. It is issued biannually, usually in April and October. Copies of the present list may be obtained from the Information Desk, Room 7-111.

Students of First Rank. Term Ratings 4.50-5.00—1943

- (Approximately 5.0% of the Class)
- Carleton Fauton Bryant, Jr., Searsport, Maine
 - Melville Clark, Jr., Cazenovia, N. Y.
 - Charles Albert Duboc, Kansas City, Mo.

 - Paul Talalay, Boston, Mass.
 - John Hughes Tinlot, Rochester, N. Y.
 - Lawrence John Varnerin, Jr., Boston, Mass.
 - George Johannus Yevick, Berwick, Pa.

Frosh Rally Is Failure; Spirit Weak

Oscar Hedlund Warns Of Sophomore Picnic On Field Day

(Continued from Page 1)

Swimming Coach John Jarosh will be on hand at the rally to urge swimmers to turn out for practice.

Tug-of-war practice started yesterday for the Sophomores, and participants are probably needed for this event.

Frosh Failures

The first attempt by the freshman class of 1944 at rousing class spirit yesterday in Huntington Hall ended in failure, chiefly because of a meager turnout. Although everything had been prepared for a rousing ceremony by class advisors and coaches, the unsprited freshmen failed to turn out for their own rally. Propheying that such poor spirit and lack of cooperation must surely lead to defeat. Coach Oscar Hedlund who addressed the handful of men present urged them to go to work on their classmates and revive the sparks of class life which were evidenced at Freshman Camp. Coach Hedlund stated: "The Sophs should have a picnic on October 31 unless the Class of '45 wakes up and gets behind their teams."

Swimming Coach Gordon Smith revealed that what swimmers had turned out were very good, but that more were needed. Howard P. McJunkin, '43, coaching the freshman tug-of-war team wants everybody, large or small, to come out for practice on Briggs field.

Football in Shape

The most encouraging news came from Robert S. Reebie, '43, who is working his football squad into shape. Reebie brought in the squad of about 40 freshmen to the rally to swell the ranks and to show the others who was working.

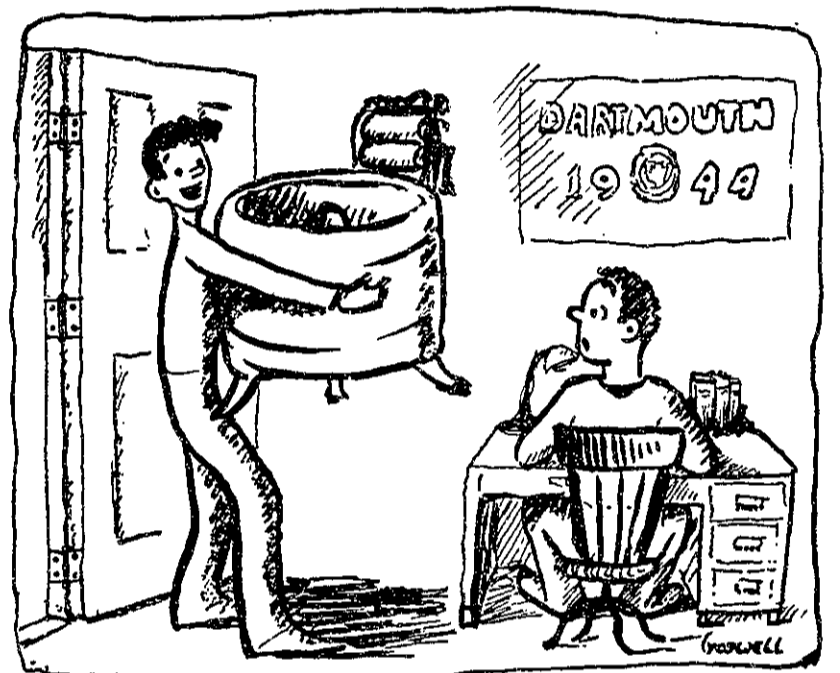

Oscar Hedlund reported that the Sophomores had the upper hand in track. The freshmen must now seek opportunities to help the class by going into sports groups to which they are best suited and volunteering their services, and by arousing a will to win in their classmates.

Walker Starts Waiter Service

New Dining System Appeals To Students Attendance Shows

The largest number of diners since the introduction of table service just a week ago patronized Morss Hall at Walker last night according to Mr. A. W. Bridges, superintendent of the Dining Service. Comment on the novel method of serving dinner has been entirely favorable, and there has been an ever increasing stream of student diners, with many who made advanced reservations of tables, said Mr. Bridges.

"We expect that much greater use of the campus eating facilities will be made this year than last as a result of the introduction of table service," Mr. Bridges prophesied. "Tech men have quite voluntarily begun to dress for dinner and have shown much less reluctance to bringing in their dates," he stated.

Walker Library Records

Permission has been obtained to play during meals the Symphony and classical records of the Walker Library over the new loudspeaker system. The enjoyment of good music together with an atmosphere of greater neatness and a voluntary bar on sweatshirts and pullovers will contribute to the cultural life of Technology students, Mr. Bridges believes.

Complete dinners as well as sandwiches are now being served by waiters every weekday from 5:15 to 7:15 P.M.; but cafeteria service continues at all other times.

Tech International Club Plans Smoker And Outing

The Technology International Club will inaugurate their activities for the year with a smoker to be held at 5:30 P.M. this Friday, October 10 in Pritchett Hall of Walker Memorial. The meeting is open to anyone who is interested in the activities of the Club. Refreshments will be served, and a guest speaker is scheduled to talk.

This first official act will be followed on Saturday by a mixed outing at the Stow Country Club. A bus will leave from the front of Walker Memorial at 1:30 P.M. Saturday afternoon, whence the men will travel to Wellesley where they will call for the girls. Northeastern, Simmons, and Technology students will also participate in the party.

Entertainment and transportation will be free, and facilities will be available for dancing, tennis, hiking, ping pong, soft ball, bowling, and shuffleboard. The outing is planned for members only.

Those who plan to attend should sign up on the bulletin board in the Main Lobby of Building 10.

Voo Doo Smoker Remains Secret

"Sex will run rampant through the sacred portals of Faculty Lounge, Thursday at 5:00 P.M.," was the sole comment concerning the annual Voo Doo smoker that R. Stetson "Hawk" Shaw, '42, General Manager, would allow printed in a personal interview last night.

"If further details were announced to the multitude of readers of The Tech, I'm afraid it would attract too many people", he claimed. "Why, it's going to be so good," he stated, "that even our staff is going to show up in full force. All two of them."

No Gate Crashing

To prevent possible gatecrashing by members of the upperclasses, imported huskies from the crew and football teams will guard the doors to exclude all those who do not wear the shining banner of the Class of '45.

The theoretical purpose of the debacle is a smoker to entice interested freshmen into the arms of Phosphorous to do the bidding of the slave-drivers they call the Voo Doo Managing Board. It is to be staged at 5 P.M. Thursday, October 9, in Faculty Lounge.

Lowell Institute Plans Lectures

A series of six public lectures sponsored by the Lowell Institute will be delivered between now and the end of October on the subject "A Reinterpretation of Jacksonian Democracy," by Arthur M. Schlesinger, Jr., A. B., a Junior Fellow of Harvard University. The lectures will be delivered at 8:00 P.M. on October 14, 17, 21, 24, 28, and 31 in the Lecture Hall of the Boston Public Library.

The first lecture will cover "The Background of Jacksonian Democracy," and will be followed by successive lectures on "The War Over the United States Bank," "The Rise of the Radicals," "Van Buren and the Struggle for Financial Independence," "The Philosophy of Jacksonian Democracy," and "The Biography of a Tradition."

Tickets for the history lectures may be secured, free of charge, by applying by mail to the Curator of the Lowell Institute, Boston Public Library, Copley Square, Boston, and enclosing a stamped, addressed envelope.

30 Students Will Receive Flight Training

Two Courses Lead To Private And Commercial License

During a conference period held last Friday at the headquarters of the Aeronautical Engineering Department, 30 Technology students were chosen for flight training under the government's Civilian Pilot Training Program. Twenty students will take the primary course while ten others will receive the secondary training.

Flight training for both courses will be given at the Norwood Airport, because the overburdened East Boston Airport is unable to handle any more students. By a reciprocal agreement with Harvard University, the students taking the primary course will go there two nights a week where they will receive instruction in civil air regulations, navigation, and meteorology. Those taking the secondary course will come here for more advanced instruction which also includes a study of aircraft engines and radio.

Private Pilot's License

The 35 hours of flight training plus the ground school training given in the primary course leads to a private pilot's license, while the secondary, with 40 hours of flight training and the ground instruction leads to a restricted commercial license.

A complete course is scheduled for each term, so that the entire schedule will be repeated next spring. Under present flight scholarships offered by the Civil Aeronautics Administration, it is possible to become a flight instructor through the training offered at the Institute.

Mathematics Society Presents Prof. Martin

Professor William T. Martin, of the Department of Mathematics, will be the speaker at the first meeting of the M.I.T. Mathematical Society to be held in Room 2-232 at 4:00 P.M. today.

Professor Martin will speak to the society on the topic, "the Calculus of Variations," covering the various applications of this field.

Vogue Holds Photo Contest, Prizes Offered

An opportunity for photographers to win a position on the photographic staff of Vogue has just been announced by the editors of that magazine. The career competition is open to college seniors of accredited American colleges who have a serious interest in photography.

Two career prizes are offered, one for men, one for women, consisting of a six months' apprenticeship with salary, in the Conde Nast Studios in New York. In addition, cash prizes will be awarded to other competitors.

The nation-wide contest consists of eight photographic problems to be presented in the magazine. These cover a wide range of topics, including fashion shops, pictures of outdoor and indoor subjects, action and still-life. Entrance blanks must be obtained from the magazine and mailed to the editors.

Concert Planned By Glee Club

For the first time in two years the M.I.T. Glee Club is to sing with the Pembroke College Glee Club in a joint concert to be held in Walker Memorial Saturday evening, November 8, at 9:00 P.M. A dance for the members of the two clubs will follow the concert. Admission to the concert is free and everyone is invited.

The concert will be the first joint concert of Pembroke and M.I.T. in two years although last year the clubs met in a quadrangle concert with Worcester Tech and Wellesley.

The M.I.T. Glee Club has already scheduled concerts with Bradford and Lasell Junior Colleges, Simmons College, and Longwood Towers. In the offing are concerts with Connecticut College, Smith College, and Bennington College. A few broadcasts have also been planned.

Your Last Chance to get Walt Disney's Song Book FREE

with the purchase of a bottle of PARKER Quink at only 15¢

HURRY!

No box-tops to send — no waiting — just get this quick-drying, pen-clearing ink at your retailer's and receive your Song Book right then and there!

We might have known that such a swell offer would soon exhaust retailers' supplies, but we didn't dream it would happen so fast. If you don't find any left at the first store, try a second. But act without delay, to be safe.

And when you fill your pen with Parker Quink, be sure to try it without a blotter. See how fast it dries ON PAPER—31% quicker than average of 4 others. And see how beautifully your pen works—a Parker or ANY OTHER. For Quink contains a secret agent that dissolves deposits left by pen-clogging inks. That's really why we created Quink—to guard pens from sediment and gum that stop the flow.

Quink will help keep your pen in your hands and out of repair shops.

To induce you to try it, we are giving Disney's Song Book FREE when you buy Quink for 15 cents. Better clip out this announcement as a reminder. It's probably your last chance.

The Parker Pen Company, Janesville, Wisconsin.

- 5:00 P.M. S.A.M.E. Meeting—Room 5-208.

Carmody To Play For Catholic Club

400 Girls Will Attend Acquaintance Dance; Tickets Cost \$.85

The annual informal Fall Acquaintance Dance of the Technology Catholic Club is to be held on Friday evening, October 17, in Walker Memorial. Music will be furnished by Jim Carmody and his twelve piece orchestra, according to John T. O'Connor, '42, president of the club.

Over 400 girls from nearby colleges including Wellesley, Simmons, Radcliffe, Framingham, Emmanuel, Regis, and Lasell have promised to attend in the hopes of leaving names, addresses, and phone numbers in the little black books of Technology undergraduates.

The affair is to be stag and open to all students. Tickets priced at eighty-five cents will be on sale from Tuesday, October 14, until the day of the dance from 12:00 to 2:00 P.M. daily in the Main Lobby of Building 10.

"Ice-pickers" Meet In Moore Room, Oct. 14

The "ice-pickers," an organization of Course V graduate students have scheduled their first meeting of this year for Tuesday, October 14. The meeting will be held in the Moore Room at 8:00 P.M.

Those who desire to eat out before the meeting will leave Eastman steps at 5:45 P.M. to the eating places of their choice. Refreshments will be served after the meeting in the Moore Room, however. At the meeting plans for the coming year will be discussed.

S.A.M.E. Plans Meeting With Colored Movies

The initial meeting of the Society of American Military Engineers will take place at 5:00 P.M., Thursday, October 9, in Room 5-208.

The program of the meeting will include, election of officers, for the coming year, a movie entitled "Camouflage Experiments" which will be a sound and color film, and a discussion of the program for the coming year.

Membership in this society is open to all students in the Advanced R.O.T.C. Engineer Unit.

Slater, Hardy Evans To Speak To Physicists

New Policies, Plans To Be Announced On Wednesday

The new M.I.T. Physical Society is going to hold its first meeting of the season this Wednesday afternoon at 5:00 P.M. in Room 6-120. At this meeting Professors Slater, Hardy and Evans will each give a short talk on "Horizons in Physics", showing the fields open to the physicist and also showing something of the romance of physics.

At this meeting a very important announcement vitally concerning every member of the society will be made it was announced by those in charge. After the meeting refreshments will be served free to all in the Moore Room.

Society Is Changed

The Physical Society has radically changed from the type of society it has been in past years. On Wednesday its policies and new plans for the coming season will be announced.

Many have commented on the Eight Balls the members of the Society have been seen wearing. This is but one of the innovations the Society has adopted this year.

The first meeting is open to all. Those men, especially those in Course VIII (graduate students included), interested in physics and in having a good time should attend.

The Tech Needs Student Salesmen

Salesmen are needed to sell The Tech in the main lobby from 11 to 2 on Tuesdays, and 1 to 2 on Fridays. They are also needed in Walker from 12 to 2 on both Tuesdays and Fridays. This is an opportunity for a fellow with a spare hour to earn some spending.

Anyone interested in the selling line should see John W. McDonough, Jr. at The Tech Smoker this afternoon at five o'clock in Pritchett Hall or may phone him at Lon 8713.

Frosh Dance Is Success

The Radcliffe-Simmons acquaintance dance last Friday can be credited as a successful opener in the dance program of the Freshman Dance Committee. Music was of the very best calibre and the entertainment most amusing.

The committee made a very lucky find in Baron Hugo, who supplied superb music of all types and rhythm. The entertainment, however, was unique. Duets and personal ability were exhibited on the pianoforte by Messieurs Gene Schnell and Ben Elm-dahl, and a general sing was led by the venerable monotone George C. Marakas. A grand march which facilitated the mixing was another added novelty.

Professor Keith To Address Naval Architects

"The Launching of the Battleship, Massachusetts" will be the subject of a talk by Professor Henry H. Keith, Head of the Department of Naval Architecture and Marine Engineering at a dinner meeting of the Naval Architectural Society. The meeting will be held in the Dutch Room of the Graduate House at 6:30 P.M. on Wednesday, October 8.

William C. Freeman, '42, president of the Society, asks all interested Course XIII men, including freshmen, to sign up at the 5-420 Bulletin Board. A charge of \$1.75, which includes membership dues and the dinner, will be made.
