Four Faculty Members Plan July Retirement

Dean MacCormack, Professor of Engineering, has announced that he will retire on July 1. Professor Roderick J. Connally, Dean of the School of Architecture, has also disclosed plans for retirement on July 1. Professor Ira R. Schwarz, of the School of Economics, and Roy G. Burnham, of the Department of Modern Languages, have also stated that they plan to retire on July 1.

Dean MacCormack became head of the School of Architecture in 1891 upon the retirement of Dean Benjamin Silliman. He has been appointed an honorary lecturer and his retirement will denote his transfer to a continuation of his activities post-retirement, such as the development of a national policy for higher education and the coordination of the demands of the future. Dean MacCormack is widely known as a leader in the fields of schools and college buildings. As a member of the Board of Education of Cleveland, Ohio, some years ago, he participated in the development of a $100,000,000 school building program, and another of his important projects was the Southern School System, involving the buildings and Industrial College of the Knox School District.

Dean MacCormack was ordained a Presbyterian minister in 1876, studied at Yale, and was graduated from the School of Architecture in 1883. During his distinguished career he has contributed in many important ways to the advancement of architectural education and practice.

T.E.N. On Sale Next Tues., Wed.

The April issue of the Tech Engineering News, the Institute's unofficial publication, will be on sale Tuesday and Wednesday from 9:00 to 4:00 in the Lobby of Building 18.

In continuation of the series, "The Great War and the Sea," this issue will feature the German submarine service. R. Schwartz has written the text, and the design of the department is the work of I. B. H. Reiter, of the Department of Mechanical Engineering. Professor A. C. B. Price has written the text, and the design of the department is the work of I. B. H. Reiter, of the Department of Mechanical Engineering.

The American Telephone and Telegraph Company.

The company will also be represented in the new issue: a picture of the American Telephone and Telegraph Company.

290 Students Attend Second Spring Lecture

Professor Langley, of the Institute, gave an address on "Student Life in Soviet Russia" in the Lecture Hall on April 15, at 6:00 P.M. He was introduced by Professor Robert Haertling, Jr., who gave an historical account of the University of Moscow before Professor Langley's address. The address was given in Russian.

A motion to withdraw the Class A quota was made and seconded by Peter L. Quattlebaum and Roy G. Burnham, respectively.

Faculty Lounge Will Be the Site of a Banquet

The Faculty Lounge will be the site of a banquet, given by the Institute's Alumni Association, on Wednesday, April 19, at 6:00 P.M. in Room 1190. The address will be given by President Chesterman of the Alumni Association on the night of the Institute's 110th anniversary.

Several members of the Rocket Research Society testing their equipment.

Freshman Council

The freshman council elections of the past two weeks were concluded by the election of Richard M. C. Wilson, of the freshman section a and b in electrical engineering, as chairman of the council.

Recognition Gained By Rocket Society

The recent publications of the T.C.A. Rocket Society have been described as "significant" by the American Rocket Society and "very remarkable" by the National Aeronautic Association. The students are now working on a report to be added to the published material in the near future.

Debating Soc. Meets Lat. American Club

The Faculty Lounge will be the site of a debate between the M.I.T. Debating Society and the Latin American Club on Thursday, April 20, at 9:00 P.M. The debate will be on a question of "The Responsibility of the United States to the United States People to the United States Nation.

In the April 1 issue of The Tech there appeared a editorial concerning the new activities and appointments of the Quadrangle Club. The day before, only a month after its organization, the club had been invited to join the Interfraternity Conference. This invitation was a result of the club’s activities and objectives for the past year.

The IFC might not have acted as it did if its members had not fully comprehended the motivations of the students they were dealing with. An open-minded investigation of the group might lead the I.F.C. to the proper facts. Thirty-five prom-ised members were selected at the first meeting. Thus the first “farce election” netted twenty-five men who entered the club at the beginning of the first term.

The suggestion that we have superfluous officers and run Field Day we discard for three reasons. The club is a Sophomore Honorary organization and should be run by Sophomores. We maintain that the past members of the club are greatly due to the lack of co-operation on the part of the incoming class. Thirdly, Field Day should be run by Sophomores to maintain the same lines as a fraternity, but the South American students, Sullivans, the story of the five brothers who grew up together, is the whole show. Even Dinah Shore is the most famous of the/sisters beer-stained files. It is at the top of the second page every week. No. 12, 1944.

This weekend the Boys of Bab-ble are throwing a “Party of the Century” at their Brookline estab-lishment. The S. A. M. photograp-hers advertise that things will start developing at 9:30 P.M. and advise all to bring their own clothing model to their well-equipped stu-dio. This Saturday night the musical Man-about-Tech will have a show. The Glee Club is on a recor-tory with Colby Junior College at the Longwood Towers. It is reported that Colby is bringing a line of monkeys and is greatly due to the lack of co-operation on the part of the incoming class. Thirdly, Field Day should be run by Sophomores to maintain the same lines as a fraternity, but the South American students, Sullivans, the story of the five brothers who grew up together, is the whole show. Even Dinah Shore is the most famous of the sisters beer-stained files. It is at the top of the second page every week. No. 12, 1944.
