

## Field Day Dance To Be Informal Because of War

**Affair Will Be Held Evening Of Oct. 30 After Competitions**

The Field Day Dance to be held Friday, October 30, will be informal for the first time in the history of the annual affair. At its meeting last night the Dormitory Committee formally complied with the resolution of the Institute Committee to make all dances except the Junior Prom and the Senior Ball informal because of conditions imposed by the war. The dance will be held in Morss Hall of Walker Memorial the night of the freshman-Sophomore athletic competition in honor of the winner.

Because the dance is not going to be formal, the motif will be of a different nature than that of the usual staid affairs which are held in Walker, according to Gregory G. Gagarin, '43, chairman of the Field Day Dance Committee. The band will probably be a first-class local band with some decrease in the cost of the affair. Gagarin emphasized that while present conditions make a less extravagant dance mandatory the changes should in no way affect the spirit or popularity of the dance.

Ticket sales will probably start next week by which time the orchestra and price of the dance will have been announced.

The Field Day Dance is held annually in Walker Memorial by the dormitories and is especially for the freshmen and Sophomores as the Field Day athletic competition is the occasion for the dance.

## Simmons, Radcliffe Will Dance Friday

**Dorm Freshmen To Meet Other New Students**

About 250 freshmen from Simmons and Radcliffe will be the guests of the dormitory committee and the Agenda at a freshman get acquainted dance in Morss Hall of Walker Memorial next Friday night from 8 to 12:30 P.M.

The Agenda and members of the dormitory committee will be on hand as ushers to keep the boys and girls dancing, and to introduce them to each other. Baron Hugo's orchestra which played for the dance last year, and for the get acquainted dance for secretaries this summer will supply the music Friday.

The lounges of Walker as well as the main hall will be open for those who wish to talk. The dance is open to all freshmen in the dorms, but is closed to any other members of the Institute.

## Freshman Ties Change Color, Texture, For '46

Priorities once again rear their ugly heads in the life of the Institute. This year's freshmen ties like many other things in this war must now be made of substitute material. Instead of the usual shiny cardinal red and silver gray ties made of rayon, the Class of 1946 must wear red and white cotton ties.

These ties, appearing in public yesterday for the first time, along with the first appearance of the blue labelled M.S. uniforms created quite a sensation in the fashion world for their complimentary colors. The freshman tie has not however lost its unique feature of going with any suit which freshmen may choose to wear to school.

## Burke Is First Soph Prexy To Escape Freshman Dunking

John W. Burke, '45, became the first president of a Sophomore Class not to be dunked in some body of water during freshman camp, when freshman camp closed last Saturday night. Due to the ruling of the freshman camp committee, precipitated by the possible dangers of having a large group crossing Memorial Drive, Burke was spared the icy plunge which his predecessors had enjoyed.

Burke had said last week that he enjoyed swimming, but that he was willing to face the freshman class in an attempt to keep dry. On Saturday morning Oscar Hedlund, track coach, addressed the camp and asked its cooperation in refraining from dunking the president of the Sophomore Class, and then in a surprise move introduced Burke who made a short speech to the frosh.

Even during the hurricane when freshman camp was held here before, the president of the Sophomore Class was dunked in the river as a substitute for Lake Massapoag. This year, however, it was decided that it would be too dangerous to let the freshmen cross Memorial Drive in an attempt to submerge Burke.

## Dorm Freshmen Meet Last Night

**See Organization As Best Defense Measure**

The growing strength and organization of the Class of 1946 loomed last night as a dire threat to high Sophomore strategy as large numbers of dormitory freshmen turned out for a rally in the basement of Walker Memorial. Addressed by members of their own class, freshmen reminded each other that a well planned defense was necessary if the savage attacks of experienced Sophomores upon the new men were to be frustrated.

Promising early plans and defenses against Sophomore tactics, the supreme council is expected to meet secretly soon in order to counter any early blow which the dormitory Sophomores are rumored to be planning.

The vigilant freshmen seeking to guard their plans were alert to the possibility of espionage as the entrance of anyone not wearing the familiar ties was challenged.

## Record Enrollment Marks Registration

In preparing for classes of the fall term starting today Tech students completed registration yesterday in the various departments of the school. The Lobby of Building 10 which served as the hub of registration activities was crowded right down to the four o'clock deadline. Likewise the information office and the Technology Cooperative Store, otherwise known as the "Coop", were busy throughout the day. In and about the Lobby of Building 10 many activities and School societies had erected booths and were canvassing members of the student body.

In Room 4-251 members of the Class of 1946 were registered separately and after receiving their schedules and lab material were outfitted with the traditional red and gray frosh tie distributed by members of the Quadrangle Club, Sophomore honorary society. The new class began already to show signs of an intense field day spirit.

John F. Burke

## Prom Weekend Is Set For Nov. 20-22 By Class of 1944

**Juniors Will Continue With Ideas Developed By Predecessors**

The time for the Junior Prom Weekend has been set as the weekend of November 20-22, according to George A. Schutte, president of the Class of 1944. The affair will be similar to one held last year by the Class of 1943, and the feature attraction, a formal dance on Friday night, will be held in the Imperial Ballroom of the Hotel Statler.

The Junior Promenade Committee will meet at 5:00 P.M. tomorrow in Tyler Lounge of Walker Memorial to consider a class poll which will be held among the members of the Class of 1944 on questions related to the weekend.

Tommy Tucker played for the Friday formal last year, and an informal dance was held Saturday night in Walker Memorial with Roly Rogers and his orchestra furnishing the music. This year's Junior Prom Committee plans to hold a similar informal dance on Saturday night in Morss Hall of Walker Memorial. The Committee is proceeding with plans for this dance as well as with plans for other Junior Prom Weekend events which last year included fraternity punch parties on Saturday afternoon and a dormitory tea on Sunday afternoon. The Friday night dance is one of two dances which the Institute Committee granted permission to be formal.

## New Course Established At Institute; City Planning Added To Curriculum

City planning, formerly associated with architecture, has now become established in the curriculum as a new course, it was announced recently by Professor Frederick J. Adams, in charge of the course. This new study will require four years work, but with the standard freshman year rather than the architectural subjects.

Technology has been a leader in the study of city planning. The first school to inaugurate a graduate course, the Institute started its work in the field over twenty years ago when the need for qualified planners first developed. Seven years ago there was made available a graduate program leading to the Master's degree in City Planning which was open to men and women

## Largest Crowd Attends All-Technology Smoker At Walker Memorial

**1040 People Fill Pritchett Hall; Large Freshman Class Sets Record**

Overflowing into the lounge bar and Pritchett Hall, the largest number of entering students and their parents ever to attend the annual All-Technology smoker were officially welcomed by Doctor Karl T. Compton, president of the Institute.

## Options For Senior Week On Sale For Last Time

Seniors are warned that options for Senior Week will be on sale for the last time beginning next Wednesday. The price remains \$5.00.

From 11:00 A.M. to 2:00 P.M. daily, for five days, option sales will continue in the lobby of Building 10. At the conclusion of this sales period tickets will be available only in the form of a complete book and at the face value of the tickets.

## Activities Shown To Frosh At Camp

**Held at Technology Instead of Massapoag**

Contrary to custom the annual freshman camp conducted by the Technology Christian Association was held on the campus this year. Activities got underway on Friday evening and continued through Saturday evening. Formerly the camp was held at Lake Massapoag and the participants lived under camp conditions. The purpose of the camp is to acquaint the new members of the student body with their classmates and some of the activities and traditions of M.I.T.

Friday evening consisted largely of talks by activity men and a general get together. On Saturday the day was spent in largely athletic pursuits including a baseball game between the faculty members and the counsellors of the camp, in which Dr. Compton pitched for the victorious faculty. The freshmen were divided up into three groups and inspected various exhibits of athletic equipment.

(Continued on Page 2)

Approximately 1040 people jammed the portals of Walker Memorial as freshmen and new students gathered for the first time. The record freshman class of 750 men and women together with many parents accounted for the large number.

With nearly all members of the Class of 1946 attending, Doctor Karl T. Compton addressed the smoker and told of the many changes which have been made in the Institute and the country in general because of the war. Explaining that the present members of the class had been chosen from over 2000 applicants, he said that many of them under ordinary circumstances would have gone to other colleges and then come to the Institute later for graduate work.

He said that the Institute would probably become even more stern in its attitude, and that students instead of having an inherent right to go to college must prove that what they are doing is for the best interests of the country. The need for technologically trained men both for industry and the armed forces has been recognized by those in authority and that the Army, Navy, and draft boards have been very cooperative in this line. He said, however, that as the situation of the war changes it is to be expected that the rules and regulations under which we are working will be changed from time to time as the occasion demands.

Following Doctor Compton's welcome to the freshman class, C. Frederic Barrett, '11, president of

(Continued on Page 4)

## The Tech To Hold Smoker Tomorrow

**Speeches And Display Will Highlight Meeting**

At 5:15 P.M. Wednesday in Pritchett Hall of Walker Memorial, freshmen will have their first opportunity to find out what causes The Tech to appear twice week for the enlightenment of Technology students. A program has been planned, and all members of the Class of 1946 are invited to attend.

Members of the managing board will be on hand to address freshmen on the usefulness of the paper in the undergraduate life of the Institute and how participation in publishing the newspaper can benefit students who elect to go out for this activity.

Men from both the business office and news room, including Junior board members and other members of the staff will be on hand to answer questions and explain the organization of the paper.

In addition to the speeches there will be displays showing the various stages through which editing must pass before the paper is ready to go to press. These will include the reporter's version of the story, the corrected copy, the printer's proofs and dummies from which the type is arranged.

Refreshments will be served to those attending the smoker, and a supply of smokes will be available to satisfy the desires of the guests.

## Freshmen Show Sports, Activities On Home Grounds

### Track Meet, Baseball, Swimming, And Diving Included In Contests

(Continued from Page 1)

ment put on display by the M.I.T.-A.A. Many other athletic contests were available for the members of the class of '46. These included a track meet, baseball game, swimming, a diving exhibition by upperclassmen, and other events. The frosh familiarized themselves with many sports new to them such as lacrosse.

On Saturday evening the annual freshman smoker was held in Morse Hall including a dinner and several speakers. Dr. Compton was the principal speaker and at that time extended a formal welcome to all freshmen and other students entering Technology for the first time. Many of the entering students' fathers were on hand for the occasion. In keeping with tradition "Obie" Denison, 11, led group singing and rendered a few solos both Friday and Saturday night.

# FOR VICTORY

## BUY UNITED STATES WAR BONDS AND STAMPS

## PREPARE FOR FIELD DAY

Members of the Class of 1946 are on their way. They have now absorbed hours and hours of lectures and advice, registered for their first semester at Technology, purchased most of their books and equipment, and donned the ties which will adorn their necks for weeks to come. As individuals, they are raring to go, eager to prove their mettle so that they and not some other of their classmates will be the fortunate freshmen who return for the spring semester.

But as a class, they are more freshmen than their red and grey (white) cravats indicate. They met for the first time four days ago and convened at their initial meeting as an official Institute organization only last Saturday evening. And yet in four short weeks, they must combat an experienced and once-victorious Sophomore Class in the traditional Field Day events. This year, they face an especially difficult assignment for they are pitted against the Class of '45, one of the nine classes to win Field Day in its first attempt.

The Class of 1946 consequently is confronted by almost insurmountable obstacles, in experience, disorganization, and an opponent who already has one Field Day scalp under his belt. Only hard work and wholehearted support by every member of the class will be enough to counteract the advantages now held by the Sophomores, and an early start will contribute materially to the freshman cause. The rallies to be held in the future and the five Field Day squads deserve the active support of every freshman at the Institute.

## THE FIRST INFORMAL

In accordance with the Institute Committee's recommendation, the Field Day dance, formerly the first Institute formal of the term, will be informal this year. The action taken by the Dormitory Committee, sponsor of the affair, is the first endorsement of the Institute Committee's dance policy by an undergraduate activity since it was announced on September 3.

The Institute Committee intended its motion to be merely a suggestion and not an order to which adherence was mandatory. In consideration of the acute transportation problem in the New England district and the inadvisability of social splurging during times of war and conservation, the solons decided that an official suggestion was all that would be necessary to convince the student body that the continuation of formal dances is unwise.

Because the action taken by the Institute Committee was in the form of a suggestion, that body can not actually prohibit a formal Technology dance. Provision has been made, however, whereby any activity not complying with the recommendation will be outlawed, its budget refused, and its dance chairman asked to explain his activity's lack of cooperation.

The support offered by the Dormitory Committee is, we hope, the first in a series of such displays. The leaders of all other dance-sponsoring activities will do well to follow the example of the Dormitory Committee and to cooperate to the fullest with the patriotic suggestion of the Institute Committee.

THE TECH extends its deepest sympathy to the Massachusetts Institute of Technology on the loss of the official school colors as another wartime casualty. Not again for the duration will freshman necks be adorned with the familiar cardinal red and silver grey four-in-hands for silver grey has gone the way of all non-essential metallic materials.

We hail the incoming ersatz freshman tie of red and dirty white as a new wartime substitute on the markets of the world, but we shed a silent tear for the passing of the old regime and its traditions.

**THE TECH SMOKER**  
5:15 P.M. Wednesday,  
September 30  
Pritchett Hall, Walker

A SOPHOMORE BACK, HIT HARD, FUMBLES

This action shot shows a Sophomore back fumbling the pigskin after being hit hard by a freshman griddler. The Sophomores, however, came through to win the game 7-0. This is only a slight taste of the excitement that awaits the two lower classes on October 30.

**Oscar Finds Good Runners At Frosh Camp**  
Sophs Must Fight Hard To Take Relay Race From '46 Tracksters

Already making predictions that the class of 1945 will have a hard time winning at least the track event in the 1942 field day, Oscar Hedlund yesterday announced the results of the track meet run in connection with freshman camp last Saturday afternoon. With many boys running in their street shoes, over 100 freshmen entered at least one of the sixteen races run.

Three sections of the 100 yard dash were run with Berny Roth, William Coombs, and George McQueen the winners in the sections. The 440 was also run in three heats, with Dick Poorman, Dick Parsons, and Francis Cassidy winning these.

The height of the day's events came in the commando races of which ten were run. These consisted of going both over and under hurdles. The final winners on the basis of times made in the various heats were Jerry Snyder, taking first, with the time of 9.2 sec., and Bob Wilson tailing him with 9.4 sec.

According to Coach Hedlund, with such spirit so early in the year, it means that the 1942 Field Day should be the best ever, and the Sophomores will have to get on the ball, and work overtime to win the battle on Friday, October 30.

**Moch Wants Freshmen And Varsity Men Now**

The varsity crew men are now working out every night at 5:15. Bob Moch, crew mentor wants all crew men, varsity and freshmen, to report to the boat house at this time.

Everyone interested in crew should report tonight or as soon as possible, whether or not they have had experience in rowing.

**Redshaw To Be Lacrosse Coach**

**Experienced Player Is Tufts Graduate**

Succeeding Bob Maddux, who resigned last spring to take a job outside of New England, Lincoln Redshaw will coach the Tech lacrosse team during the coming season.

Lincoln Redshaw is a graduate of Tufts College. While there, he played both football and lacrosse. He was elected captain of the lacrosse team in his Senior year. He was selected as All New England Lacrosse Goal, and for the past few years has been very active in refereeing and playing for the Boston Lacrosse Club.

**Touch Football To Start On Oct. 4 With Two Games**

**All Teams To Compete On Sundays Because Of Saturday Conflicts**

Because of conflicts, the touch football games between Dormitories previously scheduled for Saturday afternoons will be played Sunday afternoons.

The revised schedule is: October 4 10:00 A.M. Bemis vs. Goodale, Holman-Nichols vs. Runkle-Crafts; 2:00 P.M. Monroe vs. Hayden, Wood vs. Walcott. October 11 10:00 A.M. Walcott vs. Bemis, Goodale vs. Holman-Nichols; 2:00 Ware-Atkinson vs. Monroe, Hayden vs. Wood.

October 18 10:00 A.M. Wood vs. Bemis, Walcott vs. Goodale; 2:00 P.M. Runkle-Crafts vs. Monroe, Ware-Atkinson vs. Hayden. October 25 10:00 A.M. Ware-Atkinson vs. Bemis, Hayden vs. Walcott; 2:00 P.M. Holman-Nichols vs. Monroe, Runkle-Crafts vs. Goodale.

November 1 10:00 A.M. Runkle-Crafts vs. Wood, Ware-Atkinson vs. Walcott; 2:00 P.M., Goodale vs. Monroe, Holman-Nichols vs. Hayden. November 8 10:00 A.M. Holman-Nichols vs. Wood, Runkle-Crafts vs. Walcott; 2:00 P.M. Bemis vs. Monroe, Goodale vs. Hayden.

November 15 10:00 A.M. Holman-Nichols vs. Walcott, Goodale vs. Wood; 2:00 P.M. Ware-Atkinson vs. Wood, Runkle-Crafts vs. Bemis.

**Bob Moch Advises Freshmen To Keep Fit By Rowing**

By BOB MOCH, Head Crew Coach

Welcome, Class of 1946! Welcome to the M.I.T. Boathouse, which you will find as the only building on the river side of Memorial Drive between Massachusetts Avenue and Cottage Farm Bridge, three-quarters of a mile above the Institute itself. There are facilities to handle any number of you and a seat for you to strive for whether you are small, medium or large.

A sound mind and a sound body are requirements each for the other. Your very enrollment at Technology indicates your intention to attain the former, but the latter must likewise be attained for you to be a whole man. In peacetime this is so, but today it is a "must". A man's body must be capable of taking him through physical difficulties that his mind may grasp and surmount mental obstacles. Hence, I urge you to take up some sport. Of course, crew is my suggestion since all endeavor today involves co-operation with others, and crew, being the sport where co-operation is at its height, brings out this knack of working with and for one another, while at the same time, it builds up all parts of the body and affords all that thrill of competing first for a seat and later against the best crews in the world. Of this latter, we crewmen at Tech are especially proud because we give you the opportunity to go up against the best there is in the field so that if you win, there you are: at the top!

Moreover, in rowing, there is a notch for each of you: Coxswains vary from 109 lbs. or less to 135 lbs., lightweight oarsmen from 130 lbs. to 160 lbs., and the heavyweight oarsmen from 155 lbs. to 225 lbs. or more. No matter what size you may

be, there is a seat which you may earn. In addition, prior experience in rowing is entirely unnecessary—about 90% of the oarsmen in the United States never had an oar in their hands before turning out for crew at a college. I am, also, justly proud of the staff we have to coach you, Jim McMillin, who coaches the heavy Frosh, rowed three years on the University of Washington varsity, rowing on a winning Poughkeepsie crew twice and on the crew winning the Olympic Championship in 1936. Pat Manning, who coaches the lightweight Frosh, has been with M.I.T. since 1912 and has been a student and a coach of rowing for many a year. Both of these men are highly qualified to teach you rowing and I know you will enjoy crew while working with them.

For these and many other reasons, the most important of which are that crew will be good for you and you will enjoy it, I hope you row. If you desire to do so, the crew rally will be held from 4 to 5 o'clock on Monday, September 28, at which crew aspirants will sign up, coaches will talk, and motion pictures will be shown, and turnouts will be held every afternoon from then on. More important than turning out for crew, however, is turning out for some sport, any competitive physical activity will do, but enter into some sport with all you have. You owe it to your country in these times, and you owe it to yourself: get into competitive sport to attain and improve a sound mind and a sound body.

Good luck, Class of 1946! Good luck to you at M.I.T.! May you attain that for which you strive, and may you thoroughly enjoy the struggle and endeavor that is necessary to open the gates.

**Frosh, Sophs Invited To M.I.T.A.A. Smoker**

In order to find freshmen and Sophomores who are capable of holding positions of responsibility, the M.I.T. Athletic Association will sponsor a smoker at 5:00 P.M. next Tuesday, October 6, in Pritchett Hall, Walker.

Some of the positions open to freshmen are: freshman managers of all sports, publicity and equipment managers. One of the positions open to Sophomores is treasurer's assistant.

**Salesmen Are Needed To Distribute The Tech**

Salesmen are needed to distribute The Tech on a salary and commission basis, on Tuesdays and Fridays between the hours of 11:00 A.M. and 2:00 P.M. These men are to sell the publication in Building 10 and in Walker Memorial.

Those interested in this opportunity may contact The Tech circulation manager any afternoon after 4:00 P.M. in the business office on the third floor of Walker Memorial.

## Record Attendance Achieved At The Freshman Smoker

**Class of '46, Parents Pack Walker Memorial For Annual Festivities**

(Continued from Page 1)

The Alumni Association, made the presentation of a key to Walker Memorial to S. Richard Childerhose, president of the Class of 1943. This was followed by the induction of the Class of 1946 into the Undergraduate Association. This ceremony, innovated this year, will be a regular part of all future freshman smokers. It is intended to remind the incoming students that an Undergraduate Association exists and to impress upon them their responsibility as students at the Institute.

The guest speaker of the evening, Commander Luis deFlores, '11, Bureau of Aeronautics, U.S.N., then spoke. Following this, Dean J. W. M. Bunker, chairman of the M.I.T. Safety Committee discussed the regulations which have been imposed on and by the Institute due to the exigencies of war.

Orville B. "Obbie" Denison, '11, then sang in his inimicable way, and movies were shown by the M.I.T.A.A. and the evening was closed with the singing of the "Stein Song." Following the gathering in Morss Hall, a reception for the fathers of entering students was held in Pritchett Hall.

## Latest Addition To City Planning Course Announced

(Continued from Page 1)

nel is to be available at a later date to meet the demands of the post war reconstruction period.

The new undergraduate course at Technology under the direction of Professor Adams, includes preparatory subjects in engineering and in natural and social sciences with the object of developing in the students an understanding of basic principles and relationships. The content of the third and fourth years is primarily technical in character with emphasis on the economic and administrative aspects, but the students will also spend some time in working out on the drafting table actual problems in the field of regional or city planning.

## Glenn Leggett, Middlebury, '40, Is Debate Coach

**Will Coach Debaters And Teach General Studies In Debating**

Mr. Glenn H. Leggett, Middlebury, '40, has been appointed coach of the Technology debaters. He will not only coach the Institute teams, but will also teach general studies in debating. These four hour general studies will train students to think on their feet and will be aimed at the whole student body as well as men particularly interested in debating.

The new debating coach taught at Ohio State University before coming to Tech. At Middlebury he was an unusually successful intercollegiate debater and once faced (and beat) a Technology team.

## COMPARATIVE SCHOLASTIC STANDINGS OF UNDERGRADUATE ACTIVITY, DORMITORY, AND FRATERNITY GROUPS (Based on June, 1942, Ratings)

## Medical Appointments Must Be Made By Nov. 1

Before November 1 all undergraduates must make appointments at the Homberg Infirmary for the annual physical examination required of all students. Appointments may be made with the secretary of the medical director in the first floor office of the infirmary.

Any student who fails to make an appointment before the deadline of November 1 will be subject to a \$5.00 fine.
