John J. Jarosh Resigns Post
As Swim Coach

A joint meeting was held at the All-Tech Club this season. About 35-46 of the student body were present, and the resignation of Coach John J. Jarosh was announced. Jarosh, who has been the swimming coach at Tech for the past three years, said that he was trying to find a position in the aviation accessories business in New York. New Jersey.

If in an interview yesterday Jarosh said that he would be unable to keep in touch with Tech because he would move after he leaves Tech to the end of the month. He graduated in the Hotel Vendome. Options may be renewed until after April 16 from any of the 4 Redemptions Council, by calling the 150-yard backstroke record, the Swimmers, and the 100-yard medley, the

On Alert...  

The Task Force of the Telephone Army!

Wherever the call, a mechanized army of more than 27,000 Bell telephone trucks stands ready. Each has a skilled crew armed with hand tools and power equipment designed especially for the job to be done. They are ready and efficient and can be mobilized anywhere, anytime.

This is just one example of how the Bell System is prepared to answer a call... anytime, anywhere. End of Story.

Brother Alpha

Brother Alpha is scheduled to open on Fri. in Brookline at the Beta Theta Pi Lodge this week-end. The boys will entertain from ten to two this Friday by way of their Spring Formal. Her Royal Highness has been engaged as master of the evening.

For Boys To Play

By Gene Schnell

...festivities are scheduled to open on Fri. in Brookline at the Beta Theta Pi Lodge this week-end. The boys will entertain from ten to two this Friday by way of their Spring Formal. Her Royal Highness has been engaged as master of the evening.

...for you Tech men who are still engaged for Friday, the combined Lasalle-Technology Glee Club concert seems a good bet for everyone. After the concert, a record dance will hold sway all through the evening. The Technicians and Glee Club members will attend the concert and leave company the Glee Club members.

...continuing the weekend in party vein, the Lambda Chi Alpha brothers have taken over the Boston Road Saturday night for their Spring Formal. Chappie Arnold will supply the music while the Lambda Chi Alpha ladies will take over the dancing.

...considerably lengthened and dangerously threatened by the battle with the Japs on "foreign" soil. With his supply routes into shape the defenses of that island-continent in preparation for the next move, MacArthur has turned his attention to the revised course schedules for the Senior year, which will follow this Friday. Today MacArthur works furiously in Australia whipping the Jap for the next move. The General must take his stand against the next move that the Nipponese are able to make any headway in their endeavor to rid entirely the Philippines of the Americans. No island is too isolated or too small to be a point of possible attack, and MacArthur is in the position to keep the Japs free from any point of possible attack. When the Philippines were used as a base of attack against the United States, MacArthur was the first to realize this fact and to plan accordingly. He realizes that the Philippines must be used in the same manner as the United States, and he is planning accordingly. He realizes that the Philippines must be used in the same manner as the United States, and he is planning accordingly.

The need for men with technical training who will serve both in industry and in the armed forces makes it imperative that the Institute's fundamental plan of instruction continue unchanged. War-time adjustments therefore constitute an intensification of effort rather than a radical departure from the Institute's normal procedure. The statements below cover the questions most frequently asked regarding the war program.

Accelerated Program

Under present conditions the Institute has to prepare a highly "accelerated" "speed-up" plan for its students. It is obvious that such a plan would weaken rather than strengthen the undergraduate and professional programs, and this is the more in-"acceptable because both the war and our national Bishop "call for men of superior education in an accelerated manner.

The calendar of the first three years will accordingly be left unchanged. Only the First Year class will enter in September as usual. The second and third years' fall and second years will be available for undergraduate students who can complete part of this time to devote to the summer courses normally required in the curriculum.

The work of the last undergraduate year will be in June following the completion of the third year, and summer sessions will be held up to graduation February following January.

The usual policy will be continued of permitting qualified students to anticipate subjects or to take advanced introductory courses in subjects in which they have not been enrolled, in order to expedite completion of their grade requirements. Most of the basic subjects of the first three years will, as heretofore, be offered also in the summer sessions.

The formal action of the Faculty in approving a Summer Term for undergraduate students is the following vote:

"That first-term subjects for the Civil Engineering Summer School at Camden, Maine, is offering a pro-gram of military interest to a lim-ited number of undergraduates in the following votes:

- 2.7% Electrical Engineering M. Engr. 4-2
- 2.4% Power Engineering M. Engr. 4-2
- 2.4% Machine Design M. Engr. 4-2

Option 1. General First Period

- 2.6% General Study 2-2

Selective Service

The following instructions are sent to students who are re-quired for Selective Service:

"To the extent that he is able, each citizen should see that services are put to the most effec-tive use during the war. In many cases this service can be most effec-tively performed in the military services; in other cases the citizen (Continued on Page 7)

LACROSSE

The Tech Staff

Next Opponent
Will Provide
tiff Competition

The Tech staff notes that the B最新的 will be a hard-fighting team to the
tee. Expect the game to be held late
Wednesday on the Jumbo's home
field. This win was the team's second
in as many starts; but stiffer
competition will be provided in a
week or two with Dartmouth on
Thursday and Harvard on Wednesday of
next week—all games to take place
at the Jumbo field by notifying Atlas.

The starting lineup was as
follows:

Nate Levy
cil Darrow
C. P. Doreng
Bob Mitte
Phil Flote
Floyd Gander
Capt. Bob Evans
Peter Bunch
Gene Schill

The team's chief scoring threat
when the new pool was used,
looked good with all excellent team
play, and rebroke it several times, while
improved because a lacrosse game
is scheduled to take place at
3:00 P.M.

First Round Of
Softball Tourney
To End This Week

The last games in the first round of
the annual Beaver Key softball
tourney are to be played off this
weekend. Because of the lack of
playing space no second round games have been scheduled for this
day or on the morrow.

The schedule of games to be held
in the remaining tourney are as follows:

Thursday afternoon at the Oakley
Country Club

Friday afternoon they will face the
Brown linksmen also at the Oakley
Country Club and will start at 2:00 P.M.

The schedule for the intercollegiate competition held by the A
dvisory Council on Athletics, thirteen students have
been approved for the straight 7
letter, the highest sports award.

The events in which competi-
tion will be held are: shot put,
discus, hammer, pole vault, high
jump, long jump, high hurdles, 110
yard dash, 600 yard run and the three-quarter
mile. Promptness is imperative because a
lacrosse game is scheduled to take place at
3:00 P.M.

Handicap Meet Opens
Spring Track Season

The first track contest of the season on the spacious Briggs
Field here at Tech back in the
days before the new Alumni Pool when the swimming team had
to migrate to the University Club
of Boston for a few practices a week.

Coach Jarosh held the 150-
yard backstroke, 486-yard freestyle,
and 369-yard individual medley.

One thing which I enjoyed last
year was seeing him glide the
water. He would stand at one end,
take a breath, submerge, and shove
right in and did the calisthenics
with amazing muscular control and
power.

First and last of the year

T.C.A. Work Camp Will Be Held Sat.

What promises to be the largest work camp of the year will be held Saturday and Sunday at the Summer Cottage at the West Glouchester Settlement House at West Gloucester, Massachusetts.

Those who are interested in the camp, it was announced by Sid F. Atlas, '43, last night, will leave Saturday afternoon and will stay over night at the camp. The men employed are to be those involving transcription and mail services, both of which will be needed. The workers are to bring their own blankets and will sleep in the farmer's barns.

A number of girls from Wellesley, Wheelock, Radcliffe, and men from Harvard and Technology will attend the camp.

The work to be done is to be a general repair of the camp and will include shopping, painting, repair of buildings, and other maintenance repairs.

The highlight of the week-end will be a good old-fashioned barn dance to be held on Saturday night.

Any persons interested in attending the work camp may arrange to attend the camp.

What promises to be the largest work camp of the year will be held Saturday and Sunday at the Summer Cottage at the West Glouchester Settlement House at West Gloucester, Massachusetts.

Those who are interested in the camp, it was announced by Sid F. Atlas, '43, last night, will leave Saturday afternoon and will stay over night at the camp. The men employed are to be those involving transcription and mail services, both of which will be needed. The workers are to bring their own blankets and will sleep in the farmer's barns.

A number of girls from Wellesley, Wheelock, Radcliffe, and men from Harvard and Technology will attend the camp.

The work to be done is to be a general repair of the camp and will include shopping, painting, repair of buildings, and other maintenance repairs.

The highlight of the week-end will be a good old-fashioned barn dance to be held on Saturday night.

Any persons interested in attending the work camp may arrange to attend the camp.

T.C.A. Work Camp Will Be Held Sat.
