

OARSMEN WILL ROW TODAY

Frosh Will Hear Reserve Talks Tues. Afternoon

Army, Navy, Marine, Men To Tell Frosh Of Respective Programs

Next week the freshman class will be told of the opportunities for them in the enlisted reserve programs. At a series of meetings, representatives of the Army, Navy, Marines, and Air Forces will explain the advantages of their respective branches of the service. Prof. John D. Mitsch of the Advisory Office for the Army and Navy Reserve programs will also address the class.

These meetings will all be held in Huntington Hall, 10-250 and take preference over all sports and the elective hour of drill. All freshmen are required to attend. The meetings will be held at the following times: Tuesday, October 27, 4:00-5:00 P.M., Sections 1-4 and 17-25 inclusive; Thursday, October 29, 4:00-5:00 P.M., Sections 5-16 inclusive; Thursday, October 29, 5:00-6:00 P.M., all sections.

The first two meetings will be addressed by the various speakers, and the last meeting will be devoted to answering all questions that the freshmen may have. Further information on this subject is also posted on the Military Science bulletin boards.

All-Tech Sing Set For December 4

Baton Society Offers Silver Cup To Winner

The annual All-Tech Sing, open to all organizations connected with the Institute, will be held on Friday, December 4. Last year was the first time this song fest had been held since 1936. The participating groups are to compete for the silver cup offered by the Baton Society.

Chairman Berrelt B. Russell, III, '43, asks all other Technology groups to refrain from scheduling other functions for this evening. The cooperation of everybody will be greatly appreciated.

Preliminary application blanks for the competing groups will be sent shortly to those people interested. These groups include fraternities, dormitories, clubs and any and all other societies connected with the Institute.

Unitarian Conference Will Be Held Sunday

The M.I.T. Unity Club and clubs from neighboring colleges will attend the Greater Boston Unitarian Student Conference, to be held at 4:30 P.M., Sunday at the Second Church in Boston.

Simultaneous discussions on various humanitarian and religious activities will be the highlight of the meeting. Supper will be served about 6:30 P.M., after which further discussions are to be held. All Unitarians and other religious liberals are invited to attend.

The Tech To Contest Voo Doo On Commando Course Oct. 31

Sigma Nu And Friends Take Trip To Tech Cabin

Technology students from Sigma Nu fraternity and their friends will take a trip to the Tech Cabin this weekend. This group of about thirty, including Mr. and Mrs. Robert V. Higdon, acting as chaperones, will take advantage of the opportunity which the T.C.A. offers to any group at the Institute. No charge is made for the use of the cabin, as it is run on donations through the T.C.A. drive which is scheduled for November second through November sixth.

Plans For 1942 Annual T.C.A. Drive Now Under Way

Dean C. Picton, '44 Heads Committee, Goal Set At \$3,740

With a goal of \$3740 set for this year, the T. C. A. now has its program for the T. C. A. drive under way. This amount does not include the Red Cross and World Student Service funds which will be received at the same time.

An explanation of the W. S. S. F. is probably necessary for the new students. Contributions to the W. S. S. F. go to assist students in prison camps in Europe and to Chinese students who have been bombed out of the coastal cities to places inland, where they have established themselves in relocated universities.

The drive chairman is Dean C. Picton, '44, and assisting him with the drive are the following with the groups which they head: Charles C. Holt, '43, fraternities; Waldo F. Davis, Jr., '43, commuters; Frederic J. Blatz, '44, free lancers; J. George Schudel, '43, statistics; Langdon S. Flowers, '44, speakers; William C. Krutzsch '45, specialties; Mark Elington, '45, foreign students; Matthew M. Shapiro, '45, desks in lobby. The assistants to chairmen are Horace T. Robson, '45, W. Bruce Gist, '45, and Wallace M. Ross, ex-officio.

T.C.A. Gives Books To U.S.O. At Devens

From the fraternities and the dorms were donated 204 out of date scientific books which the T. C. A. donated to the U.S.O. at Camp Devens, Ayer, Mass. The books will probably be used for research or, as the case may be, for amusement. The books were gathered together by the janitors at the dorms.

The U.S.O. has placed a seal in the books which reads as follows: "This book is loaned to the United Service Organization, Ayer, Massachusetts, by the owner, Technology Christian Association, Cambridge, Mass.

1. It is to be loaned to men in the service, their families and friends.

2. It may be recalled if needed by the owner, either for temporary use or for permanent possession."

Not long ago the managing board of The Tech challenged a trembling Voo-Doo board to an obstacle race over the commando course. Phos has finally accepted and the race will be held at 2:00 P.M., Saturday, October 31, the day after Field Day.

The four man teams will be composed only of men on the managing boards, and the race will probably be run on a cumulative time basis unless some sort of regular relay system can be worked out. In both cases the managing editors are to be anchor men on the teams.

There is a gentleman's agreement between both boards that none of the men who are competing in the race are to have had any practice over the entire run. At present, The Tech board is shaping up well.

The obstacle course, built by the M.I.T.A.A., was constructed according to specifications set forth in the Army training manual on physical education. At present the course is receiving hard usage by freshmen taking military science and by members of advanced units. Some minor casualties have been reported as due to inexperienced men failing to overcome the obstacles in the correct manner. These casualties include one dislocated shoulder. The purpose of the training in overcoming the obstacles, as viewed by the Army, is to supplement the regular setting-up exercises which are not designed to develop mental and physical coordination. In the eyes of The Tech's managing board, the course was constructed to prove that Voo Doo is far outclassed in physical and mental coordination.

Gridiron Subscriptions May Be Obtained Today

All students who have not yet received their Gridiron subscription cards should call today, between 12:00 noon and 2:00 P.M. at the Gridiron booth in the lobby of Building 10.

Any person wishing to purchase subscription cards may do so at this time. The price is \$4.00. These subscriptions include all copies of The Tech, T.E.N., and Voo Doo for a period of one year.

Airplane Formation Converges; Dorclan Initiates Are Prepared

With parachutists cascading down from the skies, Technology was subjected to its first air raid of the war yesterday noon time, although no official air raid signal was sounded. The twelfth interceptor command first received word of approaching planes when an observer on Cape Cod reported twenty planes headed toward Boston, and immediately the whole of the Metropolitan area was put on the alert. Apparently the planes were some new foreign development capable of flying in the stratosphere, because they were not sighted again until they were within sight of Building 7.

However, there was then no need to sound the air raid sirens, as suitable forces were already drawn up in Building 7 Lobby, all ready for

Technology, Harvard, Dartmouth, and B. U. To Compete On Charles

T.C.A. Blotter Gives Wrong Phone Number

The T.C.A. blotter lists the Sigma Alpha Epsilon fraternity telephone number as Commonwealth 1139. In response to indignant protests, The Tech is publishing a request that students correct the number to Kenmore 1139.

Peterson Elected To Senior Week Committee Post

As Junior Member He Will Perform Secretarial Duties

Arthur F. Peterson, Jr., '44, was elected Junior member of the Senior Week Committee, at the regular bi-weekly meeting of the committee held at 5:00 P.M. last night in the Litchfield Lounge of Walker Memorial.

The Junior member acts as the secretary of the committee, so that he will have experience to guide the following Senior Week Committee. He is to attend all meetings and actively participate in them. Peterson acted as a member of the Sophomore Dance Committee last year and has contributed many cartoons for Technology's publication and activities.

The organization discussed the informal party to be held the Friday of Senior Week and the selection of a Beaver orator for class day. It was decided to conduct a survey and members of the Senior Class will be asked these two questions in a poll to be sent out sometime next week.

The Committee also decided that a permanent sales desk could be arranged for option sales. This will open next week and continue until option sales cease and the sale of redemptions begins. Pledges on the options can now be paid at the Bursar's office.

Senior Week, which is to be held the week beginning Thursday, January 28, is under the chairmanship of Robert P. Rumsey, '43.

Beaver Crew Is Not Varsity; Consists Of Seniors, Two Juniors

Competing against shells from Harvard, Dartmouth, and Boston University, the Technology crew will race this afternoon at 4:30 on the Charles River basin.

The Tech crew is composed of:

Steve Heller, '43, stroke
Lang Flowers, '44, 7
Al Bakker, '43, 6
Jim Malloch, '43, 5
Bill Maxson, '44, 4
Hans Walz, '43, 3
Bill Hewes, '43, 2
Tom Bryant, '43, bow
Bill Laird, '43, coxswain

To Race in Lane 3

The Institute shell will race in lane 3 against three Harvard boats, varsity, lightweight varsity, and the first freshman boat, Boston University varsity, and the Dartmouth Rowing Club, on the Henley distance, which is 1 5/16 miles.

Actually the first freshman crew is Harvard's second best boat because these boys have been practicing since the beginning of the summer.

Only a Senior Boat

Bob Moch, coach of the crew, stated, "This is not our varsity racing crew. The squad is just a pick-up crew of Seniors with two Juniors to fill in. The purpose of the race from our standpoint is to give those seniors who are graduating in February one last race before they leave the Institute."

The coach would also like to announce that the crew will start 7:00 A.M. morning turnouts beginning
(Continued on Page 3)

5:15 Club Dance Tomorrow Night

The 5:15 Club will hold a Get-Aquainted Dance from 8:00 to 12:00 P.M. tomorrow, in its club room in the basement of Walker Memorial.

Music will come off the disc, thus assuring the best of orchestras. Girls will be present from several local schools including Katherine Gibbs, Emanuel, and Farmington Teachers College. The dancers will be limited to fifty couples so as to insure room for those fortunates who come in under the quota. Admission is to be \$4.44 and tickets will be on sale at the door.

Spanish Club Dance To Be Held Tomorrow

A dance is to be held by the Grupo de Habla Espanol, the Spanish club at the Institute at 8 P.M., this Saturday, October 24 in Pritchett Hall of Walker Memorial.

Records will furnish the music for the dancers. Admission is 40c for boys while girls are to be admitted free of charge. The girls for the occasion are to come from neighboring Wellesley, Radcliffe, and Simmons colleges. Refreshments have been promised to round out the evening nicely.

combat. After dropping the parachutists, the planes headed toward Willie Jackson's Information Office but all were shot down before reaching their objective. One uniformed guard, and he armed with nothing but a pitchfork, disposed of the entire squad of parachutists, neatly spearing each on the pitchfork before he had a chance to land and put up a struggle.

At the same time, the large expanse of windows in the lobby were being painted as a precautionary measure, in readiness for the next blackout. The large group of students attracted to the scene by the cracking of the whip of a circus ringmaster, complete with whiskers and tails, did not realize however that the paint being applied was

HOSPITALITY A LA TECHNOLOGY

Much has been done for the men in the service in the way of entertainment and utilization of leisure time by the USO and other local service committees. But much has been left undone along these lines by the students of Technology. As is apparent to any Institute visitor, Technology has been and is playing host to quite a few members of the armed forces who are temporarily taking advantage of the excellent technical training offered by the Institute. Brought from every section of the nation, and quartered in Boston for a period of a few weeks, these men have been left to find amusement and relaxation on their own initiative or with the aid of the official USO. Strangers in town have found this difficult and entirely unrelated to their life and newly-made friends at the Institute.

The Dormitory Committee has found what we consider an ideal solution to the problem. It has voted to donate fifteen tickets to the coming Field Day Dance to the Navy men stationed at the Institute. The Committee intends to continue this program with similar invitations to subsequent dances to the other branches of the armed services at Technology.

We hope that more hospitality of this kind may be extended to our present guests and the many more that will undoubtedly spend some time at the Institute in training during the course of the war. This could undoubtedly be accomplished by having all dance committees adopt the same policy initiated by the Dormitory Committee.

Fraternities could send a number of bids to each of their dances to the commanding officers of the trainees for distribution among the men. If all the fraternities could cooperate in such a move, it would take only a small number of bids and a relatively short period of time to give our visitors a taste of the Institute social life. Very little inconvenience would be caused by such a move and the benefit to Technology's reputation as host would be well worth the small sacrifice.

THE TECH ELECTIONS

The Tech takes pleasure in announcing the latest additions to its staff. The following Sophomores were promoted to staff assistants at the last meeting of the Associate Board of the newspaper: Leslie M. Brindis, Charles H. Burns, John C. Conroy, Bruce H. Fabens, Jack H. Frailey, Warren J. Grosjean, Irwin M. Jennis, Donley J. Parr, Jr., Frank S. Pohanka, Jr., Arnold M. Singer, John P. Whittemore, Milton A. Widelitz, and Charles W. Ziebarth.

The next elections will be held in mid-December when a new managing board will be chosen from the present associate board. Sophomores now working for the paper will be elected to replace the present associate board. Associate board members head the sub-departments which operate in the news room, business office, photographic department, and engraving department. The results of the staff elections will be announced at the annual banquet of The Tech to be held before the Christmas vacation. Because of the accelerated program Volume LXIII will begin before the second term as has been the custom in the past.

Dorclan Initiates Annihilate Invaders With Pitch Forks

Large Crowd Watches Antics Of Dorm Men In Building 7 Lobby

(Continued from Page 1)

invisible, so as to confuse the enemy.

Among the spectators at this unusual spectacle were a family consisting of a wife and husband, just returned from their honeymoon, and their long-lost son, who had rejoined them a short time previously, when they had been the main attraction of Dorclan's three-ring initiation circus.

Needless to say, the whole thing was all in fun, being the main feature of one of the periodic initiation stunts of Dorclan, Dormitory honorary society. Apparently part of Dorclan's "war effort" was sabotaged, for, although it had been rumored that an anti-aircraft gun would be on hand to lay down a suitable barrage against the paper planes wafted from the third floor balcony by one of the initiates, no such weapon was in sight, leaving the poor guard to ward off the attack with his pitchfork, which appeared as though it would be more valuable in a scrap pile, than it would to a farmer trying to pitch hay.

The men initiated, had been elected at a meeting of the Society held the first of last week. They are: Robert H. Cummings, '44; Thomas J. Dolan, '43; Edward Epreman, '43; John D. Goldson, '45; Robert Heaton, '44; James D. Ingham, '43; Louis W. Maxson, '44; Robert Nicolait, '44; William O. O'Neill, '43; and John F. Tyrrell, '43.

A.E.S. To Show Gliding Movies

Prof. Koppen's Work In France Is Subject

At 5:00 P.M. Tuesday, October 27, in Room 10-250, the Aeronautical Engineering Society will show movies of the glider activities of Professor Otto C. Koppen and Eddie Allen in Europe several years ago. During their stay there, they participated in the International Glider Contest held in the southern part of France and won first place, for which they received a gold medal and several other laurels.

At the present time Professor Koppen is teaching in the department of Aeronautical Engineering while Eddie Allen is a test pilot for Boeing Aircraft.

These pictures are intended to show how gliding was carried on in the early twenties. To those who are familiar with gliding as it is today, they should prove to be of great interest, from both a historical and an aeronautical point of view. To those not familiar with the art of gliding it will show some of the difficulties encountered by the early pilots during each flight in their frail craft.

Field Day Swimmers To Elect Captains Mon.

All candidates for the freshman and Sophomore Field Day swimming teams are expected to be present this Monday at 5 P.M. in the pool. There will be a meeting to elect the Field Day captains after which preliminary time trials will be held for all candidates.

Names of the candidates are posted on the bulletin board in the pool. Rigid practice will be held all next week.

For Boys To Play

By Gene Schnell

... with the Junior Prom still one month hence we were a bit surprised to hear of the woman trouble brewing over at 526 Beacon Street, hunting lodge of the D.U.'s. As a matter of fact, it looks like double trouble. With two dates for the Junior Prom at the present time, there's no telling what our mid-western friend may amass before the weekend of November 20. Further information concerning the harem-hunting antics of this unlucky (?) Junior might be obtained person to person at the D.U. metaformal tonight. Starting at nine the D.U.'s will take up the ticklish job of informally entertaining with a formal atmosphere — yes, it's the inauguration of the new fangled metaformal party, Tech's war-time formal function. Dress is informal but full suits are suggested for male attire. Music for those indulging in refreshments—consisting of a punch that will revolve about rye and sloe gin as its basic ingredients, sounds powerful if not potent—will be supplied by Don Gan. A military motif will be present with Tech's Corps of Air Cadets invited "en masse."

... it's Navy Day at the S.A.E. fraternity again, as the boys prepare for their annual Sailor Dance at Rowe's Wharf tonight. In keeping with the nautical motif, refreshments will be wafted around—seabreeze is the technical name. Ken Reeves will start the party rolling at 8:30 at the historical Wharf mentioned in sea-tales as far back as 1897. These sea-salts invited are reminded that the affair is strictly a costume party; though bell-bot-

tomed trousers aren't absolutely essential.

... continuing the social whirl on Saturday, the Phi Mu Deltas are holding a record dance at their Beacon Street house. The informal affair, starting at nine, will be in honor of Nevada's entrance into the Union. As to the method in their madness it seems that the brothers just like Nevada. Beer, cider and doughnuts will ring in the event.

... in keeping with the informal vein, the Pi Lambda Phi brothers are holding their annual pledge dance informally this fall. The house will be given over to a Harvest Party, Saturday night, and a real barnyard atmosphere is promised; though your columnist is a bit in the dark as to how far things will be carried. "Dress as farmers," were the words of the social chairman, who promises a lively time for all. Music will be supplied by Bert Edwards and his orchestra.

... two other record dances will hold sway at Walker Memorial, Saturday night. The M.I.T. Spanish Group, Grupo De Habla Espanola, are holding an acquaintance dance in Pritchett Hall with girls invited from Wellesley, Radcliffe, and Simmons. Tickets will be sold at \$40, and refreshments will be served. A second acquaintance dance will be held under the auspices of the 5:15 Club in their clubroom in the Walker basement. Girls from Katherine Gibbs, Emmanuel, and Framingham Teachers College, will be present. Admission will be \$44.

Before you call Long Distance, please ask yourself:

1. Is it really necessary?
2. Will it interfere with war calls?

TELEPHONE lines—especially Long Distance circuits—are crowded as never before, these war days. Materials to build new lines—copper, rubber, nickel—are needed for the shooting war. So we must get the most out of present facilities.

You can help us keep the wires clear for vital war calls if you will do these two things: (1) Don't call Long Distance unless it's urgent; (2) Call by number if possible and please be brief. Thank you!

WAR CALLS COME FIRST!

Technology, Harvard, Dartmouth, and B. U. To Compete On Charles

Coach Urges Future Turnout For Crew As Graduation Looms

(Continued from Page 1)

Monday, October 26, and continuing for a period of fifteen days. "I would like to emphasize," said the coach, "that all oarsmen in the school should turn out for these fifteen days. We are hoping that all boys who have intentions of joining crew this spring will show up for this practice so that we may get a good fall rowing foundation in preparation for the spring season."

Field Day Frosh Invited

After Field Day, all freshmen who have been out for a Field Day sport are invited over to the crew house. If interested in crew they should sign up with Mr. McCarthy at his office before twelve noon on Friday, October 30.

The new shell which was received last spring is going to be christened this Wednesday, October 28, by Dr. Charles Locke. The name of the shell has not yet been announced.

Stickmen Condition On Commando Race

There will be lacrosse practice behind the Alumni Pool this afternoon at 4:00 o'clock. Candidates are asked to report in clothes suitable for a conditioning workout on the commando obstacle course. A stick-handling session will follow the workout with special instruction for all new men.

Basketball Squads Train Vigorously New Field Day Event Draws Much Attention

According to recent reports the Field Day basketball game promises to be one of the standout events of the day.

Basketball has been added to the Field Day Program for the first time this year by decision of the Institute Committee. The game will receive three points in the scoring system and will eliminate the possibility of a tie which existed last year. It is to be held in Walker Memorial Gym, where bleachers are going to be placed to hold the crowd.

Both squads are practicing vigorously and shaping up well under the tutelage of George Marakas, '43, who is coaching the Sophomores, and Tom "Red" Dolan, '43, who is coaching the frosh team. Although the Sophs seem favored and a hard combination to beat because of their year of play together, the freshmen will not be lacking in spirit. The Sophomores have some secret plays and a new "floating man to man zone", according to Coach George Marakas, which may prove very interesting to the spectators. Regardless of the outcome the game promises to be a good one and should add spark to the day if the teams are backed with the same spirit with which they are practicing.

Badminton Will Start Sunday In Walker Gym

Practice for prospective badminton players, to be held every Sunday in Walker Gym, will start next Sunday, from 7:00 P.M. to 9:00 P.M., it was announced by badminton club officials. All equipment will be supplied by the club.

Intercollegiate matches are to be scheduled, if sufficient interest is shown.

Field Day Runners Closely Matched Says Coach Hedlund

But Frosh Team Has Slight Edge As Times Are Computed On Paper

Figuring the times of the runners on paper the frosh appear to have a slight edge over the Sophs as the relay teams shape up for Field Day according to Oscar Hedlund, mentor of the cindermen.

Both groups of men have been working hard in preparation for the event with about 19 men competing for positions on the Soph team while 23 freshmen are seeking to represent their class in the Annual classic next Friday.

All men are requested by Coach Hedlund to report for a final workout tomorrow afternoon at 2:00 after which the lineups for Field Day will be announced.

Assured of positions on the '45 squad are the following men; Bent, Bailey, Randolph, Bryant, Ashley, Kelly, Ehrat, DeGussie, Cooley, Singer, McKee, Boreham, Pyle and Jester. Leading the freshman competition are Coombs, Walzer, Beumer, Wood, Roth, Kay, Carter, Penner, Booker, Kindell, Passons, Henze, Smith, Spencer, and McQueen.

Dinghy Regatta To Be Held Nov. 1

According to the Inter-Collegiate Yacht Racing Association, the undefeated M. I. T. dinghy team is the "hot team" in the Second Annual Erwin H. Schell Trophy Open Inter-Collegiate Regatta to be held on the Charles, Sunday, Nov. 1. Thus far the Techmen have beaten both Harvard and Dartmouth and have tied the Crimson for first place in the Greater Boston Inter-Collegiate Regatta.

The M. I. T. Nautical Association will act as host for the affair, which is the biggest intercollegiate regatta during the Fall season. Invitations have been sent to nearly thirty member colleges.

Dartmouth won the trophy last year with 86 points while Tech took fifth place with 65.

The regatta is named in honor of Professor Erwin H. Schell, professor of Business and Engineering Administration, who has been influential in the development of sailing at M. I. T.

Opening Round Of Beaver Key Tourney Over

D.U.'s Swamp Pi Lam's As Phi Gam and S.A.E. Grid Teams Prevail

Last Sunday the first round of games for the Beaver Key Football Trophy was played. Several ties resulted as well as several upsets. Chi Phi and Phi Kappa battled to a scoreless tie, as did Beta Theta Pi and the Student House. These games will be replayed tomorrow afternoon at 2:30 and at 4:00 respectively.

Sigma Nu advanced over Delta Psi by default, while Phi Gamma Delta rolled over Theta Delta Chi 15-6. Theta Chi downed Lambda Chi Alpha 13-0. Phi Beta Epsilon turned back Phi Delta Theta 13-6, as Sigma Chi smeared Phi Mu Delta 19-8. Delta Upsilon shut out Pi Lambda Phi 19-0. Sigma Alpha Epsilon won a 27-0 victory over Delta Tau Delta in the fastest game of the day. Kappa Sigma eked out a 6-0 decision over favored Delta Kappa Epsilon. Alpha Tau Omega was handed a neat 12-8 defeat at the hands of Sigma Alpha Mu, while Phi Kappa Sigma was set back by Theta Xi 7-0.

The schedule of games to be played on Sunday is as follows:

9:30—Winner Phi Kappa vs. Chi Phi vs. Delta Upsilon; Phi Beta Epsilon vs. Sigma Chi; Sigma Alpha Epsilon vs. Theta Xi.

11:00—Kappa Sigma vs. Sigma Alpha Mu; Theta Chi vs. the winner Student House vs. Beta Theta Pi.

4:30—Sigma Nu vs. Phi Sigma Kappa.

Teams will supply their own footballs and any team more than fifteen minutes late will automatically forfeit the game. Games will be played on Briggs Field in the same place as last week.

Helmsman Classes To End This Week

The second shore school of the season has been nearly completed, with extreme success, it was announced today by Jerry Reed, sailing master of the Nautical Association. The number of helmsmen has been increased by about seventy-five, and many more have nearly attained that title, it was stated.

With the conclusion of formal classes this week, many new members who have completed only part of their helmsman's tests have apparently given up hope of passing them, Reed reported. It was stressed that this is an even more opportune time to pass tests, as the Pavilion is somewhat less crowded, and many more coxswains and helmsmen are available. Club officials urged prospective sailors to take advantage of their membership by completing requirements before present knowledge has been forgotten.

Beaver Feats

BY GARD SLOAN

Co-ordination, Friendship Are Values of Crew—Moch

"The best thing about crew is the complete co-ordination and the consequent friendships which this co-ordination cements." This is the finest reward attributable to crew, according to Bob Moch, Tech's head crew coach.

There is no individual glory, says the crew mentor, such as that of the quarter-miler or star halfback in track or football. Victory by oars, on the contrary, depends on complete co-operation, on working for the unit as a whole, all for one, and one for all.

Rowed for Washington

Bob Moch is not just another coach. He has seen many crews and many races in the past ten years. Beginning his college crew career at the University of Washington, he rowed on the freshman crew in 1933. The next year he rowed on the junior varsity and then on the varsity his Junior and Senior years. As a Senior in 1936 he rowed on the crew which won the Poughkeepsie regatta. The same crew also won the National Sprint Championship at Princeton and went to Berlin to win the crew championship at the Olympic Games.

Coached Washington Freshmen

Returning to the University of Washington the next year, Bob Moch coached the 'reshman crews for three years. Two of these freshman boats won the Poughkeepsie freshman regatta, the other crew took second place.

In 1940, Bob Moch came to M. I. T. and has coached the varsity for three years. He has not turned out winning crews as he did at the University of Washington, but he undoubtedly could if the student body supplied him with the manpower and spirit with which to work.

Other Crew Mentors

Bob Moch is well assisted in

Harriers Race Jumbos Today At Medford

Freshmen Runners Open Fall Season Against Tufts Frosh

The Tech harriers will face their third foe of the season this afternoon when they travel to Tufts to face the Jumbo cross-country aggregation at 4:30 P.M.

The lineup will be the same as the one which overcame the Mass. State runners last weekend at Amherst by a score of 19-39. That team will consist of Captain Bob Miller, Ken Joseph, Bob Jevon, Harold Knapp, Bill Rockholz, Bob Cummings and George Ziegler.

The frosh will open their season at the same time against the Tufts first year men and according to Coach Oscar Hedlund the prospects are bright for the Beavers.

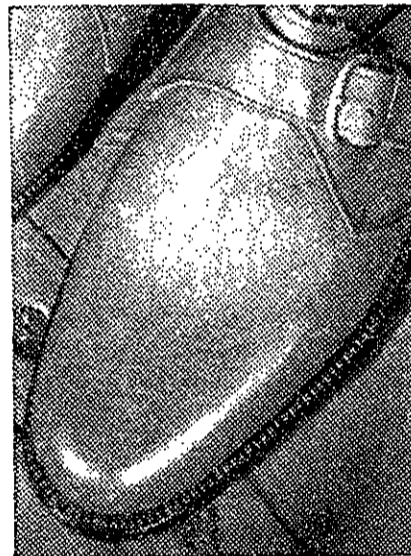

coaching by Pat Manning and Jim McMillin. Pat Manning has been with M. I. T. for nearly thirty years and has coached everything from freshman to varsity, heavies and lightweights.

Jim McMillin went to the University of Washington with Bob Moch and rowed on the varsity three years, 1935-37. He was on the same crew with Bob Moch which won the Poughkeepsie regatta and went on to win the regatta in the Olympic Games at Berlin.

Switch to Frank MEDICO FILTERED SMOKING

66 Baffle Filter Thrills Smokers

USED IN MEDICO PIPES, CIGAR, AND CIGARETTE HOLDERS

New York—The scientific, absorbent filter has contributed mightily to the smoking pleasure of millions of men and women who have switched to Medico Filtered Smoking. Actually, the smoke must travel through 66 "baffles" before reaching the mouth. Flakes and slugs are trapped; and the smoke is whirl-cooled as it winds its way through the filter.

Arts Education To Be Debated This Afternoon

Radcliffe To Be Host To Debating Society In Aggasiz Theatre

At 3:00 P.M. today the Debating Society will participate in a debate at Radcliffe, in the Aggasiz Theater. The debate will be on the subject: "Resolved, that the liberal arts education should be suspended for the duration of the war."

Since the topic of the contest is of vital importance to students of liberal arts colleges such as Harvard, Wellesley, and Radcliffe, the Radcliffe students have expressed a lively interest in the debate. According to John W. Colton, '45, associate manager of the Debating Society, "The Society would like to have on hand to witness the debate as large a contingent of Technology students as possible — for protection."

On October 29, a debate will be held with Middlebury on the subject: "Resolved, that Congress should regulate by law the use of patents in order to eliminate patent cartels." George M. Musgrave, '43, and John L. Hummer, '43, will represent Technology and present the negative case in this debate, which will take place in Walker Memorial.

According to its annual custom, the Debating Society has scheduled a number of fall trips, to be held in the period from November 11 to November 15. The colleges that the Technology team will visit are, Bowdoin, University of Maine, Colby, Bates, Dartmouth, Mt. Holyoke, Massachusetts State, Amherst, Clark, and Williams.

At all these colleges the debate will be on the subject: "Resolved, that the United Nations should establish a permanent federal union with power to tax and regulate international commerce, to maintain a police force, to settle international disputes, and to enforce such settlements, and to provide for the admission of other nations which accept the principles of the union."

Tectonians To Rehearse For Third Time Tomorrow

The Tectonians, Technology dance orchestra, will have their third rehearsal of the year at 2:00 P.M. tomorrow in the Litchfield Lounge of Walker Memorial.

B. Franklin Wilbour, Jr., '43, stated last night that the orchestra was in need of a bass player and a guitar man. All those interested should report Saturday afternoon.

"This year the orchestra started with a bang," said Wilbour, "and it promises to be one of the foremost of the Musical Club's activities by the end of this year. The orchestra played exceptionally well last week and intends to perform publicly on November 4."

Engineer Society Elects Its Officers For Year

The Technology chapter of the Society of American Military Engineers met last Friday in Room 1-390 with about 75 members present.

The following officers were elected: President, Frederick K. Mulhaupt, '43; Vice-President, William B. Moore, '44; Secretary-Treasurer, Peter G. Wiesenthal, '43; Executive Committee, Leonard W. Katz, '43, and John G. Floden, '44. The committee is making plans for an early meeting, the speaker for which will be announced in about two weeks.

Phos To Feature Freshman Class In First Issue

The long awaited Freshman Issue of the campus humor magazine, Voo Doo, is scheduled to be on sale next Thursday, according to Robert A. Metzger, '43, general manager of the publication.

When questioned, Metzger answered in a voice which was barely audible above the din of his subordinates, noisily at work on Publication Plans, "We've been promising for a long time now that Voo Doo would be changed for the better. It's changed! There are a lot of new features both in make-up and in body," he said.

Among the features of the Freshman Issue are to be the "Side View," an intimate glimpse of Murgatroyd's recent activities, and Voo Doo's parody on the motion picture "The Moon and Sixpence."

The Tech Elects Staff Assistants

Promotions Include Thirteen Sophomores

Thirteen Sophomores were elected to the position of staff assistants on The Tech at the last meeting of the Associate Board. The promotion to staff assistants comes as a result of their continued work on the paper after having served on the freshman staff last year. The group is comprised of five from the news room: Bruce H. Fabens, Milton A. Widelitz, Donley J. Parr, Jr., Jack H. Frailey, and Charles H. Burns; two from the photographic department, Frank S. Pohanka, Jr., and John C. Conroy; six from the business department: Leslie M. Brindis, Warren J. Grosjean, Irwin M. Jennis, Arnold M. Singer, John P. Whittemore, and Charles W. Ziebarth.

Freshmen who have worked steadily for the paper as candidates are elected to the freshman staff during the second term of their first year and are promoted to staff assistants early in their Sophomore year if the work is satisfactory. Before the end of the second term of the second year, the most eligible men are elected to Associate Board positions.

Engineer Corps Will Maneuver

Franklin Park Scene Of Trial Demolition

Two sections from the first year advanced course in military engineering will hold field practice in musketry, scouting, patrolling, security, and demolition tomorrow and Sunday at Franklin Park. Beginning at 8:00 o'clock tomorrow one unit will plan the demolition of a stone bridge and the protection of the group from gas, bombing, fifth columnists, and approaching enemy troops, who might try to thwart an attempt to destroy the bridge.

In the afternoon a platoon using scouts and patrols is to advance on Scarborough Hill, where it will establish an outpost and prepare for a bivouac that night. According to schedule there is to be a discussion and criticism of the day's movements and tactics at 3:30 P.M.

Six Sophomores Get Walker Posts

Results of Committee Contest Announced

The results of the Sophomore Walker Memorial Committee competition were announced yesterday by Robert W. Maxwell, '43, chairman of the committee. Six men of the last ten were selected. The main basis for the selection were the themes which the contestants submitted to Maxwell on Monday. After the themes were submitted each contestant had an interview with the committee, and then picked the six best suited men.

The men selected for the positions are Thomas L. Bell, King Cayce, Wilson N. Gilliat, David G. Kobick, John N. Moore, Jr., and Frederick C. Schierbaum. In addition to Maxwell and these men the other members of the committee are three Juniors: Herbert F. Knappe, Wallace J. Manson, and Richard E. Whiffen.

A meeting of the entire group will be held today at 5 P.M. in the committee room. Plans for a weekend at the Tech cabin on Lake Massapoag will be discussed.

TECHNIQUE PICTURES SCHEDULE

Following is the schedule of technique pictures to be taken next week. It is imperative that the groups scheduled be present at the designated time as these dates are the deadlines. Any group which is supposed to have its picture in the 1943 "Technique" and has not as yet been scheduled, please inform William Scott, Organization Editor — Phone Com. 6977.

Monday, October 26
