John Tyrrell, '43, Leads New Volume Of The Tech As General Manager

New Managing And Associate Boards Announced At Banquet
John F. Tyrrell, '43, will head The Tech for the coming year. As the capacity of General Manager, it was announced at the annual ban-
quet of The Tech held Saturday night at the Hotel Vendome.

Other members of the managing board are A. Donald Moll, '43, busi-
ness manager, Harry Oettinger, '43, editor, Robert P. Richardson, '43, managing editor, and Stewart Rowe, '43, editor-at-large.

Announcement was also made at the banquet of the election of the new associate board of The Tech. In the new rooms, Bernard Rabinowitz, '43, is to be editor; Paul A. Robinson, Jr., '43, news editor; Thomas Twickel, '43, features editor; Gardener H. Sloan, '43, sports editor; Engenio A. Schnell, '44, features editor; James F. Eganlin, '44, personnel manager.

Junior Business Board
Make-up of the associate board in the other departments of the organi-
tzation is as follows: Arnold Rabinowitz, '44, treasurer; William W. Meyer, '44, circulation man-
ger; Robert E. Coles, '44, advertising manager; Harry W. Turner, Jr., '44, associate advertising manager; Thomas T. Keppy, '44, record editor; Martin E. Wunsch, '44, photography editor; Leonard (Continued on Page 4)

Stamp Sales Drive Starts Thursday
"Take Your Change In Defense Stamps" Is T.C.A. Batallery
Take your change in Defense Stamps" is the cry of the batallery of the new sales drive sponsored by the T.C.A. to begin during the fourth week in the Main Lobby and in Galler.

In addition to sale of stamps to be conducted during the rush hours, a stamp club will be set up in the committees under the chairmanship of Robert J. Pay, '43, to sell blocks of stamps to fraternal orders and activi-
ties to be sold in turn to the mem-
bers of the activities.

The entire sales program is to be maintained by a voluntary committee which made up almost entirely of mem-
ters of the T.C.A. Its purpose is primarily to drive home to the un-
dergraduates and spark the urgent need of supporting the defense stamp drive.

Debating Team Vanquishes B. U.
Technology's Debating Society scored another victory on Saturday, January 10, against Boston College. The society's representatives, George Mc-
Gorry, '43, and Phillip F. Heady, '43, composed the two men team.

The debate, carried over the Colonial Network, was hard fought and closely contested. The decision was narrowly won by the M.I.T. side according to the affirmative side of the statement "The Federal Government should institute a national wide program of ecologic medicine."

**A LIFE OF SERVICE**

In this issue the names of the two men who have been honored by the faculty as they resign from the active roll of the faculty will be printed. One will take his place as Dean of Science, but it is not this phase of his career that is of interest. We are here more concerned with the fact that Mr. Prescott is not going to be entirely out of the picture. In relations with Dean Prescott, the student always has the impression that the Institute loses one of its most remarkable men, and the other will take over as head of the reorganized Department of Biologica1 Engineering.

In relations with Dean Prescott, the student always has the impression that the Institute loses one of its most remarkable men, and the other will take over as head of the reorganized Department of Biological Engineering.

With the retirement of Dean Prescott, the Institute loses one of its most respected figures. The news columns have to spend many words to describe the long and fruitful life that Dean Prescott has devoted to science, but it is not this phase of his character that makes him one of the first people to one's mind when one considers the quality and potential of the Institute. He has given his life to the education of generations of engineers, and one can see that his influence is felt in every corner of the Institute.

Dean Prescott has the rare accomplishment of never appearing to be in a hurry, yet his achievements prove quite the contrary. In relation with Dean Prescott, the student always has the impression that the Institute loses one of its most remarkable men, and the other will take over as head of the reorganized Department of Biological Engineering. With the retirement of Dean Prescott, the Institute loses one of its most respected figures. While Williams College continues to be the dominant team in the Ivy League, other nearby schools are also making a mark.

Hockey Team Loses
In Overtime Again

One loss that really hurts is that Williams is not expected of such good results.

Bob Peter, 45, Captain of the Westfield hockey team, who led the team to a win over Amherst last Saturday.

The team is determined to win over Hampshire's John Huberman, who scored his first goal of the season and Johnny Arnold added another a few minutes later.

Tech Squash Team Loses
Close Match To Amherst

For over seven minutes of the overtime period the two teams battled evenly, but then superior numbers began to tell, and the Amherst men talked again on a goal by Perkins. Tech rallied in an effort to tie it up again but the overtime ended before any further scoring took place.

**CALENDAR**

**Tuesday, January 13**

- **3:15 P.M.** Christian Science Organization Meeting—Room 7-128.
- **3:30 P.M.** Freshmen Basketball Game with the Christian Brothers' Boys' Club.
- **8:00 P.M.** Hockey games with Netherstowe—Boston Area.

**Wednesday, January 14**

- **2:30 P.M.** Freshmen Swimming Meet with Andover, tiers.
- **4:30 P.M.** Dinner, Main Dining Room, Graduate House.
- **7:30 P.M.** Alpha Phi Omega Meeting—Tyler Lounge, Memorial.

**Rigid Parking Rules Necessary For Defense Of Institute**

In order that the number of the staff and students may slowly understand the new one-time parking regulations, the M.I.T. Safety Council, and last night by direction of the military virtues, has been formed. The purpose of the regulations is to provide for the almost unavoided obstruction of service. This requires rigid regulation of parking, in order to ensure that those who have parking passes on the grounds in the institute.

The parking authority has announced that a waiting line for parking space in the restricted area has been given. For the cooperation of the staff and students in meeting the new regulations, the Student Parking Committee urges that it be noted that the parking area is bounded by Massachusetts Avenue on the west, Vassar Road, North Street, the woods and the squash court building on the east. Any parking will be permitted adjacent to Buildings 2, 12, 17, 34, 36.

**CONTINUED PARKING for all business in M.I.T. will be necessary until further notice.**

**NEW PARKING area** on Briggs Field directly behind Reilly Hall.

**T. E. N. Poll**

Commenting on the author of this Poll, Dr. Compton says: "It is expected that the survey may be really use-ful, much as the 'T. E. N. poll' was: first: that the student body, as the living and active department of the Institute, should be provided with the desired information, and second: that the survey should be an accurate statement of facts about the student body. With the coopera-
tion of every student and the spirit, I believe that the work in-should be more accurately and impartially judged by the results."

**The Tech Election**

(Mentioned from Page 1)

- Marzec, W. E., secretary, photostatic artist; Weiler, E. D. Ball, 44, engraving artist; and Robert Leses, 43, assistant engraving artist.
- During the past term competitions for parking space, and between candidates in the new room and building. The winner, H. Bruce Fabens, '45, was awarded the prize for the highest number of votes. Second place was awarded to Leslie M. Brutis, '46, in the rank of full professor in 1938 and became a full professor at the University of California. Parking permits are now available at the Student Union, 229 South Main Street, and at the parking office of The Tech, Room 301, with the result that the parking situation was particu-larly worrying. No parking on Sundays. All cars must be placedbetween 2:00 P.M. and 6:00 P.M. Violation of this requirement and failure to remove cars by 7 p.m. will result in revocation of parking permits. The parking area is bounded by Massachusetts Avenue on the west, Vassar Road, North Street, the woods, and the squash court building on the east.

**Elections (Continued from Page 1)**

- Positions have been left vacant, and all candidates, including those on the present list, who are capable of being awarded scholarships, have been discovered. Men interested in running for these positions are urged to attend the next meeting of the board, which will be held at 9:00 A.M., Monday, January 13, in the Institute's offices, 7-128.
