

Class Elections Are To Be Held On February 2

Junior Prom, Senior Week Committees Also To Be Elected

The presidents, vice-presidents, and secretary-treasurer of the Classes of 2-46, 6-45, and 10-44, as well as two Institute Committee representatives from each class are to be elected at the class elections which will be held on Wednesday, February 2, from 8:30 A.M. to 5:20 P.M. The Senior Week and Junior Prom Committees and the members of the Beaver Key society will also be elected at that time.

Individuals desiring to run for any of the above offices must submit nomination blanks carrying the signatures of twenty-five sponsors from their own class. These blanks must be turned in at the Information Office not later than 1:00 P.M., January 27. Nominees must also submit at that time a 200 word statement of plans and policies, a cumulative rating, an activity record at Technology, and a 4x5 full-face photograph (optional). There are no nominations for vice-president, since the man receiving the second highest number of votes in the presidential election is automatically declared vice-president.

Preferential Ballot System

All officers will be elected by the preferential ballot system. A voter numbers the candidates in order of preference, and may number as many as he likes. All persons shall vote only with the class to which they are assigned by the Registrar.

All freshmen wishing to try out for the Elections Committee should attend an Elections Committee meeting on Wednesday, January 26, at 5:00 P.M. in Litchfield Lounge. At this meeting the freshman competition for the committee will be explained to them by Gabe E. de Roeth, 10-44, committee chairman.

Tau Beta Pi Holds Annual Initiations

New Officers Elected; Matthews Is President

In an initiation held on Wednesday, December 15, ten Seniors and six Juniors were admitted into Tau Beta Pi, the national undergraduate engineering honorary society. The new senior members include: Harry R. Corwin, Herbert J. Cunningham, William G. deHart, John W. Hoopes, Malcolm G. Kispert, Garry C. Myers, Robert I. Neel, Roger W. Patterson, Peter M. Rinaldo, and Geoffrey Robillard. The new Junior members are: Jaques S. Abreu, James B. Angell, Bernard J. Duffy, Thomas S. Emberton, John L. Hull, and Albert B. VanRennes.

The initiation, which took place at the Hotel Kenmore, was followed by a banquet at which Dean George C. Harrison was the speaker.

New Officers Elected

Elections of chapter officers for the spring term were held in Tyler Lounge last Friday afternoon at which time Warren E. Matthews, 2-44, was elected president. The other officers include: vice-president, John L. Hull, 10-44; treasurer, James B. Angell, 10-44; corresponding secretary, Albert B. VanRennes, 10-44; recording secretary, Thomas S. Emberton, 10-44; and cataloger, Jaques S. Abreu, 10-44.

Three members of the Senior class, Rafael de Carrera, Seth H. Washburn, and Henry P. Whitaker, who had been elected to Tau Beta Pi, were unable to attend the initiation. A special ceremony for the reception of these men will be held tomorrow.

Senior Week Tickets On Sale All Next Week

Tickets and options for Senior Week will be on sale again next week, Monday through Friday, from 2:00 P.M. to 5:00 P.M. in the Lobby of Building 10, it was announced last night by Lamar Field, 2-44, chairman of the Senior Week Committee.

At the same time Field announced that all members of the Senior Class now in the R.O.T.C. stationed at the Institute will have their money refunded if they purchase tickets and leave school before Senior Week.

New Dean's List Does Not Include Navy Students

A total of 533 civilian students had term ratings of 3.50 or better during the past summer term, it was revealed with the release of the latest Dean's List this week. No Navy students have been included in the list nor have class percentages been figured to include these students.

Owing to the fact that theirs was the largest undergraduate class at the Institute, the freshmen led with the greatest number of men on the lists, 227, which was 45.4% of their class. They also led with the greatest per cent of men on the first dean's list with 9.1%. The Seniors led with the greatest per cent of men on the lists with 53.8%, 121 men. The Sophomores and Juniors had 47.3% and 45% of their class on the lists respectively.

The purpose of the Dean's list is to show students about where they stand academically in relation to the rest of their class and also to give some indication to preparatory schools of how well their graduates are doing.

Voo Doo To Feature Murgatroys Again

Other Artists Urged To Join Magazine's Staff

The "Snowbound" issue of Voo Doo, honoring the Sophomore Prom, will make its appearance at 8:30 A.M. next Friday. This issue will feature a drawing in his usual style by Reynold F. Gamundi, 2-44, as well as several new features and departments.

This issue of the humor magazine will inaugurate a new department Voo Doo patterned after the Post's "Meet the Authors" feature. Each month there will be a short biography of a staff member, embellished with appropriate art.

Vincent Lopez, Prom Maestro, Plays Piano With Left Hand

Vincent Lopez, whose band is going to play at the Sophomore Promenade to be held at the Hotel Statler on Friday evening, January 28, has been playing at the Hotel Taft Grill in New York for so long, that "Lopez at the Taft" has become similar to "Roosevelt at the White House." He also broadcasts over the Mutual Network daily with "Luncheon with Lopez."

Making such tunes as "Nola" and "Kitten on the Keys" famous, Lopez pianistic artistry and trickery never fails to amaze his audiences. According to Bob Ripley, Lopez' digits move over the keyboard at the rate of 2,200 notes per minute. His technique consists of transposing the melody to the left hand while playing the accompaniment with his right, without reducing the speed of the piece. His famous fingers are insured for \$100,000.

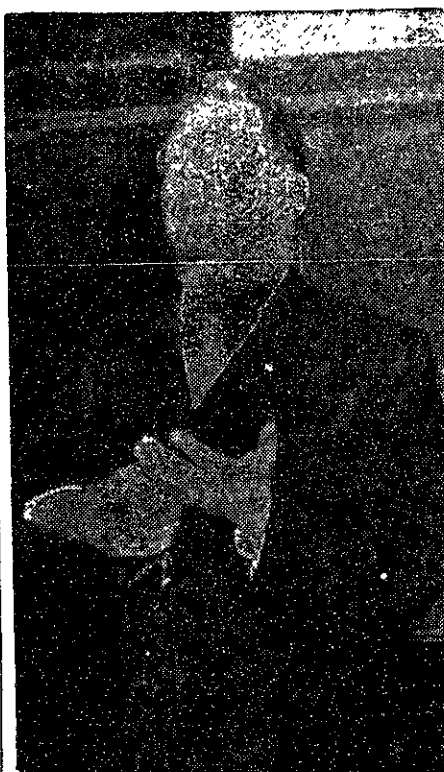

During his career as a band leader (Continued on Page 3)

MARRIAGE LECTURES BEGIN

A group of Technology students getting advance information on the lectures.

Professor F. A. Magoun emphasizes a point during his first marriage lecture.

Record Crowd Attends First Magoun Lecture

Next Talk In T.C.A. Marriage Series To Be Delivered On Tuesday

Over eleven hundred Technology students attended the two sessions of the first of the T.C.A.'s winter series of marriage lectures, delivered by Professor F. Alexander Magoun of the division of Humanities, last Tuesday afternoon in Huntington Hall. Over six hundred attended the 4:00 P.M. lecture, while another five hundred filled the hall to hear the 5:00 P.M. lecture. This total attendance exceeded by several hundred the attendance at the first lecture of any previous T.C.A. marriage series.

Professor Magoun's topic was "Criteria For a Happy Marriage." Prefacing his lecture with the remark that "We should have more (Continued on Page 4)

Gridiron Society Elections Held Last Wednesday

Members Chosen From Student Publications; Banquet Set For Feb. 9

A meeting of the Gridiron Society was held at 5 P. M. last Wednesday, January 12, in Litchfield Lounge. The meeting was presided over by Arnold MacIntosh, 2-44, president, and William B. Scott, 2-44, acting secretary and was held for the purpose of electing new members for the coming year.

After the new members had been elected, plans were discussed for the coming initiation banquet. The date for the banquet was set for Wednesday, February 9. The initiates are expected to write and perform the customary play at this banquet.

New Members Elected

The members of the Gridiron Society are picked from the four student publications at Technology for outstanding work in the field of journalism.

The following are the twenty sophomores and Juniors selected for membership: Robert H. Symonette, 6-45, George R. Dvorak, 6-45, T. Nicolas Berlage, Jr., 6-45, Harmon A. Poole, 6-45, and Herbert A. Frankel, 6-45 of the Tech; Leonard H. Carlson, 10-44, S. Newton Feldman, 2-44, John J. Freiberger, 6-45, (Continued on Page 3)

New Draft Deferment Rulings Are Released; Seniors Deferred For 30 Days After Graduation

New Selective Service regulations which sharply restrict the deferment of college students will become effective on February 15.

Under the provisions of the new national directive No. 33-6, provisions are made for the creation of a national quota of 10,000 students who may be considered for deferment if they are studying in certain professional fields, which are listed below. The quotas for each educational institution will not be established until February 15 and the procedure for the selection of students for these quotas has not yet been clarified.

Those sections of the new directive which relate to Technology students follow:

"A. General Policy on Student Deferment:

"1. Change in policy.—The current needs in connection with the war effort require a change in the policy governing the occupational deferment of students. The Army and Navy Specialized Training Program is providing for the specialized training of a large number of men. This number will furnish a supply of persons in scientific and specialized fields and certain professions adequate for the needs of the armed forces. Therefore, students occupationally deferred should be limited to a number sufficient to meet civilian needs in war production and in support of the war effort.

"2. Student quota.—It is necessary that students in certain professional fields be considered for continued deferment. In certain scientific and specialized fields students who will graduate on or before July 1, 1944, should be considered for deferment until graduation. National quotas have been determined in accordance with which occupational deferment may be granted to undergraduate students in certain scientific and specialized fields, the undergraduate students in preprofessional courses of study. The quotas and the procedures by which they are controlled and certified to the local board are set forth in Sub-Part E hereof.

"B. Students, Regular Courses, Scientific and Specialized Fields:

"1. Undergraduate students who will graduate on or before July 1, 1944.—An undergraduate student in any of the scientific and specialized fields listed in this paragraph, who will graduate on or before July 1, 1944, should be considered for occupational deferment if he is a full-time student in good standing in a recognized college or university and if it is certified as follows:

"(a) By the institution that he is competent and gives promise of the successful completion of a course of study majoring in one of the scientific and specialized fields listed in this paragraph; and

"(b) By the institution that if he continues his progress he will graduate from such course of study on or before July 1, 1944; and

"(c) By the National Roster of Scientific and Specialized Personnel of the War Manpower Commission that the certification of the institution as to the course of study and competence of the registrant, and that if he continues his progress he will graduate from such course of study on or before July 1, 1944, are true to the best of its knowledge and belief.

RUSH WEEK

Examinations will be over on Saturday, February 26, and most men would ordinarily be homeward bound on the first available train. This year there will be no such departure for many men because rush week, sanctioned or not, will start on Monday. Fraternity men, the only large civilian living group at the Institute, will enjoy practically no vacation!

The plan submitted to the Interfraternity Conference by the Quattrochi-headed committee would have permitted these men to have had almost a week's vacation. The proposal hinged on the with-holding of the list of incoming freshmen, copies of which are usually distributed to the fraternities by the Institute. Had these lists been with-held rushing would not have been possible before the date scheduled by I.F.C. It would have been futile therefore for the members of any house to remain in Boston in order to "get the jump" on the other houses.

The new method was never to be put to test, however. Why? Because a small minority placed their own selfish interests before the good of the whole. This self-centered handful successfully blocked the scheme and rush week will now consume mid-year vacation. Some three hundred and fifty men will lose the pleasure and rest to be derived from an eight-day sojourn at home in order to rush less than eighty freshmen!! And the groups responsible for this narrow-minded course are, in the words of the chairman of the Interfraternity Conference, "to be commended for their initiative!"

This lack of cooperation on the part of the members of the I.F.C. serves as a striking illustration of the reason that the annual formal dance is the only important act of the Conference. In the difficult days that lie ahead of the fraternities at Technology the I.F.C. can be a very useful organization, but if it is going to get no more cooperation from its members than it has in this instance it might do well to appoint a dance committee (to carry on its most useful service) and cease functioning.

A CHANCE TO HELP

You have probably read of the tremendous increase in juvenile delinquency since the start of the war. There have been articles in newspapers about the rise in the crimes of youth; there was a feature article in *Life* two weeks ago, a *March of Time* film titled *Youth in Crisis*, and a United States Senate investigation headed by Senator Pepper. Conservative figures put the increase in arrests in 1943 at 20 per cent above 1942, while boom cities like San Diego report increases up to 300 per cent in delinquency.

The usual reply after hearing these figures is either "So what?" or "Well, what can I do about it?" In this case there is something you can do about it, and some people have seen fit to do it. The answer is to strike at the basic causes of this delinquency. The easiest course is to help in providing better recreational facilities for teen-aged youths.

Local students are playing an active part by volunteering as club leaders for youth groups. The Boys' Work Division of the T.C.A. estimates that about twenty Technology students are now engaged in some capacity as leaders of young people throughout the city.

These men deserve to be commended for their work, but there is still a need for more men in positions like these. Surely there are other students at the Institute who can afford to give up a few hours one evening a week to do their bit toward a better post war period.

Dramashop Gives Fine Performance, Acting Is Splendid

Professor Dean M. Fuller's Dramashop gave a thoroughly entertaining and competent performance of the Kauffman and Hart comedy, "The Man Who Came To Dinner" on Friday and Saturday nights, January 14 and 15, at the Peabody Playhouse. Each performance was attended by about two hundred people, most of whom thought very highly of the play if the volume of their laughter is any indication of the extent to which they enjoyed the antics of the cast.

The outstanding performer was easy to spot. He was, of course, Lawrence Van Ingen, 6-45, who put a great deal of warmth and humor into his portrayal of Sheridan Whiteside, the eccentric, self-centered wit who "came to dinner" at the home of the Stanley family in a small Ohio town, broke his hip on the icy front porch, and then monopolized the house for his work. Whiteside was on the stage throughout nearly all the play and was at most times the center of attraction, carrying on his complex affairs with the aid of Maggie Cutler, his secretary, played very competently by Joan T. Rothwell, G.

All the other parts were played very well. Outstanding was the portrayal of editor Bert Jefferson by John T. Fitch, 2-46, especially during the "drunk scene" in the third act. Marion Ferris, 10-44, did a good job as seductress Lorraine Sheldon. Also deserving of special mention are the acting of Robert W. Connor, 2-46, who played the part of Dr. Bradley, the easy-going, genial small-town doctor who cared for Whiteside during his confinement, and of Jasper D. Ward, 10-44, who played several small bit parts, putting a great deal of enthusiasm and acting ability into all of them.

On the whole, Dramashop deserves a great deal of credit for the performance. The acting was excellent, the lighting and set very good. Certainly, if this performance is any indication of the Dramashop's ability, its future endeavors are worthy of much greater support by the Technology student body.

Stamp Collection Now On Exhibit In Building 10

A large part of the favorites of the stamp collection of Professor Irving H. Cowdrey of the Mechanical Engineering department, and a collection of Latin American photographs from the Arthur Rotch Library of Architecture are now on exhibit in the Lobby of Building 10.

Professor Cowdrey's collection consists of a great variety of rare commemorative stamps from many different countries. It also includes an exhibit of special paper used by different countries to prevent the re-use or forgery of the stamps.

Photographs used in the printing of some of the stamps on display are also in the exhibit.

The display on Latin America includes many photographs of typical scenes in Peru, Brazil, Argentina, and several of the other Latin American countries.

Infirmiry List

The following students and employees were in the Homberg Infirmiry last night:

- Margaret Kelleher
- Pfc. Ayarnall
- Sgt. P. Kearns
- Ralph S. La Vallee, 2-44
- Pfc. D. Phillips
- Pfc. R. Cooper-Smith
- Pfc. G. Oerow
- Pei-Yung Huang, G.
- Pvt. J. Wollivich
- John T. Holloway, G.
- T/Sgt. P. Hagan

In The Spotlight

Bill Scott, permanent Secretary-Treasurer of the Class of 1944, former General Manager of Technique, and the man who recently reorganized the Gridiron Society after it had been dormant for months, has "been in the Army all his life," even though he's been wearing the olive drab only since April. Son of a West Point army officer, he has led the life of a "typical army brat," moving from camp to camp, seldom staying in one place for more than a few years. He has lived in many places throughout the country, including Dallas, Texas, which he now calls "home," and Hawaii.

Bill was born at West Point some twenty-one years ago. He attended three different high schools, finally graduating from the Little Rock (Arkansas) High School, where he was an enthusiastic member of the football team. Bill wanted to follow in his father's footsteps and go to West Point, but he was rejected because of poor eyesight. Then he spent a year at Hendrix College in Conway, Arkansas, "getting a bit of social life before buckling down to the grind at Tech."

Member of Sigma Chi

When he entered Technology in the fall of 1940, Bill pledged Sigma Chi Fraternity, of which he is now the president. Continuing the interest in athletics which he developed in high school, he was a member of the freshman Field Day football team, a member of the gym team, and a member of the rifle team. As if that wasn't enough, he started working on Technique, and began climbing the ladder which three years later brought him up to the position of General Manager of the yearbook. He also managed to finish the term scholastically unscathed, which he considered quite an achievement at the time.

A mechanical engineer, Bill became a member of the American Society of Mechanical Engineers. He also joined the Society of American Military Engineers when he enlisted in the Corps of Engineers branch of the Advanced R.O.T.C. During his Junior year, Bill coached the freshman Field Day football team and became a member of the Beaver Key Society. At the same time he had progressed to the position of Organizations Editor of Technique.

Sent to Ft. Belvoir

Bill's Senior year was spent mainly at Fort Belvoir, Virginia, where he was stationed from June to October. Before he had to leave for Fort Belvoir, Bill became president of his fraternity, General Manager of Technique, Secretary of the

WILLIAM B. SCOTT

Beaver Key Society, a member of the I.F.C. Executive Committee, permanent Secretary-Treasurer of his class, and a member of the Gridiron Society. He was also elected to Osiris, the Senior honorary society.

While Bill was at Fort Belvoir, he managed to take care of some of the jobs that befall a Technique General Manager, for the yearbook staff mailed him photographs regularly for his approval and comments. One day, while his battalion was out on maneuvers in the Blue Ridge Mountains, a set of final proofs for the yearbook, which had somehow followed him out to the bivouac, arrived. Bill's pup tent was jammed all night with other Technology men who were in his group, all poring over the description of life back at school.

Plans Civilian Career

Bill's father is now a Brigadier General, stationed in Iran, and his brother, also a West Point graduate, is an Army Major stationed in England. "Two Scotts are enough for the Army," says Bill, who has no ambitions for a post-war military career. Incidentally he has another brother who will soon enter the Army Air Force. Bill hasn't yet quite decided between the oil business and the aircraft business, but regardless of which it will be, he would like a position back home in Texas.

So here you have Bill Scott. He's back at the Institute now after his basic military training, filling many of the positions he held before he left and at the same time keeping up with both his scholastic work and army activities. He's a living proof of the fallacy of the idea that you can't achieve a balance between activities and scholastic work at Technology.

For Boys To Play

... the traditional S.A.E. Sailor party promises to enliven tomorrow evening's activities. Last year the affair was held on Rowe's Wharf, but wartime conditions forced the old salts to make the Beacon Street manse the scene of their fun-making for the evening. "Sea Breezes a la S.A.E." will make their first appearance at nine o'clock, and aren't expected to retire until one. For those yoemen who aren't blown under the weather, there will be dancing to the music of Sandy Sandiford of Crawford House fame.

... the staid city of Brookline will find its streets flowing with schnapps tomorrow eve, as the Delts get their beer party underway. Tasker Grosson will provide swing and sweet for the come-as-you-like rumpus out on St. Paul St.

... a formal affair after the La-sell-Tech glee club concert this evening promises to reward several whoopee-seeking non-glee clubbers for making the trek out to Auburn-dale.

... the good old 5:15 Clubroom will rock with music this weekend, for two informals are on the agenda, one tonight and one tomorrow night. The former will be presented by the International Club and the latter by the Menorah So-

ciety. Fun-seekers are promised plenty of good music, provided that the 5:15 Club's fine record collection holds out.

... ten Outing Clubbers, led by Jack Rowe, will make the jaunt up to the Laconia-Gilford ski area this weekend. Ski conditions are favorable and the Phep's 800-foot tow-line will be in use.

... Bobby Hackett, Brad Gowans and a whole raft of other members of the original Dixie Land Band will hold forth in a concert at Jordan Hall Sunday afternoon, beginning at three. Jazz enthusiasts should jump at this opportunity to see and hear their old favorites. Tickets will be on sale at the box office at Briggs & Briggs in Harvard Square.

The First Church of Christ, Scientist

Falmouth, Norway and St. Paul St. Boston, Massachusetts

Authorized and approved literature on Christian Science may be read or obtained.

Walker Upsets Fijis In B.K.

Cadets Topple Dekes; Sigma Chi Wins Again

On Tuesday evening, the Walker Wildcats scored an upset over Phi Gamma Delta, Delta Kappa Epsilon lost to the favored Cadets, and Pi Lambda Phi extended its winning streak by downing Delta Upsilon.

In the first game of the evening the Walker Wildcats upset Phi Gamma Delta by 26 to 21. In a close fought game The Wildcats, with Olson scoring 10 points, and Aldrich six, squeezed out the victory by the narrow margin of five points. The Fiji's battled desperately, and were helped immensely by Butler's 10 points, but they did not have enough to down the new-found fighting spirit of the Wildcats.

Cadets Over Dekes 35-12

The second game of the evening saw the greatly feared Cadets topple the Dekes by the score of 35 to 12. The Cadets, as usual, had little trouble in steamrolling over the losers. Sparked by Sparks' 8 points, the Cadets played a fast heady game which never made victory doubtful. Al Queer of the Memorial Drive team scored six points, but it just wasn't their day to shine.

In the last tilt that night, Pi Lambda Phi won their second straight by defeating Delta Upsilon 27 to 18. Much credit is due to the plucky Pi Lambda Phi team which was earlier crushed by S. A. E. and now has come back in great fashion to take their last two games. They played their best game to date as Schields scored 10 points, and Frankel and Marshal scored six each. The D. U. team was in the game all the way, and it was a close game that they lost even with Martin and Shutte scoring six points each.

Kyros Scores 26 Points

On Wednesday evening Chi Phi rolled over Theta Delta Chi, Sigma Chi trounced Phi Mu Delta, and Delta Tau Delta defaulted to Alpha Tau Omega.

In the first game of the evening, a powerful Chi Phi quintet humbled Theta Delta Chi by the score of 50 to 15. The Chi Phi's were again paced by Pete Kyros, who has been a consistent high scorer all season. He outdid himself this time by making 26 points.

In the nightcap, the dangerous Sigma Chi team of the Beacon St. League had no trouble in defeating Phi Mu Delta to the tune of 39 to 12. The Sigma Chi's led by their stars Spoerl and Breck, who made 14 and 10 points respectively, displayed their usual good form in taking the game. As evidenced by the score, the game was one-sided although Phi Mu Delta, paced by Hoffman and Vitale fought hard throughout the tilt.

Crew Work-Outs Progress Favorably

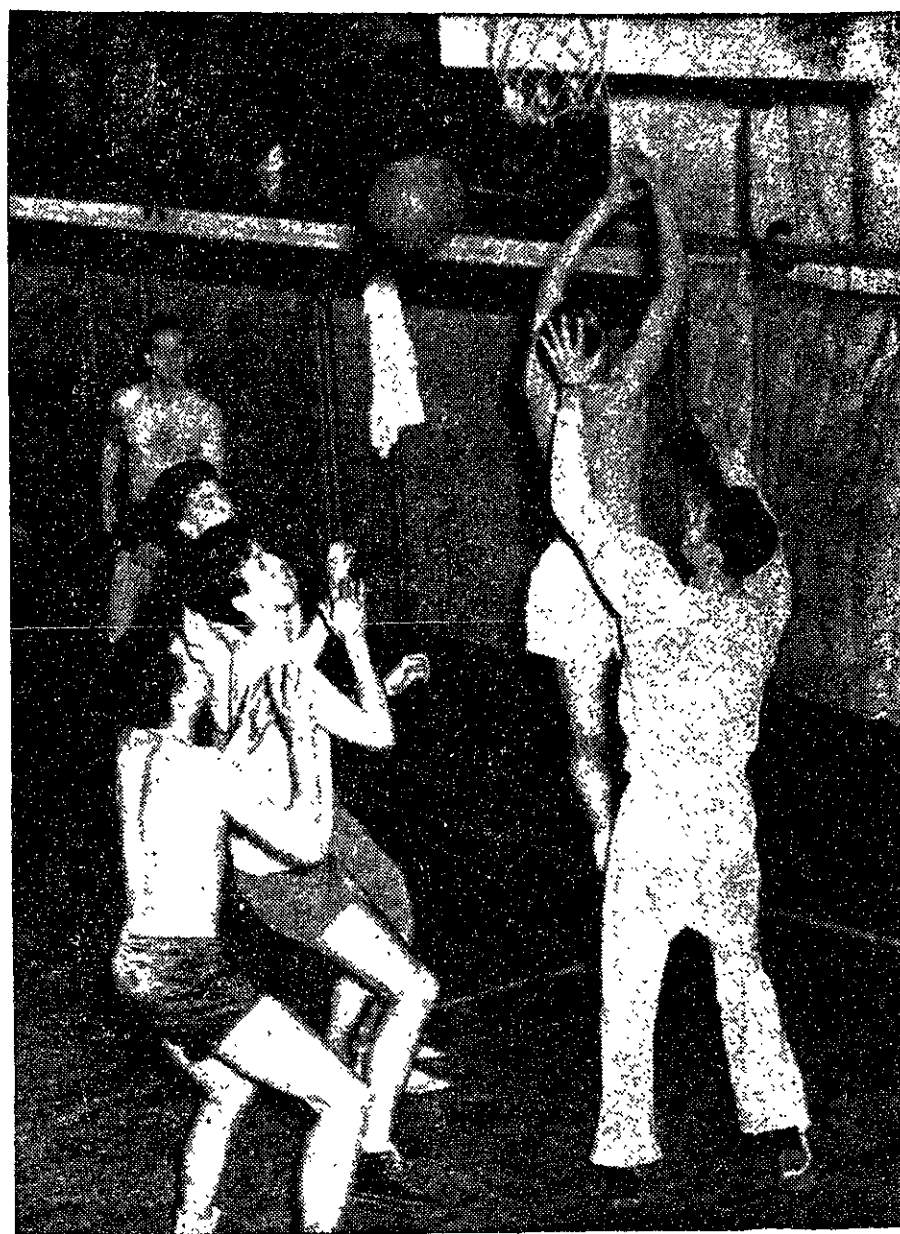

For the past two weeks the Tech crew squad has been working out on the machines in the boathouse. This season's turnout numbers around 125 men of which about 100 are Navy men. In spite of the numbers however, Coach Bob Moch says the squad still lacks two important elements: coxswains and men over 170 pounds in weight and six feet in height.

According to Bob Moch it is hard to tell at this time just how the crew is shaping up, judgement on that will have to wait until the boats take the water on the first day of next term. At the present time, however, the squad is getting in shape for the coming season and Coach Moch says that the members of the squad are showing plenty of fight and spirit.

Coxswain Needed

In issuing his call for coxswains Bob Moch emphasized that this position can be filled by anyone who weighs less than 130 pounds.

PHI DELTS VS. SIGMA NU

McKee, of the Phi Delt, misses a close one as Sigma Nu went down to defeat after a five minute overtime. The contest was postponed from December 21.

Tech J. V. Win M.I.T. A's Down B's In Squash Matches

Defeat Moses Brown By 49 To 17 Score

On Saturday night at the M.I.T. Pool, the Technology Junior Varsity overwhelmed Moses Brown by the score of 49 to 17. The J. V., under the capable tutelage of Ed Koenig, placed fourteen men in an eight event meet. Four of the five individual events went to Tech, the relays were split, and, in a close event, the dive was added to our total. In the fifty-yard freestyle, Healey placed first in the time of 27.3 sec.

Sand and Morgan copped the first and second places in the 100-yard breaststroke, in 1 min. 17.7 sec. With a 2 min. 25.1 sec. effort, Sherman of M.I.T., followed by Stoops of Tech., won the 200-yard freestyle. In the 100-yard backstroke, the only individual event won by the Moses Brown outfit, Nutter bested Gammon and Hawthorne of Tech. in 1 min. 13.8 sec. The 100-yard freestyle went to Tech when Fischer and Brunley finished one-two in 1 min. 3.8 secs.

Chulada Takes Diving

The M.I.T. divers were the victors in a closely contested event. Showing up well, Chulada placed first and Goldforb second, over Ballou of Moses Brown.

The two relay events finished the evening of swimming as Moses Brown took the Medley Relay in 1 min. 35.4 secs., and M.I.T. placed first in the Relay with the time of 1 min. 49.1 secs. In the final event, our winning team members were Stoops, Moyer, Bowen, and Healey, several of whom had placed in the previous events.

Next Saturday afternoon, January 22, the Junior Varsity will travel to Andover to oppose the Andover swimming team. That night the M.I.T. varsity will tangle with Trinity College.

Gould, 6-45, John S. Howkins, Jr., 6-45, and Richard B. Marsten, 6-45, of the Tech Engineering News; and James F. Brayton, 6-45, Paul H. Grant, Jr., 6-45, Peter V. P. Schaab, 6-45, and Raymond Q. Wilding-White, 6-45, of Voo Doo.

Sard Is Lone Winner As B Team Loses 4-1

Last Friday, the MIT 'A' Team marked up their second victory of the season over their less fortunate 'B' Team brothers with a score of four matches to one.

Cpt. Hewson playing No. 1 for the 'A' defeated Read of the 'B's' three to one. In the number two position, the match between Brauns and Scherer went to five games with Brauns winning out three to two.

Sonnabend and Pierce Win

Roger Sonabend and Bill Pierce defeated Jim Armington and Ken Nelson respectively in the number three and four positions. Finally, in the number five spot, F. Sard of the 'B' Team defeated Frank Bator three two in his team's only match win.

Results:

T. Hewson 'A' def. R. Read 15-12, 15-11, 11-15, 18-17.
S. Brauns 'A' def. R. Scherer 15-13, 18-15, 15-18, 15-18, 18-15.
W. Pierce 'A' def. K. Nelson 15-12, 15-13, 15-11.
F. Sard 'B' def. F. Bator 7-13, 13-15, 15-12, 15-3, 18-16.

Radiation Fencers Defeat Tech Men

As was to be expected, the fur flew last Wednesday night when the M. I. T. Fencers crossed weapons with the stalwarts of the Radiation Lab. The Tech men contested the ex-Tech men every inch of the way and the final result was a 13-14 victory for the Radiation Lab.

Although informal, the meet brought out very clearly that the Tech team was unusually strong, in view of the fact that this had been their first competition all season and that many newcomers had participated. Captain Dick Maconi, who led his team all the way, expressed satisfaction with the team's first showing, and was confident toward the coming big tilts at Annapolis and West Point.

The fencers are next scheduled to meet a foil team from Exeter in the Walker Gym at 2:00 P. M. on Saturday.

Beaver Basketball Team Drops Pair On Road; Face Trinity Wednesday

Beaver Briefs

QUINTET UNPREDICTABLE

The most unpredictable outfit at Tech is the Beaver quintet, which seems to look like a different team each night it takes the floor. Harassed by disinterested student support and also the loss of Coach Glancey, the boys have showed plenty of spark, but never have been able to play a steady game. Of course, no team can lose a coach and not feel the effects, especially at the mid-season marker. Since Ensign Glancey's transfer from Tech, Coach Henry MacCarthy and former captain George Marakas have shared the post. How well this combination will work out remains to be seen.

MILLROSE GAMES NEAR

The M. I. T. tracksters are looking ahead now to the Millrose games in New York on Feb. 5; that's only two weeks ahead now. Oscar is mum at present, but he certainly has a large squad working out at Briggs nightly.

A few intra-mural meets have kept the boys in competitive trim. Tomorrow a few trackmen are going over to the Boston YMCA for a warm-up. We see that Gil Dodds will be on hand with Art Schwartz and Ken Joseph attempting to catch the flying preacher.

FOILMEN HAVE PLANS

The Tech fencers should have a pretty fair season from the reports we've heard. With a whole troupe of returning men, manager Dick Lopez seems to think his team can repeat last year's undefeated record. And that's saying something with both West Point and Annapolis on the schedule.

Six Harriers Get Straight T Awards

Varsity Relay Teams Hold Trials Saturday

The annual Track Club Banquet was held last Wednesday evening at the Smith House. The guest speakers were Lt. Commanders Carl Olsen and Robert Burdock, both of the First Naval District. Commander Olsen, before entering the Navy, was coach of track at the University of Pittsburgh. While there, he coached some of the greatest of the intercollegiate quarter and half milers, among them fleet-footed Johnny Woodruff.

Commander Burdock was a track man for M.I.T. in his freshman and Sophomore years at the Institute.

Team Receives Award

At this banquet "Straight T's" in cross country were awarded to the following men: Captain Ken Joseph, Captain-elect Art Schwartz, Dave Bailey, Dick Poorman, Charlie Goldie, and Bud Bryant.

Tomorrow afternoon will be a big day in track. Starting at 12:00 M., relay trials will be held for the varsity 1 and 2 mile relay teams. In the afternoon, five Cambridge Technicians are to journey over to the Boston YMCA to compete in two events of the handicap meet. Alan Kay, Otto Kirchner, and Dick Poorman will run in the 600 yd. handicap run while Ken Joseph and Art Schwartz will match strides with none other than Gil Dodds in the two-mile event.

Worcester Poly And Camp Thomas Weekend Victors

The Beaver quintet had a tough week; the results of the last weekend include two losses to Worcester Poly, 30-47, and Camp Thomas, 44-55. Both contests were away. Only one game with Trinity away on next Wednesday night should give the boys a little rest.

We can say that both games were close at times. The Beavers just seemed to jump off the deep end and then suddenly play good ball. In the first half of the Worcester contest, which was watched by a huge Worcester gallery, Tech was trailing by only two points. And then the second half was a nightmare in which the rival engineers out-scored M.I.T. by fifteen points.

Reverse True In Navy Game

In the Navy game at Davisville, R. I., however, the situation was reversed. The boys were trailing by twelve points at the half, only to make a comeback and play the sailors even for the rest of the evening. All of which proves the truth of Cal Taft's explanation, "We are just not consistent."

In the Worcester fray Lanny Landwehr and Don Walsh played hard ball during that last half when the rest of the Beavers just fell asleep at the switch. The boys were out-played under both baskets, though, as the home club had the game under complete control all the way.

Team Faces Trinity Wednesday

This Trinity team which faces M.I.T. on its home court in Hartford, Conn., will be no soft touch. Bolstered by service personnel, this member of the Little Three will play only one game against Tech.

Even Bob Ripley Baffled By Lopez

(Continued from Page 1)

leader, Lopez has started many famous personalities on their way to the top. Carl Hoff, Lou Bring, B. A. Rolfe, the Dorsey brothers, Red Nichols, Rudy Vallee, and Johnny Johnson are some of the band leaders who learned their stuff from Lopez. Hollywood star Betty Hutton, the blond bombshell, started her career as songstress with his band. The newest youngsters signalled out for stardom by the Maestro are pretty, vivacious Karole Singer and mellow-voiced Bruce Hayes who are at present featured with the orchestra.

Rabid Baseball Fan

As a person, Vincent Lopez is a dynamic, well-dressed individual who is an astute business man. He is seriously interested in philosophy, psychology, and numerology, having made several true predictions on world events. In fact, he does all his business according to numerical patterns. He is a rabid baseball fan, a stamp collector, and is interested in reading and Chinese music. Lopez averages only six hours of sleep a night, feeling that is enough to keep anyone going. He says that the greatest moment in his life was when he signed a million dollar long-run contract with the St. Regis Hotel in New York.

Solons Discuss Suspension Of Dorm. Comm.

Action Asked Against Members Frequently Absent From Meetings

The Institute Committee held a very brief meeting yesterday afternoon in Litchfield Lounge, with only three items on the agenda. The meeting was called to order by President George A. Schutte, 2-44, at 5:10 P.M.

A motion to place the Dormitory Committee on inactive status until such time as the dormitories be re-occupied by civilian students was discussed briefly. The motion was tabled until the next meeting on the suggestion of John L. Hull, 10-44, because Kenneth M. Rehler, 2-44, committee chairman, was not present to explain the committee's point of view.

Absences Criticized

After the new elections to the managing board of Voo Doo and to the managing and junior boards of the Tech Engineering News were quickly approved without discussion, it was pointed out that the number of persons absent from recent Institute Committee meetings has been very large. According to the constitution of the Institute Committee, any member of the committee who is absent from two consecutive meetings may be expelled.

James V. Chabot, 2-46, Patrick E. Colvan, 2-46, Kenneth M. Rehler, 2-44, Caleb S. Taft, 2-44, and Lewis Tyree, 2-44, were absent. None of these members, however, had been absent from the previous meeting. President Schutte stated that the absences would be investigated and that the rule against absences would be enforced.

Glee Club To Be Lasell Guests

Dance Will Be Held Following Concert

This evening, the M.I.T. Glee Club will hold a concert with Lasell College at Auburndale, Massachusetts, the location of the college.

The program will start about 8:00 P. M. with Mr. George Sawyer Dunham conducting our Glee Club as well as the Lasell Glee Club, which is composed entirely of girls, Lasell being a girl's college. The two Glee Clubs will sing before an audience connected with Lasell and Technology.

After the program of singing, a dance will be held for our Glee Club. As the number of girls compared with the number of men will be rather large, Karnig A. Berberian, 10-44, the General Manager of the Combined Musical Clubs, has announced that several Technology men may go along to Lasell with the Glee Club in order to participate in the dancing; however, these men must be in tuxedos.

Magoun Lecture Draws Capacity

Next Lecture Scheduled For Tuesday, Jan. 25

(Continued from Page 1)

analysis and less love before the marriage, and more love and less analysis after the marriage," he went on to elaborate on the "four fundamental prerequisites for a happy marriage." These are: mutual emotional stability, mutual background and outlook, agreement on methods of attaining a common goal, and mutual sex attraction. Professor Magoun also cited some figures on the probability of a successful marriage if the above prerequisites are or are not satisfied. He also mentioned many interesting cases to illustrate his points.

This Week's Lecture

The second lecture in the winter series will be given on Tuesday, January 25, from 4:00 P.M. to 5:00 P.M. and from 5:00 P.M. to 6:00 P.M. in Room 10-25.

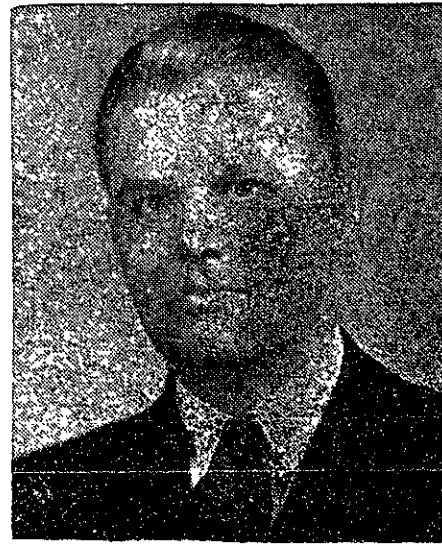

Prof. Carl Peterson Appointed Bldgs. and Power Superintendent

Carl M. F. Peterson has recently been appointed Superintendent of Buildings and Power to succeed the late Albert V. Smith who died suddenly on October 8. Mr. Peterson has been the Assistant Superintendent since 1939.

While holding this post, Peterson served as Assistant Professor in the Department of Mechanical Engineering. Because of his experience as Assistant Superintendent, Peterson is thoroughly familiar with the responsibilities of his new post.

Born in Boston and educated at the Mechanic Arts High School, Peterson graduated from the Institute in 1929, and was awarded the degree of Master of Science in 1932. He was in the course of Mechanical Engineering at Technology.

NEW SUPERINTENDENT

DRAFT DEFERMENT RULINGS

(Continued from Page 1)

in one of the scientific and specialized fields listed in this paragraph and that he gives promise of the successful completion of his course of study;

"(b) By the institution that if he continues his progress he will graduate within 24 months from the date of certification; and

"(c) By the National Roster of Scientific and Specialized Personnel of the War Manpower Commission that the certification of the institution as to his course of study and competence and as to his prospective date of completion is correct to the best of its knowledge and belief, and that his deferment, if granted, will be within the national quota for such students.

Chemistry Geophysics
Engineering Physics
Geology

"D. Opportunity to Engage in Profession:

"When a registrant has completed his training and preparation in a recognized college or university, or his internship, and has acquired a high degree of training, qualification, or skill, such registrant should then be given the opportunity to become engaged in the practice of his profession in war production or in support of the war effort. In many instances following graduation from a recognized college or university, or the completion of an internship, a certain period of time will be required in the placing of such persons in war production or in support of the war effort. When a registrant has been deferred as a necessary man in order to complete his training and preparation, it is only logical that his deferment should continue until he has had an opportunity to put his professional training and skill to use in the best interest of the Nation. Accordingly, following graduation in most of these professional fields or following an internship, a registrant should be considered for further occupational deferment for a period not to exceed 30 days in order that he may have an opportunity to engage in his profession in war production or in support of the war effort. Persons graduating in medicine, dentistry, veterinary medicine, or osteopathy are required to pass a State examination before they will be licensed to practice their profession and, accordingly, to permit the completion of such examination registrants who are graduates in medicine, dentistry, veterinary medicine, and osteopathy should be considered for further occupational deferment for a period of not to exceed 60 days following their graduation. Consideration for further occupational deferment, as provided above, should be given following graduation or completion of internship, or in case of persons graduating in medicine, dentistry, veterinary medicine or osteopathy, after

the taking of the State examination, only if during such period the registrant is making an honest and diligent effort to become engaged in his profession in war production or in support of the war effort.

"E. Determination and Certification of Quotas:

"1. Student quota, scientific and specialized fields.—A national quota of 10,000 has been established for students who should be occupationally deferred at any one time by reason of pursuing courses of study in chemistry, engineering, geology, geophysics, and physics (the scientific and specialized fields listed in Sub-Part B, paragraph 2). Students deferred to graduate on or before July 1, 1944, as provided in Sub-Part B, paragraph 1, and students deferred for reasons other than pursuing a course of study will not be counted against this quota.

"3. Function of the National Roster.—The National Roster of Scientific and Specialized Personnel of the War Manpower Commission will certify to requests for occupational deferment of students under this bulletin as follows:

"(a) Request for occupational deferment of a registrant who will graduate on or before July 1, 1944 (Part 1, B, 1, of this bulletin) will be prepared by the institution in which the registrant is a student and will be forwarded to the National Roster. The National Roster will, if such is the case, certify that the statements of the institution as to the course of study and competence of the registrant and that if he continues his progress he will graduate from such course of study on or before July 1, 1944, are true to the best of its knowledge and belief; and

"(b) Request for occupational deferment of a registrant in chemistry, engineering, geology, geophysics, or physics (Part 1, B, 2, of this

CALENDAR

FRIDAY, JANUARY 21

- 4:00 P.M. Debate: Technology vs. Brown — Faculty and Alumni Lounge.
- 5:00 P.M. Senior Week Committee Meeting — Litchfield Lounge.
- 6:15 P.M. Jewish Services—Room 6-120.
- 8:00 P.M. Glee Club Concert—Lasell College.
- 8:00 P.M. International Club Dance—5:15 Club.

SATURDAY, JANUARY 22

- 8:00 P.M. Menorah Society Dance—5:15 Club.

MONDAY, JANUARY 24

- 5:00 P.M. Senior Week Committee Meeting — Litchfield Lounge.

TUESDAY, JANUARY 25

- 4:00 and 5:00 P.M. Professor Magoun Marriage Lecture—Room 10-250.
- 5:00 P.M. Rocket Society Meeting — Faculty and Alumni Lounge.

WEDNESDAY, JANUARY 26

- 5:00 P.M. Elections Committee Meeting—Litchfield Lounge.

THURSDAY, JANUARY 27

- 1:00 P.M. Nomination Blanks must be returned to Information Office.

All-Tech Sing To Be At Longwood Towers

A change has been made in the plans of the Baton Society for their All-Tech Sing. Instead of holding it at the New England Mutual Hall as was announced, the Society will hold the sing at the Longwood Towers, 20 Chapel Street.

Although a number of entries for the contest have already been made by various teams, more are expected. These entries must be in by Tuesday, January 25, according to Samuel G. Morrison, 2-44, the retiring General Manager of the Combined Musical Clubs.

The Sing is to be judged on musicianship and diction and not by applause as was falsely announced last week.

37 Freshmen Out For Walker

Competition Period Extended A Week

With thirty-seven freshmen turning out last Monday, the Walker Memorial Committee plans to extend the period of competition. Next Monday there will be a preliminary elimination; the six new men will be chosen in about two weeks.

At the present time the Walker aspirants are working out every afternoon in the Committee office or going about the Institute on errands. Several freshmen have also been digging up information about fraternities and activities.

Herbert F. Knappe, 2-44, chairman of the Committee, explains the change in competition plans by saying that the present members would never get to know the competitors in a week. "We want to be fair to the freshmen," he says, "and we want to get the best men on the committee."

Voo Doo

(Continued from Page 1)

Murgatroyd will be back in all her glory and the magazine will contain art work which the Voo Doo staff describes as "excellent." However, a severe shortage of artists and cartoonists is making it difficult for the magazine to keep up its customary art standards. For this reason, Kenneth G. Scheid, 10-44, General Manager, has issued a call for anyone interested in securing a position on Voo Doo's art staff to report to the offices of the magazine at 304 Walker Memorial.

Have a "Coke" = Come, be blessed and be happy

... from Idaho to Iceland

Have a "Coke", says the American soldier in Iceland, and in three words he has made a friend. It works in Reykjavic as it does in Rochester. Be sure you have Coca-Cola in your icebox at home. 'Round the globe, Coca-Cola stands for the pause that refreshes —has become the ice-breaker between kindly-minded strangers.

"Coke" = Coca-Cola
It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".
