

## Taft Elected To Presidency Of M.I.T.A.A.

**Succeeds Schoenwald; Will Hold Position Through Next Term**

Caleb S. Taft, 2-44, was elected president of the M.I.T.A.A. at a special meeting held Wednesday afternoon in Litchfield Lounge. He succeeds Ernest T. Schoenwald, 2-44, who will go to Chemical Engineering practice school at the end of the current semester. Schoenwald's term would ordinarily have expired at the end of the second semester. Taft will be in office to fill out the rest of Schoenwald's term.

Taft captained last year's basketball team and coached the Sophomore Field Day softball team. He represents the Senior Class on the Institute Committee as well as holding the Presidency of the Athletic Association. Thor K. Stromsted, 10-44, manager of Field Day this year, was also nominated for the presidency.

### M.I.T.A.A. PREXY

Caleb S. Taft, 2-44, who was elected president of the M.I.T.A.A. last Wednesday.

## J. P. Committee Chooses Band

**To Announce Name Early Next Month**

At a meeting held last Tuesday night, the Junior Prom Committee decided upon the big name band which will play at the Junior Promenade, to be held at the Imperial Ballroom of the Hotel Statler on Friday night, November 19. Since a contract with the band has not yet been signed, the name will not be released until the first week of November.

According to Carroll W. Boyce, 10-44, a member of the committee, about 300 of the 425 options have already been sold. These options, costing \$3.30, will be redeemed from November 8 to 12 for a full price ticket costing \$6.60. Table reservations can be made on Monday, November 15, in the Lobby of Building 10.

### Plan Week End

The committee will hold another meeting tonight to complete arrangements for the fraternity house parties which will be held during the week end of the formal. The arrangements, started early this week, include plans for afternoon cocktail parties and informal evening dances.

## Post-War Return To Usual Program Is Compton Plan

**Other Institute Plans Revealed In President's Report To Corporation**

The Institute plans to return to a normal school year as soon as possible after the war, it was revealed by President Karl T. Compton in his annual report presented to the Corporation last Wednesday afternoon. He said that though it was unquestionably advisable to use the speed-up program now, it would serve the best interests of all concerned to go back to the usual system after the war.

The recommendation has been given to the faculty that they simplify all regular programs to the maximum extent possible with maintenance of present educational standards.

He said that on the basis of recommendations of several of the library standing committees, one of the first projects for after the war

(Continued on Page 3)

# Varsity Crew Sweeps Charles, Defeating Harvard For First Time And Setting New Records

### CROSS COUNTRY TEAM LINES UP

The start of the quadrangular race at Tufts last Saturday. The M.I.T. harriers are, from left to right: Hardy, Joseph, Bent, Hampar, Goldie, Poorman, Bryant, and Bailey.

Tech's cross-country team again showed the fine balance they first exhibited in the race with Harvard to place second behind Dartmouth in last Saturday's four-way meet with Dartmouth, Harvard, and Tufts.

The most spectacular part of the

race came in the final mile when three Dartmouth men, including famed and fleet-footed Don Burnham, ran neck-and-neck with Crowley of Harvard and Captain Ken Joseph of Tech. Near the finish, the Green runners put on a burst of speed to win by a thirty yard margin over the other two.

The Dartmouth team, coached by Harry Hillman, ran true to form by taking the victory easily with a total of 21 points.

Tech finished a close second with a tally of 41 points, while Harvard came in for a sum of 69. Tufts wheeled in to establish ownership of last place by capturing a collection of 106 counters.

If the meet had been scored as a dual meet between Harvard and the Technicians, Tech would have slugged the representatives of the Harvard Square Institution to the tune of 20 to 35.

As was expected, the individual honors went to the speedy Dartmouth leader, Burnham, who finished in the very fast time of 20.04. He led the pack the entire distance of the hilly course laid on the golf links near the Tufts campus, and throughout the race was trailed by Judge and Atkinson of Dartmouth, Crowley from Harvard, and Joseph of the Technicians.

Just as in the previous week's

(Continued on Page 4)

## Jayvees Cop Race As Tech Receives Award For Regatta

Last Saturday afternoon the Tech Varsity crew established itself as one of the greatest crews in the history of Technology by defeating Harvard by a length and establishing a new record, exceeding the old mark by over four seconds. Although there are no records to substantiate the fact, it is believed that this is the first time in the years of competition between the two rivals that a Tech Varsity boat has triumphed. Although Tech won only two of the four races, the Varsity and Junior Varsity, it was awarded the trophy because of the Varsity's win.

Bob Moch, crew coach, had previously stated that this year's Varsity boat was the best crew he had seen at Tech since his arrival. Its time trials have matched the best ever set by a Tech crew. The boat lived up to its coach's expectations by turning in a winning time of 6:40.5, the fastest ever turned in by a Tech boat and only one half a second slower than the all-time record for the Henley course.

### Crews Match Strokes

With this record behind them the varsity crew nosed the starting line with the Crimson at 5:00 P.M. Saturday. From the start it was a Tech race. Stroke Al Bowen held

(Continued on Page 3)

## \$2,552.32 Collected In T.C.A. Drive

**T. C. A. To Get \$2,251; \$200 Still Needed**

The total amount contributed to the annual T.C.A. drive up to Wednesday night was \$2,552.32, according to Clyde C. Snyder, Jr., 2-44, chairman of the drive. Of this amount the T.C.A. will receive \$2,251.27, and the remaining \$301.05 will go to the World Student Service Fund.

The drive ended officially last Friday, October 8, but since the goal of \$2,450 for the T.C.A. was not reached, contributions were accepted all during this week.

### Army Drive

The Army men housed in the Senior and undergraduate dormitories will be solicited during the first week of next term, it was announced by Wallace M. Ross, General Secretary of the T.C.A.

The total of \$2,552.32 represented 1,143 individual contributions, or an average of \$2.33 per contribution. About 45% of the student body contributed during the drive.

## Albert V. Smith Dies October 8

Albert V. Smith, '20, Superintendent of Buildings and Power, died suddenly on October 8. Mr. Smith was appointed Assistant Superintendent of Buildings and Power in 1929 and was given the full responsibilities of his position in 1933, when he succeeded his father, the late Albert S. Smith.

The efficient operation of the Institute's plant during the rapid expansion of facilities demanded by the activities of war was due in no small degree to the expert supervision of Mr. Smith, who brought to his post many of the admirable qualities of his father, and won for himself the respect and strong loyalty of his staff.

## New A.S.T.P. Unit Brings Back Past Institute Students

With several hundred enrolled, another term of the Army Specialized Training Program is now underway at the Institute. Classes for the army men started during the past week and will continue for the Army's required twelve-week term.

The group, living in the dormitories and the Senior House, includes students in both basic and advanced engineering programs, and a considerable group of advanced R.O.T.C. students who left college last June, at the end of their Junior year, for basic training.

Among the former Institute students who have returned to continue their studies until assignment to Officers' Candidate School are George A. Schutte, permanent president of the Class of 1944, and Bernard Rabinowitz, Editor of The Tech.

## Technology Graduate's Speed, Ability Earns Japs' Hatred

A 1940 graduate of Technology, an aviation ordnance officer, is unbelievably feared and hated by the Japanese in the southwest Pacific. He is "Dead-Eye" Dickson, a master of science.

According to an unusual memorandum received by Brigadier-General Burton O. Lewis, commander of the Boston ordnance district, Dickson is accustomed to doing the seemingly impossible in a hurry. Just prior to the Bismarck Sea engagement, he was charged with the difficult task of devising, developing, testing, and manufacturing a four-second delay fuse for bombs that varied in size from 500 to 2000 pounds. Such a fuse would enable pilots to attack enemy surface vessels from extremely low altitudes with great safety and effectiveness.

### Made Fuse in 48 Hours

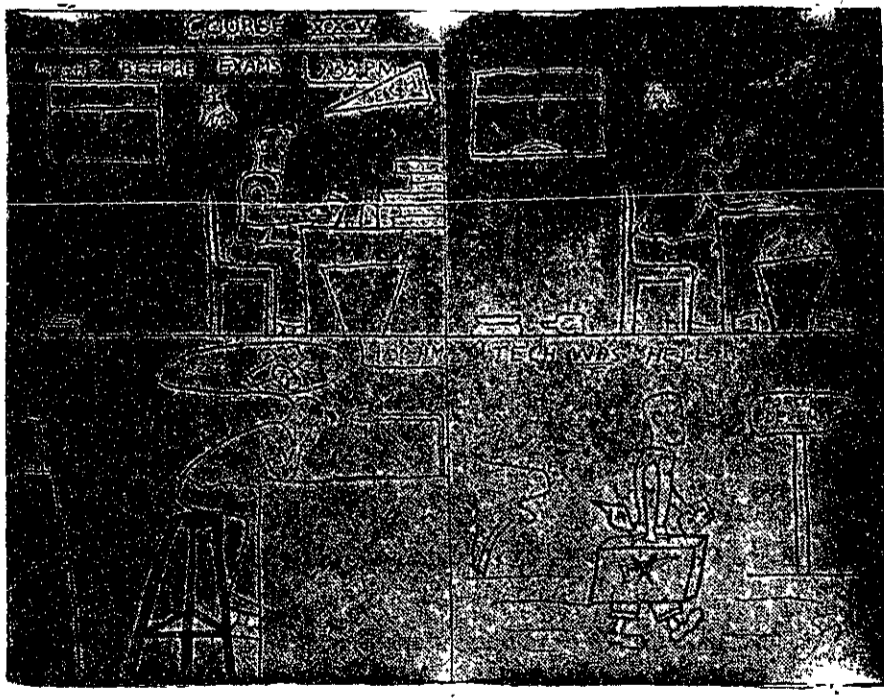

Although handicapped by the lack of ordinary manufacturing

facilities, Dickson made a workable fuse only 48 hours before a Jap armada was sighted beating its way down from Rabaul. Being then called upon to produce sufficient fuses, using only simple field equipment, to enable U. S. bomber crews to strike the Jap fleet at masthead level, Dickson delivered the goods.

The principal job for "Dead-Eye" as ordnance officer is to pass the ammunition to bomber and fighter pilots. He often frequents scanty New Guinea junk piles in his effort to keep the Fifth Air Force bombing and strafing. Out of odd pieces of scrap metal, he makes many things, from machine gun parts to bomb handling equipment.

Dickson received the Legion of Merit Citation for his unusual work before the battle of the Bismarck Sea. In addition to this, he was commended several times by Major-General Emis Whithead for "extraordinary speed in meeting urgent ordnance problems."

### EXAMINATION PERIOD AGAIN

## T. C. A. Freshman Cabinet Discusses Well-Tech Plans

The T.C.A. freshman cabinet met Wednesday afternoon at 4:15 P.M. in the Faculty Lounge of Walker Memorial. Most of the meeting was devoted to discussing the Well-Tech Acquaintance Dance. The date for the dance was tentatively set as Saturday, November 27 at the Wellesley Alumnae Hall, although neither the band nor the ticket price has yet been decided upon.

The cabinet is also considering an acquaintance dance with Wheaton College, which will probably be held after the Well-Tech dance.

## William Blitzer Appointed T.C.A. Boys' Work Head

William F. Blitzer, 6-45, has been appointed Director of Boys' Work by the T.C.A. Executive Committee, it was announced Wednesday by Langdon S. Flowers, 2-44, President of the T.C.A. and Chairman of the committee. By virtue of his appointment to this position, Blitzer becomes a member of the Executive Committee.

At the beginning of the term, Blitzer was one of four co-directors of Boys' Work, pending the appointment of one of the four to the position of director.

## STRAIGHT T'S FOR THE VARSITY CREW?

For the first time in years the Technology coxswain was last Saturday tossed into the Charles, symbolizing the fall of the invulnerable Harvard heavy eight. For Technology crews, this victory sweetens the smell of sweat-soaked jerseys and soothes the blisters which are the prelude to a crew race.

During the same afternoon, the Junior Varsity heavy crew also stroked harder than the Crimson crews to win a second victory.

On Wednesday last, two freshmen crews met and defeated freshmen crews representing Harvard.

Technology crews have, by virtue of these four victories, brought the Beaver back into its rightful place in the sun.

Technology, we believe, won these four races because of the hard work of a good crew, and because of the excellence of the coaching which they received. The Beaver triumphed in these races, not because of inferior Harvard crews, but because of the excellence of Tech crews.

The ability of the Varsity heavy crew is demonstrated by the fall of the all-time Tech Henley course record for official competition. The new record is shorter by five seconds than the old. On Saturday, this crew was only one-half second short of the all-college record for the course on the Charles.

We understand that, since the Saturday meet was informal, the Technology Varsity Heavy Crew will not be eligible for the straight T, the highest award which can be made to Technology athletes; this award would probably have been made if the all-time M.I.T. record had been broken in formal competition. Since some of the members of the Varsity Heavies will not be at the Institute next Spring for formal competition, it is to be hoped that special consideration will be given this crew, and that the straight T will be awarded as it evidently should be.

Under peacetime conditions, the crews of Technology labor under unusual difficulties, since academic work detracts from the time available for practice, as well as imposing late hours of study which handicap the development of best physical condition. Under the present wartime conditions, an accelerated program has accentuated these handicaps. The Varsity Heavy Crew, as well as the Junior Varsity and freshman crews, are deserving of great credit for their achievement in the face of these difficulties.

Coach Bob Moch and his assistants and the crews which raced for them and for Technology merit the gratitude of M.I.T. students for the manner in which they have performed a hard job under unusual handicaps.

Technology is proud of them!

**SERVICE MEN—  
CARRY  
TRAVELERS  
CHEQUES**

No matter what branch of the service you are headed for, you will find AMERICAN EXPRESS TRAVELERS CHEQUES the best way to carry your money. They are not only spendable everywhere, but they have an important safety feature that protects you. It is this: if they are lost or stolen, you get a prompt refund.

Issued in denominations of \$10, \$20, \$50 and \$100. Cost 75¢ for each \$100. Minimum cost 40¢ for \$10 to \$50. For sale at banks and Railway Express Offices.

**AMERICAN EXPRESS  
TRAVELERS CHEQUES**

## Joe Alloy Strikes Again

Metals just don't act the way they used to any more. In a 2:30 lab the other day Mr. Bartholomew expounded at length on the weakness of aluminum castings while hot, and to demonstrate his point he gave the casting, just made by the class, a healthy whack with a pair of tongs. The "weak" casting stood firm while the tongs broke in two. Now whose theory has been upset?

## Modern Convenience

Prof. Kurrelmeyer complained recently about the illegibility of the papers turned in by his students and suggested that they use a typewriter in order to ease his deciphering task. During the next German quiz the quiet of the room was suddenly shattered by the pecking of a typewriter in the back of the room. Oliver Selfridge was taking the prof. literally, a bit too literally.

## Poor Lads

A review of the athletic feats of fair Harvard over the past weekend makes even the Sophomore Field Day record look good. Everyone trounced the Crimson and White representatives without mercy, and it was a battered group that returned to the red brick buildings after the weekend. Technology left their varsity and J. V. crews in the distance, Worcester Polytech rolled back the varsity football team, and Exeter took their jayvee's into camp. The sons of John Harvard were outrun by Dartmouth and Tech at cross country and outsailed in Sunday's regatta at the Coast Guard Academy by both Technology and the midshipmen. A moment's silence for the tea-party boys from up Memorial Drive, please.

## Fraternity Findings

### A. T. O.'s Elect Officers

Climaxing Hell week for their new group of pledges, the A.T.O.'s held the initiation ceremony on Sunday morning, October 3. Among the guests present at the banquet following the ceremony was President Karl T. Compton.

Last Sunday, the members at 37 Bay State Road elected new officers for the next term. Carroll Boyce was chosen to fill the leading position, as the present President, Paul Hellman is going into the Navy.

Reynold Grammer was designated treasurer and Samuel G. Morrison was reelected to continue as secretary.

Other minor officers elected were: Corwin Brumley, Joseph Nowell, Herbert Kaewert, Dick Hinchcliff, Kirk Drumheller, Joe Lester, Paul Hellman, and Alfredo Lamela.

## 'TWEEN DECKS

Naval Organization is famous for the foolish questions asked Lieut. Canfield by some of the students. However, occasionally the boys come out with a really relevant query. For instance, the other day in one of his Naval Org. classes, Lieut. Canfield was warning the officer candidates that they should never, under any circumstances, give gifts to their superior officers or their relatives. At this point a worried lad asked, "Suppose, sir, that you know an officer's daughter?"

Having been issued khaki shirts and trousers, the V-12'ers had visions of garbing themselves like officers. Too soon they learned that the Khakis were only to be worn to labs and PT. Now the boys march to PT looking more like an infantry division than a bunch of sailors. On a recent morning, as the second battalion was doing its daily mile before breakfast, commodore (of the Nautical Association) Jack Taft called out, "Don't get separated from your unit or you'll be sent overseas!"

There are ways and ways of catching crabs, and some are

definitely inferior to others, as crew member Jim Hield learned not long ago. While Jim was plying his oar on the Charles, one of the tenacious crustacea grabbed on, reversing the oar's moment of inertia and thereby propelling Sailor Hield headlong into the un-briny waves. We trust it was a good day for swimming? Or crabbing, perhaps?

One blustery morning last week, when the chill of winter was in the air, the early morning calisthenickers were shivering in their khakis. Suddenly, in a brief pause between exercises, a flock of geese appeared overhead, winging their way southward for the winter. There was a long silence while every eye followed their flight to the horizon with yearning and envy. Even the geese have sense enough to go South in weather like this!

# Tech Dinghies Take Second At New London

## Regatta Is Won By Coast Guardsmen As Harvard, Yale Trail

Last Sunday the Tech Varsity sailing trailed Coast Guard Academy by ten points in a quadrangular regatta at New London on the Thames River. The other two teams, Harvard and Yale followed in that order. Showing mastery in the 12-foot division, Jack Taft, 2-44, president of the I.C.Y.R.A., took first with 26 points and was followed closely by Bob Smith, 10-44, with 25 points.

The racing was divided into three divisions, the star class, the International 14-foot class and the International 12-foot or dinghy class. Each participant in the race was allowed one skipper and crew in the first and second, and two skipper-crew teams in the dinghy class. For Technology, Mike Doyle, 2-46 skipper, and Fred Blatt, 2-46, crew, raced in the star class; Harold Boericke, 2-44, skipper, and Jay R. Schwartz, 6-45, participated in the International 14-foot class. In the Dinghy class, John R. Taft, 2-44, and Robert O. Smith, 10-44, were skippers.

It is interesting to note that the commodore of every team except Yale raced in a different division and also won that division for his team. In the Star Class, Harvard's commodore, George O'Day was high man with 28 points followed by Hildebrand, Coast Guard 22; Doyle, M.I.T., 20, and Whittlesey, Yale, 10. The 14 foot divisions high

(Continued on Page 4)

## Crew Beats Harvard

(Continued from Page 1)

his crew stroke for stroke with Harvard and the Red and Gray forged ahead. As the boats passed under the Harvard Bridge the Tech boat was a half length in the lead and as they nosed into the last lap and the sprint began the Technology boat pulled ahead. Just before the finish line the Harvard boat caught two crabs on the port side and the boat veered toward the Cambridge bank, enabling Tech to finish a length in the lead.

In the 150 pound class two Tech boats were defeated by a Harvard light crew in the winning time of 6:53.1. The Tech varsity light boat came in second and the second lights brought up the rear. Between the first two boats the competition was keen, the difference in times being only 1.9 seconds. The gap between the second and last boats was considerably larger. The official times were: Harvard, 6:53.1, Tech, varsity 6:55, 2nd. 7:06.5.

The Tech Junior Varsity duplicated the Varsity feat in the race with their crimson counterparts. The race was definitely a Tech race, as the gap in times shows. The official times were: Tech, 7:03.3, Harvard, 7:09.3.

## Tech Catches Crab

Possibly the most heartbreaking race of the afternoon was the 3rd. heavy boat contest. The Tech oarsmen were well in the lead when the boats passed under the Harvard Bridge but a crab under the arch slowed them sufficiently to enable Harvard to forge ahead and cross the finish line in the lead. The official times were: Harvard, 7:03.1, Tech, 7:03.7.

## Swimming Team Starts Practice November 1st

Coach Gordon Smith announces that practice for the swimming team is scheduled to start on November 1st.

Meets have already been scheduled with Trinity College and Worcester Polytechnic Institute. Other meets are being arranged.

## Freshmen Take Intramural Meet

### Poorman And Bowen In 2-Mile Dead Heat

The Class of 1947, piling up a total of 135 points, ran away with the annual Interclass Track meet, held Wednesday and Thursday afternoon. The powerful freshman team overwhelmed the second place Sophomores by 87 points. The Juniors followed with 30 points, and the Seniors, with no entrants, took an easy fourth.

Outstanding in the scoring for the winning class was Arthur Derrick, a V-12 student, who took first place in the broad jump and pole vault; second in the javelin, shot put, and hammer; and took third in the discus, for a total of 24 points.

### The summary:

**120 Yd. High Hurdles**—Won by Baldwin, '46; McKee, '44, 2nd; Bursnall, '47, 3rd; Randolph, '44, 4th. Time 17.4.

**Pole Vault**—Won by Derrick, '47; Wright, '47, 2nd; Brosman, '47, 3rd; Fletcher, '46, 4th. 11' 6".

**Broad Jump**—Won by Derrick, '47; Brosman, '47, 2nd; Karno, '47, 3rd. Distance, 19' 7".

**Javelin**—Won by Hollister, '45; Derrick, 2nd; Stewart, '47, 3rd. Distance, 156' 4".

**High Jump**—Won by Campbell, '47; Bowen, '47, Perkins, '47, Holben, '46, Pasfield, '46, tied for 2nd. Height, 5' 6".

**440 Yd. Dash**—Won by Hardy, '47; Bailey, '45, 2nd; Whipple, '46, 3rd; Crowder, '46, 4th; Hampar, '47 and Kay, '46, tied for 5th. Time. 52.8 Secs.

**100 Yd. Dash**—Won by Grady, '47; Bode, '45, 2nd; Burns, '46, 3rd. Time 10.4 secs.

**220 Yd. Dash**—Won by Grady, '47; Bode, '45, 2nd; Bent, '47, 3rd.

**880 Yd. Run**—Won by Bryant, '45; Goldie, '46, 2nd; Hampar, '47, 3rd. 2 min. 3.7 secs.

**2-Mile Run**—Tied for first between Poorman, '46 and Bowen, '47.

(Continued on Page 4)

# Cincinnati Wins Softball Tourney; Defeats Phi Delt

## Theta Chi Triumphs Over Lehigh 4 To 2; Cincinnati Wins Keg

The last two deciding games of the Beaver Key round robin baseball tourney were played off last week with Cincinnati, one of the navy teams, emerging as the victor. This officially brings to an end the Beaver Key baseball season, which saw twenty-four M.I.T. teams representing fraternities, the Navy, and several campus organizations, play in interleague competition. The leaders of each of the four leagues played among themselves for the title.

In a bitterly contested game last week, Theta Chi triumphed over Lehigh by the score of four to two. John Winninghoff, 6-45, now in the air corps, managed to scatter most of Lehigh's hits while his teammates took advantage of the Navy pitcher's wildness to bunch several walks and a few well-placed hits in one inning to score all of their four runs.

### Jim Grey Effective

On Friday Phi Delta Theta met Cincinnati in the finals of the Beaver Key tournament, following a forfeit to Phi Delta Theta by Lehigh. This game, which was played for the Beaver Key trophy was a walkaway for Cincinnati. Jim Grey, pitching for Cincinnati, displayed the same effectiveness he had shown against Lehigh the week before and pitched a shutout until the last inning when Phi Delta Theta rallied. After loading the bases with no outs, they managed to push three runs across before they were stopped by Grey. Cincinnati had four three run innings to insure their control of the game.

### Cincinnati Wins Again

On Sunday the same two teams met again in a consolation game with a keg of beer as the prize but Cincinnati prevailed again.

## Postwar Plans

(Continued from Page 1)

would be the building of a new library building to provide for increased use that the present facilities can not take care of.

He said that the progress that has been made in the past few years toward acquiring better housing and recreational facilities for the student body has been good, and is vital to the success of the present war co-operation program, but that the program could not yet be considered finished and that an even better and more complete plant would be built up in the future.

The present student enrollment of the Institute is 1,400 civilians and over 3,000 military personnel, compared with a prewar enrollment of 3,100 students. The staff has been increased from 1,100 to 4,300 and operational expenses have gone from \$4,000,000 to \$23,000,000.

## BEAVER KEY RESULTS

Theta Chi 4 ..... Lehigh 2  
Cincinnati 12 ..... Phi Delta Theta 3  
Phi Delta Theta by forfeit over Lehigh

### Final Standings

## New Corporation Members Elected

### Election Of Three Men Announced By Compton

The election of three new life members of the corporation of the Massachusetts Institute of Technology was announced by Dr. Karl T. Compton, President of the Institute, last night. They are William S. Newell, President of the Bath Iron Works Corporation, Bath, Maine; Louis S. Cates, President of the Phelps Dodge Corporation, New York; and Marshall E. Dalton, President of the Boston Manufacturers Mutual Insurance Company and Paper Mill Mutual Insurance Company of Boston.

All new members of the corporation are alumni of the Institute. Mr. Newell was graduated in 1899, and served on the corporation of the Institute as an alumni term member from 1936 to 1941. Mr. Cates graduated from the Institute in 1902, and served as a term member of the corporation from 1933 to 1938. Mr. Dalton, was graduated in 1915. As president of the Technology Alumni Association from 1937 to 1938, he was an ex officio member of the corporation, and was elected to term membership on the governing body of the Institute for the five-year term from 1938 to 1943.

### Tech Sailors Second

(Continued from Page 3)

was taken by "Mitch" Daniel the Coast Guard commodore with 28. Lewis of Yale had 24; Danner, Harvard, and Boericke, M.I.T., were tied with 14 points each. In the dinghy division, Jack Taft, M.I.T. commodore, was first with 26 points. Daly of Yale and Smith of M.I.T. were second with 25 pts. Fontaine, Coast Guard, 23; Burton, Harvard, 21; Hall, Yale 19; and Torrey, Harvard, 17. Thus M.I.T. took the dinghy team total with 51, Coast Guard had 45, Yale 44, and Harvard 36.

There will be a sailing regatta held at the Institute on Saturday October 30, which will be for the Schell Trophy with fifteen or more colleges participating.

## Reviews and Previews

**METROPOLITAN**—Ernest Hemingway's novel of the Spanish Civil War, *For Whom The Bell Tolls*, is here in its technicolor film version. Starring Gary Cooper and Ingrid Bergman, the emphasis of the picture is on drama and raised prices.

**RKO BOSTON**—Dante, master magician, is on the stage this week. His tricks are really astounding at times, though occasionally slightly amateurish. The screen bill is *Honeymoon Lodge*, a musical with Harriet Hilliard, Veloz and Yolanda, Ray Eberle, and Ozzie Nelson and his Orchestra.

**MAJESTIC**—The town's second stage show brings the *Radio Revels of 1943* and Rubino and his violin. The latest Sherlock Holmes picture, *Sherlock Holmes Faces Death*, is on the screen.

**KEITH MEMORIAL**—Held over for a second week is *Phantom of the Opera*, with Nelson Eddy in the lead role. It mixes music, romance, and chills. The second billed film is *Prairie Chickens*.

**PARAMOUNT AND FENWAY**—This *Is The Army* moves down here for this week. In addition to the original soldier cast of the stage version, there are George Murphy, Joan Leslie, and a host of other stars in small roles, even Sergeant Joe Louis. Irving Berlin has written a few more songs to go in this picture, in addition to all the original ones.

**LOEW'S STATE AND ORPHEUM**—Another hold over is *Salute To The Marines*. Wallace Berry takes the lead role as a master-sergeant in the Marine Corps stationed in the East. He ends up with his daughter being a sergeant in the same corps. *My Kingdom For A Cook* is the second film. It's a tale of what happens when Charles Coburn, an Englishman, comes to this country and steals someone's cook.

**KENMORE**—For the boys in Back Bay. Bataan, with Robert Taylor and George Murphy, and Leon Errol in *Strictly In The Groove* the first of next week, with *Little Women* and *Fleet's In* coming in the middle of the week.

## Frosh Win Track Meet

(Continued from Page 3)

Embrie, '47, 3rd. Time 11 min. 11 sec.

**220 Yd. Low Hurdles**—Won by Baldwin, '46; Bursnall, '47, 2nd. Time 27.2 sec.

**Hammer Throw**—Won by Murphy, '47; Derrick, '47, 2nd; Chapman, '47, 3rd; Dickinson, '47, 4th; Kuehl, '46, 5th. Distance 102' 6".

**Discus**—Won by Dickinson, '47; Kulesa, '46, 2nd; Campbell, '47, 3rd; Derrick, '47, 4th; Brosman, '47, 5th. Distance 109' 4".

**Shot-put**—Won by Kulesa, '46; Derrick, '47, 2nd; Murphy, '47, 3rd; Keljikan, '47, 4th; Dickinson, '47, 5th. Distance 34' 1".

**Mile Run**—Won by Poorman, '46; Schwartz, '46, 2nd; Bowen, '47, 3rd. Time 4 min. 44 sec.

**Score:** Freshman, 135; Sophomores, 58; Juniors, 30; and Seniors, 00.

## Cross Country Meet

(Continued from Page 1)

race the team showed excellent balance by finishing in a group. The tabulation below will give a picture of the finish:

Dartmouth:	1	2	3	5	10
M.I.T.:	6	7	8	9	11
Harvard:	4	13	16	17	19
Tufts:	14	18	22	25	27

Next week Tech will journey to Worcester, there to meet Worcester Polytech in a dual cross-country race over the campus of the Worcester school. Worcester's team has a good record for the season, having two wins to one loss. The only loss was to Renssalaer, while one of the wins came in races with Northeastern University by a score of 15 to 56, with two Worcester boys finishing in a dead heat for first place.

To meet this threat, Tech's already well-balanced team will be

strengthened by the addition of Art Schwartz. The rest of the starters will probably include: Captain Ken Joseph, Dick Poorman, Bud Bryant, Dave Bailey, Charlie Goldie, and Bill Hardy. The Tech team is pointing toward another dual race success in the form of a victory over W.P.I. this Saturday.

### The First Church of Christ, Scientist

Falmouth, Norway and St. Paul Sts. Boston, Massachusetts

## Have a Coca-Cola = Welcome, Short-Snorter

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".

... from family fireside to far-flung fronts

When short-snorters (trans-ocean flyers) meet and compare their autographed dollar bills, the invitation *Have a "Coke"* is fairly sure to follow. At home and abroad Coca-Cola has become a symbol of those who see things in a friendly light.

# Dependable as Your Daily Paper

You light up a cigarette, unfold your newspaper and the news of the world unfolds before your eyes. You depend on the printed word to keep you up to the minute on everything that counts.

And smokers depend on Chesterfield for everything that counts in a cigarette. Their *Right Combination* of the world's best cigarette tobaccos makes them *Milder, Cooler-Smoking* and far *Better-Tasting*. Make your next pack Chesterfield and see how *really good* a cigarette can be.

*They Satisfy*  
 NOT A SLOGAN BUT A FACT
