

## Dramashop Stages 'Holiday' Tonight At 8:30

Play Will Be Held At Peabody Playhouse; Tickets Still Available

The M.I.T. Dramashop is presenting Philip Barry's comedy "Holiday" today and tomorrow, Friday and Saturday, May 5 and 6, at the Peabody Playhouse, 357 Charles Street. Both performances will start at 8:30. Tickets, which are priced at one dollar, are available from members of the Dramashop and at the T.C.A.

The play "Holiday" concerns the love of a girl from the upper class, Julia Seton, for Johnny Case, who ranks quite a bit lower socially than she does. After it seems that they will overcome the difficulties presented by their social inequality and have announced their engagement, Julia begins to have doubt as to the success of their marriage, which doubts are strongly confirmed by her father. However, as Julia's love for Johnny is slowly waning, her sister Linda becomes attracted to him and disregarding all social discrimination holds fast in her love for him. At the end of the play we are still uncertain as to the final outcome of this curious triangle relation.

The part of Julia Seton is played by Frieda S. Ormanski, 6-45, that of Johnny Case by John T. Fitch, 2-46, while Linda Seton is played by Eleanor C. Edwardson, 2-46. The rest of the cast includes Ned Seton, Jephtha H. Wade, 6-45; Nick Potter, Robert W. Connor, 2-46; Susan Potter, Mary E. Sullivan, 6-45; Edward Seton, Durga S. Bajpay, 6-45; Laura Cram, Emily Vanderbilt, 6-45; Seton Cram, William McSiebert, 2-46; Henry, James B. Weaver, 2-46; and Delia, Betty Fullerton.

The stage management for the production includes: Properties, Joseph G. Jordan, 2-46, and Edmund C. Chulada, 6-45; Lighting, Robert E. Chandler, 2-46; Sound, Harrison E. Rowe, 10-46; Stage Design, Mary E. Guinan, 10-44, Carolyn D. Cross, 2-46, and Joan T. Rotwell; House Manager, John F. Gaffney, 2-46; Program, Jesse H. Haines, 2-46, and Philip Solondz, 2-46; Publicity, Dimitri Poutiatine, 10-46; Prompter, Wellington F. Scott, 10-46.

## Technique Opens Drive For Sales

Order In Building 10 On May 10, 11, and 12

Another request has been made for all students who have placed orders for TECHNIQUE who will be leaving before the date of publication in August to give their forwarding address to the TECHNIQUE office. This applies in particular to those students in 1A draft classification. It is also asked that seniors stop at TECHNIQUE office next week and check their biography. This is important.

On next Wednesday, Thursday and Friday, the 1945 TECHNIQUE will open a big sale drive. It will be the last chance for Tech students to pledge to buy or to purchase the book at the present price of \$4.50. After May 15, the price will be raised to \$5.00.

Men leaving Tech should be especially interested in getting TECHNIQUE, since it is the only publication which gives a complete picture of the Institute. Books will be mailed to any place in the country free for any subscriber who so desires. TECHNIQUE will be on sale from 11 A.M. to 2 P.M. in the Lobby of Building 10 on May 10, 11, and 12. Navy sales will be at the Graduate House.

## Jan Savitt, Swing Band Leader, Was Former Concert Violinist

I.F.C. ENTERTAINER

Jan Savitt, who will lead his orchestra at the I.F.C. formal, Friday evening.

## I.F.C. Chaperone List Announced

Queen To Get Additional Prizes, Boyce Reveals

The list of chaperones for the I.F.C. Prom, to be held May 12 at the Hotel Statler, was announced last night by Carroll W. Boyce, 10-44, Dance Chairman. At the same time Boyce made public additional prizes which will be given to the winner of the Fraternity Queen contest. It was also announced that the dance will start at 10:00 P.M. and will run until 2:00 A.M.

In connection with the Queen contest Boyce stated that all nominations for the individual fraternities' contestants will be made the night of the dance. A representative of the dance committee will call at the table of each fraternity and will enter the contestant's name and her escort's name on a list.

In addition to the prizes announced last week it was made public that the winning fraternity will receive a bottle of champagne at each of their tables as well as the bottle the winner will receive personally. Each contestant will be photographed at the prom and a

(Continued on Page 4)

## Explosion Damages Bldg. 2 Laboratory

Lab Used For Research On Synthetic Rubber

An explosion of undetermined origin, early last Friday morning, April 28, destroyed a light partition wall and started a small fire in a laboratory in the basement of Building 2. The fire was quickly extinguished by the automatic sprinkler system, and the small amount of debris was removed soon thereafter.

Professor Ernst A. Hauser, of the Chemical Engineering department, is carrying on research on synthetic rubber in the laboratory that was damaged. The laboratory was unoccupied at the time of the explosion.

## More Ground Keepers Wanted By Supt. Peterson

Professor Carl M. F. Peterson, Superintendent of Buildings and Power, announces that more groundkeepers are needed to tend the lawns, etc., around the Institute. Only five students have applied so far. These jobs are open to all Technology students, who will receive sixty cents an hour for working Saturdays, Sundays, or any three consecutive hours on weekdays before 6:00 P.M.

Jan Savitt, whose band is to play for the I.F.C. dance, May 13, has a most unusual background for leader of a fine swing band. His history is classical all the way back. His grandfather was an intimate of the great Russian composer, Tschaikowsky, and a skilled composer in his own right. His father conducted one of the Czar's Imperial Bands.

Savitt's family emigrated to the United States when he was still a baby, settling in Philadelphia. His parents started him on a toy fiddle when he was four. He showed such unusual feeling for the instrument, and such distinct aptitude in acquiring its technique, that he was enrolled under Carl Flesch, world-famous violin instructor. A few years later, Jan won the first three scholarships to the Curtis Institute of Music, which finally led to a degree of Doctor of Music there.

Leopold Stokowski, in his capacity as concert master of the Curtis Institute Orchestra, heard Jan when he was fifteen and offered him a similar position with the Philadelphia orchestra. Savitt stayed with the Philadelphia orchestra for seven years, at the same time appearing in concert as a violin virtuoso, with his string quartet.

Jan left that distinguished orchestra in 1935 to work with Radio Station WCAU in Philadelphia and soon after that became musical director for NBC at Station KYW.

At these stations he heard and studied what he calls the new American music, that is swing. He felt that the then existing dance bands sounded too harsh and brassy, and they depended too much on stock arrangements. He, therefore, developed his own arrangements, first, for the studio bands and, finally, for his own excellent outfit. His classical training instills in his arrangements of both new and old numbers real beauty, as well as making them fine dance tunes. Fast numbers or slow are all something to hear when Jan Savitt plays his arrangements of them.

## CPO Coming Here For Talks On V-6

Navy In Need of Men For Electronics Course

A Navy representative, C.P.O. Philip W. Regan will be in Room 7-106, on Wednesday, May 10, from 2:00 to 5:00 P.M., for the purpose of interviewing and advising men interested in the Navy's advanced electronic course.

This course is called the V-6 Radio Technician Program. It offers an opportunity for anyone physically qualified, who passes the Eddy test, to be assigned to the Navy Radio School in Chicago, as a Seaman First Class. At this school the successful candidate will be given a ten months course of instruction on theory and operation of submarine detection and radio finder apparatus, communication equipment, and other electronic devices. Men completing the course are graduated with the rating of Radio Technician, Second Class.

This program should have a special appeal to those whose induction is imminent, or who expect to be inducted at some future date. The Navy feels that men with a technical background could profit to a great extent by the knowledge and experience gained as a result of being assigned to this particular program.

Men who are interested in the V-6 program and who are unable to see Chief Regan on May 10, are advised to call at the Navy Recruiting Station, Post Office Building, Boston, any week day between 8:00 A.M. and 5:00 P.M. for further information.

## Tech Trackmen Crush Northeastern, Holy Cross; Andover Away Tomorrow

M.I.T. TRACK MAN

Staff Photo

Art Schwartz, in his last race as a civilian, taking the two-mile run.

Bryant Wins; Art Schwartz To Join Navy

Captain Bud Bryant's track team jumped off on the right feet last Saturday, when the Beavers scored an impressive victory against Holy Cross and Northeastern on Briggs Field. In their opening contest the boys ran up a total of 121 points, and swept 12 out of 15 first places.

Ed Burns and Lew McKee lead the team in scoring, with twin victories in the dashes and hurdles respectively.

Navy-bound Artie Schwartz, who also starred in cross-country running last summer and fall and in the relays last winter, won his last race for Oscar Hedlund in the two mile. Captain Bud Bryant had little trouble in the 880.

Murray Breaks Record

Captain George Murray of Holy Cross managed to brighten the day for the visitors by throwing the spear 185'7" for a new Briggs Field record. The old mark of 181'13/4" was set by Dunn of Williams in 1940.

The New England meet on May 13, which is to be on Briggs Field this year, is the next big hurdle for Oscar Hedlund's charges. Tomorrow the varsity travels up to Andover for a meet. It's a little difficult to predict anything about this affair. The Beavers will have the edge in experience, but the Royal Blue usually fields a pretty fair team.

Four places for each event were recorded last Saturday because the meet was triangular. As further proof that Tech was complete master of the day, the results show that the Beavers swept four places in three events, namely the 100-yd. dash, the 120 highs (only three entered) and the broad jump.

220-Yd. Dash: Won by Burns (M. I. T.); 2nd Hollister (M. I. T.); 3rd, Allen (H. C.); 4th, Boulard (H. C.). Time 22.8.

120 High Hurdles: Won by McKee (M. I. T.); 2nd, Baldwin (M. I. T.); 3rd, Pyle (M. I. T.). Time: 16.7 secs.

220-Yd. Low Hurdles: Won by McKee (M. I. T.); 2nd, Baldwin (M. I. T.); 3rd, Parker (N. E.); 4th, Pyle (M. I. T.). Time: 25.6 secs.

440-Yd. Dash: Won by Bailey (M. I. T.); 2nd, Kay (M. I. T.); 3rd, Boullard (H. C.); 4th, Wellenkamp (Continued on Page 2)

## Junior Ring Orders To Be Taken Thursday

George E. McKewen, Jr., 6-45, Ring Chairman, has announced that orders for the official M. I. T. Beaver Ring will be taken in the Lobby of Building 10 from 11:00 A.M. to 3:00 P.M. on Thursday, May 11, where a miniature 10K ring, medium 10K ring and large 10K ring will be on display.

It was further announced that not only present Juniors, who will be registered as Seniors November 1, 1944, but also those men who, due to irregularities in schedules, are not Juniors now, but will be registered as Seniors November 1, 1944, are eligible for rings, provided they can produce in some written form a statement from their registration officers to the effect that they will be Seniors.

A three dollar deposit is required at the time that all eligible Juniors order their rings.

## Glee Club To Have Concert With Bradford Jr. College

Two more concerts remain on the schedule of the M. I. T. Glee Club, one with Bradford Junior College on Saturday night, May 13, and one Technology Night at the Pops concert on June 3. Also remaining on this year's schedule is a recording to be made by the club of the new Technology Alma Mater, Sons of M. I. T.

The time of rehearsals of the club has been recently changed to enable more men to come. The new time is from 5 to 6:00 P.M. on Tuesday and Wednesday each week. Since the club is planning a heavy summer schedule, new men who can carry a tune are urged to make the Glee Club their activity.

## V-12 Unit Plans Anniversary Ball For Friday, June 9

Dance Is To Be Held At Large Boston Hotel With Big Name Band

The Navy V-12 Unit is planning an Anniversary Ball on June 9. It is being held a year after the opening of the Unit here at the Institute. The dance is being arranged by the Welfare Committee, which is a Navy Committee composed of ten men, each a representative of his company in the Unit. Tickets for the dance will cost \$4.80 and will go on sale the middle of next week.

A poll was held among all the members of the Navy to determine whether the orchestra should be a local band or big name orchestra and also to decide whether the dance would be held in the Armory or in one of the larger Boston hotels.

Big Name Orchestra Chosen

The results of the poll went in favor of a big name orchestra and the use of a large hotel for the dance. Sabino G. DiSavino, 6-45, of the Welfare Committee announced that the name of the orchestra will be released next week and the hotel in the near future.

## SPARE THE WHIP

Several weeks ago, occasion was found in this column to comment on the lack of interest and downright gumption shown by the members of the Institute Committee. At that time the suggestion was made that these members either wake up or yield their seats to more interested persons.

Since that time they have apparently waked up, and the Committee is now engaged in doing something out of its usual routine. At the risk of seeming perpetually dissatisfied, however, may we suggest that perhaps this sudden burst of zeal is carrying the members in the wrong direction—that they are on the wrong track, so to speak.

Our governing body has changed from one of "slumbering" solons to one of "stolid" ones, following in the footsteps of Congress. We of Technology, who have for so long been able to read in any daily paper about investigating committees—such as the Dies committee, to quote only one of many—may now read of them in The TECH, for the Institute Committee is appointing them, too.

Seriously, though, this particular investigating committee has as its purpose determining whether or not the Debating Society deserves Class A activity rating. We know its decision will not be influenced by reductions in the Society's activities due to wartime stringencies. We strongly suspect that an important purpose of this committee is to spur the Debating Society to greater efforts in overcoming these difficulties.

This purpose—if such is the purpose, instead of a short-sighted desire to take Class A recognition from war-hindered activities—is a laudable one. The Constitution of the M.I.T. Undergraduate Association, of which the Institute Committee is the governing body, gives among its purposes that of supervising student activities so that they act in the best interest of the student body and are a credit to the school. What better way to do this than to see that these activities carry on in wartime on the largest possible scale? The Institute Committee has a duty to perform, a duty to the undergraduate body, present and future, to keep these activities functioning. If they are allowed to fall by the wayside, it may be some time before they are revived, and a great many students will suffer the loss. We are glad to see that the Institute Committee is assuming this duty.

At present, however, the Institute Committee's method is similar to that of the man who harnessed a kitten to his mired car, counting on the use of a whip to successfully drag it from the mud with this power. The Committee is wielding a whip; we suggest they get out and help pull.

This may sound like an impractical pipe-dream, but it need not be. There are twenty-seven men on the Institute Committee, men with more influence in the undergraduate body than any other fifty men. If they would, they could use this influence to great advantage in helping the individual activities.

To be specific, the members of the Institute Committee could influence their friends and fraternity brothers to participate in some of the activities. Also these men could be instrumental in bringing to the general public the activities' offerings, be they a publication, a series of lectures, or possibly a performance.

These are just suggestions, based on our own experience. The other activities can undoubtedly suggest other ways in which they in particular could be aided. They are welcome to write us concerning these. The members themselves, being activity men, could no doubt think of many ways themselves.

This is the thing to do, we feel, rather than just to sit back and investigate. So spare us the whip; help us pull.

## Letters to the Editor

May 3, 1944.

Editor, The Tech

Dear Sir:

In last Friday's "Tech" you give an account of the Tech Embassy held on April 26, when several eminent scientists and clergy gave their thoughts on religion.

To those who attended, it must have been quite surprising to find such unanimity in the opinions expressed. None of the speakers seemed to appreciate that there are still people who believe the Bible is the word of God and that our beloved country was founded upon it. No mention was made of the faith of great scientists, like Newton and Maxwell, who believed the Bible.

Very truly yours,  
 W. H. JONES,  
 M.I.T. Staff.

## BILGE WATER

Spike that rumor! The exodus of our beloved candy and coke machines was necessitated by dietary considerations. Throaty eruptions and visiting inspecting parties had nothing to do with it. It was felt that the consumption of sweets was too high and the consumption of wholesome food too low. Navy regs hold a commanding officer responsible for his men's food rations, and an Oh Henry and a coke do not constitute a balanced ration. Then, too, the privilege was abused by individuals who neglected to return the empty pop bottles. Let's not abuse our few privileges; then we can be sure of afternoon liberty to attend the dramatic offerings of the Old Howard.

A slight spark of company rivalry has been discovered in opposition to Company 9. The men of Company 3 proudly point to three of their number who have reached the finals in the wrestling tournament. Their disciples of Charles Atlas are Dick Jorgenson, Stan Brown, and Harry McCurdy. Company 2 also let out with a meek squeak. "Red" De Laitre confided that Chuck Simpson and Leon Schindel, both of his flock, are the champion potato racers of New England. Which company is going to claim the jacks champ?

Our incumbent welfare committee is making a bid for fame. They definitely will sponsor a formal dance with a big name band on June 9. Sammy DiSavino and Bill Miller, the chairmen, promise to give out with all the details next week. Save your pennies, and you too can be a June bride at the unit's first big dance.

The man-of-the-week is Jim Hoagland. This burly youth stood and unflinchingly counted cadence all the while that the second battalion did its daily dozen. Who knows, he may have started something. Next week the numbers will be sounded by an experienced barber shop quartet and the week after by the Technology Glee Club. The possibilities are infinite.

Bob Cook has proved that there is a kinship between man and squirrels. When his roommate, Al Werner, informed him that they were about to be quarantined, he of the bulging abdomen purchased two dozen oranges, two dozen bananas, assorted bon bons, fifty pulp magazines, and other choice morsels. He even called Providence to command his folks to send him a crate of edibles. Cook blushed to the ends of his toenails when he discovered that he was the victim of a hoax. The fort had provisions but no scarlet fever.

Jovial Chief Reese will soon be back at his aquatic antics. The position vacated by Lt. Peek has been filled by Ensign Cherondello. Our new athletic director is a former professional football player, having been first string center for the Philadelphia Eagles. That's all Mac.

## In The Spotlight

Staff Photo

H. BRUCE FABENS

dreaded Q-Club and before that a member of the freshman council. With a note of pride, Bruce also says that this is the first I.F.C. Prom he has ever had to buy a ticket for.

### Is Swimming Letterman

When questioned about sports Bruce admits he has done some work for the swimming team. More questioning reveals that he received his numerals in his freshman year (he states he won one race) and last term he received his letter. Rather modestly he announces he came in fifth in the 440-yard event at the New England Intercollegiate—out of five entries in the event.

That is the history of Bruce Fabens, as revealed in the Spotlight's blinding, all revealing beam. Gone are the glorious days of Hawkshaw but the endless white halls of Tech remain and Bruce walks on in pursuit of a degree in Course XIII.

This week the Spotlight swings its dazzling beam on that famous member of the Class of 10-44, H. Bruce Fabens. Fabens, once the pride of Wooster, Ohio, now an apprentice seaman in the V-12 unit, has done much to warrant a closer inspection.

Twenty years ago the little city of Wooster was enriched by another inhabitant. After he had reached a suitable age Bruce went to the University School in Cleveland, which is also the alma mater of King Cayce and Bob Horsburgh. Upon graduating from there he prepared to follow in his father's footsteps by coming to this seat of higher learning.

### Pledged Chi Phi

In the fall of 1941 Bruce arrived in the great and grimy city of Cambridge and entered the white and endless stone halls of Tech, the Tech of the golden age of Hawkshaw and Charlie Stempf. Soon after his arrival Bruce pledged Chi Phi and then reported to the news room of THE TECH where he spent many of his week day nights. For two long years he slaved over a typewriter, but finally he decided that he must renounce his nightly stays in the pleasant atmosphere of the newsroom, for Course XIII called louder than the Fourth Estate.

From that time on Bruce swears he has been working diligently and the Navy has not discouraged him. For this reason he has spent almost as much time recently dodging activities as he formerly spent performing his duties in their behalf. At present he is a member of Gridiron and Chairman of the Budget Committee. Up until last term he was Secretary of the I.F.C. and previous to that he was Treasurer of the same organization. In his Sophomore year he was a member of the

## Squash Tourney Won By W. Pierce

This season's Emerson Squash tournament championship was annexed by Pierce in the finals played last Friday. Pierce defeated Roger Sonnabend 3-1 in a match of closely played games.

Emerson will present the winner's trophy to Pierce Thursday night at the Squash banquet which concludes the season. Sonnabend will also receive a smaller cup as runner-up. Mr. Emerson gives away cups every year to the winner and second place man in the tournament.

### Sonnabend Comes Back in Semi-Finals

Thirty men entered the tournament, but the battle narrowed down to four men: Pierce, Sonnabend, Hewson, and Brauns. Sonnabend and Hewson met in the semi-final round and played one of the most thrilling matches of the tournament. Hewson was ahead two games to none and well ahead in the third game, when Sonnabend came all the way from behind to take that game and the next two and win the match. Brauns had to default his match to Pierce because of illness. Pierce then went on to defeat Sonnabend in the finals.

## Tufts Defeats Lacrosse Team In A 17-7 Game

Third Straight Loss Suffered By Varsity Against One Tie Game

In a game played at the Tufts College Field, the M.I.T. Lacrosse Team was defeated last Saturday. The fourth game of the season, it marked the third straight defeat suffered by the Tech Varsity. Tufts finished well in the lead with a final score of 17-7.

As has happened in every game Tech has played this season, M.I.T. really played a fine brand of offensive Lacrosse for the first ten minutes of the first quarter. However, after that point, the game degenerated into a rough and ready free-for-all. Several Tufts players were injured and Massaglia of Tech suffered a leg injury.

### Wyckoff Is Tech High Scorer

Wyckoff of Tech and Tate of Tufts stand out as the two high scorers for each team. In those first ten minutes, when M.I.T. was at its best, Wyckoff poured four goals through the Tufts defense, and Bowers followed with another to give Tech five points. Up to that point, the game had looked like a scoring duel between Wyckoff and Tate, but, as the M.I.T. attack stagnated, Tate continued to run wild.

The next Lacrosse game is scheduled for Saturday at Briggs Field with the Harvard Lacrosse Team. It promises to be an excellent game, with M.I.T. polishing up its attack for the occasion.

### Beaver Key Announces Swimming, Softball Plans

The Beaver Key intermural swimming meet will take place some evening next week, it was announced last night by King Cayce, 10-44, President of the Beaver Key. The softball tournament will also get underway next week.

Any groups wishing to take part in the swimming meet should contact Nicholas V. Mumford, 6-45, in the Graduate House. Teams will be informed of the actual date of the meet early this week. Softball teams may enter the tournament by contacting either Thomas A. Hewson, 6-45, at the S. A. E. house (KEN. 1139), or John J. Freiberger, 6-45, at the Graduate House.

All Beaver Key athletic events are open to anyone not on the varsity team in the particular event. The events mentioned above are open to groups from fraternities and any other organizations now active at the Institute.

### M. I. T. Places Fourth In Dinghy Races Last Week

Coast Guard, Harvard, And Tufts Come Ahead Of Tech In Regatta

Last Sunday, M.I.T. placed fourth among thirteen colleges in the 14th Boston Dinghy Cup Regatta, held here under the auspices of the Nautical Association. Skippers Smith and Schwartz gained 131 points to place behind Coast Guard, Harvard and Tufts.

Bob Smith continued his fine sailing by gaining several firsts, and the Tech score would have been higher had not we lost twenty points on two protests. In one of the more spectacular races, Bob made an early start and had to come back and start over again behind all of the other boats. But by the time he reached the first turn, he was running fourth and then went on to finish the race well out in front.

### Coast Guard Wins by Point

At the end of the day it seemed as though Harvard was the victor, but a protest by Northeastern, lost them enough points to let Coast Guard win by the narrow margin of 154-153. O'Day of Harvard took individual honors and great credit must be given to the fine racing of Fontaine of the Coast Guard.

### Two Teams Enter B. K. Roundrobin

Latinos And Phi Gams In Volleyball Finals

The Beaver Key Volleyball Tournament is now headed into the finals, with two teams already assured of play-off berths. The Latin American Club and Phi Gamma Delta were the two who entered the finals during the past week, and Phi Delta Theta and Sigma Chi have one game to go to decide the third team in the play-offs. The fourth team in the round-robin will be the winner of the Sigma Alpha Epsilon-Chi Phi duel.

The Latin American Club really went to town as they defeated Phi Beta Epsilon in two straight games. The first was a walkaway for the Latinos, as they garnered 15 points to win before the Phi Betas knew they were in a ball game. The second game turned out to be quite a contest, despite that first game score. The South Americans were pushed to the limit by the Phi Betas, but were able to eke out an 18-16 victory.

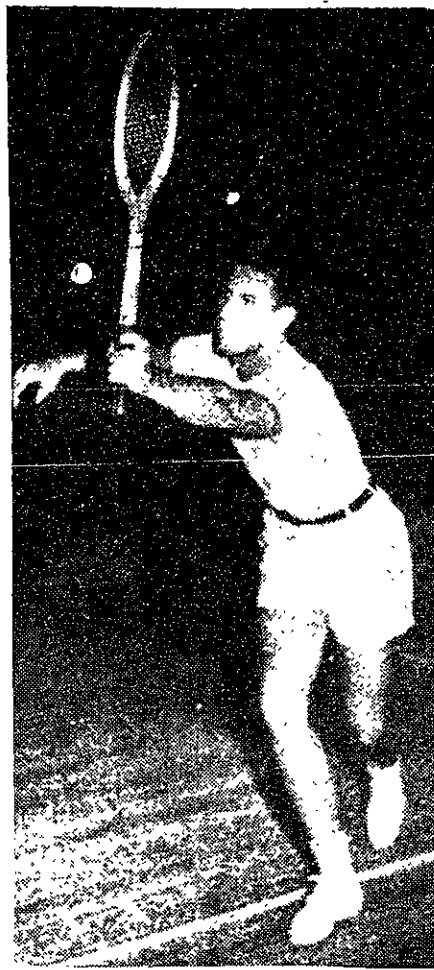

### Phi Gams Defeat Dekes

The Phi Gams took two easy victories from the Dekes. Going ahead at the start of each game, they were never in danger, with both games finishing with 15-4 scores. Evidently their outfit is pretty strong, because the Dekes looked good last week.

The Phi Delta Theta versus Sigma Chi match saw the two teams battle through two games and a part of a third, but they were unable to complete the contest. They were both evenly matched, and the scores were pretty close. However, as the game is to decide the entry into the finals, all three games will be played over again on Thursday.

## Tennis Team Defeats Harvard 7-2 In First Match Of Season

### TECH TENNIS STAR

Staff Photo

Abelarbo Noriega, in his first game for M.I.T., winning his match after dropping the first set.

### Captain Chun, Hewson Star In Singles; Tech Sweeps The Doubles

Last Saturday, the Tech Tennis team went up to Harvard for their first match of the season, which they won 7-2. The Tech team looked very well considering the fact that most of the men had only been out for two or three days previous to the match.

Capt. Gordon Chun went to three sets to take Jack Lynch of Harvard who is one of the better players in the state. In the number two slot, Tom Hewson polished off his opponent in one of the most decisive matches of the day. The scores were 6-1, 6-0. Playing number three, Tech's Noriega faltered in the first set, and then stormed the net to quickly take the next two deciding sets.

### Meyer Comes From Behind

Playing number four, Bruce Meyer was trailing one set and three games in the second, when his opponent apparently got overconfident and was swept up in the next two sets. In the number five spot Jack Hugus played Feinman one of the few men left over from the Harvard varsity of last year and lost a close one. Bob Arrison our playing manager lost to the Harvard number six man.

In the doubles the story was even brighter. Chun and Noriega took their match in straight sets. Roy Haddock and Bruce Meyer also took their match two-nothing. Playing third doubles Ralph Scherer and Tom Hewson wound up the day with a two set victory.

### Next Match with Andover

This is the first time in a long time that the Beaver tennis team has had such a decisive victory over their neighbors from up the river. Next Saturday the team will travel up to Andover for a 6-3 match.

## J.V. Trackmen Subdue Milton

### Walzer, Wangberg And Stewart Shine

On Wednesday afternoon the M.I.T. Junior Varsity track team was victorious over Milton Academy by the close score of 52-47. Trailing by several points after the sprints and hurdles had been run, the Beavers made up their deficit by taking firsts and seconds in the 440, 880 and 1-mile runs. Outstanding for the Jayvees in the running events were Walzer, Wangberg and Stewart while Roy and Fletcher showed the way in the field events with victories in the shot put and pole vault.

Prominent men in Milton's cause were Carey, with victories in both hurdle events, and Toppan, with firsts in the 100 and 220 and a third in the broad jump which gave him high scoring honors for the day with 11 points.

This Saturday the squad will run against Moses Brown in a meet to be held at Briggs Field at 12 o'clock.

### Results of Milton Meet

120 High Hurdles—Won by Carey (M); 2 Jackson (M.I.T.); 3 Bursnall (M.I.T.). Time: 17.8 secs.

120-Yd. Low Hurdles — Won by Carey (M); 2 Jackson (M.I.T.); 3 Spang (M). Time: 14.4.

100-Yd. Dash—Won By Toppan (M); 2 Thurgs (M); 3 Moore (M.I.T.). Time: 10.8.

220-Yd. Dash — Won by Toppan (M); 2 Creek (M.I.T.); 3 Moore (M.I.T.). Time: 24.4.

440-Yd Dash — Won by Walzer (M.I.T.); 2 Ellis (M.I.T.); 3 Lamb (M). Time: 55.9.

880-Yd. Run — Won by Stewart (M.I.T.); 2 Warner (M.I.T.); 3 Goethals (M). Time: 2:08.6.

1-Mile Run — Won by Wangberg (M.I.T.); 2 Symmes (M.I.T.); 3 Rugles (M). Time: 5:01.2.

Shot Put—Won by Roy (M.I.T.); 2 Macfarlund (M); 3 Dunne (M.I.T.). Distance: 43'9".

Broad Jump—Tie between Moore (M.I.T.) and Thayer (M); 3 Toppan (M). Distance: 19'.

High Jump—Tie between Cutter (M), Thayer (M) and Donahue (M). Height: 4'11 1/2".

Pole Vault — Won by Fletcher (M.I.T.); 2 Groom (M); 3 Landgraf (M.I.T.). Height: 10'.

### Outing Club Plans Tech Cabin Trip For This Weekend

Schedule Also Includes I.O.C.A. Square Dance Tomorrow Evening

Two big events—a Tech Cabin trip and a Memorial Hall square dance—are planned by the Outing Club for this week-end. The two events coincide because of a change in the club's schedule.

The week-end trip to the cabin, with girls from Radcliffe, Simmons, and, perhaps, Connecticut College, will have as its chaperon Professor F. Alexander Magoun. Buses will leave for Tyngsborough, from which the cabin is a six-mile walk, from the Park Square terminal at 10:20 A.M., 12:20 P.M., and 2:20 P.M. tomorrow. Bicycling all the way from Cambridge is recommended only to those who are in top physical condition. Those who wish to get in just a little bicycling can take the train from North Station at 12:30 P.M. or 3:30 P.M., check their bikes on their train tickets, and then cycle thirteen miles from the Lowell railroad station to the cabin. Fishing rods and cameras are especially appropriate this week-end. Details and sign-up lists are posted on the Building 10 bulletin board.

#### Square Dance Also Planned

Another of the popular I.O.C.A. square dances will be held tomorrow night from 8:00 P.M. to 11:30 P.M. at the Harvard Memorial Hall. Tickets, at \$40, will be on sale today in the Building 10 Lobby at the noon hour and at the club's office during the regular afternoon office hours.

### T.C.A. Has Copies of Dean Prescott's Talk

A limited number of mimeographed transcripts of "The Religion of an Educated Man," the talk given last week by Dean Samuel C. Prescott at the eighth Annual Tech Embassy, are now available at the T.C.A. office. The transcripts are free, but since the supply is limited it is suggested that those who would like copies call for them as soon as possible.

### ASME Plans Talks On Jet Propulsion

Prof. Keenan To Open Series Next Thursday

The student branch of the American Society of Mechanical Engineers will present a series of three lectures by prominent members of the Mechanical Engineering department on the theory and applications of jet propulsion. The first lecture in the series will be given by Professor Joseph H. Keenan on Thursday, May 11, at 5:00 P.M. in Room 6-120. Professor Keenan will speak on the theory of jet propulsion from a thermodynamic standpoint.

On Wednesday, May 11, Professor C. Richard Soderberg will speak on applications of jet propulsion in industry, and on Thursday, May 25, Professor C. Fayette Taylor will speak on the applications of jet propulsion to aircraft. All of the lectures are open to anyone.

### T.E.N. Celebrates 25th Anniversary

The Tech Engineering News anniversary issue will come out in approximately two weeks. As its name suggests, it is going to be a rather special issue and many new features and interesting articles are planned.

The cover contest which received some publicity around school was never won by anyone because according to Curt B. Beck, 6-45, no "suitable entries were received." Thus the magazine staff had to design a cover by themselves.

Since this is going to be a surprise issue not much news about it can as yet be released, and the newly elected Managing Board is rather tight-lipped about it.

### I.F.C. Formal

(Continued from Page 1)

professional enlargement of the print will be given to the fraternity she represents. As was previously announced the winning group will receive a large framed portrait of their entry.

The following are the chaperones who will be present at the prom:

- Mrs. Karl T. Compton
- Mr. and Mrs. James R. Killian
- Professor and Mrs. Leicester F. Hamilton
- Professor and Mrs. John D. Mitsch
- Professor Avery A. Ashdown
- Mr. and Mrs. Ralph T. Jope
- Major and Mrs. Augustus A. Wagner
- Major and Mrs. J. E. Ratliff
- Lieutenant and Mrs. F. Curtis Canfield.
- Professor and Mrs. Raymond D. Douglass
- Professor and Mrs. Ralph G. Hudson

### TECHNIQUE PICTURES

The following is a list of formal group pictures for the 1945 Technique to be taken on May 9, in the Faculty Lounge. The clubs, groups, and fraternities listed below should be present at the indicated time.

- 7:00 P.M. Institute Committee
- 7:10 P.M. Junior Prom Committee
- 7:20 P.M. Lenox Club
- 7:30 P.M. Latin American Club
- 7:40 P.M. Women Students
- 7:50 P.M. Tau Beta Pi
- 8:00 P.M. Student Faculty Committee
- 8:10 P.M. 1946 Quadrangle Club
- 8:20 P.M. 1947 Quadrangle Club
- 8:30 P.M. Beaver Key
- 8:40 P.M. Phi Delta Theta
