Senior Pictures Now Overdue

Other Group Pictures May Be Taken

The managing board of the 1943-44 yearbook has made several very important changes in this year's yearbook. The most important change is the request that all pictures be turned in by May 1, unless they wish to place a picture in the Wald Comfort Man, or Walid Dif. Nothing further can be done to accommodate anyone who may also be taken on returning pictures. All pictures that have not already been taken will be taken on May 9, 1944, at the Tech DELEGATION VISIT SET 18

T.E.N. Elections Also Made Officers Of The Tech Engineering News, As Follows:

At your convenience, please call on the staff as a Contributing Editor.

Carroll Boyce Becomes T.E.N. General Manager As Gould Leaves Institute

T.E.N. also invites the following to submit articles for publication in the T.E.N.:

Jean M. Bardwell, Editor-in-Chief

Tickets Sold For Dramashop's Play

Dramashop's coming production, "Holiday," have been sold out. It will be given at the T.E.N. office, proceeds to be divided among the students of the Tech Engineering News, and from any member of the Tech Engineering News.

The plot of the play, as the director, Robert M. Gould, Jr., states: "The cast of "Holiday, B" is a group of people who have come to New York on their vacation. They are all men and women aged or infirm to carry a spear or be allotted to work in the fields, while the young warriors he can find to cook and wash are extremely few. All men and boys able to carry a spear and stone will bring any unmarried women he can find to cook and wash for him. Women with babies, the blind and those too old or infirm to carry a spear are excused. Anyone found at home after receiving this order will be hanged."
CLASS OF ’45, ’46, OR ’47

Recently the Executive Committee of the Junior Class met and decreed that their Class should henceforth be known as the Class of 1946. The five men of the committee—George P. Mckinney, Richard S. Mooney, Kirk Drumheller, Robert B. Steven J. Miller, 2-46—entered Technology as the Class of 1946 and fought under that title ever-present war shortages.

There are many strong arguments in favor of the ’41 title as well. The Junior Class is actually graduating in 1941 and two of its classes are due to graduate in 1946, while there is no other class carrying the 1945 title. The present Senior Class is now known as the Class of 1944, though their rings are marked ’41 and the athletic numerals they have been awarded are ’45. RIng dies with ’41 cut in them are already in Balfour’s hand, and there would be no delay in obtaining rings if these numbers were used. If ’46 was used there would be a delay due to the ever-present war shortages.

The rings may only contain two numbers and therefore the 6-45 designation could not be used on the rings though it could still be used as a class designation for other occasions.

The number of the class may not seem important now, but alumni are always known by their class numerals and at times they grow to have a deep sense of pride in their school. Many of them retained their identity with the group they entered with.

An engineer’s brain works twenty-four hours a day, eh? And he seems to have as much energy as his neighbors who are wobbling over their cornet to a lively rhythm and his glowing red head.

Exactly one month after “being detached from this activity,” an old soldier’s baby (myself) was born in a hospital that was all legal. Though he had been married while in the service, my father had promised to be his proxy at the hospital.

In response to many inquiries from former students, many of whose ears are gone bad and perplexed by the timidity with which they believe they have responded, let me say that those of us who are able to give them information have been enjoying many happy reunions at Buckman. It is good to get together hereafter, a chat, on the high hills of Buckman. The news is that Techmen of the year are better than Techmen ever were.

The weekly award of four bowls to the three strongest athletes of Company 66, the billowing pre-med who had sent several of their own men to the hospital by his way through six centimeters and eight pounds of cardboard on his way to the Ohio State University of Technology.

Company nine, under the whip of Captain P. S. Harman, must come to claim more than story has afforded any other company abroad. They offer their bowler’s trophy (which is clean and their bag of stones) and to this the captain of Company 66 brings that of the school’s University of Technology.

An engineer’s brain works twenty-four hours a day, eh? And he seems to have as much energy as his neighbors who are wobbling over their cornet to a lively rhythm and his glowing red head.

In closing, let me remind you that this is a democratic principle, please be tolerant. That’s all brother.

B. K. Volleyball Tournament Enters Semi-Final Round

Phi Gamis, Dekes, And Latin American Club Last Week’s Winners

The Beaver Kay Volleyball Tournament is now in the semifinals, with eight teams ready to slug it out for the four-play-off berths. The games will probably be played early next week, and it is good that the roundrobin will begin on Monday night. The games would have been scheduled earlier, but Jim Mecartney, the Beaver Key Volleyball representative, was in quarantine and could not schedule the out. In his absence, Pete Schrader has taken over.

The games leading up to the semifinals were played early last week, the victories, in most cases, were by large margins. The Phi Kappa Sig, Phi Gam dual was the closest of the week, with the Beaver boys on top by 13-15 and 15-13. The first game was body contested all the way, and the Phi Kappa Sig looked like the winning combination, ter, as the second game opened, yet the Buzzards came back to tie it up to 12-12. Then the Phi Gam put on the pressure, made up the deficit, and won on to win in overtime.

A. A. M. Announces Athletic Awards

Awards announced last night by the A.A.A. for the winter season:

Varsity Basketball: Ray Hadden, Bob Leaves; Midfielder, Ben Creager, Bob Waddell, Don Walsh, Carl Tuft, Jack Aikens, Theo Brechling, and Will Ayward.

Disciplinary Award: Bruce Mayer, Frank DeLio, Dan DePoli.

Straight: T. Ray Hadden.

Squad: Tom Hevon, Roger Soderlund, Will Pieser, Frank Bost, Art Ashworth, Numers: Ralph Scherer, Roy Dorn, Art Schwymer, Dick Read, Bert Ferrante.

A.J. Richards

The Duke took an easy victory from the Phi Sigma Kappa Brave, 15-7 and 15-15. The game went 1000 at any time, with a crease the Duke team out to win. They will challenge the Phi Gam in the semifinal round.

Phi Rho Epsilon, who entered the semifinals last week, will be opposed by the Latin-American Club. The Latin-Americans enjoyed a victory over the Phi Kappa Sig between 15-15 and 15-15 in two close games. The Phi Gam followed the Lenox Club 15-15 and 15-15, and will meet the winners of the Phi Sigma Alpha B.W. game.

Game with Andover

In their second game of the week, the M.I.T. Lacrosse Team looked good in a forewarned contest that ended with a win in a game for the championship of the tournament. The Techmen acored their highest total of goals in a game for this season, but they lacked the defensive spark that was the key to their first game. The I.T. boys made few errors and were able to win the game by a score of 14-7.

At the outset of the game, the Techmen looked ready to break the deadlock, and the lead increased over the first half. The I.T. boys forced the game after two minutes, and the Techmen were unable to make up the deficit.

Andover Goes Ahead

In the second period, the I.T. dropped behind the pace, as Andover was able to make a few errors and keep the Techmen on the pin. The I.T. boys were scoring Tech’s lone goal of the second half. The lads did not see Tech in an one-man breakaway, and the second half was won without a fight. The Techmen and the I.T. boys were able to win the game by a score of 14-7.

The Techmen were able to score five goals in the first half, and the I.T. boys were only able to score two goals. The I.T. boys were able to score another goal on the Techmen in the third period, and substitute Don Walsh, on his first two man game, saw Tech’s second goal against the I.T. boys. As the Techmen, they accounted for eight and five goals in the first half.

Field Event Stags

And the field events have their share of action. Andover’s thrower George Upton, high jumper Dickie Schwab, and broad jumper Chuck Chabot are all members of the winning team.

Captain Bud Bryant, who will run the 880, inside a strong team that should be very good this year. Biddled by veterans of cross country and winter relay teams, running events are packed with each race as big as Harry, Miki Hollis, Dave Bailey, Artie Schwartz, and Captain Bud—the memory, only a few who have been running all winter.

H baskinz, on a one-man rampage, scored four goals, and followed with another in the fourth quarter. The boys have worked well and been balanced, and have not lost any game since.

PhOmega Sigma Delta is not too quick to commit himself, but he is the man, and his skills will be put to the test against the winning team.

For Northeastern H. Austin will probably stand out in the long sprints, but Hurst and How in the Hambletonian and mile sprints will be strong on the teams.

The Beaver entries for tomorrow: 115-12 and 15-7 in the Boston Dinghy Cup Regatta. The Kappa Sigma bow won the top honors, and the Boston Dinghy Cup Regatta For Northeastern E. N. Austin will probably stand out in the long sprints, but Hurst and How in the Hambletonian and mile sprints will be strong on the teams.

Tech Embassy Holds Ambassador

Dean Prescott War

The eighth annual Tech Embassy was held on April 18 in conjunction with a meeting in (('Red Bull','400') at 12 Parkman Street. The event featured a special guest speaker, Dr. Donald E. Stiles, President Emeritus of the American Society of Civil Engineers. Stiles's talk focused on the importance of technology in addressing global challenges and its role in shaping the future. Among the attendees were students, faculty, and alumni from the Institute.

Champagne Gifts To Three Winners

Queen Shall Receive

Burl Bondy Bracelet

(Cut from Page 1)

Antebellum the judges will choose the winner.

Piles of a bottle of champagne on the silver will be given the three high

voted to arrive. In addition to the champagne, a bottle of whisky is also

given, and an identification bracelet will be awarded to each winner.

According to Bryan, the Badge Committee has sold all the tickets available for the dance. However, tickets are still available for those who want Service and other causes, have never been sold for the same.

Those who desire tickets should contact with Bryan! W. Boys, 12 Bay State Road, who can direct them to some person who desires to sell a ticket.

Math. Society Elects Officers

The Mathematics Society recently elected its new officers. They are: President, William M. Whitcomb; Vice President, William H. Whitcomb; Secretary, William B. G. Smith; Treasurer, Gladys S. Simons. At the closing meeting in May the officers for next year will be elected.

Memorandum Society Holds First Academy Dance

The Memorandum Society will hold its first academy dance of the term on April 19, at 9:00 p.m. at the Wilbur. See page 42 for further details.

Latin Americans Celebrate April 14 In Program Radio

On the night of April 14, the Latin American Student Association will hold a radio program over the Yankee network. They have been working on their program for some time and have mastered this half hour in order to make it all the more enjoyable. They have formed on Tuesday evening.

Well-come will be the scene of the evening's activity as far as the Outdoor Club is concerned, especially on that night for the O.C.A. Circle is to be held during the period of Hillel Foundation, located in Room 102-B, at 4:00 P.M. Invitations are extended to interested persons to attend.

Drumshop

The stage management for the production has also been

accomplished. This will include: Prop Maker, Joseph J. Gordon, 2-43; Sound Engineer, Edward C. Ochida, 4-01; Lighting Engineer, Robert S. Chandler, 4-54; Sound, Dr. Albert P. Schenck, 2-46; Showman, D. J. S. Fligner, 10-46; Showman, M. D. Fligner, 10-46; Showman, J. R. Fligner, 10-46; Showman, H. D. Fligner, 2-46, and Philip J. Boland, 2-46; Publicity, Dorothy Fligner, 2-46; Promoter, William F. Creed, 2-46.

Changes in Staff

Several changes in the staff have been made. Johnny Coxe will now be John J. Coxe, 2-49; Nick Potter will now Robert W. Connor, 4-01; Bertram Cox will now William M. Whitcomb, 4-01, and Henry now James S. White, 2-46.

Mr. John C. Leslie Speaks For L.A.E.

*The Institute of Astronautical Sciences announced a special meeting to be held Thursday, May 5, at 8:00 P.M. in Huntington Hall, Room 102-B, Mr. John C. Leslie, operating manager of P.S.A. American Airlines, will speak on "Airports of the Future."

The American Airlines has predicted a rapid expansion of American air force on airport construction, a major factor in the development and building of new airports. The airport is the interesting person is, curiously enough, in too good a situation to let it go.
