

TECH VICTORIOUS IN N. E. MEET

Munroe, Wood, Hayden Halls Reopen July 1

Plans To Reorganize Dormitory Committee Are Now Underway

Munroe, Hayden, and Wood halls of the undergraduate dormitory unit, now occupied by cadets of the A.A.F.T.T.D., will be opened to civilian undergraduate students as of July 1, it was announced early this week by Professor Leicester F. Hamilton, Chairman of the Dormitory Board. Goodale, Bemis, and Walcott halls, which are now occupied by a mixed group of graduates and undergraduates, will remain open to civilians as a Graduate House. Professor Hamilton also stated that plans are underway to reorganize the Dormitory Committee on as near a pre-war basis as possible. This reorganization will probably be effected in August.

Room Assignments

Assignment of rooms in the undergraduate houses will be in order of application, with priority being given to those undergraduates already living in the dormitories who apply on or before June 1. Assignment will be made on payment of a deposit covering rental for four weeks beginning July 3; at the \$6.00 a week rental which will be in force, (Continued on Page 4)

Over 300 Frosh To Enter Institute

List Of New Students Now Available At TCA

Some 350-400 students are expected to enter in the new freshman class coming in on July 10, according to Professor Paul M. Chalmers, Assistant Director of Admissions. Actually almost 600 students have been accepted for entrance in July, but cancellations due to the draft and to some of the new freshmen's joining of the Navy training units are being received every day. The incoming class will be somewhat smaller than several previous classes, although it is considerably larger than that which entered this March. This will be the first time, moreover, that a full class has been received only one term after the previous class had entered.

Lists Available

Lists of the newly admitted students are available at the T.C.A. office. These give the names, home addresses, religions, and dates of birth of the new students. Each fraternity may receive one copy of the list free; others may obtain the list at \$15 per copy, the cost of mimeographing. Under no circumstances is the list to be used for commercial purposes.

Debating Society V-12ers Will Enter Tournament

On the weekend of May 28, there will be an unusual debate at Williams College. Several colleges, including Bates, Dartmouth, Middlebury, Amherst, Williams and M.I.T., will enter teams in an all V-12 debate. Representing Technology will be two teams. The first will be composed of Donald L. Wallace, 2-46, and Herbert J. Hansell, 2-46; the second team will be composed of Bruce A. Lamberton, 2-44, and Vigdor W. Kavalier, 2-46.

On June 7, the Debating Society will debate Vassar College at Technology. Details will be announced later.

Homberg Infirmary Returns To Former Quarters In June

Professor Lawrence B. Anderson, Course IV, architect in charge of the work being done on the Homberg Infirmary, said last night that the infirmary could move back into its renovated quarters sometime next month. He clearly indicated, however, that the date was not at all certain, but that it hung upon the reception and installation of equipment which has long been delayed because of the war. The infirmary, located temporarily in the Emma Rogers Room, 10-340, was expected to move back by the beginning of April.

The new infirmary has been both expanded and modernized. Every room on the first and second floors has been remodeled. Rooms have changed their positions, corridors have been added, and even staircases have been built within Building 11. A new eye clinic has been formed on the first floor.

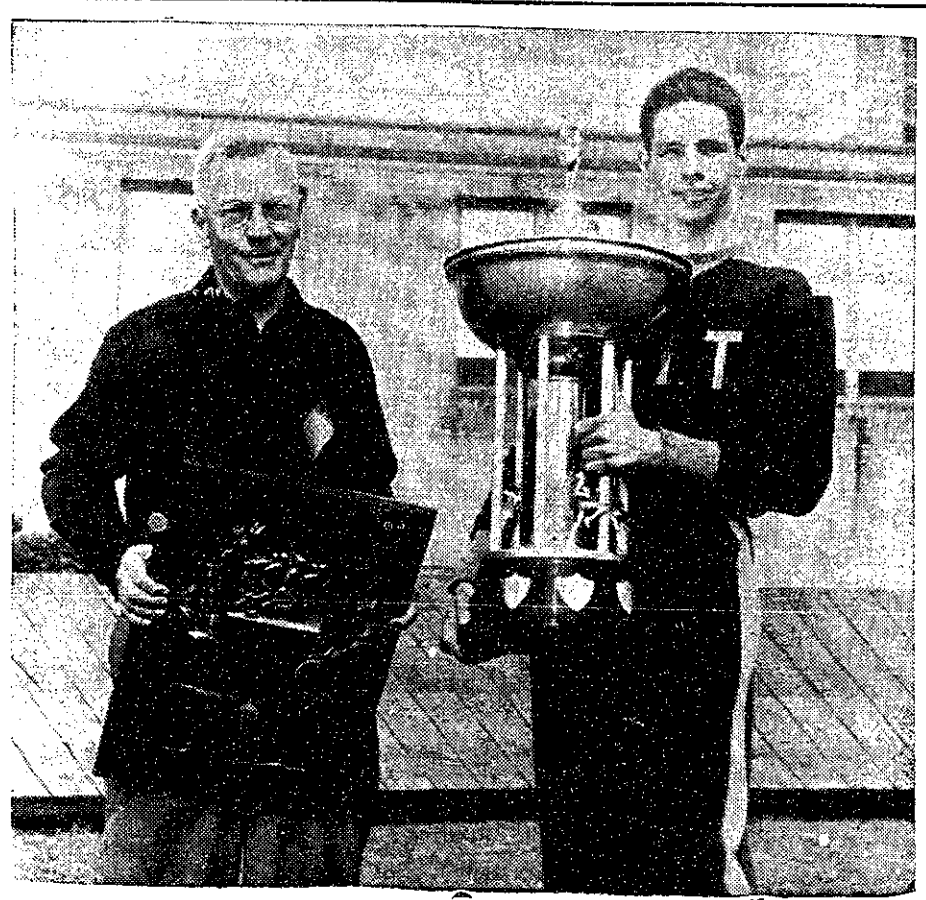

T.E.N. Banquet Will Commemorate 25th Anniversary

Special Issue Ready For Sale Next Tuesday; Honors Dr. Compton

At a banquet to be held next Monday evening at the Statler Hotel, Tech Engineering News will commemorate its twenty-fifth anniversary. The speaker for the evening is a former business manager of Voo Doo; today he is the general manager of the Christian Science Publishing Society and publisher of the Christian Science Monitor. Among those present will be Dr. Compton, Dean Lobdell, James R. Killian, and Professor F. G. Fassett. The general managers of the other publications and the president of the Senior Class will also attend. A special issue of T.E.N. will be

Tufts Is Second By Half Point As Fourteen Colleges Compete; Two M.I.T. Men Take Firsts

SPOILS OF VICTORY

Track Coach Oscar Hedlund and Captain Bud Bryant displaying trophies won in Saturday's track meet.

Third And Fourth Placers Are Big Factor In Win

A huge silver trophy appeared this week on the table in the Briggs Field track office, where Coach Hedlund begins and ends every day. The trophy is the only tangible result of his team's victory last Saturday afternoon in the New England Inter-Collegiate in which 14 colleges and over 250 athletes entered. The Beavers edged Tufts by a one-half point margin, 32½-32; Brown followed with 25 tallies.

"There is not any one man on the squad responsible for that win," Oscar said, "but our 32½ points were spread out among 15 men; those thirds and fourths won the meet for us." Then the sun-tanned mentor pulled some really amazing figures out of the hat. The Beavers grabbed 4 thirds and 7 fourths, and only 2 firsts, and 2 seconds and 1 tie for second. On the other hand Tufts had very much more weight up front with 3 firsts, 3 seconds, 2 ties for second, 1 third and 2 fourths for a total of only 11 scorers.

Only One Record Broken

Only one record was smashed in the course of the meet, and that was smashed in very fine form by Brown's Herb McKinley as he distanced the quarter in 48.3 seconds.

(Continued on Page 3)

put on sale on about the twenty-second of this month. One of the most interesting articles is "History of Technology" by Professor Charles E. Locke; it covers the development of M.I.T. from its beginning to the present date. Other articles in the issue are: "This Is M.I.T. — Aeronautical Engineering," "C.H.O. — Scourge of Scurvy," "Desert Discovery," "Food Processing Goes to War," "High Vacuum," and a special anniversary feature, "After Twenty-Five Years."

The Tech-voo doo Game Shifted To Brookline

So that Ken Scheid and Cort Ames won't have to be carried so far back to the Sig house at the end of the afternoon, the THE TECH-voo doo baseball game (?) has been moved to Amory Field in Brookline. The time is still 3:30 P. M. tomorrow and all bloodthirsty Tech-men are invited to come and see the cat's gang get theirs.

I.F.C. QUEEN CHOSEN AT STATLER DANCE

Jan Savitt Plays Queen Ellen Van Deusen Dancers Jam The Floor Judges Look Them Over

Phi Sigma Kappa carried away the top honors in the Interfraternity Queen contest, held last Friday night at the I.F.C. dance, with their entry, Miss Ellen Carol Van Deusen, escorted by Edward H. Bow-

man, 2-46. The runner-ups were Miss Beryl Batten, representing S.A.E. and Miss Jane Mackensie, representing Theta Chi, both of whom were tied for second place. The winner received, in addition to a bottle of champagne, a gold

identification bracelet, engraved with her name and announcing that she was elected M.I.T. Interfraternity Conference Queen for 1944. The fraternity she represented received a large portrait of their entry, suitably framed.

Last ASME Talk Set For Thursday

Prof. Taylor To Finish Jet Propulsion Series

The third and last lecture of the current series on "Jet Propulsion," sponsored by the American Society of Mechanical Engineers, will be given on Thursday, May 25, at 5:00 P.M. in Huntington Hall, Room 10-250. At that time Professor C. Fayette Taylor of the Mechanical Engineering department, will speak on the applications of jet propulsion to aircraft.

The first two lectures of the series were given on Thursday, May 11, and Wednesday, May 17, by Professors Joseph H. Keenan and C. Richard Soderberg. Professor Keenan's lecture was given in Room 6-120, which was far too small to handle the crowd of about 300. The other two lectures were, therefore, moved to Huntington Hall.

Technology V-12 Band To Hold Concert Sunday

A Pops Concert is to be held by the Technology V-12 band this Sunday in the Great Court at 6:30 P.M. in front of Building 10. The band has been practicing twice a week for a year under the leadership of bandmaster Gilbert K. Krulce, 10-44, a former professional trumpeter, and is now ready for its first public appearance.

The program will consist of classical, semi-classical, and popular music. "The William Tell Overture," "Stormy Weather," "Showboat," "Stars and Stripes Forever" and selection's from "The Student Prince" are just a few of the many selections to be offered. The concert is free to the public.

TENTATIVE EXAM SCHEDULE

MONDAY, JUNE 19—9 A.M.

1.561	Adv. Struct. Theory	Fife
2.01	Applied Mechanics	L. S. Smith
2.04	Applied Mechanics	MacGregor
2.042	Applied Mechanics	MacGregor
2.06	Applied Mechanics	Atkins
5.41	Org. Chemistry	Gibb
6.511	Elec. Power Circuits	Levinson
8.01	Physics	Sears
8.012	Physics (College Tr.)	Goodman
8.012N	Phys. Measurement	S. C. Brown
8.04N	Distil. & Absorption	Goodman
10.45	Adv. Calculus	Meissner
M36	Special Examinations	Douglass

MONDAY, JUNE 19—1:30 P.M.

1.41	Theory of Struct.	Mirabelli
2.081	Applied Mechanics	Soderberg
2.256	Fluid Mechanics	Rightmire
3.20	Metal Thermodyn.	Chipman
6.031	Prim. Elec. Eng.	Lyons
6.561	Elec. Network Th.	Gillemin
7.81	Enzymology	Sizer
10.18	Industrial Chem.	Meissner
10.203	Industrial Chem.	Meissner
13.54	Marine Eng.	F. M. Lewis
16.13	Airpl. Stability & Control	Koppen
E21	Lit. & History (Dev. of Amer. Civil. Option)	Rae

MONDAY, JUNE 19—5 P.M.

N1N	Naval Organization (One Hour)	Faucett
N2N	Naval Organization (One Hour)	Faucett

TUESDAY, JUNE 20—9 A.M.

1.571	Stat. Indet. Struct.	Wilbur
1.811	Sau. Eng. Adv.	Stanley
2.551	Power Plant Eng.	Taft
5.01	Chemistry, Gen.	Wareham
5.02	Chemistry, Gen.	Wareham
6.45	Electrical Eng.	Kingsley
7.14	Comp. Anatomy	Blake
8.411	Nuclear Physics	R. D. Evans
10.25	Indust. Chemistry	W. K. Lewis
Ee11	Economic Prin.	R. E. Freeman
Ee12	Economic Prin.	R. E. Freeman

TUESDAY, JUNE 20—1:30 P.M.

1.25	Eng. Construction	Breed
6.19	Elec. Eng., Fund.	Fitzgerald
6.31	Elec. Com. Prin.	Radford
6.43	Electrical Eng.	Kingsley
8.511	Thermo. & Stat. Mech.	Tisza
10.31	Chemical Eng.	McAdams
M21	Structures	Hitchcock
M21	Calculus (Civilians only)	Zeldin
M22	Diff. Equations	Zeldin
M23	Th. & App. Elas.	Reissner

TUESDAY, JUNE 20—5 P.M.

1.481	Soil Mechanics	D. W. Taylor
2.43	Heat Engineering	Keenan
5.42	Organic Chem.	Ashdown
6.58	Trans. in Lin. Sys.	Gardner
7.301	Bacteriology	Horwood
8.002N	Physics	Kent
8.03	Physics	Page
8.03	Physics (VIII, XVIII)	R. D. Evans
8.461	Inf. to Th. Physics	Feshbach
10.33	Anal. Treat. of Chem. Eng. Processes	Sherwood, Meissner
13.13	Th. Warship Des. Special Examinations	Keith

WEDNESDAY, JUNE 21—9 A.M.

2.00N	Anal. Mechanics	L. S. Smith
2.31	Eng. Materials	Kyle
3.141	Anal. Chemistry	Gibb
6.021	Radio Lines, Ant. & Prop.	Fano
13.01	Naval Arch.	Manning
15.61	Law of Contracts	Schaefer
E14N	Hist. Back of Pres. World War II	Roberts
E22	Lit. & History (Dev. of Amer. Civil. Option)	Rae
M5N	Math. Analysis	Douglass
M12	Mathematics	Douglass
M31	Diff. Equations	Manlin
M77	Vector Analysis	Hitchcock

WEDNESDAY, JUNE 21—1:30 P.M.

1.491	Soil Mechanics	D. W. Taylor
2.011	Applied Mechanics	L. S. Smith
2.40	Heat Engineering	Svenson
2.41	Heat Engineering	Taft
2.42	Heat Engineering	Svenson

M21	Calculus (Navy only)	Hitchcock

"Marines Under Fire"! Is Now Exhibit In Building 10 Lobby

Now on exhibit in the Main Lobby is a group of pictures entitled "Marines Under Fire." These pictures were all done by members of the United States Marine Corps, while they were fighting on the Pacific war front. The exhibit is circulated by the Museum of Modern Art, in New York City, and will continue to run until May 31.

All of the pictures, with the exception of two oil paintings, were done by regular members of the Corps. Some of the men were formerly professional artists in civilian life, but many were completed by amateurs.

Of the fifty pictures, the one which has caused the most publicity is "Stretcher Party." The picture was printed in Life, and the story as originally printed was that the artist was unknown. The pencil sketch was found in an ambulance behind the front lines during a battle on October 8, 1942. The sketch is dated that same day, but the blurred signature could not be read. All efforts to identify the artist, according to Life's story, had failed. It was assumed that the artist was either wounded and drew the scene while waiting to be treated, or that he carried stretchers during the battle and was killed in action.

When this sketch was printed, the artist, Pfc. Elmer S. Smith, Jr., who was alive and stationed in the United States, wrote to Life claiming he was the author. He

said that he drew the picture in a foxhole on the cardboard of an ammunition box. He submitted several of his other sketches to the Marine Corps, and they agreed that he was the artist who sketched "Stretcher Party."

The other pictures are grim portraits of the battles on Guadalcanal. They should serve to show everyone the horrors of modern warfare.

Outing Club Plans May 28 Beach Trip

White Mountain Hike Planned For Vacation

Next Sunday, May 28, the M.I.T. Outing Club will take part in an I.O.C.A. beach trip, which will be run by the Radcliffe Outing Club. The trip will be out to Ipswich Beach and will last from whenever the Outingclubbers get there until 6:00 P. M. or 8:00 P. M., when there will be trains running back into town.

During the vacations, the Outing Club is planning to sponsor a hiking trip into the White Mountains. The trip will last about a week, starting June 24. Details are to be announced later.

A songbook, prepared by the I.O.C.A., is on sale at the M.I.T.O.C. office during regular office hours. This book contains numerous community songs sung all over the country and known well by every outing club. The price is fifty cents.

Rings Bought By Most of Juniors

\$3 Deposit Paid By Approximately 200

Approximately 200 members of the class of 6-45, which represents a large majority, have bought their class rings. This was revealed by the president of the class Gerald L. MacKinnon, Jr. The rings had been on sale on Thursday, May 11, from 11:00 A.M. to 3:00 P.M. and on Monday, May 15, from 11:00 A.M. to 2:00 P.M. The whole price did not have to be paid at one time. Instead, a three-dollar deposit was required since the rings will not be ready until this September.

Any members of the Class of 6-45 who are eligible to buy rings, can still obtain them by going to Balfour's at 230 Boylston Street. They must bring some identification with them and should preferably go before June 1. George E. McKewen, Jr., Ring Chairman, has a list of all the eligible Juniors. Members of the Class of 6-45 can find out whether they are eligible to buy rings by contacting McKewen in Room 405-C at the Graduate House.

S.C.M. Will Hold Annual Meeting

Delegates are needed to represent the Institute at the annual conference of the Student Christian Movement in New England, to be held at Camp O-At-Ka, East Sebago, Maine, from June 19 through June 26. It is hoped that, even though many students will have final examinations during part of the week, we will again be represented by a large delegation. Last year Technology was represented by twenty-three men, the largest group from any men's college.

A meeting is to be held this afternoon at 5:00 P. M. in the T. C. A. office to discuss the conference, according to Allen C. Crocker, 6-45, who will head Technology's delegation. The registration fee for the conference is \$6.00, and room and board for the week is \$13.00, a total of \$19.00 plus transportation for the entire week. The T. C. A. will, however, give financial aid to some students in the delegation.

Inter-University Meeting Planned For May 26-28

Professor George de Santillana and Dr. Karl W. Deutsch, both of the Institute's department of English and History, will be among the prominent speakers at the New England Inter-University Institute's conference which is planned for the weekend of May 26-28. The general subject of the conference will be "Education and Peace." Other speakers will include Rev. William J. Murphy, President of Boston College, and Erwin D. Canham, Editor of the Christian Science Monitor.

After a Friday evening banquet, the conference will open with a meeting at Boston University's Hayden Memorial Hall at 10:00 A. M. Saturday. Some of the topics which will be covered are: The Problem of Education of Returning Veterans; Broadening the Opportunities for Education in our National Life; and the Possibility of Re-educating Axis Nations. On Sunday, a mass inter-faith meeting will be held at Symphony Hall with prominent religious speakers.

All persons interested in these meetings are invited to attend. Those who desire further information about the conference should contact Hendrik Bruynes, '39, in Room 4-315.

Dormitory

(Continued from Page 1)

the deposit will be \$24.00. Reservations may be cancelled and deposit refunded in full upon written notice to Mr. Dow, Manager of the Dormitories, before July 1.

From July 3 to July 15, students who move to recognized fraternity houses will be refunded any payment that has been made less a \$6.00 charge for each week of occupation. Others who wish to leave the dormitories and who do not contemplate leaving the Institute will be charged an additional \$10.00, unless another student is on the waiting list to assume immediate occupancy. If a student leaves the Institute or joins a co-operative course, a refund on a weekly basis will be allowed.

The standard rental for rooms in Munroe, Hayden, and Wood is \$6.00 a week, payable in units of \$24.00 for four weeks in advance. Those who desire to pay for the academic year in advance (35 weeks) should pay \$105.00 before June 28 for the first term and \$105.00 before the start of the second term.

Boston, Massachusetts

Sunday Services 10:45 a. m. and 7:30 p. m.
Sunday School 10:45 a. m. Wednesday evening meetings at 7:30, which include testimonies of Christian Science healing.

Reading Rooms — Free to the Public,
333 Washington St., opp. Milk St., entrance also at 24 Province St.; 84 Boylston Street, Little Building, Street Floor; 60 Norway St., corner Massachusetts Ave.; 1316 Beacon Street, Coolidge Corner. Authorized and approved literature on Christian Science may be read or obtained.

Catholic Club To Hold Acquaintance Dance

James J. Healy, 10-44, Vice-President of the Technology Catholic Club, opened the weekly meeting by announcing that an acquaintance dance is to be held tomorrow night at 8:00 P. M. in the 5:15 Cclubroom with girls from Radcliffe College for members only.

After making the announcement, he introduced Father Stapleton, a professor at St. John's Seminary in Brighton, who gave his last in a series of lectures on the Bible. In the preceding lectures, Father Stapleton had discussed the Old and New Testaments; and in this lecture he discussed the various versions of the Bible by the different faiths. He also gave a talk to clear any general doubts concerning the Bible.

Have a Coca-Cola = Eto Zdorovo

(HOW GRAND!)

...or how to make foreign flyers your friends

To visiting Russian and British Allies, the good old American invitation Have a "Coke" says We're with you. And in your home, there's no finer welcome to friends than Coca-Cola from your own refrigerator. Coca-Cola stands for the pause that refreshes,—has become a symbol of democratic friendliness to people around the globe.

BOTTLED UNDER AUTHORITY OF THE COCA-COLA COMPANY BY
COCA-COLA BOTTLING CO. OF BOSTON

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".
