

Meals No Longer To Be Available In Morss Hall

Pritchett Hall Still Remains Open During Lunch Hour; 11:30-2

At 2:15 P.M. last Tuesday afternoon, the Morss Hall Dining Services were closed to civilians for the duration of the war. The reason for this procedure was the influx of army personnel sent to Technology for various reasons.

While it was known for some time that the dining services of Morss Hall would be devoted exclusively to military use, the actual closing of the dining room came suddenly. This arose from the fact that Mr. Albert W. Bridges, Manager of the dining services, tried to stave off the actual exclusion of Institute students, staff members and workers until the last moment.

In the future, Pritchett Hall will be open daily to Technology personnel between the hours of 11:30 A.M. and 2:00 P.M. There will be no supper served for the duration. The Lounge Bar will remain open each day from 11:30 A.M. until 10:00 P.M. To avoid more congestion than is expected to occur, monitors have been posted at all entrances to Walker Memorial. These monitors have been instructed not to permit persons other than members of "the Tech family", as the Institute personnel have come to be known.

Marriage Talks Finish Next Tues.

Dr. Dearborn To Give Last Lecture In Series

Last Tuesday afternoon at 4:00 P.M. and again at 5:00 P.M., Dr. Lester W. Dearborn, prominent psychologist and director of the Personal and Marriage Council of the Boston Y.M.C.A., delivered the third talk of this year's marriage lecture series in Huntington Hall.

Discussing the "Period of Courtship", Dr. Dearborn described the impulses which accounted for persons seeking marriage at different ages. He spoke of those psychological reactions occurring at various stages in one's life, which lead one to seek a mate. A group of 450 persons heard the first talk, and there were 275 persons at the 5:00 P.M. lecture. This total of 725 in attendance is above that for the comparable lecture given in last year's series.

Concluding the T.C.A. series of marriage lectures, Dr. Dearborn will again speak next Tuesday afternoon, when his topic is to be "Marital Adjustment." This series of talks was under the supervision of the Meetings Division of the T.C.A. As at the previous lectures, all students, faculty members and other persons connected with the Institute are welcome to attend.

Sigma Xi Asked To Attend Lecture By Dr. Conant

The Harvard University chapter of the Society of the Sigma Xi, honorary research society, has invited the Technology chapter of that organization to attend a public lecture by President James B. Conant, of Harvard, on "Science and Society in the Post War World".

This talk is to be given at 8:15 P.M. on Monday, April 5, in the Sanders Theater, in Memorial Hall, Harvard University. All students and members of the staff at the Institute are cordially invited to attend the lecture.

Technique Pictures May Still Be Made At Studio

Those Juniors who haven't had their pictures taken for the 1944 Technique may make arrangements to do so by getting in touch with the Cambridge office of the Sargent Studios. Friday, April 9, is the absolute deadline that these pictures may be taken, according to William B. Scott, '44, General Manager of the annual.

The studio is located at 1300 Massachusetts Avenue, and the telephone number is Kirkland 7196.

Those members of the Class of 1944 who have not as yet filled out a biography blank are asked to do so as soon as possible at the Technique Office, Walker Memorial Room 309.

All Elections Set For May 5

Solons Plan Comm. For Summer Dances

The date for the election of the Junior Prom Committee, the Senior Week Committee, the class officers of the classes of 1945 and 1946, was set for May 5, at the Institute Committee meeting held yesterday afternoon in the Litchfield Lounge. The election of men to the Beaver Key Society was also set for that date.

The formation of a sub-committee of the Institute Committee to investigate the possibility of running one or more large dances this summer was discussed by the Institute Committee.

A motion was finally made to form a committee of three men to investigate the situation and report to the Institute Committee at the beginning of next term in regard to a social program for the summer. The committee was not appointed yesterday, but this will be done by the Executive Committee of the Institute Committee in the near future, according to George A. Schutte, '44, President of the Institute Committee.

One more Class B activity was dropped from Institute recognition at the meeting yesterday, in the Walker Memorial Committee's drive to suspend all defunct Class B activities. Three societies were originally brought up to be suspended, but it was found at the meeting that two of them, the Association of General Contractors of America,

(Continued on Page 4)

T.C.A. Has List Of Incoming Men

The T.C.A. has prepared a list of the incoming freshmen for the use of the fraternity rushing chairmen of the various fraternities here at Technology. This list, prepared through the courtesy of the Admissions Office, contains the entering student's name, address, religious preference, prep school, and date of birth.

The lists are being mimeographed and will be ready for distribution at 12:30 P.M. Saturday, April 3, in the T.C.A. office in the basement of Walker Memorial. The lists have been reserved, one for each rushing chairman. To enable these men to pick up their copies the T.C.A. office will remain open until 1:30 P.M. Saturday. If the lists are not called for they will not be sent out.

The list are prepared by the Information Department of the T.C.A., David R. Clare, '46, director. This list is only a partial one of incoming students, and another and more complete list will be put out in the future.

184 Men In E.R.C. Take Army-Navy Examination Today

153 members of the Army Enlisted Reserve Corps were registered last night to take the Army-Navy Examination this morning from 9:00 to 11:00 A.M. according to Professor John D. Mitsch, Armed Services Representative at the Institute. In addition to these men, 31 students took the examination to try for the Navy V-12 College Training Program. The examination given in rooms 3-440 and 3-460 entitles the members of the ERC who pass it to a certificate showing the mark they receive, which may be presented at the time of their call to active duty with the Army.

The men who took the exam in order to qualify for the V-12 program, will later be given a physical examination and an interview by a selection board to determine whether they will be allowed to enter V-12. This selection board, which will be made up of an educator, a Naval officer, and a prominent civilian, will make the final decision as to whether or not a man will be admitted to V-12.

V-1 Exam is April 20

This examination today was entirely separate from the examination which is to be given on April 20 for Sophomore members of the Navy V-1 program, and both freshmen and Sophomore members of the Marine Corps Reserve. The members of the Marine Reserve will only take part of the examination which is to be given in both a morning and afternoon session.

The Navy, in its announcement of this examination, stressed the importance of the presence of all members of the reserve, as this examination is necessary in order for a man to continue in V-1, as well as to be taken into V-12 when the latter change comes about on approximately July 1.

Technique Sales To Begin April 5

Plan Many Different Features For New Book

Advanced sales of "The 1944 Technique" will begin on Monday, April 5, 1943, in the Lobby of Building 7. According to Henry N. Bowes, '44, Business Manager, it has been decided to continue the pay-as-you-go plan of accepting a pledge of \$2.00 during the first few weeks of the drive. Although the book is priced at \$5.50, students who redeem their pledges by early May will get "The 1944 Technique" for only \$4.50, a representative discount of almost 20 per cent.

The discount is offered as an inducement for early sales, since it is by these sales that the Technique board is able to make out the yearbook budget. According to the auditor's report of expenditures for the 1943 technique, the income from sales pays just 43 percent of the publication expenses. The price of the book must also include the cost of postage for shipping the books to those students who will not be at the Institute at the time of publication.

Will Come Out In July

"The 1944 Technique" is scheduled for July publication. Many sections of the dummy copy have already been planned, and most of the fraternity articles have been edited to fit the page layout of the fraternity section.

According to William B. Scott, '44, General Manager, "it will, by combining striking photographs with several short but revealing articles describing the contem-

(Continued on Page 4)

I.F.C. Sponsors Three Dances On Saturday Night After Formal On Friday

Mixed Swimming Slated For Weekend Of I.F.C.

According to an announcement by Fred Cavanaugh, president of the Tech Swim Club, the swimming pool will be open for mixed swimming on Saturday afternoon April 10 from 2:00 P.M. to 6:00 P.M. This has been arranged for the convenience of those attending the I.F.C. sponsored All-Tech Formal.

Over 450 Persons Will Be At Dance Tonight In Gym

Students, Secretaries To Meet And Frolic From 9:00 Until 1:00

Announcing that about 25 tickets will be on sale at the door this evening, Carl C. Schneider, '44, chairman of Committee said last night that over 230 tickets have already been sold for the Secretary-Student Acquaintance Dance. Miss Margaret Sullivan has distributed over 250 invitations, and from 200 to 225 girls are expected to be in attendance tonight.

The dance is to begin at 9:00 P.M. and will continue until 1:00 A.M. Bert Edwards and his orchestra will provide the music in the Walker Memorial Gym, which will be made attractive by unusual lighting effects, although no decorations have been planned. The committee has decided on a number of stunts which will make for better mixing among the secretaries and the students.

The Dormitory Dance Committee consists of Schneider, John A. Cornell, '44, Joseph P. Day, '46, Andres A. Freitas, '44, Walter J. Freund, Jr., '45, Harold A. Miller, '44, John C. Page, '46, Elbert B. Pritchard, '44, Robert D. Maher, '45, Anthony Staros, '45, Marshall R. Rosenberg, '44, Norman S. Schulman, '44, Jack L. Uretsky, '45, Charles C. Littlefield, '44, and Robert M. Johnson, '44.

Groups To Choose Embassy Speakers

The Fraternity Steering Committee for the Seventh Annual Tech Embassy was formed at a meeting of the fraternity representatives last Monday. The members of this committee are Gorden D. Shingleton, '45, Sigma Chi, Robert L. Sundblad, '45, Theta Chi, and James B. Weaver, '44, Phi Gamma Delta.

This committee has sent letters to the various fraternities asking them to choose the ambassador that they would like to have visit them. A list of likely choices, compiled by the T.C.A. of men who had cooperated before or would probably be willing to act, was also sent to try to help the houses to make their choice. They have set a deadline of April 7 as the date by which the ambassadors should be decided upon and contacted.

To Be On Good Friday

The embassy will take place this year on Good Friday, April 23. The ambassadors chosen by the fraternities will meet first in the Moore

(Continued on Page 4)

Table Reservations To Be Made In Lobby Monday And Tuesday

Three houses will give dances on Saturday night, April 10, in conjunction with the All-Tech Formal being given on Friday, April 9, by the Interfraternity Conference, it was announced last night by Lewis Tyree, Jr., '44, chairman of the dance Committee. The houses which are to give the dances are Sigma Alpha Epsilon, Phi Sigma Kappa, and Phi Mu Delta.

Table reservations for the Friday night dance will be made for those men who have not as yet made any in the Main Lobby of Building 10 from 12:00 Noon to 2:00 P.M. next Monday and Tuesday, April 5 and 6. Table reservations at any other time can be made by contacting William S. Richardson, '44, who is in charge of the tables.

Ushers Wanted

Sten Hammerstrom, '44, has been appointed the head usher for the Friday night dance, and Tyree said that anyone interested in being an usher should contact Hammerstrom. The chaperones for the dance have not as yet been announced.

A few tickets for the dance are still available through the Sigma Nu and Theta Chi houses, according to Tyree. The price of tickets is \$6.60.

One of the bands for the dance is to be Sabby Lewis, who will accompany Ella Fitzgerald and her singing staff. Lewis' band, which was recently heard on the Fitch Bandwagon, is now playing in Toronto, Canada. The other band is to be Joe Massala's, hailing from New York. Massala has made quite a name for himself down there. The dance committee plans that by having two orchestras the crowd will be able to dance at different times, and thus relieve congestion on the dance floor.

'44 To Have Ten In Tau Beta Pi

Upper Eighth Of Class Eligible For Honorary

Ten members of the Class of 1944 will be elected to membership in Tau Beta Pi, honorary engineering fraternity, in a special spring election to be held early in April, it was announced following a meeting of the Technology Tau Beta Pi society held in the Faculty Lounge of Walker Memorial Monday evening. These new members are to be chosen from the upper eighth of the class, which is to be invited to a smoker to be held April 13. Ordinarily elections are not held at this time of year, but loss of Seniors through graduation has resulted in the decision to hold this election so as to bring the society up to normal size.

At present the membership of the society consists of eleven Juniors and four Seniors, headed by Alan S. Michaels, '44, who was elected president of the society shortly before graduation. Other officers are Richard S. Bettes, '44, vice-president; Henry C. Bourne, Jr., '44, treasurer; Robert F. Kratz, Jr., '44, corresponding secretary, and Frank E. Carroll, '44, recording secretary.

At Monday's meeting it was decided to hold initiations on April 27 and May 6. Plans were also discussed for some form of social affair to be held sometime during the present term.

HEINE "THE FUTURE SMELLS OF BLOOD"

The what and the wherefore of our mortal enemies, the Nazis, has constantly challenged imaginative writers. With every new edition of every periodical is propounded a novel explanation of the Genus Germanus, and in many cases these explanations are ingenious beyond comparison but always there remains an inexplicable segment of the German mind which prevents complete understanding.

One man has truly fathomed contemporary Nazism. His words testify that he understood with uncanny accuracy the spiritual causes of material effects for before he died eighty-seven years ago, Heinrich Heine wrote, "The German revolution will not be milder and gentler because it was preceded by Kant's 'Critique', by Fichte's transcendental idealism and even by the philosophy of nature. These doctrines have developed revolutionary forces that wait only for the day when they can erupt and fill the world with terror and admiration.

"There will be Kantians forthcoming who will hear nothing of piety . . . Armed Fichtians will enter the lists whose fanaticism of will can be curbed neither by fear nor by self-interest . . . But the most terrible of all would be natural philosophers taking an active part in a German revolution and identifying themselves with the work of destruction.

"That talisman (of Christianity) is brittle. The day will come when it will pitifully collapse. Then the old stone gods will rise from the forgotten rubble . . . and Thor will leap up and his giant hammer start smashing Gothic Cathedrals. . . .

"And when you hear a crash as nothing ever crashed in world history, you'll know that the German thunder has finally hit the mark. . . . A play will be performed in Germany that will make the French Revolution seem like a harmless idyll in comparison. . . . You have more to fear from a liberated Germany than from the whole Holy Alliance with all its Croats and Cossacks."

Does this last sound familiar? It should. Herr Goebbels spewed boastfully an almost identical sentiment in a recent diatribe; these excerpts taken from The New York Times Book Review of a new English edition of Heine are more than prophetic. They tear the last shred of mystery from the German enigma. That Heine could accomplish this fact is tribute enough to his genius.

FUTURE OF ACTIVITIES?

With commendable foresight, the Institute Committee last night voted down a motion which would have removed Class B activity recognition from several associations on campus. In one case, the Physical Society was spared the axe until the Walker Memorial Committee could complete its survey of the group. In another case, the Association of General Contractors of America, one of the more active professional societies, was saved by the timely intervention of active members.

The project of clearing house by lopping off delinquent activities was begun by an enthusiastic Walker Memorial Committee which was rightfully disturbed at the number of societies which had lapsed into dormancy over a period of time. But with the manpower situation what it was, as of, for example yesterday, Class A activities may be forced to close shop for lack of support, in which case, will these functions be dropped as well from the roster?

Policy with regard to this problem should be tempered with an eye to conditions after the war when a vigorous new collection of students will seek out some means of further enlarging the scope of their collegiate activities. Would it not be wiser to offer these men a list of full-grown extra-curricular activities, ones with a past and with tangible records of existence?

Post-war return to normal civilian activities will undoubtedly be difficult. The awkward period could be considerably alleviated by intelligent action at the present time.

O. C. S. Students Write of Experiences; Stress The Importance of Expert Drilling

(Ed. Note: The following letters are reprinted through the courtesy of Colonel Putney and Major Buckingham. Student interest evoked by a previous printing of other letters received from former students now attending Officer Candidate Schools warrants the publication of those that follow.

The three writers are at present attending the Signal Corps O.C.S. at Fort Monmouth. The department of Military Science and Tactics has agreed to arrange for the fulfillment of several of the specific suggestions made in the letters.)

Dear Major Buckingham:

A few lines to you and the fellows in the Signal Corps unit are in order. I have been initiated into the routine of the Officer Candidate School and undoubtedly you will be interested to hear a little more about what goes on.

You have heard a lot about the discipline and routine from the other fellows so I'll just hit on a few of the high spots which they may have overlooked.

Leo Duval and I were separated the first day, as was to be expected. Luckily, he landed in the barrack Orvide Fortier is in, and he is bunking next to Fortier. I didn't land in with any of the others, but the majority of the fellows in my barrack are tops.

"Civilian"

The fellows haven't entirely gotten over the civilian appearance I presented the first two days I was here. So, I'm constantly being referred to as "the civilian". The only drawback to coming here as a civilian was the matter of getting a uniform. It meant just a little less spare time for the first few days. As far as the reaction of everyone is concerned, the uniform would have made little difference—everyone gets to know how long you've been in, and what your background is. I see no advantage in the fellows going through Devens or some reception center. (Except the red tape, of course.)

A hundred and one or more fellows were willing to show me everything that needed to be learned. How to make the bunk right, and get it tight, rolling the comforter, tying the barracks bags, the proper way of hanging clothes, arranging the footlockers, etc., etc.

Cooperation

It's more or less of a duty on their part around here. You see, a basic is placed between two upperclassmen; so, if the basic doesn't do things right, it's up to the others to see that he does. Cooperation is essential, and anyone who can't or won't cooperate, doesn't last.

Considerable stress is placed on personal appearance or military bearing. No one here appears in uniform unless he's just so—every button buttoned and polished, a glossy finish on shoes, hair cut short around the ears—and always a clean shave. You might stress the importance of presenting a good appearance at all times (not only at inspections—we are watched more closely than some think) to the fellows who are coming here.

Attention Necessary

It would be wise for the fellows at Tech to get accustomed to standing at attention while speaking to an officer or when reciting in class, and that means eyes straight to the front. Believe me, that isn't easy, especially when the inspecting officer almost kisses you to see if you're cleanly shaven. No one talks out of turn, and there's no hand waving while someone is reciting. Several fellows have already antagonized the instructors by asking a lot of questions about unimportant things.

Two short courses are thrown at you the first week—"Military Courtesy" and "Safeguarding Military Information". The instruction at M.I.T. was very useful and I'd suggest a little initiative on everyone's part to gain as much knowledge up

there as possible. I know that if I hadn't done that myself, it would have been tough.

Drill, Drill

Drill, of course, is very important. Cadence is not counted—and everyone stays in step. It means that everyone has to stay awake all the time and the fellow who does fall asleep doesn't last very long. You've got to know the I.D.R. forward and backward. As much as I knew it, I learned something new the first day. There is no such a command as "At close interval, dress right, dress." I heard about that before I had the chance of making the mistake of giving it.

Candidates are formally addressed as "Mister", or as "Gentlemen", when in a group. Reporting to an officer correctly is obligatory and any slip means a delinquency. As was mentioned in one of the letters you received, saluting all officers, and calling attention in a group is just natural, and no one fails to bring up the hand even if the officer doesn't look your way. You've got to stay awake or "on the ball" as we know it around here.

Living conditions are not tops, but that is to be expected. Beds are less than a foot apart, which means stepping all over everybody and everything when the bugle sounds at 5:45 A.M. Barracks are clean, however, and they must be kept so.

Candy!

The food is excellent, even though some of the fellows don't think so. Their civilian days are too far back to appreciate this—plenty of butter, meat, sugar, and all the chocolate bars (at 3c each) one wants are available at the PX. It's a healthy life and I'm all for it.

The tactical officers (those charged with maintaining the proper discipline) are tops, the real soldier type. In short, you've got to put in the greatest effort to attempt to equal their appearance and ability. They know their jobs thoroughly.

Most of the fellows coming through now are the "old soldier" type—men who have been in the army a long time, or those who have a good technical background. The current opinion around here is that the Signal Corps already has a large portion of the officers they're going to need in this war, and commissions are not flying thick and fast. This is evidenced by the decreasing members in the last few classes. In other words, the slope of the curve is negative right now. Technical background is important and those who haven't got it find this place really tough.

Morale is high, and the men really believe this is the top O.C.S. in the army. I haven't sufficient background to compare it with any other, so I'll take their word for it.

Physical Condition

My one criticism is the lack of physical training and participation in athletics. We do lots of marching, and lots of this at double time, but that's easy. Yet the old fellows don't think so. Any fellow in your unit can easily get in condition for this place by running on the track for a couple of miles every day for two or three weeks. Those who participate in some sport should have no difficulties here.

The M.I.T. fellows, contrary to the opinions they may have expressed in their letters, seem to be "on the ball". Two or three seem to think they are wasting time, but they are doing O.K. Also, they seem to be well up in the estimations of their classmates. I've seen all the M.I.T. fellows, but we can't seem to have one big get together. A couple of the boys take this place a little too seriously, and they won't even join the gang for a beer on Saturday night. Incidentally, there isn't much free time around here, and an 18 hour day is not uncommon. In short, this is no place for softies, and the fellows better make up their minds now that this is no picnic.

There's plenty to learn here—the courses are not a snap (except Math and E.E. and a few others). Anyone with the R.O.T.C. training should have no trouble—if they know how to utilize it. I think I've surprised a number of the old sergeants on how much I know about courtesy, weapons, organizations, etc. The wise thing to remember is that they know just a little more.

That's my story for the time being—and I'll be glad to answer any questions the fellows may have regarding this place.

Yours sincerely,

A. Paul Hotte

Sig. Trg. Regt.
 Fort Monmouth

Dear Sir:

I don't know just what the plans are for the immediate future of your present classes, but in case any of them are headed this way they might enjoy a brief summary of the first six weeks of O.C.S. . . . Try to make the fellows up there realize the importance of drill. We do exactly as we did at Tech, that is take turns drilling the platoon. All they require for a satisfactory grade is that you march the platoon around for about five minutes on an area the size of a postage stamp with a dozen other platoons on the same stamp, keep the platoon in good order, clear of other platoons, and never repeat the same order over twice. If you do this and keep up a steady flow of criticisms in a booming voice all the while you stand a good chance of getting a satisfactory grade.

Studies

As for the studies the first month, there should be no trouble. . . . The only trouble will perhaps be with organization, learning the components of all types of divisions and their signal companies. Radio Code and Procedure consists of learning and using signals, phonetic alphabet and standard procedure. . . . Another interesting sidelight is the time away from camp angle. So far I have spent one Sunday on the machine gun range, one on the rifle range, one at sighting and aiming practice, and one trying to find our way back from and recuperating from an all night map problem. They hand you a compass and a list of azimuths shortly after dark on a Saturday night and tell you chow is at the end of the route. . . . Next Sunday will be my seventh Sunday in camp, and it will be the first one that I will have free; so tell the boys not to plan any big weekends.

Tips

. . . A last tip for the boys. All you have to do down here is act as you know a soldier should act. Tell them to polish up on that bearing, saluting, reporting to an officer, and those little details that go to make up an officer; for we have dozens of second lieutenants here, just wandering around all day looking for a chance to bite somebody.

I will be glad to answer any questions that you or any of the fellows may have, and glad to hear from any of the "old gang" in 7-006.

Respectfully yours,

Everett L. Graham

Sig Trg. Regt.
 Fort Monmouth

Dear Major:

I finally have found time in which to write. They keep a fellow kind of busy every day but Sunday. On Sunday there is optional (?) drill, so even then one is not free. . . . As you already know, drill is the most important subject. Men have graduated with deficiencies in four or five class-room subjects provided their drill grades were good. . . . The hardest part of the course here is keeping up the terrific pace the tactical officers set. The class work is easy, and any of our students can pass the courses if they stay awake in class. The math and elements of electricity are trivial, but some of the men have a lot of trouble with them. . . .

Leo Duval

Kappa Sigs Lose To D.U. Squad In Volleyball

Alpha Tau Omega Wins Over Beta Theta Pi; Chi Phi Triumph

The first round of the Beaver Key volley ball tournament got off to a good start as Delta Upsilon triumphed over Kappa Sigma 2 to 1, Chi Phi beat Delta Psi 2 to 1, and Alpha Tau Omega edged Beta Theta Pi winning two of three games.

The D.U.'s whipped the Kappa Sigs in the first game 15-7. The Kappa Sigs came back with a rebounding 15 to 12 victory in the second game. The third was a nip-and-tuck battle right up to the last hard earned point. D.U. took this game 15 to 10.

Chi Phi dropped the first game to Delta Psi 15 to 7, but came back with two victories by the same score.

The A.T.O.'s took the first game 15 to 9, Beta Theta Pi took the second 15-5, and A.T.O. eked out a 15 to 12 victory in the deciding game.

The schedule for Saturday is as follows:

Lambda Chi Alpha vs. Phi Beta Epsilon
Phi Lambda Phi vs. Theta Xi
Phi Kappa Sigma vs. Phi Kappa

Sunday's Schedule

Morning
Phi Mu Delta vs. Phi Sigma Kappa
Sigma Alpha Mu vs. Sigma Chi
Sigma Nu vs. Theta Delta Chi

Afternoon
Student House vs. Theta Chi

Points for the winner of the volley ball tournament will be as much as for baseball, 30 points for the victor.

Beaver Key baseball will start the week end of the I.F.C. dance. Games will be played Saturday afternoon, Sunday morning and afternoon, April 10th. The Graduate House will enter a team in the group of twenty-seven competing in the tournament. Four teams will play in a round-robin after elimination games.

The annual Beaver Key track meet will be held on a Sunday morning early in May, the date is not set as yet. Also to be scheduled this spring is a Beaver Key swimming meet.

I. C. Y. R. A. Racing Program Released

Sailing Pavilion To Open Up Tomorrow

The sailing pavilion will open for sailing on Saturday, April 3, if all goes as expected, it was announced today.

During the past week, the members of the Nautical Association have been cleaning, painting, and overhauling the pavilion and the boats, and everything is ready except the launch. If it is ready, the pavilion will open on Saturday, for sailing, but not for any racing.

During the past week the Nautical Association has been holding special shore school classes for Navy men and women. The classes have been instructed by Thomas Gouzoule, D.I.C., and have been held in Room 1-190 from 5:00 to 6:00 P.M. The course will be completed next week.

The Intercollegiate Yacht Racing (Continued on Page 4)

Trackmen Had Very Successful Indoor Season Declares Coach

By OSCAR HEDLUND
Coach of Track

Last December a call was issued for candidates for the mile relay team to compete at the big indoor games such as the Millrose, B.A.A. and Intercollegiate meets. With so many uncertainties because of the war effort, there was a question as to the games being held, but the Institute boys turned out to try and better the record of the 1942 season, which was one of the best in years.

After two months a team was picked which included Sid Hall, Larry Stewart, Dave Bailey, Arthur Bryant, Ed Czar and Captain Bob Meny. In January the Advisory Council on Athletics passed a ruling permitting freshmen to compete on varsity teams and as a result several new names were added to the list of candidates. These included Charlie Goldie, Sig Penner, and Art Coombs and the competition for the four places on the team became much stiffer.

Millrose Games Open Season

The initial race of the season was at the Millrose Games in New York on the Madison Square Garden board track. In this event the Beavers were to face Colgate, last year's winner, Penn and Columbia. The team was dealt a severe blow when Larry Stewart was ordered to report at Notre Dame for induction into the Navy. This left a large gap to fill since Larry had two years of experience behind him, but Dave Bailey was chosen to fill the number two position and the team went on to defeat Colgate by 15 yards in the fast time of 3:29.0. The members of the teams and their times were Sid Hall, 52.3, Dave Bailey, 53.0, Bud Bryant, 52.2, and Bob Meny, 50.5. Penn and Columbia followed in that order.

The following week Sid Hall was called to active duty with the Air Force and another new face appeared in the lineup for the B.A.A. games. The new ruling helped the Beavers hopes since a Brockton boy by the name of Charlie Goldie had been showing plenty of speed in the trials and he was selected to take over the number two position, for his first varsity competition under difficult conditions.

Three New Men Run

The team then had only one experienced runner in the person of Bob Meny as it had two sophs and one freshman in the other positions. Before a full house at the Boston Garden the team ran a beautiful race to win by more than thirty yards thanks to the speed of Bud Bryant, and Bob Meny's masterful three laps at the end. The individual times were Bailey, 53.0, Goldie, 53.2, Bryant, 52.8, and Meny, 52.0, for a total of 3:31.0, very good time for a team with three newcomers on the slow Garden track.

With these two races as a warm-up for the big Intercollegiate two weeks later in New York, the team spent many long hours of hard practice to compensate for their inexperience. Over thirty schools were represented at the big meet in Madison Square Garden, showing great interest in track considering present conditions. A total of better than three hundred trackmen were on hand for the events.

Wareham Enters Weight Throw

Technology sent five athletes, including the relay team and Dick Wareham, hammer throw specialist to compete in these, the 22nd Annual Intercollegiate. In the 35 pound weight throw event, Dick, the smallest and lightest of the competitors, garnered two points in taking 4th place with a heave of 44 feet, 7 3/4 inches. The varsity relay team was one of the fifteen entries to report to the clerk for the three heats in which first and second places qualified for the final an hour later. The following teams were starters: in the first heat; Villanova (winner in 3:25.8), St. Johns, Colgate, and C.C.N.Y.; in the second heat; Fordham (winner in 3:29.9), Tech (second in 3:30.0), with Syracuse and Cornell trailing; in the third heat; N.Y.U. (winner in 3:30.2), Rhode Island, Army and Tufts.

Individual times for Tech in the trials were: Goldie, 52.2, Bailey, 53.8, Bryant, 52.4, and Meny, 51.4. Bob Meny's running in the last leg put the Beavers in the final heat as he picked up fifteen yards in the final lap to ward off the anchor man of the Syracuse quartet. Goldie ran as fine a race as one could expect to see for his first big competition, keeping his team in the running, to put Bailey in a good spot. Bailey held his own for Bryant to run a fast leg and put Captain Meny in the scoring position.

Final Is Very Close

In the final heat, six teams started, Fordham, N.Y.U., Villanova, St. Johns, Rhode Island and Tech, with the Cardinal and Gray drawing fifth lane, at the start, putting a big job on frosh Goldie's shoulders. He ran his leg in 52.2, however, very fast for a novice. Bailey ran 1.4 faster in the final to gain on the field and pass the baton to Bryant who picked up a full second. This left Meny in a scoring position for the terrific last leg, a race in which anyone could win because of the close grouping of the last six men as they passed the sticks for the grueling final quarter.

N.Y.U. won in the time of 3:24.0 followed by Fordham, Villanova, St. Johns, Tech, and Rhode Island. The Beavers finished in a time of 3:26.4, 12 yards behind the victor, N.Y.U. Tech's individual times were, Goldie, 52.2, Bailey, 52.4, Bryant, 51.4, and Meny, 50.4, a grand finish for an unknown team. This gave Tech a point for a total of three points in the final tabulation of the biggest intercollegiate championship meet of the year.

Several Records Are Broken

In addition to the regular indoor racing season several records were broken by the freshmen and varsity alike. Bob Meny set new records for the one lap, two lap and three lap distances (440). He ran one lap in 15.7 (old record 16.2 set in 1927), two laps in 32.6 (old record 33.8 set in 1926), and three laps in 51.6 (old record 52.0 set in 1926). Dick Wareham bettered the weight throw record of 44' 5" set in 1940 with a heave of 45' 6". Among the freshmen Charlie Goldie set a one lap record of 16.5 as compared with the former mark of 16.8 hung up in 1925. Sig Penner also scored when he ran the two lap distance in 34.4 against the old record of 35.1.

Beaver Key All-Star Basketball Teams Announced

The Beaver Key All-Star basketball team has been released by Garry Myers, president of the Beaver Key. On the first and second teams are:

Forwards
James A. Neff, '44 S.A.E.
James L. Baker, '44

Phi Delta Theta
Raymond H. Spencer, '46
Phi Gamma Delta
Albert J. Seymour, '44 5:15 Club

Guards
DeRoss Salisbury, '44 S.A.E.
Malcolm G. Kispert, '44

Munroe Dorm
William R. Lindsay, '44
Phi Gamma Delta
Richard H. Cavicchi, '44 5:15 Club

Centers
Kenneth M. Rehler, '44
Wood Dorm
Walter E. Kulesa, '46 Wood Dorm

Honorable Mention

Forwards
Samuel K. Taylor, '44
Phi Gamma Delta
William G. Abbott, '44

Delta Kappa Epsilon
Edward Stevens, '46 Kappa Sigma
William M. Ihde, '45
Student House

Centers
James B. Hoagland, '46 S.A.E.
James F. Robertson, '45
Theta Delta Chi

Guards
Ward Reeves, '46 Phi Kappa Sigma
Frederic J. Blatz, '44

Phi Beta Epsilon
Robert A. Plachta, '44 Sigma Chi
Robert G. Breck, '44 Sigma Chi

Under Coaches Caleb Taft and Bob Meny, '44, star of the Wood Dorm team, the All-Star team will prepare for a game with the Army students at M.I.T. on April 13th.

Manager George Ziegler has obtained the Walker Gym for practice, which will start Thursday, April 8th.

Lacrossemen To Begin Season In Game On Thur.

Boston Lacrosse Club Is First Opponent On Varsity Spring Slate

Under a new coach, the Tech Lacrosse team will meet its first opposition this Saturday on Briggs Field. Facing an older contingent from the Boston Lacrosse Club, Coach Redshaw expects to find out just what his boys can do against an outside team.

Starting his first coaching assignment, Linc Redshaw is optimistic about the coming season. With seven men remaining from last year's squad, he hopes to shape a team that will be able to hold its own in intercollegiate competition. According to Redshaw, the game with the Boston Lacrosse Club will be a "shakedown" game in which the boys will get the taste of varsity competition.

A former Tufts lacrosse star, Linc graduated in 1937. He received All American Honorable Mention for his outstanding ability. Before entering the coaching field, he was a referee of lacrosse. The remainder of the schedule follows:

Varsity

April 10—Tufts, Here.
April 17—Harvard, There.
April 21—Springfield, There.
April 24—Williams, Here.
May 8—New Hampshire, There.
May 21—Dartmouth, There.

Meny And Artley Establish Records

Capt. Bob Meny, '44 established his fourth record of the season as he broke the long-standing 440 yard mark in 52 seconds flat. George Leness '26 set the former record on the board track seventeen years ago in a trial for the relay team. He has now set up marks in the 1-lap (15.7), 2-laps (32.3) and in the 3-laps (51.6).

James M. Artley, '46 threw the 28 lb. weight to a new record of 48 feet 8 inches, adding two feet to his record of two weeks ago.

ASK THE STOKER

"BRING ON THAT ICE-COLD COCA-COLA"

"NOTHING ELSE LIKE IT"

"Letters come from war plant managers telling how a pause for Coca-Cola is welcomed by workers. If you had to stand up to a hot furnace, you'd see the word refreshment in a new light. And as for refreshment, that's what ice-cold Coca-Cola is. No wonder everybody agrees that the only thing like Coca-Cola is Coca-Cola, itself."

Dormitory Directory Will Be Distributed

Professor Leicester F. Hamilton, Chairman of the Dormitory Board Administration, has announced that a directory of former dormitory students has been compiled by the Dormitory Committee. A limited number of copies of this directory have been placed in the Information Office for distribution to those former dormitory students who wish to call for them. These may also be obtained by calling for them at the Dormitory Office.

Copies of The Tech may be gotten by those former dormitory residents by signing for them at the desk in the Main Lobby of Building 10 or in the Information Office.

Dinghy Schedule

(Continued from Page 3)

Association has announced its spring dinghy racing schedule featuring the 7th Annual I.C.Y.R.A. Dinghy Championships at M.I.T. The winner is to receive the Henry A. Morss Memorial Trophy.

The annual meeting of the I.C.Y.R.A. will be held Saturday evening, May 8, with the Harvard Yacht Club as host. The meeting follows the first day of the Morss Trophy Regatta, which runs May 8-9.

The third Annual Freshman Dinghy Championship to be held at Brown has been temporarily postponed, and may be cancelled unless the colleges show some enthusiasm. If held, the location will be New London or Boston, sometime in April.

The spring racing schedule as affecting the M.I.T. Nautical Association is as follows:

Sunday, April 18: U. S. Coast Guard Academy Boat Club. Eastern Dinghy Championships on the Thames River.

Teams: Brown, Coast Guard, Cornell, Dartmouth, Harvard, M.I.T., Navy, Pennsylvania, Princeton, Yale, and Williams.

Sunday, April 25: Harvard Yacht Club. Fifth Semi-Annual Greater Boston Inter-Collegiate Championships. Charles River Basin. Teams: Boston College, Boston University, Harvard, M.I.T., Northeastern, and Tufts.

Saturday and Sunday, May 1-2: U. S. Coast Guard Academy Boat Club. Third Inter-Collegiate New England Championships on the Thames River. Teams: Boston University, Brown, Coast Guard, Dartmouth, Harvard, M.I.T., New Hampshire, Northeastern, Trinity, Tufts, Williams, and Yale, and by invitation the winner of the New England Association Championship.

Saturday and Sunday, May 8-9: Seventh Annual National Dinghy Championships. Henry A. Morss Trophy. Charles River Basin. Teams: Boston University, Brown, Coast Guard, Cornell, Dartmouth, Harvard, Haverford, Lafayette, Michigan, M.I.T., Navy, New Hampshire, Northeastern, Pennsylvania, Princeton, Stevens, Trinity, Tufts, Williams, and Yale.

Sunday, May 16: Thirteenth Boston Dinghy Club Inter-Collegiate Challenge Cup Regatta on the Charles River. Teams: Open to all regular and provisional members of the Inter-Collegiate Y.R.A. (See List For Morss Trophy), to winners and runners-up in the Associate Member Championships, and by special invitation of the Nautical Association of M.I.T.

Activities Notes

Alpha Phi Omega

The Technology chapter of Alpha Phi Omega, the national scouting service fraternity, is having an open dinner meeting at the Smith House at 6:30 P.M., Tuesday, April 6. Everyone is invited to attend. The National Secretary of Alpha Phi Omega, Sidney B. North, will be the speaker. The cost of the dinner will be \$1.25, according to Charles J. Hooker, Jr., '45, secretary of the chapter.

M.I.T. Debating Society

At 5:00 P.M. this afternoon, the M.I.T. Debating Society will participate in a debate with a team from Dartmouth University. Technology, represented by Bruce A. Lambertson, '45, and Robert J. Horn, Jr., '45, will uphold the negative side of the official federal union question. The debate will be held in Litchfield Lounge. Members of the student body, faculty, and staff are invited to attend.

On April 8, at 3:15 P.M., a debate between Technology and Wellesley will be broadcast on WNAC and the Yankee Network. John W. Colton, '45, and Lee Hanower, '45, will represent the Society, and will present the affirmative case of the federal union question.

Rhode Island State University will send a team to Technology on April 10 to participate in a debate which will be held at 5:00 P.M. at Walker. The Society's representatives will be Raymond Redheffer, '43, and Marjorie R. Siff, who will present a plan for the formation of a federal union of the United Nations.

Hindustan Association

The Hindustan Association will hold a very important business meeting at 7:30 P.M. on Monday, April 5, 1943.

This meeting will be in Litchfield Lounge, and all members are requested to be present.

Catholic Club

Father J. F. X. Murphy, of the faculty of Boston College, will speak on "Communism Today" at the next meeting of the Catholic Club.

This meeting will be held at 5:00 P.M. on Wednesday, April 6, in Room 10-275. Refreshments will be served.

Infirmiry List

In the Homberg Infirmiry last night were:

- Rosemary J. Burghoff, '44
- Robert S. Carr, '45
- Harry R. Corwin, Jr., '44
- William B. Davenport, Jr., Graduate
- Harry L. Dickey, Jr., '44
- John P. Gratiot, '43
- Warren J. Grosjean, '45
- James C. Hook, '44
- Han Tnag Liu, '45
- William A. Loeb, '46
- Richard L. Mela, '45
- James H. Miller, '46
- Robert J. Robinson, '46
- William B. Scott, '44

At the Haynes Memorial Hospital are:

- Elliott C. Levinthal, Graduate
- Robert A. McLaughlin, '44
- Sanford J. Newhaus, '45

Golfers Will Rally In Litchfield Lounge Mon.

A meeting of all men interested in golfing this spring will be held Monday, April 5, 1943, at 5:00 P.M. in the Faculty Lounge of Walker Memorial. It is important that all men who are interested attend this meeting as plans for the season will be drawn up at this time, according to an announcement by John McCarthy, manager of the golf team. Freshmen have a chance to play on the varsity this year, so they, too, are urged to attend.

Inst. Comm.

(Continued from Page 1)

and the Physical Society, were still in existence. It was not determined exactly how much activity the Physical Society was carrying on, so the motion to suspend it was tabled until the next meeting. The Association of General Contractors, however, was left as a Class B activity as one member of the Association explained that they still held weekly meetings. The American Student Union was the only organization ruled out.

Minor changes in the constitution of the IIA Society, and in the constitution of the Nautical Association were also approved by the Institute Committee.

Frederick J. Blatz, '44, William B. Scott, '44, were the only members absent, while John L. Hull, '45, was represented by a proxy, and Kenneth W. Nelson, '44, was late.

Technique

(Continued from Page 1)

porary Technology scene, 'shoot the works' both editorially and pictorially."

The opening section is to feature articles on such subjects as M.I.T. and the War, Science and Engineering as they affect the World of Tomorrow, and M.I.T. as a Functioning Democracy. Some of these articles will be faculty-written, according to Carlton J. Rohrer, '44, Editor-in-Chief.

Besides describing in prose and picture the means and methods of technological progress, the book will show the results as they transform post-war living in the fields of transportation, communication, housing, synthetics, foods, and health.

Tech Embassy

(Continued from Page 1)

Room, Room 6-321, at 4:15 P.M. at 5:00 P.M. Reverend Frederick B. Kellogg, the Chief Ambassador, will give an address in Room 6-120. His speech is entitled "Religion in Wartime." After his talk a general questioning period will be in order.

Afterwards the individual ambassadors will be taken to the fraternities where they will have dinner followed by a general "bull session". All students are invited to attend the general meeting in Room 6-120.

CALENDAR

FRIDAY, APRIL 2

- 5:00 P.M. Debate with Dartmouth—Litchfield Lounge.
- 9:00 P.M. Acquaintance Dance—Walker Gym.

SATURDAY, APRIL 3

- Sailing Pavilion Opens
- 1:45 P.M. Bridge Tournament—Litchfield Lounge.

MONDAY, APRIL 5

- 5:00 P.M. Golf Club Meeting—Faculty Lounge.
- 5:00 P.M. Frosh Council Meeting—Litchfield Lounge.
- 7:30 P.M. Hindustan Association Meeting—Litchfield Lounge.
- 8:15 P.M. Sigma Xi Lecture—Sanders Theater, Harvard.

TUESDAY, APRIL 6

- 4:00 and 5:00 P.M. Marriage Lecture—Huntington Hall.
- 6:30 P.M. Alpha Phi Omega Dinner Meeting—Smith House.

WEDNESDAY, APRIL 7

- 5:00 P.M. Catholic Club Meeting—Room 10-275.

THURSDAY, APRIL 8

- 3:15 P.M. Debate with Wellesley—WNAC.

Changes In Post-war Building Predicted by Professor Voss

Predicting small homes built for \$2,500 and demountable to the last individual piece, Professor Walter C. Voss, head of the Department of Building Engineering and Construction at the Institute, spoke before the Massachusetts Real Estate Exchange last Wednesday night. The meeting, held at the Hotel Vendome, had George A. White, President of the State Mutual Life Assurance Company, and Governor Leverett Saltonstall as the other speakers.

Professor Voss started his speech by commenting on the past of the building industry, and continued by explaining what he thought was the future. He said that our cities must in the future receive serious attention, as many buildings must come down. Their continuation in competition with modernized buildings will only be delaying the fatal day with the implied losses merely piling up in the interim.

Federal Projects

He said that large programs of federal and state public works will create a partial employment, but that care should be taken to maintain an integrated program, because were it to degenerate to the level of "make work" subsidies, the result would be too terrible to contemplate. These public works programs, which should be studied now, will include great new highways, grade separations, great airfields, and the reclaiming of devastated lands,

according to Professor Voss, who says that these are all legitimate federal effort. This, he said, should be run simultaneously with the gradual demobilization of our vast armed forces. He emphasized that such a program be carried out for patriotic reasons and not flavored with partisan politics.

"In the field of private industry, however, we find tremendous avenues for our industrial efforts," he said. This, according to Professor Voss, should be carried out without governmental interference, except for over all regulations as may be necessary.

Reason

Such an advancement will be possible because of the following things: (1) a large backlog of accumulated demand, (2) accumulated savings, (3) great new factories, (4) potential products and services to our new life, (5) the necessity for the rehabilitation of our cities, and (6) housing.

Professor Voss suggested that in the future brokers' banks, industrialists, and labor will unite to develop a plan of joint action so that when the war is over a new community interest can immediately step in. He said that such a plan should envelop the new products available, new techniques of production, a survey of skills and abilities, and a sound financial setup based upon fair returns and annual continuous employment for labor.
