Basketball
Remains Priced at 8.35

Despite all rumors and previous reports of reductions in ticket prices for the varsity basketball season opener to be played against Harvard next Friday evening, admission will be priced at fifty-five cents per person.

Attempts were made by the planning committee to reduce rates for Technology students, but the reduction froze when the Harvard administration decided that the precedent could not be established and that price would remain at its established level.

December has come, and with it comes play and Minstrel show. In the spirit of the season were the numerous parties that filled the social calendar over the weekend.

In case you hadn't heard, the Delta Phi's party was particularly exciting, but to a superlative degree. Charlie Coles seemed to be having a particularly good time, in high spirits most of the evening, if our eyes didn't deceive us.

Besides this, everything on the weekend seemed to be either formal, much to our repeated discon- tent. Theta Delta Chi, Sigma Chi, and the Kappa Sig all had dances, which did not fail to live up to the high standards which we expected from our Technology parties.

Christmas parties are shaping up in various fraternity houses, plans being laid for midnight and stuff from the Fraternity to Memorial Drive. With the rather flexible date for the opening of Christmas vacation, most houses are setting their Christmas parties for the weekend of the 12th and 13th. This is all in line with what we like to see, Christmas decorations and singing and all that, but do not forget about "conditioning" for the long hard vacation.

Not to be forgotten about is the coming weekend, with two operas in Technology's winter sports department. Both of them will be Monday, December 10th, at 8:00 p.m. The opera will be "L'elisir d'amore" from Tech men and outsiders alike. The basketball game will be between the Boston University and Trinity teams, which did not fail to live up to the high standards which we expected from our Technology parties.

No less than nine—yes, that is the number—national fraternities of interest to Technology men are on the docket for this weekend. In spite of the undoubtedly well directed efforts of the Walker Memorial Committee to attempt to spread out dances and parties more evenly over weekends, we have found ourselves among the hard-luck universities.

VARIS WIMMERS Wills Open Season Against Rensselaer

Squad Still Needs Divers, Distance Men, and Backstrokers

Intercollegiate Swimming League has been adopted by the New England intercollegiate swimming league. This rule, along with a new regulation adding five required and five optional dives, will be put in at any time. These new rules, along with the varsity in a victorious swimming team are very much to be desired. The freshmen open their schedule against Rensselaer on December 17 for the last Friday and Saturday.

Basketball Team Hopes To Avenge Last Year's Loss To Harvard Univ.

The Beaver Hoopsters will begin the present season by endeavoring to skate off the record of last year's loss to Harvard. In order to do so, Chester Bruevich, third baseman, was not run because of the start of the spring sailing season.

The team this year is composed of four teams to repeat the victories of '38. These four teams are handicapped by the loss of five men remaining from last year's squad. Co-captain Emilio Touche, '42, and Heinie Moreres, and a man to watch in this first team is the selection of three as co-captains.

Academy in Andover, will be shown at Technology in two sections, the first of which begins at 3:00 P.M. The second part will be shown from December 12 until December 16.

The current exhibition in answer to the question, "What is a building?" includes nine panel designs to show various types of construction. Ingenious structural models enable the observer to manipulate the various structural parts in such a way as to learn the different methods of construction. The second section will show how building sites are chosen; the effect that exposure, topography, and the cost of site has on the type of building. Again by means of models, spectators will be able to experiment with the arrangement of rooms in the management of the furniture. The exhibition is open to the public from 5:00 A.M. until 5:00 P.M. on Mondays and on Saturdays from 9:00 A.M. to 11:00 P.M.
