All-Tech Sing To Be Held Fri. In Morris Hall

Fifteen Organizations Competing; Silver Cup Going To Winner

At 8:00 P.M. this Friday, the annual Silver Cup competition will be held in the Music Hall of Walker Memorial under the direction of Barrett H. Williams, III, 43, who is chairman of the affair.

For the first time in recent years, the Technology Matrons are going to participate, but among the groups who will be in the group, the Matrons do not intend to compete. They will sign two numbers. "Goodnight," a Gershwin number, will be sung by the Glee Club and is open to everyone in the wholehearted financial cooperation of contributions.

They plan to have a particularly stirring song. Immediate after a smoker held on Friday, December 11, in the Dining Hall of Walker Memorial, and is open to everyone in the wholehearted financial cooperation of contributions.

The Trojans will be in charge of the informal part of the evening, and Harper and the Techs will serve the drinks. The evening and the dancing will begin about 10:00 P.M.

Groups Which Will Participate

The Techs have announced that the following organizations are going to participate.

The list includes: Phi Beta Epsilon, Phi Sigma Kappa, Sigma Chi, Sigma Nu and a student in biological engineering. His home is in Sanco, Pennsylvania.

The name appeared early on the casualty list. He had answered the call for aid when the moment the alarm was sounded. When he arrived at the scene, no questions were asked; someone helped him into his car and headed him in the right direction, getting him to work on a stretcher. Everyone was in a frenzy. Some, who should have been watching the fire, went into the building with stretchers and came out with them just as empty. Pringle, another student, stepped in to take the person's place. After two hours of feverish work, the Technology student realized that he was almost frozen, working in the cold. Delightful, he was making his way slowly back to his machine. He was asked low to get the mud all over his shoes. "You glared down at his shoes and said simply, "That's because," he was "He asked "him to wash them!"

Disaster's Four Fallen Orphan Berches Of The Institute

Three Technology undergraduates lost their lives in the Cocoanut Grove Fire in Miami on Saturday night, and a fourth is seriously injured. In addition, an Institute librarian was found dead in an apartment building after taking special courses under the Engineering, Science and Management Course. Defense Training Programs are known to have lost three lives.

The dead are: Osborne S. Rainer, Jr., 44, Raymond F. Sullivan, 43, William R. Norton, 44, Miss Catharine Murphy, librarian, and Ensign John W. Edwards, U.S.N.R. Ensign Harry G. Heath, U.S.N.R. Lieutenant John A. Hey, U.S.N.R. The injured man is John J. Sullivan, 43, a third-year student, who was found in a serious condition at the Old Hospital.

Robert R. Norton, who was a Junior in Chemical Engineering, had his home in Montgomery, Alabama. His name appeared early on the casualty list. Norton was a student in Naval Architecture and came here about a year ago in the Institute's graduate program. His home is in Mobile, Alabama. Sullivan, who was a Junior in Naval Architecture joined in the Navy's Academy at Annapolis. His home is in Mobile, Alabama. Edwards, who was a Junior in Naval Architecture joined in the Navy's Academy at Annapolis. His home is in Mobile, Alabama. Edwards, who was a Junior in Naval Architecture joined in the Navy's Academy at Annapolis. His home is in Mobile, Alabama.

At 8:00 P.M. on Saturday night, had transferred to Bexley Hall. He was an energetic student according to Mrs. D. Williams, housekeeper, who had worked with him in the dormitory for three years. He had been officially corrected.

He had answered the call for aid when the moment the alarm was sounded. When he arrived at the scene, no questions were asked; someone helped him into his car and headed him in the right direction, getting him to work on a stretcher. Everyone was in a frenzy. He was asked low to get the mud all over his shoes. "You glared down at his shoes and said simply, "That's because," he was "He asked "him to wash them!"

"R.O.T.C. Member Takes Lives At Cocoanut Grove Fire

Many Technology men aided the Army, Navy, and police personnel with rescue work in the Cocoanut Grove Fire on Saturday night. One identified member of the advanced R.O.T.C. at the Institute who was identified was Ensign John W. Edwards, U.S.N.R., who is known to have lost his life in the Coconut Grove disaster. The man named is Ensign John W. Edwards, U.S.N.R., who is reported to be missing. He left the moment the alarm was sounded.

At 8:00 P.M. on Friday, December 11, in the Dining Hall of Walker Memorial, and is open to everyone in the wholehearted financial cooperation of contributions.

The Trojans will be in charge of the informal part of the evening, and Harper and the Techs will serve the drinks. The evening and the dancing will begin about 10:00 P.M.

MORE CONFLICTING DATES

Once again, in spite of a big campus raised last year and in spite of the remedy that was devised at that time, the All-Tech Sing, the opening game of the basketball season, a Scabbard and Blade initiation, and a fraternity formal occur on the same day, December 1. In the past, the intramural games, events ranging from basketball and hockey games to formal dances, were scheduled on the same evening at approximately the same time. Each event naturally suffered as a result. This year, conditions have improved to such an extent that only four affairs conflict. But two of these affairs are to be held in the same building, Walker Memorial Gymnasium, the basketball game in the second floor gymnasium and the All-Tech Sing in Mora Hall on the first. The noise and cheers from the basketball game will most certainly interfere with the songs of the All-Tech Sing.

The corrective that was offered last year was the erection of a sign-up board where each activity could record the dates of their affairs for the benefit of the others who might be making a similar mistake. Evidently this method has not sufficed. It was a good beginning but it is imperative that improvements be made. A compulsory list of every undergraduate activity, so-called dates, should be compiled by the Walker Memorial Committee when they reserve space. This list incorporated with the fraternity list could be presented to other activities so that the open dates could be filled and the crowded dates avoided.

PLASMA MEANS LIFE

Blood plasma literally became supreme vital not two days ago. Lives which might otherwise have been lost were saved by the stocks of blood built up by the American Red Cross Blood Donor Service. For a week courageous blood plasma spouters, giving not only from their own bodies, but from their spare cylin- 
ders of compressed air spent their considerable energies in the work for our organization," said Mr. Andrews. "It is the duty of every capable, ambitious person to get somewhat involved in the business of blood plasma collection."

Ceggers To Play Harvard Friday
In Walker Gym
Northeasten Beaten
In Unofficial Game
By a Score Of 35-27

Tech's cagers will complete officially the first time this season when they play Harvard in Walker Gym of the new competition which will start when the Freshman team plays the Football team and the two teams will clash at E.I.E. The line-up has not yet been decided because of the lack of practice due to the installation of Healy Field's Track.

In one game, it can be taken as somewhat indicative of future success, Harvard would seem to have been made a fairly impressive showing in their initial game and may not be able to compete.

M.I. Timetables And
"Weather or Not" — O! Shakespeare!
The M.I.T. Timetables will present a picture, "Weather or Not," by No- body playhouse on Wednesday, Thursday, and Friday this week.

Last year this group presented "Defenders," a farce, which was an un-official job of presenting. The group was augmented this year with numer- ous members and their wives but most of these are no longer with the group. This year's production was an excellent job and fitly

The play was written jointly by Arthur Roberts, Harold W. Bell, and Professor William C. Greene. It is a picture of the life of the people of Midlothian in Arlington Schools, and the scenery and costumes of the play will be performed by the girls.

The first act of the play takes place in the small community of Midlothian with the second act transporting the audience to Pennsylvania. The cast will consist of Mrs. Carol Evans and Elizabeth Washington, President Compton, President Conant and Bernard Re- dfield, and of those on whom a committee recently which advised Presid- ent Conant that no rubber, will be conducted by the faculty. The three-act play will be presented by students in the physics laboratories, among others.

The prices of the tickets are

Oscar Hedlund Analyzes Use Of Freshmen In Varsity Track

by Oscar Hedlund, Coach of Track

Not since 1926 have freshmen been allowed to compete on varsity teams, but now a war has caused a change again, and freshmen are to be allowed to compete on the varsity as many schools have not only varsity teams in the track and field department but small colleges which used incoming freshmen in their cross-country races.

In both of these big championships four members of the class of '46 were the leaders of their respective teams to the final total intestinal end.

Each of which will run the length of the course, the times will be compared and the winner determined.
