Adv. R.O.T.C. Ordnance Unit Is Expanded
29 Juniors, 50 Sophs Will Be Selected
To Complete Unit

The Ordnance unit of the Military Science and Engineering department has been expanded for the advanced R.O.T.C. course in accordance with a recent expansion of the Army training schedule. Under the new arrangement, 100 military science students will proceed to the training center at Institute of Technology, instead of 62 as in the past. In order to accomplish this expansion, 29 men are to be taken from the present Junior class in addition to 50 Sophs. Since these cadets who are in the student body will not be trained at the Institute of Technology, but will complete their training here, the company is entitled to receive additional classes.

C.P.T. Program To Begin March 1
20 Students To Enroll In Primary Component:
Reserve Officers' Training School

Pilot training for Institute students under the Civilian Pilot Training Program is set for a second term about March 1, Professor R. H. Smith, head of the department of Aeronautical Engineering, has announced. The program is for cadets in their sophomore or junior year, and it is intended for those who may be Pan-American students.

Upon recommendation of the Army department, the department of Aeronautical Engineering has been selected as the center for the Army training. The training will involve a considerable amount of class time, and therefore the cadets will have to be free from all other duties.

Some changes have been made in the requirements for selecting the cadets. A physical examination, which is the same as that required for students in the Army engineering school, will now be necessary. The tests are for all phases of the training.

Alumni Banquet Plans Announced

All men who will graduate in either April or June are to be in attendance at the alumni banquet, which will be held on Thursday evening, April 30. It will be held at the Hotel Statler. All cadets in the class are invited to attend at their personal expense.

FACULTY APPROVES SPEEDUP
Summer Term To Begin June 8 Through Sep. 12

Several factors under the direction of the Student-Faculty Committee, will be considered when determining the "Distribution of Time" at 2:00 P.M. next Monday.

It is strongly urged by the Student-Faculty Committee that all men avail themselves of this opportunity to learn how to dis- tribute time for the next term. Because of the holiday last Mon- day no lectures were given this week, and therefore the assignments for next Monday and Thursday will be delivered, however. The Thursday lecture will be held at 2:00 P.M.

A.S.C.E. And A.I.E.E. Joint Meeting Planned

Mr. Donald K. Howey, a gradu- ate student, will be the speaker at an informal evening of the American Society of Civil Engineers and the American Institute of Electrical Engineers which will be held on Thursday evening, April 23. Mr. Howey is a graduate student at the Massachusetts Institute of Technology.

Pucksters Down B.U. 4-2, Break Two Year Losing Streak, Play Bowlidin At Arena Tonight

Tech pucksters, launching an all out offensive in the last period, broke a 2-2 tie to win 4-2 over the B.U. sextet in the Arena Tuesday evening, thus efficiencies of their vic- tory in the New England Inter- collegiate League after a two-year losing ending Winter Intercollegiate last game of the current season, the puck- pointers face the Bowdoin boys at the Arena tonight at 7.30.

Dick Better, high scoring wing, started the ball rolling early in the first period when he drilled the pelts into the B.U. cage on a pass from Kane. Six minutes later, Johnnie Arnold, also on pass from Kane doubled the score to a 2 to lead for Tech in the last five minutes of the first period. Before Burns was whistled and Corning, slipped two counters for B.U. into the Engineer net to tie up the score at 2.

Described at 12
The game was deadlocked at a 12 all at the end of the second period. The goals made thus far in the forwards and defense men threatened to break through the cages. At the begin- ning of the third period, the Tech's resistance dwindled, and the cost of the brilliant efforts by Ed Edmunds and Dick Better, who drilled at the net, would not have scored, but for his fine play.

In the last five minutes of play Arnold, an F, who had plumed the day in which it equaled of scoring, added a goal to their first league win in two years at the expense of B.U., 4-2.

Cagers End Season Tonight
Good Chances Against Lowell Textile Here
In Hangar Gym at 6:30
Winding up their season tonight against Lowell Textile on the home court in Hangar Gym at 6:30, the varsity basketball team has an op- portunity to even up its record for the season, and to keep the state of home games tree of defeat. The record of the team thus far stands at four wins in nine starts.

Co-captain Jack Whelan has said that he has seen enough of illness since midyear exams, was at practice during this week and is expected to take action in tonight's game. Tom Dolan and George Marazika, who suffered during the last game from weak ankles, have been getting plenty of exercise and are expected to be in excellent con- dition for the game. With these men back, the team will be prob- ably up to its full strength, and should show up well with a strong Lowell team.

The Lowell Textile team, paced by star Pelusi has won half of its games, which have been with teams of the same caliber as those which our team has been playing, and therefore will be a very good match for the Beavers.

Peterski, who plays left forward, is rated as one of the top ten high scorers in New Eng- land, and has thus far gaged up about fifteen points in one game. He is playing his third year for Lowell and has starred each year.

The hockey team which won its first league victory ever Boston University Tuesday evening, will play against Bowdoin tonight. The game is at the Tech Rink, left Tuesday, with Johnnie White, Johnnie Curley, Bertrand, Bill Verveclo, Bob Gillim, Johnnie Neal and Roger Paterson, slated (left to right): Johnnie Arnold, Dick Small, Ed Edmunds, Dave Christison, and Fred Kaneb.

Classes Contend
For Track Honors in Annual Meet
By Gard Sloan

Once again the indoor intramural track meet rolls around. The events, as usual, will take place on the indoor track behind the swimming pool and in the “bara.”

The annual meet is the main event for the track men who have graduated. Among them will be Len Jones, who captained the track team last year.

Already quite a few men have signed for the contest, and the competition, it seems, is going to be keen. It will be remembered that the McGuiness won the last inter- class meet last fall, and now Osoa, previous victory for the Junior class.

The freshmen and seniors, we are sure, will be far from behind in, if, they do not win.

The prizes as usual will be liberally distributed among the winners. a Ty and freshmen get nomenclatures. In addition, there will be a special prize awarded to the high-scoring freshman.

Tech Gymnasts
Edge Out McGill
By 44-12 Margin
Week-End at Montreal
Boston University Wins Over Canadian Team

Technology's gym team edged out McGill University re- cipients by a score of 46 to 4 in a meet held last Saturday, February 21, at Montreal. Of the six events contested, our gymnasts took first place in five, tying the McGill team in the flying rings. The freshmen and sophomores, as usual, will not be far behind if, in the competition.

The B.U. man who came in sec- ond in the flying rings.

This meet, the first to take the University meet Wednesday night. The B.U. man who came in sec- ond to Loveland was heard to exclaim as he climbed out of the pool, "Where the devil did he get his wind?"

Swimmers Sink B.U. Wednesday
As Marks Fall
Brestroak, Relay Records Set As Team
Scores 49-26 Victory

In their first home meet of the season the returning team defeated Boston University in the annual pool meet Saturday night by the score 48-26, to break a long- standing losing streak.

In the opening event the Techno- nology swimmers set a new medley relay record of 1:28.8 sec- onds, with a team made up of Gage, McKechnie, and Landes. In the second event, the 235 yard fly, Ed Edmunds, gave the Beavers a good race with Root of Tech placing third. Landes’s time was 2 minutes 20.7 seconds.

Tech Gymnasts

Loveland's Freestyle
A little bit late comes the story of Ed Pepper at the Brooklyn swimming meet. Where Jack Loveland swam his 100 meter breaststroke race in his usual way of leading for the first half of the race and passing on the double for the last, the Brooklyn man fooled him and started to sprint for the last 100 yards also. Pepper stood up by the beach and shouted, "You ain't supposed to do that." Apparently the Brook- lyn man couldn't understand Pepper, however, as he went ahead and won Loveland.

This same race caused some confusion in the Boston Uni- versity meet Wednesday night. The man who came in sec- ond to Loveland was heard to exclaim as he climbed out of the pool, "Where the devil did he get his wind?"

The freshmen and seniors, we are sure, will be far from behind in, if, they do not win.

September 13 to September 27. The three full-time members of the committee are
responsible for the summer semester, and thus these will be no carry-overs from the summer to the Fall term.

Two Summer Terms
Details of programs for the summer semester have not been announced yet, beyond the fact that the examinations for the three summer terms have been divided into two periods each of approximately seven weeks each.

The summer is divided into two periods, each of approximately seven weeks each.

First-term subjects for Seniors
Even in the Senior term, the summer term will not be repeated for seniors in the Fall term, and second-term subjects for Seniors given in the Fall will not be repeated for Seniors in the Spring term.

Summer Work for Others
The Faculty also approved a proposal that during the war period undergraduate students of the Institute be required to obtain employment related to the war effort during summer periods when not engaged in academic work, and that they be required to submit to the Budget Comm. and its appropriate officers at regular intervals a report describing the duration and type of summer work engaged in by the student.

No definite change of registration was approved at this meeting. As a result of the new Manpower Program, the Institute will not provide for the good name of the Undergraduate Association. He added that the position entitles the holder to practice social responsibility and economic problems. Sid F. Atlas, '43, is Technology's representative for the Work Camp Association of the Third Army.

Beaver Key Elections
The present Beaver Key elections were those at no duties are empty honor, in that no duties are

Ker. Comm. Report
The report of Carl B. McCann, of the Beaver Key Committee of the Undergraduate Association, was accepted by the Executive Committee at its first meeting, with the same as before.
