New Elections Are Approved By Inst. Comm.

Nautical Association

and T.C.A. Officers

Receive Solons' OK.

At the meeting of the Institute Committee held on Wednesday after-
noon, a report of the Spring semester elections was made. The agenda consisted solely of approving
the list of elections and appointments.

The meeting was called on Wednesday instead of Thursday be-
cause the Nautical Association did not meet this week due to
Thanksgiving Holiday even though the popular and civilian students
did not.

There was some debate on Bruce Pahls, all graduation, as Insti-
tute Committee Representative of the Class of 1945 in order to accept the
Chair of the Budget Committee. After much discussion the
motion was approved and Robert H. Hunter, Vice-President of the club,
was approved as new chairman of the T.C.A. At the same time the Execu-
tive Committee of the Class of 1944 asked that their appointment of
Thor Stratton as temporary chairman of the Senior Retreat Com-
mmittee of 1946 be approved. John Hall, Secretary of the Class of 1944, ex-
pressed that this was only temporary and the permanent appoint-
ment would be made after class elections.

Ralph Horrigan was approved as the new Commissioner of the Nauti-

college Association and its representatives.

Tech Yachtsmen

Hold '43 Meeting

New Officers Elected;

Christmas Party Soon

At a special meeting held in the office of the T.C.Y.A.
Nautical Association was held last Wednesday, November 24, in Room 309. Plans for the next year were
discussed along with the usual review of the past and future pro-

cesses. At the meeting the election of new officers was

a necessary part of the program. The officers who arrived later in the evening to at-

tend the Officers' meeting at the institute.

Commodore Bob Horrigan, now a member of the Class of 1942, has been

appointed to the Institute Committee of the T.C.Y.A.

Further, as a result of the annual party, sometime before Spring, the

T.C.Y.A. will elect new officers and the function will be the only function of the Associa-

tion that season next year.

Elections

In the balloting several members, at least 2/3, were elected to the Insti-
tute Committee and its representatives; also R. O. Smith was elected as public relations director.

Due to the unusually busy meeting a motion was approved to the effect that the season next year be pro-

Russian Relief Articles

Now Sold In TCA Office

A special sale of Russian relief articles, which the War Relief began yesterday at the T.C.A. office in the basement of the Building 16, was well attended. These articles include a number of W.T. items, as well as Christmas cards, Christmas bags, rings, pins, stamps, and cartes de voeux of which feature national colors.

Handicrafts Of Research Staffs

On Exhibition In Bldg. 10 Lobby

A large collection of paintings and other handicrafts, all produced by members of the Institute staff, is on display at Technology during their spare time. Included in the display is a group of painting on the walls of building 16 earlier this week to remain until December 30.

The exhibit includes, besides paintings, examples of metal, leather, and glass craftsmanship. The art work exhibited include portraits, landscapes, and still-life, both in oils and watercolors, as well as numerous pencil and charcoal drawings.

The metal work includes jewelry of all types, turned metal decorations, such as small canons, and necklaces, as well as copper and other metal artifacts.

The leather work includes leather sections complete belly and other leather work, as well as leather work made from glass and plastics.

Many widely diverse skills are exhibited and are on display for the public to view. They have put aside their leisure hours to the production of these creative works of art. They attest to the many different types of people who have put aside their former work to serve the national war effort at Technology.

Class B Annual Dues

Must Be Paid By Jan. 1

The annual dues for all classes is $15.00 and is due before Jan-
uary 1 of the year. The due date has been set by the Board of Directors. The fine for non-payment of the 

Class B, which is $3.00, must be paid by January 7 of the year.

The dues may be paid by mail to the Treasurer, Frederick M. R. Bittner, 844, Treasurer, Howard S. Lockwood, 2644, Treasurer, and William F. Blitzer, 646, Director of Boys Department.

Krause was Vice-President and Director of the Student Senate; Sluis was Business Manager of the Handbook, Lockwood was Assistant-Treasurer, and Blitzer was Boys' Work Director.

The newly elected executive committee, in conjunction with the retiring executive committee, will appoint members of the new executive committee of the T.C.A. The T.C.A. is one of the few T.C.A. clubs which have not yet had a meeting.

Krause returned to his position as Chairman of the Boys' Work Committee. Recently he resigned as Chairman of the Boys' Work Committee, to return to the Army, for the Army. Krause, 644, was appointed Vice-Chairman.

Donald P. Kahn, Robert C. Land-

ing, and Robert B. Groat have been appointed Junior Mem-

bers of the Students' Council, according to William J. Gillies, 10-44, retiring Chairman last Fri-

day. The council is made up of twenty-four women, and one alternate. A few days later, there will be a meeting of the council, at which the new council will be elected.

The usual inconvenience of a trip to Infirmary is whole-heartedly behind the plan and has offered the facili-
ties to start to work immediately in order to be able to show the Christmas ball before the end of the semester.

Blood Donor Drive

To Start Soon

The T.C.A. is rapidly shaping up plans for a wide-scale enlistment campaign. Millions of people are made aware of the need for blood, and the blood drive campaign is whole-heartedly behind the plan and has offered the facilities to start to work immediately in order to be able to show the Christmas ball before the end of the semester.

Krause Elected TCA President For Next Year

Lockwood, Blitzer, Paynter, and Sluis

Receive Other Offices

Clinton Krause was elected President of the Technology Christian Association at the annual T.C.A. executive committee elec-
tions held on Tuesday, November 30. The other officers elected at that time are: Mary J. Paynter, 10-44, Secretary; Howard S. Lockwood, 2644, Treasurer; and William F. Blitzer, 646, Director of Boys' Department.
Japs Paid Blackmail

To Avoid Early War

Dr. Hart Reveals Bribe Paid to Tokyo Thugs

CAMBRIDGE, Mass.—A heavy pay of $50,000 yen was made by the Japanese government to the Massachusetts Institute of Technology early part of the century to prevent scientists and other specialists that might have led to war then were detained recently by Albert Bushnell Hart, Jr., President of the Institute at Cambridge.

Mr. Hart was invited as an attaché of the American embassy in Japan soon after the incident occurred, and he was told, said the 38-year-old, white-haired scientist, "I was at Japan at the time the 'goodwill fees' sponsored by Presi- dent Roosevelt stepped at Yoshiba.

"Shortly before the Fees landed, a representative of the undersea of Japan—the undersea, went to the government's home and said in substance, 'Their will be hundreds of Americans coming of this country. You don't know about in this area. What's worth to know is how to start them.'"

"My information was that the Japanese officials said it was worth 50,000 yen in the value of the Japanese government pay. There was no trouble when the fleet landed.

"Subsequently, I went to the American embassy and asked someone there if I should have heard. He said, and in substance, I was told, I have a friend in the Japanese government and I was told, 'It's worth a try.'"

"It was mighty cheap for the Japanese government to get away with it, said Hart. "And it's not im-

T.C.A. Boys' Work

The Boys' Work Division of the T.C.A. will hold its annual banquet on Wednesday, December 15, at 5:30 P.M. at the Smith House.

The theme is given as a basis of the appreciation for the efforts of more than twenty Institute students who for the past months have been heading boys' clubs in settlement houses throughout Greater Boston.

Guests of the evening will be Mr. Lewis of the Monastery Neighborhood House, Prof. F. Alexander Magoun of Harvard, and Mr. Wallace M. Rose, General Secretary of the T.C.A. Prof. Mag-

Rocket Research Society

Emmons, of the Harvard Uni-

Japan University of Engineering, was the guest speaker at the meeting of the Rocket Research Society held on Thursday, December 9, at 4 P.M. in Room 4231. His topic was "Subsonic and Supersonic Flow in Rocket Design." Nearly fifty people attended the lecture.

Dr. Hart, who has spent mathe-

TCA at the Hayden Memorial Library will pray for two o'clock every Saturday for the names of the men comprising the T.C.A. Healy, Theodore Roosevelt stopped

Famous M.I.T., Graduate Trains U.S. Marine Construction Crews

First Lieutenant Livingston Lang-

ell, USMC, a graduate of M.I.T. and ar-

chitected, is the guest of honor, and

preparing to add another chapter to a life well spent among the oceans and travels, by training a construc-

tion crew destined to accompany marine airmen into the South Pacific combat zone. His immediate responsibility is to prepare living quarters for future pilots, ships for hard-ward crew, and camouflage warehouses. Despite his efforts, the construction crew did not have a chance to be returned to the sea. They were, however, aboard the 500-ton training ship which was one of children playing in the streets.

"They had to save face, you see," said Longfellow.

During a big-game hunting trip on the plateau of Hun, his camp was destroyed, and his horses killed by wild elephants. Longfellow tracked the elephants on foot for four weeks, finally bagging three large boars. His 1,331-game hunting tour-

ing trip came in 1924 during which he shot tigers with the late Mr. John E. Phillips of the Philippine, Korea, Burma, India, and Indo-China, will serve him in good stead now, for he knows what use can be made of natural resources when construc-

tion supplies low.
