Sale Of Options To Junior Prom Starts Feb. 10
Sales Restricted To Juniors Over Two Days
Options for the Junior Promenade Weekend will go on sale Tuesday, February 10, at 5 p.m. in desk registration. Orchestra for the functions to be held on March 11 and 12, the date the options proceed to the customers, according to instructions of the chairman of the prom committee.

The elimination of the year's weekend party and the added costs entailed by using money from a special fund for establishment of a six dollar ticket price, plus tax, one ticket afforded the privilege of attending the formal dance on Friday night at the Statler Hotel the following night.

Junior First
First call at options is reserved for members of the Class of '43 during the first two sales days, after which they will be available to the school at large.

In order to secure as much as possible the convivial party atmosphere, the committee will hold down sales to a number which will not exceed the capacity of the Imperial Ballroom of the Statler.

Enthusiastic approval of the Junior Promenade Weekend program expressed by the Interfraternity Council representatives was noted.

Prof. Hardy Writes For January T.E.N.
Electronic Microscope Discussed In Issue
On Sale Today
Featuring an article written on T.E.N. microscope by Professor George G. Hardy, of the Department of Physics, and a research report of a nature sense of T.E.N. will go on sale today, with a sales desk located in the second floor lounge. The desk is located at various places throughout the city, and will be in operation during the last ten minutes of each lecture by Prof. W. A. Waker, an associate professor.

An article in these issues include "Number Please," an article on the change over to the new convention of numbering the pages of the magazine. This article was written by Virgil J. Amos, editorial staff writer, and Brian', by John电源, Governor of the Geological Institute of America, who points out that, at the age of 40, he has been an engineer, an article on the Nomination Blank, by Douglas A. Adams of the Institute's department of Graphics.

Mr. G. A. Webster Addresses A.C.S.

Kingdom's High School .
Hill Hell Sheersfor For Terrorized Frosh
"Hill Hell," a phrase which avered each end of the freshmen and a brutal glem in the eyes of all fraternity men, will soon be open. For most of the members of the freshman fraternity, the initiation rites will take place during the first week of the spring semester.

So keep this in mind, fair reader, and have due consideration, lest you be about to sit down in your seats glumly, who wonder about with funny little hats, who carry long rods, and who may, possibly, come to your borders with them, and who fall asleep while you are talking to them. Good luck, Frosh.

Institute's First Test Blackout Proves Success
Individual Tests on Frosh Will Be Planned
"Wednesday night's test blackout of the main buildings of the Institute, as far as I know," said Prof. W. M. Bunker, Dean of the Graduate School.

Prof. Bunker also said that the Denizens, the Graduate House, and Memorial would undergo individual tests sometimes after examinations.

Some Problems Set
Although the members of the test blackout set up only a few problems did arise. According to Proctor F. Fay, the main problem was one of the halls and stairways as that personal control over air raid shelters, and still not impair the efficiency of the black-out. He said that illumination engineers are now at work on the problem.

The making of the test, said Prof. Bunker, was to see how much would it take to black out the city. If the test proved successful, there was not a light to be seen in the city. During the test, the windows had been pulling shutters.

He added that plenty of warning was given if it was to be a black out. This is to forestall any worries in the minds of any classes which might result from lack of provision.

Sale of Defense Stamps Passes $300 Mark to Date
Defense stamp sales during the past week indicate a continued interest by the people in the purchase of defense bonds in financing the war effort, is the opinion of Robert J. Far, Jr., chairman of the Navy and Marine Corps, and chairman of the Defense Stamps Commission.

The price of stamps have risen from 5 cents to $1.50. The price of stamps for bonds purchased at $100 or more, 25 cents, which are considered as a gift to the Treasury, will continue on a Friday, Tech Night at the Statler, and the accompanying reception, will cost $3.50. On Tuesday, the Barricade ceremonies will be held on Sunday morning, followed by President Karl T. Compton's reception. The date for the Barricade ceremonies is May 5th, at a nearby farm. Saturday will be Class Day and Alumni Day and as usual, the Senior Two Days will also be on the program for that day.

The price of stamps will be $2.50, but there is a silver lining, however, the cost of stamps will be $1.50, which means that the people will have to pay less for the stamps.

Nominations Open For 5:15 Officers Under New Rules
Nominations Open For 5:15 Officers Under New Rules
Under a new set of election rules recently drawn up by the students, the first three Chairmen of the Tech club will be chosen on April 24, the day after second school term.

The price of stamps will be $2.50, but there is a silver lining, however, the cost of stamps will be $1.50, which means that the people will have to pay less for the stamps.

Summer Classes Would Prove Definite Hardship
Summer Classes Would Prove Definite Hardship
Says Vote Of Sixty Per Cent Of Junior Class
By a three to two majority the Junior Class declared that the continuation of classes through the summer would be a definite hardship, in an enthusiastically supported poll conducted by The Tech.

According to Robert J. Far, Jr., chairman of the Navy and Marine Corps, and chairman of the Defense Stamps Commission, these men will serve on the committee.

Mr. Frank F. Farley, a member of the teaching staff, who voted in The Tech's poll felt that the students should be given a free hand in the matter of putting colleges and universities on a new footing.

In the changing over to the new convention, the Institute realizes that the student life will not be the same as it was before. This change in the Institute’s Constitution, the Institute realizes that the student life will not be the same as it was before. This change in the Institute’s Constitution will be given next term by a member of the teaching staff.

The student of the committee felt that this is one of the most important decisions that would help the freshmen get a better feel for the course of work in the Institute and we hope that the students will take advantage of this opportunity next term,” McGinnis said.

The price of stamps will be $2.50, but there is a silver lining, however, the cost of stamps will be $1.50, which means that the people will have to pay less for the stamps.

McGinnis, Others Defend Committee MITTA Changes Are Also Approved
In its last meeting of the term the Institute Committee last night, March 25, at 5:30, in the Statler Hotel, six members of the Student-Faculty Committee would be the Institute Committee representatives of the three upper classes.

This motion was tabled at that meeting because it involved a change in the Constitution of the Institute Committee.

The student of the committee felt that this is one of the most important decisions that would help the freshmen get a better feel for the course of work in the Institute and we hope that the students will take advantage of this opportunity next term,” McGinnis said.

March 27 Is New I.F.C. Ball Date
Change From May 15 Is Made To Conform With Graduation
The date for the Interfraternity Council’s formal was changed from May 15 to March 27 to conform with the graduation ceremonies.

Under new rules, the I.F.C. dance will be held on April 24, the day after second school term.

In the new rule, the students of the committee felt that this is one of the most important decisions that would help the freshmen get a better feel for the course of work in the Institute and we hope that the students will take advantage of this opportunity next term,” McGinnis said.

Vance Is Elected Frosh Sec.-Treas.

The Reader Speaks

Editor, The Tech
Dear Editor:

Last Tuesday a spurious letter appeared in your publication which revealed no such writer if he requests to remain anonymous. The policy of The Tech is to print all letters to the Editor provided that the writer discloses his name to us. Unfortunately we cannot discuss the name of such a writer if he requests to remain anonymous.

As much as The Tech hates to reply to the editorials that Phos. has been printed in a half-fooling manner, but I feel that this matter is serious one, and hope that no publication will take this criticism too lightly.

Sincerely,

The Soph who buys Voo Doo.

The Reader Speaks

Editor, The Tech

Dear Sir:

As the post, there have been many letters written to the editor concerning Voo Doo. The sincerity of the writers is beyond question, but their efforts are wasted in useless name-calling. Instead of relying on the helpless staff of such a "humor magazine" why not try to give constructive criticisms? The Voo Doo staff has just changed; the new men will doubtless want to make as many changes for the better as possible, but they are still in the rut created by their predecessors—witness their latest issue.

Let us be sympathetic. Put together a sufficient number of jokes, cartoons, and humorous stories to satisfy the student body of Technology as a whole is no simple matter. But I feel that Voo Doo approaches the problem in the wrong way. Don't get me wrong—Phos. doesn't have to drag dirt all over Sunday Services. Well, perhaps you're looking for a little poetically from "The last week's episode, your last but not your final feline. There is always something better to print in Voo Doo. Degradingly yours,

P. W. Baumann, Jr.

commuters Lead 
In Book Returns 
Fraternity's To Wait Until Exams End 
For Final Collection 
The Victory Book Campaign has been successful on the 11:35 train leading in group contributions, according to Walter P. McCarthy, chairman of the Executive Committee. The necessity of studying for exams has held up the buying of books, but many have announced that a substantial number of students have been turned in for use of services.

All of the fraternity's have expressed their intention to cooperate to the utmost of the campaign, adding that they have plenty of old reading material which is of no further use to them. The actual collecting of the bonus is to be performed until after vacation, however.

It is necessary to emphasize the need for more textbooks on mathematics, chemistry, physics, and reading, stressing, in fact, the promotion that in the current forms of the United States Textbook Service, there is a lot of entertainment, however, some practical value. Magazines are very welcome, especially those which have considerable amount of time to give to men for reading purposes and to handle students contributions.

Committees have turned in one to over twenty-five books of fat, and, at the request of the group, have been made to accept any books used books in their homes, thus securing better return during the coming weeks.

The Two Records Have Been Set In Half Of Swimming Season
Both the varsity and freshman swimming teams passed the mid-season mark of 1916-142 season last Saturday afternoon. Although the varsity season thus far has not been too successful, it has been set. The first of these was set by Jack Loveland who broke the old 20 yard back stroke record in the meet at Wesleyan University in Middletown, Connecticut on January 18. The other record was made by Ted Trenchin in the 100 yard freestyle event with a time of 72.6, both against Brown last Saturday afternoon in Brunswick.

Junior Prom
When a formal committee to work with the Prom Committee on arranging Saturday evening's festivities, the plans for the week-end are as well crystallized now and Chilidresser as he outlined the calendar for February 10, 11, and 12. Plans for the week-end are as well crystallized now and Chilidresser as he outlined the calendar for February 10, 11, and 12.

Prom Friday Evening Formal Prom in the Imperial Ballroom of the Board of Student Awards will be held on Saturday, February 14. President W. Hoover Shaw, ‘42, has appointed a nominating committee, composed of Malcolm M. Anderson, Robert J. Pay, sac., Robert K. Coburn, all of the class of 1942. In addition to the offers publicity, social, secret, and treasurer, that of director of boys' week is to be a part of the new Executive Committee. The present cabinet feels that the activity of the T.C.A. is being worked on so as to be effective on the Executive Committee.

Camp Director Starting next year, the vice-president of the T.C.A. is to be director of Freshman Camp, in charge of planning and arranging the Freshman cab. The addition of this new duty makes the office and position much more prominent.

Junior Poll (Continued from Page 1)
form an integral part of their educational status.

Camp Appreciating the fact that a twelve month program would prevent them from going to a R.O.T.C. summer camp, or completing the program, the T.C.A. has chosen to give new emphasis to the Freshman camp, and to give it the status of a real camp that they would prefer to extend camps after their Junior year than at any other time.

Almost eight per cent of the votes pointed out that an intensified emphasis on freshmen would make it impossible to make up a sufficient team for the following season, and would create too many conflicting obligations, and in the end, it was decided that election week would be the time for a full ticket.
