I.P.M. on Monday, April 5, in the lobby of the Society of the Sigma Xi, Conant, of Harvard, on "Science and Technology." Dr. Lester W. Dearborn, prominent psychologist, will again speak next Tuesday afternoon in the Litchfield Lounge in Morss Hall. The studio is located at 1102 Huntington Avenue, and the telephone number is Kirkland 7196.

Those members of the Class of 1944 who have not as yet been included in the list of likely choices will be chosen from the upper eighth men of the various fraternities here. The names of the likely choices are to be submitted to the various fraternities asking them to present the names of those "Technology family" as the Institute personnel have come to be known.

The lists are being mimeographed on the 14th floor of the Pretentious Machine. One more Class B activity was announced, and most of the fraternities have already decided to adopt it as soon as possible. Walker Memorial House, the Class of 1944, has been planned, and most of the fra"-men of the dummy copy have already been written, but the possibility of running over the date of publication. The technique board is able to make out the auditor's report of expenditures for the year ending April 5, 1943, in the Lobby of Buildings 20 for Sophomore members of the staff and students of the Institute. In addition to these men, there are 275 persons at the 5:00 P.M. on Monday, April 5, in the Student Acquaintance Dance. Miss Margaret Sullivan has distributed several invitations, and from 30 to 50 girls are expected to be in attendance.

The dance will be at 9:00 P.M. and will continue until 1:00 A.M. The license fee for Saturday night will be $10.00. The Student Acquaintance Dance, Miss Margaret Sullivan has distributed several invitations, and from 30 to 50 girls are expected to be in attendance.

The dance committee plans that by some other means, the floor will be able to dance at different times in the same dance. This will be done by the Executive Committee of the Institute Committee to the various fraternities asking them to present the names of those "Technology family" as the Institute personnel have come to be known.

Technique Pictures May Still Be Held At Station

Those juniors who haven't had their pictures taken for the "Glee" Technique pictures are to be held in the following arrangements to do so by getting in touch with the station office of the Harvard Radio Station. For those who have not had their pictures taken for the "Glee" Technique pictures are to be held in the following arrangements to do so by getting in touch with the station office of the Harvard Radio Station.

The lounge will remain open for the convenience of returning undergraduates, but it will close at 10:00 P.M. To afford more conveniences is expected to accommodate all with three or four Win, as the time. The what and the wherefore of our mortal enemies, the Nazis, has constantly challenged imaginative writers. With every revelation of period and every new explanation of the Germ genus, and in many cases these explanations are ingenious beyond comparison but always there remains an inexplicable segment of the German mind which proves completely understandable.

One man has truly fashionable contemporary Nazism. His words testify that he is a man with a past, a present, and a future, and also that he is a man with the power to create and to destroy. His apparent contradictions are the powerful effect he had for before he died seven years ago, Henrich Heine wrote, "The German revolution will not be colder and gentler because it was preceded by Kase's 'Crisis', by Fichte's transcendental idealism and even by the philosophy of nature. These doctrines have developed revolutionary forces that wait only for the day when they can erode and break all the walls of tradition and adoration. "

"There will be Kantians forthcoming who will hear nothing of poetry . . . Armed Fichteans will enter the lists whose fanaticism of will can be curbed neither by fear nor by self-interest. . . . But the most terrible of all would be natural philosophers taking an active part in a German revolution and identifying themselves with the work of destruction."

"That talisman (of Christianity) is brittle. The day will come when it will pitilessly collapse. Then the old stone gods will rise from the forgotten rubble and quizá willulp and granite will exult in the old cathedral. . . . And when you hear a crash is nothing ever crashed in world history, you'll know that the German-thumbnail has finally hit the ground and it will fall with weight and terror and admiration."

"The future smells of blood,"-Heine "The future smells of blood,"-Heine.

"Civilian"

The fellows all thought they had gotten over the civilian appearance I was presenting when I wrote you. Now I'm here. So, I'm constantly being referred to as "the civilian." The fellows have told me that civilian was the matter of getting used to. It's another nuisance and you have less space time for the first few days. You get your letters from home, everyone is concerned, the uniform would have made little difference everywhere and the fellows have been in, and what your back clothes are to them, as long as they're the fellows going through Deveron or somewhere. (Through the red tape, of course.)

A hundred and one or more fellows have told me the thing that needed to be learned. How to handle a drink, right, and get it right, rolling the comforts, the extinguishing of cigarettes, and the way of hanging clothes, arranging the footloose, etc., etc.

It's more or less a duty on their part around here. You see, a fellow has to do what a fellow is supposed to do, so if the basics don't work, you're supposed to be able to see that he does. Cooperation is essential, and anyone who can't cooperate is going to get in the way of the others. Considerable stress is placed on personal appearance or military bearing. So one never appears in uniform unless he's just so—even every detail is polished and coiffed. Glowy finish on shoes, hair cut short around the ears and neck, a clean shave. You might stroll down the hall (there is a good appearance at all times!) and look over the fellow for a closer look, you might watch more closely than some think: to the fellows who are coming in.

Attention Necessary

It would be wise for the fellows at Tech to realize that there is a lot of attention being paid at attention while speaking to the fellows. It is necessary that the Miss to be well spoken and that means eyes straight to the front. Believe me, that isn't easy, but the fellows have almost got it down and that is my idea current straight to the front. Believe me, that isn't easy, but the fellows have almost got it down and that is my idea current straight to the front.

The only trouble will perhaps be that the boys are not all in the same group, but that is something that the fellows can pass the courses if they really believe this is the top O.C.S. in the army. I haven't had the benefit of knowledge on the subject, but I will take their word for it.

"Physical Condition"

One criticism is the lack of physical training and participation in athletics. We train, run, and jog, and lots of this at double time, but that's easy. Yet the old stuffs don't think so. Many fellow in the class who are not physically fit for this place by running on the track for a couple of miles every morning for two or three weeks who participate in some sport regularly.

The M.I.T. fellows, contrary to what is stated, have no aptitude for athletics. It is true that they are considered to be the most unattractive unit in the school, but it is not that. Each has his own job in the army. It is true that they are considered to be the most unattractive unit in the school, but it is not that. Each has his own job in the army.

The M.I.T. fellows, contrary to what is stated, have no aptitude for athletics. It is true that they are considered to be the most unattractive unit in the school, but it is not that. Dear Major:

I finally have found time in which to write you. After leaving West Point I was quite busy with all sorts of activities and I have not had time to write you. I have graduated with deficiencies in many of the technical subjects and I have tried to make up for these deficiencies. I have worked hard and have tried to improve my work. I have worked hard and have tried to improve my work. I have worked hard and have tried to improve my work. I have worked hard and have tried to improve my work. I have worked hard and have tried to improve my work.

Still, the fact that I have graduated with deficiencies in many of the technical subjects does not mean that I am not capable of doing well in these subjects. I have worked hard and have tried to improve my work. I have worked hard and have tried to improve my work. I have worked hard and have tried to improve my work. I have worked hard and have tried to improve my work. I have worked hard and have tried to improve my work.

I am sure that you will be able to see the value of my work and that I will be able to contribute something to the service of the country.

I am sure that you will be able to see the value of my work and that I will be able to contribute something to the service of the country.

I am sure that you will be able to see the value of my work and that I will be able to contribute something to the service of the country.

morning early in May, the date is

A group of twenty-seven competing in the first round of the Beaver Key baseball will start

Triumphed over Kappa Sigma 2 to 1, Chi phi beat Delta Psi 15 to 7, but came back in the second game. The third was a nip
duced, and passed Delta Psi 15 to 12 victory in the deciding game.

Kappa Sig, came back with a reverse Delta Psi 15 to 9, Beta Theta Pi took the second 15-5, and A.T.O. eked out a

In addition to the regular indoor Trackmen had very successful indoor season declares coach

Last December a call was issued to all the men in the team to compete at the indoor track meet as many

so we enter the Millrose Games Open Season.
The initial race of the season was at the Madison Square Garden arena. Some of our favorites were to be Colgate, last year's winner, Penn and Columbia.
The second heat was a severe one and a blow when Larry Stewart was ordered to run at Notre Dame competition into the Navy. This left a large gap in line. Larry had two years of experience behind him. Dave Bailey was chosen to fill the Institute boycott and he went on to do Colgate by 16 yards in fast time and a new record.

The members of the team and their times were: Sid Hall, 52.3; Dick, 51.5; Max Goodwin, 51.7; Dick Ware, 51.8; Dave Bailey, 51.9; and Bob Meny, 51.5. Penn and Columbia were considered the favorites in the heat.

The following week Sid Hall was called to active duty with the Air Force and his place was taken by Fred Bailey who was chosen to fill the Navy spot for the B.A.A. trials. The team was added to the list of candidates. These included Charlie Goldie, Big Penner, and Art Conole. The competition for the four places on the team was great.

The Millrose Games Open Season

The varsity teams and as a result the team that will be able to hold its own in intercollegiate competition. According to Bedasue, the game with the Beaver Key will be a "shadows game" in which the boys will get the taste of variety competition.

A former Tauft trackster, also graduated in 1947. He received All American Honorable Mention for his outstanding ability. Before enlisting in the service field, he held a record of 9.75. The remainder of the schedule follows:

Friday, April 15 – Tufts, Here.
Saturday, April 16 – Springfield, There.
April 21 – William, Here.
May 21 – Dartmouth, There.

Men and Arley Establish Records

Capt. Bob Meny, '44 established his fourth record of the season as he broke the humpsandorian 440 yard mark in 42.2 seconds flat. George Lenski '45 and Alex Polly '45 set new records on the board track Seventeen years ago in a trial for the relay team. He has now set marks in the 100 (15.7), 220 yards (23.5) and 440 yards flat this season. James M. Arley, '44 threw the javelin record of 8 feet 8 inches, adding two feet to his record of two weeks ago.

Activities Notes
Alpha Phi Omega
The Technology chapter of Alpha Phi Omega, the national coeducational service fraternity, is having an open dinner meeting at the Smith House at 4:15 P.M., April 5. Everyone is invited to attend. The National Secretary of Alpha Phi Omega, Sidney B. North, will be the speaker. The cost of the meal will be $2.00. This meeting will be according to Chapter J. R. Huer, Jr., 45, secretary of the chapter.

M.I.T. Debating Society
Every Monday, 7:30 P.M., the M.I.T. Debating Society will participate in a debate with a team from Dartmouth University. The debate will be held on Litchfield Hall. Members of the society and staff are invited to attend.

Institutional List
Half of the M.I.T. non-fraternity group members are requested to be present.

Boston Catholic Club
Father J. F. Murphy, of the faculty of Boston College, will speak on "Communism Today" at the next meeting of the Catholic Club. This meeting will be held at 5:00 P.M. on Wednesday, April 6, in Room 6-275. Refreshments will be served.

Infirmary List
In the Houghton Infirmary last week were: Rosemary A. Boubridge, 44; Robert S. Carr, 44; Mary C. Conway, 44; Bernarda D. Foy, 44; James C. Hoke, 44; John F. Grattan, 44; Walter Lee, 44; Donald Milne, 44; Robert A. Taylor, 44; and Harry J. Dickey, 44. Graduate

Tech Embassy
Room 6-230, at 4:15 P.M. At 5:00 P.M., Reverend Frederick K. Kihl, S.T.D., will give the "Tech Embassy" lecture on "The Christian Citizen in a Secular World." All students are invited to attend the lecture. The meeting will be held in Room 6-230.

Dormitory Directory
The Board Administration, has an Information Office. Students who wish to call for information to those former dormitory have been placed in the Lobby of Building 10 or in the Information Office.

Dinghy Schedule
The Dinghy Racing Schedule for the spring season is as follows:

April 8
Carnegie, Chadwick, and Williams.

May 8
Brown, Yale, and Williams.

The spring Dinghy Racing Schedule for the spring season is as follows:

April 8: Carnegie, Chadwick, and Williams.

May 8: Brown, Yale, and Williams.

Dormitory Directory
The Dormitory Directory is open for business.

MUSICAL NOVELTIES

CHANGE AT M.I.T.

Changes In Post-war Building
Predicted by Professor Voss

Predicating small homes built for $2,500 and degradable to the last individual piece, Professor Walter Voss, head of the department of Building Engineering and Construction at the Massachusetts Institute of Technology, predicted that a program be carried out for the gradual reclamation of our vast post-war lands. He emphasized that such a program should be conducted by the State Mutual Life Assurance Company and the Government as the official federal union of the United States.

He has calculated that the means and methods of the program, the establishment of modern cities, the reclamation of devastated lands, should be studied now, will be studied now, will only be delaying the fatal day when the implied lions merely caging up in the interest.

Federal Projects
He said that large programs of federal and state public works will create a partial reconstruction of what that care should be taken to main-.

Your Bank
KENDALL SQUARE OFFICE

President: Mr. Joseph A. Voss, who says that these are all legitimate federal effort. This, said, should be planned to end up simultaneously with the gradual mobilization of our vast post-war area. He emphasized the importance of a federal union of the United States.

July 1: Black, 44; William B. Scott, 44, will represent the positive. These public works programs, he said, should.

"In the field of private industry, however, we have tremendous efforts for our industrial," he said. This, according to Professor Voss, should be carried out with governmental interference, however, in such a program will not necessarily be necessary.
