

## SHEP FIELDS IS 2ND PROM BAND

### Inst. Comm. Offers Blood Donation Plan

#### Donors May Volunteer In Building 10 Lobby Throughout This Week

The Institute Committee announced today the formation of a blood donor committee for the purpose of increasing the number of Technology student volunteers in a meeting held last week. The committee decided to make the week of November 9-14 Technology week at the Boston Red Cross center.

Tuesday, November 10, from 1:30-3:45 P.M. has been set for the blood donation period for all Dormitory Committee members and dormitory residents. All members of the Interfraternity Conference and fraternity residents, including pledges, will be accommodated on Wednesday, November 11, from 9 A.M. to 3:45 P.M.

From 9:00 A.M. to 3:45 P.M. on Thursday, November 12, which has been proclaimed Activity Day by the Institute Committee, members of publications and all activities represented on the Institute Committee will be included. Other athletes and those not included in previous classifications will donate from 4:15-8:15 P.M. on Saturday, November 14.

Members of Alpha Phi Omega, honorary scouting fraternity, will serve at the sign-up desk in the main lobby of Building 10, this week. Students may make applications from 11 A.M. to 2 P.M. today and all day Wednesday, Thursday, and Friday. Applicants are requested to specify the activity that they want represented and the residential group that they are included in.

### Frosh Hear Talks On Reserve Corps

#### Dec. 1st Is Deadline For All Applications

December 1st is the deadline for all applications in the Enlisted Reserve Corps according to Professor John D. Mitsch, faculty advisor for the E.R.C. at the Institute. Professor Mitsch, who conducted the meetings, held last Tuesday and Thursday in Huntington Hall, urged all students who were interested in joining the E.R.C. to see him in Room 1-381 for the necessary blanks which must be filled out for the medical examination, which is required by all three branches of the service.

It was emphasized, that at any time prior to his taking the oath of enlistment a student may change his mind and annul the temporary enlistments he has made.

Professor Mitsch also announced that if the freshman sections wished to discuss separately with him the Enlisted Reserve Corps and how it applies to each section's course, they should have their representative contact him and make an appointment.

The talks by Colonel Edward W. Putney of the Army, Captain Joyce of the Navy, and Captain Bradford Perin representing the Marines, explained briefly the engineering work done by the different branches of the service. Afterwards there was an informal discussion in which the speakers answered questions concerning the reserve programs.

### Gridiron Subscriptions May Be Obtained Thurs.

All students who have not received their Gridiron subscription cards may call at the Gridiron booth in the Lobby of building 10 from 12:00 noon to 2:00 P.M. on Thursday and Friday, November 5 and 6.

Any persons wishing to purchase subscription cards may do so at this time. These subscriptions include all copies of The Tech, T.E.N., and Voo Doo, may be obtained for four dollars.

### T.C.A. Campaign Begins In Dorms And Fraternities

#### Goal Set At \$3,740; Free Lancers Begin Solicitations Today

Last evening members of the Dormitory Committee and a number of students making the rounds of fraternities opened this year's T.C.A. drive, by collecting a large portion of the goal of \$3,740, almost \$400 less than last year's goal.

Total contributions late last night were: from the commuters \$40.25 or \$2.25 per man with 2 1/2% contributing so far; from the dormitories \$456.75 or \$2.30 per man with 26% contributing; and from the fraternities \$535.40 or \$3.03 per man with 36% contributing.

In the last issue of The Tech an editorial was printed which decried the attitude of publicizing the relative collections from each fraternity house, each dormitory, and the number of dollars collected per man. The T.C.A., accepting this editorial as the general opinion of the students at Technology, has announced that no such publicity will be posted during the 1942 drive. The only contributions to be posted will be those collected from the dormitories as a group, from the fraternities as a group, and from the commuters.

Dean C. Picton, '44, chairman of the drive, has announced that beginning tomorrow and continuing through Saturday, a number of free lancers will be going around the Institute and approaching every student that is not wearing a drive button to ask for contributions. Letters have also been sent to 931 members of the faculty and corporation asking for contributions from them. This has usually

(Continued on Page 2)

### Voo Doo Fright Delays Contest

#### But The Tech Board Eagerly Awaits Race

The Tech managing board remains supreme in the field of obstacle racing as the Voo Doo contestants, ill at the prospects of having to meet the Tech stalwarts last Saturday afternoon, welshed at the competition and begged that the race be called off indefinitely. John F. Tyrrell, '43, echoing the sentiments of his husky cohorts, Harry Ottinger, Jr., '43, and Robert P. Richmond, '43, refused to allow such cowardly welshing, and so a compromise was reached by setting the time at 5:00 P.M. Thursday afternoon.

The lineup remains unchanged: Swanberg for Voo Doo, towering a full seven inches over Richmond; Metzger for Voo Doo, towering eight inches over Tyrrell; and Spitz towering ten inches over Ottinger. Thus, Voo Doo with its advantage in height and weight has almost an even chance of competing against the vast handicap imposed by the perfect condition and super-intelligence of The Tech representatives.

### Solons Approve Frosh Elections And Bridge Club

At its meeting last Thursday afternoon, the Institute Committee approved the election of the section leaders of the freshman class, but refrained from approving the Institute Committee representatives of that class until the next meeting. This last move was made on the grounds that as the council had not been accepted when the representatives were elected, their approval would have to wait.

The solons also granted Class B recognition to the M.I.T. Bridge Club, which was recently formed by several students.

The principal discussion of the day was concerned with holding class elections. The motion originally read that the elections should be held on December 9, but after lengthy discussion, and several amendments had been proposed, all of which were later withdrawn, the motion was tabled for further investigation by the Elections committee.

The next meeting of the Institute Committee will be held in Litchfield Lounge at 5:00 P.M. on Thursday, Nov. 12.

### "You Can't Take It With You" Will Be Staged By Dramashop

After successful presentations last year, Dramashop is now engaged in preparing a new production—the George S. Kaufman and Moss Hart Broadway hit: "You Can't Take It With You." The play is to be presented on the stage of the Peabody Playhouse in Boston, on Friday and Saturday, November 13 and 14, and "if the interest shown by the cast and management are a measure of the final result, it promises to be one of Dramashop's greatest successes," said Jorge Ross, '43, publicity director of the group.

Under the supervision of Professor Dean M. Fuller, who is assisted by L. Gerald Firth, '43, the rehearsals have rapidly gotten under way and large turnouts have made it possible to cast the play effectively.

The freshman class has provided

Dramashop with the play's star, George F. Coons, who portrays the character of Martin Vanderhof. He is assisted by Jasper D. Ward, '45, and Harold L. Miller, '44, both of whom appeared in Dramashop's last performance. Seven Institute co-eds have been cast in feminine roles: Frieda Omansky, '46; Mildred Edwardson, '46; Marion Ferris, '45; and Mary Guinan, '44, all of whom have been seen in previous productions, and three newcomers, Joan Rothwell, Vassar graduate, '42, Eleanor Edwardson, '47, and Leonore Brooks, '45.

The production is in the hands of Robert L. Mitchell, '43, assisted by Business Manager Gunther H. Baldauf, '44, and Stage Manager Alan Milman, '43, all of whom have seen several Dramashop plays through to a successful finish.

### Prom Committee Chooses Rippling Rhythmeer For Saturday Night Dance

#### Junior Prom Option Sale Now Open For All Students

The Junior Promenade Committee has announced that the sale of tickets and options for the Prom week-end is to take place daily from 12:00 Noon until 2:00 P.M. in the Lobby of Building 10. The price of the option is \$4.40, and that of the ticket is \$8.80.

### Annual Field Day Dance Held Last Friday In Walker

#### Committee Announced Sellout Before Affair; Ticket Holders Speculate

300 couples danced to the music of Sam Donahue and his orchestra, and listened to the songs of Donna Mason, vocalist, at the annual Field Day Dance last Friday night, in Morss Hall of Walker Memorial.

Under the direction of Gregory G. Gagarin, '43, chairman of the dance committee, an elaborate set of decorations was put up for the affair. Streamers hanging from the center chandelier and extending the length of the hall were fastened along the walls. The orchestra, to keep in line with the other decorations, was behind a light cloth netting excluding them from the dance floor.

(Continued on Page 4)

### Gridiron Banquet Held For Initiates

#### Killian Guest Speaker; Stresses War Duties

At the Gridiron banquet held at 6:00 P.M. last Wednesday in the Dutch Room of the Graduate House, 21 initiates were made members of the association. The program included an original play by the initiates and an address by James R. Killian, Jr., Executive Assistant to the President.

The play concerned the evolution of the Tech man from his entrance as a freshman until he has degraded to the rank of a Senior. Murgatroyd was mixed into the plot all throughout the play. After the sketch, an oath was taken by the new members in which they promised to abide by a code of ethics regarding the printed word.

In his speech, James R. Killian told the members about the duties and responsibilities of publications at the Institute, and revealed to them facts concerning the Institute's part in the War Effort.

### Nov. 6 Issue To Carry Fraternity Pledge List

It was stated in a previous issue of The Tech that the entire list of fraternity pledges would be published in today's issue.

However, because of the Enlisted Reserve chart published in this issue, it will not be possible to publish this information until Friday.

### Affair To Be Held In Walker Hall Will Be Informal

Shep Fields, "The Only Band of Its Kind In The World," the second orchestra to entertain at the Junior Promenade, will play for the informal dance to be held from 8:00 to 12:00 P.M., Saturday, November 21 in Morss Hall of Walker Memorial.

Fields has played outstanding engagements from coast to coast. Among his best-known locations have been the Waldorf-Astoria and New Yorker Hotels in New York City, the Cocoanut Grove in Los Angeles, the Steel Pier in Atlantic City and the Meadowbrook Country Club in St. Louis. He has been featured on the three major radio networks; NBC, CBS, and Mutual, on outstanding commercial programs. Fields' Band also starred in Paramount's "Big Broadcast" and other films.

#### Field's Styles Are Popular

He has twice gained favor with the public; first with his highly popular "Rippling Rhythm" and now with his "New Music." It is seldom that a leader can gain success with two entirely different

(Continued on Page 2)

### S. F. Committee Meets Tomorrow

#### Summer Session Is Subject Of Discussion

It was announced today that the Student Faculty Committee will meet at 5:00 P.M. tomorrow in Room 10-200 to discuss details of the next summer session.

Student members of the Committee are John E. Gardner, Jr., '43; Robert S. Reebie, '43; George C. Marakas, '43; Warren E. Foster, '43; Dean C. Picton, '44; George A. Schutte, '44; Malcolm G. Kispert, '44; Frank E. Kennett, '46; and James L. Phillips, '45.

Anyone with ideas relative to the subject of the meeting is requested to see any of the Committee members or to attend the meeting. However, it is primarily recommended that suggestions be made by Seniors who have attended a previous summer session.

### British Cartoons Now On Display

Students were reminded today by Mr. Arthur C. Watson, chairman of the Technology Museum Committee, that a set of British War Cartoons is now on display in the Lobby of Building 10. The pictures have recently been shown at the Boston Book Fair and have been secured through the courtesy of the British Information Service.

The cartoons are all original sketches, drawn by a group of prominent English artists. Some are only partly finished, thereby showing how the cartoons are developed by the artists. They have as their subject all phases of the present conflict, from air raid wardens to caricatures of the dictators.

The collection will be on display for several days, Mr. Watson stated.

## The Reader Speaks

Dear Sir:

On behalf of the T.C.A. and its annual drive, I would like to take this opportunity to answer the recent editorial criticisms appearing in the October 22 issue of The Tech.

As concerns the Advisory Board Drive (a solicitation of parents, faculty, and alumni to raise money for the salaries of the T.C.A. permanent staff and secretaries), the first letter sent to parents always definitely states that the students have been approached in another Drive. Copies of these letters may be inspected in the T.C.A. office.

Secondly, any student desiring to know how his "earmarked" money was spent need but inspect our annually audited books. It is a simple matter to allocate this money, because only a small percentage of the donors designate the department to which their money is to go.

The third point concerns the "Christian" methods of the drive. It is an established fact, proven in years past, that regardless of the claim of the student, "I'd feel better about giving if I didn't feel forced to do so by the posting of percentages", the same student when he finds no percentages posted does feel better, but does not give.

Nevertheless, this year the Executive Committee of the T.C.A. has decided to again try to have a successful drive on purely Christian efforts. The Association must have money to carry on its services! Of all the activities with any sizeable outlay, the T.C.A. is the only one which does not finance itself through either advertising, direct payment for its services, or grants by the Institute Committee. (The advertising in the Blotter and the Handbook supply but a fraction of the budget.) Therefore, we must ask the students to donate. In an effort to use no so-called "high pressure" methods, the solicitors were not asked to give at the drive dinner, a move which in the past has netted the greatest donations per man secured during the drive. Because of this, and the method of posting results, the job of making the budget this year will be particularly difficult.

We are prepared for such a job, and would like to ask that each student think of his donation, not only in terms of what he can personally get out of the T.C.A., but more in the spirit of the service the T.C.A. renders to all; the service it renders to under-privileged boys of Boston and Cambridge by helping send 100 of them to two weeks of camp in the summer, the rooming service so important to so many this year, and the many services rendered to the freshman class in getting them oriented. These are just a few of the services of the T.C.A.—most everyone knows of the rest. To carry them out, the Association must have money, and with the organization this year, the job will be a difficult one—we here ask for the cooperation of the student body. It is they who make our services possible. It will be they who will take us "To the Top".

Sincerely,  
**DEAN C. PICTON**  
Drive Chairman

## Christian Science Lecture Will Be Held This Evening

The Technology Christian Science Organization will sponsor a lecture at 8:00 P.M. this evening in Tyler Lounge.

Gavin W. Allan, C.S.B., a member of the Board of Lectureship of The Mother Church, The First Church of Christ Scientist in Boston, is to deliver the talk. His topic will be "Christian Science: the Revelation of the Kingdom of Heaven."

## "RIPPLING RHYTHMEER"

Shep Fields

## Junior Prom Committee Signs Shep Fields For Saturday Dance

(Continued from Page 1)

styles, but two times in Fields' meteoric career he has brought something so different to the public that it has created a demand for the dapper maestro and his original styles.

Fields' interest in music really began on his fourteenth birthday when his father presented him with a shiny new saxophone. He gained little recognition then, however. In fact, neither the director of the high school orchestra nor the leader of the military band were convinced that he had any musical talent. Determined to play, though, he organized his own eight-piece jazz band and worked hard for recognition.

He soon discovered that merely good music was not enough to capture the public fancy. The first

novelty introduced by Shep was "Rippling Rhythm," which quickly raised him to fame.

### Improvement by Experimentation

With the resulting prosperity, Fields could afford to experiment with new improvements in musical styles, so he organized his present type of orchestra. Instrumentation includes nine saxophones and four rhythm pieces, with no trumpets or trombones. The result is a versatile arrangement adaptable to many combinations and the extremes of sweet and swing.

Reviewers' opinions are summed up by Variety: "It's a complete stylistic metamorphosis—the beginning of a new and musically exciting dance band—with substantial expectations."

## T.C.A. Drive

(Continued from Page 1)

been done in the past during February, but Picton feels that a response from the faculty now will encourage the Undergraduates Association in its drive.

This year's itemized budget was announced as follows: book exchange, \$60; boy's work, \$250; church relations, \$100; commissions, \$200; conferences, \$200; contributions, \$220; employment bureau, \$300; foreign students, \$50; freshman advisors, \$200; under-privileged boys in camp, \$1,000; freshman cabinet, \$50; freshman camp, \$50; handbook, \$100; miscellaneous, \$60; information, \$120; meetings, \$100; office, \$300; room registry, \$20; speaker's bureau, \$20; Tech cabin, \$230; ticket service, \$110. The most substantial reduction in the budget was that of the Tech cabin. Last year the T.C.A. spent \$667 on the cabin, a large part going towards payment of the mortgage. Now the association owns the cabin free and clear.

The drive is being publicized by posters all over the Institute, but two specialty exhibits will be on display. Today a photo-electric cell operated sign is to be placed in the lobby of Building 10, and tomorrow a stroboscopic display will be found in Building 2.

Simultaneously with the T.C.A. Drive, the American Red Cross and World Student Service Fund dona-

## Radio Society To Meet Here Tonight

There will be a meeting of the M.I.T. Radio Society at 7:00 P.M. today in Room 6-120. The meeting is to be held to organize the operator personnel for the Technology Air Raid Precaution Station, which is now operating on a 2.5 meter emergency communication network.

Society President Phillip E. Fox, graduate student, is issuing a call for operators, who are needed now. The club has a transmitter and is now completing its power supply and antenna so that operation in the network should begin shortly.

"This is a very important National Defense work and everyone interested in radio is strongly urged to take part in it. It is not necessary to have an amateur radio license to participate, but it is very important that all amateurs do take part," said Fox.

All those interested who can come to the meeting are urged to get in touch with Fox at the Graduate House and sign the necessary applications.

Applications are to be collected by the des. The W.S.S.F. is a non-sectarian, non-political organization dedicated to help student prisoners of war of all nationalities. The goal set for the W.S.S.F. is \$1,000.

## LET THE BLOOD FLOW FREELY

Members of Technology's student body and faculty will receive at first hand tomorrow the opportunity to contribute to the United States' war effort in a practical and direct way. Representatives of the Institute's blood campaign committee will be on hand in the Main Lobby of Building Ten to register Technology men for blood donations to be given during Technology Week at the Red Cross blood station on Boylston Street, Boston. Arrangements have been made to accommodate members of different activities and residential groups on different dates so that confusion may be averted and the response of each group may be compared with the others.

The United States government has issued an urgent request for 3,000,000 pints of human blood from the arteries of voluntary donors throughout the nation for use in transfusions to soldiers, sailors, and civilians injured in battle and enemy raids. Modern science has made it possible for blood to be removed from one individual, treated so that the plasma is preserved, and successfully injected into the veins of another person years later. Consequently, life-saving transfusions may be administered upon the field of battle, in bomb-ridden buildings, or on burning boat decks.

Thus far, in spite of the urgency and worthiness of the campaign, Technology's contributions have been spasmodic, unorganized, and few in number. The Technology student evidently needs a reminder that his blood donation, although harming him in no way whatsoever, may save the life of one of his fighting countrymen. This is the purpose of the present local campaign; it requires and deserves the support of the entire Institute personnel.

## SCAREDY-CATS

If and when a group of individuals accept a challenge under the name of an organization, they thereby take upon themselves a responsibility to fulfill that task to the best of their ability or alternately to bring disgrace upon their organization. However, when there exists an organization already brought to this deplorable condition whose members are in the same state, then bar the door.

Thus, as was expected, three forlorn, ragged creatures crawled humbly to the foot of the seven-foot wall of the Military Science Department's obstacle course to ask for a postponement of a scheduled event with THE TECH last Saturday afternoon at 2:00 P.M. Reclining languorously on the top of this inconsequential hazard, the representatives from THE TECH showed only the profoundest of sympathy for these victims of dissipation. Consequently a reprieve was granted and the event postponed until next Thursday afternoon at 5:00 P.M.

However, it must be emphasized, this second match will serve only the original purpose of demonstrating the relative athletic prowess of the two managing boards and will in no measure alleviate the blot on VooDoo's record brought about by this inability to show, so to speak.

Also in the however class is the fact that THE TECH is willing to let bygones be bygones in the future and meet its opponents fairly, and, equal in ambition and enthusiasm, although bursting with confidence, will proceed over the six hazards comprising the obstacle course to determine the true obstacle race champions.

# Harvard Wins Trophy Schell Regatta; Tech Ties For Second

## Sailors Holy Cross Second Place

Annual regatta for the Erwin trophy held last Sunday, auspices of the Nautical Club of M.I.T., was won by Holy Cross for second. The regatta sailed from the Tech to the Charles River Basin, took the trophy with a points and was followed by the Technology and Holy Cross who tied for second. Dartmouth came in with a total of 68 points.

## Very Close Race

"The race was very close with competition," said Ken Commodore of the association. There was only eleven points difference between the first and second.

Because of the rain during the race was held during the day. The regatta, open to all regular members of the club and to colleges receiving recommendations from M.I.T., was under the rules of the Nautical Y.R.U.

Sixteen colleges entered and sailed in M.I.T.'s 12 dinghies. The regular regatta courses were which in general are short.

Boats from each college contestant entered two persons each and all conducted under the plan. The officials for the regatta (Continued on Page 4)

## A.A. Revises Constitution

### Members Suspended

Regular meeting of the association Tuesday, the Executive Committee's proposed revisions of the A.A. constitution were discussed. The majority of the amendments automatic due to war change in relationship between M.I.T.A.A. Treasury and the Institute Budget.

However, two very important changes. The first, one which all A.A. members, was to Article 2. This addition that any member present, without authorization of the Executive Committee, two regular meetings of the association shall be auto-suspended from membership by reinstatement to membership with a two-third vote present. This means suspensions with or without notice not be allowed without the second important change being every man in the association has won his numerals in Article 6 of the constitution states that numerals are only upon the front of shirts or other sports apparatus violation of the rules will be considered withdrawal of the awarding committee.

## Frosh Field Day Teams Must Sign for Sport

Members of the freshman class who reported for Field Day sports in place of regular Physical Training are required to contact athletic-supervisor Mr. Henry P. McCarthy by the end of the week.

A list of freshmen who are no longer connected with an active sport is now in formation at Mr. McCarthy's office in Walker Memorial. It includes all members of freshman teams who used their sport as a substitute for regulation Physical Training. The deadline is Friday noon; the place is Walker's top-floor athletic headquarters.

## Sig Chi, S. A. E. Win In Football

### Sunday's Game Decides Third Tourney Team

Delta Upsilon and Sigma Alpha Mu were eliminated from the Beaver Key tournament by Sigma Chi and S.A.E. Sigma Chi overcame the D.U.'s 21-6 and S.A.E. hustled Sigma Alpha Mu out the back door to the tune of 43-0. The winner of the Phi Gamma Delta-Sigma Nu game will play Theta Chi on Sunday.  
(Continued on Page 4)

## Freshman Basketball Is To Start Today

Freshman basketball practice will start today, Tuesday, November 3, at 4:00 P.M. in the Walker Gym. All candidates for the regular freshman basketball team should report to the gymnasium on the third floor of Walker Memorial at that time, according to H. P. McCarthy, director of athletics and basketball coach.

## Phosphorous Is Granted Only Two Days To Live

The hour of slaughter has been postponed and the phosphoric felines have two more days of glorious life. Trembling with fear the Woodcoers slunk away when the great Tech triumvirate challenged them to the obstacle race at 2:30 last Saturday.

Phos escape is short lived, however, for the race has been rescheduled for Thursday at 5:00 P.M. At that time the faltering weaklings of Voo Doo will be dashed to pieces on obstacle course, while attempting to follow the lightning agility of the Tech men.

## Harriers Run Second To Green At Frank. Park

### Harold Knapp Beaten Only By Don Burnham Dartmouth's Ace Miler

Although losing to a powerful Dartmouth cross-country contingent 19-39, the harriers can be proud of the time turned in by Harold Knapp, 22:51.6, the fastest time any Tech man has done over the Franklin Park course in several years.

Knapp was beaten only by the Green ace half miler, Donald Burnham. Starting out with Burnham from the start, Knapp stayed doggedly with him until in the end Burnham won by only 100 yards in the very fast time of 22:36.6.

But the Dartmouth squad was too powerful, however, and took the next four places to win the race. Ken Joseph in seventh place, followed by Jevon, Miller, Ziegler, and Cummings brought the Tech score up to 39.

## Swimming Team Practice Will Start Immediately

Swimming team practice will begin immediately. All men interested should report to Coach Gordon Smith at the pool between 4:30 and 6:30 P.M. today or as soon as possible. The varsity picture will be taken tomorrow at 5:00 P.M. at the pool.

## FIELD DAY SUMMARY

### I Basketball Game

Score: Sophomores 25, freshmen 23. Points—3.

### II Swimming Meet

Score: Sophomores 14, freshmen 4. Points—3.

### III Tug-of-War

Score: freshmen 2, Sophomores 1. Points—3.

### IV Football Game

Score: Sophomores 0, freshmen 0. Points—4 (Sophomores 2, freshmen 2).

### V Relay Race

Won by Sophomores. Points—3.

### VI Glove Fight

Won by freshmen. Points—3.

Final Score: Sophomores 11, freshmen 8.

The individual times of Sophomore relay team are as follows:

1. A. Bryant	24.2
2. A. Singer	24.6
3. A. Ehrat	25.4
4. H. Boreham	25.0
5. J. Kelly	25.0
6. E. Ashley	24.8
7. T. Randolph	24.0
8. M. Ober, Jr.	25.0
9. L. McKee	24.0
10. E. DeGuzzie	24.6
11. G. Bent	23.8

## Soccer Team To Play At Harvard Tomorrow

### Frosh Field Day Men Wanted For Frosh Crew

Bob Moch, chief crew mentor, wants to see all freshman who were out for a Field Day sport and who are now not signed up for another sport down at the boathouse this afternoon at 5:00 P.M. More freshmen are needed on the crew in order to form the best possible freshman crew to participate in next spring's races. Men should report now in order to get in condition for the spring season.

## Senior B Heads Dorm Football

### Senior A And Walcott Follow With One Loss

The half-way mark in dormitory football found Senior B heading the standings with a clean slate of no defeats, followed closely by Walcott and Senior A. Both of the latter have suffered one set-back in the current gridiron race.

Goodale bowed to Munroe, 13-7, in the week's opener, and repeated the performance against Walcott in a tight, 7-6 game. Senior C, the big disappointment of the campaign, was again forced to forfeit to its opponent. As a result of this "easy victory," Hayden moved up the football ladder one more notch. "The remainder of the scheduled games were rained out and will be played at a later date," announced Dorm football head, Greg Azarian.

### Senior C in Basement

Thus far, the tragic Senior C squad has played but a single game, losing it at that. The team remains in undisputed control of the pigskin basement department and shows promise of fighting off any last ditch rush by other losing combinations.

The official end of the season has been set at November 22, with a Round-Robin tussle between the two  
(Continued on Page 4)

## Lack Of Spirit, Little Practice Weakens Team

A badly handicapped Tech soccer team meets Harvard, Wednesday at 3:30 at Harvard. According to Coach John Craig, Tech has a team which could have been a winning team if the members had come out and practiced diligently.

Undoubtedly the poor facilities for soccer have discouraged the members from coming out in numbers. Soccer has suffered greatly this year, from the war. Having been deprived of the Brigg's Field House, the team must dress at the Barbour Field House and then walk the long distance to Brigg's Field.

### Practice Shortened

This coupled with the fact that practice must cease at six o'clock makes the practice hours short. In past years practice has continued after dark with the aid of field lights. Dimout regulations, however, prevent this procedure now.

In addition, the team, unlike all of the opposing teams, has been unable to use freshman players. This is unfortunate, for Coach Craig reveals that there are two or three very good freshman players.

Warren Carpenter, '44, enthusiastic and capable soccer captain, is disappointed in the poor spirit shown by his team mates, which has been a big factor in the team's poor showing so far this year.

### Team Has Good Men

The team has good material, being built around a nucleus of last year's lettermen. With better facilities and more team spirit, they should make a better showing.

The remaining schedule follows:  
Wednesday, November 4

Harvard at Harvard

Saturday, November 14

Springfield at M.I.T.

Saturday, November 21

Tufts at M.I.T.

Saturday, November 28

Dartmouth at M.I.T.

**"Facts about wartime"**

"I never saw a fighting man who didn't cherish the very thought of a pause with Coca-Cola. That goes for workers in factories, too. Ice-cold Coke is something more than the drink that answers thirst. It adds the feel of refreshment."

"In war, Uncle Sam restricts the supply. But there's still enough for many refreshing pauses."

Sunday Tea Is Held In Dorms

Faculty And Students Meet In Burton Room

At a tea from 2:00 to 6:00 last Sunday afternoon the dormitory dwellers and their dates got a chance to meet and chat with some of their faculty members in the Burton Room. This affair was a sort of finis to the festivities centered around Field Day. Refreshments were served in the form of tea, sandwiches, cookies, and sherbet punch and in such quantities that, needless to say, many of the students present were able to forego their usual light Sunday supper.

It was apparent from outward appearances that the learned professors were in the centers of the clusters of eaters here and there, but more often upon inspection it was found out that some of the few girls present were carrying on too lively a conversation for the faculty members.

Field Day Dance

(Continued from Page 1)

Tickets, at \$2.50 per couple, were sold out almost one week in advance of the dance. "I have never seen tickets go so fast" said Gagarin in an interview with The Tech. "In fact some boys were reselling their tickets for seven dollars three days after our sellout."

The lounge bar and Pritchett Hall were open to serve refreshments exclusively to the dancers. For those who wished to show their rooms to their partners, the Dormitory Committee had arranged open house from 1:00 P.M. till 12:00 midnight.

T.C.A. Plans Work Camp For Westwood, Saturday

A work camp will be held on November 7 and 8 at the camp in Westwood owned by the Jeffries Point Boys' Club. Students from most of the Greater Boston colleges will be present as well as Technology men.

The first group will leave for the camp at 9:00 A.M. on Saturday, and will be followed at 2:00 P.M. by the second group. The work will consist of cutting wood, putting sidings on the cabin, and clearing new paths.

The cost of food (four meals) and transportation will come to a total of \$2.60. All interested should get in touch with Gilbert K. Krulee, '45, in the T.C.A. office. "A barn dance is planned for Saturday evening", said Krulee.

House Men Wanted In Bridge Tourney

Several fraternity men were entered in the Bridge Club tournaments held on Saturday and Sunday, October 31 and November 1. Robert M. Ifeld, '45, chairman, has expressed a hope that in the future even more will enter, as to date the tournaments have been about ninety per cent dorm men and commuters.

The tournament on Saturday was won by Pack E. Sonnenblick, '45, Pi Lambda Phi, and Robert H. Mazur, '45, Dormitories; second were Lee C. Eagleton, '44, and John W. Colton, '45, both dorm men. Sunday's tournament was won by William L. Rockholz, '45, and Pedro Cabral, second being taken by Edward E. Emerson, '45, and Ray White, '45.

Chemical Society To Hear Professor Harris Tonight

A lecture by Professor Robert S. Harris of the biology department will be the main feature of the Chemical Society meeting to be held at 8:00 P.M. tonight in Room 2-390. The meeting will be followed by a social get-together, at which refreshments will be served, in the Burton Room.

The meeting is open to all members, and all non-members are urged to attend and join the Society at that time.

Dorm Football

(Continued from Page 3)

top teams to climax the last week. The victor in this final meeting will reign as campus gridiron king for the year. The three top teams have yet to play against each other and the next few games may well decide the football issue.

CALENDAR

TUESDAY, NOVEMBER 3

- 5:00 P.M. Student Faculty Committee—Room 10-200
5:00 P.M. Varsity Rifle Team Picture—Rifle Range.

THURSDAY, NOVEMBER 5

- 12:00 Noon Gridiron Subscriptions—Lobby.

B. K. Football

(Continued from Page 3)

day to determine the third team in the fraternity bracket in the round-robin tournament. Two dormitory teams will also compete in the twenty game tournament.

James Woodburn, Beaver Key football chairman, hopes to play off the final round of the tournament on the Sunday of the Junior Prom weekend.

Schell Regatta

(Continued from Page 3)

the Regatta were appointed by the Inter-Collegiate Y.R.A.'s Committee. All decisions were final.

This makes the first start Tech has made in which the team has lost. Although the M.I.T. team had once before tied Harvard crews, they had beaten them for the Jack Wood Trophy. Both teams are now tied with one win apiece and a tie.
