

Junior Prom To Include Three Days

Changes Announced Yesterday; March 6-8 Is "Prom Weekend"

Over eighty percent of those replying to a class wide poll distributed by the Junior Prom Committee have expressed approval and enthusiasm for the proposed changes in the way the Prom will be handled this year announced S. Richard Childerhose, '43, chairman. "From the Poll we have concluded that the great majority of the school is behind us in making the changes," he said.

Friday, Saturday, and Sunday, March 6, 7, 8 have been set as the dates for this year's Prom Weekend according to the chairman.

"Three Day Party"

"In substituting for the expensive 'name band' extravaganza Junior Prom which we have had in the past few years what we hope will be a tremendously huge three day-and-night-long party, this year's committee is not doing something revolutionary by any means," said Childerhose. "As a matter of fact we are merely reviving a 'party policy' which in years past made Technology 'Junior Week' a byword in all girls schools within postal radius."

Heartiest approval of the administration has been given the present plans which call for a formal dance at the Statler's Imperial ballroom Friday night; various entertainments, including fraternity open

Mogensen Speaks To Seniors Tonight

Course XV Banquet To Have Five Guests From Various Plants

Mr. Allen H. Mogensen, well-known consulting industrial engineer, will speak to Senior students of Business and Engineering Administration at a dinner to be held at 6:15 tonight in Pritchett Hall of Walker Memorial.

Mr. Mogensen, who was awarded the Gilbreth Medal for Distinguished Contributions to Management in 1938, has conducted foreman training programs in work simplification, and has carried on consulting work in such industrial concerns as duPont, Remington

(Continued on Page 4)

Catholic Clubs Hold Dance

The annual Charity Dance of the Federation of College Catholic Clubs will be held from 9:00 P.M. tonight until 2:00 A.M. tomorrow in Morss Hall of Walker Memorial.

The object of the dance is to collect funds and clothes for the St. Vincent de Paul Society and the Catholic Charitable Bureau, so the \$75 admission price will be reduced to \$50 for those who bring a bundle of old clothes.

Girls from Simmons, Radcliffe, Regis, Emmanuel, Framingham Teacher's College, Emerson, and several other women's colleges are to attend this stag affair. In order to do away with the crowded conditions which occurred at the fall Acquaintance Dance, tickets will be sold only at the door, and only 800 persons are to be admitted.

Dance chairman William A. Verrochi, '43, has announced that Jim Carmody's new orchestra is scheduled to provide the music.

Poll Questions Junior Class On Summer School

With the proposed plan to have the Juniors continue classes through the summer not as yet in effect, The Tech will hold a poll on Wednesday, January 21, in the Main Lobby of Building 10, to determine the attitude of the members of the class of '42 towards working at school through the months of July and August.

The question to be asked will be, "If it becomes necessary for the Institute to continue classes for the Junior Class right through the summer, would you find it a definite hardship?"

If so, why? (check one or more).

- a.) Financial reasons.
- b.) Health reasons.
- c.) Lost recreational facilities.
- d.) Other reasons—specify.

It is hoped that all of the Juniors will fill out the questionnaire, as that is the only way the Tech and the Institute has of knowing the student's feelings in the matter.

Book Collection For Service Men Starts On Monday

Students Are Solicited For Used Magazines As Well As Old Books

Millions of books for men in the service is the aim of the Victory Book Campaign, which gets under way at the Institute next Monday. Miss Florence W. Stiles, Adviser to Women Students, is in charge of collecting the books at Technology, and she has appointed the T.C.A. to handle student contributions.

Walter P. Swain, '44, Director of the T.C.A. Book Exchange, announced today that old books, both fiction and non-fiction, will be gratefully accepted, as well as magazines in good condition. Receptacles for these books and magazines are to be placed in the Institute libraries, in the Information Office, and in the main lobby of Building 10.

The Dormitory Committee and the Graduate House Committee will be asked to appoint men to collect used books in their respective groups, and the Inter-Fraternity Conference is to be asked to carry the campaign to the fraternities.

The Victory Book Campaign is a nation-wide effort to help maintain a high morale among the armed forces of the United States. When collected, the reading matter will be distributed to United Service Organization libraries and the American Merchant Marine Library Association.

Debating Society To Meet Emerson in Broadcast

Fresh from a victory over Boston University, the M.I.T. Debating society will again swing into action this Saturday against a team from Emerson College. The debate is scheduled to be broadcast at 3:00 P.M. over radio station WAAB and the Colonial network.

Ward J. Haas, '43, and Raymond M. Redheffer, '43, will represent the Institute by taking the affirmative on the subject, "Resolved: That the United States should enter into a permanent union with Great Britain."

Defense Stamp Drive Starts

\$75 Worth Purchased On First Sales Day In New Campaign

The sale of United States Defense Savings Stamps through the T.C.A. got off to a good start yesterday, according to Secretary Robert J. Fay, '42. \$75 worth of stamps, selling at \$.25 each, were sold to students throughout the Institute.

The booklets, themselves, are issued without charge to those students interested in purchasing stamps, and when filled, represent an investment of \$18.75. Completed booklets may be exchanged for \$25 Defense Bonds, which mature in ten years.

Sales Desk Set Up

Sales desks have been set up in the Main Lobby of Building 10, and in Morss Dining Hall, and most of the activities are to be asked to buy bonds. The special committee in charge of sales, feeling that many fraternities will wish to take advantage of this excellent opportunity for long-term investment, has called upon The Inter-Fraternity Conference for support in the campaign.

Many people have raised an objection to the use of the word "defense" in connection with these bonds, now that the United States is actually at war, and it has been suggested that they will be known by some more-appropriate name such as Victory Bonds.

"Vu" Associate Board Announced Last Night

Robert T. Howard, '42, Andrew N. Obes, '43, and J. Nelson Evoy, '42, have been elected to the associate board of Technology's picture magazine, Vu, it was announced last night by the new Editor-in-Chief, Stewart Rowe, '43. These men will assist the new managing board, whose election was announced at The Tech banquet on the night of January 10.

The Winter edition of Vu, which was put on sale recently in the Institute, has sold 1,200 copies to date, it was also announced. There are still a few more copies of this issue available in the business office of The Tech, Room 301, Walker Memorial, at the regular price of twenty-five cents.

Land Volunteer Corps Formed To Help Farmers In Vermont

Hundreds of college students and coeds from eastern colleges and universities will be enlisted to work on Vermont farms during the coming summer as members of the Volunteer Land Corps, a newly formed organization described by Dorothy Thompson, celebrated newspaper columnist, in the January Issue of Free America, monthly agrarian magazine published in New York.

The Corps, organized and financed independent of any government agency, has been formed to relieve a serious labor shortage which threatens Vermont farmers during the coming summer. According to Miss Thompson, there will be a shortage of 40% labour on the 27,000 Vermont farms which normally employ over 20,000 hired helpers.

Patterns English

The Volunteer Corps, following closely the pattern of a similarly organized Land Volunteer Army in England, was started by a group of city-bred Harvard and Dartmouth students who have been working on Vermont farms. Student workers, who must be over 16 years of age

Voo Doo Announces New Managing Board At Annual Banquet

HEADS VOO DOO

Robert A. Metzger, '44, who was elected General Manager of Voo Doo for its next volume.

Official Notice

Registration material must be returned to Room 3-107 before 1 P.M. today, Friday, January 16, to avoid the fine of \$5.00. Do not deposit in mail box today expecting it to be delivered in Room 3-107 before 1 P.M. Deliver directly to Room 3-107.

Mr. C. E. Smith Is Speaker At Annual T.E.N. Banquet

Mr. C. E. Smith, Vice-President of the New York, New Haven and Hartford Railroad is to be guest speaker at the annual Tech Engineering News banquet which will be held in the Faculty Lounge of Walker Memorial at 6:30 tonight.

The banquet will be held to announce the new managing board of T.E.N. Members of the Institute faculty and all students associated with T.E.N. have been invited to attend.

Robert Metzger Heads Voo Doo; Spitz, Swanberg Complete Board

Robert A. Metzger, '44, is to be the new General Manager of Voo Doo, it was announced Wednesday night at the magazine's annual banquet in the Viking Hotel. The other members of the Senior Board were Managing Editor Seymour J. Spitz, '43, and Business Manager Edmund R. Swanberg, '43.

In addition to the announcement of the boards for the next volume, the banquet also had on its program a speech by Mr. Charles Stents, vice-president of the United Shoe Foundry and Brake Company of Poughkeepsie, New York.

The men elected to the Junior Board were Advertising Manager Douglas E. Root, Jr.; Make-up editor, John E. Ward; literary editor, Charles R. Stempf; associate literary editors, Mortimer W. Meyer, Jr. and Arthur F. Dershowitz; art editor, Seth E. Bransby; associate art editors, Arthur F. Peterson, Jr. and Spiros J. Bantazi; Photo editor, Lewis Tyree, Jr.; circulation editor, Carl C. Roden, Jr.; Treasurer, Gerald Dennehey; personnel and publicity manager, Robert Korschach; and associates, Deloss Kahl

April 10 Set For Technique Issue

Cooperation Necessary To Meet Publication; Last Pictures Today

The 1942 issue of Technique will be published on April 10th, because of the speed up of the Seniors' graduation, according to J. Henry Henderson, Jr., '42, General Manager of the year book. This advance of the publication date makes it necessary for all pictures to be taken exactly according to the schedule outlined by the managing board, and to have all copy in on time.

Those groups to be photographed this afternoon are: Gridiron Society, Dorclan, Dormitory Committee, Graduate House Committee, Budget Committee, and the Elec

Sophs Win Elections Of Sedgwick Society

The Sophomores virtually took control of the Sedgwick Biological Society last night with Frank H. Walke, '44, elected President of this Course VII Group. The newly chosen Vice-President for the coming year is Henry C. Strecker, '44.

Paul Talalay, '44, was elected Secretary - Treasurer, Merton R. Hubbard, '43, Junior Representative; John A. Cornell, '44, Sophomore Representative, while Leo Cravitz, G, becomes representative-at-large.

"I hope that we will be able to reorganize the society and get out a really interesting program," stated Frank Walke after the meeting last night. The Society is looking forward to presenting papers and an exhibit at the Annual New England Biological Conference, which is being held this coming April at Brown University, Providence, R. I.

KEEP 'EM BUYING

"Keep 'em Buyin'." These are our words of encouragement to the T.C.A. and the Technology student body upon the completion of the first successful day of the Defense Stamps sales drive. Seventy-five dollars was the sum collected by the T.C.A. and handed over to the government after twelve hours of campaigning.

The T.C.A., which accepted the responsibility of conducting the drive after a special committee had been dissolved, plans to continue the campaign for at least three more days. During this time, sales desks will remain in prominent places throughout the Institute at which twenty-five cent stamps may be bought.

The stamp album, as sold by the T.C.A., consists of seventy-five quarter stamps and is redeemable for a bond of twenty-five dollar evaluation. If so desired, the bond or stamps may be redeemed before the expiration date ten years after purchase. Allowed to mature, the bond will earn an amount equivalent to an annual interest rate of 2.9 per cent compounded semi-annually.

Further indications of the success of the drive are coming from the I.F.C. and the campus activities. The I.F.C. is contemplating a program which will call for the individual fraternity's purchase of a block of stamps. Also some of the activities are doing the same thing with the idea in mind of distributing the stamps among their members.

For the benefit of America and the good name of the Institute, we must all continue with this contribution to America's all-out efforts and complete the Defense Stamps drive in the same blaze of success with which it was launched.

A COMPREHENSIVE SPEED-UP PROGRAM

In face of the thoughtless array of schedules which some colleges have adopted since December 7, the suggestion of Harvard's president James B. Conant that a comprehensive program be formulated to enable

American schools to serve the nation with greatest efficiency seems to be the wisest suggestion since collegiate speed-up plans came into style.

Conant recommends an extensive survey of the country's personnel needs; college education for hand-picked students sponsored by the government; and special training to supply men in fields where they are needed.

The survey of our personnel needs and special training in occupations where workmen are few would necessarily remove any scarcity of labor problems which we face today. Government subsidization of collegiate tuition expenses would erase the temptation before some of the poorer universities to accelerate their schedules and consequently to swell their enrollment and insure a steady income. In spite of the ill effects such a program may have upon the students and their education, these institutions have been unable to find an alternative.

A unified, comprehensive plan of attack such as Conant's and a wise, cautious operation of that plan could very easily be young America's most valuable weapon in this second world catastrophe.

THANKS AND NO THANKS

In the January 17 edition of Collier's, an article, describing the work of Vannevar Bush, our former vice-president, referred to the Massachusetts Institute of Technology as a "college unusually barren of humor." To this statement, we naturally and justifiably take offense.

Let the author come to Cambridge to take in any of our big dances, the Junior Prom Week-end, or Senior Week, and see if he doesn't like our brand of humor. Without it, Technology students would break under the heavy scholastic strain.

We thank Collier's for the compliments they paid to a former Tech man, but we condemn them for their lack of appreciation of Tech humor.

THE READER SPEAKS

Looking Forward To Peace

Editor, The Tech

Dear Sir,

In Tuesday's The Tech, there appeared a letter which I believe is one of the healthiest indications yet to be manifested during this war crisis. The theme of the letter was the seeking of a real peace after this very real war.

Some students may be inclined to believe that any talk of peace when we are engaged in a total war is nothing short of treason. On the contrary, I believe that a war carried on with no thought of what will be, is nothing short of inviting disaster at some future date. Nor is this pure conjecture. History presents many variations, but always the theme is the same. What could be sheerer folly than to disregard the obvious.

Other students will pray for release from considering the subject of peace plans with the vague whine, "It's all so premature," a familiar phrase indeed, for an analysis of the events which led up to the present cataclysm reveals that almost every blunder was characterized by much "premature" shouting when action had been demanded. "Premature" is an opiate; it is a confession of indolence and confusion since no one can accurately say when prematurity ripens into exigency. Consequently, I believe that a period of prematurity cannot exist in any long range planning program.

We all agree that we are fighting for a definite purpose and hence it is no longer premature to produce arms for this purpose. Is it not equally logical to complete all the plans for this purpose?—which means we must consider the peace as well.

Many will undoubtedly say, "There is nothing we can do about it." This attitude, I believe is the product of one of the grossest fallacies in our modern educational system. It has been hammered into us from the grammar school stage and the process of shoving the responsibility upstairs promises to go on unabated indefinitely. We must make every effort to become militantly peace conscious, for we are a force, and if others are too busy winning the war, then it remains for us to think about the outcome, always with final victory in our minds.

Thus, if we are old enough to fight, we are old enough to fight for something. Since we are fighting, each in our way, let it not be in vain.

Very truly yours,
 A member of the class of '44

Eternal Wiles Send Vetter On Escapade

The sun was setting when Edward Oswald Vetter reached home. As he neared the entrance to his domain on Beacon Street, Ed was filled with mixed emotions of pleasure and surprise when he saw a young lady blocking the doorway. His surprise turned to firm determination when he learned from the pleading voice of a dire misfortune. . . . She had been locked out of her own home!

Young Vetter, fine young man that most of us know he is, quickly obliged by asking how he could help. She explained to him that her apartment was located next door and that she believed with a slight Tarzan act he could use the connecting fire escape to gain entrance and thus get inside to unlock the door.

With a racing start, in what was plain to see was marked desire to please, Eddie ran quickly to the third floor, out the window, and along the railing to the window which he was planning to enter. Upon raising the window and turning to back in, he was rather annoyed when a small baby cried out from its crib. But Vetter was not to be bullied by anything so insignificant as a baby. Indeed not! Lest his pride be harmed, he came back with the quick retort, "Shut up, kid. I'm not going to kidnap you."

As he turned around upon emerging he was once more filled with mixed emotions when he envisioned an Army officer in the act of dressing while his wife sat across the room. Embarrassed, Ed gulped and

interrogated, "Aren't you locked out?" The answer came back in somewhat emphatic, "No!"

At the crucial moment there was a feeble voice which carried through the window from the street below, "But my room is in the back of the building."

Our hero (?) deftly explained what had happened, retiring with the remark, "Well, I guess I will have to leave you now. So sorry

Teaching a new Army old "tricks" in telephony

The telephone plays a vital role in army communications. So the Bell System is helping to school Signal Corps men in practically every phase of telephone construction, operation and maintenance.

This training job is but a small part of the tremendous task Bell System people are doing in this national crisis. They're setting up telephone systems for new camps, bases and factories—handling an enormous volume of calls needed to coordinate the Nation's war effort.

Throughout the country, Bell System people are wholeheartedly cooperating in the drive for victory. To men and women of their high caliber, there is real satisfaction in a difficult job well done.

Beavers Meet Brown Cagers There Tonight

O'Leary Stars As Frosh Beat Huntington Club

Tonight the Technology basketballers will face one of the most powerful court teams in New England when they travel to Providence for an encounter with the Brown University quintet. The Bruins will probably be the strongest team the Engineers will meet this season, judging by previous records. Smarting from an upset defeat early this week at the hands of Worcester Tech, the Brown aggregation will be hungry for victory, and having downed such teams as Harvard, the Bruins will be eager to get back into winning form after their first loss of the season.

The Beavers starting lineup will probably be the same team which began the game against Williams last Saturday. George Marakas and Jerry Coe will start in the forward slots, while Co-Captains Ernie Artz and Jack Whelan will fill the guard positions. Caleb Taft, who injured an ankle at Monday's practice, will probably be sufficiently recovered to start in the pivot spot. Red Dolan, who had been starting center until the last game, is now able to practice regularly and will probably see considerable action at Providence.

Defeated Last Year

The Beaver hoopsters will be out to avenge the decisive defeat they received at the hands of the Bruin quintet last winter, when they were swamped by a 50-33 count. Their last season loss to the boys from Providence was due largely to their lack of condition, since the squad had been plagued by a series of cases of grippe. The team was at that time also suffering from lack of practice, which has caused Coach McCarthy considerable difficulty this season, because of the inability of the players to get together for sufficient practice sessions. The game will be played on the opponents floor, the large size of which hindered the Beavers performance last season since they are accustomed to the smaller Hangar Gym.

Frosh Victorious

The Beaver first year men turned in their initial win of the year on Tuesday, when they eked out a 54-51 overtime victory over a strong Charlestown Boys Club aggregation. The opponents, who held three championships last year, including the New England and Eastern Seaboard crowns, held the lead through most of the game. As the first period ended, the visitors had a 14-12 edge, while at the half they led by a 24-23 count. In the third period the opponents increased their lead, to be on top 38-33 by the end of that stanza. In the final frame a Beaver rally sent Tech into a lead which was dissolved at the last minute into a 47-47 tie. In the overtime the engineers proved far superior, piling up 7 points to the opponents 4 to clinch the game. According to Coach Pete

(Continued on Page 4)

Squash Team To Play Williams Saturday

The Beaver Raquetters are to meet the Williams College squash team this Saturday, in a meet to be held at Williams. The Tech team will consist of nine men, four more than is usual in a squash meet.

The number two man, Lou Slouse, will not be with the team at Williamstown, and therefore more of the reserves, which Captain John Sheetz claimed was not too good, will be called.

Last Saturday the squad met the Boston Y.M.C.A. team, which is the Massachusetts State Champion, and lost by a score of 4-1.

Ski Team To Participate In Giant Slalom Meet

Technology will be represented in the third annual Giant Slalom sponsored by the Eastern Slope Ski Club next Sunday, January 18, on Cranmore Mountain, North Conway, New Hampshire. The tentative representatives of Technology will be Ben Muzzey, Hans Aschaffenburg, James Klein, and Volker Rassbach.

The ski team will meet on Wednesday, January 21, at 5 P.M. in the Outing Club office to discuss training plans during recess. Everybody is invited.

The Mount Cranmore meet will include both individual and team events. Many of the best skiers and teams in the East will be expected to take part. Anyone desiring additional information should apply to Frank A. McClintock, '42, in the senior house.

Puckmen Bow To Northeastern

Kaneb Leads Scoring Sinks Three Goals As Beavers Lose 9-5

In spite of reports of improvement the Cardinal and Gray puck-passers seemed to be weak defensively when they bowed to the strong Northeastern squad 9-5 last Tuesday evening.

Fred Kaneb, stellar defenseman, led the Engineer scoring, tallying three goals and one assist. Johnnie Neal and Dick Bettes, high scoring right wing, accounted for the remaining two goals. Johnnie Arnold, first string center, played into two of the goals to gain two assists.

Northeastern Starts Scoring

In the first stanza the Northeastern sextet scored four goals before the Beavers had a chance to score once. Then suddenly the Engineers started rolling and drilled two shots into the Northeastern net before the bell ended the period, with Northeastern scoring one between the Beaver goals.

At the beginning of the second period the Engineers started in again where they had left off, and got the first goal of the period. Northeastern managed to rifle one in only to be matched by a fourth Engineer goal. With one twenty minute period left to play, the score board read 4-6 in favor of Northeastern. The third period saw Northeastern slap in three successive counters making the score 9-4. With one second to play Johnnie Neal aided by Fred Kaneb plunked in the final shot to finish the game 9-5.

Beaver Fencers Will Meet B. U.

The fencing lidlifter will take place in Hangar Gym on Saturday, Jan. 17 at 2:00 P.M. against Boston University.

Despite the loss of five veterans, the Tech men hope to make this their third straight successful dual meet season. The swordsmen have been training hard, and they have developed what coach Joe Lewis believes to be another crack team. The team is built around four veterans and five members of last year's undefeated freshman team.

Bowdoin Is Next Swimming Foe At Brunswick

Freshmen Meet Exeter Here After Losing At Andover 49-17

Travelling to Brunswick, Maine, tomorrow, the varsity swimming team will meet Bowdoin College while the freshman swimming team meets Exeter Academy here. The varsity outlook for the meet is not too bright as Coach John J. Jarosh feels that Bowdoin has a team almost as strong as that of Amherst, which is well on the road to the New England Intercollegiate championships.

Ted Thomas is, however, expected to take the 100 yard free-style and in doing so will probably break the Institute record for that distance. Last week in the Wesleyan meet Thomas was well on the way to a new record, but was edged out by a Wesleyan man.

Relay Team Hopeful

If the medley relay team wins, they will probably also break the Institute record. They came within one tenth of a second of breaking it last week, and in the face of very strong opposition in the form of Bowdoin, they might be forced to break it.

The team will be handicapped in the distance events, as neither Phil O'Neil nor Ed Pepper, who ordinarily swim these events, will be able to swim. Jack Hunn, after suffering several defeats in the first few meets of the season because of a leg injury, has been showing great improvement in the past few meets. Hunn is expected to take the diving tomorrow.

The only other event which the varsity can now count on winning is the 200 yard breaststroke, which Jack Loveland should take easily. Loveland in the Wesleyan meet set a new Institute breaststroke record.

Andover Sinks Frosh

Wednesday afternoon the freshman swimming team suffered its first defeat at the hands of a far superior Andover team. Winning only the 100 yard backstroke and the medley relay, the frosh took the short end of a 49-17 score.

The winning relay team made up of Gordon Findlay, Bob Knodel, and Les Ackerman made the excellent time of 1:26.0, which is still 0.8 seconds slower than the time which the team made while leading the Sophomores in field day. Gordon Findlay, the teams only individual winner, travelled his 100 yards in 1:08.1.

Chi Phi Downs 5:15 As SAM Edges Theta Chi

Last night's Beaver Key basketball games proved to be two thrillers. In the first game, the Chi Phi house downed the 5:15 Club, last year's tournament winners, by the score of 16-15; while in the second game Sigma Alpha Mu edged the Theta Chis 22-20.

The 5:15 Club were naturally the favorites in the first game, as they were reputed to have a more powerful team than the one which last year won the tourney. Charles F. Chubb, '43, was high point man for the Fenway gang.

In the second game, Theta Chi staged a last minute rally, picking up almost ten points on the SAM's but failed to score the tying points, although they led for the whole first quarter.

These games are the sixth and seventh in the first round of this year's tourney, which will, with the exception of one game, be completed next Sunday afternoon. At this time the four final games of the term will be played. At 9:00 A.M. Sunday, Phi Gamma Delta will play the Phi Kappas, followed at ten by the Delta Kappa Epsilon vs. Phi Mu Delta game. At two o'clock Theta Xi will meet Phi Delta Theta and the Student House will face Delta Psi at three.

Rifle Team Meets Yale Tomorrow

Leaving tomorrow morning, the varsity rifle team will meet Yale at New Haven, Connecticut. This will be the first meet of the team's New England League season, although they have had two matches with other teams.

Last year the Yale team topped our team by one point in a shoulder to shoulder match. Captain James T. Harker, '43, says, however, that he hopes this situation will be reversed this year, and that he feels the team has a fair chance of winning.

The team, which so far has split their meets, is handicapped by the fact that about three-quarters of the regular team graduated last year. They lost their first meet to the Beverly Rifle team, but staged a come back to down the Harvard Employees in their last match.

Varsity Matmen Meet Williams

Beaver Freshmen To Wrestle Tufts; Squad Incomplete

"The varsity and freshman teams will both probably win their respective meets, but if they do, it won't be because all our best men are in there," Coach John Lutz said as he spoke of the wrestling meets to be held against Williams and Tufts this Saturday afternoon at 2:00 in the Hangar Gym.

The varsity is to meet Williams, and the coach believes that they will not prove to be very difficult competition. Many of the mainstays of the squad have dropped from practice and competition because of studies, work, ill health, and other miscellaneous causes. Other members of the squad have not come out regularly because they "haven't the guts to stick it out" after not making the first team, the coach said.

Frosh Grapple Tufts

The freshmen will wrestle against the Tufts team, and with two classes forfeited, Lutz believes his prediction seems hazardous. With the absence of P.T., most freshmen have dropped from the freshman squad. For the meet this Saturday there is no freshman to wrestle in the 121 lb. class or in the heavy
