

Prof. Magoun Lectures Today On "Courtship"

T.C.A. Presents Second In Series Of Marriage Lectures

The second lecture of Professor F. Alexander Magoun's series on the preparation for marriage, "Courtship," will be given at 4 and again at 5 P.M. today in Huntington Hall, Room 10-250.

Professor Magoun points out that courtship, which is the process of getting acquainted on a normal, friendly basis, is becoming increasingly more complex these days. There was a time when the "Why don't you speak for yourself, John?" type of girl was not unusual; indeed, in Feudal days, a man sometimes met his wife-to-be only a few moments before saying, "I Do." Our present code of etiquette, however, frowns on such proceedings, according to Professor Magoun.

Four Errors in Courting

The outstanding sociologist, Paul Popenoe, who has done extensive research work on the subject, lists four errors men can make in courting: Resorting to caveman tactics, trying to capture the affections of a girl by making her suffer, trying to impress the girl with your achievements, and lastly, being a Don Juan or heartbreaker. Obviously, selfishness is the motive behind all of these wrong methods.

"The period of courtship provides an excellent opportunity for two young people to discover whether or not they are compatible," says Professor Magoun, "and they should face the facts. Daydreaming is very harmful at this stage, and in an engineer it is inexcusable. Bridges and engines are not built by daydreaming; neither are happy marriages."

Institute Exhibits Model Buildings

Federation Of Arts Offers Novel Display From Phillips Academy

Under the auspices of the American Federation of Arts, an unusual architectural exhibit of movable models, which enable the spectator to understand the various steps in the construction of a building, is now being displayed by the Institute in the Architecture Building.

The exhibit, which was built under the direction of the Addison Gallery of American Art at Phillips

Scabbard And Blade Initiates 30 Members

The thirty initiates of the Scabbard and Blade Society, national honorary military society for members of the advanced R.O.T.C., ended their period of initiation last Friday night, when, after a banquet at the Hartwell Farms, they made the traditional fourteen mile hike in the vicinity of Concord.

The banquet began at 6:00 P.M. and continued until midnight, when the detail of students from the Junior and Senior Classes began the trek. Each pledge carried a full pack and the rifle which accompanied him around the campus, and to drill each morning at 8:00 A.M. and evening at 5:00 P.M. during the previous week of initiation. All of the pledges had walked the fourteen miles by 6:00 A.M. Saturday morning.

Basketball Tickets Remain Priced At \$.55

Despite all rumors and previous reports of reductions in ticket prices for the varsity basketball season opener to be played against Harvard next Friday evening, admissions will be priced at fifty-five cents per head.

Attempts were made by the M.I.T.A.A. to obtain reduced rates for Technology students, but difficulties arose when the Harvard A.A. decided that a precedent could not be established and that the price would remain at its established level.

Gridiron Elects Twenty New Men From Publications

Technique, The Tech, T.E.N., And Voo Doo Staffs Represented

The election of 20 men to Gridiron, honorary publications society, was announced last night. The initiates were, according to custom, chosen from the Junior Boards of the four undergraduate publications: Technique, The Tech, Tech Engineering News, and Voo Doo.

The seven members from Technique elected to Gridiron are: Roland Grandgent, Henry R. O'Hara, Howard P. McJunkin, William R. Lacy, Charles C. Loomis, Robert C. Meissner, and Edwin H. Stewart, Jr., all of the Class of 1943. Five members of the Staff of The Tech chosen to represent their publication on the society are: Orvis B. Hartman, A. Donald Moll, Harry Ottinger, Robert P. Richmond and S. Joseph Tankoos, all of the Class of 1943.

T.E.N., Voo Doo Also Represented

Those men chosen as representatives of T.E.N. are: Bernard Dale, Leo J. Feuer, John O. Karstrom, and Robert W. Schede, all of the Class of 1943, and from Voo Doo: Philip E. Phaneuf, '42, Myron Schoffner, '43, S. James Spitz, Jr., '43, and Charles J. Swet, '43.

The Gridiron Fall Initiation Banquet is planned for Tuesday, December 9, at 7:30 P.M. The place of the banquet is to be announced at a later date.

Technology Review Out Yesterday

"Research or else—" is the title of an interesting article in this month's issue of the Technology Review, in which the author, Mr. Paul Cohn, '35, points to the regenerative force of scientific research as the one hopeful and optimistic mark of contemporary civilization.

Vu, the Institute's newest student publication, which is being sponsored by The Tech, receives praise from the editorial section of the Review, for its contribution as a pictorial depicting Institute life. "Rolling off a log" by Mr. Thomas D. Perry, demonstrates how plywood has found many new applications in defense through the development of synthetic resin adhesives.

Rhodes Discusses Money

Subjecting the nature of money to an examination from a new angle, Mr. William A. Rhodes, in another article, comes to the conclusion that action towards making more money is for the social good. "Profits are not iniquitous," Mr. Rhodes decides.

In an article called "Flying Squadrons," Mr. S. Paul Johnson, discusses the mission and makeup of the United States Army Air Forces. Mr. Johnson draws conclusions from the lessons of the present war, for the improvement of aircraft design, and expresses confidence that when the time comes, America will have "the tightest airplanes in the world."

Dramashop Play Opens Friday

New Organization Promises Better Dramatic Efforts

The production of Molnar's Guardsman by Dramashop on next Friday and Saturday evening, December fifth and sixth at the Peabody Playhouse is the first to be produced under the new organization of Dramashop. Originally a club, whose superfluous social affairs attracted a large, uninspiring number of players, Dramashop lacked an undiverted desire to produce plays for the sake of drama. It is believed now, however, that the organization of Dramashop will lend a more straightforward professional character to its efforts.

Moreover, the present interest of

Intercollegiate Bridge Tourney Starts Next Week

An Intercollegiate Bridge Championship tournament for pairs, sponsored by the Boston Chess Club, is to take place Tuesday and Wednesday evenings, December 9 and 10, at 8:00 P.M. in the Hotel Vendome, Boston.

The prize is to be a trophy with the winners' names engraved on it, which will be held by the winners for one year. Top score awards will also be presented to high scorers.

First Session for Eliminations

To prevent the necessity of qualifying tournaments in each college, the first evening will be an elimination.

Unbeaten Debators Will Face Vassar

Harvard, Vt., Emerson Fall Before Tech-Men In Four Day Stretch

The Technology Debating Society will again go into action next Thursday, December 4, when they meet with Vassar in one of their series of bi-weekly radio debates which are broadcast over station WAAB.

At this time, Raymond F. Frankel, Jr., '43, and Raymond F. Redheffer, '43, will defend the affirmative of the subject, "Resolved: that the United States should withdraw entirely from the Far East."

Three Wins This Week

During the past week, the society came through with a record of three wins and no losses. This brings the total batting average up to .667. On November 29, a team

(Continued on Page 4)

Graduate Dinner To Have Prof. Mather As Speaker

Professor Kirtley F. Mather, Professor of Geology at Harvard University, will speak at the second Graduate House dinner of the season to take place on Wednesday evening, December 3, in the Graduate House dining room. Dr. Mather will deliver an address on the subject, "New Frontiers in Petroleum Geology."

The speaker, who is widely known for the development of Geo-Physical Methods in oil prospecting, has been a member of the U. S. Geological Survey since 1911. In this capacity he has made field studies in all of the oil-producing states, and numerous Latin-American republics.

SING TROPHY

This silver cup will be awarded to winners of All-Tech Sing.

Graduate Students Eligible To Attend '42's Senior Week

Bursar's Pledge, Cash, Or ROTC Check Busy Option Priority

Graduate students will be eligible to attend this year's Senior Week along with the Class of '42 it was announced last night by Paul M. Bruckmann, chairman of the Senior Week sales committee, who reported an opening day of lively ticket sales.

In addition to the sale of options to graduate students as well as Seniors, three plans of payment for the options have been put into operation. Payment may be made by means of Bursar's pledge cards whereby the fee will be paid along with the second term's tuition, by a deduction from the next ROTC check if a member of the advanced course, or by paying the \$4.35 by check or cash.

Senior Dance January 9

Carl L. McGinnis, chairman of the dance committee, announced that the date for the annual winter

(Continued on Page 4)

First Dorm Dance Proved Success

"The first informal dormitory record dance was a complete social and financial success," said Robert W. Keating, '42, chairman of the dance committee, referring to the dance held in Pritchett Hall last Saturday, November 29.

According to Keating, out of the sixty tickets issued, fifty-seven were sold. The reason why there were tickets left at all was attributed to a premature announcement of a sell-out.

Arthur Murray Instructors

At the dance were two instructors from the Arthur Murray School who gave instruction in the Rhumba and La Conga. According to Keating, the reaction to this was entirely favorable.

The next dance in this series has been planned for January 10. As yet, no changes in procedure have been announced. The chairman for this dance will be John G. McMullin, '43.

Plans Complete For Tech Sing Friday Night

Eleven Groups Will Take Part In Large Affair

Plans for the forthcoming All-Technology Sing have finally been settled, according to an announcement by Chairman Ray C. Miland, '42. The Sing, which will start at 8:30 P.M., Friday, December 5, will present the Classical Orchestra, the Glee Club, and Technology's latest musical asset, the Techtonians.

At present there are nine groups which have signified intentions to take part in the competition. These are: The Graduate House, The Association of Women Students, Lambda Chi Alpha, Phi Gamma Delta, Phi Delta Theta, Beta Theta Pi, Sigma Alpha Epsilon, Alpha Tau Omega, and the T. C. A.

Judges

The judges for the affair will be Mr. and Mrs. William H. Jackson and Mr. Obie Dennis. The winner will be awarded a silver cup, and, according to the committee, the program will open with the Classical Orchestra. Then follows the group competition, the Glee Club, and finally, the dance.

This is the first All-Tech Sing since 1936. Its purpose is to promote a general interest in music at Technology, and the competition is open to all class A or class B activities listed in the Institute Constitution, and all fraternities and dormitories.

Christmas Dance To Have Life

Gahan Promises Orchestra Will Give Danceable Music

"There won't be a dull moment during the entire evening," said Gregory G. Gagarin when asked about the Christmas Dance which will take place a week from this Friday night on December 12, in Walker Memorial. Tickets for the occasion, costing \$1.75 each, are now on sale in the main lobby.

According to G. Gagarin, this will be the biggest informal dance of the entire year. There will be presents for everyone who attends in the true Christmas spirit which will be well represented in the decorations.

Don Gahan, whose orchestra has been contracted to play for this occasion, has promised that the music will be of the danceable type; while jitterbugs will also have the opportunity to have their fling. Gahan is also noted for his ability to imitate some of the bigger name bands, such as Artie Shaw, and Glenn Miller.

Nine Sophomores Elected At Recent Q Club Meeting

The Quadrangle Club elected nine men, who will be taken into their organization at an informal initiation some time in the near future, at a meeting at the Hotel Brunswick last Thursday night.

Those chosen to this Sophomore honorary society are: Sten Hammarstrom, William G. Abbott, III, Frederick J. Blatz, Jr., Donald B. Phillips, Malcolm McPaul, Jr., Lewis Tyree, Jr., George A. Schutte, Walter P. Swain, Jr., and Eugene A. Schnell.

away from any contact with the Walker Memorial Committee tends to show that the results have not been too successful.

This problem is one which will require a lot of far sighted planning on the part of the Walker Memorial Committee because it will be necessary to regain the confidence of the activities in addition to devising a workable scheme for preventing activity conflicts. However, it is a splendid opportunity for the committee to do something toward answering in a small way the all too prevalent comment "What does the Walker Memorial Committee do anyway?"

THE END IS IN SIGHT

Yesterday options went on sale for the Class of 1942's Senior Week, driving home sharply the fact that the collegiate career of the present Senior class is well on its way toward being completed. Just a little more than twenty school weeks remain until the Alumni Association ranks will be swelled to the tune of some six hundred.

Each year that the class progresses through the Institute its functions become larger and more impressive. Senior Week serves as the gigantic climax to the class's career, it being the last official act carried on by the class here at Technology. After that, class reunions, the sole class activity, on Alumni Day are merely for memory and recollection.

Senior Week has always been intended as the one affair which would appeal to the entire class with its variant tastes and interests. A stag banquet permits the entire class to get together for a private toast to the future, unhampered by the presence of outsiders. "Tech Night At The Pops" provides a night where Tech men and their guests can attend a program selected entirely by Tech men, an evening which is particularly attractive to visitors from out of town.

The tea dance and president's reception give a semi-formal flavour to the events of the week which are then climaxed with the formal dinner-dance at the Hotel Statler, Tuesday night after diplomas have been received with due pomp and ceremony.

Senior Week is one evidence of the life of the class, and The Tech wishes to offer the Class of '42 the best of luck in planning and carrying out its Senior Week.

AS OTHERS DO IT

The 33rd annual session of the National Interfraternity Conference was held in New York City last week-end with representatives from 31 sororities and 59 national fraternities present. Over two thousand persons attended the dinner which climaxed the convention.

At this dinner, the Michigan State Interfraternity council was awarded a four-foot bronze statue for being the outstanding council in the country. It was given to Michigan State for its formation and execution of a program to make fraternities on its campus contribute constructively to the educational and social program of the institution.

The projects which won this distinction for the council included, a scholarship program which put fraternities at the head of all men's groups, a handbook designed to make prospective students college and fraternity minded, the management of a Greek Week, the development of community relations through cooperation in Community Chest and Red Cross drives, Christmas parties for underprivileged children, government of the fraternity system, which has been turned over entirely by the college administration, the organization of pledge trainers' school, an objective examination concerning fraternities and the college given all pledges before initiation on the results of which the chapters are rated, and the attendance at regional and national meetings of the National Undergraduate Interfraternity Council.

This appears to be an imposing list of accomplishments which could be profitably used as a guide for our own IFC.

For Boys To Play

by Stewart Rowe and Joseph Tankoos

December has come, and with it comes play and Bacchanalian revels galore. In the spirit of the season were the numerous parties that filled the social calendar to overflowing over last weekend.

In case you hadn't heard, the Delta Psi's beer party surpassed all expectation, but to a superlative degree. Charlie Coles seemed to be having a particularly good time, in high spirits most of the evening, if our eyes didn't deceive us.

Besides this debacle, everything on the weekend seemed to be most formal, much to our repeated dismay. Theta Delta Chi, Sigma Chi, and the Kappa Sigs all had dances which did not fail to live up to the high standards which we expected at our Technology parties.

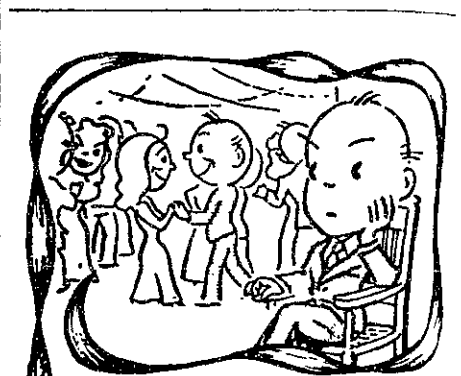

Christmas parties are shaping up in various fraternity houses, plans being laid for mistletoe and stuff from the Fenway to Memorial Drive. With the rather flexible date for the opening of Christmas vacation, most houses are setting their Christmas parties for the weekend of the 12th and 13th. This is all in line with what we like to see, Christmas decorations and singing and candlelight and mistletoe—sort of "conditioning" for the long hard vacation.

Not to be forgotten on the coming weekend are two openers in Technology's winter sports department. Both of them on Friday night expect considerable attendance from Tech men and outsiders as well. The hockey game is at the Boston Arena (On St. Botolph St. one block beyond Symphony Hall), with the Boston University pucksters putting up the opposition; the basketball game is at Harvard, and promises to be one of the better games of the season.

No less than nine—yes, that is what we said, nine—social events of interest to Technology men are on the docket for this weekend. In spite of the undoubtedly well-directed efforts of the Walker Memorial Committee to attempt to spread out dances and parties more

evenly over weekends and avoid this sort of thing social activity runs rife on Friday and Saturday.

Piles of fraternity dances—we'll tell you about those next time. The Nautical Association offers dinner and dancing at the Dutch Room of the Graduate House on Friday night; the old-fashioned dancing evening run by the graduate students will be repeated on Saturday evening in Hangar Gym; the All-Tech Sing; the Dramashop's production; and the Well-Tech Barn Dance all combine to make sure that no one stays home this weekend.

EVERYTHING HAPPENS AT ONCE

"It never rains but it pours" is often true for more things than describing the Boston weather, as is evidenced by the program of school events for Friday night. Latest reports show that seven events are scheduled for December 5.

The All-Tech Sing, which should be an event attended by a large percentage of the student body, is forced to compete with the opening basketball game against the Harvard quintet. In addition, the major fall play of the Dramashop opens that night as does the hockey season. To make matters worse, the Nautical Association, the largest activity at the Institute, has its annual banquet Friday night while at least two fraternities are holding their fall formals.

It is indeed unfortunate that so many outstanding events must fall at the same time because each one must suffer as a consequence. It is the same old story of being a little pebble in a big pond when it could have been much more successful as a big pebble in a little pond.

This state of affairs is added proof that the system which Technology undergraduate activities are supposed to have to regulate such functions is not operating properly, if at all. A special committee of the Institute Committee, The Walker Memorial Committee, is charged with that function, and it is apparent from the conditions of the extra-curricular program this coming Friday night that there is a definite need for some body to help regulate the schedules of these events.

Not all of the blame can be placed upon the Walker Memorial Committee because lack of cooperation by the different activities has been a major contributing factor, but this fact can be traced back indirectly to the inefficiency of the committee. Since it is to the advantage of any activity to hold its programs on evenings when others will not conflict, organizations will go out of their way to cooperate with a semi-booking agent in arranging their schedules if they feel that the agent can bring beneficial results. In the past couple of years, the drift of the activities

The Flavor Lasts

Cagers, Pucksters Prepare For Opening Tilts On Friday Against Harvard, Boston U.

Basketball Team Hopes To Avenge Last Year's Loss To Harvard Univ.

The Beaver Hoopsters will begin the present season by endeavoring to defeat their rivals of long standing from "up the river" this Friday evening at Harvard. The Tech basketball team is in prime condition to repeat the victories of '38 and '39, and is anxious to avenge the two point loss suffered last year.

Coach McCarthy has not as yet disclosed the starting team, but they will be chosen from the nine men remaining from last year's squad. Co-captain Ernie Artz, star guard of last year, stated that the team is playing great ball, and he added that although Harvard should prove tough competition, the Tech team has more than an even chance of winning. Members of the varsity squad remaining from last year's varsity are co-captains Ernie Artz and Jack Whelan, George Marakas, Tom Dolan, Jerry Coe, Andy Hillhouse, Steve Brodie, Bernie Levere, and Tony del Valle. One of the most promising Sophomores, and a man to watch in this Friday's game, according to all reports, is Caleb Taft, star of last season's frosh team.

New Offense

There seems to be a cloud of mystery surrounding a new offense recently developed by Coach McCarthy. When asked, Ernie Artz refused to disclose the nature of this offense, but only claimed that it should prove to be highly effective against Harvard this week as well as helping to contribute to a successful basketball season.

Preceding the varsity game, the Harvard and Tech frosh teams will clash in what promises to be a top game. The M.I.T. frosh hoopsters are handicapped by the loss of five of their first ten men because of ineligibility.

Volleyball Games To Start Tuesday

The first game in the Beaver Key volley ball tournament is scheduled for Tuesday night at eight o'clock in the Walker Gym. It is planned to have two games a night on Tuesdays, Wednesdays and Thursdays, and a varying number of games on Sunday mornings and afternoons.

The tourney is to be run on a single elimination basis, one in which one defeat constitutes an elimination, until four teams are left. These four teams will play a round-robin tournament among themselves, the winner receiving 30 points towards the Beaver Key trophy, and the teams placing second, third, and fourth, are to receive 18, 12, and 6 points, respectively.

Interclass Regatta Indefinitely Postponed

Originally scheduled for last Saturday, the annual interclass dinghy regatta has been indefinitely postponed, according to Kenneth R. Warden, '43, chairman of the race committee of the Nautical Association. The race, which in all probability will not be held until the start of the spring sailing season, was not run because of the poor turnout resulting from the high winds which swept the Charles River Basin Saturday afternoon.

The Graduate and Senior crews were expected to outsail the others because of their greater experience. The frosh, by virtue of their victory over the Sophs earlier in the season, were also expected to make a creditable showing.

MITAA Football Committee Needs Student Opinions

The Football Committee of the MITAA has requested that students send in letters giving their opinion on the question of Varsity Football at Tech. This problem is now under consideration by the MITAA, and definite action with the Advisory Committee cannot be taken unless sufficient student interest in the matter is shown.

Letters should be addressed to the M.I.T. Football Committee, MITAA, Walker Memorial, Cambridge, Mass., and should include the author's reasons for or against the matter, as well as unqualified opinions.

Varsity Swimmers Will Open Season Against Rensselaer

Squad Still Needs Divers, Distance Men, And Backstrokers

Opening their season at Rensselaer Polytechnic Institute in Troy, New York, on Friday, December 12, the varsity swimming team starts out on schedule involving a more than usual amount of travelling. Not only is the team expected to go places in the pool, but it also has all but three of its meets away.

The team this year will be much the same as last year, as they have lost only two divers and a backstroker. The relay team remain intact except for the loss of Earl L. Bimson. According to coach John J. Jarosh, the team is a good all round one, and if they do have any weak points it is in the distance and backstroke swims.

Divers Sought

Although the team has lost both of last year's regular divers, the coach expects to find some capable men in the squad, and hopes to maintain a diving team equal in calibre to that of last year's team, which starred David Howard '41. This year the divers will be competing under a new set of rules which permits them to make eight optional dives instead of the former five required and five optional dives. This rule, along with a new regulation permitting the wearing of trunks in meets instead of full suits, is being adopted by the New England Inter-collegiate Swimming Association.

Just the opposite from the varsity, the freshman swimming team has only three of its meets away from home. They open the season two days before the varsity when Huntington School comes here on Wednesday, December 10. The following Saturday the team goes to Franklin, Massachusetts, to meet Dean Academy, and then to Harvard on December 17 for the last meet before Christmas.

Frosh Schedule

After New Years, Worcester Academy comes here on January 10 for the first meet, followed on the fourteenth by a trip to Andover to meet Phillips Academy. Phillips

(Continued on Page 4)

Hockey Squad In Top Shape; Strong Lineup Ready To Win

With only one practice to go before their opening game with Boston University next Friday night at the Boston Arena, the hockey team held a meeting last night at which they were given tips on puck-handling by coach George Owen. This game against B.U. is a chance for the team to attempt to revenge the bad loss which the Beavers suffered last year at the Terriers' hands.

In a practice scrimmage with the Brae Burn Club, an organization of veteran hockey players, held at Newton last Sunday, the team showed up fairly well. Although they lost in the face of strong opposition, the unofficial score of this year's scrimmage was much better than that last year.

Two Full Teams

The team this year is now divided into two well rounded teams, each an independent unit which can be put in at any time. These are not just the individual lines, goalies. This last is one thing which has bothered the B.U. team for the past few weeks, as that team, much to the worry of their coach, Wayland F. Vaughan, has only one goalie—Captain Henry Sullivan.

Neither teams have announced their starting line-ups for the game on Friday, and probably will not do so until the last minute, but co-captain Dave Christison and Dick Small will lead the Tech team.

Gymsters Already Training For Next Term's Matches

Under the direction of Coach Herb Forsell, the Tech gym team is rapidly taking shape in preparation for a schedule which will begin early in the second term. Having dropped out of the New England Intercollegiate Gymnastic League, the squad will meet such schools as McGill University, Yale University, and Panzer College.

Emilio Touche, '42, and Heinie Shaw, '42, have been chosen co-captains of the squad, according to Bill Franklin, '43, manager. The team practices regularly three times weekly in Walker Gym, from five to six thirty o'clock. This weekend the team will journey to the Tech cabin as a group for a short period of relaxation.

Manager Predicts Good Season For Grapplers

With a large part of last year's squad returning, the prospects for a victorious wrestling team are very bright according to Charles J. Lawson, '43, wrestling manager. Despite scholastic difficulties and the inability of some of the men to practice regularly the matmen should prove difficult opposition for their opponents, Lawson said.

Competition for positions in the 145- and 155-pound classes has been exceptionally keen as the team prepares for its opening meet with Harvard on December 13 in the Hangar Gym. This match will be followed by a meeting with Wesleyan on the eighteenth also at Hangar Gym. On January 10, the grapplers will invade Amherst following which they will engage Williams at home. They wind up their season with a pair of away matches, one with Tufts on February 14, and the other on the twenty-first with Springfield.

Frosh Show Promise

The outlook for the freshman team is equally bright with excellent possibilities for repetition of last year's undefeated season. With several promising prep school men on hand, Coach John Lutz should be able to assemble a powerful aggregation.

The freshmen open their schedule along with the varsity in a meet with Harvard in Hangar Gym on December 13. Following this they will journey to Tufts for a meet on the seventeenth of January. Climax of their season will be away matches with Springfield on February 21, and Governor Dummer Academy on February 28.

Beaver Key Touch Tourney Nearly Ended

Goodale, Sigma Chi, DU, Phi Gamma Delta, Chi Phi, Still Play

With only five teams left after last Sunday's games, the Beaver Key touch-football tournament promises to be finished in two weeks, weather permitting, chairman George Marakas announced last night.

In the big game of the day, the hitherto undefeated Sigma Alpha Epsilon's were beaten by the only remaining undefeated team, Phi Gamma Delta. The other results were: Delta Upsilon beat the Phi Kappa Sigma's, Senior A was beaten by Goodale, Delta Kappa Epsilon bowed to Chi Phi, and Sigma Chi won from Delta Tau Delta.

Phi Gam's Given Bye

This leaves Delta Upsilon, Goodale, Chi Phi, Sigma Chi, and Phi Gamma Delta still in the competition, with the Phi Gam's sure of a final playoff, as they have earned a bye because of their perfect record.

R.O.T.C. Guard To Meet In Gym

Student members of the R.O.T.C. who have agreed to serve as an emergency guard to direct traffic in and about the buildings of the Institute in case of emergency will assemble on Thursday afternoon, December 4, at 5:30 P.M. in the Hangar Gym for practice. Details of the plan for rehearsal will be posted on the bulletin board of the Military Science Department.

Exhibit

(Continued from Page 1)

Academy in Andover, will be shown at Technology in two sections, the first of which is now on display. The second part will be shown from December 18 until December 24.

"What Is a Building?"

The current exhibition in answer to the question, "What is a building?", includes nine panels designed to show various types of construction. Ingenious structural models enable the observer to manipulate the various structural parts in such a way as to learn the different methods of construction.

The second section will show how building sites are chosen; the effect that exposure, community, size and cost of plot has on the type of building. Again by means of models, spectators will be able to experiment with the arrangement of rooms and the arrangement of furniture.

The exhibition is open to the public from 9:00 A.M. until 5:00 P.M. daily and on Saturdays from 9:00 A.M. to 11:00 P.M.

Swimming

(Continued from Page 3)

Exeter Academy will come to the Alumni Pool on the seventeenth of February.

After a months rest over mid year exams and vacation, the freshmen will swing into action against Moses Brown Academy here on February 21. The following week they meet St. Georges, and on March 4 they swim against Brookline High School. The freshmen's season ends with a meet on March 6 with the Worcester Tech freshmen.

Bridge

tion session. Each college, however, will be represented by at least one pair in the final session.

The entry requirement is merely enrollment as students in one of the following colleges: B. C., B. U., Garland, Harvard, M. I. T., N. U., Radcliffe, Sargent, Simmons, Tufts, Wellesley, Wheelock. The number of entries from any college is not limited. To aid partially in defraying expenses, there will be a fee of fifty or seventy-five cents per person.

Sr. Week

(Continued from Page 1)

Senior dance will be Friday, January 9. The formal get-together dance will be held in Morss Hall of Walker.

The option sales which opened yesterday are based on the theme of priority and national defense contracts, and the sales will continue until 4:00 P.M., Friday, December 5. This is the only scheduled sale of options for the Senior Week program of the Class of '42.

Prices for the different events will be the same as last year. The stag banquet will be \$2.00, the Pops Concert \$3.00, the tea dance \$1.00, and the Senior Ball, a dinner-dance, \$9.00. In addition, new luxury taxes will amount to at least \$1.20. By purchase of an option at \$4.35, the total blanket cost of the events will run between \$13.35 and \$14.35 while the price will amount to between \$16.20 to \$17.20 if purchased later on individual events.

Frosh Council Meets Friday

The first meeting of the freshman council will take place in Walker Memorial on the afternoon of Friday, December 5.

At this time officers, including two representatives to the Institute Committee, will be elected, and a system of ushers will be organized for President Compton's tea next Sunday.

The council is composed of one representative from each section. The men were elected about a month ago.

Debate

(Continued from Page 1)

composed of Edgar P. Eaton, '44, and John W. Colton, '45, defeated the University of Vermont Varsity on the subject, "Resolved: that the Federal Government should regulate by law all labor unions in the United States".

According to the judge, Mr. Fox of Harvard, the Technology team won by successfully showing that their plan of federal regulation would eliminate much graft and many strikes. The Vermont team, according to the judge, was unable to defend its stand that racketeering was no more prevalent in labor unions than in any other business and, therefore, the unions should not be subject to regulations which the other businesses do not have.

Team Defeats Harvard

Last Sunday evening, Technology defeated Harvard at the Old South Church in Cambridge. The Tech men, Philip H. Bendt, '42, and John L. Hummer, '42, took the affirmative of the subject, "Resolved: that the United States should institute a nation wide system of socialized medicine."

In this debate, Harvard, basing its entire case on the assumption that Technology would advocate the abolition of the private practice of medicine as a part of its plan, became flustered when they failed to do so. Finally, at one point in the discussion one of the Crimson Terrors cried out, "Well, if you did not advocate such a plan, you should have!" The judges voted for Technology.

Dramashop

(Continued from Page 1)

a few students in drama has not been discouraged by the lack of a private stage on which to work. This problem has threatened the dissolution of Dramashop in the past, but this year a few, particularly those of the cast, who have a professional interest in producing plays, have made out with the Emerson Room and 2-190. That very spirit, announced Professor Dean Fuller, director of the production, should make Molnar's *Guardsman* well worth seeing.

The tickets for the performance for next Friday and Saturday evening at 8:30 P.M. are on sale at the T.C.A. Information Office. The price is \$55.

Well-Tech Dance Tickets On Sale

100 Ducats Sold To Sophs, Frosh In Two Days

Although the tickets for the annual Well-Tech Barn Dance were put on sale only last Saturday, 100 of the available 150 have already been snatched up by Freshman and Sophomore devotees of rustic terpsichore. The dance is to be held from 8:00 to 11:30 P.M. this Saturday, December 6, in Alumnae Hall, Wellesley.

The Wellesley side of the story is even brighter, for 135 girls have expressed their intention to attend, although the original plans call for only 125. The "Well", popular soft-drink dispensary at Wellesley will remain open for those who wish to supplement the refreshments provided at the dance.

Haynes' Barn Dance Orchestra, a six-piece outfit, is to provide the music, and an experienced caller has been engaged to guide the dancers through their paces. The tickets are priced at \$5.00, and buses have been chartered for those who wish transportation. The buses leave Walker Memorial at 7 P.M. and \$4.00 will be charged for the round-trip.

Electrical Society To Initiate Pledges

Formal initiation of Etta Kappa Nu pledges will be held Tuesday evening, December 2, at the Miles Standish Hotel, it was announced recently. Professor Harold E. Edgerton is scheduled to speak to the honorary electrical society at the dinner that will follow the induction. He will discuss his work in high speed photography.

Among the invited guests are Professor Malcolm S. McIlroy, Professor Harold L. Hazen, and Mr. Donald G. Fink, '33, who was former editor of "Electronics" and is now associated with the radiation laboratory department.

The initiates are Alan B. McNee, '42; Warren M. Menke, '42; William C. Tallman, '42; Henry R. Brown, Jr., '43; James C. Broderick, '43; John J. Hess, Jr., '43; John L. Hummer, '43; James O McDonough, '43; T. Kemp Maples, '43, and William R. Thurston, '43.
