Cheerleaders Unable To Appear At Harvard

Because of insufficient prac
tice in group coordination on
the necessary groundwork, the
MLT cheerleaders will be un
able to compete on Friday.

A number of unforeseen prob-
lems have arisen during the in-
formal practice sessions of the
group which have shown that it
is not yet ready for its first
appearance.

The "twofarcehent," Melvin
B. Wood, '45, Lenore E. Resnek,
'46, William A. Kastendiek, Jr.,
and Arnold A. Duck, '46, are cer-
tain that technical difficulties
will be ironed out for their
initial appearance at the Mid-
night game, in the Hangar
Gym, next Tuesday.

While the listing of activity information may appear to be a minor point on the surface, to the activities it is of vital importance. It is surprising how many students do not know the location of the various activities, and there is really no other source that gives this information. Although most of the activity phone numbers can be obtained in the phone book, they would be so much more convenient if they were printed in the directory. As far as the directory is concerned it would be such a minor task to print one more page, both from the standpoint of labor and expense.

Another point to which we object strongly is the date at which these directories are published. This year, as usual this year, on the claimed grounds that national defense hold up production, they published the directory out before the middle of the first term.

As far as we can see, there is no good excuse for this state of affairs. Most other schools have their directories in the students' hands within several weeks after the opening of the fall session. They should be available the day after registration.

It may be claimed that printing is held up to take care of late arrivals so that the book will be complete. However, as it stands now the book is correct for only the second half of the first term, since some students have and will have left before that time for the second term. Whatever the reason, it must be an extremely valid one to outweigh the inconvenience that must have been caused the student body the venture should be successful one.

WE ALWAYS SUSPECTED AS MUCH

(Note: The following appeared in the Harvard Crimson. We think it speaks for itself.)

Harvard boys haven't got any manners when they're together, but once alone they're as meek as they-lambs, according to the statement of Mrs. F. Cobb Chilton, Social Secretary to Boston debutantes. She says, "they come to parties and act completely indifferent until the chaperones arrive, at which time they suddenly develop interest and rush up to bang violently on the bar."

"What is worse, after they've had all the drinks they want in may without ever looking at the girls present, let alone speaking to them. (Ed. Note: What manner of men are these?)"

It is the custom of them find him at a strange gathering away from the city, where there are no familiar faces and he is considerably used down.

Those "party-goers" had better watch out, though. From all accounts M.I.T. fellows are trying their utmost to have the statements of Mrs. F. Cobb Chilton, Social Secretary to Boston debutantes.
