PRICE FIVE CENTS

Prof. Schaefer Is Toastmaster At Tech Smoker

Ceremonies Include Walker Key Presentation By Alumni Chrmn. Stevens

Professor Albert A. Schaefer, of the department of Business and Engineering Administration will be the toastmaster at the All-Tech Smoker to be held on Monday, August 14, at 6:30 P. M. in Morss Hall Walker Memorial, it was announced by King Cayce, 10-44, chairman of the smoker committee. Professor Schaefer will introduce Karl T. Compton, President of the Institute, as well as other prominent speakers most of whose names have as yet been withheld. At the Smoker, at which the members of the Classes of 10-46, and 2-47 are guests of the Technology Undergraduate Association, Mr. Raymond Stevens, Chairman of the Technology Alumni Association will present a key to Walker Memorial John L. Hull, 10-44, President of

(Continued on Page 4)

Lecture Committee Plans Four Talks

Talks To Be Educational But Non-Technical

The M.I.T. Lecture Series Committee, formed last week by the Institute Committee, is planning a series of four lectures for this term. The committee is trying to get speakers who will be interesting and educational in non-technical fields. At present a number of speakers have been approached but none have definitely accepted as yet. The first lecture is to be held at the middle of August, two weeks in September, and the last in October. The subjects for the lectures have been suggested as follows: National Politics, Foreign Relations, Government Policy, Post-War Problems. The members of the committee are Gilbert K. Krulee, 10-44, Bruce Lambertson, 10-44, Herbert J. Han-2-46, John R. Kirkpatrick, 2-46, Stuart G. Farnum, 2-46. The city advisor is Professor Howard Bartlett, head of the English Department.

Conditioning Program Planned By Phys. Director

Students who are interested in conditioning exercises or recreational games will be assisted if they call at Mr. McCarthy's office, Room 335, Walker Memorial, from 12:00 to 2:00 P.M., it was announced by Mr. McCarthy, Technology Physical Director. Exercises will range from calisthenics to softball and volleyball contests. This program has been planned at the request of many students who feel they are getting "out of shape."

Frosh, Soph Rallies Precede Field Day

Class Designation To Be '47 and '48

Freshman and Sophomore Field Day rallies will be held on Monday and Tuesday, August 21 and 22, a little less than a week before Field Day on Saturday, August 26. A much larger turnout, especially for the sophomores, is expected for these two rallies since class spirit usually runs very high the week of Field Day. At the previous rallies about 400 freshmen showed up at first one, while about one eighth of that number (53 sophomores to be exact) attended the second rally.

S. James Goldstein, 2-46, Field Day Manager announced that during the glove fight, the Sophomores will be the class of '47 while the freshmen will use '48 as their battle-cry. This has nothing to do with Institute designations and is simply used because four different classes will actually participate in the fray.

The list of ushers is to be completed soon and will be announced in next week's issue of *The Tech*.

Teams Begin Practice

Most Field Day teams have already started practice. In general, freshmen have turned out in greater numbers while many sophs seem to be waiting for the last two weeks to get on the teams. The coaches want to emphasize, however, that students who expect to make the respective teams must attend a greater part of the practices in order to become eligible to participate on August 26.

Dormitory Committee Now Being Reorganized With New Constitution

Dramashop Picks Fall Production; Tryouts to Begin

Yesterday afternoon, the Dramashop, at its first meeting of the term, decided to present "Dr. Jeckyll and Mr. Hyde" as its summer term production. It was also decided at the meeting that tryouts for the play will be open to the entire student body and will be held next Thursday and Friday, August 3 and 4. Tentative plans call for the play to be presented at the end of September.

Professor Dean M. Fuller presided at the meeting held in Room 2-178 and gave to the members a brief history of dramatics at the Institute. He cited the lack of a stage and the other difficulties facing the Dramashop, but told of the great interest in dramatics that Technology men have always had.

Play Chosen

"Dr. Jeckyll and Mr. Hyde," written by Robert Louis Stevenson, was chosen by the members from among a group of four plays that included "Arsenic and Old Lace," "Guest in the House," and "Silver Cord."

Professor Fuller is to be director of the production, while the difficult job of casting is to be done by a committee of the Dramashop. Rehearsals are expected to start in about two weeks.

Freshman Council Elections Planned

Nominations for freshman section leaders and alternates are being held this week, and although most of the sections have made their nominations, a few have not yet done so. It is expected that all nominations will be in by tomorrow; elections will be held as soon as possible.

A meeting of the new council members will be held on Tuesday at 5:00 P.M. in Room 10-267; all representatives should attend.

Committee of Seven Plan Elections Soon For Hall Chairmen

A new Dormitory Committee is at present being organized by John L. Hull, 10-44, and a committee of six erstwhile dormitory men to bring the committee back from the inactive list. Hull has been authorized by the Institute Committee to reorganize the committee as well as to revise the constitution of the dormitories to take into account the fact that the Senior House is unoccupied and that the number of men of each class is very unevenly divided among the halls. Hall vice-chairmen will be selected to bring the committee to its usual size.

Hull's committee, which is composed of Theodore R. Blakeslee, II, 10-44; Homer D. Eckhardt, 6-45; Shersing J. Lalvani, 10-44; Robert G. Schmidt, 6-45; Edwin J. Bielecke, 10-44; and J. Spencer Standish,

(Continued on Page 4)

Field Day Dance To Be August 26

The Freshman-Sophomore Field Day Dance Committee, to be composed of fifteen Sophomores and an equal number of Freshmen will begin to work in earnest just as soon as fifteen Section Leaders can be elected from the freshman class.

James S. Craig, 2-46, of the Committee stated that the dance is to be held the night of Field Day, August 26, from 8:00 P.M. to 12:00 P.M., Morss Hall, Walker Memorial. He said the tickets would be about \$2.40 a couple and would go on sale in about a week.

The band which is to play is, as yet, unannounced, and will remain so until about a week before Field Day. This strictly Freshman-Sophomore affair is to be the only Institute dance this summer. About three hundred couples are expected to participate.

POSTWAR PLANNING

The first step of postwar reconstruction around the Institute is now under way, and can probably be held up as an example of the efficiency with which such a job can be done with careful planning. Within a few more weeks the Dormitory Committee should be back on its feet as a governing body. The work of reorganization, started slightly over one week ago, has been made much easier by the interest shown in the organization by Professor Leicester F. Hamilton, and the records which have been kept.

It is these records and the knowledge of the former constitution which have made this rapid work possible. It is similarly the lack of records which may make it very difficult to renovate many of the class B activities which have either had recognition withdrawn or which have died quietly during the war. Some people have said good riddance when some of these ceased to function, but even from this point of view there must be a complete record of which ones have passed by and which ones are still going, as well as where information can be obtained.

In the time of greatest need, these records have been allowed to drop behind. During the middle of last term there was no place which had a complete list of the officers of various activities. Although this situation has been partially relieved, it is a day-to-day job for both the Walker Memorial Committee and the activities themselves to see to it that a record is kept.

As can be seen from the Dormitory Committee example it is important that the information be available. It is also important that those activities which are functioning now let their presence be known so that they may be helped in case the situation gets worse before it gets better for the cause of activities.

In The Spotlight

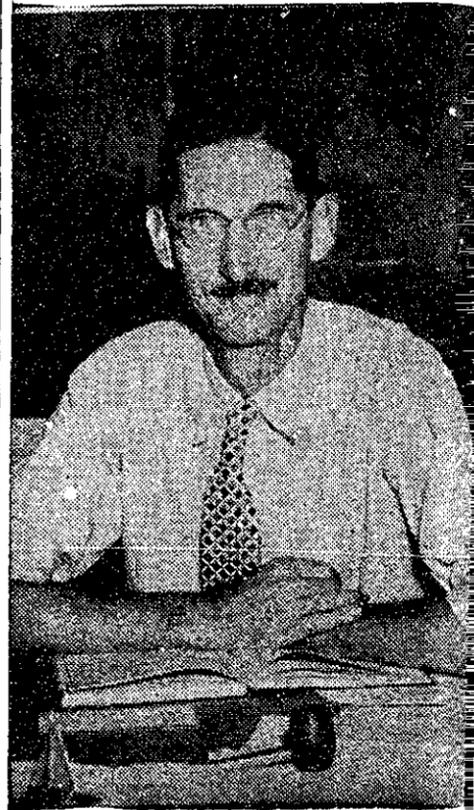

One of the best known and liked figures on the freshman scene is tall and angular Professor Francis Weston Sears of the Physics Department. This is the man who has made 8.01 and 8.02 actually bearable by writing a textbook to replace the more difficult Frank opus. It is even rumored that the freshmen look forward to the said professor's fascinating lectures.

Enters Technology

Professor Sears, a native New Englander (having been born and raised in Plymouth, Mass.), came to the Institute in 1914 as a freshman registered in Course VIII. When the United States entered the war in 1917, Professor Sears went on a leave of absence from Technology for about a year. Following his return he received his Bachelor's Degree in 1921. After graduation, he went to work for the Bell Telephone Laboratories in New York, but in 1922, he returned to Technology and was awarded his Master's Degree in 1924.

Ever since then, Professor Sears has remained at the Institute as an instructor and lecturer in 8.01, 8.02, 8.03, and 8.04. At present, he is in charge of freshman physics, and his textbook on optics is standard for 8.04. He has also collaborated on a physics textbook for high school students.

Professor Sears' two chief outside interests are cabinet making and sailing. He has done a lot in the reproduction of antiques, and according to gossip, he turns out some excellent work. He has also built several boats, the latest being a snipe. The professor has recently acquired a cabin cruiser which he keeps anchored out near Savin Hill.

PROF. FRANCIS W. SEARS

As for sports, Professor Sears is a squash and golf enthusiast. He has been seen many times in the squash courts playing a determined game with Professor Livingston. In addition to these, the professor is one of the regular attendants at the Outing Club square dance. Since he is a true New Englander, the professor dances a mean cotillion.

On the Institute's post-war policies Professor Sears gave a few predictions. He stated that in his opinion there would not be much fundamental change in the basic physics courses. In addition, he expected that there would be a great increase in the registration for Course V because of the greater demand for physicists in industry and research.

For Boys To Play

... the WAC's radio show which has climbed to new heights on Radio Row, formerly "Something for the Girls" on the Blue Network, takes over New England Mutual Hall tomorrow from 12:30 to 1:00 P. M. over WBZ, The National Broadcasting Company.

... rechristened "Everything for the Girls" for its new opening, the program will feature a sure-fire combination of stage, screen, and radio stars to make its initial broadcast an event really worthwhile for those seeking some A-1 entertainment. Charlie McCarthy, Edgar Bergen, and Jackie Searle of motion

pictures will be there, as well as Ralph Wingert's 25 piece Greenfield Band, and many others humorous to mention. Governor Saltonstall and Mayor Tobin have also been invited to attend. Incidentally, the show's success is in no small degree, to its director and producer, Pfc. Ed. Newman.

... free tickets for Saturday show are still available at the office of The Tech and at the sales office but they're going fast. Doors open at Mutual Hall at 12:15 on Saturday but if you want to be sure of a seat you'll be safe to arrive not later than twelve.

Sophs Out In Front In Track

Freshman Spirit Poor For Field Day Relay

The Sophomore class has turned out in full force for the relay which is the track event of field day. Fifty members of the classes of 2-46 and 6-46 have gone all out in the competition for places on the team. Most of the men have been out since practice started, and are rounding into shape extremely well. Many of them have had previous track experience under Coach Oscar Hedlund during previous terms. The majority of them are from the Navy and have additional practice every morning.

On the other hand, the frosh have shown an amazing lack of spirit, with less than twenty men coming out for practice. With just about three weeks to field day, it is evident that a great many more members of the classes of 10-46 and 17 make themselves known to Oscar. He reports that there are some good men out for the team, but places great emphasis on the importance of a large squad.

Do Not Have to Be a "Speed Demon"

The relay teams are made up of twelve men, ten runners and two substitutes. Each man covers a distance of 220 yards and Oscar insists that you don't have to be a speed demon to place on the team. Last year's times were 24 seconds for the fastest 220 and 26 seconds for the slowest. There are many frosh who can meet the requirements and they can show their class spirit by turning out where they are sorely needed.

Tryouts for both class teams will start sometime next week. However, Oscar has made it a firm rule that no man will be even allowed to try for his team unless he has run out a sufficient number of laps. Keen competition is expected for places on the older team as all the aspirants have been out in the past couple weeks.

Sophs Out in Front

According to comments heard from the coach while he watches his proteges in practice, the Sophs should have no trouble at all in executing the run. He is pleased with the work of the men, and can't believe the frosh in their present condition can make the

Tennis Tournament Begins Next Monday

The annual tennis tournament for the M.I.T. championship begins Monday, July 31, on the Walker Memorial courts. Notices concerning the matches are posted on the bulletin board in Building 10. The first round must be played off by next Friday.

This tournament affords an opportunity for all Tech men to compete in a popular sport, find out what they can do, and at the same time try for the school cup.

Veterans Return To Crew Activity

Tech Boats Might Meet Several Crews In Fall

With the return of many of last term's veteran lettermen, the crew season has swung into full stride. Russell, Hoaglund, Jorgenson, Hunter, and other members of last term's varsity and junior varsity boats who were missing the first week, put in an appearance at the boathouse early this week and are rowing regularly now.

The most serious losses from last June are several star-board rowers including Cook and Claire of the varsity, both of whom have left M.I.T. To somewhat offset this deficiency, big John Rudolf, recently a J. V. port man, has changed to the starboard and is making fine progress.

Coxswains Still Needed

Every day seven shells can be seen going up and down the Charles, which together with the scores of men rowing on the machines, comprise a very excellent turnout. The only weak spot is the lack of experienced coxswains, although several of the new aspirants for the position have shown much promise.

At the present time no definite dates have been set for races this term, but it is most likely that there will be at least one, most likely with Harvard.

Slug-Fests Predominate In Beaver Key Softball Contests Last Week-End

Track Men Receive Awards At Dinner

Last night at the Track Club dinner held at the Smith House, Louis McKee was awarded the Technique Cup for the highest scorer of the spring season. Captain Bryant, Bailey, McKee, Goldie, Hollister, and Schwartz were awarded straight "T's."

Captain Bud Bryant acted as toastmaster and the diners heard from Dean Pitre, Professor Ashdown, and Ralph Jope.

Goldie New Captain

At the close of the dinner Charles Goldie was elected to succeed Bud Bryant as captain of the season of 1944-1945, and it was announced that Dick Poorman succeeds Art Schwartz as Cross Country captain.

Tennis Courts Are Available

Eight tennis courts are available for the use of all connected with Technology. Four of these are located just outside of Walker Memorial and four more are at Briggs Field.

There is no charge for the use of any of these courts, but anyone who wishes to use them must sign up personally. Appointments for the courts at Walker can be made with Ed Pung not more than two days in advance; appointments for the others can be made at Briggs Field House not more than one day before they are to be used.

The courts at Walker, which are gravel, are open from 10 A.M. on Sunday, while the cement ones at Briggs Field are closed on that day.

Theta Chi Outpoints Sigma Nu By 10-4 Count Phi Gams In 17-2 Win

Plans for the second section of the Beaver Key Softball Tournament are now underway, with the prospect that games will be played next weekend. At that time the last few games of the first section will probably have been completed, and these teams that were eliminated in the first section of play will receive a chance to try for a place in the round-robin playoff.

In the five games played last week, slug-fests predominated, as heavy hitting and haphazard fielding combined to run the scores to new highs. In a postponed game, Theta Chi spotted Sigma Nu an early lead, but then fought back to win 10-6, as they pounded the ball to all fields. The winners were never seriously threatened, as Don Sillers, Theta Chi pitcher, held the opposition in check, despite some long drives by Farnum and Adams of the Brookline team.

Phi Gams Triumph

Phi Gamma Delta, with three full teams to draw on for substitutes, overwhelmed Theta Delta Chi 17-2, as Dave Trageser burned the ball across the plate, to keep the Theta Deltas off the baselines. Jackson, Stephenson, and Craig paced the Phi Gam attack, which Cappi and Ayres of the opposition tried their best to halt.

Phi Sigma Kappa, with Bowman on the mound, crushed the Student House by a 10-1 count, as seven Phi Sigs crossed the plate in a big second inning. Walt Kulesa, the defeated moundman, looked good both before and after that big inning, when the Phi Sigs put on the

Outing Club Plans Many New Trips

Two Canoe Trips Are Scheduled This Sunday

Continuing its extensive program for this term, the Outing Club has planned many trips for the next three week-ends. This Sunday, July 30 two canoe trips are scheduled—one for Ipswich, and one for Concord. This will be an IOCA outing, with girls from Jackson, Simmons, and Radcliffe, and men from Technology and Harvard. Also on Sunday there is to be a rock-climbing party from Tech and Harvard going out to scale the Quincy quarries.

For the next week-end, a cycling and hiking trip to Lynnwood has been arranged. After dinner the two groups will round off the day exploring underground caverns and dungeons.

Another cycling trip, this time to Joe English Cliffs in Southern New Hampshire, is scheduled for the week-end of August 13. The group will leave Saturday morning and is expected to arrive at its destination by noon. Cliff-climbing is on the program for the afternoon, and the party will camp out that night. Also on the card for Sunday, August 14, is another canoeing excursion for those who were not able to go on July 30.

B. K. Softball

(Continued from Page 3)

pressure, enough to take the game easily.

Lenox Club Wins Slugfest

In the biggest slugfest recorded this year, the Lenox Club outpointed the 5:15 Club to win 19-15. Art Leslie, for the winners, pounded two home-runs in his first two at bats. The game was played under unusual circumstances at Amory Field in Brookline and a good time was had by all.

In the fifth game of last week-end, the Chinese Students Club and the Kappa Sigs, came close to duplicating the Lenox and 5:15 Club scores, as the Chinese Students racked up a 22-11 win. Both teams were pounding the sphere all over the park, and loose fielding aided in raising the totals.

Three or four games are scheduled for next week, as the Phi Gamma Delta outfit will meet the strong Phi Delta Theta team, which has had a week lay-off, after its impressive 27-9 victory over the Pi Lambs. S. A. E. will meet Phi Sigma Kappa, and the Lenox Club will take on the Chinese Students Club. In a possible game, which has been postponed several times, Phi Kappa Sigma will play Phi Mu Delta.

Dormitory Committee

(Continued from Page 1)

6-45; is divided into two sub-committees, one of which is handling the formation of the Dormitory Committee proper and the other is handling the changes in the constitution. These committees met last night to submit their reports to Hull. When these are approved they will be delivered to Professor Leicester C. Hamilton for his endorsement. Then the plans will go to the Institute Committee for final approval.

Revised Constitution

The constitution will be revised to allow Sophomores to fill in on the committee when no Junior hall representatives are available. In the past, Sophomores were not eligible for the committee. A further change will outlaw practically all forms of hazing in the dormitories, except for a few necessary freshmen rules. This had to be done because replacements for damage done during the hazing are scarce and then again the distribution of the classes among the halls is so unfair. The idea now is to have enough rules to make the freshmen organize their class and to unite them more thoroughly, but that is all.

All-Tech Smoker

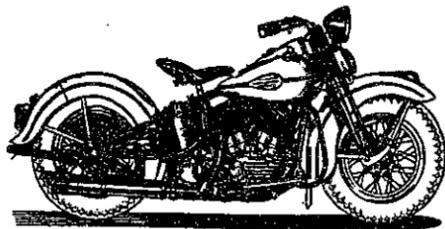

(Continued from Page 1)

the Senior Class. This will symbolize the fact that the Class of 10-44 is now running the Undergraduate Activities at the Institute.

Tickets Obtainable Soon

The All-Tech Smoker Committee headed by King Cayce, and consisting of John L. Hull, 10-44, H. Bruce Fabens, 10-44, David P. Flood, 6-45, Cortlandt F. Ames, 10-44, and Kenneth G. Scheid, 10-44, will announce next week where tickets for the Smoker can be obtained. A large attendance for this traditional affair is expected.

Professor Schaefer is the traditional toastmaster of the All-Tech Smokers, and the committee was very fortunate to obtain his services again this year. Professor Schaefer can relate many anecdotes from his own experience and his familiarity with well-known personages.

Prof. Magoun Gives Last ASME Lecture

On Wednesday afternoon Professor F. Alexander Magoun gave his second and last lecture on the subject "Men, Mules and Molecules" to a group of members of the American Society of Mechanical Engineers.

In this lecture Professor Magoun compared mules to molecules. Mules are affected very much by their "emotions," whereas no amount of abuse or tender love will affect molecules. Men are somewhat like mules in that they react strongly to their emotions.

Menorah Society To Hold Smoker This Afternoon

A smoker for new Jewish students at the Institute is being conducted by the Menorah Society today at 5:10 P.M. in the Litchfield Lounge. The society will announce plans for social and cultural activities for the coming term. It is hoped that dances can be held with Simmons, Radcliffe and Emerson sometime in the near future.

Mr. Judah J. Shapiro, Director of the Hillel Foundation in Boston, will be the principal speaker. Refreshments will be served.

Voo Doo To Sell New Issue Aug. 4

The summer issue of Voo Doo, the Institute humor magazine, will appear August 4 it was announced recently by Raymond Q. Wilding White, 10-44, Editor of the magazine. This issue Phosphorus will feature a sideview on F. Scott Carpenter, 10-44, and a large amount of literary material.

The Voo Doo staff has been augmented by the return of Jack Uretsky, 10-44, after a year of absence with the Navy V-5 program. He previously served as a member of the literary staff.

M.I.T. Catholic Club Hear Talk By Father McKensie

At their last meeting held Wednesday, July 26, in Room 10-9 the M.I.T. Catholic Club was pleased to have as a speaker, Father McKensie of Wellesley, Mass. Father McKensie speaking about "The Courts of Justice in the Church" dealt especially with the subject marriage.

Vice President James Healy, 10-44, announced that a Communion Breakfast would be held this Sunday. Services, which will be held at Saint Cecelia's Church, Back Bay, are to be followed with breakfast at the Hotel Kenmore.
