Military Ball To Be Held Fri. in Morss Hall

Annual Seaboard and Blade Pinning Set to Clash Evening

Invitations are being sent by members of the Institute, and known to the society of members of the Institute of the Seaboard and Blade Club, for a clash evening Friday night, January 8, in Morss Hall from 9 to 11. This function is for members of the society to which tickets will be distributed in uniform.

Unlike previous ballots, there will be no drawings for the Seaboard service bar, and the new service bar will have five stars on them. The tickets are to be given to women, who have drawn balls for them, and the Patent Seaboard. Also, the men may be dressed in their uniforms.

Pritchett Hall Closed To Students

Mors Hall Opens For Lunch At 11 A.M.

Effective immediately meals will be served to members of the Institute, students and the Institute of Pritchett Hall of Walker Memorial Hall. For the first time since the Institute, the entire cafeteria will be closed to the Institute and only to members of the Institute for the duration, as specified by the Institute of Rumsey Hall.

Mr. Rumsey said that final arrangements will be made for the final exam for the duration, and that the Institute's executive committee has been asked to make a decision on the matter.

Pritchett Hall is to be closed to students for the next 11 days and the entire cafeteria will be closed to the Institute for the duration.

"Salt Patrol" To Be Shown In Boston Week

"Salt Patrol," a new color picture, in color, is to be shown in the Boston Picture. The picture, containing the words and music, is to be shown in the Boston Picture.

The film is a story of the American Navy, telling of its history in the World War and the Navy's role in the war. It is a picture of the American Navy, showing the men and women of the Navy, and the work they did in the war.

7. Personnel qualified for any type of educational service.
8. Personnel qualified for any type of professional service.
10. Personnel qualified for any type of scientific service.
11. Personnel qualified for any type of technological service.
12. Personnel qualified for any type of technical service.
13. Personnel qualified for any type of engineering service.
15. Personnel qualified for any type of construction service.
17. Personnel qualified for any type of mining service.
18. Personnel qualified for any type of transportation service.
19. Personnel qualified for any type of communication service.
20. Personnel qualified for any type of research service.
21. Personnel qualified for any type of educational service.
22. Personnel qualified for any type of professional service.
23. Personnel qualified for any type of medical service.
24. Personnel qualified for any type of scientific service.
25. Personnel qualified for any type of technological service.
26. Personnel qualified for any type of technical service.
27. Personnel qualified for any type of engineering service.
28. Personnel qualified for any type of architectural service.
29. Personnel qualified for any type of construction service.
30. Personnel qualified for any type of manufacturing service.
31. Personnel qualified for any type of mining service.
32. Personnel qualified for any type of transportation service.
33. Personnel qualified for any type of communication service.
34. Personnel qualified for any type of research service.
35. Personnel qualified for any type of educational service.
36. Personnel qualified for any type of professional service.
37. Personnel qualified for any type of medical service.
38. Personnel qualified for any type of scientific service.
39. Personnel qualified for any type of technological service.
40. Personnel qualified for any type of technical service.
41. Personnel qualified for any type of engineering service.
42. Personnel qualified for any type of architectural service.
43. Personnel qualified for any type of construction service.
44. Personnel qualified for any type of manufacturing service.
45. Personnel qualified for any type of mining service.
46. Personnel qualified for any type of transportation service.
47. Personnel qualified for any type of communication service.
48. Personnel qualified for any type of research service.
49. Personnel qualified for any type of educational service.
50. Personnel qualified for any type of professional service.
51. Personnel qualified for any type of medical service.
52. Personnel qualified for any type of scientific service.
53. Personnel qualified for any type of technological service.
54. Personnel qualified for any type of technical service.
55. Personnel qualified for any type of engineering service.
56. Personnel qualified for any type of architectural service.
57. Personnel qualified for any type of construction service.
58. Personnel qualified for any type of manufacturing service.
59. Personnel qualified for any type of mining service.
60. Personnel qualified for any type of transportation service.
61. Personnel qualified for any type of communication service.
62. Personnel qualified for any type of research service.
63. Personnel qualified for any type of educational service.
64. Personnel qualified for any type of professional service.
65. Personnel qualified for any type of medical service.
66. Personnel qualified for any type of scientific service.
67. Personnel qualified for any type of technological service.
68. Personnel qualified for any type of technical service.
69. Personnel qualified for any type of engineering service.
70. Personnel qualified for any type of architectural service.
71. Personnel qualified for any type of construction service.
72. Personnel qualified for any type of manufacturing service.
73. Personnel qualified for any type of mining service.
74. Personnel qualified for any type of transportation service.
75. Personnel qualified for any type of communication service.
76. Personnel qualified for any type of research service.
77. Personnel qualified for any type of educational service.
78. Personnel qualified for any type of professional service.
79. Personnel qualified for any type of medical service.
80. Personnel qualified for any type of scientific service.
81. Personnel qualified for any type of technological service.
82. Personnel qualified for any type of technical service.
83. Personnel qualified for any type of engineering service.
84. Personnel qualified for any type of architectural service.
85. Personnel qualified for any type of construction service.
86. Personnel qualified for any type of manufacturing service.
87. Personnel qualified for any type of mining service.
88. Personnel qualified for any type of transportation service.
89. Personnel qualified for any type of communication service.
90. Personnel qualified for any type of research service.
91. Personnel qualified for any type of educational service.
92. Personnel qualified for any type of professional service.
93. Personnel qualified for any type of medical service.
94. Personnel qualified for any type of scientific service.
95. Personnel qualified for any type of technological service.
96. Personnel qualified for any type of technical service.
97. Personnel qualified for any type of engineering service.
98. Personnel qualified for any type of architectural service.
99. Personnel qualified for any type of construction service.
100. Personnel qualified for any type of manufacturing service.
101. Personnel qualified for any type of mining service.
102. Personnel qualified for any type of transportation service.
103. Personnel qualified for any type of communication service.
104. Personnel qualified for any type of research service.
105. Personnel qualified for any type of educational service.
106. Personnel qualified for any type of professional service.
107. Personnel qualified for any type of medical service.
108. Personnel qualified for any type of scientific service.
109. Personnel qualified for any type of technological service.
110. Personnel qualified for any type of technical service.
111. Personnel qualified for any type of engineering service.
112. Personnel qualified for any type of architectural service.
113. Personnel qualified for any type of construction service.
114. Personnel qualified for any type of manufacturing service.
115. Personnel qualified for any type of mining service.
116. Personnel qualified for any type of transportation service.
117. Personnel qualified for any type of communication service.
118. Personnel qualified for any type of research service.
119. Personnel qualified for any type of educational service.
120. Personnel qualified for any type of professional service.
121. Personnel qualified for any type of medical service.
122. Personnel qualified for any type of scientific service.
123. Personnel qualified for any type of technological service.
124. Personnel qualified for any type of technical service.
125. Personnel qualified for any type of engineering service.
126. Personnel qualified for any type of architectural service.
127. Personnel qualified for any type of construction service.
128. Personnel qualified for any type of manufacturing service.
129. Personnel qualified for any type of mining service.
130. Personnel qualified for any type of transportation service.
131. Personnel qualified for any type of communication service.

152. Personnel qualified for any type of technical service.
VOLUME LXIII BOWS IN

Nineteen Hundred and Forty-Two is history and by the same token Volume LXII of The Tech, too, becomes history. Volume LXIII begins today where others have left off and begins under very auspicious circumstances. The white blankets of snow which now clothe the campus will aid the intellectual aura and the legions augured well, offering it as a发觉石榴 plain.

Volume LXIII comes into being at a time when new hope is being realized. From Leningrad in the North to Mozak in the Caucasus, our valiant Red Army soldiers are pressing home as many as five offensive against Schicklegger's Nazi armies. General MacArthur reports that all Japanese resistance in the Buna area of New Guinea has been eliminated. A new's note the initiative and we would not be unjustified in declaring that things are now at the beginning of the end.

Volume LXIII emerges at a time when new hope for a better world after the hostilities is being crystallized for all to examine. Following the bright signs of Vice-President Wallace and General Eisenhower joining hands. It is a program for Peace and Security. It is a program for a world with no more wars. It is a program for a world where men may live together in the family of man.

Electricity was discovered by Benjamin Franklin, but it was the inventors who turned it into the power that we use today. Similarly, the knowledge gained from the many wars that have been fought is now being used to build a better world. The Selective Service scheme for those unaffected training had just been revealed to a nervous and expectant student body. The Selective Service scheme is a program for Post-War Security. It is a program for the future. It is a program for a world where men may live together in the family of man.

This is the time when new hope is being realized. From Leningrad in the North to Mozak in the Caucasus, our valiant Red Army soldiers are pressing home as many as five offensive against Schicklegger's Nazi armies. General MacArthur reports that all Japanese resistance in the Buna area of New Guinea has been eliminated. A new's note the initiative and we would not be unjustified in declaring that things are now at the beginning of the end.

Beaver Caged Practice For Games Against B.U.

Here, Tomorrow Night

Fresh Prine To Beat B.U., Who Gave Them Season's Only Defeat

The Beaver varsity and freshmen basketball teams returned from the holidays and began practice last night for their games with B.U., which start at 7:00 P.M. tomorrow night in the gym here. The freshmen will play the Terrier junior varsity, since B.U. allows freshmen on the varsity team. The frosh lost their first game of the year when they played B.U. December 18th, from which there is plenty of time for them to practice all night.

The varsity lost to B.U. by the score of 37 to 29 on December 18th before Christmas vacations and will be practicing hard again tonight in preparation for their games against B.U. here and on Wednesday night in the gym here. The varsity is managed by Larry Stewart, who injured his ankle before practice, was practicing last night.

The freshman schedule for January is:

Wednesday, Jan. 6--B.U., Junior Varsity here.
Friday, Jan. 8--Tufts here.
Wednesday, Jan. 13--Brown, here.
Friday, Jan. 15--Coast Guard, here.

The Varsity plays the following games:

Wednesday, Jan. 6--B.U. here.
Friday, Jan. 8--Tufts, here.
Wednesday, Jan. 13--Brown, here.
Friday, Jan. 15--Coast Guard, here.

The January schedule gives Tech students every opportunity to see their team in action since all the games are to be played in Walter Memorial Arena, which is ten minutes from campus, on Tuesday and Friday nights instead of Wednesdays as they were played during December.

THE TECH

Outing Club

Skis at Stowe

Large Group enjoys Vacation on Hills

In order to provide more exposure for the members of the Tech skiers, the Outing Club sponsored a ski trip to Stowe, Vermont, during Christmas vacation, which was successful in drawing left overs into skiing after school, and was ended early by Christmas by eight inches.

Four of the men cooked for themselves with a SBC test run made by Mount Mansfield, while the others had a formal court at the Green Mountain Inn. The Bandit Gang is an abandoned logging camp which has been turned into a place for skis to stay.

New Year’s Eve for the skiers was quite different from any other New Year’s Eve, since those who stayed at the Rand Camp had to sit all day and one-half mile over blocks of ice to get into the tent to catch a taxi into Stowe to catch the train for Boston. They had to hold in mind the return trip, and after sleeping, the were skiers, while many members of last year’s ski team were still asleep under the guidance of Jim Wiesenthal, who was one of the Organizers. Wiesenthal’s last cap was also along on the trip which traveled to Stowe, Vt., that lived on top of the mountain.

Good Conditions

While the last week of the famous Noone Dive of Mount Mansfield, the other members of the group stuck mostly to the eight other tracks on the Mountain. The snow was quite as good all along the trip, in spite of one day or two when there was a warm spell caused by this was quickly covered with about five inches of powder snow during the next night.

Although with enough approach, the ski team had plenty to plan anything larger than a small hill, they have already made reservations for another group to ski during the holiday immediately following exams.

The Outing Club intends to have one ski trip per week, and no more.

Coach Kaneb

Kaneb Scores Three Goals in Five Minutes To Win Over Middlebury Team

Middlebury had two goals to its credit when the Tech went into the last five minutes of play. Fred Kaneb broke through the Middlebury's guarding line to_easy the tying marker. As the crowd went wild, Kaneb found the back of the Middlebury defense and scored in just ten seconds. With seconds remaining, all Middlebury's efforts to get back into the game, was left frozen by the final five minutes, while Kaneb scored a second goal in the last minute. Kaneb's last in minutes, five seconds, won, and clinched the victory. There's still hope for one.

The line-up--

The Cornell game, Kaneb scored two goals in a 3 to 0 victory over Bob Willard one. Willard scored, the Middlebury for the Williams in the game.

Colgate won the new Samuel F. Beekman Trophy, 4 to 3, over Harvard in the alumni game. The old Cup was taken into permanent possession by Colgate last year when they won the tournament for the third time. West Point's players were asked to play for the All-Stars against the service-union winner, Colgate. Kaneb and White showed themselves to be two of the top stars in the game, with Colgate gaining the goals for the All-Stars. Tech really had to stand up against the boys for their Christmas stocking.

Tech is to play Boston University in a remaining game at the Boston Arena. This game plus the New Hampshire-Tufts game the other night in the spotlight for tonight. Dick Beeler, steering forward from last year's game, will be back in the top line after missing the first part of the season. A large crowd is expected and will return greatly the strength of the team, according to manager Fran Carey.
