PRICE FIVE CENTS

Annual Dance At Wellesley Features Hugo

Well-Tech Affair To Be Barn Dance For 200 Tech Men

Sign-ups for the Well-Tech Barn Dance, from 8:00 P.M. to 12:00 Mid-night Saturday, Nov. 28, are now going on at the T.C.A. office with about one hundred freshmen and Sophomores already on the list. There is room for one hundred more and those interested may sign up and pay their \$99 admission at the T.C.A. office any time during the day.

Baron Hugo has been signed to play for the dance and Mortimer Summers has been engaged as the caller for the night to lead the barn dancing. There will also be some sweet and swing mixed in to add variety and keep everybody happy. To keep with the barn yard mood informal clothes, the more informal the better, are urged.

"The dance has every indication of being a huge success," said Thomas B. Lacy, '46, President of the T.C.A. Freshman Cabinet, "All of the committees have been working hard and a very good orchestra in Baron Hugo has been obtained. Anyone who attends is assured a swell evening."

Alumnae Hall at Wellesley will be the scene of the dance, and for those unfamiliar with how to get to Wellesley the dance transportation committee suggests taking the Boston & Albany train from South Station or Trinity Place at 7:30 P.M. that gets into Wellesley at 8:11 P.M. Another way of getting there is by the Huntington Avenue bus or the Watertown street car to Newton and the Framingham bus from there. This costs about 30c. while the train fare is 33c. To return the T.C.A. has arranged to have busses at the Wellesley Quadrangle at 12:00 midnight to take those attending to the car line from where

Lucky Dancers Win War Bonds

Drawing Of Numbers Made At Intermission

During the intermission of a very enjoyable Junior Prom numbers were drawn to decide the winners of the ten War Bonds offered by Voo Doo and the Junior Prom Committee. The numbers were obtained through the purchase of copies of the special issue of Voo Doo which had the numbers printed on the first page.

The winners of the bonds were:

Jean Elaine Mahony, Richard J. McGary, Helen Hoffman, Suzanne Foster, Jean Kellogg, Martin B. Judge, John L. Enos, Jay M. Kogan, John T. Toland, James T. Harker.

After the drawing of the bonds the crowd again took to the floor. Les Brown, music-maker for the evening, held sway until 2:30 A.M. whence the crowd departed—destination or destinations unknown.

Professor Lewis to Speak At II—A Society Meeting

Professor Frank M. Lewis of the Naval Architecture Department will speak to the II-A Society at the regularly scheduled dinner meeting in the Dutch Room of the Graduate House at 6:00 p.m. tonight. His subject will be **Problems of the Marine Propeller**. After the talk Professor Lewis will give a demonstration of cavitation in the research tunnel.

The Tech and Voo Doo Cancel Football Game

Scheduled to be played last Saturday afternoon, the annual The Tech-Voo Doo football game was called off because of three factors. The first was the rain, which made the field unplayable. Secondly it was not possible for both teams to obtain all the necessary equipment, and last of all both staffs were suffering from acute cases of "Junior Promitis".

Because there are only a few weeks left before Christmas, and after Christmas the "cramming before examinations sessions" begin, it was mutually decided that the game be cancelled.

Military Society To Initiate 26

15 Mile Hike To End Week Of Initiation

Initiation Week for the Scabbard and Blade Society, Military Honorary Society, will start Monday, November 30. Initiates are required to wear the following regalia all the time: black tie, white shirt, blue denim trousers, and the red, white, and blue pledge ribbon. In addition they must carry rifles with them at all times.

The new members will be required to be present two hours each day that week for quizzes, drill, lectures, and inspections. After the banquet, which is to be held Friday night, the initiates will hike 15 miles with the full pack and rifle. The hike usually takes place from midnight till 8:00 A.M. After the men have returned from the hike, they will be formally initiated that morning.

Officers of the organization are: Captain, James A. Malloch, '43; First Lieutenant, Malcolm C. Walker, '43; Second Lieutenant, John W. McDonough, Jr., '43; and First Sergeant, William T. Van Ravenswaay, '44.

The Membership Committee is composed of Thomas K. Maples, '43, and Van Ravenswaay. Members of the Initiation Committee are: Fred G. Perry, Jr., '43; Richard B. Morrison, '43; and Steven Heller, '43. The society is initiating this year a total of five seniors and twenty-one juniors into their honorary organization.

Dr. Osborne Will Speak To A.I.E.E.

A dinner in honor of Dr. Harold S. Osborne, national president of the American Institute of Electrical Engineers, will be given at 6:00 P.M., on Tuesday, November 24, at the Northeastern University Commons by the A.I.E.E.

At 7:00 P.M., in Richards Hall, Room 200, Northeastern University, there will be a joint meeting of the A.I.E.E. with the Institute of Radio Engineers, at which Dr. Osborne will speak on the conservation of critical materials.

Rationing Greatly Increases War-time Problems of Walker

(Ed. Note: This is the final article of a series of three on the wartime difficulties of the Walker Memorial Dining Service. The other articles have appeared in the two previous issues.)

Rationing is fast becoming one of the major problems of the Walker Dining Service in their job of feeding the people of Technology. Not only is the Dining Service serving many more meals than at any time in the past, but it also has the problem of having its supply of certain foodstuffs cut.

Sugar was the first product to be rationed, which directly affected the Dining Service, although the

Hobby Shop Molds Exact Curvature Map Of Solomons

Within the next two weeks a small miniature of the Solomon Islands molded by Hobby Shop members will be unveiled for public inspection in the Main Lobby of Building 10. Representing approximately four weeks of effort on the part of a group of ardent hobbyists, the huge plaster of paris model incorporates the exact curvature of the earth, the geology of the island group, and presents a very timely aspect of the Pacific battleground.

Led by Milton E. Pugh, '43, shop foreman, a group consisting of Harold B. Nelson, '45, James L. Cooley, '45, Benjamin F. Pugh, '45, Walter A. Minderman, '46, Bradley Hahn, '46, and Isay Stempnitzky, '46, completed the very precise tasks of measurement and sculpturing without outside help. The model weighs 350 pounds and consists of a bird's-eye panorama of the entire Solomon's group, complete with mountain ranges and ocean stretches. The entire piece will be painted in the natural colors of the south sea area.

Much Care Taken In Construction

In calculating the exact curvature of the 960,000 square mile territory covered in the map, the hobby workers stretched a 20 foot-2.3 inch length of rope down the corridors of Building 2. Using this distance as the radius of the earth's surface, the amateur cartographers calculated the desired curve of their model. It would take a total of 104.8 similar models on

(Continued on Page 4)

"Vu" Will Appear Week Of Dec. 7

Last night the last few items of "Vu" went to the printers. The issue is expected to appear during the week of December 7, barring unforeseen delays. Miss Shirley Ridgway will appear on the cover. She was voted one of the most popular secretaries here at the Institute in the poll last year.

There is a large section in the issue devoted to the secretaries around the Institute. Shirley Ridgway, who is typical of the secretaries in the issue, is secretary to Prof. Ernest H. Huntress of the Organic Chemistry Department.

Stewart Rowe, Editor-in-Chief of the magazine, says that the two pages of Junior Prom pictures are tops. "There are lots of pictures with plenty of group views," says Rowe. Several pages are devoted to pictures of various fraternity parties and other informal groups. Many of the pictures were taken with Kodachron High Speed lights and they are packed with action.

The winner of the Vu advertising contest will be announced and the winning idea will also be published in this issue.

Dorm Comm. Announces Christmas Dance Date As Friday, December 11

No Issue of The Tech To Be Available Friday

As this Thursday is the day when most of us will be "talkin' turkey," and The Tech staff desires to be home enjoying the peace and solitude which comes to one after the consumption of a satisfying repast, there will be no issue of this publication on Friday.

Nevertheless, we hope to have most of our men back in harness by Monday evening. But whether or not they are, the next regular issue of The Tech will be available on Tuesday, December 1.

Applications Due For Reserve Corps By December 1st

All Students Under 21 Are Required to Have Approval of Parents

All applications for enlistment in the Enlisted Reserve Corps must be completed and handed in before December 1, Mr. Paul M. Chalmers, assistant advisor on the E.R.C., stated yesterday. In other words, the applications must be in the office, Room 1-288, by 5 o'clock November 30.

Mr. Chalmers also said that all students who are interested in applying should secure the necessary blanks at once. This has to be done now because all men under 21 must have their parents' consent, and it will take several days to mail the blanks home, get them signed, and have them returned. However, it was added that applicants could take their physical pending the return of the papers from home and

(Continued on Page 4)

Special War Stamp Drive On Today

Purchasers Will Wear Badges Containing Stamp

A special war stamp drive is being made today by the Cambridge Women's War Savings Committee in an effort to persuade everyone in the Institute to purchase war stamps. As a special inducement a stamp is being sold in a badge which is to be worn by the purchaser during the day. It can then be removed and put into a war savings stamp book and thus will become another step toward the purchase of a war bond.

Students are reminded that the Cambridge Women's War Savings Committee sells war stamps Monday through Saturday in the lobby of building 10. The motto for the drive is:

"Stamp Out Tyranny by Buying Stamps Today."

Tau Beta Pi to Meet Prospective Members

Tau Beta Pi, honorary engineering fraternity, will hold a smoker tonight at 7:00 P.M. in Pritchett Hall for all students eligible for election to it.

The purpose of the smoker is to let the old members become acquainted with prospective new members, from which 15 will be picked at a later date to be taken into the fraternity.

Tickets On Sale In Lobby; Many Already Reserved

At 9:00 P.M. on Friday night, December 11, Morss Hall of Walker Memorial will again hear the strains of music as the Christmas Dance gets under way.

The dance, sponsored by the Dormitory Dance Committee, is the second night which is a "must" for all Dormitory freshmen. That night has been designated by the Agenda, Sophomore honorary society, as one of the compulsory date nights for the freshmen, although they do not necessarily have to attend the dance. Every member of the Class of 1946 living in the dormitories must report with his date to the Burton room for a check-in by the Agenda.

Ken Reeves' twelve-piece orchestra will play for the dancers, and Joyce Dale, his vocalist, will sing. The tickets are on sale in the Lobby of Building 10 and may also be obtained from any one of the committee members. The committee, under Chairman C. Carl Schneider, '44, would like to announce that a large number of tickets have already been reserved, and as the dance has been limited to 300 couples, those who are interested should buy their tickets as soon as possible.

The following are the members of the Dance Committee: Edmund Colon, '44; John A. Cornell, '44;

(Continued on Page 4)

Debating Society Ties For First

Ties Dartmouth and Bates in Tournament

At the Dartmouth Debating Tournament, held November 20 and 21 and attended by thirteen New England colleges and universities, the M.I.T. Debating Society tied for first place with Dartmouth and Bates by winning six out of eight debates. George M. Musgrave, '43, was chosen one of the three best speakers at the tournament as a result of his winning 6.25 points out of a possible score of 7.00.

The eight debates in which each school participated were arranged so that each team had to support four different affirmative cases and four different negative cases. George M. Musgrave, '43, and John L. Hummer, '43, won all four of their debates. John W. Colton, '45, and Lee Hanower, '45, took part in four debates, winning two and losing two.

On November 22 an unsuccessful three-man team was sent to Norfolk Prison to uphold the negative

(Continued on Page 3)

Outing Club Plans Trip With Radcliffe

The Outing Club is planning a Thanksgiving week end trip to the Tech Cabin with twelve to fifteen girls. About fifteen Technology men will go on the trip. About ten of the group plan to bicycle all the way and the rest are going by train and bus.

The group will leave so that they will arrive at the cabin Saturday night. They will return Sunday afternoon. The planning of the menu and probably the cooking of the meals will be left to the Technology men. Activities planned for the week-end including hiking and square dancing.

THIS ONE MUST BE PERFECT

Dim out regulations are to be enforced in earnest beginning next Monday, November 30. This semi-cooperative business of blacking out when you feel like it, and not blacking out because nobody else does, is to die a sudden death. In his latest and most stern warning to us, General Sherman Miles, Commander of First Corps Area, has emphasized in no wishy-washy terms that the voluntary dim out imposed on the coastal areas has not been successful, and that from next week on, Air Raid Wardens, Civilian Defense Personnel, and police are to enforce the regulations strictly. The rule is simple: Draw your curtains at least three-quarters of the way from one half hour after sunset until dawn. All skylights must be completely blacked out.

Of all the great and little things we are asked to do as our part in the war effort, drawing our curtains seems to be the simplest and most painless. A little thought will indicate to all of us that the army does not wish to impose an additional burden on the populace, but is anxious to impress us with the fact that dimming out is a war-time necessity, essential to the safety of the seamen and the ships which day and night plow in and out of our coastal harbors, bringing food and oil and gas to us and taking supplies to our allies and to our armies overseas. This winter when we are especially short of oil up here in the Northeast many of our depleted tanker fleet have been assigned to the job of bringing oil from the Gulf to keep our homes warm. It is our duty to see to it that the lights of our windows do not endanger the lives of our sailors, the safety of our ships and of their precious cargo, by silhouetting them against the skyline and making them an easy prey for U-boats lurking off our coasts. Let us remember that it is a crime to let brave men die needlessly to bring us those creature comforts half the world is craving for: a little warmth in the home and a little gas in the car. Let's make this dimout 100%, and let's start tonight.

ANOTHER SUCCESSFUL PROM

The Class of 1944's Junior Prom week-end passed quietly and wearily away for most of its customers last Sunday evening, but, before the final curtain had been rung down and the final single event had been attended, the 1944's Junior Prom had gone a long way to establish the week-end as a necessary social affair in the Institute calendar, one which could command the support of the entire undergraduate body.

Heralded by a sell-out after two weeks of public campaigning, the Junior Prom retained the two-dance idea, the punch parties, and the Sunday tea of last year's edition. It added to the affair with two nationally famous dance bands and a lottery of war savings bonds.

The idea of a Junior Prom week-end may, however, fall by the wayside before the present world conflict is over in spite of the tremendous success gained by these first two three-day Proms. Already the Junior Prom has been designated as one of the two Institute-Committee-approved formal dances of the year. And complete abolition of all big dances may not be as far off as some of us think what with the government contemplating exerting its unlimited war-time control over American colleges. If the worst does come, we hope that the post war classes will refer to the Junior Proms of the Classes of 1943 and 1944 when they reorganize their social programs.

Rationing Adds to War Difficulties Of Dining Service

(Continued from Page 1)

Bridges, Director of the Dining Service, it has been possible to keep sugar bowls on the tables, by very careful planning in other uses of sugar.

Although it is only now beginning to affect the domestic users, coffee rationing has been in effect for Walker since October of this year. This rationing order limited each establishment to 65% of the coffee used during 1941. According to Mr. Bridges, however, the Dining Service hopes that it will find a way, possibly through the cooperation of its customers to make this supply sufficient.

Shortages of products not yet rationed, are other problems which the Dining Service has to face. Foremost among these at the present time is meat, of which Walker uses more than a ton a week. "Shortages of meat, and especially beef and pork products, have developed on the Boston market largely because of low ceiling prices which induce western sellers to send their products to other cities where a higher price can be obtained," said Mr. Bridges. This fact as well as the demand put on the market by the armed services has made the procurement of meat very difficult. As the army has certain days that it buys meat, there is practically no meat left on the Boston market for other consumers on these days, since the army gets first call, and first choice.

With meat rationing facing the rest of the civilian population, Mr. Bridges foresees that it will probably be necessary in the near future for the Walker Dining Service to adopt a plan of one meatless day a week in order to be in keeping with the remainder of the country.

Among the products which are not rationed, Walker needs a large supply of various foodstuffs. Two of the major items in this class are milk, and potatoes. All milk used by the Dining Service comes in individual half pint bottles. "We serve no bulk milk," said Mr. Bridges. About 3500 of these half pint bottles a day are used by the dining service. Supplied by the Whiting Company, the milk is grade A, irradiated, homogenized, Gurnsey, milk with a minimum butter-fat content of 4%.

Potatoes are used in Walker at the rate of 20 bags a day, or approximately 7 tons a week. Buying large quantities of food such as these, even though they are not rationed and there is a sufficient supply, constitutes a large part of the problem of feeding Technology at the present rate of 4,500 meals a day, with this figure increasing steadily.

The Reader Speaks

Editor
 The Tech
 Dear Sir:

For a good many years now there has existed a traditional rivalry between THE TECH and VOO DOO which has afforded the members of both staffs a considerable amount of amusement and entertainment. This rivalry has always been conducted good-naturedly and in the spirit of good-fellowship, and the amount of hard feeling which has arisen has been negligible. However, it seems to me that the letter signed by Robert J. Schaefer which appeared in your last issue has done much to hurt the spirit of this rivalry and to damage a worthwhile tradition.

I have worked on the staffs of both publications, often simultaneously, and accordingly I consider myself as impartial as anyone could be. As a result I feel justified in saying that Mr. Schaefer's letter appeared to me to be extremely offensive and in unusually bad taste. It is true that this last issue of VOO DOO did contain a few minor technical errors in make-up, and I feel certain that VOO DOO would be the last to deny these errors or to

Air Raid Center Maintains Twenty-Four Hour Vigilance

Editor's Note:

Names in the following story were withheld at the request of the head warden.

It is probable that few students at the Institute realize the difficulties that confront the organization which is responsible for the safety of the staff and student body at the Institute in the event of an air raid. The entire organization is voluntary and is headed by one head warden and five deputy wardens. Of these men, four live in Bexley Hall and one resides in the Graduate House, this arrangement providing a substantial group that will always be near at hand.

The whole system is based on a center which is in a well protected locale and is manned twenty-four hours daily including Sundays and holidays. Two persons are on duty here at all times and stand in readiness to set the entire system in motion at a moment's notice. There are six phones in the central office and they are on three different exchanges. Should all three exchanges be put out of order a messenger system will immediately come into effect and will maintain communication with the various other branches of the system.

Three Preliminary Warnings

At the first or yellow warning four additional persons man the center and set the system in motion. At the second, the blue warning, the entire Institute is blacked out from the main switch in the powerhouse, and the alarms sound all over the Institute property. In the Institute buildings proper, the alarm is a series of three-second rings on the class bells with three-second pauses between rings. At the same time the siren on the powerhouse sounds off with a series of rising and falling howls. Both of these warning systems continue for a period of two minutes.

On this warning everyone in the Institute buildings goes immediately to the shelters in the base-

ments. The shelter sections in the basements are clearly marked and were chosen as the safest place in the buildings for this purpose. The Graduate House is blacked out and its occupants proceed to the basement of Building 1. All men in the undergraduate dormitories will go to their respective basements and will stay there until the all-clear. Persons in Walker Memorial must get to the basements of Buildings 2 and 6 as Walker has been ruled unsafe as a shelter. In addition to members of the student body and staff, the Institute will shelter occupants of Bexley Hall and other persons who may be in the near vicinity.

Approximately seventy groups of wardens will check the buildings to see that doors are locked, that gas is turned off, that no one is in the rooms, etc. Anyone remaining in rooms or leaving on lights will be liable to arrest. Many of the staff members are auxiliary policemen and have the power to enforce this regulation. Watchers will be posted at every door to guide persons to the basement and at the same time to prevent persons from going upstairs.

Complete Readiness by Red Warning

The red warning signifies that danger is imminent, and by this time everyone should be in his respective position. Men detailed to evacuate the infirmary and to man the first aid station in the basement of Building 11 will have completed their jobs and will be prepared to take care of any persons that might be injured.

The all-clear will be denoted by a single two-minute continuous wail of the siren and jangle of the class bells.

The head warden praised the hundred per cent cooperation of some departments but stated that others were not doing anything to cooperate with the head wardens and the center.

For Boys To Play

By Gene Schnell

... with the Junior Prom still seeking vengeance on those individuals who took the weekend in all seriousness, we find the fun atmosphere still lingering over the Tech campus with the Sigma Chi and D.U. houses again entertaining this week. We are beginning to wonder whether the Dawn Dance last weekend inaugurated a new entertainment policy for these boys—it looks as if they would like to be weekly members of Course XXV, or are their Junior Prom Weekend guests still in town?

... starting off the parties this week and celebrating one of our great national holidays will be the Sigma Chi Thanksgiving Eve Party. This time it's a Praise the Lord and Pass the "Ammunition" party, to

excuse them, although, as a matter of fact, I know that there are definite and legitimate reasons for several of the mistakes which Mr. Schaefer found so glaring. That Mr. Schaefer's opinion is not shared by the student body is indicated by the fact that the sales of this last issue of VOO DOO broke all previous records.

This letter of resentment is not directed against THE TECH, which appeared to show laudable restraint on this occasion, but rather against Mr. Schaefer who has rather definitely overstepped the line of good taste and good judgment. Even if all that his letter said was true, that letter never should have been written. Mr. Schaefer holds a position of responsibility, but his letter which speaks of "stinkeroos" and "crud" indicates that he is hardly aware of the dignity which his position demands. It seems unfortunate that Mr. Schaefer's sole contribution to a long rivalry has been so far removed from the very spirit which fosters it.

Sincerely yours,
 Arthur F. Petersen, '44

contrast with the Dawn Dance atmosphere of last weekend. Some question still exists about the type of "ammunition", but there's little doubt that it's the kind that will be appreciated by all. Wednesday night is the time, turn up at eight-thirty and stay till one. The Hotel Puritan on Commonwealth Avenue is the place.

... The D.U.s are definitely going to outdo themselves when they throw open the first, second, and third floors of their Beacon Street house for their annual Carnival this coming Saturday. Two hundred guests including thirty or so ensigns from the Riverside Apartments are expected to roll in during the evening. Everything is, of course, extremely informal, and according to best D.U. style. Don Gahan plays from nine to one and other interesting side shows are promised. Mystery still shrouds the construction of special whatnot machine producing a blast of frigid nitrogen (why nitrogen ???) to keep the Skirts Flying. Donuts, cider, pretzels, pop corn, potato chips and lavish quantities of the beverage of the proletariat are also to appear, among a setting which has reputedly been imported from the Old Howard together with other things that go therewith.

... Saturday night is also big night out at Wellesley. Two hundred or thereabouts of our worthy compatriots will follow intricate transportation details to find their way out to Wellesley for the annual Well-Tech barn dance. Everything is country style and the Wellesley farmerettes might be interesting. Baron Hugo and his band put on the sweet swing from eight until midnight. Dress is informal, and a professional caller has been hired to give the show the crowning rustic touch. The dance is restricted to Sophs and frosh, but that's the least discomforting feature:

Swim Trials Foretell Keen Team Competition As First Meet Nears

Trials Show Team To Be Well-Balanced

With the first meet scheduled with R.P.I., Dec. 5, the results of the time trials held last week in the pool proved very interesting to Coach Gordon Smith and foretell some keen competition among the members of the squad.

In the breaststroke Knodel and Cochran, although swimming in different heats, were clocked at exactly the same times. This should prove to be interesting competition in the future. Knodel was a member of last year's crack swimming team and the medley relay team that broke the pool record for freshmen. Gordon Findlay, also of last year's frosh team, has come very close to the varsity backstroke record, and is expected to set a new one this season.

Foust, Smith Strong in Dash

Russ Foust and D. W. Smith have shown their ability in the 220 yard dash, with Jack McDonough threatening to take the position away from one of the two. Doc Bressler—or rather Father Bressler—will hold up the quarter mile with Fabens, Cruckshank, or Schierbaum as his team-mate.

The diving will certainly prove not only very interesting to watch, but the results should be very satisfactory with Reebie, Hunn, and Larry Lamadrid taking the spotlight.

There is a good field out for the sprints headed by Jim Leonard and Russ Foust. Put together, these make up a well balanced team. With our first meet scheduled for December 5th, every day should show improvement, for the team has been working hard for a good three weeks.

Tech Bridge Club Plans Tournament

The Executive Committee of the M.I.T. Bridge Club is planning an undergraduate bridge tournament on the week end of December 5th and 6th to determine the champion bridge team of M.I.T. Notice of further details and of the prizes to be offered will be given later. All men interested in getting tournament experience are urged to enter one of the practice tournaments held each Saturday and Sunday. Sign up lists are posted in Bldg. 10.

The Bridge Club will play a duplicate match with Simmons College on Saturday, December 12, 1942. The team will be made up of light high point members to be chosen by the Executive Committee.

Track Club To Sponsor Dinner Next Tuesday

The Track Club, composed of varsity track men is sponsoring a dinner to be held at 6:30 P.M. next Tuesday evening, December 1.

All track men are invited. The cost of the dinner will be \$1.00 per person except for those track men who are new initiates of the club. They will pay their initiation fee.

At the dinner, the numerals will be given to all the winners of the annual fall inter-class meet held on Saturday, November 14. Oscar Hedlund, coach of the team will also announce the program of the track team for the winter.

Basketball Team To Scrimmage With Northeastern Fri.

20 Men Turn Out for First Practice; First Game With Harvard

The varsity basketball team will play a scrimmage game this Friday with Northeastern, it was announced last night by Manager George Rosenblatt, '44. The first game will be played with Harvard by both the freshman and varsity team here on December 4. The next games are as follows: Dec. 8, Lowell Textile varsity here and Boys Club of Boston vs. freshmen here; December 12, Varsity at New Hampshire; December 15, Varsity and freshmen at B.U.

Dolan, Marakas, De Vallee, Taft, Brodie, Cavicchi, and Schutte are old men back on the squad while Heuchling and Davis are new comers from last year's freshman team. Over twenty varsity men started practice Thursday, although work on the gym had temporarily halted practice previously.

The schedule for the remaining games has not as yet been made definite, but there will be games with Tufts both here and there, and the Brown game will be played here. Williams will probably play here in January.

The freshman team will play Dean Academy and Tiltan.

The team is trying to arrange games with service teams from Fort Devens, Camp Edwards, and Quonsett Point Naval Station, but nothing definite has yet been decided.

Debating

(Continued from Page 1)

side of the subject, "Resolved that the United States should concentrate its efforts on defeating Germany first." With the Dartmouth Tournament and the Norfolk Prison debates the Debating Society has won eleven and lost three varsity debates.

S.A.E. Romps Over Senior B

S.A.E., Senior A Playoff This Week

Despite the effects of the Junior Prom week end, two of the fastest games of the Beaver Key football tournament were played last Sunday. Senior A fought a hard fighting Theta Chi football team to a standstill, the final score being a 0-0 tie.

Although the offensive play of both teams was good, it was the defense on both teams that provided the high points of the game when several thrilling goal line stands were made.

S.A.E. Advances a Step

S.A.E. climbed one step nearer winning the Beaver Key Football Trophy by overwhelming a hapless Senior B by a score of 27-0. All the scoring occurred in the first three quarters, with the score at the half being 14-0. Then the third quarter brought two more quick touchdowns, the result of two passes.

The first touchdown came midway in the first quarter with a precision pass from Metzger to Neal which went for thirty yards and the touchdown. The second touchdown was set up by another long pass from Flowers to Salisbury that carried the ball to the one yard line.

Second S.A.E. Touchdown

On the second play, a pass from Salisbury to Neal clicked for the second S.A.E. touchdown. The conversion was good and S.A.E. led 14-0. Early in the third quarter one of the most beautifully executed pass plays of the game was completed from Metzger to Hoaglund which found the receiver alone in the end zone and twenty yards away from the nearest opponent. An attempted pass for the extra point was blocked by an alert defense and the score remained at 20-0 in favor of S.A.E.

The third quarter saw some hard running by both teams, but it was again a pass play that scored. This time a pass of nearly 55 yards was completed to Hunter for S.A.E.'s fourth touchdown. The extra point was good and the score stood at 27-0 in favor of S.A.E. Senior B began to roll in the fourth quarter and several times gained yardage inside of the S.A.E. 20 yard line, but lost the ball on downs each time to a stubborn S.A.E. defense.

The Senior B offensive was featured by a system of low passes about three feet above ground that temporarily had the S.A.E. defense baffled, but the hard charging S.A.E. line forced Senior B during the later stages of the game to abandon this method of attack. The final score was S.A.E., 27-Senior B, 0.

Deciding Game This Weekend

The game this weekend, on Saturday, November 23, between Senior A and S.A.E. will be the deciding game of the Beaver Key Football Tournament since neither team has yet been defeated although Senior A was tied by Theta Chi last week.

The game between Sigma Chi and Theta Chi should prove to be a closely fought game although both teams are out of the running for the football trophy. On Sunday, November 29, Senior B will play Theta Chi, and Senior A will play Sigma Chi which will wind up the Beaver Key Football Tournament for this year.

Hockey Scrimmage Shows Good Material For Team; Goalie Position Stronger

Oscar Would Like To Buy Second Hand Track Shoes

Oscar Hedlund, coach of the track team, is announcing that he is willing to buy all second hand track shoes.

The shoes should be in good condition. All those who are interested in selling their track shoes should see Oscar in the Barbour Field House.

B Team Defeats A Team 3 to 2; Seifert Stands Out; Scores Two Goals

Bright and early yesterday morning before the last brownbagger dragged his weary form to bed, the candidates for hockey teams were beating a little hunk of priority material around the Boston Arena.

The team held its second scrimmage of the season between A and B teams. The B team was made up mostly of freshmen and transfer students; the A team was made up of varsity players. The scrimmage lasted for a half hour and exposed some good material.

Coaches George Owen and Frenchie LaCroix were pleased with the work of all three goalies. The goalie position has been a cause of worry to the coaches, but it appears the position will be well taken care of. Mason, Tashjian, and Larry Button looked especially good.

Ted Madden looks at home at left defense. Charles Seifert, who scored the two goals for the A team, stood out as the best performer of that team. Bob Russell at center was also praised for his performance. The line-up for the scrimmage was:

Team A	Pos.
J. White (R. Patterson)	L.W.
Bud Willard (Cook)	C.
Dick Bettes (Seifert)	R.W.

Rodeo To Be Held This Sat. At Briggs

Oscar Puts On Show; "Picnic" For Trackmen

The rodeo, which was to be held last Saturday, will be held this Saturday, November 28 at 2:00 P.M. on Briggs Field. The show will be under the direction of Oscar Hedlund, coach of the track team.

The rodeo, to be "a picnic on the track," according to Oscar, is to have six events: 100-yard dash, 440-yard dash, three-quarter mile run, shot put, broad jump, and javelin throw. Some forty boys are expected to turn out for the contests.

"This Saturday's events," said Oscar, "will be a let-up for the boys from the constant strain of practice they have been under since the beginning of the track season. In this meet the boys may enter anything they want and they do not have to overwork in any way for any of the events. These contests are just to give them some fun competing against each other."

The forty boys will be divided into two or four teams which are to be pitted against each other. In the track events, the total of the team will be added from the time of each individual team member, and the team with the lowest total is the winner. On the other hand, in the field events, the distances are added up in the same way, but the team with the highest total in these events is the winner.

they can get to anyplace in Boston. It is important that when they sign up students indicate whether they will take this bus or not.
In case anyone has a car and has not as yet been to Wellesley the best route is Huntington Avenue, also known as route 9 or the Worcester Pike, to Wellesley Hills and there left at the underpass. This will lead straight through Wellesley to the college.

Where Boys Played

As a part of their big house party, during which the Delta Upsilon and Sigma Chi doubled up in the Sigma Chi house to make room for the dates of both houses in the D.U. house, the two houses put on a dawn dance at the Sigma Chi house from 3 to 5 after the Junior Prom on Friday night. With a negro band playing not only the fast, but also the slow dance music, the party kept going strong right up until five o'clock. Unlike the usual early morning affair, did not die out until after the music had stopped.

Running in competition with the Saturday night dance of Junior Prom week-end, the Deke's held their annual Gay Nineties party in their house on Memorial Drive Saturday night. With most of the members of the house dressed in costumes of the times, the Deke house presented a very colorful scene. It was also a rather startling one for those who are used to seeing everything in the modern 1942 clothes, and who have never seen one of these famous parties.

the same scale to produce a complete model of the entire earth.

A complete research of the geography and mountain formations of the Solomons group preceded the actual construction of the final product. As a result of this careful preparation the Hobby Shop brainchild offers a very accurate picture for geological study. Every bit of land surface represented on the model was molded by hand. During the coming week the painting and retouching will be completed and the model will be ready for display in Building 10.

Bradley Hahn, one of the hobbyists connected with the project, plans to include a model conception of the recent Solomon Island naval battle in the exhibit. Having made a study of naval tactics and formations, Hahn has built up a complete fleet of model warships. These will be arranged in battle formation on the completed map, representing a close duplication of the actual battle positions as they were in the clash. The exhibit will undoubtedly make appearances outside of Technology after its initial showing here, Pugh said.

Christmas Dance

thus be ready to join as soon as these papers arrived.

Although the above deadline has been set for all blanks to be handed in, applicants have until December 31 to complete their enlistment. This date was set in a ruling by the First Corps Area Command, but the December 1st deadline was set so a great deal of the last minute rush at the end of December would be avoided. This gives more time to those who have to obtain waivers, etc., and will serve to keep the Christmas holidays free.

"Ahoy there you land-lubbers!"

Official United States Coast Guard Photo

"Take it from an old timer . . .

. . . from an ancient mariner forty years in the service of the United States Coast Guard . . . who has seen brave men go down to the sea in ships, *this here war ain't no sea-going picnic!*"

Well spoken, old timer. From a gallant son of the seas those words are an eloquent sermon, a grim challenge to every American and a salute to the United States Navy. Every deeply etched line, every furrow on your weather beaten brow marks you a man of long and faithful service to your country and to the ideals of courage and bravery of every American who has ever taken the oath of allegiance to the United States.

As an "old timer" in the uniform business, Leopold Morse is proud of its ninety year record of service. Today as authorized Government agents for Army and Navy officers' uniforms, we renew our pledge to YOU . . . the people at war and again tell you that our newly enlarged uniform department is equipped to give you the best possible service . . . at prices that challenge comparison.

66 Baffle Filter Thrills Smokers

USED IN MEDICO PIPES, CIGAR, AND CIGARETTE HOLDERS

New York—The scientific, absorbent filter has contributed mightily to the smoking pleasure of millions of men and women who have switched to Medico Filtered Smoking. Actually, the smoke must travel through 66 "baffles" before reaching the mouth. Flakes and slugs are trapped; and the smoke is whirl-cooled as it winds its way through the filter.
