

The Tech Poll Reports 85% Of Undergraduates Would Not Declare War

Less Than 2%
Were Undecided;
More Than 60%
For Russian Aid

Eighty-five percent of the students at Technology are opposed to declaration of war on Germany by this country, according to the results of the poll of student opinion run by The Tech last Wednesday. Less than two percent of the students polled were undecided in their stand on this question. This is the least belligerent result of any of the recent Collegiate polls. In a poll conducted two weeks ago at Dartmouth, 32% of those voting stated that they were in favor of immediate declaration of war on the Reich. This compares with 22% of Harvard students, and 17% of the nation who favored taking this step, as reflected in recent cross-sections of opinion.

Of the 325 Technology men who voted against the declaration, only 116, nevertheless, thought that the Administration's conduct of policy toward Germany had been too aggressive, and 58 thought it too lenient. In regard to the policy toward Japan, 43 voters (13 percent of those opposed to war with Germany, 11% of the total thought it too aggressive, and 203 (almost two-thirds) thought it too lenient.

Notably in the poll was the lack of antipathy towards the Soviet. Over 60% of those taking part in the poll were willing to send Russia all available war supplies in exchange for cash on immediately deliverable raw ma-

Frosh Will Hold Victory Dance

Fete In Hangar Gym
Will Feature Records
Next Saturday Night

In celebration of their Field Day victory, the Class of 1945 is sponsoring a victory dance to take place in the Hangar Gym from 8:30 until 12:00 P.M. on Saturday night, November 8, 1941.

Since the dance will be a record hop, the cost has tentatively been announced at ten cents per couple. According to the committee, the dance will provide a place where the freshmen can have a lot of fun at a very small cost.

Intermission Fun Planned

To add to the fun, the committee is also planning a program for the intermission. An attempt is also being made to procure class numerals for the girls who assisted in the Field Day rally. If the attempt is successful, the numerals will be presented at the dance.

The Walker Memorial Committee, in granting permission for the dance, insisted that the freshman class have members of the Cambridge Police Department present in order to prevent any property damage by expected raiders.

Eta Kappa Nu Smoker Scheduled For Today

Eta Kappa Nu, honorary electrical engineering society, is holding an informal smoker in Pritchett Hall this evening at 7:45 P.M. The smoker will be an informal affair and will present only members of the society as speakers.

The purpose of the smoker is to introduce the Course VI freshmen, and to give them a chance to meet some of the fellows already in the society. Elections will also be held at that time, and the results will be announced at a later date.

Technique Photographer Offers Last Opportunity

All Seniors must have their Technique and placement pictures taken by the end of this week, it was announced last night by William R. Lacy, '43, Biography Editor of the 1942 Technique.

For the convenience of those Seniors who have not as yet had their pictures taken, the photographer will be in Room 3-432 from 9 A.M. to 4 P.M. daily until Friday. This will be the last chance to have these pictures taken if they are to appear in this year's Technique. The photographer will refuse to work unless presented with \$2.50 in advance which is to pay for the Technique picture and for six placement pictures.

\$4100 T.C.A. Goal Set For '41 Drive

Drive Aide Pledges
Offered At Dinner
Average \$4.86 A Man

The T.C.A. solicitors sent the annual financial drive off to a start averaging a contribution of \$4.86 per man at their drive-dinner last Thursday night in Pritchett Hall of Walker Memorial.

Dr. Sherwood Eddy, who was the principal speaker, gave the 170 aides present some advantageous pointers on the psychology of solicitation. Wilmer J. Kitchen, executive secretary of the Student Christian Movement in New England, and Mr. Harold B. Richmond, who is active in the American Red Cross, spoke on behalf of their respective organizations, both benefiting from this year's drive. Richard P. Gillooly, '42, made the first contribution.

5:15 Football Dance Planned For Nov. 21

Friday, November 21, will be the date of the 5:15 Club "Football Dance" in Morss Hall, Walker Memorial. Those who attend will dance to the music of Leon Mayers and his orchestra, it was stated by Constantine J. Maletskos, '42, Chairman of the dance committee.

The purpose of the affair is to celebrate the last game of the year which the 5:15 Club will play. It is hoped that this will show the rest of the school that amateur football is still a great sport to be indulged in by all.

"War Not To Affect Institute If It Comes," Says Compton

Technology will continue to function as an educational institution in the event that the United States is drawn into the war, in the opinion of President Karl T. Compton, who spoke informally at a tea for freshmen in the Burton room on Sunday afternoon. Dr. Compton also expressed the opinion that there would be an increase in military training in the event of war, but any such change in the Institute's curriculum would not approach that which occurred in the first world war.

Answering many questions from interested students, Dr. Compton remarked that of the contracts which the National Defense Research Committee placed with industrial concerns and universities 14 months ago, several projects have advanced to the degree that "sample copies" have been delivered to Great Britain.

Emergency Measure

Commenting on another aspect of the nation's vast defense effort in which he and a large group of the

Vu, New Pictorial, Will Go On Sale Next Thursday

Vu, Technology's newest publication, will go on sale next Thursday and Friday, November 6 and 7, in the Main Lobby of Building 10. Sponsored by The Tech, the new magazine is an attempt to portray Institute life pictorially.

Articles on Professor Harold E. Edgerton's high speed photography work, Wellesley College, the Field Day Dance, this year's Freshman Camp, and sailing at the Institute will be contained in the first issue. In addition there is to be a portfolio of views of Technology and the regular features, "As We Vu It," "Merriment," in pictures, and a sports summary.

Preparations Begun in May

Preparations for this first issue were begun last May by a group of interested students. The management of Vu is at present under the control of seven members of the Classes of 1942 and 1943, with the managing board of The Tech acting in an advisory capacity. These positions are all tentative and determined by performance alone.

Louis Rosenblum, '42, is editor-in-chief, with William R. Moulton, '43, in charge of the photographic work. The advertising department is under Robert M. Greene, '43, and S. Joseph Tankoos, '43, is associate editor. William R. Wilcox, '42, heads the publicity and personnel departments, Charles D. Magdick, '42, is the busi-

Wenk Heads Group Studying "Novars"

Inquiry Follows
The Tech Editorial;
Richer, Anderson Aid

President Frank B. Herlihy, '42, of the M.I.T.A.A., today announced that an investigation into the football situation at the Institute will be begun soon. A sub-committee headed by Karl T. Wenk, '42, and consisting of Charles Richer, '42, and Anderson have been asked to make a report on the situation.

Following an editorial in The Tech (Oct. 21) asking for such action, the committee will try to solve the football problems of Technology by helping to determine the status of the "Novars," and by giving suggestions for forming a completely representative team in the near future. It is hoped that the "Novars," or some other representative team, may someday soon represent the Institute in inter-collegiate competition.

Junior Prom Committee, Senior Week Committee To Be Selected In Poll

Senior Ring Orders To Be Taken November 4 and 5

The last opportunity for Seniors to order their rings before the end of the second term will be today and tomorrow, November 4 and 5 in the Main Lobby.

Rings ordered at this time will be ready for delivery before Christmas.

At the same time as when orders are placed a deposit of two dollars plus the 10% defense tax will be required. The rest of the money must be paid upon delivery.

Staff Adds Two; Twelve Instructors Named This Year

Prof. Alderman Joins
Architecture School;
Major Post In M.S.

Two new appointments to the staff of the Institute have been made since the opening of the school year. Assistant Professor Bissell Alderman joined the faculty of the School of Architecture while Major Frank S. Post is attached to the Department of Military Science as an Assistant Professor.

Appointments to the grade of instructor and the departments in which they will teach are Rodney M. Baine, English; Martin Deutsch, Herman Feshbach, and Laszlo Tisza, Physics; Frederick A. Harris and Sergeant Edward Woicak, Military Science; John M. Hartwell, Jr., Business and Engineering Administration; John Lowe, II, Civil Engineering; Owen G. Owens, Mathematics; H. Rush Spedden, Metallurgy; John A. Doremus and Robert C. Seamans, Jr., Aeronautical Engineering; Raymond E. Keyes, Naval Architecture; George W. Kuehn, Theodore Wood, Jr., and Charles B. Woods, English and History; and Robert M. Sherman, Jr., Chemistry.

Popular Orchestra Ready For Debut

Rote, Porter Manage
Group That Practiced
In Walker On Mondays

A popular orchestra representing the Institute has again returned under the management of William A. Rote, '42, and Arthur L. Porter, '42. The popular orchestra, after practicing every Monday at 8 P.M. in Walker Memorial, is now ready to make its public debut, according to the announcement issued by Ray O. Wyland, '42.

Among the players are Christian J. Andrews, trombone; William A. Rote, '42, trombone; Arthur L. Porter, '42, tenor-saxophone; Douglas E. Root, Jr., '44, drums; William Devine, '42, trumpet; Felix R. DeLeo, '42, trumpet; and Scotty Carpenter, '44, piano. However, the orchestra still lacks a second alto and tenor saxophone, and a bass fiddle. Any men interested should report to William Rote.

Wellesley Sponsors Dance To Unite Outing Clubs

In an effort to unite the activities of the outing clubs of schools from the entire Boston area, Wellesley College will sponsor a mammoth and square dance on Saturday evening, November 8, on the Wellesley campus.

The get-together will open with an outdoor "cook" and dinner, to be followed by the square dance. The cost, including transportation, will be one dollar, and the number of participants is unlimited. Leader Frank McClintock '42 announced.

Twenty Seniors Will Be Chosen, Juniors To Pick Five Members

Tomorrow the Senior class will elect its Senior Week Committee and the Junior class will choose the Junior Prom Committee in the Main Lobby of Building 10. Nominations for both the committees were closed last Thursday. The Juniors nominated 16 for a committee of five, while the Seniors will elect 20 from 32 nominees.

Those nominated for the Junior Prom Committee were Sid F. Atlas, Bernard S. Brindis, Bernard Dale, Thomas J. Dolan, Calvin B. Dunwoody, James T. Harker, Charles J. Lawson, John W. McDonough, Howard P. McJunkin, George C. Marakas, Christian J. Matthew, Virgil E. Otto, Bert E. Picot, S. Joseph Tankoos, Kenneth L. Warden and Hans R. Wittels.

Senior Nominees

The twenty members of the Senior Week Committee will be chosen from the following nominees: John S. Arend, Harry N. Blakeslee, Paul M. W. Bruckman, David Christison, Albert F. Clear, Jr., Thomas T. Crowley, Walter S. Eberhard, Edward Edmunds, Jr., John S. Ewing, Gordon H. Hill, George M. Illick, Warren H. Kaye, Harry E. Knox, Carthrae M. Laffoon, Jr., John M. LeBolt, James K. Littwitz, Carl L. McGinnis, Charles D.

\$1040 Granted By Inst. Comm.

Musical Clubs To Get
\$590 To Sponsor
Annual All-Tech Sing

A total of \$850 was appropriated from its reserve fund by the Institute Committee at last Thursday's meeting. In addition \$190 was appropriated from the invested reserve. Of this total \$590 was for the furtherance of the activities of the Musical Clubs which, besides expanding materially this year, is also planning to sponsor the annual All-Tech Sing again.

Next event on the docket was the approval of the Open House Committee's plan for a series of course exhibits to replace the biennial Open House program, which has been cancelled this year in order to avoid interference with national defense efforts at the Institute. According to a report of Daniel G. Hulett, '42, chairman of the Open House Committee, most of the Institute courses approve the plan. Acting upon this report, and having been assured that the Corporation was to bear the expenses of the series of

(Continued on Page 2)

Beaver Club Has Initiation Soon

The Parker House in Boston, on Wednesday evening, November 5 at 7:30 P.M., will be the scene for the Fall induction of the Beaver Club, honorary Junior Society. Eleven Juniors will receive their initiation from the present members of the club.

The candidates will be expected to bring tokens of the errands on which they were sent, to present an original playlet, to sing a Beaver Club drinking song which they are to compose, and to bring beautifully engraved paddles for the initiation. All past, present, and prospective members, are invited to participate in the fun and to partake of the refreshments that will be served.

WE PRESENT-VU

The Tech's new offspring is scheduled to see the light of day Thursday when it will take its place among the Institute's publications. Its purpose:—To become a permanent record of life at Technology as it occurs from day to day.

This is an entirely new venture, its future still veiled in the distance. However, if it follows in the footsteps of its sister publication, T.E.N., its career should be a brilliant one. Mistakes will undoubtedly be made, but we hope that they will never be repeated.

Student body, we give you this infant, Vu. It is your magazine, for you, and about you. You alone are custodian of its fate.

NO POLL TAX EITHER

Wednesday, the machinery of democracy at the Institute again swings into action as the two upper classes go to the polls to elect committees for the Junior Prom and Senior Week. These committees will stage the biggest events of the year for the respective classes, and it is the obligation of every student in these classes to vote.

The only way that these social functions can be successful is to have them managed by competent men, and the only way to get them is for the Class to turn out to elect them.

TECHNOLOGY IS PROUD

To the Class of '45 goes the honor of being the ninth class in forty-one years to win over the experienced Sophomores, and we wish to extend our congratulations. However, Field Day was not the one-sided affair that Oscar predicted and the Sophomores were in there fighting as was shown by the fact that the final outcome was dictated by seventeen gloves.

An unusual spirit prevailed at this Field Day, the rancous, tomatoe slinging element apparently having been flunked out already. However, there was plenty of fighting spirit as evidenced by the closeness of the events. It was to be noted that the Marshalls and Ushers had more difficulty in keeping spectators under control during the glove fight than did the participants.

The swimming meet proved to be a very successful event on the program, providing a spirited event which supplies considerable spectator appeal. This new event should be retained on the program by all means.

SINNER, REPENT!!!

Last week Voo Doo came out, which by itself is saying a lot. It would not be so bad if Voo Doo left a neutral feeling upon the student body, that part which reads it, but the wave of revulsion that immediately engulfs the unsuspecting reader is almost more than we can bear.

To be funny one must be clever and apparently Voo Doo's idea of being clever is clipping out as many jokes from other magazines, changing the names in a few and letting it go at that. To add insult to injury, a few clever cartoons are stuck away in a corner while a whole page was devoted to some absurdity concerning a Wellesley dorm, which may have pleased some staff member's girl but left the general public cold. There were admittedly rare flashes of wit but they were conspicuous by their rarity.

We feel that it would be a good idea, both for Voo Doo and the student body as a whole, if Voo Doo would spend less time thinking up smutty and slanderous ways to chastize The Tech and spent more time trying to put out a magazine. That poor maligned feline, phos, has suffered so much during the past several years at the hands of its own staff.

THE READER SPEAKS

Come On Along, Come On Along

Wellesley College

October 31, 1941

Dear Editor, The Tech: We think there is something you ought to know. So a secret we will bestow—November 14th is Junior Show. Tech should come in retinue To see Wellesley in review—The title, W.C.T.U.

Sincerely yours,

ANNE GREGORY

Publicity Committee of Junior Show, '43

N. B. This is really an invitation to Technology to come to the Wellesley Junior Show, Alumnae Hall, November 14th at eight p.m.

All door contributions go to War Relief.

The Real Question

Dear Editor, The Tech: October 29, 1941
 The Tech poll recently held was a very noble effort. However, such questions as concern the technicalities of aid to Russia and just how it should be done are matters which take far greater knowledge of the present situation than is common to the Tech student. However, the facts concerning the war are, in brief, open to most people. Therefore might I suggest that your next poll have some question such as "Do you feel that defeat of Nazism is more important than keeping out of war?" This would put the question at the level where Tech students might give more factual opinions:—That is, we know the facts leading up to this situation, but we do not know the probability of Russia's holding out, upon which rests the answer concerning aid to Russia. Another question might well be—"Do you believe we could cease all aid to the forces fighting Hitlerism, become truly neutral in action, and thus win the good will of Germany?" Another could be "Do you feel that Germany can defeat England even with our aid"—but as we go on, technicalities come in. The main issue for citizens to decide upon is whether keeping out of war is more important than defeat of Hitlerism. It is for larger brains to decide just how this may best be done.

Sincerely,

A READER

i.e. I truly do not feel that the average Tech student can answer question three honestly, for we are not, as a rule, up on the facts well enough. It would take the knowledge of German oil supplies, food, morale, and the like, which can be judged far better by members of the government and engineers who know German resources and the like. Our decision, the one our government wishes to know, is the degree to which we would go to see Nazism put under control—in other words is war more desirable than Hitlerism. Our government KNOWS far better than we just what must needs be done to defeat Germany—what it wants to know is—are the people willing to see war again in order to defeat Nazism?

The Cat Squawks Again

October 30, 1941

Dear Editor, The Tech: There has been much comment about a joke being printed twice on the same page in VOO DOO, which is the very humor magazine of M.I.T.

This Libelous talk must cease and surely will as soon as the logical and sound reasons for said page are put before the just, honest, farsighted, upright, blearyed, and pretty student body.

These reasons are the following:

1. We planned it that way so as everyone would be sure and get the joke which is very funny.
 2. It isn't the same joke anyway on account of it is different if you look hard enough.
 3. It is the fault of a soddist saboteur from The Tech trying spitefully to bring VOO DOO down to the level of his sheet, may he putrify and not die.
- If any one wants any more reasons I will gladly think them up.

Love,

HAWK SHAW, General Manager

Various T.C.A. Functions Affect Students, Institute, and Boston

Funds collected in the Technology Christian Association Drive this week will be divided among over a dozen department and functions of the T.C.A. according to Clinton C. Kemp, '43, drive chairman.

Biggest single allotment will be of \$1,000 for giving underprivileged boys a vacation at camp during the summer. Last year 150 boys were given about two weeks apiece in a country camp, and the plan is to repeat that accomplishment this year if possible.

\$400 for Tech Cabin

The Employment Bureau will take \$400, an increase over last year. The increase is due to the fact that the T.C.A. is now taking over the distribution of jobs available through N.Y.A. funds, a function which until recently has been carried on by the Bursar's office. A similar amount is to be spent on the Tech cabin, which owing to the over-subscription of last year's drive, is now almost free from debt.

The meetings department of the Christian Association will receive approximately \$300 of the money. This

year the meetings department will again sponsor a series of marriage lectures to be held in the Spring. It was this group which brought the noted speaker Sherwood Eddy to Technology and is planning several more lectures during the year.

\$200 for Boy's Work Equipment

Other work coming in for a large share are Boy's Work Equipment for which will cost some \$200; the information service, which keeps activity cards and gives out freshman lists, getting from \$150 to \$200; and the foreign students work, which gets \$70. The remainder of the T.C.A.'s moneys will be spread over their various other departments.

Also taking part in the drive are the American Red Cross and the World Student Service Fund, for both of which no specific quotas have been set. Contributors to the Red Cross will not be solicited again this year. The World Student Service Fund is being raised in American Universities and will be used for the students in the refugee universities in China and for student refugees and prisoners in Europe.

The Shaft Appears To Publicize Prom For Committee

Option Redemptions, Table Reservations May Be Made Thursday

A new periodical made its appearance on the Tech Campus on the morning of Field Day. It turned out to be another brain-child of the Soph Prom publicity committee with the appropriate name—The Shaft.

The committee reminded Tech men of the Prom in a novel way by issuing a number of farcical stories pertaining to the dance. The high point of the distribution came when the Walker Memorial Committee shooed the shouting Sophomore newsboy out of the Institute Building.

This publicity stunt was a prelude to the announcement that redemptions of options and reservations for the prom will start this Thursday. This will take place in the lobby of Building 10 between the hours of 12 to 2 P.M.

Six Sophs Join Walker Committee

The six victorious Sophomores in the competition for positions on the Walker Memorial Committee were announced last night by Franklin D. Mabbett, '43, chairman of the committee. This competition has been in progress since the beginning of the term.

Those chosen were: Herbert F. Knape, Arnold Mackintosh, Jr., Wallace James Manson, Richard G. Wade, Richard E. Wiffen and Robert H. Wood. These men are those who are to regulate the extra-curricular affairs at the Institute for the coming year, as well as controlling all publicity campaigns on the Institute grounds.

New Members Meet Tomorrow

The competition for the positions on this activity—an executive sub-committee of the Institute Committee—was very close. Those men who were chosen will take their places with the other members of the committee for the first time at a meeting on tomorrow afternoon at five o'clock.

Inst. Comm. Meeting

(Continued from Page 1)

exhibits, the Institute Committee then approved the plan.

Other Allocations Voted

In addition to the appropriations for the musical clubs, money allocated at this meeting included \$150 for the Beaver Key Society, and \$300 for the Debating Society, for the furtherance of their activities.

Other business conducted at this meeting included approval of a motion to recognize Alpha Chi Sigma as a Class B activity, approval of a new constitution for the Course VII Honorary Society, and approval of the motion to give the President of Agenda, Dorm Honorary, a non-voting seat on the Dormitory Committee.

Vu Goes On Sale

(Continued from Page 1)

ness manager, and Stewart Rowe, '43, is the literary editor. In addition to this board, twenty-seven men of the three upper classes have contributed material and are now working in the various departments.

Pictorials at Other Colleges

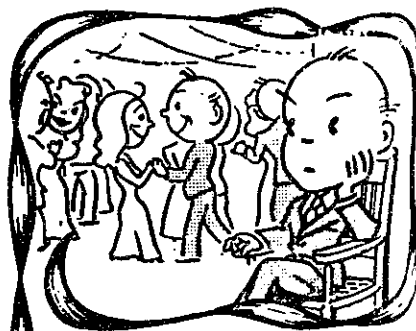

Pictorial magazines have been started at other colleges, several of them gaining secure positions in collegiate journalism. Most outstanding of these is the Dartmouth Pictorial.

A picture magazine is not a new idea at Technology; valuable groundwork was done along this line by Herbert A. Stein, '41. A "Report on the proposed publication of a pictorial magazine at Technology" was issued on May 28, 1941 and was submitted to the advisory Council on Publications and to the managing board of The Tech. This report gave details on the purpose, scope, organization, departments and costs of such an endeavor. Shortly afterwards, the managing board of The Tech voted a grant of \$400 to help meet the expense of publishing the first issue.

Price to be Twenty-five Cents

Vu is to be produced in offset lithography by Lew Cummings of Manchester, New Hampshire. The fall issue is twenty-four pages, 10x13 inches in size. Fifteen hundred copies will be printed to sell at a price of twenty-five cents per copy.

The tentative schedule calls for three more issues after the fall issue. These issues, at Christmas, in March and in May will be dependent on the enthusiasm which is shown by the student body.

Bob Bunn Is Star As Novars Swamp Tufts 12-0, On Sloppy Field

Tech Scores First Win Over Tufts J.V. On Briggs Field

The Tech football team swam to a 12-0 win over Tufts College Junior Varsity at Briggs Field in last Saturday's deluge. Big gun of Tech's attack was Bob Bunn, who carried the ball for both halves and did some very creditable punting.

Bunn Scores in Opening Quarter

M.I.T. kicked off to Tufts at 2:00, and the Novars quickly gained possession of the ball by a blocked kick. They marched down the field and scored on a line play in which Bob Bunn carried the ball through right guard for a touchdown. The attempt for the point-after failed. Tufts chose to receive and brought the ball up to their 40-yard line. They quick-kicked after two line plays failed to gain ground. When the Novars failed to make their ten yards, Bunn got off a beautiful spiral which sent the ball far down the field. The visitors ran an off-tackle play which netted them 15 yards as the first quarter ended.

Tufts began the second quarter by kicking the ball over the Tech goal line for an automatic touchback. The Novars' first play, a reverse, lost ground and they also had to kick. A penalty on the play gave the Novars the ball and the down over. Bunn proceeded to break loose for a spectacular 20-yard run around right end. The next plays did not function quite as well, and Bunn punted out of bounds on the visitor's 10-yard line. MacBride of the Novars made a long run-back of the Tufts kick, which placed the ball on the Tufts 40-yard line. After a time out, called when a Tufts player was injured, the Novars surprised with a pass that made it a yard short of a first down. They lost the ball on downs, however, and Tufts, now definitely on the defensive, kicked out of danger.

Second Score on End Run

The second half began in a steady downpour with a fine runback of the kickoff by MacBride of the Novars. Two running plays preceded a fake kick which worked to perfection. Bunn carried the ball from a regular punt formation for a gain of 20 yards. This set up the next play, a run around left end and Bob Bunn crossed the stripe for the second Tech score. Again the point try was unsuccessful on a pass play. The pass was complete but the receiver slipped on the water-logged turf and fell with a slash just short of the goal line.

Tufts reverted to trick plays after the Novars kicked to them, but Foote, big M.I.T. center, came in fast and broke up the attack. The quarter ended and Coach Hunt sent in a host of substitutes to start the last period.

Both teams tried running plays and engaged in punting duels during the fourth quarter. Tufts threw one desperate pass which Bob Henning of Tech intercepted. The game ended with the M.I.T. Novars in possession of the ball not having been threatened throughout the game.

Starting for Tech were: L.E., Evans, R.; L.T., Turner, F.; L.G., Seeley, F.; C., Foote, E.; R.G., Small, R.; R.T., Sadowski, T.; R.E., Dunwoody, C.; Q.B., Leader, R.; L.H.B., Crosby, R.; R.H.B., Bunn, R.; F.B., MacBride, R.

Freshman Swim Record Not Yet Verified

At the conclusion of the Field Day swimming meet and in the Field Day issue of The Tech, it was announced that the class of '45 swimming team had set a new record for the medley relay. However Coach John Jarosh now asserts this may not be certain, as the performances of previous freshman teams cannot be found.

Nevertheless, the medley relay of Gordon Findley, backstroke, Bob Knodell, breast stroke, and Jim Leonard, free-style, set a Field Day record of 1 minute and 26 seconds for the event, and the 200 yd. free-style relay team of Russell Foust, Less Ackerman, Clark Bressler, and Jim Leonard set a first Field Day time of 1 minute and 45 seconds.

Dinghy Races To Determine Sailing Champ

Quadrangular Meet To Be Held At Brown Sophs To Meet Frosh

On Sunday, November 9th, the Charles River Basin will be the scene of the second Annual Greater Boston Intercollegiate Dinghy Championships to be held under the sponsorship of the Nautical Association. The meet which was swept by the Tech yachtsmen last year will include teams representing Boston College, Boston U., Harvard, Tufts, Northeastern and M.I.T. The victor of the contest will receive no trophy other than the title sailing champion of Greater Boston.

Armistice Day Meets

On Armistice Day a Quadrangular Regatta featuring teams from Brown, Coast Guard, Yale and M.I.T. will be held on the Seekonk River near Providence under the colors of the Brown University Yacht Club. In the Charles River Basin on the same day the annual freshman-Sophomore Dinghy races which were not included in the Field Day activities will be conducted. Both squads, the freshmen under Hans Aschaffenburg and the Sophomores under Jim Tyson have been working hard for the event which was originally scheduled for Sunday November 2nd.

Pucksters Start Early Tomorrow

New Hockey Pants Have Been Designed For Team This Year

Beginning a new season, the puck-passers will hold their first practice tomorrow at 7:00 A.M. at the Boston Arena. With approximately eighteen men signed up for the varsity and about the same number for the freshmen team, the prospects for a good turn out are bright.

Among the returning veterans are Johnnie Arnold, Johnnie Neal, Dick Small, Ed Edmunds, Jim Hart, and Dave Christison. From last year's freshman team are drawn Johnnie White, Dick Bettes, John Burdakin, Bob Gillen, Roger Paterson and Gardner Sloan.

New Uniforms Designed

Co-captain Dave Christison in collaboration with Coach George Owen and Manager Bob Mason designed new hockey pants for the team this year. The color-scheme is gray overall with a bright red stripe down the side of the hip. Ten copies of the new apparel have been ordered.

Lake Placid Trip Accepted

As in past years the M.I.T. hockey team is to play at Lake Placid this year during the Christmas vacation since at the close of the term last year an invitation to Lake Placid was received.

Varsity Schedule For Basketball Released By Harsh

Season Will See Ten Contests; Five Away Frosh In Nine Games

The varsity basketball schedule consisting of ten games for the coming season was announced last night by Mgr. John Harsh. The schedule is as follows: Dec. 5, Harvard, there; Dec. 9, Middlebury, here; Dec. 16, Tufts, there; Dec. 18, Vermont, here; Jan. 10, Williams, there; Jan. 16, Brown, there; Jan. 20, New Hampshire, here; Feb. 17, B.U., there; Feb. 20, Bates, here; and Feb. 27, closing the season with Lowell Textile here at the Institute. From Harvard, Brown, B.U., and Tufts will come the stiffest competition, but Manager Harsh believes that the Technology team will show considerable improvement over last year's unsuccessful season of two victories in ten games.

Last year's lettermen returning this year are co-captains Ernie Artz and Jack Whelan, Jerry Coe, '42; Tom Dolan, George Marakas, and Andy Hillhouse, '43, and Steve Brodie, Bernie Levere, and Tony del Valle. The Sophomore contribution has not yet been picked, but Harsh believes Taft, Abbott, Schnugg, Schutte, and Whiffer will be first choice.

Frosh to Play Nine Games

The frosh team has not yet been picked, but the season looks optimistic with mighty good material, announced coach "Pete" Berry. The frosh schedule was also announced last night: Harvard, Dean Academy, Tilton Jr. Coll., Tufts, Charlestown Boy's Club, Brown, B.U., Gov. Dummer and Huntington.

Intra-Mural Crew Race To Be Held Saturday

On Saturday afternoon November 8th the Tech Boat Club will sponsor the second intra-mural crew race on the Charles River Basin. The meet was not held last year but was won in 1939 by the 5:15 Club. Groups wishing to enter crews should sign up at the boathouse at once as shells are available for practice from 4 to 5 o'clock every evening. This contest should prove to be an important part of the extensive intra-mural athletic program which is under development at Tech.

The Tech-Voodoo Gridiron Classic Set For Saturday

With the customary enthusiasm the staffs of The Tech and Voo Doo will meet in the annual publications classic on the green turf of Coop Field to fight for supremacy in athletics next Saturday afternoon, November 8.

Big news last night was the prediction by Oscar Hedlund, reputable authority on Technology athletics, that Voo Doo would eke out a meager victory through fair means or foul over the more venerable and trustworthy The Tech. However, one must remember that Oscar's predictions for the Field Day football score were not borne out, and The Tech will use every means at its disposal to avenge the slander on their good name.

Voo Doo Lineup

The Voo Doo team, minus ringers which will be eliminated before the whistle, consists of Rumsey, Spitz, Metzger, Feingold, Shaw, Roden Swanberg, Dennoy, Eisenborb, Baumann and Ward.

Opposing this motley crew will be an all-American aggregation of 49 players, divided into four super teams, which may be substituted for each other at a moment's notice. The captains of these four phalanxes of gridiron achievement will be Al Clear, Cart Laffoon, Jack Quinn and Tex Noyes, respectively.

As has been announced previously the prize in this pushover for The Tech will be a keg of beer. However, to prove their good intentions each team will have their keg in evidence before the battle begins. Since only one keg need be presented in the finish, it is rumored that a bit of the fluid may flow during the game.

Record Broken By Frosh Team On Field Day

"Best Frosh Relay In Ten Years" Says Coach Oscar Hedlund

In spite of Oscar's prediction that the relays would be the only field day event the Sophs would win, the frosh last Friday not only beat the Sophs in that event, but set a record as well. The record was 4.52.6, six seconds under the record set ten years ago of 4.47.6. The frosh average for the relay last Friday was 24.35 against the Soph time of 24.50, this being the first time the frosh have outran the Sophs since 1937. Oscar added that this Field Day's performance was the best frosh relay since 1931.

Cross-Country Places Second

Last Saturday at Hanover, N. H., Technology took second place in a triangular cross-country meet with Dartmouth and McGill. The score was Dartmouth 18, M.I.T. 44, McGill 79. The runners for Technology were Shaw, whose time was 25:08; McGregor, 25:40; Joseph, 25:48; Gow, 26:35; Brady, 28:00; Miller, 28:03; and Kelly, 28:13. So far this season, Technology has won two meets, lost two, the other to Yale, 24-31.

Next Saturday, November 8, will see the Intramural Handicap meet. Not all the events have been announced as yet, but the 2-mile Cross-Country will be one event. On Friday, November 7, the Technology cross-country frosh team will meet with the Quincy High School at Briggs Field, for their cross-country event.

Frosh Reporter Views Crewmen And Is Impressed With Spirit

The varsity crew is not just eight men and a coxswain, as the layman believes, but a group of men with the ambition to be the top athletic team in its division, with the courage to get up at 6 o'clock each morning and work out on the river, weather permitting from 7 'til 8. This the reporter discovered after rising at 6 A.M. himself to get a "layman's eye view" of crew practice.

Most of the men were down at the boathouse before 7, and when Coach Bob Moch arrived, 20 varsity crew went into action. Two shells were carried out and gently deposited in the water, to the cracking commands of the coxswains. When the oarsmen had all taken their places, the little coxswains, voices booming, began clipping out orders which soon brought the shells in mid-stream.

"Ready All"—Stroke!

Bob Moch, aboard one of the Institute's motor launches, megaphone in hand, an eagle's look in his eye, called to the coxes "Ready All", and a moment later, "Stroke!" Sixteen oars knifed the water and the shells broke away sharply. "Stroke! Stroke!" The coxes beat out the cadence, clipping the blocks of wood attached to the rudder cords against the sides of the boat. They were very evenly matched, and a picture of precision to watch.

However, perhaps they were not as perfect as they seemed to me, because the coach barked out comments to individual oarsmen from time to time. Some imperceptible change here, another there, and the launch had to use

more power to keep up with the shells. Now we were past the Harvard bridge, and a short while later the Coxswains clipped out. "Weigh 'nough."

Bob Moch Instructs Men

All oars came out of the water, and feathered. The boats coasted to a stop, and the men rested, while Bob Moch spoke to each man who needed coaching. Soon the command, "Ready all!", and the two shells scooted over the water again.

This time, as we passed the Tech boathouse, it seemed that the boat coxed by Frankie Clauson was creeping out ahead. Another mile past the boathouse they rowed at 34 strokes to the second. The oars flashed back, bit into the water, and, although there was no apparent strain, boats shot forward with each stroke. Stroke, recovery; stroke, recovery. Every oar moved forward and backward in precision, even though the men had gone through a grueling six mile workout.

After the Trip, Showers and Classes

Really tired, sixteen of Tech's varsity crew squad got out of the shells, heaved the boats out of the water, and carried them into the house. Then, a shower, and some breakfast before classes.

Morning crew practice will last only another week, but the men will work on machines all winter until after the frosts leave, when they will become early risers again. With spirit like that, Technology should place out front at the Poughkeepsie Regatta next season.

New Appointments

(Continued from Page 1)

search and in the department of mathematics are Walter J. Hamburger and Raphael Salem.

Professor Douglass V. Brown, who has been on leave-of-absence from the Institute's department of economics and social science as chief economist of the Office of Production Management in Washington, has at the request of the government been granted additional leave so that he may extend his stay in Russia where he went as a member of the American delegation with W. Averell Harriman.

Molnar's The Guardsman Is Actors' First Play

The Dramashop has announced that its first play of the year will be Molnar's comedy entitled *The Guardsman*, to be presented at the Peabody Playhouse on December 5 and 6.

The plot of this production revolves around an actor who attempts to win back his estranged wife by disguising himself as a Cossack soldier and making love to her. Although Dramashop is somewhat handicapped this year by the temporary loss of its rehearsal room, 2-190, rehearsals are now well under way in preparation for the comedy. Any students desiring information about the organization may call at Room 2-176, the Dramashop Office.

The Tech Student Poll

(Continued from Page 1)

terials, and an even larger percentage, 71%, were willing to send them these supplies on a lease-lend basis. Particularly absent at Technology was the feeling which is so apparent at Dartmouth. Eighty-two percent of Dartmouth men answered affirmatively to the question, "Did the entrance of Russia into the war on the side of Great Britain adversely affect your willingness to aid the allies?"

With regard to availability of supplies, 42% were willing to give Russia priority over our own armed forces in the matter of supplies, with 57% opposed, while a bare majority of 53% was willing to do the same for Britain. Both the group opposed to war declaration and those favoring it were divided the same way on this issue.

The greatest unanimity was shown on the question of arming merchant ships. Seventy-nine percent of the students voting were in favor of arming American merchant ships. With regard to repeal of the neutrality law and the convoying of ships to Britain, however, 45% favored the former while 55% approved of the latter, the ten percent evidently not realizing the contradiction involved in their vote.

T.C.A. Drive

(Continued from Page 1)

bution of the year in behalf of the 5:15 Club, after which a recording of the Drive theme song, composed by Professor Frederick K. Morris of the Department of Geology was played.

Talks in Classes Yesterday

Yesterday, T.C.A. men gave pep talks in various classrooms in an effort to put the drive before the student body. The contribution per man in each fraternity, dormitory, and the 5:15 Club will be posted daily in prominent places throughout the Institute, and the total amount subscribed is to be shown as a mounting thermometer until the stream "hits the top" of \$4,100.

APO Hears Prof. Millard, And Commander Moffat

In an all Technology rally for all scouts and former scouts at the Institute, Alpha Phi Omega, Honorary Scouting Fraternity, will present two guest speakers at a meeting to be held Wednesday, November 5, at 5 P.M. in Room 6-120.

Commander, A. W. Moffat, U.S.N., one of the guest speakers, is to address the group on "Service to the Community," and Professor E. B. Millard, of the Department of Chemistry, will speak on "Service to the Institute in Time of National Emergency."

Songfest to Conclude Meeting

Another feature of the meeting will be the showing of a New Council technical color sound film. The evening's entertainment is to conclude with a rousing song-fest of scouting songs.

CALENDAR

TUESDAY, NOVEMBER 4

5:15 P.M. A.I.E.E. Dinner—Pritchett Hall.
8:00 P.M. Eta Kappa Nu Society Dinner.

WEDNESDAY, NOVEMBER 5

5:00 P.M. A.P.O. Rally—6-120
5:00 P.M. Military Eng. Society Dinner—Pritchett Hall.
5:45 P.M. Grad House Reception—Lounge.
6:30 P.M. Grad House Dinner—Grad House Dining Hall.
6:30 P.M. Phillips Brooks Club Meeting—Pritchett Hall.
6:30 P.M. "Q" Club Dinner—Silver Room.
7:30 P.M. Beaver Club—Parker House.

THURSDAY, NOVEMBER 6

6:15 P.M. Dorelan Society Meeting—Pritchett Hall.

Magdsick, Richard T. Merritt, Jr., Frederick H. Olsen, John Quinn, Jr., Charles S. Ricker, Richard E. Russell.

Franklin P. Seeley, W. Hoover Shaw, Charles H. Smith, Jr., Charles R. Stempf, Jr., Maurice E. Taylor, Edward L. Thode, Filo H. Turner, William P. Van Nostrand, Edward O. Vetter.

Football Results Of Beaver Key Now Available

D.K.E.'s, Commuters Sigma Chi, Senior A, Phi Delta Theta Win

The latest results in the Beaver Key Football Tournament available last night show that Delta Kappa Epsilon overcame the Sigma Alpha Mu men by a score of 18 to 0, while Hayden fell before Delta Upsilon, 13 to 20. Goodale and Senior C did not play, nor did the Student House-Wood tussle take place.

The Commuters beat Monroe, 12-0, and Senior A bested Phi Kappa in a 20-0 shutout. Delta Tau Delta succumbed to Chi Phi by one touchdown, 6-0, whereas Sigma Chi overcame Pi Lambda Phi with a 12-0 score. Lambda Chi Alpha was ground under by the Phi Delta Theta steamroller in a 26-0 runaway.

Phi Gams and Sigma Nu Win

Phi Gamma Delta piled up three touchdowns to win over Phi Beta Epsilon, 18 to 0, and Sigma Nu trounced Beta Theta Pi with a 13-0 triumph. Phi Mu Delta drew a bye in this round. Theta Chi forfeited to Alpha Tau Omega, which was officially declared winner. The final contest, between Sigma Alpha Epsilon and Kappa Sigma, was not played.

Rowe, '43, Will Speak Over WHDH Thursday

Stewart Rowe, '43, Features Editor of The Tech will represent Technology and The Tech on College Campus of the Air broadcast over Station WHDH, Thursday, November 6, from 3:45-4:15 P.M. Other campus newspapers which will be represented Thursday are those from Boston University, Simmons, Tufts, and Harvard.

Three minute talks by each of the representatives from the colleges will highlight the afternoon's program, which is to be of interest to the public in general.

Prof. Morris To Speak At Grad House Dinner

"The Pacific Ocean a Barrier?" will be the subject of Professor Frederick K. Morris' speech at the Graduate House Dinner Wed. Nov. 5, 5:45 in the main dining room of the Graduate House.

Professor Morris of the Department of Geology was a member of the Asiatic Expedition of the American Museum of Natural History in '22, and was previously a member of the staff of the Pei Yang University. He has made detailed studies of the Great Ocean's influences on the eastern and western civilizations.

S.A.M.E. To Hear Stevens

The Society of American Military Engineers will hold a dinner at 6:00 P.M., November 5, in Pritchett Hall, having as guest speaker First Lieutenant Malcolm S. Stevens, C. E. Lieutenant Stevens is to discuss "Umpiring in the War Games."

All Military Science students are invited to attend this meeting which will include a personal account of Lt. Stevens experiences as an umpire in the sixth corps area maneuvers during the past summer. Reservations may be made at any one of the Military Science Bulletin Boards for the dinner priced at \$.85.

War and Institute

(Continued from Page 1)

war, to be kept as "stand-buys" for future emergencies.

Twinkle and Smile

The only comment that could be gleaned from Dr. Compton concerning the statement made recently at the University of Chicago's Round-Table discussion that America had no secret inventions, but that the closed-laboratory door policy was merely to strengthen our morale and harm the enemies, was a twinkle of the eye and an enigmatic smile.

When asked for his opinion of the University of Chicago's Round-Table discussion "Does Science Benefit from War?", Dr. Compton asserted that on the whole science as humanity is harmed by war. He felt that the most hopeful aspect of research now being carried on for national defense will be the application of new knowledge for the advancement of mankind when peace returns.
