Graduation Speaker Is R. E. Wilson

Baccalaureate Address Will Be Delivered By Dr. Anton J. Carlson

Dr. Robert E. Wilson, president of the Pan-American Petroleum and Transport Company, will deliver the baccalaureate address at the seventy-fifth commencement ceremonies to be held in Pritchard Gymnasium Wednesday, May 21, at 11:40 A.M. Dr. Wilson, a member of the faculty of the University of Chicago, is a graduate of the College of Wooster in 1916 and from Technology in 1916. Following his graduation from the Institute, he was appointed research assistant in the applied chemistry, a post which he held until 1931 when he was appointed chemical engineer for the U. S. Bureau of Standards. Dr. Wilson was named Professor of Chemistry in 1931 as director of the research laboratories of applied chemistry and was later appointed associate professor of chemical engineering. He was promoted to professor of Chemistry in 1952, and has been presenting lectures in chemical engineering and transportation since 1952.

Dr. Carlson was graduated from Princeton University in 1924 and was awarded the title of professor of chemistry at the University of Chicago in 1936. He is a member of the National Academy of Sciences and a former president of the American Pharmaceutical Society.

Richardson, Courses VIII: Donald R. Cameron, Courses IX: Paul M. Brandow; Courses X: William J. Blotz, Jr.; Courses XI: Leonard C. Taylor, Courses XII: William J. Ray, Courses XIII: Howard B. Davis, Courses XIV: Albert R. Brauker.

Next Issue Of The Tech Will Be Sold At F. C.

The management of The Tech announced Friday that for the last time, the newspaper will not appear on the newsstands at the usual time. Instead, it will be prepared and distributed by the F. C. News, a service which is available to the entire student body.

This week's paper will consist of sixteen pages. This issue promises to be of special interest to all members of the class.

Oarsmen Will Go To Poughkeepsie

Crews To Meet B.U.; Harvard For ROWE Cup

For the first time in many a day, a Technology crew will compete in the Poughkeepsie Regatta. It was announced last night that the rowing team for this year will consist of 15 men.

The invasion set on the carrier for the new campus in Poughkeepsie because the late date will give the crewmen ample time to train for the season's meet which follows the regular season of the races on May 17.

Incentive on Saturday

The acceptance of the invitation will prevent any competitions in the Powderley, as the Technology boats when they meet Harvard and Boston University in the Rowe Cup regatta next Saturday, Funds for the trip to Poughkeepsie are being supplied by former Institute men.

Compton Writes

For New T. E. N.

"Technology Cliffs for Defense", by Dr. Karl T. Compton is the principal article in the April issue of The Tech Engineering News, which will be shown on sale Thursday and Friday of this week. Outlining the most important aspects of the Institute, its schools and its staff in defense work, the article covers both the educational and the technical sides of the Institute.

W. B. Parrish, president of Standard Oil of New Jersey, supplies the second article, titled "We face the problems which the Institute is prepared to anticipate and solve," and to forecast what conditions will prevail with regard to employment after this war.

Other articles in the magazine include: one by Percy W. Bridgman of Harvard on methods of producing vacuum in a laboratory; another by Robert E. Proctor of the department of Economics on the part of the Institute in the community; and completing the issue is an article on "Tech in the last ten years," by Robert W. Byers.

Gridiron Initiates To Produce Melodrama

An informal initiation of the fifteen new members of Gridiron, byron, and the annual "headwall" quiz and quiz program on various phases of collegiate journalism is being planned by the Intra Fraternity Council.

Gridiron initiated and plans to produce a melodrama for this year. The play is to be a melodrama in four acts tonight, April 29, "Emotions and the War," which will be held from 8 until 12. Before the performance, a novelty program is to be held in the 5:15 Club room. After the performance, a dance given by the gridiron members.

LETS SWIM DOUBLE ON SATURDAYS

The spring social season which opened with the Assemblies Ball Friday night will be in full force from now until examination week. In the social season, many of the fellows will be having their best girls come up to Boston for the affairs, and the problem of the clubs is how to give them the best time possible will be uppermost.

The swimming pool is one of the most pleasant parts of our campus and it should be the ideal place to spend a spare afternoon. However, there are several inherent difficulties because of the hours scheduled for mixed swimming. As present, mixed swimming is restricted to Sunday afternoon and evening and holidays. This means that if the pool must leave before early Sunday evening, the pool facilities are completely out of your reach. You can not even show her what the pool looks like, let alone swim in it.

There appears to be no real reason why the pool could not be opened to mixed swimming Saturday afternoon and evening in addition to the hours on Sunday. This would permit a larger number of students to use the pool Saturday, during the daytime or competitive events take place at that time no one would be denied its use. We feel that this is one way the swimming pool could be made to fill a greater part in the social life of Technology undergraduates.

MUSICAL PROBLEM NUMBER 1

With the pretentiousness of the joint concert given by the M.T.T. Glee Club and the Women's Glee Club we were all prepared for the poor home support given the Musical Clubs as attested by the absence of Tech students at this affair.

Debating that there is no other than faculty members ever listen to our Glee Clubs. Whenever the club gives a recital on other college campuses, the members, engaged in all of the social, academic, and religious activities have come forward with arguments for absolute exemption of the Glee Club from the Selective Service Act. That is the point of the Glee Clubs as attested by the absence of Tech students at this affair.

Get this the same way the swimming pool could be made to fill a greater part in the social life of Technology undergraduates.

ing crowd, must take their chances at a stag line at their own dance. As long as both the concert and dance are open affairs, this latter effect cannot be eliminated very well. But doesn't it seem reasonable that any self-respecting student is entitled to the decency to attend the concert before cutting out his best pals?

THE DRAFT

In reply to the editorial published in these columns March 21 about drafting engineers, the Massachusetts State Headquarters for Selective Service sent the following letter outlining the law as it stands today and the reasons behind its regulations.
