

## May Graduation Has 271 Degrees Awarded To 261

### Brief Exercises Held For Those Graduating At Late Commencement

A total of 279 degrees and 10 certificates of public health were awarded in graduation exercises held on May 28 in New England Mutual Hall on Boylston Street. The 261 candidates were addressed by Dr. John W. M. Bunker, Dean of the Institute's Graduate school. The Honorable Redfield Proctor, member of the Executive Committee of the Corporation presided over the exercises in the absence of Dr. Karl T. Compton, President of the Institute.

Among the graduates, all of whom completed their academic work following the regular Institute Commencement last February, were 17 young women. Degrees were presented to the graduates by Mr. Proctor, assisted by Dr. Bunker and Dr. George R. Harrison, Dean of Science.

Dr. Bunker in his commencement address stressed the importance of the contribution which can be made by engineers and scientists in building a new world order of justice for all men. He warned against the dangers of overspecialization and emphasized the need for the well educated man to interest himself both in broader fields and in the activities of his fellows.

## The Tech Opens New Smoker Series

### Newspaper To Outline Plans To Men of '47

The annual fall series of freshman smokers sponsored by the various activities sponsored by the various Tech organizations, will get under way next week. First on the program is that of The Tech, Technology's official undergraduate newspaper and oldest campus activity.

After freshmen camp, the frosh will probably give some thought to what activity they will go out for next year. It is to better acquaint these men with the workings of the activities that these smokers are held.

According to present plans, The Tech's smoker will feature short talks by the managing board, explaining the workings of the various departments and the opportunities available to freshman. All interested freshman are invited to attend this smoker, to be held at 5:15 P.M., Wednesday, June 30, in Pritchett Hall, on the second floor of the Walker Memorial Building. Refreshments will be served.

## Freshman Books Needed By T.C.A.

Second hand books, especially those used by the freshman class, are needed by the book exchange of the Technology Christian Association to fill the requirements of the 650 freshmen who are entering the Institute next week, the T. C. A. office has announced.

According to the T. C. A. many more Calculus, Physics and Drawing books are needed than have been turned in as yet, while there are usually more than enough English books made available. Drawing boards, drawing instruments, and slide rules are also much sought after, and, like the books, may all be sold for two thirds of the original cost.

## Miss M. Kelleher Elected A Member Of School Board

Miss Margaret Kelleher of the Medical Department of Technology has been chosen to serve as a member of the School Committee of the City of Cambridge.

Miss Kelleher has an able background, having been employed by the State Department of Education of Massachusetts, and for sixteen years has been associated with the Medical Department of Technology, all this experience making her a fitting member for the School Board.

Besides all this activity in public affairs Miss Kelleher has always held a high interest in the welfare of the children of Cambridge, and promises to help in every way to keep the Schools of Cambridge at their present state of perfection.

At the first meeting of the School Board, Miss Kelleher was active in sponsoring the Lanham Act, and voted more M.I.T. scholarships for Cambridge boys.

The selection of Miss Kelleher to the high office of school committeewoman is highly endorsed by the women's clubs of Cambridge. Miss Kelleher was elected to the Board as a military substitute for Major Ralph W. Robart as the result of a recount of the 4911 ballots credited to Robart at the original election. Miss Kelleher's final figure was 1521.

## Physical Exams Required Before August First

Before August 1 all undergraduates must make appointments at the Homberg Infirmary for the annual physical examination required of all students. Appointments may be made with the secretary of the medical director in the first floor office of the infirmary.

Any student who fails to make an appointment before the deadline of August 1 will be subject to a \$5.00 fine.

# Freshmen To Meet Faculty, Student Leaders At Camp; Housing Problems Solved

## Fraternities, TCA Room Service Aid Men Get Settled

With most fraternities seeking many new members to fill the vacancies left in their ranks by those who have left the Institute to serve with the Army or Navy, and with the T.C.A. maintaining an up-to-the-minute list of rooms available in both Boston and Cambridge, it now appears that the expected student housing problem will fail to materialize, despite all regular Institute housing facilities now having been taken for use of Army and Navy personnel.

To aid those fraternities who still have not obtained their desired quota of freshmen, the I.F.C. plans to prepare a list of men who have not made arrangements with fraternities, so that they may continue rushing until they have obtained enough men to keep the house operating. As usual, rushing is banned during Freshman Camp.

## Subscription Offer Still Holds Good

Those freshmen who have not as yet obtained their subscriptions to The Tech may do so by mailing their money to The Tech, Room 301 Walker Memorial any day next week. Credit cards will probably be ready by the end of the week, and should be called for Thursday afternoon.

All other students may obtain subscriptions at the regular student rate of \$1.50 per year. For \$2.00 per year a copy may be mailed home.

## Official Notice

Change in Registration Procedure For Students in

The Navy College Training Program Students in The Navy College Training Program should NOT see their Registration Officers on Monday, June 28.

On Thursday morning, July 1, when these students report for active duty to the Naval Officer in the Graduate House, they will be given instructions as to Navy Procedure, registration, text books, and supplies.

J. C. MACKINNON, Registrar

## Donate Over 7000 In V Book Drive

### Books Still Coming In To Information Office

Officially ended almost three months ago, Technology's Victory Book Campaign continues to roll up new records as more books pour into the Information Office, Room 7-111, where Mr. William Jackson presides over the collection which has now reached a grand total well over 7000, most of which have long since been shipped out to various army camps.

Inaugurated early last term by Mrs. Horace S. Ford, wife of the Institute treasurer, the drive was part of the nation-wide Victory Book Drive. All books were second hand, donated by their owners to provide the boys in the Army with reading matter. After being deposited in the receptacle in the Lobby of Building 7, the books are packed, and then shipped to the New England Library Depot. There they are sorted and then sent to various army camps.

The 7000 total, which is a recognized national record, includes only bound volumes, with many best sellers apparently donated after having been read only once. In addition there have been many hundreds of magazines, which the Library Depot donates to the Merchant Marine. Mr. Jackson plans to continue the drive as long as the books keep coming in, although as he says, "the end is nowhere in sight."

## New Exhibits Show U.S. Tanks, Planes

Two new wartime exhibits are now on display in the Lobby of Building 10, and are scheduled to remain there at least another week, according to Mr. Arthur C. Watson, Chairman of the Museum Committee.

In the showcases along the North wall of the Lobby is a series of pictures loaned by the Office of War Information especially for this exhibit. These pictures show American tanks in production, going through their paces in the training area near Fort Knox, Kentucky, and in action in the African desert fighting. The M-3 and M-4 type tanks are prominently featured in this display.

The center of the Lobby has a display of pictures of the airplanes used by the U. S. and British airmen on all of the world's fighting fronts. This exhibit, entitled "American Cooperation With The R.A.F.", was made possible through courtesy of the British Information Services.

## Camp Adjourns After Athletic Program Tom'w

This evening the annual Freshman Camp will open for the class of '47. The activities will continue until tomorrow afternoon when the camp will adjourn. Following the precedent set last year, camp will be held on the Tech campus rather than at Camp Massapoag, as was the custom in the days of peace.

Camp will open officially at 5:30 this evening when a group, expected to number 500, will register in the lobby of the Graduate House. After registration the group will adjourn to the new cafeteria where dinner will be held at 6:00 followed by assembly in Huntington Hall at 7:30.

After being welcomed to Camp and to the Institute, the freshmen will be entertained by the songs and good cheer of "Obie" Denison '11. Following this lighter side of the program, the frosh will be addressed on the more serious side of life at Tech, including addresses on the Army and the Navy at the Institute by Col. E. W. Putney and Capt. Charles S. Joyce respectively.

### Assembly in Walker

Saturday morning the Campers will assemble in Walker Gym for a meeting presided over by Wallace M. Ross, secretary of the T.C.A., in which discussions will be held by Rev. Frederick B. Kellogg, and Dr. Sylvester Carter will deliver a solo followed by the presentation of activities and "Obie" Denison.

Following a short intermission the frosh will again assemble to hear a talk on "From School to College" by F. Alexander Magoun.

(Continued on Page 4)

## Pre-School Smoker Held By 5:15 Club

Attended by about forty members of the new freshman class, the 5:15 Club's annual pre-school smoker to acquaint the new men with the Club was held last Wednesday evening in the club-room in the basement of the Walker Memorial Building.

Oscar Hedlund, coach of track, was the guest speaker and spoke to the frosh on the importance of sports and activities in the undergraduate life of a Tech freshman. Thomas F. Dolan, President of the Club, spoke to the men on the purposes, aims, and organization of the club, and pointed out that all students not members of fraternities are eligible for membership in the Club, which entitles them to full use of all its facilities.

## Hobby Shop Opens Doors For All Men Interested

A special invitation has been extended to all interested freshmen by the Hobby Shop to come down and look around. The shop will be open today and tomorrow from 12 noon until 5:30 P.M., and will probably be open all day beginning next week.

The Hobby Shop offers all students facilities for pursuing hobbies while at Tech. Equipment is available for metal and woodworking, photography, including a large well-equipped darkroom, radio room, glass blowing, model making, gem grinding, and book binding.

The Hobby Shop quarters are located in the basement of Building 2, in Room 2-051.

## FRESHMAN CAMP PROGRAM

### FRIDAY

- 5:30 Registration at the Graduate House
- 6:00 Dinner in the New Cafeteria (near the swimming pool)
- 7:30 Assembly in Huntington Hall—10-250

Presiding—Langdon S. Flowers, Vice-President, '44  
 Welcome to Freshman Camp—Clinton C. Kemp, '43  
 Tech Songs and Cheers—Orville B. Denison, '11  
 Institute Welcome Address—James R. Killian, '26  
 "Getting Admitted and Staying In"—Prof. B. Alden Thresher, '20  
 "History of Technology"—Prof. Charles E. Locke, '96  
 Presentation of Walker Key—Prof. Charles E. Locke, '96  
 Solo—Dr. Sylvester Carter  
 The Army at the Institute—Col. Edward W. Putney  
 The Navy at the Institute—Capt. Charles S. Joyce  
 The Homberg Infirmary—Dr. Benjamin E. Sibley  
 "Obie" Denison, '11

- 10:00 Adjournment

### SATURDAY

- 9:30 Assembly in Walker Gym  
 Wallace M. Ross—presiding  
 Discussions—Rev. Frederick B. Kellogg  
 Solo—Dr. Sylvester Carter  
 Presentation of Activities—Langdon S. Flowers, '44—presiding  
 "Obie" Denison
- 10:30 Intermission—Activity exhibits in Walker Memorial  
 Field Day—Thor K. Stromsted, '45  
 Class Spirit—Coach Oscar Hedlund  
 Solo—Dr. Sylvester Carter  
 5:15 Club—Thomas F. Dolan, '44  
 Inter-Fraternity Conference—Robert V. Thiede, '44  
 Open Forum  
 Marking System, Point System, Freshman Council, etc.—Langdon S. Flowers and Clinton C. Kemp, presiding  
 "Obie" Denison
- 12:30 Lunch in New Cafeteria
- 1:45 Assembly in Great Court—President Compton  
 Introduction of Staff—Dean Lobdell, '17—presiding  
 Presentation of Athletics—Kenneth L. Keating, '45—presiding
- 2:45 Athletic Program—Ken Keating—presiding  
 Faculty—Counsellor softball game

## FRESHMAN CAMP AT TECH

Last year, for the first time in many moons, freshmen were no longer able to use the icy depths of Lake Massapoag, former locale of Freshman Camp, as a depository for naughty Sophs. It was no longer possible to insure the future of the class by subjecting the Soph president to the traditional trial by water. This year this tradition must again go by the board. Perhaps ingenious frosh will find a substitute such as chasing the worthy prexy over the commando course with a barbed-wire bull whip.

It is fortunate, however, that if any tradition must suffer destruction it is the aforementioned and not some of the other time hallowed customs. Obie Denison, known and loved by many classes of former years, will again be on hand to render "At the Sign of the Three Brass Balls." The faculty will be on hand to strive mightily with bat and spheroid. Professor Locke, venerable Technology historian, will be present. Dr. Carter will once more sing.

Activities and sports will attempt as usual to ensnare prospects. We feel that the entering men will do well by themselves to remain awake during the presentation of the hows and wherefores of these extra-curricula activities.

The Technology Christian Association is deserving of appreciation for the effort that it has put into the establishment and conduction of this very worthwhile project throughout the years.

Still, we cannot but wistfully sigh at the thought of unhappy Sophomores glumly cooling their heels in mountain spring water (or any other water).

## ENGINEERS HAVE A DUTY

To nearly every civilian it is readily apparent that the war of today is a war of science and engineering—a war of electricity, of efficient motors, of fast aircraft. We feel that the civilian populace, knowing the need for trained engineers and scientists, is tolerant of the deferment from military service of these men. Many of these men, however, vital though they are to war production—are seeking service with the armed forces where they often are of less benefit to the nation.

Were trained technicians unnecessary to the best interests of the nation, it seems that they would not be allowed to finish their education; neither would there be an Army Specialist Training Program. It therefore behooves every man considering withdrawal to think carefully whether he is going into the armed services because he believes it to be the way in which he may best serve his country or because it seems to be the way to escape censure and share glory. When this war is won, the engineers and scientists will gather no glory—they may be scorned—but their B-19's, their radios, their engines, and their chemicals will have backed up the men in foxholes, cockpits, and submarines, and will have done much to hasten the winning and lessen the cost.

Many may use their engineering ability to great advantage in armed service. Many others may—and should—use their training in vital industries. Remember, there are few engineers, many soldiers. This is a question which each man should decide for himself in the light of his own conscience, and let no man decide either course to his shame.

Engineers and scientists have a duty—a duty to use their training as civilians if they feel it best, disregarding any censure that unknowing civilians may cast upon them, as well as the pride that they would feel in wearing the uniform of their country.

To those who remain in school the course of duty is clear—we must prepare ourselves as our nation has relied on us to do—to the extreme limit of our ability. Those who are younger may see the end of this war while still in school. Their duty, however, is no less clear. There will be a tremendous job for them to do when this war of destruction is done. They must prepare themselves now.

## ADMINISTRATION AT CAMP

### OFFICERS OF ADMINISTRATION

Karl T. Compton ..... President  
Horace S. Ford ..... Treasurer

### OFFICERS OF ADMINISTRATION

Edward L. Moreland ..... Dean of Engineering  
George R. Harrison ..... Dean of Science  
Walter R. MacCornack ..... Dean of Architecture  
Robert G. Caldwell ..... Dean of Humanities  
John W. Miller Bunker ..... Dean of the Graduate School  
Harold E. Lobdell ..... Dean of Students  
Thomas P. Pitre ..... Associate Dean of Students  
James R. Killian ..... Executive Assistant to the President  
Nathaniel M. Sage ..... Placement Officer  
B. Alden Thresher ..... Director of Admissions  
Robert M. Kimball ..... Assistant Director of Admissions

## Technique Coming Early In August

### To Include '47 Class, Announces Management

"The 1944 Technique, official Technology yearbook, will be published in August in order to give the incoming freshman full representation in the book," said William B. Scott, general manager of the volume, as he left for active Army duty in Virginia early this week. Before leaving Scott had completed all the photographic work for M.I.T.'s big book except the feature section and a representative collection of 1947 informals soon to be taken. According to Scott, "Work on the book is progressing according to plan."

Carlton J. Rohrer, in charge of editorial work, returned from his vacation early in order to polish off the rest of the writing in time for August publication. He announces the selection of a striking and timely cover design, in keeping with the theme which features the important role which engineers are destined to play in the world of tomorrow. The covers are now being produced.

Although the number of copies to be published has already been fixed, due to the shortage of critical materials, a limited number of the books will be offered for sale at the Institute, starting next Tuesday, June 29. Henry N. Bowes, Business Manager, says, "This is the last

Technique for the duration; everyone wanting a copy of this distinctive book had better get it while the getting is good."

## New Cafeteria Opened June 14

### To Supply Nourishment To All Tech Personnel

Completed in the record-breaking time of one month, the new Institute cafeteria has, since June 14, provided nourishment for M.I.T. students, staff, and employees from 7:00 A.M. to 7:00 P.M. The cafeteria is under the direction of Mr. Paul Herbert, who has closed his Howard Johnson restaurant on Memorial Drive for the duration of the war. The cafeteria now serves as the sole Institute operated eating place, the Graduate House Dining Service and Pritchett Hall having been closed on June 11.

Cafeteria service, available every day during the week except Sundays, will be provided on new metal compartment mess strays. To reduce operating costs, patrons will be requested to serve as their own bus boys by depositing used trays and utensils in a receptacle provided near the exit.

A reasonable variety of salads, sandwiches, desserts, and beverages will be provided, although present food restrictions limit the number of meat or fish dishes offered to two.

Prices will be much the same as formerly obtained in the Graduate House and the Walker Memorial, and will be adjusted in accordance with food costs, stated D. L. Rhind, Bursar of the Institute.

The entrance to the new building is on the East side, facing Alumni Pool; the exit is the South side, facing the Charles River.

# Tech Men Set Three Records At AAAU Meet

**Wareham, Artley Set Records in Hammer, Discus; Bryant in 880**

Three members of the Tech track team set new records in the junior N.E.A.A.U. meet held at Brookline Town Field early this month. Coach Oscar Hedlund called all three of these new records outstanding.

The first of these new marks was turned in by Arthur Bryant in the 880 yard run with a time of 1 minute 57.5 seconds, which, besides setting a new record, was a remarkable performance for a Sophomore. The second of the marks was set by a 155 foot 10 1/4 inch hammer throw by Dick Wareham. This record was placed as fourth best performance for 1943 by the June Amateur Athlete, the official N.E.A.A.U. publication. The last of these record-setting triumphs for Tech was made by Jim Artley with a 132 foot 3 1/2 inch discus throw.

These records are, however, not official Tech records, by virtue of the fact that they were not set in intercollegiate contests. While the three men do not get their straight "T's" for their achievements, they are credited with Tech field records with the M.I.T.A.A.

Other places copped by Tech at this meet included two seconds taken by Bob Meny in both the 100 and the 220 yard dashes. A second and a third were taken by Bob Dodds and Malcolm Jester in the hammer throw, and a third was pulled down by Bob Dodds in the discus event. With this impressive record of wins and places M.I.T. would easily have taken a team award with a total of 26 points had such a prize been offered. The meet, however, was entirely a contest for the individual competitor.

# Track Coach Oscar Hedlund Urges Frosh To Choose Track

By Oscar Hedlund  
Tech's Track Coach

Each year incoming freshmen are always in a quandary as to the sport that they should take up for their recreation during their college years at Tech. Track and cross country have been the major sports in the Institute for many years, due to the fact that it requires very little time, and each man works as an individual, not waiting for a team or a crowd to work together.

Due to conditons, many sports will be discontinued during the war, but track will be maintained to keep the undergraduates in excellent condition should they be called to service. While many colleges are changing the eligibility rules so that freshmen can compete on Varsity teams, Tech will still main-

tain its regular standards of both Varsity and frosh competition having separate meets, but if a freshman wants to compete on the Varsity teams, the Athletic Association will allow it during the present conditions.

Already Varsity and freshman schedules are being set up for late summer competition, and then this fall, dual cross country meets are listed on our program, so that many weeks should see the Cardinal and Gray athletes striving for honors in the field of play. This past season M.I.T. was the only New England college to have a complete freshman schedule and we hope to maintain this same setup again with meets against local prep schools and colleges.

The boys who are novices and who never have had any athletic work previous to coming to the Institute should not take this into consideration, but report to see if there is some hidden talent in their make-up. The biggest majority of boys reporting each year have had no experience but before getting through college they excel in their events and become champions.

It is hoped that the usual freshman-Sophomore relay race will come off late this summer to keep up the tradition of forty-two years even with war clouds over our heads. Should the Field Day committee decide to abolish this class battle we will set a date to continue the twelve man relay, each boy running 220 yards to complete the distance of one and one-half miles.

During the school year various types of class meets are held, and also many handicap events to test your condition and prepare for outside contests. We have a long program set up for outdoor and indoor track among the Institute athletes, giving many prizes for your efforts and a chance to win your class numerals as a frosh. Tech's Briggs Field is the finest in the east, with a very fast quarter mile track, with excellent conditions for the field events, and up to date in every way for track work-outs. Our board track is also fast and the best of its kind, located in back of the swimming pool.

I hope all freshmen who are interested in track and would like to find out what we have to offer will report at Barbour Field House (entrance through Pool), asking all the questions they want, and we shall be very glad to help in every way solving your freshman problems. Do not wait until it is too late. Start early and see what the Institute track can do for you—it has done a lot for others, so let it be of help to you in your college days at M. I. T.

The Track Office is open each afternoon at three P.M., and closes when the last man is through taking his work-out. Bring a friend with you.

# Crew and Sailing Tell "Camp" Plans

**Shore School Will Start June 28, 5 P.M.**

Plans for Freshman Camp were announced today by the sailing pavilion. These included the giving of rides to the freshmen in the dinghies. The frosh will be taken out in three shifts from 3:15 to 5:30.

Also at the Nautical Association, Bob Moch crew coach will allow the freshmen to try out their skill at crew with a workout in the barges.

Before one can become a member of the Nautical Association and before one is allowed to take out a boat alone he is required to pass certain tests given by the Association. Instruction pertaining to these tests will be given at the next Shore School which will be held beginning June 28 at 5 P.M. and every day thereafter for two weeks at the sailing pavilion across from Walker Memorial. Anyone who has any connection with the Institute can become a member.

For the benefit anyone who ever began work on crew or helmsman tests but never completed them, Jerry Reed, acting sailing master says that these sheets are still valid and that questions already answered will not have to be re-answered provided the sheets have not been destroyed.

# Varsity Boat Gets Straight T Award At Crew Banquet

**Other Awards Go To Frosh, Jayvees And 150 Pound Oarsmen**

"The best heavy crew I ever coached at Tech," were the words given in enthusiastic praise of the 1943 heavy varsity boat as Coach Bob Moch recommended the award of a straight T, highest Institute athletic award, to the entire crew. The award was passed by the Advisory Council on Athletics and the prized letters were presented to the members of the crew at the annual banquet held at the end of the spring term. The dinner was held at the Smith House on Memorial Drive.

Those receiving the coveted straight T were: A. E. Bakker, '43; A. P. Dodge, '44; L. S. Flowers, '44; J. F. Hield, '45; W. P. Kalb, '45; J. W. Leader, '43; D. D. Russell, '45; C. S. Taft, '44; and J. Tyberghein, '44.

# Alumni Pool Schedule At The Present Time

The Alumni Pool will be open at the following times:

1. Monday through Saturday—12:00 noon to 9:00 P.M.
2. Women — Wednesday 6:30 P. M. to 9:00 P.M.
3. Mixed Swimming—Monday and Friday—6:30 P. M. to 9:00 P.M.
4. The Pool will not be open on Sundays and Holidays.

**The First Church of Christ, Scientist**

## To the New Men Coming To Technology

and

## To Our Present Patrons

There is always a most cheerful Welcome awaiting you whenever you come to the New Cafeteria-adjoning the Barbour Field House.

INDUSTRIAL CATERING CO.

## Hospitality Comm. To Greet New Frosh

### Technology Matrons Work At Grad House

A new feature of this year's freshman orientation program was the work of the Hospitality Committee, run by the Technology Matrons, and under the chairmanship of Mrs. Leicester F. Hamilton, whose husband, Prof. Hamilton, is head of the Dormitory Board.

This year, with the entire Institute dormitory system reserved for Army and Navy training units beginning July 1, the Dean's office made the Graduate House available to new students for the entire week preceding registration day, to give them temporary housing until they should be able to find permanent lodgings for the school term. Rooms were given to the new men under a double-decker bunking system at \$1.00 per night.

Mrs. Hamilton, with the assistance of Mrs. Walter C. Voss, wife of Prof. Voss of the Department of Building Engineering and Construction, Mrs. Thomas P. Pitre, wife of Dean Pitre, and other women of the Technology Matrons comprising this Hospitality Committee were on hand to greet the freshmen as they registered at the Grad House. Among the material the Hospital-

ity Committee had available to help the frosh get oriented at Tech were maps of Tech, Cambridge, and Boston, and rooming lists prepared by the T. C. A. Room Registry to help the men find suitable rooms.

#### Rooming Lists

Two separate lists were prepared, one listing rooms in Cambridge, and the other one listing rooms in Boston. These lists gave only the address, the name of the landlady, whether or not the available rooms were single or double, and the price. Further information about the rooms is available at the T. C. A. office in the basement of Walker Memorial.

Closed Sundays and Holidays

REAL YANKEE COOKING

### General Notices

All Navy V-1, V-7, and V-12 students should make appointments with Miss Broderick in the Medical Department on the first floor of the infirmary as soon as possible.

Copies of the General Bulletin will be available at the Information Office, Room 7-111, by Monday, June 28. This lists all books and supplies needed for the various courses.

The T.C.A. Handbook, designed to aid the new men in becoming acquainted with Technology was mailed to most freshmen June 11. Any freshmen who have not received their copy may obtain one by calling at the T.C.A. Office. Upperclassmen may also obtain copies by calling for them.

### Soph Horseplay At Camp Out For The Duration?

Soph "horseplay", as the T.C.A. calls it, a familiar feature of past Freshman Camps to anyone who was dunked in the icy waters of Lake Massapoag in the middle of the night, has apparently been discarded for the duration of the war.

Last year, when camp was held on campus for the first time since the hurricane of 1938, each member of the Sophomore class received a letter urging him to refrain from all horseplay during the period of Freshman Camp. This year Langdon S. Flowers, '44, and Clinton C. Kemp, '43, Co-Directors of Freshman Camp, have sent a letter to each fraternity, asking the Sophomores to leave well enough alone, (or suffer the consequences).

### Freshman Camp

(Continued from Page 1)

'18, followed by talks on Field Day and Class Spirit by Thor K. Stromsted and Coach Oscar Hedlund respectively. Following this will be an open forum on the marking system, the point system, and other things of interest to freshmen.

#### Compton Speaks

Following lunch in the new cafeteria the camp will assemble in the Great Court to hear an address by President Compton followed by the introduction of the staff by Dean Lobdell. The next event is the presentation of the various forms of athletics at Tech in short talks by the various captains. The annual counsellor-faculty softball game, featuring Dr. Compton as Faculty pitcher, is the next event, after which the freshmen will split into three groups, one of which will go to the Swimming Pool, one to Briggs Field, where Oscar has prepared a program of three events, and one to the sailing pavilion to witness a demonstration of dinghies and crew.

## Freshmen!

### Phillips Book Store

offers a very wide selection of USED texts. Why not look over our stock before investing in books for the fall term.

## Announcement . . . IMPORTANT to FRESHMEN

### JOIN the Coop and SAVE Money on Your Purchases

By joining the COOP you become a store-keeper for yourself, just as if you rented a store, put in a stock of merchandise, and employed salespeople.

The Stockholders, all members of the Faculties of M.I.T., Harvard and Radcliffe, hold the capital stock in trust and receive no dividends upon it. The stockholders from M. I. T. are Dean Harold E. Lobdell and Professor Erwin H. Schell.

On the Board of Directors the M. I. T. representatives are William R. Thurston, Student Director, Ralph E. Freeman, Faculty Director, Carroll L. Wilson, Alumni Director, Walter Humphreys and Horace S. Ford, Secretary and Treasurer, respectively of the M. I. T. Corporation.

The COOP prices are never higher than elsewhere, and in many cases for the same quality much lower. In addition, a Patronage Refund

is credited to members on all purchases of 25c or more.

Checks not exceeding one hundred dollars are cashed for members between the hours of 9.00 A.M. and 3.30 P.M.

Charge Accounts for members only.

Join before making a purchase, for Patronage Refunds cannot be credited on purchases made previous to taking out a membership.

The TECH-COOP is the official distributor of all your supplies. The material required for all freshmen has been passed upon by the Faculty and approved by them.

Every TECH Man should become a member without delay. The Membership fee is one dollar.

Patronage Refund at the rate of 12% on cash purchases and 10% on charge purchases, year ending June 30, 1944.

A Membership at the Technology Store Also Makes You a Member at the Harvard Square Store
