PRICE FIVE CENTS

New Officers Take Control Of Inst. Comm.

Field Day Manager, Open House Heads Approved At Meeting

The appointment of John E. Gardner, '43, as 1941 Field Day Manager was officially approved at last night's meeting of the Institute Committee, the first meeting to be held completely under the control of the class of 1942. Also approved at this meeting was the appointment of Harry E. Knox, Jr., '42, Carthrae M. Laffoon, Jr., '42, Charles S. Ricker, '42, Arthur H. Sweeney, Jr., '42, and Sheppard Y. Tyree, Jr., '42, to the 1941 Open House Committee, and of Frank E. Briber, '43, and Gilbert S. Graves, '43, as Junior Members on the Budget Committee.

The men appointed to the Open House Committee will serve as heads of the various committees of the Open House program. Laffoon is in charge of publicity, Ricker in charge of programs, Sweeney assignments, and Tyree, receptions. Knox was selected to serve as secretary-treasurer of the Open House Committee.

Freshman Prom Results

Results of the freshman formal, as submitted by Perry Wilder, head of the frosh council, and approved by the Institute Committee, showed that the receipts amounted to \$87 more than

Full Day Planned For 5:15 Picnic

Green Acres Is Scene Of Commuter Outing Scheduled For June 5

Planning a full day of sports, eating, and dancing, the Outing Committee of the 5:15 Club has announced Thursday, June 5th as the day for their annual picnic to be held at the Green Acres Country Club. Beginning at ten in the morning, the party will last until two the next morning.

Mixed tournaments, have been planned in softball, volleyball, outdoor bowling, and ping-pong, while swimming, baseball, deck games, darts, and golfing facilities will be available in the afternoon.

Dancing Follows Fowl Dinner

A full course chicken dinner followed by an evening of dancing in the clubhouse of the Green Acres Country Club are included in the price of the tickets which are now on sale for \$2.50 per couple from 12 N. until 2:00 P.M. each day in the 5:15 club-room. Those who plan to attend the club function should obtain tickets before Wednesday, May 23, as formal ticket sales will not be continued through the week of examinations.

Library Recalls Books; Deadline To Be May 31

All books belonging to the various libraries of the Institute must be returned to the library from which they were borrowed, on or before May 31, according to a recent announcement made by Mr. William N. Seaver, the Institute librarian. Failure to comply with this regulation will result in a fine of \$1.00 per book.

Mr. Seaver's announcement stressed the fact that this regulation applies to all books and periodicals, whether borrowed from the Central Library or a branch library, including the Walker Memorial Library. If books are not returned their cost will be charged against the borrower's account at the Bursar's Office.

Track Collegiates To Start Tonight On Briggs Field

By Coach Oscar Hedlund

This afternoon at four o'clock starter Joe McNamara will fire his gun to open the 55th Annual New England Intercollegiate games on Briggs Field. During the spring many dual meets have been held to give the coaches a chance to see who should be picked to represent their college and by late afternoon about seventy-five per cent of the entries will have been eliminated from the meet, and will be forced to watch the finals Saturday from the sidelines.

Fifteen events will have been run off by four-thirty tomorrow afternoon, and it appears now, after studying the results of the dual meets held during the past two months, that Holy Cross should win again this year.

Holy Cross Is Strong

On the track, Holy Cross is strong in the 440, 880, one- and two-miles. They have a good hurdler in Gilson, who placed last year, and should place in both hurdle events this year. They also have power in the shot, broad jump, and high jump. The outstanding men are Haley, O'Donnell, and Grigas.

Rhode Island shines in the field events and are sure of points in the shot, hammer, javelin, broad jump, and pole vault. In Kreuger they have a 50-foot shot putter—the only one in New England who has put the shot that far this year. Weisman has tossed the javelin 186 feet, a real throw; and Cromwell of R. I. is the only New England athlete to clear more than 13 feet. He has a real partner in Mahoney, a 13-footer.

B. C.'s Standouts

Boston College will be in on the scoring should any of the boys from

Dorclan Society Selects Officers For Next Year

Dorclan, honorary Junior and Senior dormitory society, has announced the election of its new officers and also plans for a post-exam outing to be held at Ipswich, Massachusetts.

The newly elected men are: John E. Flipse, '42, president; Otto J. Lovén, '42, vice-president; and Warren H. Powers, '42, secretary-treasurer. The new officers will take control next year, Flipse announced.

Scheduled for the afternoon and evening of Wednesday, June 4, the definitely informal outing which is to be held on the beach at Ipswich promises a real chance for a friendly get-together of old and new members. Approximately 40 members are expected to be present at the picnic from which, ample material should be available for the featured ball game, Flipse said.

Boit Prizes Given To Six

Evans, Geyer, Tinlot, Hubbard, Field, and Rabinowitz Honored

Winners of the annual Boit Prizes, as announced yesterday by Professor Paul C. Eaton of the Department of English, which is in charge of this annual essay contest, are Maurice R. Evans, Lewis H. Geyer and Merton R. Hubbard, all of the class of 1943, and Lamar Field, John H. Tinlot, and Bernard Rabinowitz, all members of the freshman class.

These awards are made annually from the interest of a bequest of \$5,000 made by the late Robert A. Boit. The purpose of this annual contest, as stated in the will of Mr. Boit, is "to stimulate the best use of English by students." The contest is limited to freshmen and Sophomores.

65 Participate

This year's contest, in which sixty-five men participated, was held on Tuesday, April 22, from 7 to 9 P.M. The entrants were given a list of assorted subjects and told to write, within the allotted two hours, a theme on any one of the subjects.

After more than two weeks deliberation the judges, Professor John E. Burchard, Director of the Bemis Foundation; Henry B. Kane, Director of the Alumni Fund, and John T. Rule, head of the Department of Graphics, awarded the first prize in the Sophomore class.

T. C. A. Sends 20 To Conference

Delegation Stays At Camp O-At-Ka June 9 through 16

In the 56th annual Student Christian Movement Summer Conference to be held from June 9 through June 16 at Camp O-At-Ka in East Sebago, Maine, seminar groups, round table groups on pertinent problems in religion and life as well as complete programs in music and recreation have been scheduled. Chairman of this year's delegation is Charles C. Holt, '43.

At present three students have signed up to be full time delegates and five more are to be part time delegates. The total expenses for a full time delegate amount to \$25.40 of which the T.C.A. is willing to pay as much as half, if necessary. All foreign students are guests of the conference and as such do not need to pay the registration fee of \$6.50. This leaves a total of \$18.50 of which again, the T.C.A. is willing, if necessary, to pay half.

Quota Is Twenty

The Technology quota of twenty students is second highest on the list of 51 schools, standing only behind

(Continued on Page 4)

OFFICIAL NOTICE

Reports for the second term are sent to the student's home address. For students living outside the United States or Canada, reports are mailed to their term addresses. Students who want their reports sent elsewhere must call at the Records Office, Room 3-107, not later than Thursday, May 29. Reports will be mailed on Wednesday, June 11.

Any senior who desires a photostat copy of his complete record at the Institute should leave an order at the Records Office, Room 3-107. There is a charge of \$0.50 for the first photostat and \$0.25 for each additional copy ordered at the same time, provided they are ordered prior to July 1, 1941. These will be ready for delivery about the first of July.

Tanya Performs For A. I. Ch. E. At Beer Party

To present an innovation in entertainment for student parties, Tanya, exotic dancer, performed at the Annual Beer Party and Banquet of the A. I. Ch. E. held last night in Gunch's Hofbrau. Two numbers were given by the brunette dancer as part of the program.

Professor Ernest A. Hauser, the Master of Ceremonies, presided over the affair and ran a novel quiz program with beer for prizes. He also introduced Professor Herman P. Meissner, who gave a humorous discussion of the history of Course X.

A steak dinner with two free beers furnished the students with refreshment. The deadline on these being yesterday afternoon everyone was free to take part in the remainder of the program with a clear conscience. Many prominent faculty men and students also performed extemporaneously.

Swim Meet Made Field Day Event

"The field day committee has decided to eliminate the dinghy race from Field Day competition in favor of a swimming meet," announced John E. Gardner, Jr., '43, Field Day manager, after a meeting held last Wednesday.

As tentatively planned, the meet will consist of a water polo game, a medley relay, and a free style relay. Three points will go to the side taking any two of the events. The Nautical Association is expected to continue the tradition of a freshmen-Sophomore dinghy race, but the outcome will not affect the Field Day score. The committee also announced that in order to maintain a system of Field Day scoring which will prevent the possibility of a tie, the tug-of-war event will count two points instead of three points.

Arend Chosen IFC Chairman Last Night

Rumsey, Knox Are Other Officers; Foster Is Member-At-Large

John S. Arend, '42, of the Theta Chi fraternity, was elected permanent chairman of the Inter Fraternity Conference for next year at a dinner-meeting of that body held last night. Other members nominated for the office of chairman were: Warne P. Johnson, '42; Harry E. Knox, '42; John M. Le Bolt, '42; and John L. Whelan, '42.

At the same time, Robert B. Rumsey, '43, of Delta Upsilon, was chosen treasurer of the Inter Fraternity Conference, defeating Warren E. Foster, '43, who was the other man nominated for the post. Harry E. Knox, '42, of Alpha Tau Omega, was selected secretary of the organization for the coming year. Whelan and Foster were the other nominees for secretary.

Under the new constitution of the I.F.C., Warren E. Foster, '43, of Phi Beta Epsilon, was chosen as member-at-large for the coming year. The elections were held after the last dinner of the I.F.C. held under the old executive officers. Sterling H. Ivison, Jr., '41, was acting-chairman of the meeting and conducted the elections of the new officers.

Fifty-Two Become Reserve Ensigns

Commander J. H. Keefe Administered Oaths At Tech Yesterday

Fifty-two students of the Institute were commissioned as ensigns in the United States Naval Reserves in a ceremony held at Technology at 2 P.M. yesterday afternoon. This was the largest First Naval District group to receive commissions in the reserves at one time during the present emergency.

The oaths of commission were administered by Commander J. H. Keefe, USN (Retd.), Director of Procurement and Distribution in the First Naval District, in the presence of President Karl T. Compton and a large group of administrative and faculty officers of Technology. They included Dean Samuel C. Prescott, Dean of Science, Dean Edward L. Moreland, Dean of Engineering; Dean Walter R. MacCornack, Dean of Architecture; Dean Robert G. Caldwell, Dean of Humanities; Dean John W. M. Bunker Dean of the Graduate School, and Dean Harold E. Lobdell, Dean of Students.

Students Listed

The students who received commissions were: Bertram M. Brown, G; Robert H. Bunn, '42; John T. Carleton, '42; Richard F. Cottrell, '41; Eugene E. DuPont Crawford, '41;

Eta Kappa Nu Elects R. W. Mayer, President

Robert W. Mayer, '41, Course VI-A, was elected president of Eta Kappa Nu, national honorary electrical engineering society, at the elections meeting held last Wednesday evening, May 14.

Other officers elected were George J. Schwartz, '42, VI, vice president; Robert I. Kraus, '42, VI-C, corresponding secretary; Wendell E. Phillips, Jr., '42, VI, recording secretary; Robert S. Edwards, '41, VI-A, treasurer and Claude M. McCord, Jr., '42, VI-C, bridge correspondent.

LET THE DINGHIES RACE

Appropriately it has been announced that the Field Day events next year will include a swimming meet. Combining a water polo game, a medley relay, and a free style relay, this takes advantage of the increased athletic facilities while still retaining the use of team competition.

Unfortunately, however, with the adoption of the swimming meet the dinghy race has been dropped without any fanfare or explanations. It is announced that the Nautical Association will probably continue the race but it will not count in Field Day scoring.

We think that this move has been wasteful. The contribution of the swimming meet is nullified by the dropping of the sailing race. One of the main objects of Field Day should be to get as many different men participating as possible, and this is fostered by a large number of events.

There seems to be no apparent reason for dropping the dinghy races, especially considering the popularity of sailing at the Institute. We feel that the new event was a step in the right direction — enlarging the scope of Field Day—and that by all means the dinghy race should be retained. Even further addition of events would not be amiss.

PRINCETON, TUTORING, FINALS

With Houseparties safely relegated to the realm of lingering memory. Princeton undergraduates look ahead to the approaching academic crises of Reading Period and final examinations. Inevitably at this season the perennial question of tutoring comes up.

This year the *Alumni Weekly* has added something very tangible and constructive to the sound and the fury by conducting a poll of Princeton graduate opinion on various subjects, among them tutoring. The most significant statistic coming out of this poll is that 78 per cent expressed their belief that the University should "deemphasize the importance of final exams and place more emphasis on daily work, in an effort to curb pre-exam cram sessions."

This, we believe, is the crux of the matter. The evils of tutoring have been over-emphasized; complete abolition is not the solution, even if it were practical. It is true that a man may sometimes loaf through a course and pass on the strength of a cram session; but it is equally true that tutoring

may help a confused student to integrate material and bring order out of chaos.

The problem, then, is to eliminate as far as possible the opportunity for a quick-learning but lazy undergraduate to pass a course solely on the basis of last-minute tutoring. The way to do this is to put more weight on term work and less on the final exam.

We believe firmly in final examinations as a necessary discipline to aid all but the most exceptional students in bringing their material together and getting meaning out of a course. But they should not count *more than half* of the final grade. In certain lowerclass courses there is a regulation to that effect; we feel that it could profitably be extended to include practically all courses in the curriculum.

Some upperclass courses are now conducted so that the student enters the final exam with the realization that he sinks or swims with it. There are no papers or hour tests, and precepts often degenerate into informal lectures, so that the undergraduate has no valid mark at the time of taking the exam. Such courses are, naturally, heavily tutored; and if such a rule as the one we propose is to be instituted, preceptors must take pains to listen as well as talk, so that a fair term grade can be formulated.

Ultimately, of course, the problem of what a man is going to get out of his curricular studies is an individual one. But if final exams never counted more than half, and in some instances somewhat less than half, then \$10 tutoring sessions would lose much of their lure, and the lot of the "student" who relies entirely on cram sessions would not be a happy one.

—The Daily Princetonian.

THE READER SPEAKS

The Poll and Convoys

Editor, The Tech,

Dear Sir:

The recent foreign policy poll conducted by The Tech stimulated editorial comment by you and also comments by two readers. It seems to us that in none of these comments was much consideration given to certain conclusions which could be drawn from the figures which you obtained.

In your editorial you said, with reference to the 65% of the students who felt that America would be in the war in five months, "This seems to indicate a fatalistic approach to the problem of foreign policy." Unfortunately, we must concur with you in this statement. One of the most saddening spectacles of this time is the false sense of futility which so many of us have acquired.

There were some other significant points which your figures showed and on which little comment was made. A surprising change in opinion regarding aid to Britain seems to have been indicated. In all questions pertaining to this problem, a drop occurred in the percentages of students desiring continued British aid. On the other side of the picture, 5.2% more students voted for war. Thus, what seems to be taking place is a split in student opinion. One segment of the student population wants to go all out in aiding Britain, even to actual participation in the war. Another group, seeing that continuation of the present policy can lead only to war, wants to reverse this policy and stay out of the struggle. Both groups, however, seem to concur in the belief that continuation of present administration policy will lead inevitably to war.

The next issue to face the people of America is that of convoys. It is here that the 65% of anti-war students, and especially the "40% (who) do not want to help Britain with more than cash purchases of non-war materials," must drop their fatalistic attitude and unite for action. There can be little doubt that the question of convoys, is, in essence, one of war or peace. President Roosevelt, himself, said, "Convoys mean shooting and shooting means war." (Washington correspondent Arthur Krock, N. Y. Times, April 6).

What is needed now is united action on the part of the anti-war section of the students. Only through such action can the fatalism which is paralyzing the expression of peace sentiment, be overcome.

To that end, the American Student Union has available a number of anti-convoy petitions addressed to the President. Next week, before exams begin, students having these petitions will be located at a table in Building 10. The 65% of the students who indicated their opposition to this war, are urged to cast aside their fatalism and, by signing these petitions, to take action.

Sincerely yours,
 E. M. Rips, '42

SIMMONS SIMPLE SIMON

Physiologist "Ajax" Carlson To Speak At Baccalaureate

Dr. Anton J. Carlson, famed American scientist, will deliver the baccalaureate address to the graduating class on Sunday, June 8, in Walker Memorial. Recognized as the greatest living American physiologist, Carlson retired in 1940 as professor emeritus from the faculty of the University of Chicago. With untiring energy, and devotion to his field of work, Dr. Carlson, now in his sixty-seventh year, returned to the University earlier this year to teach physiology to freshmen.

Convinced that physiological discoveries can come only from observations on living organisms, "Ajax" Carlson, as he is familiarly known to generations of Chicago students, has never concerned himself with the affairs of the morgue. Often Carlson is wheeled into his lecture on an operating table while his assistants draw blood from his veins, just so that his students may not pass over some point which other teachers of physiology might leave undemonstrated.

Native of Sweden

Born on a farm in Sweden, Carlson came to the United States at the age of sixteen and settled in Chicago. The Swedish accent has persisted to this day, and for many years to come, the University of Chicago campus will echo with stories in "Ajax-Swedish" dialect. Down at the midwestern University, his pupils recall the story of Carlson's exploits at the International Physiological Congress in Stockholm, some 15 years ago, when monkey-

gland specialist Serge Voronoff presented his discoveries on Rejuvenation. "Ajax" as a true scientist was skeptical of this theory which he believed was presented without sufficient evidence. The story goes that at the meeting, Carlson denounced Voronoff with prompt violence with the statement: "I know the case of a 'rejuvenated man' in the United States, who felt young until he received his physician's bill. Dot was so high, he suddenly felt old again." Voronoff removed himself from the room, and swore that he would never again attend a meeting where Carlson was present. But Ajax earned a round of applause, and the story goes, even received an enthusiastic kiss from a bearded French scientist.

Enthusiasm is Contagious

A most inspiring teacher, few of his students have failed to absorb at least some of his enthusiasm not only for physiology, but for the scientific method and the quest for knowledge. Renowned for his work on the functioning of the stomach, Carlson, published his classic book "The Control of Hunger in Health and Disease" in 1916. But it has been the broadness of Carlson's work that has been admired.

Debaters Schedule Busy '41 Season

Radio Appearances, Frosh Contest, Forum In Next Year's Plans

Since the Debating Society has become a Class A activity its members are planning a busy season next year, according to a schedule announced last night. Next year's activities will include radio debates over 25 stations, several trips for the varsity team, a large number of intrasquad debates, and several debates by the freshmen. The total number of debates is about double the number held this year.

The radio debates, to be given by a picked varsity team of about four men, will be held on alternate Thursdays, and will be broadcast over the stations of the Colonial Network. Programs one hour long have been planned with a dozen colleges. The men eligible for these and other varsity debates will be selected on debating merit by coaches John B. Rae and Peter Rutter, of the Department of English.

In addition to the 12 radio debates planned, 16 varsity trips, 20 squad debates, and 10 freshmen debates are scheduled plus more Open Forums and the Model Senate which will begin early in the fall.

Oscar Predicts Holy Cross Win In Track Meet

Chances Of Beavers Depend On Jester, Gilbert, And Nagle

(Continued from Page 1)

H. C. or R. I. drop below their season's record. In Walker, Boston College has a possible winner of the dash, who might take Floyd of Brown into camp in the 220, the big race of the day for the sprinters. B. C.'s Morro is a stand out in the discus, and he will come close to Kishon's (Bates) record of 154' 1". He should score in the shot put also.

Tufts will have two sure-point men in Dugger and Hall, who scored 18 points last year. The big question is whether or not Dugger will try four events (100, 120-yd. high-hurdles, 220-yd. low-hurdles, broad jump) to give his team a fighting chance to win the New Englands. Should the hurdle champ try this and score in all events it would be a meet record. Then his buddy Hall can score in the highs and the lows to give the Medford college a possible 24 points.

Scramble for Points

From this point on, it will be a scramble for points and it is possible for Brown, N. H., or Springfield to finish in fifth place. Brown has a sprinter in Floyd who can win both dashes. New Hampshire should win the hammer as Flaherty leads all weight men in this event. Paul Sweet's Lampton finished second last year and should be one of the first two when the vault is on.

Tech's chances depend on Captain Jester, John Nagle and John Gilbert to score about six points. Jester should finish among the first three in both hurdles. Only last Saturday he broke Hank Steinbrenner's, '26, record of 15.4 in a dual meet at Brown, winning in 15.1. In the lows, Lew was 3:10 second from Hank's record made in 1926. John Nagle will work in the high jump, concentrating all his efforts in one event instead of three. John Gilbert cleared 12' 6" last weekend and should clear 13' 0".

Crew Coaches Lay Plans For Trip To Poughkeepsie On June Twentieth

With coaches Bob Moch and Jim McMillin allowing the crewmen to take it easy with only light practices until final examinations are over, definite plans are being made for the trip to Poughkeepsie. According to Moch the group coming from Tech will consist of eighteen crewmen, manager, the two coaches, and substitutes.

The nine men for the varsity are definitely selected, and will be the same oarsmen who barely lost last weekend against a Syracuse crew that weighed six pounds more per man. Bill Folberth is at stroke and he is backed up by Jim Spitz, Carl Mueller, Alex Poskus, Don Howard, Ed Mikol, Captain Joe Gavin, and Jim Malloch. Handling the tiller ropes and megaphone will be Reece Wengenroth. The nine boys representing the class of '44 have not been finally picked by Coach

McMillin and two boatloads of rowers are still fighting for the places.

Race Wednesday, June 25

Leaving Cambridge on Friday, June 20 the crews should be accustomed to the course on the Hudson by the following Wednesday, June 25 when the big race will take place. The Beaver contingent has moved from the old Tech Boathouse last used twelve years ago to a spot up river near Navy.

From the day finals end until race time, the crewmen are in for real work. This will be Bob Moch's sixth trip to the famous regatta as either a coxswain or a coach; and he aims to keep up his top-notch record. In 1936 he exhorted the University of Washington Huskies to a record breaking victory on the Hudson and from there on to a win in the Olympics at Berlin. The next three years his U. of W. frosh crews finished as winner twice and in second place the third time.

McMillin's frosh boat won't have to worry about the Washington first-year men next month as the Seattle insti-

(Continued on Page 4)

Sergeant Hunt To Lead Diamond Men Next Season

Sargeant George C. Hunt, of the Military Science department, will take up Ed Beaupre's position as coach and manager of the Tech Independents, upon the latter's graduation this June, it was announced last night. A meeting will be held this weekend to elect a captain for next year from the team members who will be back next year.

Ray Foster, and John Bone are the only men besides Beaupre that the team will lose for next year. George Marakas and Joe Welsh, both of whom batted out two for four in leadoff and number two positions in the last game with the Watertown city team will be back at first and catch respectively.

Frosh Returning

'44 men who will be back are the newly discovered hurler Harold Miller, and Bill Sadler who has held his position at the keystone sack unchallenged throughout the season. Bob Gillen will be back in the infield also.

Other men who will be back next year are Erne Artz in the infield and Ed Edmunds, and Dave Christison in the outfield.

Sigma Nu Trounces Delta Upsilon

Swanberg Pitches Five Hit Game To Win; Watters Blasts Homer

Crippled by the absence of their star slugger, Harry Dickey, who spent the evening in the infirmary accompanied by acute case of mumps, the Sigma Nu fraternity softball team crashed through with a decisive 11-4 victory over the D. U.'s last evening on Briggs Field.

Pitcher Ned Swanberg of the Sigma Nu contingent held the losers to five scattered hits of which one was a long homer by George Watters, D. U. hurler.

Seven-Run Rally

Except for a seven-run "anschluss" in the first inning, after which Watters settled down, the game was extremely close. Sigma Nu lost to Senior A last Sunday in their other round-robin game by the score of 14-13.

Frosh Jayvees To Meet Crimson Crew Tonight

The freshmen heavyweight jay-vee eight will meet their Crimson equivalents this evening on the Charles River over the Henley distance.

The crew that won over Tabor by a length last Saturday has been slightly changed. Ward has been moved up to the fourth slide, Lohman is now rowing in the third seat, Turner and Breen are stroking at positions two and bow respectively. The cox of this boat is still Paul Ely.

Tech To Compete Against McGill In Dinghy Race

The weekend of June 6 and 7 will find four Tech dinghymen enjoying themselves at an invitation duel regatta at the Royal St. Lawrence Yacht Club as guests of their opponents from McGill University in Montreal. The four to go will probably be chosen from Jerry Coe, Dick Knapp, Maurice Evans, Tom Crowley, and Dick Gibson.

The regatta with McGill is held bi-annually, and on odd years Tech sailors sail against the Royal Military Academy. Two years ago Tech lost to McGill.

Will Use 14 Ft. Boats

The sailing will be done in 14 foot international dinghies, which are two feet longer than Tech dinghies, and somewhat more difficult to handle. Since the Beaver sailors are not used to these larger dinghies, chances of a Tech victory are slim. In past years the Beavers have had a perfect record of defeats.

This trip to Montreal will end the 1940-41 season. At present, Vose Cup competition among the undergraduate students may not be completed, although it is believed that the required races were completed last weekend. The winner of the competition will be announced soon.

Beaver Briefs

By Bailey Nieder and Harry Ottlinger

Cavorting on Briggs Field in the 55th Annual New England Inter-collegiate this week-end will be 330 track and field men from 16 New England colleges. Tops among these athletes are those who have performed most notably in the individual events during the 1941 season.

Booth of Springfield figures in the 100- and 220-yard dashes with 10- and 21.7-second runs, respectively. Holy Crossman Hines has done the 440 in 49 flat, and Husky R. Carroll has 157 seconds after his name in the 880.

Haley of Holy Cross leads in the mile with 4:24.6. His team-mate, Mahoney, has run the two-mile distance in 9:52.2. Dugger, Tufts flash, is first among high hurdlers with 14.5 to his credit. Gilson, also of Holy Cross, and Tech's Captain Jester are even in the low hurdles at 24.2 seconds.

Winters of Wesleyan and Peters of Colby have done 6' 2 1/2" in the high jump while Bowdoin's Huling hit 23' 2 1/2" in the broad jump during the season's competition. In the pole vault event, Ram Cromwell has reached 13' 2".

In other field events, Weisman, Rhode Island; Morro, B. C.; Flaherty, New Hampshire; and Kreiger, Rhode Island, lead the way.

the expenses. This amount does not quite cover the \$125 bond put up by the members of the dance committee.

W. Hoover Shaw, president of the T.C.A. then made a motion "that the Institute Committee approve the T.C.A.'s plan to run in connection with the regular fall undergraduate drive, a drive to raise funds for student war relief." This plan would include (1) allowing students to contribute separately to this special fund; and (2) the entire fund to be turned over to the American Red Cross and/or the World Student Service Fund, the two international organizations which have been found to be worthy of support after a careful and thorough investigation."

Shaw explained that the World Students' Service Fund was an organization designed to aid students in warring countries to continue their studies. An amendment to strike out the name of this organization from the original motion was defeated by a 13 to 7 vote, after a short discussion.

Motion Passed

After further discussion, during which the main argument against the bill was that the special fund might hurt the regular drive, another amendment was proposed. This amendment, passed unanimously, provided that this special drive should be confined to next year only. The motion as amended was then approved by the Institute Committee, which then adjourned until next year.

Agenda Elects Five New Frosh

Robert B. Schick '44, Malcolm G. Kispert '44, Robert H. Cummings '44, Kenneth M. Rehler '44, and Kjeld Damsgaard '44 were chosen in the final election to complete the 1944 Agenda honorary Sophomore dormitory society.

The new members will supplement the ten men elected to the society last week by the 1943 Agenda and will assume control of dormitory freshman-Sophomore relations next term.

Katz To Captain Tennis; Stern Elected Manager

At the tennis banquet held in the Dutch Room, Graduate House, Wednesday, May 21, Maurice Katz was elected captain of next year's team to be managed by Richard Stern. The Tennis Varsity Club Award was presented to Phil Freeman (singles), and Phillips and Jacques Shaw (doubles).

The winners of the Technology Tennis Tourney in which the finals were recently played were for the varsity (1) McCracken, (2) Samuels, and for the freshmen (1) Nelson, (2) Tonner.

T.C.A. Conference

(Continued from Page 1)

Yale University, Smith College and Mount Holyoke, each of whom are allotted 25 representatives. The quota numbers are based on the school's enrollment and the record of previous attendance at the conference.

Among the subjects to be discussed at the meeting will be the "Christian Interpretation of History", "Physical Sciences and Religion", "Working for Permanent Peace", and "Prejudice and Privilege". Evening sessions will deal with contemporary issues facing Christianity.

Dr. John C. Schroeder of the Yale Divinity School is to be the principal speaker at the Conference and will address the students with daily morning talks. Rev. Luther Tucker, a member of the World's Student Christian Federation, is to lead the morning worship.

Life Savers Complete Course

Eighty-One Awarded Red Cross Emblems Jarosh Announces

Fifty-seven students won their Senior Life Saving emblems through the course recently completed at the Alumni pool. It was announced by swimming coach John J. Jarosh. In addition, fourteen others were successful in passing written and water examinations for their instructor's ratings in water safety.

The three week course was given under the direction of Mr. Glenn L. Perduyne, physical director of the Cambridge Y. M. C. A., and regional life saving instructor of the American Red Cross. Teaching a course consisting of all the fundamentals of water safety as well as technique in life-saving practice, Mr. Perduyne was aided in his instruction by the fourteen instructors whom he was training.

Jarosh Offers Aid

Coach Jarosh also announced that, because there were no scheduled groups using the pool, he would be glad to assist anyone who wants instruction in swimming or plans to go out for the swimming team next year.

Theriault Is New Prop Club Prexy

Elected President of the M.I.T. Propeller Club for the year 1942-1943 was George H. Theriault, '43, at the combined business meeting and smoker of the Club, held last night in the Sun Room of the Hotel Brunswick. A. James Harno, Jr., '43, was chosen vice-president at this same meeting.

These newly elected officers are going out to spend their year at sea, and on their return in 1943 will take their positions. At that time also, the remaining officers of the Club will be selected.

Hottest Day Of Year Eased By Early Swim

Boston temperature hit its seasonal high yesterday when the mercury climbed to an official 91 degrees. The Tech news room, however, boasted of a six degree increase. No doubt it was due to the exertions of the hard-working reporters.

A certain Bostonian of unknown identity solved the problem of thermodynamics by darning the impurities of the Charles River. Last seen, he had not yet been attacked by bacteria.

T. C. A. Service

In the spirit of helpfulness the T.C.A. had the following notice posted on its bulletin board. "The T.C.A. will serve as collection agency for any articles which the students wish to leave for Bundles for Britain. These articles are to be left at the T.C.A. office."

Attached neatly below was this notice: "Also Bundles for Berlin will be gratefully received."

(Ed. Note: Swell! But be sure to mark "HANDLE WITH CARE.")

Quadrangle Club Holds Initiation Banquet

Initiating seventeen freshmen as new members, the Quadrangle Club of Technology held its annual initiation banquet Wednesday night in Pritchett Hall of Walker Memorial. Approximately forty members and initiates were present at the banquet at which Captain Edward C. Harwood, spoke on what the future holds for the Technology student.

Boit Prizes

(Continued from Page 1)

more division to Maurice Evans for his essay, "Belief in Progress in the World Today", and first prize in the freshman division to Lamar Field for his essay, "The Germans Are in Love With Death".

Other Prizes Awarded

Evans received \$35, and Field was awarded \$25. Other awards were \$15 to Geyer, who placed second in the Sophomore division, for "The Growing Social Awareness of Modern Dramatists"; \$10 to Hubbard, third Sophomore, for "Science and Christianity Do Not Conflict"; \$15 to Tinlot, second freshman, for "Science and Christianity"; and \$10 to Rabinowitz, third freshman for his work "Human Equality".

These prizes will be awarded today and tomorrow in the regular freshman and Sophomore English classes.

Crews At Poughkeepsie

(Continued from Page 3)

tution is only sending a first boat. However, Captain Fleming and the other seven unbeaten '44ers will have four good Easter crews to face. They will meet eights from Princeton, Columbia, Cornell, and Syracuse in a two-mile race. They've already beaten the first two; and their chances against the others will be better known after the races on the Charles this Saturday between the crews from Cornell, Syracuse, Princeton, and Harvard.

Washington Favorite

With eight crews in the four-mile varsity grind, Gavin and Co. will have a much tougher job on their hands. The defending champions from Washington are heavy favorite to repeat, but strong opposition is expected from the other boats made up of California, Princeton, Columbia, Cornell, Rutgers, Syracuse, and Tech.

Baton Society Chooses Uhlemann, President

John E. Uhlemann, '42, was elected president of Baton, honorary musical club, at the annual elections meeting, which was held last night in Ware Lounge of the dormitories. Other officers elected at this meeting were Franklin Hutchinson, '42, as vice-president; Christian J. Matthew, '43, as secretary, and Charles J. Swet, '43 as treasurer.

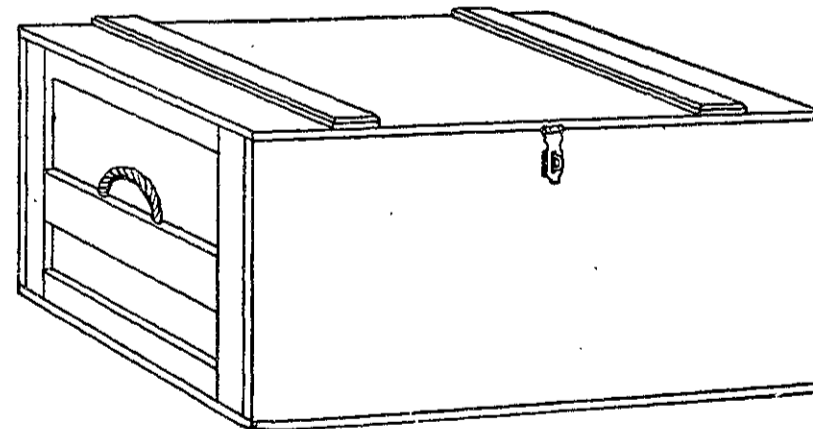

Following the elections plans for the revival of the annual All-Tech Sing were discussed. The advisability of awarding prizes to groups participating in the sing was also discussed.

Pops Tickets Obtainable At Information Office

Seniors are again reminded by the Senior Week Committee that they should make their ticket reservations for the Tech night at the Pops as soon as possible with Mr. William H. Jackson at the Information Office. The price per person is \$1.50.

Members of the faculty and the student body at large may also obtain tickets for the Pops night on June 6. Blanket redemptions or individual event redemptions for Senior Week may still be made through application to any member of the Senior Week Committee.

Shipping-Storage BOXES

These sturdy boxes may be used in a variety of ways—principally, however, for shipping and storage. Hinges, hasps, rope handles, and padlocks are optional. Hinges are the type which allows the cover to fold back and down.

33" x 22" x 15" — \$2.00
with hinges, hasp, and rope handles \$3.00
27" x 17" x 13" — \$1.50
with hinges, hasp, and rope handles \$2.50
Metal corners \$.50 extra per box
Typewriter Shipping Box \$.59
Padlocks \$.10 and up

WRAPPING SUPPLIES

Baggage Tags \$.05 and .10 per doz.
Postal Labels \$.15 and .25 per pad
Gummed Tape \$.15 and .20 per roll
Twine \$.10 and up per ball
