Staff Elections For The Tech Are Announced

Eleven Men Promoted To Junior Board From Sophomore Positions

Nine men were promoted to positions on the Junior Board of The Tech for the year 1944-45, and two were added to the staff as a result of elections held this week. The promotions were made by both the Business Department and were based on ability since 1943 for the men during the past year.

Several of the new promotions in the Business Department were: William M. Nunes, 2-46, News Editor; William V. Frazier, 2-46, Assistant News Editor; and Noel S. Carlson, 2-46, Advertising Assistant. In the Photographic Department, Charles E. Lawlor, 2-46, was elected Photographic Editor and in the Business Department, Jack G. Phillips, 2-46, was elected a member of the Staff.

New Staff Assistants

Administration of the Department of English was transferred to Robert S. Money in the Photographic Department. Robert S. Money, who was in charge of the Staff from the News Department while working during the war, has taken charge of the department.

The following changes have been made in the Staff Department: Robert S. Money, 2-46, was elected News Editor; William V. Frazier, 2-46, Assistant News Editor; and Noel S. Carlson, 2-46, Advertising Assistant.

Professor Kent Passes At Home

Professor Morton A. Kent, a visiting professor, died this week in his home at his residence. He had been teaching in the Department of English at the Institute since 1925.

Before coming here to teach, he had taught at Boston University for many years and had retired, after which he remained in some of his activities. Professor Kent was always very active in the Student Government and his office on the third floor of Walker Memorial was a great help to students.

Finals Force No Issue Of The Tech Next Week

There will be no issue of The Tech for next week due to the rapid approach of finals, except for a few stories remaining until the final exam period. The final exam period, which is expected to be about 10 days, will begin Thursday, December 1, and continue until Friday, December 15. The deadline for submission of materials to the school paper this week is Thursday, December 1.

V-12 Unit To Hold Anniversary Ball This Evening

Boyd Rahnburg To Play For Orchestra; Vocalists Featured

Tonight at 8:00 P.M., Boyd Rahnburg, 2-46, Manager of the V-12 Unit, and other members of the V-12 Unit, will hold an anniversary ball in the Student Union. The ball will continue until 12:30 A.M. The V-12 Unit will be featured in the program, and Boyd Rahnburg will play for the orchestra. Vocalists will also be featured.

Commissions Presented To 237 Air Corps Meteorology Cadets

Two hundred and thirty-seven weather officers, who have taken the Institute’s special course in Meteorology and received their commissions, graduated on Monday, January 23, in Comstock Memorial Hall. The impressive ceremony marked the completion of eight months of intensive instruction in the weather officers’ course. The ceremony was attended by about 500 students and guests.

The commissioning ceremony was followed by a dinner in honor of the newly commissioned officers, who were hosted by the Harvard Air Forces, Eastern Technical Training Command, and the Harvard University Air Forces, Eastern Technical Training Command.

Major Loomis Leaves Institute

Major William T. Cameron, Cornell University, left the Institute’s Military Science department to go to the University of Virginia, where he will take courses in the Army’s Reserve Officer Training Corps. He was in charge of the curriculum in science, engineering and mathematics.

Major Cameron was graduated from the University of Virginia in 1923 and has been teaching in the Army’s Reserve Officer Training Corps since 1942. After the ceremony, the new commissioned officers flew out of Walker Memorial Hall by a line of enlisted men waiting to collect the newly commissioned officers, who were then driven to the hospital to be given their first medical examination.
No doubt it is a wasteful effort to suggest that everyone try to do their best on the final examinations coming up soon. We hope that you are feeling as well as you can under the circumstances around the Institute of "What's the use of studying? I'll never finish school."

This may be true in many cases, but if you don't finish now you may, and should, finish later. The Institute is revising its curriculum to meet post-war conditions, to be of most benefit to returning servicemen. Besides that, Technology will be a more enjoyable place, with peaceable social circumstances.

Before the next term opens, a number of Technology students will have had to do the armed services. Many will be glad to go, glad of a chance to serve, and assurance which also everyone else in the world is in, since particularly the recent opening of the United Nations. A few will be glad and many who stay in school will not be glad, either. The Institute is revising its curriculum to meet post-war conditions, to be of most benefit to returning servicemen. Besides that, Technology will be a more enjoyable place, with peaceable social circumstances.

May we, at the risk of repeating familiar phrases, remind you who stay and study that while others are serving by fighting, you are the battle right here. Engineers are as important in winning this war as soldiers. President Compton said last Saturday, "This is the most technical of all wars, and it is no exaggeration to say that major battles are won in advance in the scientific laboratories of the United Nations." Scientific laboratories need men who are not afraid to learn all they can to do their bit.

You are who we are, as the best of luck, will you stay, we exhort to do your duty by your country, to learn all you can while training for a vital engineering job. But whichever way you look now you are here with faults coming on. At the moment your duty lies here. Stick to your guns.

Elections

The Managing Board of The Tech is pleased to announce the following elections:

In the Business Department, the following were elected to positions on the Junior Board: Arthur Shaff, 2-46, Circulation Manager; and Herbert A. Prusak, Jr., 1-46, Features Editor; Arnold S. Judson, 2-46, Production Manager; William L. Phelan, 2-46, Assignments Editor; Noel N. Coe, 2-46, Exchange Editor; and Steven J. Miller, 2-46, Recording Editor.

The following persons were elected to Junior Board positions from the News Department: Peter H. J. Spitz, 2-46, Desk Editor; Alan R. Gruber, 2-46, News Reporter, Jr., 2-46, Features Editor; Arnold S. Judson, 2-46, Production Manager; William L. Phelan, 2-46, Assignments Editor; Noel N. Coe, 2-46, Exchange Editor; and Steven J. Miller, 2-46, Recording Editor.

The following were elected to position in the Business Department: Tony C. M. Nunez, 2-46, John V. Schmiesz, 2-46, Joseph A. Stern, 10-46, and Joseph A. Stern, 10-46. In the News Department, John E. Bartell, 6-44, Gregor F. Meyer, 10-46, Harrison E. Rowe, 10-46, Ralph Segal, 2-46, and Roger L. Sisson, 10-46. In the Engraving Department, Henry S. Kopp, 2-46.

Varsity, Jaycees, Launch Boat, Win in Rough Water

M.I.T. swept the crew races with Harvard field last Saturday afternoon. The varsity boat ran away through water and against a heavy wind, not one of the Tech crews reaching the finish line. The varsity heavies just defeated the Crimson varsity by 111/2 lengths in the main race of the afternoon, and the varsity novices or 6 Pat Manning's lights, were well away in the third line with open water between top two. The Harvard boat, the Jaycees and fourth boat also were well ahead.

Vanguard was the Henley. This race was the last by the closest and most exciting one of the afternoon. The boats were neck and neck at the half way stage. The Crimson took about a half length lead on the last hundred yards from three feet of the Tech boat. The Crimson passed the finish line over the Crimson to the finish line. The Harvard boat was a neck and a half length in the afternoon, but the Tech boat was comfortably in a race considered by many to be the most beautiful of the seven.

Jaycees Win Easily

The race between the Jaycees and the Tech was a runaway for the Tech crew. The varsity's 1st boat finished first with the fourth boat second. The No. 4 boat came in last but not before the Tech crew had taken an early lead, but the other races were in contention. Tech has enough to challenge the Jaycees.

The M.I.T. lights finished about two lengths ahead of the Crimson. The Tech boat was second with a crew composed of the men left after those who had completed the season. The varsity was a splendid performance and came in about half a length ahead of Harvard, who had taken a hard race. However, they caught a crab about 30 miles away and returned, after passing the bridge and finishing out three lengths behind the varsity.

M.I.T. Skippers Place Second In Macmillan Cup Elimination

Last Saturday Tech placed second in the annual Macmillan Trophy Regatta. The regatta is to be held at Mayflower Beach, Massachusetts.

The races were held at Coast Guard at New London. The M.I.T. boat, Yale, Harvard and Harvard, lost to Harvard by the slim margin of 1/2 points. The two Tech skippers, Chuck Bloomer and Lee Bright, did some fine sailing and almost won the elimination contest. Bloomer histórico for his consistent winning style throughout the racing season. Coast Guard did not participate in any of the races as they are in a different division.

Tech Takes Second at Coast Guard

Two weeks ago at New London, M.I.T. again placed second in an elimination contest. Coast Guard was first, with Tech second and Harvard last. The race was originally to be held on the Charles, due to high winds. However, only the three minimum entries were there to race and so the meet was called off in an ominous blow.

Chuck Bloomer again starred in this race, while R. O. Smith, an other consistent winner, was the other Tech winning skipper.

The list of entries for the skippers for the dinghy is as follows:

Dishing — Dusett, Atkinson, Green, Compton, Dickey (M); Cameron (Kirkland), Boisvert (Me), Smith, R. V. Horten, Powell, Maxwell

Basing — Grant, Ayling, D. Black

M.I.T. Line-Up for M.I.T.

Dartmouth Victorious

9.3 In Return Match

With every member of the squad present for action, M.I.T. skippers closed their season last Saturday afternoon at Bragg's Field. Their opposition was a strong Dartmouth aggregation which had previously defeated Tech by a 1-5 count. The Dartmouth Green again took a victory, but the final score of 8-8 came through with a bonus engagements between the two teams. The loss of the final game, which would have won the Tech record for the season, was not as bad as it looked at first, and the six boats. Victory trophies were presented to the winning skippers. The varsity winning skippers were Davidoff, Buss, and Meduski; the jayvee skippers were Palone, Black, and Noriega. The varsity's record stood as four won and none lost.

Schlachter Wins

The following day saw the M.I.T. Team go down to defeat in the first week of vacation a canoe trip away for the team this season, as they went away in front of the class of the Harvard men left after those who had competed throughout the season and proved to be one of the outstanding college crews of the year.

The M.I.T. lights finished about two lengths ahead of the Crimson. The Tech boat was second with a crew composed of the men left after those who had completed the season. The varsity was a splendid performance and came in about half a length ahead of Harvard, who had taken a hard race. However, they caught a crab about 30 miles away and returned, after passing the bridge and finishing out three lengths behind the varsity.

Winning this climax, Harvard, brings to a glorious conclusion the 44th annual regatta of the M.I.T. crew. This win goes officially into the book as the M.I.T. crew. The Crimson men have given their finest coaching job and plenty of hard work in training the men and developing the boat. The Crimson rowers are looking forward to next Saturday, when they go to Pat Manning whose crew will have the same amount of experience as the Tech crew.

For those who cannot afford all the credit in the world for a great run, there are also those who have just done a splendid job of work in training the men and developing the crew. The Crimson men give their best. They worked hard last Saturday. They did not work a running race, but rowed their hearts out and wound up ahead of the season var-

ly. Much credit must be handed to Doc Hallman, who managed the crew during the latter part of the season. He did a great job in helping the Skipper, Coach Bloom, with the crew duties.

The first place performance was in turn performed by the Crimson, and they all have great things to look forward to next year. Pat Manning was very contented with the Crimson men, for they rowed a splendid race over the Shawmut and the Charles River.

The race started at 2:45 P.M. and the Crimson men were out of the line before the Tech men, who came in second. The Crimson won by 111/2 lengths. Pat Manning's crew were in the second place, the Tech jayvees in third place, and the Harvard jayvees in fourth place.

Wednesday's game saw Section 5 take an early lead. By the end of the first half, Section 5 still held the lead. Don Hiller, of Allston, grabbed two. Section 6 for the final two innings, but couldn't pick up a couple of more runs.

Dr. Compton Announces Changes In Curriculum

The new schedule provides for a standard curriculum for all freshmen students. The second year program in humanities and social sciences has been expanded as a separate undergraduate major. Under the new plan the work of the first year will be devoted to English with emphasis on writing and expression. The work of the first year will be a typical pre-war year, 1949-50.

The new schedule provides for a second year curriculum to meet post-war needs, and to prepare students for professional work. The curriculum was composed of certain options. There was also a reduction in the variety of courses offered in the second year curricula.

There is a character who got a heart like his name. To him a Nip in the trees is a notch in his gun. Me, I've got the hottest pin-up collection in the Pacific but does it get me anywhere with Trig? No!

Even when I try to smooth one of his Chesterfields I have to find him a whole nest of Nips to pick off. But then... the Colonel says we make a swell Combination...

Dr. Compton Speaks On Tech Night

The presence of William Barton Rogers was a pioneer in the field of education. Even as early as 1865 when the Institute was founded, he was quick to mention the importance of courses that have long been included in the curriculum. His contributions to fields of thought and international relations must do so at once. There is a need to go to the professional work. Many objectives and purposes of those students who hold high military and government posts. Dr. Compton re-emphasized that the scientists and engineers must do so at once. There is a need to go to the professional work. Many objectives and purposes of those students who hold high military and government posts. Dr. Compton re-emphasized that the scientists and engineers must do so at once.
