

## Freshman Camp Will Be Held On July 7 & 8

### Camp Will Be Held On Institute Grounds Again Because Of War

The annual Freshman Camp, sponsored by the T.C.A., will be held on Friday, July 7, and Saturday, July 8, it was announced yesterday by Reginald B. Stoops, 6-45, Freshman Camp Director. Camp will again be held on the Institute grounds, instead of at Lake Massapoag, the pre-war site. Registration material is being mailed out to all incoming freshmen this week.

Camp will open at 5:30 P. M. on July 7, with registration at Morss Hall in Walker Memorial. After registration the group will adjourn for dinner, which will be followed by an assembly in Huntington Hall, Room 10-250, at 7:30 P. M.

The freshmen will be officially welcomed to the Institute by Vice-President James R. Killian, and then they will be entertained with the songs, good cheer, and spirit of "Obie" Denison, '11. They will then hear talks on the history of the Institute and on the more serious aspects of life at Technology.

#### Meet in Walker

Saturday morning the campers will assemble in the Walker Gymnasium for a meeting presided over by Wallace M. Ross, General Secretary of the T.C.A. Discussions of Institute life will be held. Several interesting speakers will be present, but their names have not yet been announced. The freshmen will be introduced to activities at Technology, and the meeting will end with an open forum on the market.

(Continued on Page 4)

## Paper Salvage Drive Started

### Salvage Of All Paper Is Wartime Necessity

A paper salvage drive is being conducted currently at the Institute under the direction of the Committee for Paper Salvage. Professor Lyman M. Dawes is in charge of the drive. A notice has been sent to all the offices at school stating the imperative need for the salvage of paper.

A pile of newspapers thirty inches high weighs one hundred pounds. These hundred pounds of paper will make the following necessities for the carrying of the war to the fullest extent: 200 containers for blood plasma, 1470 cartons for emergency life-boat rations, 17 protective bands for 500-pound bombs, 1105 cartons for holding fifteen 50 calibre incendiary bullets, and 650 cartons for "K" rations. These items are just a few of the 700,000 "paper" essentials used to promulgate the war. Last year the government used six million tons of paper. This year it will be necessary to increase this by two million tons.

#### Collection Facilities Offered

The need for waste paper is apparent and it is up to each individual to do his part in making the drive a success. The Committee has requested that all offices collect their old paper in the waste baskets and each day it will be collected. The Superintendent of Buildings and Power has organized special facilities for collecting large quantities of paper and any office unable to handle its waste paper is requested to contact the Superintendent's Office. The collection center is located on the south side of the basement corridor connecting Buildings 4 and 8.

## Nautical Museum Opened In 1921

By F. Russell Hart

Although the act of 1861, which incorporated Technology, provided for the establishment of a Museum of Arts, such a museum was not set up. In 1916, through the bequest of Charles H. Pratt, the Institute was able to provide space for a Nautical Museum, which was opened in the fall of 1921. So many exhibits poured in that two new wings were added. However, because of the war, the North wing has had to be closed.

The museum was organized under chairmanship of Francis Russell Hart, '99, whose extensive knowledge of American history, literature, and prints was of great value. His personal interest had much to do with the success of the museum. The Nautical Museum perpetuates his memory by carrying his name.

#### Famous Ships Portrayed

At the start it was proposed that a collection of models be assembled which would include all the different types of ships which had influenced America. Models now at the museum range from Lief Erikson's Norse Trader and great English galleons of the type that defeated the Spanish Armada in 1588 through the fighting ships of the

(Continued on Page 2)

## Secretary Elected To Catholic Club

### Tony Nunes Takes Over As Donner Enters Navy

Tony Nunes, 2-46, was elected Secretary of the Technology Catholic Club at the weekly meeting in Room 10-275 last Wednesday. He replaced John B. Donner, 2-46, who recently entered the armed services.

After the election, Frank Nolan, 10-44, introduced Father Cuffe of St. Sebastian's School in Newton, who spoke on "Good Neighbor Policy." In his talk Father Cuffe said that all the Americas should be behind the Democracies to promote good will, and as a result we should do all we could to establish this fact. He also mentioned that a common error of the Northern Americans is to consider the South Americans as uncivilized. This is completely wrong as they were civilized before the Mayflower reached Plymouth.

It was then announced that the second Communion Breakfast of the term will be held next Sunday, June 4 at the Hotel Kenmore after the 9:00 o'clock mass at St. Cecilia's Church, and that the next meeting is to be the last one of the term.

# Crews Will Race Harvard Over Henley This Saturday In Last Meet Of Season

## OFFICIAL NOTICE

Registration material for the summer—will be given out on Monday, June 12, from 8:45 A.M. until 1:30 P.M., in the Building 10 Lobby, and at the Information Office, Room 7-111, after 1:30 P.M. Registration material must be filled in and delivered to the Records Office, Room 3-107, before 1:00 P.M. on Friday, June 23. Civilian students must pay fees, including deposits, before 2:00 P.M. on Thursday, July 6.

The last exercises of the spring term will be held on Saturday, June 17, and final examinations will begin on Monday, June 19. Registration day for the summer term will be Monday, July 10, and summer term exercises will begin on Tuesday, July 11.

Reports for the spring term will be mailed to the term addresses of both civilian and Navy students on Thursday, June 29. Students who wish to have their reports sent elsewhere must call at the Records Office, Room 3-107, not later than Saturday, June 17. Duplicate reports for civilian students who are under age will be sent to parents. No reports will be sent to students who are candidates for degrees in June.

## Debaters Share New Handbook 1st In Journey Almost Ready

### Team Meets Vassar In Walker Tonight

Saturday, May 27, the M.I.T. Debating Team tied for first place with Dartmouth in an all V-12 debating tournament at Williams College. Williams was third, and Tufts came in fourth. The debate had a variable topic in that the affirmative set it. The general subject of the debate was the post-war world. The affirmative said certain things should be so about the post-war world, and the negative, without further warning, had to challenge this.

Those representing Technology were: Affirmative, Donald L. Wallace, 2-46, and Vigdor W. Kavalier, 6-45; Negative, Bruce A. Lambertson, 10-44, and Herbert J. Hansell, 2-46.

#### To Debate Vassar

This evening at 7:30 P.M., the debating team will meet a team from Vassar College here. The topic will be the President's action against Montgomery Ward. The Technology debaters will defend his action.

Tomorrow, the Society will debate Brown University at Brown. Edwin T. Bean, Jr., and William J. Bursnall, 2-46, will take the negative for Technology on the topic of whether Germany should be split into states after the war.

### "Sons Of M.I.T." Will Be Featured

The 1944 edition of the TCA Freshman Handbook, the forty-eighth annual handbook, is about ready to go to the printer, and it is expected that it will be ready for distribution to the incoming freshmen late in June. This was announced last night by Christopher G. Boland, III, 6-45, head of the TCA Publications Division.

The Handbook will be the same size as in the past several years, and it will contain many of the old features as well as many new items designed to help the new student at wartime Technology. As in the past, the Handbook will feature letters of greeting from Dr. Compton, Dean Lobdell, and from John L. Hull, 10-44, Senior Class President. "Technology Tips" has been completely revised and greatly enlarged. It is felt that this section is one of the most valuable to the freshmen, and therefore it is to be given a key position. The new Technology Alma Mater, "Sons of M.I.T.," will also be featured for the first time.

The Handbook has been published annually by the TCA for forty-eight years. It is usually sent to members of the incoming class during the summer, but this year, as was the case last year, the publication date has been moved up.

## Square Dance Held By O. C. Saturday

Tomorrow evening at 7:30 P.M. instruction will begin for the last I.O.C.A. Square Dance of this term. The dance will be held in Memorial Hall, Harvard Square, with Technology's Al Smith doing the calling. The instruction will last for half an hour and then regular square dancing will begin. As usual, the chaperone list will include Professor F. W. Sears.

The next morning, Sunday, a rockclimbing expedition will set out for the Blue Hills, leaving Park Street Station about 9:30 A.M. Instructions will be available to beginners, and qualification tests for instructing next term will be held. This will be the last really large trip of the term.

The following week, on Sunday, June 11, there will be a hiking trip to Lynn Woods and a cycling excursion, probably through Concord and Groton.

## Heavies, Lights Jayvees, No. 4's Tackle Crimson

### Varsity Boat Beats Last Year's Record In Last Week's Time Trial

This Saturday afternoon, the Technology crews will attempt to repeat last year's performance and beat Harvard again. Four Tech boats, the varsity, the lights, the jayvees, and the number four boat, will race.

The first race will be at four o'clock and will feature the light crews, Harvard having the only other lights in the country. A half hour later, the jayvees and the fourth boat composed of substitutes for the J. V. and lightweight crews, will compete against the Harvard jayvees, and at five-fifteen, the feature race between the varsities will be held.

#### Record Set In Time Trial

The chances of Tech taking the races are felt to be very good, especially after the sensational time trial held this past week. The varsity did the Henley, the distance to be covered Saturday, in the record breaking time of 3 min. 40 sec. This is five seconds better than the record set in the race last year. The other boats also did remarkably well over this distance.

Harvard has not done much racing this year and on the whole has not stressed crew. M.I.T. has had the experience of several intercollegiate regattas and has stressed crew immensely during the spring. Stroke Dick Winkler's lightweight varsity crew which has worked hard for this chance to race has shown an exceptional improvement.

The Tech boats will line up as follows: Varsity: stroke, Thorkilsen; 7, Hield; 6, Kalb; 5, Cook; 4, Russell; 3, Hoaglund; 2, Street; bow, Clare; coxswain, Grant.

Jayvee: stroke, Loeb; 7, Hunter; 6, Jorgenson; 5, Pockman; 4, Rudolf; 3, Stephenson; 2, Edgerly; bow, Hoover; coxswain, Vassimallette.

Lightweight varsity: stroke, Winkler; 7, Kinahan; 6, Littlefield; 5, Frailey; 4, Compton; 3, Collmus; 2, Schuman; bow, Huschke; coxswain, Long.

Fourth Boat: stroke, Miller; 7, Ferris; 6, Ormiston; 5, Levitan; 4, Bierce; 3, Belcher; 2, Hoffman; bow, Paternoster; coxswain, Flader.

## Tau Beta Pi Holds Term Elections

Last Monday, May 29, Tau Beta Pi elected its officers for the coming term. The officers are: President, Albert B. Van Rennes, 10-44; Vice-President, John L. Hull, 10-44; Corresponding Secretary, William F. Blitzer, 6-45; Treasurer, James B. Angell, 10-44; Recording Secretary, Henry M. Paynter, Jr., 10-44; and Cataloguer, Donald H. Haliburton, 10-44.

At the recent dinner meeting of the society, the problem of engineering unions was discussed. Prof. Walter C. Voss, at the initiation banquet which was held on May 3, discussed this very important subject. On May 17 Ernest A. Johnson, Secretary of Building Construction and Trades of Metropolitan District, spoke on this topic from labor's point of view.

## TO PROMOTE THE BEST INTERESTS . . .

Recently *The Tech* was awarded a First Class Honor Rating by the Associated Collegiate Press Critical Service. Over two hundred and fifty college newspapers from all over the country were entered in this service. Several issues of each newspaper are carefully examined by six judges, experienced journalists, who then give the paper its rating. Our rating was for the issues of last January and February, and, as far as our records show, is the highest rating that *The Tech* has ever received.

With such encouragement, it is hardly strange that we should stop to wonder at the perpetual lack of support which the paper has received from the student body. Having seen editorials in many other college papers decrying this same lack, we wonder if this is the fashionable thing. We don't feel that all undergraduate opinion to the contrary is wrong. We know students have some logical criticisms, and we would like to hear them. For example, comments on the makeup, the various columns, or the perpetual controversy of large headlines versus our present policy of what the A.C.P. termed "Conservative Streamlining."

The purpose of *The Tech*, as set forth in its constitution, is to present Institute news in the most efficient manner possible, and to "exercise its influence to promote the best interests of the student body as a whole." This is your paper. We are running it for your benefit and yours alone. If you don't like it, we would certainly like to know why.

## DEAR TECHMAN

The following letter is one that was written by a father to his son who failed to make the grade in V-12. It was originally printed in the *Tufts Weekly* and is reprinted here because as the end of the term approaches the message it carries pertains equally well to the Technology V-12 students and also to all the civilian students who may be having trouble with their marks.

"Dear Son:

"I am naturally disappointed, but far more for your sake than my own. I am perfectly satisfied that you did your best, and if those whose business it is to judge and determine whether a fellow is possessed of all those many intangible things that it takes to make an officer for the Navy determine that my son does not possess all of those intangible elements—I am willing and happy to accept that verdict. It is their business—they are better qualified than you or I to make the decision.

"I don't want you to become embittered, frustrated, blue, upset or anything of that sort. Remember that only a small percentage of those that start manage to finish. You are travelling with the majority. Stay on your toes, keep your chin up in the air, and don't get in the dumps. It is as important now to continue to keep yourself alert as it was before this happened.

"Don't worry about how your mother and dad are going to react. We are just as proud of you as if you had made the grade, because we do know you tried and that your failure is due to no fault of your own. We will be prouder still if you refuse to let this thing lick you and get you down. Now is really the time to stay on your toes."

## Letters to the Editor

Gentlemen:

It has long seemed to me that *The Tech* could make a considerable improvement by eliminating the rash and irresponsible statements which appear on its pages from time to time. More particularly, I refer to the sentence in last week's editorial, the gist of which is as follows: We agree . . . that in the past dance funds have been mishandled to the profit of committee members.\*

A cursory inspection of *The Tech's* masthead reveals that not one of the members of the active writing staff entered the Institute before September, 1942. Since that date there have been, in all, seven dances of the type discussed in the editorial. The first was the Junior Prom of the Class of 1944, held in November, 1942. I can make no comment on this affair, with one exception. The author of the editorial, who at the time could have been at best a freshman of six week's standing at the Institute, must have been quite an exceptional lad to detect any fraud. From then we proceed to the IFC Dance of April, 1943. The presence of Mr. Bruce Fabens, now Chairman of the Budget Committee, as Treasurer of that Dance Committee, will, I am sure, preclude any doubts as to the management of the funds. Next on our list is the Freshman-Sophomore Dance of May, 1943. Ask any member of that committee just how much profit he made on that deal. Then duck. In September, 1943, another IFC Dance was held. If you'll take my word as a member of the Committee, I'll say I didn't make a red cent. As to the Junior Prom of the Class of 10-44, may I refer you to Mr. Boyce. Or, as a matter of fact, to any other of the Committee members, all of whom are at present on the Institute Committee. The Sophomore Prom of last January, I regret to announce, netted me and the nine other gentlemen of the Committee nothing but an empty place in our pockets, which a ten-dollar bill had at one time occupied.

The seventh affair, is, of course, the last IFC. I am sure that Mr. Boyce has discussed this with you in detail.

Possibly I am wrong, but it seems to me that this type of writing can cause you nothing but ill will. It's commonly called "yellow journalism" and I don't think it will do you much good in the long run.

Respectfully yours,  
 Donald P. Kahn, 6-45

\*Editor's Note: The quotation to which Mr. Kahn is apparently referring is as follows: "We agree . . . that in the past dance funds have been mishandled to a greater or lesser extent, often benefiting dance committeemen."

## Russell Museum

(Continued from Page 1)

Revolutionary War, the clipper ships of the last century, the first ironclads of the Civil War, to the modern warship, the aircraft carrier and the submarine.

The museum has a metal model of the first steam boat engine on display, along with a great deal of equipment from ships both old and new.

### Whaling Scenes Shown

Notable among its exhibits are a large number of prints many of which are quite rare and valuable. Many of these portray whaling scenes and are included in an exhibit of whaling guns, harpoons, jawbones, and the like.

A number of old ship logs and charts are on display in the show-cases. An examination of them proves very interesting. An excellent set of sketches of contemporary warships, ocean liners, cargo vessels, and seaplanes is also on display.

Solid models of the bodies of prize racing yachts adorn one section of the wall and the remaining space is occupied by valuable and curious old books on ship construction and accounts of ocean voyages.

## In The Spotlight

On September 15, 1944, Wallace M. Ross will complete his 25th year as General Secretary of the Technology Christian Association. In the 25 years that Mr. Ross, better known as "Wallie" to thousands of students, alumni, and faculty members, has been at the Institute, the T.C.A. has vastly increased its scope and its usefulness to the student body. The way in which the T.C.A. has adapted its services to the war effort is a fitting tribute to his executive ability.

After prepping at Cushing Academy, Wallie went to Dartmouth, graduating with a B.S. degree in the Class of 1909. In his Senior year, he was President of the Dartmouth Christian Association and Secretary of "Palaeopitus," the undergraduate government body. After graduation he remained at Dartmouth for a year as General Secretary of the Christian Association.

For two years, 1911 and 1912, Wallie served as Hi-Y Secretary at DeWitt Clinton High School and the High School of Commerce. Then he returned to Dartmouth as General Secretary and remained there for four more years. In 1917 and 1918, Wallie served as a community secretary in Newark, New Jersey.

### Went Overseas In 1918

In September 1918, Wallie went to France as a Y.M.C.A. Secretary with the French "Le Foyer du Soldat." In the fall of 1918 he traveled about northern France, doing most of his work in Nancy and Luneville. After the armistice, Wallie served in the Rhine valley as a Regional Director, with headquarters in Wissembourg. He super-

WALLACE M. ROSS

vised American social work in 23 neighboring towns and cities.

Returning from war-torn Europe in August 1919, Wallie came to the T.C.A. as General Secretary, a post he has held continuously since then. At that time, the T.C.A. was just getting started in its office in three-year-old Walker Memorial. The cabinet numbered ten, and the office took up only the room which is now the front office. At that time the Room Registry, the Book Exchange, and the Handbook were the principle activities.

In 1924, the T.C.A. expanded into the small room between the present front and rear offices, and in 1926,

(Continued on Page 4)

## For Boys To Play

. . . this Saturday night the devotees of the rural sport of square dancing will get a real workout at Harvard Memorial Hall. This is to be the last M.I.T.O.C. square dance of the term and they promise a real evening. As usual Al Smith will call the intricate figures.

### New Offensive

The Cambridge urchins, whose assaults on the Dorms and the M.S. Department were reported in this column several weeks ago, have again resumed their attacks. Instead of the direct frontal assaults of their last operations, which were costly to both attackers and defenders, the marauders are copying the Japanese and using infiltration tactics to attempt to force the dormitories. So far all attempts have been repulsed.

Though the Dorms have not suffered appreciably from the attackers, several professors have been assaulted in their own classrooms. For example a commando unit of the urchins attacked Professor Wiener's M-22 class a few days ago while the professor was writing the solution to a problem on the board. When he turned around to explain the problem he found his audience had suddenly increased in size. Twice he momentarily drove off the invaders but they returned till at long last they tired of their sport and left the class to continue its pursuit of higher mathematics. It seems about time someone took offensive action against these brats.

. . . Tech Night at the "Pops" this Saturday night promises to be a gala affair for the musical minded. Included in the program is a rendition of "Sons of M.I.T." by the Technology Glee Club, Gershwin's "Rhapsody in Blue," Strauss' "Tales from the Vienna Woods" and other musical compositions.

### Harvard Folk Dance

. . . for those who like folk dancing the Harvard Folk-Dance Society is sponsoring a dance in the Radcliffe Gym this Saturday at 8:30 P.M. The sponsors would appreciate folk dress for those who are attending. There will also be exhibition dances by groups of various nationalities.

## A. I. E. E. Attempts Reorganization

### New Plans Include Trips, Joint Meetings

In an attempt to reorganize the American Institute of Electrical Engineers, a meeting of the student chapter was held on May 23. In the past, the club has been rather inactive due to war conditions, and the members wish to be more active this summer. The primary reason for this reorganization is to get the interest of the 75 Electrical Engineering Juniors.

Some of the reorganization plans agreed upon are: joint meetings with A.I.E.E. branches from Tufts and Northeastern, inspection trips to nearby engineering establishments, and dinner meetings with guest speakers. In addition, a new system to finance activities will go into effect. Each member will be required to pay \$.50 dues per term to the student chapter, as well as \$3.00 a year to national headquarters.

### Talk by Professor Wilbur

At the meeting Prof. John B. Wilbur spoke on the design, erection, and operation of the Smith-Putnam Wind Turbine located on Grandpa's Knob near Rutland, Vermont.

# Track Meet With Bates Tomorrow At 3

## Unbeaten Trackmen In Last Home Tussle; 2-46 Wins Class Meet

Oscar Hedlund's Beavers tackle Bates College here on Briggs Field tomorrow afternoon at 3:00 P. M. Bates, who licked Northeastern recently, should provide some real competition, according to Oscar. Tech crushed Northeastern in the opening meet of the season.

"I'm not saying that these Maine boys are going to beat us, but I'm sure they will provide us the best competition so far this year," said Hedlund. This meet will be the last home appearance of this unbeaten Tech team this year; Captain Bud Bryant's boys close their season on the following Saturday in Williamstown.

### Sophomores Win

The Sophomores of the Class of 2-46 grabbed top honors in the Spring Inter-Class Meet held last Saturday on Briggs Field with a total of 91 tallies. The youngsters, who placed last in the Winter meet, put the older men in their place, as 10-44 salvaged only 69½ points and 6-45 scored 42½ points. The newly entered freshmen walked off with 16 points in their first Inter-Class meet.

The full 15-event meet provided the whole track squad a good workout, as all five places were counted. The top men on the varsity took some of the firsts, but the vast majority of points were built up by the lesser lights down in the third, fourth and fifth slots.

### The results follow:

- Low Hurdles: won by McKee (25.6 sec.), 10-44; Baldwin, 10-44; Chapman, 2-46; Humphrey, 2-46; Bursnell, 2-46.
- High Hurdles: won by McKee (17.5 sec.), 10-44; Pyle, 10-44; Baldwin, 10-44; Chapman, 2-46; Dickinson, 2-46.
- 100-Yard Dash: won by Casey (10.6 sec.), 2-46; Hollister, 10-44; McKee, 10-44; Crowell, 2-46; Zirin, 10-44.
- 440-Yard Dash: won by Chapman (51.9 sec.), 2-46; Bailey, 10-44; Baldwin, 10-44; Kay, 6-45; Ellis, 10-46.
- Two Miles: won by Wangberg (11 min., 17.2 sec.), 2-46; Ray, 2-46; Whipple, 6-45; Loweree, 2-46.
- 220-Yard Dash: won by Casey (23.9 sec.), 2-46; Hollister, 10-44; Bryant, 10-44; Bailey, 10-44; Zirin, 10-44.
- Half Mile: won by Bryant (2 min., 7.0 sec.), 10-44; Stewart, 2-46; Walzer, 6-45; Dickinson, 2-46; Umberger, 6-45.
- One Mile: won by Goldie (4 min., 56.1 sec.), 6-45; Umberger, 6-45; Dickey, 2-46; Symmes, 2-46; Schindel, 6-45.
- High Jump: won by Humphrey (5 ft., 11¾ in.), 2-46; Johnson, 10-46; Moore, 10-44; Pasfield, 6-45; Wright, 2-46.
- Hammer Throw: won by Murphy (126 ft., 5¾ in.), 2-46; Dunne, 10-46; Dickinson, 2-46; Roy, 10-46; Chapman, 2-46.
- Broad Jump: won by Randolph (21 ft., 1 in.), 10-44; Crowell, 2-46; Moore, 10-44; Humphrey, 2-46; Fletcher, 6-45.
- Javelin: won by Hollister (167 ft., 1 in.), 10-44; Oechsle, 6-45; Upton, 6-45; Dionne, 2-46; Pasfield, 6-45.
- Pole Vault: won by Wright (11 ft., 0 in.), 2-46; Fletcher, 6-45; Hildebrand, 6-45; Johnson, 10-46.
- Shot Put: won by Roy (35 ft., 7½ in.), 10-46; Taylor, 2-46; Helve, 6-45; Dickinson, 2-46; Dunne, 10-46.
- Discus: won by Dickinson (112 ft., 5¼ in.), 2-46; Dionne, 2-46; Lester, 10-44; Helve, 6-45; Dunne, 10-46.

## Tech Lacrossemen Topped By Stevens

### Beavers Clash With Dartmouth Next Week

Last Saturday, Coach Charlie Van Ummerson (apologies for previous spelling) led the M.I.T. Lacrosse Team down to Castle Point Field, in Hoboken, New Jersey. There, before a large crowd, the Techmen were outscored by the undefeated Stevens Institute of Technology Lacrosse Team, who have one of the strongest aggregations in the East. Playing a wide-open game, with few penalties, the Stevens outfit snowed the Tech Lacrossemen under by a barrage of eight goals in the first half, and it looked as if the game was turning into a rout. However, coming back with a different spirit the second half, the Beavers held Stevens to two goals, and matched that total with two of their own.

### Tech Holds Stevens' Attack

M.I.T. started the game off right, as Hildebrand came through with a goal after two minutes of play. That was the end of the Tech scoring the first half, as Stevens got its attack rolling, monopolized the play for the remainder of the first half, and scored eight goals in quick succession. When the second half opened, Stevens continued to press the attack, but met with a different brand of opposition. In the last few seconds of the third period, they managed to squeeze out a goal, after fifteen minutes of scoreless play. Tech countered in the last period with a tally by Stan Meduski, in the first minute of play, and the game again settled into defensive play. The Stevens attack broke through the Tech defense on a quick stab by Mott, but Wellard followed almost immediately with another goal for Tech. It might have been a different story, if Tech had played that kind of Lacrosse throughout the entire game.

### LINEUPS

M.I.T.	Goal	Stevens
Bronson		Scharfe
Pierce	cp	Krol
Vinci	p	Meighan
Riggs	2d	Radhuber
Wellard	1d	Mott, L.
Hildebrand	C	Hunziker
Wyckoff	1a	Mott, J.
Metcalf	2a	Hedberg
Meduski	OH	Hall
Brayton	IH	Weber

### Substitutes:

M.I.T.: Davidoff, Hickey, DePaoli, Buik, Walsh, Smith, Powers, Mulholland, Chabot, Clark, Wilson.  
Stevens: Robertson, Wellhauser, Farhifer, Bolander, Kaye.

## LANDIS OF SIGMA NU TAKING THE HIGH JUMP

Phil Landis is shown clearing the bar at 5'6" to win the High Jump in the B.K. track meet last Sunday.

## A BATON PASS IN THE 880 RELAY

S.A.E. shows how to pass the baton in copping the 880 relay last Sunday.

## Worcester Bows To Tech Netmen

### Undefeated Team Travels This Week

Last Saturday, the beaver tennis team took their fifth straight victory when they defeated W.P.I., 4-3. The team showed its strength in the singles, taking four out of five while losing the two doubles. This victory meant that M.I.T. took two straight in the home and home series with our Worcester neighbors.

In the number one spot, Gordon Chun defeated Kennedy of W.P.I. As a point of interest, Chun was defeated by Kennedy in the match played here two weeks ago. Playing number two for Tech, Noriego went to 18-18 in the first set and then had to be taken out by Coach Jack Summers as he was suffering from a sunstroke. Tom Hewson took his match easily by the scores

of 6-2, and 6-3. In the number four and five spots Meyer and Shaefer were victors in straight sets.

### Tech Loses Two Doubles

In the first doubles, Chun and Shaefer lost 6-3 and 7-5, and the second doubles composed of Hadcox and Meyer also lost in straight sets. This weekend will see the Tennis team traveling to Princeton this afternoon and will meet the University of Pennsylvania team tomorrow. If they take these two matches, they will be the first undefeated team that we have had here at Tech for many years.

### Infirmiry List

At the Homberg Infirmiry last night were:  
B. Leavitt  
L. Brettler

# Theta Chi And S.A.E. Tie For Beaver Key Track Championship

### Final Standings

1. Theta Chi, 14 2/3 points.
2. Sigma Alpha Epsilon, 14 2/3 points.
3. Delta Kappa Epsilon, 11 2/3 points.
4. Phi Gamma Delta, 11 1/2 points.
5. Chi Phi, 11 points.

## Scherer Cops Double To Spur Theta Chi S.A.E. Snares Relays

The Beaver Key Track Meet returns, placed Theta Chi and Sigma Alpha Epsilon in a tie for first place, each with a total of fourteen and two-thirds points. The meet, held last Sunday morning on the cinders at Briggs Field, was run off under the direction of Bob Hildebrand, with Oscar Hedlund helping out in the timing and starts. The events were run in heats, each entry being timed, and the winner determined without resorting to a final in any event, except the 100-yard dash. The third and fifth place teams were separated by only a two-thirds of a point margin, as Delta Kappa Epsilon garnered eleven and two-thirds points for third place, the Phi Gamma Delta team took eleven and one-half points for fourth, and a strong Chi Phi outfit finished fifth with eleven points. With the tie for first, it is not known at the present time, how the prizes will be awarded. A keg of beer and a trophy were to have gone to the winner.

### Winning Teams Split Four First Places

There was little doubt about the supremacy of the first two teams, as they split four out of six first places between them, and placed men in several of the other events. The S.A.E. entry was strong in the relay events, but they lacked the individual stars who could have given them victory. Theta Chi was strongest in the individuals, as their track ace, Ralph Scherer, carried two events, to swell their point total. Scherer came through with a double victory, taking the 100-yard dash, and the broad-jump, to give his fraternity ten points. A strained muscle kept him from competing in any other events. The Deke and Phi Gamma strong men, monopolized the shot-put, as they split the first four places between them, but they were unable to capture any of the other individual or team events.

### Results

- 100-yard dash. Time: 11.1 seconds.
  1. Scherer, Theta Chi
  2. Ball, Sigma Chi
  3. Kriek, Phi Delta Theta
  4. Poole, Kappa Sigma
  5. Browne, Sigma Alpha Epsilon
- High Jump. Height: 5 feet 6 inches.
  1. Landis, Sigma Nu
  2. Howkins, Chi Phi
  3. Comer, Theta Chi and Hoaglund, Sigma Alpha Epsilon.
  5. Adams, Sigma Nu, Friedlander, Phi Lambda Phi, Mayer, Sigma Chi and Oswald, Sigma Alpha Epsilon, Street, Delta Kappa Epsilon, Sweeney, Theta Chi.
- 880-yard relay. Time: 1:43.6.
  1. Sigma Alpha Epsilon
  2. Sigma Nu
  3. Phi Gamma Delta
  4. Phi Delta Theta
  5. Sigma Chi
- Broad jump. Distance: 19 feet, 2 and ¾ inches.
  1. Scherer, Theta Chi
  2. Semple, Chi Phi
  3. Morgan, Delta Kappa Epsilon
  4. Trageser, Phi Gamma Delta
  5. Landis, Sigma Nu.
- Shotput. Distance: 37 feet, 10 and ¾ inches.
  1. Cahill, Delta Kappa Epsilon
  2. Horsburgh, Phi Gamma Delta
  3. Hill, Phi Gamma Delta
  4. Street, Delta Kappa Epsilon
  5. Hawkins, Sigma Alpha Epsilon
- Medley Relay. Time: 1:48.2.
  1. Sigma Alpha Epsilon.
  2. Phi Delta Theta
  3. Chi Phi.
  4. Theta Chi.
  5. Delta Kappa Epsilon

# BUY WAR BONDS

# Students Need Fewer Books

## Librarian's Report Shows Steady Decline

According to the Technology Librarian's Report for 1942-43, the home use of books has declined steadily in all the Institute libraries except Walker and Aeronautics. This decrease in student use, however, is to be expected because of the war. On the other hand, there was a marked increase in the use of the libraries in connection with war research, both by Institute men and by industrial firms and government agencies.

The total amount of books in the libraries numbers 371,270 volumes. Much has been done to complete the files of periodicals from Axis-occupied countries. The many gaps having been filled by original copies, A.P.C. reprints, and microfilm copies, furnished through the aid of a national committee of librarians.

The Central library has aided in preparation of several exhibits in the Lobby of Building 10. Military Engineering before 1850, M.I.T. in the First World War, and Antoine Lavoisier, are only a few of the displays. Much interest has been shown by students in the Walker Memorial Library. Many additions have been made to their open shelf collection of fiction and the humanities. The record collection, too, has been enlarged. Walker was the only library to have an increase in the circulation of its books.

### SPOTLIGHT

(Continued from Page 2)

when Mr. Pennell N. Aborn became Employment Secretary, his office was built. Today the T.C.A. can barely crowd all of its activities into three offices. Today, also, the emphasis has been shifted, and such services as Freshman Camp, the Blotter, the Ticket Service, the Embassy, lecture series, and, of course, Boys' Work, occupy the limelight. Because of the T.C.A.'s successful operation of the Student House, the Institute bought the house to insure its continuation. Wallie Ross's record of services for Technology men seems unending.

#### Heads Blood Donor Committee

Wallie was the driving force in organizing the work of the M.I.T. Blood Donor Committee, of which he is now Chairman. Miss Constance Houghton, who has been a T.C.A. secretary since 1936, works in the Information Office full time taking blood-donor sign-ups. The Blood Donor Drive is, however, only one of the many war services which Wallie has organized and directed.

Mr. Ross, married in 1914, is very proud of his two daughters, Catherine, who was graduated from Mt. Holyoke in 1939, and Ruth, who "hopes to be graduated from Colby on June 12." Catherine is now married, and she has already made her mother and father grandparents twice over.

There have been a great many changes in the Institute over the past 25 years. Many of the activities which were transplanted to the Cambridge campus from Boylston Street have since languished and died, some just hang around, but the T.C.A., under the inspiring leadership of Wallie Ross has continued to develop, still maintaining its objective of serving the men of Technology. May Wallie's succeeding years at the Institute be as fruitful and successful as have been his first twenty-five.

# Dard Hunter Paper Museum Is The Only One Of Its Kind

One of the greatest tragedies about the Institute is the fact that its students know little about the many points of interest that have helped to spread the fame of Technology throughout the world. One of the foremost of these interesting spots is the Dard Hunter Paper Museum up in Room 7-321.

Set up in 1939, after Building 7 was completed, this museum is the only one of its kind in the world. It is a collection of all types of paper and paper-making apparatus from the beginning of the history of paper-making in China (105 A.D.) to the invention of modern paper-making machinery in the late 19th century.

Mr. Hunter, the world's foremost authority on paper and paper-making, spent almost forty years collecting all this material in order that he might better write authoritative books on the subject. During these years, he made about five trips to the Orient, where he covered over 500,000 miles searching for various appliances. Mr. Hunter stated that he has left much material stored in Japanese-occupied China which he never expects to see again.

#### Earliest Printed Paper on Display

The museum contains a complete record of paper-making from its beginning over 1800 years ago. One of the priceless relics on exhibit is the first piece of printed paper known to man—a Chinese prayer roll. This section of the collection includes paper-making moulds and appliances from China, Korea, and Japan. There are specimens of early Chinese papers from the 6th century onward; paper money from the earliest times; examples of all types of ceremonial papers, writing papers, visiting cards, and decorated papers. The walls of the museum are covered with 18th century Chinese screen papers and the blocks used in their printing.

On display are some of the earliest

# Freshman Camp Held July 7-8

ing system and other topics of interest to freshmen.

The campers will then adjourn for lunch, and after lunch they will reassemble in the Great Court to hear addresses by President Karl T. Compton and several administrative officers and members of the faculty. Then Technology athletics will be introduced by the captains of the various teams.

The traditional counsellor-faculty softball game will be held later in the afternoon. Many swimming, sailing, and track events will be held at the Alumni Pool, the sailing pavilion, and Briggs Field in the afternoon. The schedule for these events will be announced later.

colored papers whose brilliant tones are as bright now as when they were made. Japanese paper, made from materials which are found only in Japan, are on exhibit along with the raw materials from which they were made. A collection of papers and paper-making tools, including several models, are on display from India, Tibet, Persia, Siam, Burma, the South Pacific islands, Central America, and Africa.

#### Unique Collection of Watermarks

In the museum cases may be studied the first European textbooks relating to paper-making, dating from 1568 to the middle 19th century. Also on display are a collection of watermarks from the beginning of the art in 1270 to the most modern type of portraits. The priceless collection of the original experiments of Sir William Congreve, the inventor of colored watermarks, is one of the museum's most interesting exhibits. Also on display is the only remaining unprinted sheet of the first postage stamp to be issued, the rare British one-penny black.

The largest exhibit is a complete set of full-size equipment used in the making of the finest handmade papers. In 1941, Mr. Hunter and his son carried out an experiment in making the paper and type by early methods, and printing an original manuscript describing the process in Latin. This manuscript, along with the type and a complete description of how it was made, is in the museum's many showcases.

#### Exhibit of Paper Money

One of the museum's latest collections is an exhibit of paper currency issued to the Allied servicemen overseas. Included are some of the Japanese occupation money which was covered with the blood of dead Japanese when received by Mr. Hunter. This collection is included in a larger exhibit of all the monies issued by foreign governments.

The paper museum is open until

# Reviews and Previews

**LOEW'S STATE AND ORPHEUM**—A rather good bill is playing here this week, if you like a little light escapism. The main feature is **Andy Hardy's Blonde Trouble** starring Mickey Rooney, Bonita Granville, Herbert Marshall, and the eternal Hardy family. This picture is definitely good entertainment of the lighter sort, filled with laughs, horseplay, and a fairly good plot. The second feature, **Sailors' Holiday**, is a somewhat humorous story of a couple of sailors on leave.

**RKO BOSTON**—Vic, (sigh), Mature is in town this week with the new Coast Guard show, **Tars and Spars**. This show has some fairly good spots. On the screen is a sharp musical, **Pardon My Rhythm**, with Bob Crosby's Bobcats and Gloria Jean, the kid singer with the baby face and more babyish voice.

**METROPOLITAN**—Continued here this week is that excellent photo-play, **Going My Way**, starring Bing Crosby (in a truly wonderful performance), Barry Fitzgerald (who steals the show), and Rise Stevens (who does her small part very well, too). All in all, this is a picture that no one should miss.

**PARAMOUNT AND FENWAY**—An excellent picture playing here this week is **The Hitler Gang**, a factual account of the Nazi party's rise to power. It presents a rather interesting psychoanalysis of Hitler and his associates, and discloses some other fascinating events in their careers. Don't miss this one either!

**KEITH MEMORIAL**—**Tender Comrade** with Ginger Rogers is the main attraction. In this picture Ginger has a chance to demonstrate her marvelous acting abilities. The ending hits you in the face. Also playing is **Moon Over Las Vegas**.

5:00 P.M. every day of the week. Mr. Hunter stated that the object of the museum is to show how each item on exhibit was made. As a result, Technology is enhanced with a fascinating museum, unique in the world.

# Professor Mitsch Attends Meeting On Demobilization

Demobilization of the services was the theme of the conference held on May 19 and 20, under the auspices of the Personnel Index of Princeton University. The conference was held at Princeton, N. J., and was attended by prominent men interested in the demobilization. They came from the Army, Navy, Marine Corps, Industry, and Colleges and Universities. Professor John D. Mitsch represented the Institute at the conference.

Among the topics under discussion were: "Demobilization Patterns and Problems" and "Industry's Postwar Possibilities and Needs for College Graduate Personnel." Dr. Harold W. Dodds, president of Princeton University, opened the meeting by giving an explanation of the purpose of the conference. Among the speakers was Major General Joe N. Dalton of the U. S. Army. Presiding over the third discussion was Dr. J. Douglas Brown, consultant to the Secretary of War.

#### Plans for Demobilization

The results of the discussions brought forth the various plans of the Services, industry, and Colleges. The Services are planning to establish counselling service at all points of discharge. This counselling service will aid each soldier with his personal problems of returning to a job in civilian life. The Services plan to issue to each man a "Separation Qualification Record." This will show the individual's military record, military and civilian education record, and job experience and preference. The form will not indicate any physical or mental disability. It is pointed out that the Services are accepting no responsibility for obtaining jobs for discharged men. College placement will be given to the American Council of Education and the Services will get their information from that source.

# REVIEWS FOR FINAL EXAMS:

Each Review consists of five two-hour meetings and costs ten dollars. Classes limited to the number who can be seated comfortably—we suggest you make your reservations as soon as possible. (state time for 8.03)

8.03 (5-7 & 8-10 P.M.)	M-21 (5-7 P.M. only)	2.00 & 2.00-N (5-7 P.M. only)	2.04 (8-10 P.M. only)
