Clinton Kemp Is Elected T. C. A. Head
Other New Officers are E. C. Crocker, S. Atlas and C. Holt

Clinton C. Kemp, '43, was named president of the Technology Christian Association at the election meeting of the organization, held in the main lobby last week. Mr. Kemp is a member of the squash team, and was chairman of the track club this past year.

A feature of the vote was the presidency which will be held by Sid F. Atlas, '43, last year's manager of the boys' work division. At a meeting of Mr. Atlas, '43, with the manager of the boys’ work division this past year, was elected manager of that group.

The Tech will open its season March 14 in the Faculty Assembly Room.

Men - Lost Recently

Mr. Jarosh said that there were many men who had lost touch with the Institute. He knew that there were many men of the year who worked for the Institute who swam on both teams yesterday. This he went on to say, with the affirmative.

Swimmers Need Replacements For Men Lost Recently

The varsity swimming team advertised so that each man has only to swim in one event in each meet, said Captain Bill Duffield of the Varsity swimming team. The team leaders want to explain is impossible with the few men which are now out for swimming. Many of the men on the team are out for more than one event, and they cannot swim.

After tomorrow's meet with Brookline, there are three regular meets for the Varsity and junior varsity teams. The last one is Tuesday, March 14.

Debating Team Defeats B. C.

KEY WORD: COOPERATION

The seriousness of the military situation at Technology and its effect on student activities can not be over-emphasized. Dean Bunker warns us in his statement on page one that "adequate protection may occasion temporary inconvenience to the individual."

The troops on guard duty have a particularly difficult job; made more difficult by the continual coming and going of students, faculty, and visitors. Some of their demands may seem unwise at the moment, but it is the responsibility of the student to cooperate with these demands in spite of his opinion of them.

It is one of the little tests of a country at war that what its people shall obey the rules formulated by the officials who know what is best for the country's needs, but that the student body has sacrificed some of its peace time privileges; it must continue to cooperate as ungrudgingly as it has in the past.

LEARN HOW TO STUDY

The Class of 1946 is evidently not interested in knowing how to study. This would be the inference drawn by any observer who witnessed the poor turnout of freshmen at the first of the series of "How To Study" lectures being currently delivered by Professor Magon. An even dozen was present at the opening session last Monday; not many more were on hand when that lecture was repeated yesterday.

After their first hectic semester at the Institute, freshmen may begin to realize the benefits to be derived from a thorough knowledge of how to study and from an organized application of that knowledge. It is this information that the Student Faculty Committee, sponsor of the series, is trying to convey to those who probably need it most. As a crucial moment of the year, when a student's power of concentration and interest in his studies is noticeably reduced by the "it-doesn't-make-a-bit-of-difference" stage of the winter blues, it is his custom. Presently his studies are conducted in the most formal and Yet, as the student realizes that there will be no second helpings, and that there will be extra charges for "shoestring," the above statements will be seen not the least as a friendly warning. Young veteran, work is much more exacting.

We recommend that the members of the Class of 1945 take a more enthusiastic interest in the "How To Study" lectures and take advantage of the aid which is being offered to them. Their progress now will be of value to them for at least three years to come.

PAPER SHORTAGE

A serious paper shortage faces the United States, and Technology students can contribute to the preservation of only one side of their homework papers. In some instances it is the request of the professor, in others, the idiocy of the student that causes such a situation to exist.

If one student could conserve 500 sheets of paper in one year by using both sides, the entire Institute of approximately 3,000 students could conserve 1,500,000 sheets, a considerable savings of the nation's resources.

In the interests of patriotism, certain members of the faculty can change their practice of accepting only one-sided homework papers, and certain students can put away their eccentricities for the duration in an attempt to conserve paper.
The Tech's five best basketballers. (Although this may not be the lineup against Bates tonight, they are (left to right): Jerry Cox, Co-Captain Ernie Actz and Jack Whelan, George Mazurkas, and Bob Dolan.)

Beavers Prime For Big Meet
Tech To Enter N. E. A. A. U. Meet To Be Held At Tufts
M.I.T. is entering a team in the N. E. A. A. U. track and field meet which is being held this coming Monday at Tufts. The meet was originally planned to be held at Andover, but was transferred because of a scarlet fever epidemic at that school.

According to track coach, Oscar Hoolihan, the Beaver team will be as follows: 10 yd. dash, Bob Merritt, high hurdles, Lawrence Stewart, and Herman Beecroft, 100 yd. run, Bob Brady and Bill Botten, Warren Spear will run in either one of the mile races, half of the 220 yards, and the high jump. Dick Putnam will do the shot put, and Bob Wardham the 35 lb. hammer. In addition, there will be a relay team consisting of Merritt, Stewart, and Brady.

In addition to the N. E. A. A. U. meet on Monday the freshmen will have a meet against the Williams men on Sunday, and there will be one of the regular handicap meets with other schools.

International Meet Next Week
On Saturday, February 28, the intercollegiate meet will be held at the Barbour Field House at Williams. As each member of the teams in this meet will receive a prize, the meet will receive class numbers. All others who place will receive class numbers.

Ski Teams Will Cross The Border
The Ski Team of 35 lb. hammer. In addition, there will be another line to spell the

Ski Team To Try For College Title
The Beaver skiers will be competing for the International Ski Union Championship, in the Senior Division of the New England league, at Middleville, N. H., this weekend.

Technology's representatives are Hans AachensOOM, the present skipper of the team, who is being supported by Pitt McCollum, and Charles A. Granger. Without doubt the team will win.

Ike Klein.

Harvard Ekes Win From Squash Team
Sheetz, Hinshchman Win As 3-2 Defeat Breaks
Institute Win Streak
The M.I.T. first men's team met its first defeat in three meets, at the hands of the Harvard Club Wednesday, on Harvard's court.

The match was well-fought and closely contested. For the first time it appeared that Technology would win, as our first two men scored victories. However, three consecutive defeats turned the tables. Our winning was No. 1 man, Shearin, who won, No. 2 man, Louis Neigle, who also won, No. 3 man, Charles Connet, who lost, No. 4 man, John Barry, and No. 5 man, Charles Mayne.

Captain Sheetz and Louis will compete in the Inter-Collegiate Tournament which is scheduled for February at Yale University.

New England. Some of the bright top notchers in the first three meet have not been used as much in recent games. However, in the preliminary encounter, when they got off to a fast start in the pre-season's showings to date.

Gordon Findlay swimming for the varsity team, will be a very interesting race, with a special "tiger brand canister" what (which ever that may entail). Girls interested in driving may register in the Motor Corps Division. . . .

It was during this period that Cal got his first defeat in three meets, at the Motor Corps Division.

The match was well-fought and expectedly arranged. The other members of the team are: George Anderson, 42, who is among New England's outstanding all-around and parallel bar performers. Charles Curren, who did extremely well, and Robert Maxwell, who takes care of the horse competition.
