Although it was announced last spring that the book would be on sale in the Navy College Program V-12, it was not ready for several reasons. With the exception of one member, TECHNIQUE's editorial board, no longer has General Manager Bill Smith. Much of the work still had to be done, and the last edition, usually printed in November, men ran into school trouble as usual of the result of having to do far more of their share of the work on the book.

Coop Dividends Ready Wednesday Nominations Made For Directors Of Society

Dividends for members of the Harvard Cooperative Society will be declared at the annual meeting of the directors on November 1, to be held on November 20, the WILHELM. Since the drive is scheduled to close at noon on November 16, all sales have to be turned in by the eleventh. If the goal is not reached at this date, the drive will be officially closed as soon as additional monies have been sold so that the goal will be accepted after that time.

Loans will not be reported to students in the Navy College Training Program, but grades will be sent to the Navy by the Registrar.

THREE BOAT LENGTHS

The annual drive of the Technology Christian Association for funds to meet the expenses of the 1944-45 budget is failing to produce the results for which the T.C.A. had hoped. Thurs-
day afternoon, the scoreboard in Building 10 showed that only $1,343.32 had been received of the $2,450 which was to be ab-

One of the leaders in the drive is a member of the freshman class. The drive will end officially at 5:00 o'lock this afternoon.

There are undoubtedly many who have given nothing at all, remaining for service which the T.C.A. has rendered, this is gross ingratitude.

DISTINGUISHED ADDITION

We are possessed of little first hand information about the leading figures in the field of mechanical engineering, so that we are not able to comment on the appointment of Dr. Hartog to the Institute Faculty only in the light of what has been told us.

Commander Hartog, it should be stated, was considered by the freshmen class to be a good teacher and the seats of the freshmen class were usually occupied in the last 90 minutes of his classes.

Commander Hartog will be a distinguished addition to a department already distinguished for its ability and regarded with pride by the students of Technology.

THREE BOAT LENGTHS

Saturday, five Tech crews will take to the river and attempt to leave fair Harvard in the wash. The Technology crews are good this year, and the chance of their walking into the show-
ers with Harvard's boats is very slight. Still, to dampen over-

The drive must be thoroughly effective for the results for which the T.C.A. has worked will be to produce the results for which they have planned.

DEPARTING FRESHMEN

To those freshmen, who at the end of this term, will for-
sake the academic life of Technology and take a new life under the military routine, we express the best wishes of their fellow students.

It is unfortunate that the preparation of these men for profes-
sional work was interrupted; this is, however, only one of numerous consequences which inevitably follow from total war. We sincerely hope that each man who leaves the Institute this fall for induction into the armed services will return to M.I.T. when their work is done.

We wish them every success as they go to serve a nation which, though it shall have a great need in the future for them as engineers, has an equally great need in the present for them as soldiers, sailors, or marines.
Crew Will Meet Harvard On Charles To-morrow In Big Contest Of Season

Moch Calls Varsity "Good Boat", Says That Race Will Tell

This afternoon a Tech crew will take to the water to compete in the fall's most important regatta of the season. Tech varsity has shown itself to be a good crew in trials and on to-morrow's outcome ren- ters the con- firmation of that phrase, "a good crew."

From the start of the season Coach Moch has said that this year's varsity was better than any that had cleft the waters of the Thames River. They gave an excellent showing, molding a three strong teams in the country aggregation placed three the city of New Haven. The meet is expected to be one of the cleanest and closest in inter- collegiate history.

FRESHMAN REGATTA

The Tech freshman racing team travelled to New London, Conn., Friday to take part in the Freshman Long hy Racing Association Quad- rangular Regatta. The other teams which will be Yale and Harvard.

The meet was inaugurated to bring into the Intercollegiate Yacht Racing Asso- ciation. The lineups for the races are as follows:

- Tech A
- Harvard A
- Tufts A
- Coast Guard A

The competition will consist of eight main events—two 13-footh Dories, and one 8-foots and fourteen 4-foots with sparsers. Doyle. Coach Moch has stated that the probable sail for Tech in the 14-Potters.
