

## HANGAR GYM TO COME DOWN

### Eleven Juniors Voted Members Of Tau Beta Pi

#### Three Men Chosen From Course XVI; Initiation March 30

Tau Beta Pi, national honorary engineering fraternity, last night released the names of eleven members of the Junior Class who were elected to the fraternity in a meeting last Monday night in the Faculty Lounge. The new members with their courses, are Arthur E. Vershbow, II; George L. Nelson, II-A; James O. McDonough and William R. Thurston, Jr., VI-A; Frederick C. Smith, X; Carleton Fanton Bryant and Robert W. Maxwell, XIII; Raymond R. Richards, XV, and William J. Cochran, John R. Foley, and Benjamin F. Wilbour, Jr., from Course XVI.

These Juniors join three others elected last Fall, bringing the total to fourteen. Sixteen more will be received during the first term of their Senior year, in order to fill the required quota of thirty.

These students, all from the upper eight of the Junior class, were not chosen on the basis of scholarship alone, it was revealed. What distinguishes Tau Beta Pi from a number of other well known professional societies, announced Carthrae M. Laffoon, '42, president, is its emphasis on character, activity standing, and future promises as a citizen. Members of Tau Beta Pi, however, are chosen only from the engineering departments, men from the science courses not being eligible.

### Institute Solons Make New Rule

#### Business At Meetings Of Inst. Committee To Be Listed On Agenda

At the general meeting of the Institute Committee held last night, a motion was submitted and passed whereby "The order of business at Inst. Comm. meetings shall be determined by an agenda (program) to be published in The Tech on the previous Tuesday. Motions shall be submitted to the Walker Memorial Committee on or before the Monday preceding the meeting. Business not on the agenda may be considered only by suspending the above by law."

The reason cited for this ruling is to give activities and persons an opportunity to attend the meetings and to enter into discussion on business in which they are interested.

### Former Student At Tech Killed Flying For Britain

Word has been received by the Institute from the father of Derrick T. Vail, formerly of the Class of 1944, that he has been reported missing and believed killed in air operations off the coast of England on February 22, 1942. He was a fighter pilot with the rank of Sergeant in the Royal Canadian Air Force.

Vail was a pledge at the Phi Mu Delta fraternity during his stay at Tech and was a candidate for the freshman wrestling squad. His home was in Cincinnati. He joined the service early last year.

### Day-To-Day Life Of Tech Co-ed Featured In Vu

Tuesday, March 24, has been set as publication date for the March issue of Vu, M.I.T. pictorial magazine, according to Stewart Rowe, '43, editor-in-chief of the publication. This is the third of four issues to be published this year.

The issue features a visit with a Tech coed, the Vu staff having followed one of Technology's more attractive feminine students through her various activities at school, at home and at play.

The life and work of Professor George R. Harrison, new Dean of Science, is presented in pictures and word pictures in a three-page feature in the magazine. The special section entitled "Merriment" is devoted to the Junior Prom Weekend and the other dances of the season, with a series of photographic subjects covered in this issue are as varied as fraternity formals and Outing Club Barn Dances.

Innovation in this issue is a Salon Section, composed of pictures taken by staff members and other students.

### Freshman Council Chosen Last Week

#### Twenty-five Members Picked From Sections For Second Semester

Elected last week, and approved last night by the Institute Committee, were the section leaders and alternates from the freshman class to form the second term freshman council.

Below is the list of the men and alternates elected from each section:

1. William B. Gist, Jr., John T. Sixsmith; 2. Donald T. Stevenson, Horace T. Robson; 3. John F. Burke, George L. Hossfield; 4.

### Post-War Reconstruction Topic Of Discussion Series

The first of a new series of round-table assemblies concerning post-war reconstruction was held last Wednesday, sponsored by the T.C.A. and the Debating Society.

Based on the assumption that the interests now fighting for the principles of totalitarianism have been overthrown, these discussions will endeavor to analyze the situation the world will face upon the completion of the war and their purpose is to point out the most satisfactory plan of re-organizing the world, with an eye to permanent peace.

#### Professor Smith Speaks

At last Wednesday's round-table discussion Professor Theodore Smith, of the department of English, talked at length about the purpose of delving into such post-war problems, giving alternative attitudes to take when discussing the peace plans and settlements. He emphasized the fact that such a project was extremely complex, and that this series of conferences was perhaps an over-ambitious undertaking.

The open discussion which followed the professor's talk was led by Richard J. Zeamer, '43, chairman of the Post-War Reconstruc-

### Sr. Week Sales Continue Wed.

#### Redemption Price Is \$10.00; Stag Banquet Changed To April 23

The redemptions of Senior Week options, as announced last night by S. Young Tyree, '42, Chairman of the Senior Week Committee, will be held from 10:00 A.M. to 4:00 P.M., next Wednesday and Thursday, in the Main Lobby of Building 10. Redemptions will be sold for \$10.00. Tyree also announced that Bursar pledges will no longer be accepted; only cash and R.O.T.C. checks will be accepted.

Tickets for the individual events on the Senior Week program will go on sale at the same time, the cumulative cost amounting to \$16.20. The individual features and prices including taxes are as follows:

Stag Banquet, \$2.10; Class Day and Tea Dance, \$1.10; Barn Dance \$3.30; Senior Ball, \$5.00; Formal dinner at Ball, \$4.20.

Blanket tickets for \$14.35 may likewise be purchased by those Seniors who did not procure options last January.

#### Program Altered

The program as announced by Tyree has been altered in that the Stag Banquet will not be held on Sunday night, but on Thursday night, April 23rd, instead. The fol-

### Quadrangle Club Will Make Award To Frosh Athlete

The Quadrangle Club, Sophomore honorary organization, at its last meeting decided to make an annual award in the form of a plaque, to the outstanding athlete of the freshman class. The coach of each sport at Technology is to name the three outstanding men in his particular sport and from this list the members of the club will make their choice.

(Continued on Page 4)

### Post-War Reconstruction Topic Of Discussion Series

The first of a new series of round-table assemblies concerning post-war reconstruction was held last Wednesday, sponsored by the T.C.A. and the Debating Society.

Based on the assumption that the interests now fighting for the principles of totalitarianism have been overthrown, these discussions will endeavor to analyze the situation the world will face upon the completion of the war and their purpose is to point out the most satisfactory plan of re-organizing the world, with an eye to permanent peace.

(Continued on Page 4)

### Three Dimensional Photograph Exhibit Will Be Presented By Professor Rule

Three-Dimensional Photography in which most spectacular applications in this field will be shown will be the subject of the last of the season's Society of Arts Popular Science lectures, which will be given by Professor John T. Rule, head of the Section of Graphics at the Institute, at 4:00 P.M. Sunday in Huntington Hall.

The problem of three-dimensional photography is the problem of producing on the retinas by means of pictures substantially the same images in the same relation-

## Technology To Provide New Temporary Building To Further War Effort

### Friday Meets Thirteen And Frosh Meet Quiz

For the second time in two months, Cornelius Q. Tech-student, '4x, is faced with that double-dyed terror, Friday the thirteenth. The probabilities are that classes will be seriously depleted, because Tech men (and co-eds) are expected to have enough sense to stay at home in bed. The Tech wishes the best of luck to the unfortunate freshmen with a nine o'clock quiz.

### Chairman Foster Promises Big Party For I.F.C. Dance

#### All Residential Groups May Now Obtain Tickets At \$4.54 Plus \$46 Tax

"Every effort is being made to make the I.F.C. dance the biggest party the campus has seen since the old "Tech Shows," commented Warren E. Foster, '43, chairman of the dance, after discussing detailed plans at the Interfraternity Conference dinner-meeting last night.

Tickets are now on sale at all the fraternity houses. Also, for the first time, a definite block of tickets has been set aside for the dormitory and commuter groups. This follows in line with the movement on

(Continued on Page 4)

### T.C.A. Officers To Be Installed

The annual Luncheon Meeting of the T. C. A. Cabinet will be held tomorrow afternoon at 1:00 P.M., in the Faculty and Alumni Lounges, Walker Memorial. At this meeting the members of the new T. C. A. Cabinet, numbering 42 men, will be installed.

This year's president, W. Hoover Shaw, '42, will preside over the meeting and will be toastmaster at the luncheon. The retiring cabinet is to be there, and each member will make a report on the status of his office. Following the presentation of these reports, Mr. Percy R. Ziegler, Chairman of the Advisory Board, will install the new members.

The guest speaker of the afternoon is to be Professor Frederick K. Morris of the Geology depart-

### Pres. Compton Hopes Institute Will Erect Fine Gym Building After End Of War

Acting at the request of the United States government, the Institute will immediately begin dismantlement of the Hangar Gym in order to make room for urgent war construction. A temporary building for government use will be erected. In his statement to the presidents of the Institute Committee and the M.I.T.A.A., President Karl T. Compton said, "In order to provide additional space for urgent war activities at the Institute, the Institute must, at the request of the United States Government, erect as quickly as possible a large temporary building. Because this building must connect with existing laboratories to the rear of the main educational plant, we have no alternative but to place it on the area now occupied by the Old Hangar Building, half of which is now used as a gymnasium. This Hangar Build-

(Continued on Page 4)

### T.C.A. Work Camp Will Be On Sunday

#### Day Of Work And Fun Is To Be Concluded By Dinner, Barn Dance

The first T.C.A. week-end Work Camp will be held this Sunday, March 15, beginning at 10:00 A.M. at the Y.W.C.A. in Watertown, according to an announcement received from the T.C.A. Office.

Those attending will work between 10:00 A.M. and 12:00 noon at odd jobs such as painting chairs and walls, and in general cleaning and overhauling. Thus they are expected to come dressed in old clothes. At 12:00 noon the workers are to have lunch at a cost of \$.25, after which they will resume work until 6:00 P.M. Dinner is to be at 6:00 P.M., also at a cost of \$.25, and a discussion with an A. F. of L. labor leader will follow. Finally a barn dancing session, from 9:00 P.M. on, will draw the day to a close.

All Technology students interested in this Work Camp may get in touch with Sid L. Atlas, '43.

### March 18 Deadline For Nominations

March 18 is the deadline for candidates who wish to secure nomination blanks for the class elections to be held on Wednesday, March 25. The blanks can be secured at the Information Office in the lobby of Building 7 where they must be returned before the deadline.

The following class offices will be filled during the elections: President, Secretary-Treasurer, and two representatives to the Institute Committee. The runner-up for the presidency will receive the office of vice-president. At that time the Senior Class will elect a permanent president and permanent secretary.

The Sophomore class will elect 8 of the 12 men nominated to membership in the Beaver Key Society.

## Brother Alpha

Next to People, says Brother Alpha, Man's Best Friend is Books. It's a near thing, too, which is the really Best, but in the long run, counting out people who just go peopling around becoming crowds, people with or without a Purpose, and Awful People, man's really-truly Best Friend is People. Especially the Right People.

There is, he knows, the Dog school, but he has no patience with that. Dogs are dirty, dumb, servile, unctuous, and meretricious. All you have to do is feed 'em. They've gone a long way just by wagging their tails and looking worshipful, and all by appealing to man's cheapest instincts. Dogs are out; they're unsuccessful wolves with no guts. Cats are too lazy and too noisy, grossly inconsiderate, and a shade spooky. Birds operate on too high a frequency; so does all Music. Fish, now, are all right; but, either you have to go to them or they have to come to you—no common element.

That leaves Mountains, which are too set in their ways and hard to approach; the Ocean, which is no good in Iowa; the Woods, all full of black flies, the Open Road, no tires; Fire, too hot; and the Battle, which lets you down after setting you up and, what with the new taxes, is too expensive anyhow.

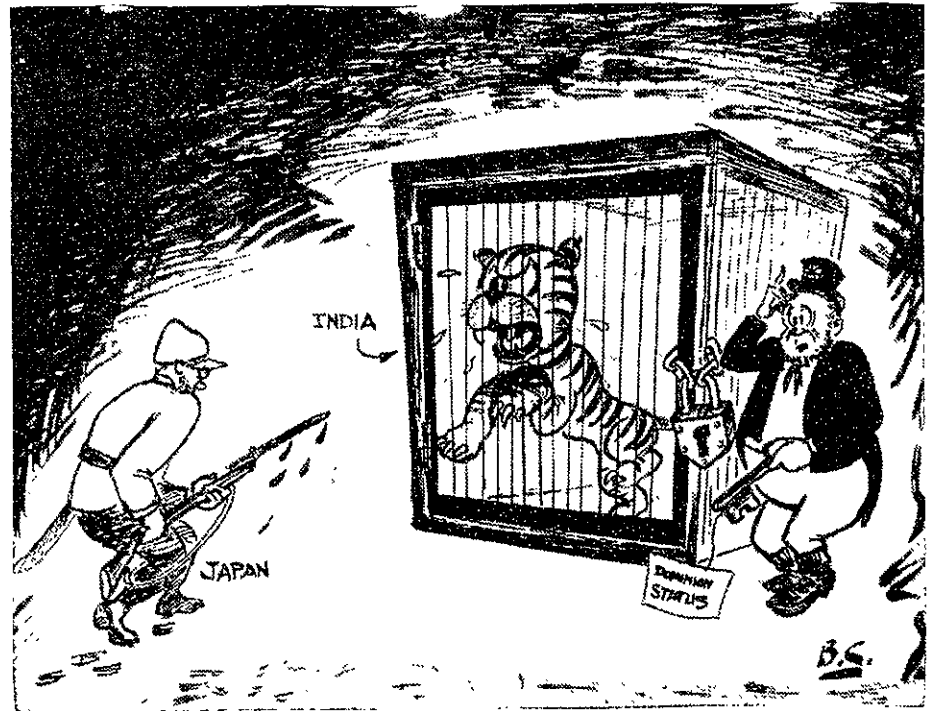

So next to People, it's books. And that was the point of Brother Alpha's pique the other day. Not really the books, but the publishers. They let him down, with two resounding bumps. And right in the face of a Paper Shortage, too. He's organizing a boycott of books that obtain your attention under false pretenses.

It was this James B. Connolly his **Canton Captain** that got him first. It ought to be a biography of Captain Robert Bennet Forbes or a novel about **Benny on a Boat**—both of which it is neither. Facts is Oil, says Alphie, and Romance is Water—or vice versa—and you can't mix 'em. Old Gloucesterman Connolly comes a cropper between the **Novel Stool** and the **Biography Stool**. Doubleday Doran should have prevented that—by not letting Mr. Connolly read so much Robert P. Tristram Coffin and by making him put in an honest 40-hour week researching. 342 pages—and freshmen writing themes on both sides.

The other was this George Jean Nathan his **Entertainment of a Nation**, which is also not fish, flesh, fowl, nor fact. It's Mr. Nathan being witty and wise about all the shows he's seen—but not w. or w. enough. It's all right to read that N.Y. style wit and wisdom once in a while in the **Dramatic Section** of a New York paper where most of it has been when it's news, but, in book form, it's all about as witty and wise as an account of **Physics Tests I Took Last Year or Ninor Characters in Books You'll Never Read**. **Screenland** does all that better, in barber shops, with pictures. 290 pages, too.

This Carl Carmer his **Genesee Fever** has arrived in Walker. That's a York State historical novel that the **Literary Guild** or the **Book-of-the-Month Kartel** sent out to paid-in subscribers a month or two ago. Those who read it then have now forgotten it, unless they remember the flavor of the **Burnt Over Area** and some of the **Whiskey Rebellion** costumes. Otherwise, no story, no Significance. The title indicates a kind of local influenza, from which the hero is rescued by the local **Pocahontas**.

## FREEDOM FOR INDIA?

## For Boys To Play

By Gene Schnell

... with the Junior Prom safely tucked away in our entertainment memoirs, we find a rather quiet aftermath coming up this weekend. As a matter of interest to you who are affectionately attached to long weekend parties, there is a report here of several illustrious sophomores who finished last weekend's festivities only two nights ago at a private brawl in the Embassy Room of the Hotel Vendome. May we add, it was quite informal.

... back to this weekend's agenda; we see planned only one fraternity dance. Honors go to the D.U.'s who aided in the Walker Memorial Committee by picking an empty weekend for their Spring formal. Don Gahan will swing out at their Beacon Street lodge tonight, come nine-thirty.

... we have a report here for

you ski-minded Romeos who have by now found the open slopes rather barren fields for conquest. The series of Skiers' Evenings, held at the Hotel Vendome this past season, will conclude in a carnival and ball on Monday evening, March 23. Square and modern dancing from nine to one will feature music by Roly Rogers' orchestra.

... by way of symphonic entertainment, we find scheduled for March 20 and 21, the Sixth Symphony of Shostakovitch as well as Beethoven's Violin Concerto featuring the distinguished soloist Yehudi Menuhin.

... definite sign of Spring is the annual Boston Flower Show. Sponsored by the Massachusetts Horticultural Society, the show will appear from March 16 to 21 at the Mechanics Building.

## IT TOOK A WAR TO DO IT

It took one war to build the Hangar Gymnasium and another one to tear it down. For twenty-five years, ever since the United States entered the first World War to save democracy, the Hangar Gym has disgraced the Institute campus. It started out as a temporary part of the naval air training station, was converted to a storage building at the end of the war, and was later turned over to the students as a gymnasium. Yesterday, its death knell was sounded by President Compton when he announced that the "Barn" was to be demolished in order to provide additional space for urgent war activities.

This very welcome piece of good news, however, is contaminated with a bit of the bad: another temporary building is to be constructed on the ground which will be left empty by the removal of Hangar Gym. That part of the announcement brings to mind the possibility that this new temporary edifice may prove, like its predecessor, to be not so temporary and may still be with us at the end of a quarter-century.

But President Compton expresses the hope that the Hangar Gym's "removal and replacement by a temporary building will hasten the time when the Institute can erect a structure more adequate for our athletic needs, and one which will be not an unsightly fire hazard, but an addition to our athletics plant of which we may all be proud." With the assurance that the entire student body will support us, we join wholeheartedly with President Compton in the hope that another war will not have to be fought to rid the campus of its second temporary building.

## SUMMER SPORTS PROGRAM

The six hundred members of the Class of 1943 who will attend classes at the Institute this summer should be provided with a program of intramural sports. The logical body to assume this responsibility is the Beaver Key Society, which sponsors the intramural contests during the regular terms.

A league made up of dormitory, fraternity, and commuter teams could be formed to provide recreation for the Juniors. The swimming pool will be available for swimming meets. The new War Time will afford enough daylight after supper to permit a twilight baseball or softball league to function, and the Walker Gymnasium will be handy for basketball and volleyball games, while the tennis courts will accommodate tennis tournaments.

The present Beaver Key Society, consisting of members of the Class of 1943 should be permitted to hold office until next fall, and should be granted a budget to defray the expenses of a summer sports program in order that the Juniors may enjoy some competitive exercise throughout the summer.

## FOLLOW THE INST. COMM.

Technology students will be able to keep in closer touch with their student government if they take full advantage of the agenda of future Inst. Comm. business, which will be printed in The Tech as provided for in a ruling passed at last night's Institute Committee session. The ruling states that all motions which are to be brought up by the Inst. Comm. must be submitted to the Walker Memorial Committee and printed in The Tech before each meeting.

The Institute Committee is interested in gaining student opinion concerning the problems which it faces. The student body should, in turn, be interested in giving that opinion so that it may take an active part in the formulation of Inst. Comm. policies. The agenda of future business will enable the student to know when a motion of particular interest to him is to come up in Inst. Comm. meetings and to be present at the meeting to voice his opinion in person.

## Clippings —

Two women were discussing a mutual acquaintance.

"She has a very magnetic personality," said one.

"She ought to have," commented the other, "everything she has on is charged."

—Queen's Journal

And then there was the story of the dipsomaniacal Japanese who whispered to a British bar-keep:

"I think I'll have a Malacca Strait."

—Boston University News

Country Gal: "Dad's the best rifle shot in this country."

City Slicker: "What does that make me?"

Country Gal: "My fiance."

—McGill Daily

Lady: "I want a box of powder, please."

Fresh Clerk: "You mean the kind that goes off with a bang?"

Lady: "No, clever one, the kind that goes on with a puff."

—Queen's Journal

## The Reader Speaks

Editor, The Tech:

In the Spring a young man's fancy lightly turns—but if he is a Tech man and has to drive his cars on Technology's allegedly paved roads, you can be sure that things like automobile wheels turn not lightly, but with much pain and considerable tearing of rubber and wrenching of bearings. You are indeed right; our local drives are in deplorable condition. With the road from the dorms to Building 6 looking as if some genie-like personage had treated it with sulfuric acid in spots, and the new Coop parking lot starting to show an amazing resemblance to the Esplanade's

(Continued on Page 4)

### Solid or Liquid State?

Professor Newell C. Page of the Physics Department has a heavy lecture schedule, these days, and laryngitis sneaks up on him from time to time. He was talking along smoothly in his 11 to 12 lecture on electricity, last Wednesday, when his voice threatened to go A.W.O.L. He managed to tell his audience that he would have to stop for refreshment, just as his last vocal chord went limp.

The Professor moved to the end of the lecture table, and slipped what looked to be an ordinary peppermint Life Saver into his mouth. Immediately, his voice came booming forth stronger than ever. The miracle was greeted by cheers from the multitude, mixed with numerous queries as to the kind of refreshment that had wrought the change.

### A Little Color for Te12

No one can say that "Elements of Modern Economics" by Meyers doesn't try to put a little life into the rather dry study of economics. When dealing with taxation and its effect on the consumer, the author of this text-among-texts takes lipstick as an example of a taxable article. He hastens to point out, however, that the "consumer" in this case is to be taken as the purchaser. Most of his readers would like to differ on this point, having consumed quantities of that gooey substance without ever buying so much as one stick.

### A Rose By Any Other Name . . .

It seems that the Japanese object to being called "Japs." Their German allies, so the story goes, are so enraged by the British custom of referring to the Sons of Heaven as "Japs," that they threaten to substitute "Brits" for the British. The latter have retaliated by declaring that Germans will henceforth be "Germs" to them.

# Sword, Rifle, Squash Teams Top Harvard

## Fencers Stab Crimson, 16-11; Win Foil, Epee, Sabre Classes

The Beaver swordsmen defeated the Harvard fencers last Tuesday by a score of 16-11, in a meet held in the Hangar Gym. This was ample revenge for the defeat which the Swordsmen suffered at the hands of the Crimson men last year.

Two years ago the Beavers came out on top of the Crimson foilsmen, but last year the Harvard men rallied and beat Tech. This year the Beavers, led by Co-captains John Hinchmen and Bill Kellogg invaded the school "up the river" winning the matches with all three weapons. This was the last dual meet of the season, the next action the fencers will see being at the Intercollegiate in New York on Saturday and Sunday, March 21 and 22.

### Individual Scores

The individual match scores are as follows:

**Foil:** Tech 6, Harvard 3. Ackerman (T) defeated Wilbur (H) 5-4, Vaughan (H) 5-3, and Koch (H), 5-2; Colman (T) defeated Wilbur (H) 5-3; Kellogg (T) defeated Wilbur 5-4, Vaughan 5-2. Vaughan defeated Colman (T) 5-3; Koch (H) defeated Colman 5-3 and Kellogg 5-2.

**Epee:** Tech 5, Harvard 4. Hinchman (T) beat Olmstead (H) 3-1, White (H) 3-2; Kratz (T) defeated Wilbur (H) 3-0, White 3-2; Kellogg (T) defeated White 3-1; Von Vehren (H) defeated Hinchman 3-2, Kratz 3-1, Kellogg 3-0; Wilbur defeated Kellogg 3-2.

**Sabre:** Tech 5, Harvard 4. Higgins (T) defeated McNeal (H) 5-1, Ward (H) 5-3; Hinchman (T) defeated Ward 5-2; Cooledge (H) 5-3; Nowak (T) defeated Cooledge 5-3; Wilbur defeated Hinchman and Maconi 5-1; and Ward defeated Nowak 5-2.

## Mermen Leave For Amherst

The varsity swimming team left this morning for Amherst where they will enter the New England Intercollegiate Championships. Along with the varsity went a freshman 400-yard freestyle relay team. Although both are expected to do well, neither Coach Smith nor Coach Jarosh expects to win the championship.

The best bet for winning will lie with Jack Hunn, who has taken consistent firsts in diving throughout the year with the exception of the first few meets when he was suffering with a leg injury. Bob Reebie is also expected to place high among the divers.

### Ed Pepper Takes Choice

Ed Pepper who last week set a new Institute 220-yard freestyle record in a meet with Worcester Tech and Massachusetts State, as well as a 440-yard freestyle record in the same meet, will swim which ever one of these races he feels most like swimming.

The medley relay team which set the Institute record earlier in the season will also compete. It is made up of Joe Gershnow, Jack Loveland, and Captain Bill Denhard. Coach Jarosh figures that this team should place about fifth.

## Beaver Key Volleyball To Start March 17

The Beaver Key Volleyball tournament will start on Tuesday, March 17, announced Calvin Dunwoody, tournament chairman. The first game will be played at 8:00 P.M. in the Walker Gym. Two games, starting at 8 and 9 P.M. will be played every Tuesday, Wednesday, and Thursday from then until the completion of the first part of the tournament. The round robin will then begin for the five finalists.

## Marksmen Down Harvard Team 1570-1542 On Wednesday

Following the example of the squash and fencing teams the Tech marksmen downed the Harvard rifle team on Wednesday afternoon at the rifle range here at Technology. This marked the third victory over Crimson teams by the Beavers so far this week. Their margin of victory was none too large the final score being 1570-1542. This victory was the turning point in a streak of bad luck which has haunted Coach Woiccaks squad all season. The next meet will be tomorrow afternoon at two o'clock at the Tech rifle range when the team will meet Norwich University.

## Sailing Season Opens Sunday

### First Dinghy Race Set For April 18 For Sharpe Trophy

Tomorrow, Saturday the 14th, the dinghies get a scrubbing, and the pavilion gets cleaned out. On Sunday, announced Jack Wood, sailing master, the Spring opening will see a few white sails again tacking on the Charles.

On Saturday, April 18th the season's schedule opens with the Alucian Sharpe Trophy competition at Brown University. On the following day, Sunday, sponsored by the Community Sail Boats, Harvard will be the scene of the George Owen Trophy sail. On the 19th, The New England Association Members' Regatta will be held at Brown, while on the 25th and 26th of the month the Mid-Atlantic Championship will be held at Princeton.

On Saturday, May 2nd, and Sunday, May 3rd, the Coast Guard Academy Regatta will be sailed at the Academy. Also on the same weekend, the Annapolis will be the scene of the Mid-Atlantic Championship with Navy. On the weekend of the 9th and 10th, the fleet will be home to compete for the Morss Trophy in the Dinghy Intercollegiate contest. On Sunday, May 17th, the Boston Dinghy Regatta will sail at Tech.

Jack Wood announces that, with the Class of '43 attending the Institute during the hot months of the summer, there is expected probably the largest turnout in years. Jack also announced one sail for the freshmen on May 2nd and 3rd. Brown will be the scene of the Freshmen Regatta competition.

## Squashmen Edge Cantabs 3-2 In Season's Last Match

In one of the most thrilling climaxes of the season the Tech Squash team finally overcame a strong Harvard aggregation to finish their season victoriously on Wednesday. Three of the matches went to four games and two of them to five games proving that the Beavers had no easy victory. The final score was 3-2.

Jack Barry opened the meet by taking the first match with very close counts and at that point the Beaver's luck turned. Jack Shaw and Carl Trexel were unable to prevail and lost to their opponents by narrow margins. After dropping his first two games Lou Stouse took three straight and knotted the count at two all. It remained for Captain Jack Sheetz to bring home the bacon. The score went to two games apiece and the final one proved a thriller. Sheetz went into the lead 13-9 but his opponent rallied and brought the count to 13-12. When the smoke cleared away after the last few volleys Sheetz had come out on top 15-13 and made the last match for the team which was composed entirely of Seniors one well worth remembering.

## Handicap Track Meet Set For Tomorrow

Inviting the entire school to participate, Oscar Hedlund, the track coach, has announced a handicap meet for Saturday, March 14, at 2:00 P.M.

Times and distances will count on the P. T. competition now going on. The events Saturday are: 50-yard dash, 45-yard high hurdles, 60-yard low hurdles, 300-yard dash, 500-yard run, ¾ mile run, 1 lap relay, high jump, broad jump, shot put, and the pole vault.

## Tech Hoop Teams Enter Semifinals

Drawing to a dramatic close, the Tech Hoop Tourney, Technology-sponsored inter-high-school basketball competition, has narrowed down to the semi-finals in both Classes, A and B. Under the direction of H. P. McCarthy, hoop mentor, the tournament has been attended by a large crowd at the Tufts gymnasium.

The Class A semi-final contests are as listed: Rindge Technical 31, Lynn Classical, 27; New Bedford, 36, Brookline, 29; Attleboro, 30, Taunton, 29; Chelsea vs. Peabody, not announced.

The Class B semi-final battles were: Rockland 36, Franklin 35; Newburyport 69, Belmont 34; Lexington 40, Framingham 32; Braintree 41, Chelmsford 22.

5:00 P.M. Sedgewick Society Meeting—10-429.

### Q-Club

(Continued from Page 1)

In making this award the "Q" Club is not looking for experts in one particular sport but is seeking the versatile all-around athlete. The degree to which the candidate inspires his teammates and shows a healthy competitive spirit will also be taken into consideration in the choice. The winner of the award will be announced sometime in the latter part of April.

### Reconstruction

(Continued from Page 1)

#### Would Punish Nations

One group of the students present argued for the punishment of the defeated countries, and the establishment and organization of new governments in them. The other faction decided that before settlement was attempted the goals to be attained had first to be set up, and then some method to arrive at these goals had to be decided upon.

The latter plan of action was found to be the better of the two, and thus the first topic discussed was finally settled with collective security. This will be thoroughly analyzed at the next assembly, to be held next Wednesday, March 18, in the Litchfield Lounge of Walker Memorial. The balance of the political topics will be discussed before the economic, social and other groups of topics are to be talked over.

### Hangar Raze

(Continued from Page 1)

ing must therefore be demolished. "Fortunately, the removal of the Hangar comes at a time when its major use for gymnasium purposes is largely over for the present academic year. As you know, the gymnasium in Walker Memorial is again available for student use, and it is hoped that some of the activities now centered in the Hangar Gymnasium will be carried on in the Walker Memorial Gymnasium.

"While we regret that the demands of the war have made it unexpectedly necessary for us to decrease our athletic facilities by demolishing the Hangar Gymnasium, I am sure that students who use it will understand that a need of the highest priority dictates the removal of the Hangar. I venture to hope that its removal and replacement by a temporary building will hasten the time when the Institute can erect a structure more adequate for our athletic needs, and one which will be not an unsightly fire hazard, but an addition to our athletic plant of which we may all be proud."

The Hangar Gym was erected during the first World War by the government for training purposes. Its destruction marks the end of a cycle of war and peace.

## Technology Skiers Show Progress Over Five Years

Once upon a time, a couple of ski fanatics met in front of the Bursar's office and decided that one escape from the sordid quarters of scientific progress was to grab a pair of skis and dash off to the White Mountains. Just like that . . . and that was five years ago. From that day to this, skiing, a most refreshing and challenging sport, has been rapidly growing, and out of its attraction has come a certain group of boys who decided that there was nothing they cared to do more than to spend their time on the high snowy slopes and win prizes and recognition for Technology

Hans Aschaffenburg, who is now president of the Eastern Division of the I.S.U., tells us that by 1938, the team was already beating Dartmouth. Those fellows with the intriguing European names, Olaf Rustad, Nils Rosenberg, Dino Olivetti, Frank McClintock, Bob Simon and Hans were responsible for this.

### Beavers Take Honors in 1941

This team was not balanced enough to keep its good positions gained in the downhill and slalom, and the lack of jumpers and cross-country men was apparent. But by 1941, the Beavers were able to ski away with all the events, winning the I.S.U. Championship against Bates, Maine and Mass. State. The team later placed 4th out of twenty contestant teams, defeating a strong Dartmouth team among others

At first, the ski enthusiasts were forced to finance their own expeditions. But the Outing Club quickly recognized the tremendous popularity of the sport, and is now its sponsor. Supporting the team financially, the Institute Committee stepped in and for the past few years has provided equipment and transportation for the team and the Outing Club.

### Tech Men Bow to Guests

This winter, the Technology Outing Club acted as hosts to Bates, Colby, and Maine, at Bridgeton, Me.

### Senior Week

(Continued from Page 1)

lowing evening, Friday, the Barn Dance will be held. On Saturday afternoon, the 25th, the Class Day Exercises will be held followed by the Tea Dance. The Baccalaureate Service will be given Sunday afternoon, followed by the graduation exercises Monday morning, April 27th. The President's reception will be held in the afternoon. Senior Week will be climaxed in the evening by the formal dinner and Senior Ball to be held at the Hotel Statler Ball Room.

The location of the other Senior Week activities will be announced when the arrangements are completed.

Lester, Jr., Theodore Davis; 9. William A. Reinhardt, Robert H. Horsburgh; Jr. 10. Joseph V. DaCorte, Barrett O'Neill; 11. King Cayce, John E. Fries, Jr. 12. Clarke S. Bressler, Jr. Ray C. Frodey; 13. John H. Kellogg, Jr., Richard M. Sweeney; 14. Matt R. Long, Jr., Halbert S. Gillette; 15. George E. Sherman, William D. Stahlmann; 16. Thomas L. Bell, Jr., V. Robert Hann; 17. John L. Hull; Anthony Staros; 18. James A. Leonard, Clinton W. Murchison, Jr.; 19. Franklin R. Amthor, Jr., George R. Pepin; 20. Warren S. Follett, Kenneth L. Keating; 21. Leavitt J. Pope, James L. Phillips; 22. Harold E. Simmons, Richard J. Merrow; 23. H. Bruce Fabens, Carroll W. Boyce; 24. Roland B. Vance, James Guimer, Jr.; 25. Axel H. Kaufmann, Robert H. Millett.

### Solons Meet

(Continued from Page 1)

ested. Anyone may attend an Inst. Comm. meeting and express himself but cannot present motions or vote.

Other business which occupied the meeting was the approval of Debating Society elections with George M. Musgrave, '43, elected president; Ward J. Haas, '43, vice-president; and Richard J. Zeamer, '43, manager. In the future the president of the Debating Society will be an Inst. Comm. representative.

George C. Marakas, '43, was made Chairman of the Elections Committee replacing Stewart Rowe, '43, who was recently chosen Editor-in-Chief of Vu magazine. Rowe was unable to hold both positions because he would have been overpointed, according to rules of the Walker Memorial Committee.

Changes in the constitutions of The Tech and of the Christian Science organization were approved.

It was moved, seconded, and passed "That the Inst. Comm. approve the elections to the freshman council." m. s. p. "That the payment for an unforeseen bill in Class of 1944 be permitted to withdraw \$10 from their treasury in connection with the Sophomore Prom." m. s. p. "That no ex post facto rulings be made on men who become overpointed when changes in the point system are effected."

### 3 Dimensions

(Continued from Page 1)

result. Pictures were limited in size and permitted but a single observer at a time. Polarized light is the latest device permitting overlapping pictures unlimited in size and allowing projection in full color with motion for large audiences.

The successful addition of the third dimension is the last major step in the development of photography from barely recognizable black and white, flat, still images toward the ultimate goal of a complete illusion of reality containing definition, motion, color and depth.

Such photography permits effective images in space removed from the screen surface and thus greatly expands the possibilities of illusion. Such space images are also rapidly growing in scientific importance because they offer an extremely sensitive method of depth measurement of great value in military and commercial fields.

### Reader Speaks

(Continued from Page 2)

Roosevelt Alley, it would seem to me time that something were done.

You might say that an automobile doesn't get tired—and technically you would be right. I had something which closely resembled a new set of tires; but even with the motor idling in low gear they really take a beating negotiating the dangerous terrain of Technology. Please, Mr. Smith, at least fill a couple, so we can dodge the rest. That's all I ask. No more will you have frost heaves to ruin your pavements, so why not fix them for another year's use.

Clifford Ham

### F.C.A. Officers

(Continued from Page 1)

ment. Also present, in keeping with the T. C. A.'s custom of inviting guests from other schools, is to be Miss Shirley Grapek, Vice-President of the Junior Class at Radcliffe. Miss Grapek is connected with the Student Christian Movement at Radcliffe. Over fifty-five persons are expected to attend this affair, making it the largest Annual Luncheon Meeting that the T. C. A. has ever held.

The new cabinet, as released after the elections held a short time ago, is larger by seven men than last year's cabinet. The Executive Committee consists of Clinton C. Kemp, '43, President; Sid F. Atlas, '43, Vice-President; E. Charleton Crocker, '43, Secretary; Charles C. Holt, '43, Treasurer; and Stanley B. Roboff '43, Boy's Work Director. Eight men of the Class of '44 have been appointed to Division Manager positions, and twenty-nine other students, primarily members of the freshman class, have been appointed as Department Directors.

### I.F.C. Dance

(Continued from Page 1)

campus to foster improved relations between the different residential groups, a plan which worked very successfully at the recent Junior Prom. Gordon H. Hill, '42, dormitory dance committee chairman, and Waldo F. Davis, Jr., 5:15 Club president, are in charge of these sales. The ticket price is \$4.54 plus \$46 tax for all students.

### Champagne Planned As Door Prize

Of the \$4.54 ticket, \$2.35 will go for the orchestras and \$2.19 will provide for the decorations, prizes, intermission entertainment, program favors, and ballroom. The usual custom of awarding six bottles of champagne as door prizes will be continued this year by popular demand.

Intermission entertainment, which was inaugurated for big Technology dances at last year's I.F.C., will be a further highlight of the evening. For the first time in Technology dance history, the Statler Imperial Ballroom will be done over by a professional decorator to provide a more congenial atmosphere.

### Saturday Events Scheduled

For a more successful party weekend, the 5:15 Club is holding its annual Carnival, and several fraternities are planning informal affairs for Saturday afternoon and evening. An effort is being made to keep all Saturday events informal, in order that party-goers may be suitably dressed for all occasions.

"While interviewing prospective band leaders, we found that M.I.T. has earned a very unfavorable reputation in regard to the spirit displayed by the audience as compared to those of other schools. Most Tech students fail to realize that their dances appear stiff and formal to outsiders because they are not accustomed to the informal 'Joe College' attitude that makes dances elsewhere so successful.

### The First Church of Christ, Scientist

Falmouth, Norway and St. Paul Sts., Buxton, Massachusetts

Sunday Services 10:45 a. m. and 7:30 p. m., Sunday School 10:45 a. m.; Wednesday evening meetings at 7:30, which include testimonies of Christian Science healing.
