

6-2-46

Tony Pastor Will Play For Senior Dance

Redemptions Begin Monday for \$9.50; Full Book Is \$14.50

Tony Pastor's band is to play for the Senior Ball on February 1, it was announced last night by the Senior Week Committee. The announcement of the band which is to play in the Hotel Statler Ball Room, was made as the committee prepared to redeem options beginning next Monday.

The price of option redemptions has been set at \$9.50, while those men who have not as yet bought options will have to pay \$14.50 for the tickets. According to the committee, men will be at a desk in the Main Lobby of Building 10 from 11:00 A.M. to 2:00 P.M. every day next week to redeem options.

Any persons who have bought options but have not as yet paid for them must pay their money to any member of the Committee before 11:00 A.M., Monday, or they will be required to pay the full ticket price.

The book of tickets for Senior Week includes tickets for the Class Banquet on January 28, an informal dance on Friday night, January 29, at which the committee will supply refreshments, and a tea dance on January 30, as well as the Senior Ball on Monday night.

Fred Blatz Named Prexy Of T.C.A. For Coming Year

Cooper-Smith, Geyer, Flowers, and Signell To Fill Other Posts

Frederick J. Blatz, Jr., '44, was elected to the position of president of the Technology Christian Association for the coming year at a meeting of the Senior Cabinet held on Wednesday, January 6. The other officers elected at the same time are Langdon S. Flowers, '44, vice-president; Robert E. Cooper-Smith, Jr., '44, secretary; Warren I. Signell, '44, treasurer; and Lewis H. Geyer, '43, director of boys' work.

These officers will take office next Wednesday, January 13 and the present Executive Committee will retire at that time. Other members of the Senior Cabinet will continue in office until next semester however. This change is because of the war conditions.

Previous Activities of Officers

Blatz was a member of the T.C.A. freshman cabinet in his first year, and business manager of the freshman handbook in his second year. Last year he held the position of publications manager. In this capacity he had charge of the publications department and was responsible for the freshman handbook and the blotter.

In his first year Flowers was elected president of the freshman cabinet and in his second year was advertising manager of the freshman handbook. This past year he was assistant manager of freshman camp and manager of the freshman cabinet.

Cooper-Smith filled the post of manager of advisory board receipts in his Sophomore year after serving on the freshman cabinet in his beginning year. He was office manager in his Junior year, having

OPEN LETTER FROM DR. COMPTON

January 7, 1943

To Technology Students:

At the time the Army and Navy training programs for college students were announced last month, Mr. Paul McNutt, Chairman of the War Manpower Commission, urged that all men college students, particularly those in engineering or the sciences, remain in school until called for military service. In my judgment this advice is applicable to all students at Technology, including those in the Army Enlisted Reserve Corps and those registered under Selective Service.

As yet we have no definite information as to the date or dates when freshmen and sophomores in the Army Enlisted Reserve Corps will be called into the Army even though it has been announced that they are to be called "at the end of the current semester." We have been advised that these students should register for the second term and attend classes until called.

Proportional tuition refunds will be made to any students who are called for military service during the spring term.

KARL T. COMPTON
President

Varsity Basketball Team Takes B.U.; Score 41-34

Marakas, Dolan, and Taft Lead In Points Scored

Starting the new year with a bang, the Tech basketball varsity upset Boston University by the score 41 to 34 Wednesday night in Walker Memorial gym. By winning the game, the Beavers retaliated their loss to B.U. in December, when the final score was 53-37.

The game Wednesday was unusual in that for the first time this year freshmen were allowed to play on the varsity team. All over the country college teams have been playing freshmen this year but until a recent ruling by the M.I.T. Advisory Council on Athletics they were not allowed to play in the varsity games. Two '46 men, Landwehr and Pully, were included in the varsity line-up.

In the first quarter the Terriers took the lead with a score of 13-6 and held it until the end of the half, when the total was 22-17 in B.U.'s favor. Nosing out in the third period, Tech gained the edge by a narrow 31-28 margin. From there the Beavers pulled away to finish, the winner by a 41-34 score.

Captain George Marakas, who had played straight through every match until Wednesday's game this season, lead the scoring with 15 points total. Sinking his shots from

Gridiron To Hold Elections Tonight

Banquet Is Tuesday
Louis Lyons To Speak

The new Gridiron president, secretary, and treasurer are to be elected at 5:15 P.M. today in the Litchfield Lounge. There was a last minute change of plans from Tyler Lounge to Litchfield.

Gridiron, honorary publications society, will hold its annual banquet at 7:15 P.M. on Tuesday, January 12, at the Hotel Vendome. Louis Lyons, editorial writer for the Boston Globe and the director of the Nieman Fellowships Program at Harvard, Professor Frederic G. Fassett, Jr., Editor of The Technology Review, and James R. Killian, Executive Assistant to the President of the Institute, will speak to the members of Gridiron and invited faculty guests. Professor Fassett will award the Gridiron prizes for articles and news stories, and Mr. Killian will present the newly elected officers with gold keys.

The banquet is to be informal this year, which is contrary to custom, but in accord with the Institute Committee's ruling against formal affairs.

all over the floor, he was equally invaluable on the defense. Runners-up in scoring were Dolan with 13 points and Taft with 10.

Having lost to the B.U. freshmen before by the score 64 to 39, Tech freshmen closed the margin to 36-34, in favor of B.U., in a very close game. Their next game is with Tufts here tonight with a varsity vs Tufts match afterwards.

The varsity line-up included: Marakas, Pully, Del Valle Brodie, Dolan, Taft, Hart, Heuchling, and Landwehr. On the freshmen team were: Madden, Patterson, Pully, Brown, Landwehr, and King.

Freshmen Are Now Eligible To Play On Varsity Team

New Ruling Follows Trend Other Schools In Country Have Taken

In keeping with the example of almost every college in the country, the Advisory Council on Athletics ruled that in the future freshman at Technology will be eligible to compete on varsity teams for the duration of the emergency.

This ruling will not eliminate freshman teams, but merely allows freshmen to compete on all teams, providing they are otherwise eligible. The transfer eligibility rule is also not affected by this change.

Technology is one of the last schools in the country to make this change, most of the others having set up a similar ruling as early as last summer.

Student Staff To Hold Dance

The first of a series of informal dances, which will be held in an attempt to compensate for the loss of the annual Walker Assemblies Ball, is to be given tomorrow night from 8:30 P.M. until 12:00 Midnight in Pritchett Hall by the Walker Student Staff.

The affair is to be a record dance, and the committee, consisting of Robert S. Carr, '45, Robert L. Heaton, '45, James S. Mulholland, Jr., '45, Samuel H. Lampert, '44, and Americo F. Almeida, Jr., '44, has planned for entertainment and refreshment. Admission to the dance is free to members of the student staff and their friends.

The Assemblies Ball is not going to be held this year because Walker Memorial has been closed to social functions. The committee has planned for other informal dances in the future, but it is not known where they may be given.

New Academic Schedule Calls For Year-Round Program For Three Years

Official Notice

Registration material for the second term may be obtained today, January 8, as follows:

FIRST-YEAR STUDENTS

For those taking Chemistry 5.01, registration material will be given out in the 5.01 laboratory sections. All others, including Course IV students, may obtain material at Mr. Pitre's office, Room 4-258.

OTHER STUDENTS

Obtain material in Building 10 Lobby until 1:30 P.M. After 1:30 P.M. material may be procured in the Information Office, Room 7-111.

Registration material must be returned to Room 3-107 not later than 1 P.M., Friday, January 15, to avoid the fine of \$5.00.

Scott To Head 1944 Technique 1943 Volume Comes Out Tomorrow Noon

With their 1943 volume coming out today, the Managing Board of Technique last night announced the Junior and Senior Boards for the coming year. Heading the new volume will be William B. Scott, '44, as General Manager. The remaining members of the Senior Board are Carleton J. Rohrer, '44, Editor-in-Chief; Henry M. Bowes, '44, Business Editor; Robert D. Peck, '44, Managing Editor; and William H. Schlegel, '44, Senior Photographic Editor.

This last member of the Senior board fills a newly created position, and he will have charge of the Junior photographic staff.

The Junior Board will consist of John E. Fries, Jr., and Peter P. Hill, Associate Advertising Editors; Frank J. Iskra, '45, Biography Editor; Theodore Davis, '45, Milo V. Wilson, '45, and Paul N. Anderson, Jr., '45, Associate Editors; Potter Hanson, '45, Circulation Editor; John A. Baring, '45, Organizations Editor; Walter A. Clayton, '45,

Scabbard and Blade Dance Is Tonight

Chaperones, Ushers Named By Committee

Tonight at 9:00 P.M. a militarized group of Technology students will begin dancing to the music of Chappie Arnold and his band, and will continue to dance in Morris Hall, with a patriotic motif as background until 1 A.M.

Invitations were sent out to various members of the Department of Military Science staff, and the following persons are to be chaperones at the affair: Colonel and Mrs. Edward W. Putney, Lt. Colonel and Mrs. Arthur D. Caswell, Lt. Colonel and Mrs. Joseph F. Cook, Jr., Major and Mrs. Perley D. Baker, and Major and Mrs. Burdette H. Buckingham. Ushers at the dance are to be a group of freshmen under the direction of Steven Heller, '43, Head Usher.

The dance committee, consisting of William B. Bryant, '43, chairman, Lloyd E. St. Jean, graduate, and Paul L. Hotte, graduate, have planned the usual motif of flags

(Continued on Page 4)

Frosh To Enter In June; To Study During Summer

Beginning in June all classes at the Institute will go on a year-round academic schedule to meet the conditions created by the Army, Navy, and War Manpower Commission plans for training of men of college age. Dr. Karl T. Compton, President of the Institute, announced Wednesday afternoon. This year's senior class has been on an accelerated schedule since last June and will be graduated on February 1st.

The Institute's new schedule calls for three semesters of sixteen weeks, each separated by vacation periods of ten days. Unless unforeseen developments require a change, the Institute's new plan for the academic year 1943-1944 will become effective with the beginning of the first term, which is to open on Monday, June 7, and extend through Friday, September 24. The second term will begin on Monday, October 4, continuing through Friday, January 28, 1944, and the third term will cover the period from Monday, February 7, to Friday, May 26, 1944, inclusive.

This year's freshman class will begin its work on June 7 and the Institute may or may not admit additional units of the freshman class in October and February, depending upon the number of qualified applicants for admission on these dates and the extent to which facilities may be available for such additional groups in view of the special Army, Navy, and Manpower programs that may be in progress at that time.

Dr. Compton stated that there is

New Inst. Comm. Elects Officers; Elections Passed

Schutte, Tyree, Blatz And Jealous Chosen For Exec. Committee

In its first meeting held yesterday afternoon, the 1943 Institute Committee elected its officers under the leadership of George A. Schutte, '44, president of the present Junior class. Lewis Tyree, Jr., Institute Committee representative of the Class of '43 was elected Vice-President; David Jealous, General Manager of the Tech Engineering News, was elected Secretary; and Frederick J. Blatz, Jr., president of the Technology Christian Association was elected Member-at-Large to the Executive Committee.

Due to the rules of the Undergraduate Association, no other business was brought up at the meeting although the meeting was preceded by the last meeting of the old Institute Committee headed by S. Richard Childerhose, '43. Nothing but old business could be brought up at this meeting.

The election of the Senior and Junior boards of Technique, and the election of the officers of the Technology Christian Association were approved. The only other business brought up was the reading of the budget of the Junior Prom, which showed the usual small profit for Junior Proms.

The next meeting of the Institute Committee will be held on January 21.

REGISTER TODAY

Dr. Compton's propitious letter to the students of Technology comes at a particularly opportune time, for in the mass of vaguely worded documents reputed to tell the student where he stands, his and his alone has that elusive property called precision. In the opinion of Dr. Compton there is one definite step for the student to take, namely that he set about registering for the second term of this year. There can be no doubt that such action is the only sensible one to be taken.

For those students not in the enlisted reserve, the way is clear to follow Dr. Compton's advice, in view of the recent directive issued by draft director General Hershey. For those who are in the E.R.C., the very position in which they find themselves would demand that they make sound plans for any eventuality, at no extra cost to themselves, since the Institute has agreed to refund proportional tuitions. Moreover, the Army has repeatedly asserted its desire that men gain as much schooling as possible outside the service before they are called up.

This is just a reminder that registration material will be out today.

MEN OUT OF UNIFORM

An interesting point of view with respect to those students who are not members of the armed services appeared recently in an "Associated Collegiate Press" release. We are offering it with the idea that you might find something to think about.

At times the talk of college students in the halls and in rooming houses proves quite interesting and a bit disillusioning. Naturally, a large part of Joe College's conversation with classmates centers the familiar trend of the progress of the war.

There seems to be a general feeling among the present crop of boys who frequent the college campuses that they are riding the high road to an early death. And even if the youngster is not unduly pessimistic, Latin, English, and zoology seem awfully trite in comparison to the incomparable adventures which accompany the donning of a uniform. . .

. . . Then there is a feeling by many eighteen and nineteen year olds that this war is the biggest adventure of the century. It probably is. They feel that something of "once-in-a-lifetime" variety is occurring and they are viewing it via letters from Pvt. Bill, lectures by history professors, the newspaper and the radio.

Boys needn't believe that just because they are not in uniform now that they are about to miss the entire show. The first act of this super-thriller is still underway. And the head Allied coach has formulated definite plans for using all of his substitutes long before that final gun.

Teachers are obviously having a difficult time in keeping students interested in training primarily for civilian life when military training seems so much more important.

But even if this war lasts for years, there will be people who will emerge from it. The odds are in the soldier's favor that he will come back, despite the innumerable dangers of military life in the trenches. Of course, people will die. People are killed annually in appalling numbers in automobile accidents. Most men will be back. Then how can college students afford to waste valuable time now when they could be amply fitting themselves not only for war but for life?—Eastern (Ill.) Teachers News. Quoted in —Associated Collegiate Press.

Largest Number Of Student At Tech Come From Mass., Biggest Courses Are II And X

Statistical facts are, somehow, interesting. They are especially interesting when concerning the environment immediately surrounding us. While they lack qualitative significance, the quantitative aspect, in itself, is comforting. It gives any mind, if not a technical mind, a fundamental grasp on the situation. It provides a rigid framework upon which any qualitative elaboration may be built.

In that sense, an idea of the geographical distribution alone of students past and present, at the Institute may give a somewhat comprehensive idea for instance, of the reputation of this Institute, of its makeup, of its probable future importance. Certainly most every student, in his daily treks from class to class through the corridors, has wondered just how many students are from where, how many are in each course, what may be the corresponding trends, even just the simple figure of the total number of students are registered at the Institute. It is with this aspect in view that the following facts are presented.

From a compilation of figures just on total number of students registered, it is discovered that, starting with 1865, a nucleus of 72 students grew to a sizeable body of 3,055, which is the number registered in the year 1941-42. (Figures for this year have not yet been compiled). This increase, however, has been anything but steady. For the first eight years, the increase was progressive, but decreased steadily from 1873 on till 1880. Whether or not the depression following the Civil War influenced this drop is only a qualitative guess. From 1880's registration of 188 students, however, a steady increase took place, resulting in 1898 of 1,198 students. From then on the total fluctuated, increasing more than decreasing, resulting in 1922 of a student body of 3,505. From there came two steady drops, and two steady rises, one drop from the 3,505 above mentioned to 2,671 by 1927. By 1931 this had picked up again to 3,209, then dropped to 2,507 in the period from 1931 to 1936, most likely due to the depression. From then on the figure rose steadily till 1941, when 3,138 students registered for 1940-41. Last year's student body was less than that before, but this present year's, barring Armed Force's draw on the student body, is considered to be the highest in the history of the Institute. The highest figure prior to this year, interestingly enough, had come twenty years ago, reaching the figure of 3,505 registered students.

The geographical distribution of students would obviously find Massachusetts leading. This has been true. New York State, however, has been an unusually close second; in the past five years, Massachusetts students have constantly decreased in number, while those from New York have steadily increased. In 1935, New York sent about 40% of the quota from Massachusetts, which percent had increased, by the school year 1941-2, to over 65%.

No other states, however, have ever been represented by more than two hundred students but New Jersey, Pennsylvania, Connecticut, and Illinois have, over the past six years, contributed more than hundred, New Jersey leading with an average of 177, Pennsylvania following with an average of 158 Techmen. Neither Connecticut nor Illinois have ever exceeded 125 in students.

In the past six years, only three states have failed to send students in any one year. The Institute, in short, is "quite densely" represented throughout the United States.

Ohio, Washington, D. C., Rhode Island, and California have sent forty-five students or over, Ohio having hit the hundred mark back in 1938. Maine and New Hampshire from the North Atlantic states; Florida, Maryland, and Virginia from the South Atlantic states; Texas from the South Central

group; Michigan, Missouri, and Wisconsin from the North Central category and Colorado and Washington from the Western states, aside from those mentioned in the higher classification, have been regularly represented by twenty students or over. Last year Alaska sent its first and only student, the Canal Zone has always had one representative over the past six years, Hawaii around four, and Puerto an average of six.

The figures on students from foreign countries may be contrary to what one would logically think. Outside of those from Cuba, (and not including Canada), more students have docked on the Pacific side of this country than on the Atlantic. China has been the undisputed leader. Over the past six years, an average of thirty-seven Chinese students have been studying at the Institute. An average of ten have come from Turkey with an increase from six to sixteen since 1937), thirteen from the Philippines, and nine from India. Thailand has been well represented, but the figure has dropped from nine to four in the past six years.

Outside of the United States, and in the Western Hemisphere, Canada has been the leader in sending students to the Institute. The average over the last six years has been roughly thirty-nine, but this has comprised a steady drop each year from 1938 on. Fourteen students have been from Brazil each year, on an average; Brazil, outside of Canada, is the largest country

in the Western Hemisphere. This figure started at one in 1937, has increased to fourteen for the year 1940-41. Cuba has been a close second to Brazil, but last year was only a low second. Mexico follows with an average of eight, having held a rather constant figure of representation.

Central Europe has sent very few students to the Institute. England once sent eleven, had only one student at the Institute last year. Italy, Germany, and Japan once sent several students; last year either one or none were here from the aggressor countries. Norway, Peru, Venezuela, and Argentina have sent a quota that has varied more or less between two and seven. All other countries, whether or not they were represented by as many as half a dozen students a few years ago, have no more than one or two now at the Institute.

Perhaps the reader has often wondered how many of Technology's students are distributed in its various courses. Over the past eight years, it seems that various courses have "jockeyed for first place." Back in 1934-35, Electrical Engineering held the lead, containing 18% of the total student body in the engineering courses. Last year, 1941-42, Chemical Engineering and Mechanical Engineering (including all options and divisions of the courses) shared the lead each also with 18% of the students in the engineering courses. Course XV, Business and Engineer-

... in peace and war

This emblem is familiar throughout the nation as the symbol of a well-trained team, integrated for service in peace or war—The Bell Telephone System.

1. American Telephone & Telegraph Co. coordinates all Bell System activities.
2. Twenty-one Associated Companies provide telephone service in their own territories.
3. The Long Lines Department of A. T. & T. handles long distance and overseas calls.
4. Bell Telephone Laboratories carries on scientific research and development.
5. Western Electric Co. is the manufacturing, purchasing and distributing unit.

The benefits of the nation-wide service provided by these companies are never so clear as in time of war.

WAR CALLS COME FIRST

Beaver Puckmen Conquer Terriers With 5 Goal Rally In Boston Arena Tuesday

Kaneb and Noreen Lead Scoring With Pair of Goals Apiece

A revitalized and hard playing Tech hockey team came back in a dazzling third period rally to crush the Boston University Terriers by a score of 7-2 on Tuesday night in the Boston Arena. In turning in their first league win of the year, the Beavers played real offensive hockey for the first time as they avenged the 14-2 whipping they received at the hands of B.U. earlier in the season. Capt. Fred Kaneb and Russ Noreen led the scoring with two tallies apiece while Seifert, White and Merrow each got one marker.

Coach George Owen's boys were led only once during the contest when B.U. opened the scoring in the first canto. At the end of the first period the score was 1-1 and at the two thirds mark it stood 2-2. In the final stanza the Beavers scattered the Terrier defense to register five goals and clinch the fray. Noreen, White, Merrow and Kaneb performed well for the Cardinal and Grey while Al Tasjian did an excellent job at the net. Dick Bettes who had not seen ac-

Varsity Swimmers Seek Frosh Aid Tomorrow Night

Team Shorthanded For Alumni Pool Meet With B. U. Terriers

The Tech varsity swimming team will hold a meet with Boston U. tomorrow night in the Alumni Pool. The varsity will be somewhat depleted due to the fact that several of the Seniors are hard at work on their theses, however, freshmen will be allowed to compete on the varsity team and take part in this meet.

At 7:30, just preceding the varsity meet, the freshmen will stage a preliminary contest with the Boston Y.M.C.A. The varsity meet this Saturday will be their fifth match of the season. So far the Tech men have won two matches out of

(Continued on Page 4)

Grapplers To Meet Williams Tomorrow

The Tech wrestling team will travel to Williamstown, Mass., to hold their last match this term with Williams tomorrow. The lineup for Tech will be; 121, John Tyrrell; 128, John Pollard; 136, Laurence Winik; 145, Bill Botten (captain) or David Gaillard; 155, Kjeld Damsgard; 165, Dick Ackerman; heavy weight, Frank Walke.

Coach Johnny Lutz announced last night that freshmen will be allowed to compete on the varsity team next semester. He also announced plans for the formation of a junior varsity this year.

Two tentative meets have been scheduled next semester at Yale and Dartmouth, the matches to be held at New Haven and Hanover, respectively.

Tech Swordmen Beat Boston U.

Score Decisive Win In Second Victory

The Beaver swordsmen notched their second victory of the season on Wednesday night when they crushed the Boston University Terriers by a count of 24-3. The opponents were limited to one win in each weapon in the matches which were held in Walker Gym and the Tech handball courts. Under the new ruling which allows freshmen to compete on varsity teams, two first year men, Chang and Vicini, fenced one bout apiece. The individual scores were as follows:

Sabre

For Tech: Schulman defeated Venilli (5-3), Van Luman (5-4), and Cohen (5-3); Higgins defeated Venilli (5-4), Sebesteyan (5-1), and Cohen (5-4); Maconi defeated Venilli (5-3), and Sebesteyan (5-3). For B.U.: Cohen defeated Maconi (5-4). Total score: Tech—8, B.U. 1.

Foil

For Tech: Colsmann defeated Adamian (5-1), Story (5-1), and Isenberg (5-1); Ackerman defeated Adamian (5-4), Rider (5-0), and

(Continued on Page 4)

Riflemen to Meet Cadets At West Point Saturday

Facing an active weekend the Technology sharpshooters will meet the U. S. Military Academy rifle team at West Point on Saturday and will also shoot two postal matches. The postal matches will be against Wentworth and Yale, and all three meets will include the standing, kneeling and prone positions.

The lineup for the trip to West Point will be: Wiesenthal (Capt.), Wood (Manager), Woodworth, Smock, Shoffner, Dundon, Corwin, Rosar, and Amthor. Terry will also compete in the postal matches.

Beaver Feats

DON PARR

The effects of the recent ruling by the A.A. that freshman athletes are eligible to compete on varsity teams are already apparent in the results of contests conducted under the new ruling. Two freshmen participated in the defeat handed the Boston University terriers on Wednesday night by the Beaver cagers. A pair of first year men also took part in the crushing victory which the fencers achieved over that same team on Wednesday night.

Beaver teams had been operating for some time under a considerable handicap since most of their opponents had adopted the ruling early in the winter season and in

many cases at the outset of the fall term.

In the coming wrestling and hockey contests the coaches are planning to utilize frosh material, which may easily swing the tide of a close match.

It is true that this transfer of men leaves the freshman teams devoid of good material but the same situation exists everywhere and no unfairness results.

- 5:15 P.M. Gridiron Meeting—Litchfield Lounge.
- 9:00 P.M. Scabbard and Blade Ball—Morss Hall.

SATURDAY, JANUARY 9

- 8:30 P.M. Walker Student Staff Dance—Pritchett Hall.

MONDAY, JANUARY 11

- 11:00 A.M.-2:00 P.M. Senior Week Option Redemption — Main Lobby.

150 Technology Students Volunteer In A.T.O. Drive

The A.T.O. blood drive, which began last December and is to continue at Technology until the end of the present emergency, has been instrumental in getting over 150 Technology students to donate their blood to the Red Cross Blood Bank. So said Morris H. Rosenthal, '43, publicity chairman of the drive. Excepting the past week, a member of A.T.O. has been at the desk in the Lobby of Building 10 from 12:00 Noon until 2:00 P.M. every day since the founding of the drive. Next Monday will again see the drive under way, with the desk near the pumping heart sign open for appointments.

Infirmary List

Students confined to the Homberg Infirmary last night were:

- James A. Barnes, '46
- James H. Barnes, Jr., '44
- C. Day
- Lee C. Eagleton, '44
- Henry D. Ferris, '43
- Paul M. Heilman, II, '44
- Denny C. Kalette, '46
- Alvin A. Markus, '44
- V. Saganex
- Robert Sensheimer
- John R. Taft, '44
- Victor T. Takata, Graduate
- Professor Norbert Wiener

Debating Society Dinner To Be Held Monday Night

The Debating Society banquet, which was scheduled to be held on Monday evening, January 11, at the Graduate House, has been canceled, it was announced last night by Arthur F. Dershowitz, '44.

Cards were sent out this past week stating that the banquet would be held, but this last announcement supersedes the cards.

Fencers Beat B.U.

(Continued from Page 3)

Isenberg (5-1); Braendle defeated Story (5-3); Lopez defeated Isenberg (5-3). For B.U.: Adamian defeated Braendle (5-2). Total score: Tech—8, B.U.—1.

Epee

For Tech: Krantz defeated Adamian (2-1), and Ryder (2-0); Maconi defeated Adamian (2-0), and Sebesteyan (2-0); Seaman defeated Sebesteyan (2-0), and Ryder (2-1); Horn defeated Sebesteyan (2-1); Vicini defeated Adamian (2-1). For B.U.: Ryder defeated Chang (2-0). Total score: Tech—8, B.U.—1.

According to Larry Churchill, fencing manager, fencers will meet Harvard at Harvard this Saturday at 3:30 P.M.

Frosh To Enter In June

(Continued from Page 1)

a widespread demand for admission of freshmen in June in order that high and preparatory schools may proceed as far as possible with their collegiate educational programs before young men are called for service in the armed forces.

Under the new accelerated schedule the Sophomore, Junior, and Senior classes will continue their educational program on the three semester basis. Thus the present freshman, Sophomore, and Junior classes, in so far as they are permitted to continue their formal education, will proceed with their work on June 7.

The Institute's program of post-graduate courses will also be adjusted to provide a satisfactory continuous program by changes in the scheduling and distribution of special graduate courses to meet the needs of the situation as fully as possible.

The Institute's teaching staff will be on duty during any two of the three terms, or for all terms, depending upon the necessities of the situation as they develop in accordance with directions in which the Institution may be called upon to participate in the government's educational and training programs.

Technique Elections

(Continued from Page 1)

Junior Manager; and Robert P. Auty, '45, Treasurer.

There will also be a Photographic Staff on the Junior Board, but as these men have not as yet been determined, they will be announced later when the Sophomore Board is to be announced.

The 1943 volume will appear at noon tomorrow in the Main Lobby of Building 10. Of the 1150 copies ordered, 1050 have already been sold, leaving only 100 copies for those men who have not made pledges. The book this year is the most expensive ever. The engraving alone amounted to more than \$800 over last year's expense, according to Robert C. Meissner, '43, General Manager. The book will have a padded cover, and will be arranged in chronological order from December 7, 1941.

T.C.A. Elections

(Continued from Page 1)

charge of procuring office supplies, etc.

After being a member of the freshman cabinet his first year, Signell became director of ticket service the next year, and served as assistant treasurer this past year. Geyer has been an assistant director of boys' work the last two years. He is a II-A man and therefore will be at school another year although he is of the class of 1943.

Scabbard & Blade

(Continued from Page 1)

and insignia of the various corps and services, but have done so in an unusual manner. As has been done in past years, the formal ceremony is to consist of each new member of the Scabbard and Blade receiving the red and blue, star-studded bar from Captain of the company, James A. Malloch, Jr. Upon command the candidates will present the pins to their respective dates, who are to pin the bars on the members' tunics. Finally each newly inducted member is to receive a congratulatory kiss from his date.

Hockey Team Trims B.U.

(Continued on Page 3)

tion since early in the season because of a broken jaw returned to the ice and played a fine game for the Beaver cause.

The team will play two away games this weekend, the first when they meet Norwich at Northfield on Friday afternoon and the second when they face the Panther sextet from Middlebury on foreign ice Saturday afternoon. In accordance with the new ruling, freshmen Ted Madden and Bob Russell will make the trip.

Swimmers To Meet B.U.

(Continued on Page 3)

the three they have had this year, losing to Harvard in their second meet. The schedule of events Saturday night will be a 50 yard freestyle, 100 yard freestyle, 100 yard backstroke, 100 yard breaststroke, 200 yard freestyle, diving, 150 yard medley, and a 200 yard freestyle relay race.

Course Statistics

(Continued from Page 2)

ing Administration, is next in the lead after Courses X, II, and VI; but this has constituted a steady decline in popularity. Aeronautical Engineering, surprisingly enough, does not contain the number of students it did eight years ago. In 1934, 183 students were registered in Course XVI, which has fluctuated since then between this start and 245, and last year hit a new low of 147. Metallurgy, Meteorology, and Naval Architecture have been the three other big courses of the engineering division, each last year having contained over one hundred students; Course II contained 125, Course XIV started last year with 110 (it had never been given prior to 1941-42), and Course XIII had 125.

The trends, outside of Courses XVI and XIV, which have been mentioned, and Mining Engineering, Architectural Engineering, Army Engineering, Electrochemical Engineering, and Army Ordnance, all of which have been discontinued, is somewhat as follows: Course XVII, Building Engineering and Construction, has had a fluctuating decline from thirty-one to fourteen registered students. Course XV has been a steady decline from 305 in 1934 to 205 in 1942. Course X has declined slightly, having reached a peak in 1938-39. Civil Engineering has witnessed a sharp decline, from 129 eight years ago to seventy-one at present. Course VI has likewise declined, having had a peak year in 1937-38. General Engineering has alternately fluctuated between thirty-six, last year's low, and seventy-three. Course II had increased steadily since eight years ago, but has fallen off in the past two years, while Metallurgy has shown the same phenomenal increase as Civil Engineering showed a decrease. Course XIII has had a slow increase from 115 eight years ago to a total of 171 for last year's registered students. Sanitary Engineering, never containing more than a dozen students, has pretty much held its own.

WHAT CIGARETTE GIVES SMOKERS WHAT THEY WANT

HAPPY NEW YEAR 1943

START THE NEW YEAR RIGHT WITH THE RIGHT COMBINATION FOR More Smoking Pleasure

Make your next pack in 1943 a pack of **MILDER, BETTER-TASTING CHESTERFIELDS** and enjoy more smoking pleasure the whole year through.

Chesterfield's Right Combination of the world's best cigarette tobaccos gives you everything you like best in a smoke. That's why, year after year, you hear more smokers say, "You can't buy a better cigarette... THEY SATISFY."
