Senior Ball, Junior Prom Are Only Exceptions Made In Sweeping Change

Placement Office Reviews Status Of Reserve Units

Although a joint committee from the Army, Navy, Marine Corps, and the Army and Navy Air Forces came to the Institute this fall to explain the reserve programs of the various services to Technology men, the Reserve Officer Training Corps at the Institute has recently issued a summary of the requirements for the various reserve units to which the student body will be assigned.

It was revealed that additional opportunities both in ROTC and the volunteer programs of the Navy for commissions as lieutenants and Ensigns, respectively, have just been announced. The Institute student who is interested in either one of these programs should communicate with the appropriate office for information.

Karl T. Compton, President

Gas Rationing, Rubber Shortage Present Problem To Dance Couples

"No more formal dances for the time being" was the decree handed down by the Institute Committee at its meeting held last Thursday, as a result of the rubber shortage. This mandate was the Junior Prom and the Senior Ball which were deemed too big to be informal.

The motion to end all dances and parties held by any Institute activities informal was introduced at the last meeting of the second summer session after a series of very quiet and inactive meetings at which little business of importance had transpired.

The problems of transportation, gas rations, the shortage of rubber, and the fact that increased taxes will automatically decrease allowances were all discussed in one of the meetings.

Walker To Resume Cafeteria Serving

Dining Service Faces Too Many Customers For Present System

Faced with an unprecedented increase in the number of students, the Institute is serving too many in too much of a hurry, the Walker Dining there are announced last night that it is unable to provide the normal service for evening meals for the duration.

The present service will be used for all meals for the duration, until such time as the Institute can get additional help.

The number of students living in the dormitories, the concentrated activities on campus, and the increased number of students working on lunches; and the possibility of an influx of service men taking special courses at the Institute.

The abandonment of the club system is only temporary, it was explained by the Committee on Undergraduate Life, and it will be resumed after the war along with a number of other innovations planned for that time.

T. C. A. Is To Act As Rushing Center

The acceleration of the Interfraternity Conferences and the various Institute organizations, the slogan in the Institute rush this fall.

The purpose of this ship is to enable the students of the Class of 1946 who desire to make contacts with particular organizations to do so.

The freshmen will be sent a written card with the necessary information to the T.C.A. who will keep these cards on file and pass on all information to the rushing chairman of the fraternity. Representatives from the I.F.C. will see that this privilege be shared by all and not abused.

Tech Smoker

First Of Series

First of the annual long drawn series of smokers, designed to entice students into the more extensive activities of the fraternity, will be the regular Fall smoker of the Tech to be staged in Pritchard Hall at 5:30 P.M., Wednesday, September 30.

Chief attraction of the smoker will be the free refreshments and dance privileges for all those who attend, and the cost will be borne by the generosity of the frater
ciety. The Institute Catalogue lists the requirements for the various credit courses. The fraternity will also take part in the annual barber shop competition.

Dorm Freshmen To Be Placed Two In A Room

Unusual Feeling For Students By Housing Shortage

Because of the critical housing shortage which has developed in the current year, the Institute has provided for the academic year of approximately 38 weeks, have been divided into three classes as follows: 30 men in each room.

Each student room which has been provided as usual. The rooms which will be occupied by the dormitory students of the Class of 1946 are probably going to be turned into dormitories.

The rooms will be allocated to the dormitory students of the Class of 1946 by the Dormitory Board to adhere to the general policy of providing a comfortable place in which to live for the students in the dormitory units.

It was also revealed that the quotas for the Advanced Technology, and the Advanced Technology Life, are proposed to be reduced. The delay will then allow the students to take courses without the usual two hour break.

All requests for changes in the equipment of each dormitory unit will be obtained by consultation or correspondence with the proper office as designated.

Registration Day is September 25, is First Day of Affair

Frosh Camp Is On Campus

Friday, September 25, is the registration day. At that time all students who have not yet completed their registration will be registered. The total price of registration day is $5.00.

The Senior Week has been a success, according to Mr. H. K. Dow, Manager, for the first week in November.

The Institute Catalogue lists the requirements for the various credit courses. The fraternity will also take part in the annual barber shop competition.

Government Needs Metallurgists In War Program

In the mobilization of manpower for the civilian war service of the Government there is a continuing demand for scientifically and technically trained men and women. Among those urgently needed are Metallurgists for work in connection with specific problems in the field of metallurgy—problems connected with some phase of the War Program.

The Civil Service Commission is recruiting Metallurgists under two new examinations recently announced. Announcement No. 338 for positions paying $3,700 to $5,900 and Announcement No. 254 for junior grade positions paying $2,800.

For the higher grade positions ($3,700 to $5,900), the requirements now are: (1) completion of a four-year course with major study in metallurgy or closely allied subjects and a minimum of two years of professional experience which may have been obtained on the metallurgical job. Additional experience will be required for the higher grades.

For the junior grade positions ($2,800), the requirements are: (1) completion of a four-year college course in metallurgy or metallurgical engineering; or (2) completion of a four-year course in an allied subject supplemeted by at least one year of paid experience in metallurgy (which may include college teaching), or (3) 33 semester hours in metallurgy or metallurgical engineering, or (4) two War Training courses in metallurgy. Applications will be accepted from college seniors.

...we remember how Ark of the Bulletin Room planned to rob the nativity prices of six cents per card at his club at the Pentagon. A parrot to ride the shoulder of the serving waiter recited his semi-polite nursery, ‘musket’. Opening salvo was achieved by the chirping bird but his or her services were immediately prohibited by a Massachussets law, that is typically of many others, most of us have encountered in some way or other.

Boston just wouldn’t let Ark have his fun. Which all leads up to the point that the Bulletin Room has recently instituted a minimum of two night lights. The lounge still offers the best entertainment in town, a point that the majority of the other night spots are still ever looking at.

...we're happy to hear that the Institute Committee didn't inform us that the Junior Prom which from the reports available seems to be changing so as to be typical of the fun-loving Class of ’44. That's enough to insure the presence of the juniories at the Junior Prom. It is no wonder that some plumbers have that campus fun will be for graduate students who expect to complete the required courses within 6 months after filing application.

Applications will be accepted until the needs of the service have been met. There are no age limits for these examinations. No written test is required. Announcements and application forms may be obtained at any first- or second-class post-office or from the Civil Service Commission, Washington, D. C. (4)

Mariners Victorious In First Competition For Lt. Fowle Trophy

Visiting Ensigns Defeat Seniors In All-Star Game

Navy Team No. 1

In Tour to Win Dormitory Trophy

The softball tournament among the various halls of the J.I.T. Senior team came to an end with the Navy Trophy in the. In a

Dormitory Athletics, commented that the knights' spirits will continue to be high, since the Navy team has surrendered their usual competition as keen and as interesting as possible. At the final of the season, the team will be temporarily discontinued, but will be reorganized in September, 1947.

Senior Placement interviews, which have been held regularly during the summer, will be temporarily discontinued on September 12 and will not begin again until October 1, when many of the firms which have not already begun will send representatives to the Institute.

Sophomore Crew Ready for Fall

Cap'n McGuire Out Of Luck From Team

By Graduation

With sailing season fast approaching, the members of last year's crew squad will soon be hard at work. The future is looking bright, for not only have the crew won, but have practiced twice a week nearly all season. Since the team participated in the Eastern College Spring and Fall regattas, the competitive races were in the characteristic position of being able to turn around and pull into the basin when the races got tired. However, Harvard invited Tech to enter a race of six in last summer's season, and one day's notice, the oarsmen took a crew together. They took a third place, and another group of five were also entered. Coach Bob Moth's suggestions on rowing were quite worthwhile.

The headhouse has received minor repairs and is ready to take on the load of its work. Preparations are being made for the final season, when the sun sets, and the water cools. The Tech skippers outsailed men from Boston University and the Harpooners to win the Lt. Fowle Trophy.

The Tech mariners also won a Greater Boston round robin which has been held on the muddy waters of the Charles River this summer. Competing in the tournament were teams from Tech, Harvard, North Eastern, the Supply School at Harvard, the Command School of the Fleet, and the Aviation School for the Navy here at the Institute.
