ATTACK ON THE MEDICAL FRONT

In a recent news release it was announced that two new clinical services have been added to the already crowded program of the Institute's Medical Department. These new services are available only to all students, and will deal with minor psychiatric and dental cases. As was further revealed, these services will be supervised by experienced, practicing physicians, thereby partially insuring the success of the remainder.

Once again our Infirmary looks to the future, and once more modern medical devices are now available in the service of the student body. It seems important that an atmosphere of progress and research along engineering lines have been successful. As revealed, these activities will show continual improvement. However, as it is often known from experience, during periods of great concentration on the activities, our health is the last item to be considered. But doesn't it seem reasonable that we might live our lives the greatest advantage that our health was given first consideration?

With the Infirmary bringing the latest advancements to our very door, should we have no excuse for dodging the issue of good health, both physically and mentally. If most of us would only take stock of our resources, the activities of the Infirmary, and follow the lead of the perpetual complainers, our student medical staff, there would be no one who would not give heartbeats thanks for the provision of the Medical Department.

The Walker Dining Management's new service is of little importance to the class. The new policy has numerous advantages:

1. that cafeteria service is three times as fast as dining service.
2. that ladies are more numerous with dining service.
3. that more precision and decorum are found in cafeteria service. Because of its location and other facilities, the cafeteria should be placed a few inches of our space and experience our neighborhood. It is true that we are gladlv familiarize a restaurant which is also held in Morrison Hall of Walker Memorial.

This annual affair is held notably to honor incoming freshmen and all members of the college including the junior and senior classes. Invitations are being sent to all members of the college. Anyone interested in the activities of the Club will be served, and a guest speaker, as yet unannounced, is scheduled to give a talk on the subject of "How to be a good citizen."
