

# The Tech

CAMBRIDGE, MASS., FRIDAY, AUGUST 4, 1944

PRICE FIVE CENTS

## Junior Prom Ticket Sales Will Begin Wed.

**Tickets To Be Sold In Building Ten From 11 A.M. To 2 P.M.**

Options for the Junior Prom, which is to be held on September 9th, will go on sale August 9, in the lobby of Building 10, opposite the cashiers office; they can be bought from 11:00 A.M. to 2:00 P.M. Wednesday through Friday and the following Monday. On Wednesday the sales will be limited to Juniors only; on other days sales will be open to all students.

The option price is \$3.50 and the remainder of the ticket price of \$6.90 will be paid when the options are redeemed. The new fire rules limit the number of couples that can attend; therefore, the Junior Prom Committee suggests that those who plan to attend the dance purchase their options as early as possible.

The committee will announce in the near future the featured band which will play at the Imperial ballroom of the Statler. Plans are still underway for Saturday evening's entertainment.

## Colons Approve P. Budget

**Donald Buell Receives Budget Committee Post**

The budget for the Junior Prom, which will be held on Friday evening, September 29, was approved yesterday afternoon's meeting of the Institute Committee. Since the motion had not been submitted to Wednesday's Executive meeting, it was necessary to move the agenda before it could be considered.

Cortlandt F. Ames, III, 10-44, moved that the motion to approve the Prom budget be tabled for two weeks in order that some provision might be made to cover a possible financial failure. Robert B. Hildebrand, 6-45, who submitted the budget, explained that arrangements had already been made to begin option sales next Wednesday, and that negotiations for a band must be

(Continued on Page 4)

## Activities Must Present Budgets For Next Year

All activities which desire financial aid for the coming year must submit a budget of their planned expenses to the Budget Committee before Saturday, August 19. It is also necessary that these organizations present a financial report for the past year.

## Election Committee Announces Results Of Frosh Elections

**Freshmen Elect Section Leaders And Alternates For Summer Session**

The results of the freshman council elections, held earlier this week, were announced last night by the Elections Committee. Each section elected a section leader and an alternate, who will represent their section on the Council.

The results of the elections are as follows: section one, Richard B. Davidson section leader, J. Bagrow alternate; section 2, Lewis H. Butler section leader, Watt W. Webb alternate; section 3, Norman N. Holland section leader, William M. Forsythe alternate; section 4, Howard S. Chin section leader, William J. Weis alternate; section 5, Summers O. Hagerman section leader, Henry W. Bullinger alternate; section 6, John E. Hill, Jr. section

(Continued on Page 4)

## Voo-Doo To Hold Smoker On Aug. 8

The official date for that great event of the year, the Voo-Doo smoker, has been announced as August 8th. This affair is for all those Freshmen who are interested in working on the magazine. They will learn something about Voo-Doo and be royally entertained at the same time. This entertainment will be outstanding feature of the afternoon. No information can be obtained as to the nature of the feature attraction but it is guaranteed to be interesting. The affair is to be strictly stag, however.

This smoker will start at 4:30 P. M. in the Walker Memorial gym, but, due to fire laws, there will be no smoking permitted.

## Dorm Committee's New Constitution Officially Adopted

Hall Chairmen and Vice-Chairmen to represent the various halls of the dormitories on the Dormitory Committee were elected August 1 and 2. The results were disclosed last night by the temporary re-organization committee, under whose auspices the elections were conducted.

The Hall Chairmen elected following nominations held Monday are: Lloyd L. Balsam, 10-44, Munroe; Edwin J. Bielecki, 10-44, Hayden; William F. DiZenzo, 10-44, Wood; Sheridan C. Ing, 6-45, Walcott; Robert L. Bryant, 6-45, Bemis; and Homer D. Eckhardt, 6-45, Goodale.

The Hall Vice-Chairmen are: Stanley Goren, 10-46, Munroe; John J. Downing, Jr., 2-46, Hayden; Robert G. Mende, 2-47, Wood; Gilbert Marr, 2-46, Walcott; Richard Cotton, 2-47, Bemis; and T. Nicolas Berlage, 6-45, Goodale.

### Constitution Amended

Several changes had to be made in the constitution and in the Freshmen regulations in order for the Dormitory Committee to function normally. These changes, approved yesterday by the Institute Committee, include a change in Article IV of the constitution, amounting to changing the word "Juniors" to "Undergraduates" for those who are eligible for the committee. Also two graduate student members-at-large were added to the

(Continued on Page 4)

## Dean Prescott To Speak At T.C.A. Frosh Smoker

There will be a T.C.A. Freshman Smoker this afternoon at 5:00 P. M. in the Faculty Lounge in Walker Memorial. The main speakers will be Dean Prescott, '94, Dean of Science, and Harland T. Lewis, of the Roxbury Neighborhood House. Dean Prescott will describe the general work of the T.C.A., and Mr. Lewis will tell of the duties of the volunteer club leaders in the settlement house.

After the meeting there will be a period for questions and discussion, followed by refreshments.

## Stimson's Aide Is Speaker For Frosh Smoker

**President Compton, Members Of Faculty, Will Also Be Present**

Edward L. Bowles, Technical Advisor to Secretary of War Stimson, will be the principal speaker at the Annual Freshman Smoker to be held on Monday, August 14, at 6:30 P. M. in Morss Hall in Walker Memorial.

President Compton, who will also speak, and many representatives of the faculty and administration will be present at the traditional smoker which has been missed only by the class of 2-46.

Mr. Bowles has been Stimson's special aide since he left the Institute in 1941. Besides having been a professor, he received a Master of Science degree at Technology subsequent to his training at Washington University, St. Louis. King Cayce, 10-44, Chairman of the Smoker Committee, said that the address to be given by Dr. Bowles would be of extraordinary interest because of his close contact with war developments in all parts of the world.

### Schaefer Is Toastmaster

Professor Albert A. Schaefer, of the department of Business and Engineering Administration, will be the toastmaster at the Smoker at which Mr. Raymond Stevens, President of the Technology Alumni Association, will present the Walker Memorial key to John L. Hull, president of the Senior Class, symbolizing the fact that the class of 10-44 is now in charge of undergraduate activities at the Institute.

### Letters Sent To Frosh

Letters have been sent out to all freshmen announcing the Smoker, and enclosed with each is a ticket and a self addressed post card which should be sent back to give the committee an idea of the number who plan to attend the complimentary dinner which is to begin the program. If any freshmen were overlooked on the mailing list and have not received tickets, they may obtain the same by calling at the Walker Memorial office any time next week from 5-6 P. M.

## COOPERATION

There are many ways in which a library can keep from having its books stolen. The first, and probably the simplest way is to chain the books to the stacks and allow persons to read them only while standing in front of the rack as was done in the ancient monastery libraries of Europe. Another method in present use by many large city libraries is to put in a turnstile at the entrance to the library and investigate everything which people carry in or out.

Although there are also many other methods of checking too numerous to mention, there is another means which really amounts to the honor system. It is based on the idea that all people are fundamentally honest and that if you trust them they will respect your trust.

It is this system which has been used in some of the Institute libraries for many years, and which has worked very well. The principal place where this system is used is in the Walker Memorial Library, where all the reserved books are held for the freshman and Sophomore English classes. These books are in there with the hope that if a student has a free hour he will go in and read the assignment. It is also possible, for those not having this time, to take the books out over-night and return them by 10 the next morning.

This system works very well as long as everyone abides by the simple rules set down. If, however, someone doesn't handle the books as planned, he is penalizing the whole class as well as attempting to prove that the trust in human nature is unjustified. The people who do take books illegally are looking at this system with a very short-sighted point of view, for although they may be the men who get the book this week and deprive everyone else of the chance to read the assignment, someone else may beat them to it next week. The whole system is built around a spirit of cooperation, and, like a house of cards, if this collapses everything does.

## In The Spotlight

This week the Spotlight features the flaming haired mentor of Voo Doo, none other than the pride of Sigma Nu, Ken Scheid. Ken is perhaps best known for his work on the humor magazine but he has done a great deal more to gain renown throughout the world of Tech.

New York was his birthplace on November 3, 1923. When he was old enough to separate from the bosom of his family he attended the Peddie School, from whence he departed for these hallowed halls.

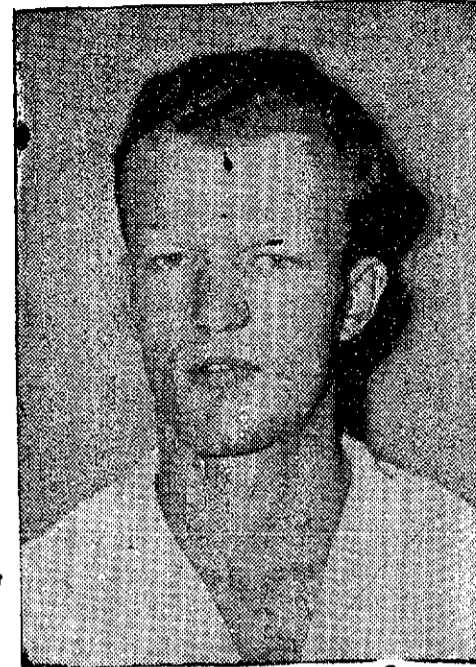

### Entered Tech in '41

Ken entered Tech in the Fall of 1941, a bewildered freshman among a horde of similarly befuddled fellow classmates. But he did not stay bewildered very long, for he found much at Tech to hold his interest. One day the Sigma Nu's went out and found him sitting on their doorstep. He has been with them ever since.

Few people in recent years have taken as much interest in the welfare of their class as he has. His aid has been instrumental in the development of the spirit shown by his class.

On the staff of Voo Doo Ken also rapidly rose to positions of authority. The era of Hawkshaw ended in a bright blaze of beer brawls, near-libel suits, and the loss of a small fortune on each issue. When Denehy took over the glowing embers Scheid was installed as make-up editor. His work in that position was in a large measure responsible for the issues of last fall, the first after Voo Doo's near-collapse.

Last January Ken took over as General Manager of the humor mag-

KENNETH G. SCHEID

azine. In the time he has served in that capacity he has pulled Voo Doo up from bankruptcy to a point where the books show a long column of black figures. He has done this largely by finding that Voo Doo can be sold not only to the undergraduates, but also to the many more people working around the school.

Although Voo Doo is Ken's Baby he has also been doing much else around school. He was on the Junior Prom Committee of his class and when information for this spotlight was sought he was found in a meeting of the committee for the coming senior week. Being a secretary has long been known as one of Ken's many capabilities, for not only has he served in that capacity in the class of 1945 (10-44 to the Registrar's Office), but he also did the same work for Beaver Key and

(Continued on Page 4)

## For Boys To Play

... Those who attended the premiere of "Everything for the Girls" last Saturday at New England Mutual Hall will probably agree it was a pretty solidly packed half-hour of entertainment what with Edgar Bergen, Charlie McCarthy, sensational Bernice Parks, and Ralph Wingert's versatile Grenier Field Band, to say nothing of the laughs and horseplay for the studio audience before and after air time.

... Due to unexpected complications, Fay Bainter, billed to appear tomorrow on the WAC show, will be out of town, but the cast will feature Emil Boreo, currently appearing at Boston's Latin Quarter, Johnnie Johnston, now at the Stat-

ler Terrace Room, and Kelly Camarata's Army band. And as an added attraction, the Army's Frank Fontaine, ace impersonator, who appeared on the show two weeks ago on the Blue Network.

... A policy recently drawn up with ASCAP will permit name bands to appear on the program after this week, as a result of an interview with Caesar Petrillo by Pfc E. Newman, producer of "Everything for the Girls." So look for some solid sending in forthcoming week when "Everything for the Girls" will continue to be something for everybody.

... As before, free tickets will be available at The Tech office or at the Building 10 Sales Desk.

## B.K. Softball Initial Round Nears Finish

### Three Games Played Over Past Week End Phi Gams Triumphant

The Beaver Key Softball Elimination Tournament is almost half-way completed, as only a few games remain to be played, before the two teams survive who are to enter the grand-robin later in the summer. As a result, Beaver Key play has picked off in the past several weeks, while postponed games are played, and the final few rounds finished. However, in a short time, the second portion of the tournament, which will include all those entries eliminated in the first round, will commence and a host of games will be played over each week-end.

There were three contests played during the past week, as the Chinese Student Club defeated the Lenox Club, the Phi Gamms overwhelmed the Phi Delt, and Phi Sigma Kappa squeezed out a win over a fighting S. A. E. team.

The Chinese Students, who steam-rolled Kappa Sigma last week, led on by taking an early lead over the Lenox Club, and then coasted in with a 10-5 victory.

#### Phi Gamms Victorious

The Phi Gamm vs. Phi Delt affair was all Phi Gamm, as the Fenway players dropped the spheroid through a butterfingers Phi Delta outfit, to the tune of 15-2. It looked like a repetition of last year's 17-2, Phi Gam win, as their pitcher held the Phi Delt batsmen in check. Robinson, on the mound for the Phi Delt, pitched his usual game, but his teammates failed to back him up with a steady stream of baseball.

The S. A. E. athletes dropped a home, in one of the best games of the current season, as Ned Bowles came through with the bases loaded to deliver an 11-8 win to Phi Sigma Kappa.

## Sophs And Frosh Show Fine Spirit In Ball Practice

During the past week the Sophs and Frosh have been whipping their respective softball teams into shape. Both classes have a good number of men out, and the coaches are pleased with the way practice is progressing. Of course it is still too early for any teams to be picked, but the candidates are getting plenty of batting and fielding practice.

Lou Zirin, who is looking after the Sophomore interests in softball, announced that there are about thirty men out for the team. Not all of them are able to get out to practice every day, but at least twenty show up each afternoon. Consequently, the Sophs are fielding two good teams each day and are really out to win.

#### Last Year's Men Out

The Sophomore class has many navy men out for its practices, which shows the spirit which the Sophs have in this sport. In addition, this class has several men who played on the team as freshman on the last Field Day. The names of: Cahill, Butler, Jacobson, Aitken, and

(Continued on Page 4)

## Field Day Crews Prepare For Race

Emphasis up at the boathouse, is, at the moment, being placed on the selection of Sophomore and Freshman crews to represent their respective classes on Field Day. This past week saw the first group of Frosh rowers on the river and many more are expected to climb into boats next week. The Soph boat is composed principally of last term's second lightweight crew and is being stroked by Dedell.

Crew is perhaps the one Field Day activity in which the Sophs hold a great advantage. Few of the Freshmen have ever rowed in shells before and it has always been a difficult task to place a smooth effective Frosh crew on the water in less than two months. However, with such a large first year turnout, anything can and might easily happen to upset the victory plans of the Soph boat.

While the two Field Day boats prepare for their race, the other crews are rapidly rounding into shape. Coach Moch has made several changes, which consisted of switching a few men from port to starboard in order to compensate for the deficiency of the latter.

# Field Day Swim Tryouts Progressing Favorably For The Freshman Class

## Frosh, Soph Sailors Showing Progress

### Experienced Candidates Report For Both Teams

Kenneth A. Foster, 2-46, in charge of the Freshmen Dinghy Team, and Robert V. Horrigan, 10-45, in charge of the Sophomore team, both reported yesterday that they had not had any trouble at all in finding experienced skippers for their teams which will race four or five boats against each other on Field Day.

Ken Foster says that he has ten good men, each with previous sailing experience, from which he can choose his skippers. Promising among the freshmen is Al La Fountain, 2-47, of Barnegat Bay, New Jersey, who has had previous racing experience. Another experienced member of the team is Larry White, formerly of 2-46, who has returned to the Institute. He has raced here before.

Robert Horrigan claims that the Sophomore team will still have more experience than the Freshmen because they have sailed in these boats and on the Charles for 1 year. Three members of the team, which includes, George Worrell, Charles Bloomer, Leigh Brite, and John Bateman all of 2-46, are also members of the M.I.T. Intercollegiate Team.

## I.O.C.A. Trip Set For Lynn Woods

Lynn Woods, comparatively unknown to the present group of Outing Club members, will be the destination of this week's I.O.C.A. hiking and cycling trip. Besides the main group leaving North Station at 9:30 a.m., another group will bicycle out, leaving Walker Memorial at the same time.

Plans are being formulated for a weekend trip to the Joe English cliffs in New Hampshire on August 13 via train and bicycle. The same weekend a canoe trip will probably be held, with its destination as the Upper Charles.

## Death of Sophomore Class Spirit Results In Ten Man Turnout

With the battle between the Frosh and Sophs fast approaching most of the Field Day events are crowded with entries from both sides, who are out to make their respective class supreme. Swimming is one sport that has suffered from a lack of participants, mainly on the Sophomore side of the fence. There are fifty Freshmen signed up at the present time, and only ten Sophomores, of whom only five are regularly out for practice.

Swimming Coach Gordon Smith is out there every afternoon handling the prospective mermen, and he has an eye out for material to compose the M.I.T. Swimming Team this coming winter. In some respects, he is well pleased with the turnout over at the pool, as the Sophs have several experienced Junior Varsity men returning from last year's team, and the Freshmen number many high school stars among their ranks.

#### Swimmers Needed

However, there is a grave need for new men to come out from both classes. This applies particularly to the Sophomores, as it is rumored that the event may have to be partially cancelled, unless enough Sophs turn up to complete the fourteen-man team. The men now out for swimming are mainly civilians, as neither class has received any support from the Grad. House up to this point.

As it now stands, there will be two races in the Swimming Event, and each class will enter two teams in each race. There will be a Medley Relay and a Free-Style Relay, with three and four-men teams in each event, respectively. The races will be scored on a 5-3-1 basis for the Medley Relay, and on a 6-4-2 basis for the Free-Style Relay. This system of points will eliminate any possibility of a tie in the final results.

That's the way everything stacks up at the present time. The Freshmen have the spirit, and the volunteers to win the event, while the Sophomores appear to have little spirit, and can hardly muster enough entrants to make up a full team.

## 676 vs. 636 On Field Day

### Large Navy Contingent Promises Fair Battle

A total of 676 freshmen will oppose 636 sophomores at the annual Field Day, to be held on Saturday, August 26. Broken down, these figures represent 551 frosh civilians and 125 frosh V-12ers against 206 soph civilians and 430 second year Navy men. The reason there are so many sophs in the Navy is that a number of fleet men have been classified as Sophomores. As has already mentioned in last week's *The Tech* the classes will be designated as '47 and '48 respectively for the glove fight.

There are still not enough Sophomores out for most Field Day sports. While 55 freshmen have so far signed up for swimming, only seven sophs have reported at the swimming pool. There are only six out of 30 needed men out for sophomore tug-of-war and only just enough sophomores for the sailing team leaving no room for the habitual eliminations. The only sports for which sophs have come out in force are crew, track and softball. Freshmen are out in large numbers for every team.

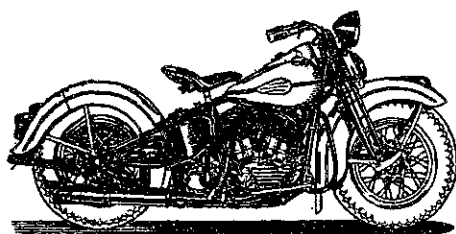

### Dormitory Committee

(Continued from Page 1)

committee, in place of six Seniors-at-large.

In Article V, which has to do with elections, the new reading has it that the Hall Chairmen shall be either Juniors or Seniors instead of Juniors. It also says the Vice-Chairmen may belong to any undergraduate class. Furthermore, a paragraph is inserted distinguishing between the Hall Chairmen and Vice-Chairmen.

Changes in Freshman regulations omitted clauses which made Freshmen treat upperclassmen with respect. They will still have to carry a supply of nickels and run not more than one errand a day for the upperclassmen, but they will not have to know the various songs that were required of them before.

## Blood Donor Drive Reaches New High

### Hundred Donations Here Through T.C.A. Last Week

One hundred persons donated one pint of blood each last week in the T.C.A. sponsored Blood Donor Drive, breaking the previous record of eighty-three, it was announced by Wallace M. Ross, chairman of the committee. The new record raised the total to 1189 since the drive was opened on February 16.

Miss Constance Houghton, secretary of the committee, has announced that since June 8 at least six members have made their eighth donation, automatically becoming new members of the Gallon Club.

### T.C.A. Has Helped in Three Local Emergencies

The T.C.A. has also helped in three individual cases, aside from the Red Cross, when blood donors were needed. One was for a former Institute man in the New England Baptist Hospital; the other two were for members of the family of Institute staff men, in the Deaconess and Massachusetts General Hospitals. The volunteers for the special cases stated above did not need the customary releases which the Red Cross requires.

Students are urged to do their part in the drive. Anyone over seventeen is eligible, but if under twenty-one, permission must be granted by either parent or guardian.

Application forms may be obtained from Miss Houghton daily, from 9:00 A. M. to 5:00 P. M. at the Information Office, Room 7-III.

### Softball

(Continued from Page 3)

Meduski are familiar to those who saw the frosh team last summer.

The freshmen have been practicing under the able guidance of Chick Street, famed crew man. The frosh also have a good number of men out for the team. However, Chick would like to see some more of the navy frosh out to practice.

### Coaches Are Confident

Of course, nothing is known about any of the men out, but the coach likes the way the team is shaping up. No definite names have been selected as yet, as practice is still too young. It seems that both coaches are rather confident of their team's chances, and we are looking forward to a thrilling contest come August 26.

### Spotlight

(Continued from Page 2)

practically everything else that he has ever shown up for.

Ken after going to the Institute as a civilian for four terms entered the Navy V-12 Unit last July, and since then has been spending much of his term campaigning for the return to the two terms a year basis for school. Recently Ken has begun to tell his friends that he doesn't feel that he wants to be an engineer, but that he would rather stick more closely to business as can partly be shown by his enrollment in course XV. He says now that he plans to go to a liberal arts school after the war and try to get out of engineering.

### Institute Committee

(Continued from Page 1)

completed soon in order to obtain a favorable agreement. The motion to table was defeated, and the original motion passed.

Later in the meeting, Ames moved that in the future no budget for a dance be placed before the Institute Committee without having been submitted to the previous meeting of the Executive Committee. The motion was tabled for consideration at the next Institute Committee meeting.

### Buell Appointment Approved

The appointment of Donald A. Buell, 6-45, as Chairman of the Budget Committee was approved. The freshman council elections, held last week, were also approved.

John L. Hull, 10-44, reported on the progress made in the reorganization of the Dormitory Committee. The changes in the Dormitory Committee constitution, necessitated by wartime conditions, were approved. Hull stated that a new chairman of the committee will be elected soon, and that steps will be taken for the committee to regain its seat on the Institute Committee.

### Casting Committee Chosen For Next Dramashop Play

The Dramashop has recently chosen the casting committee for its coming play, "Dr. Jeckyll and Mr. Hyde." The committee includes Charles W. Adams, 6-45, Elaine M. Bickford, 6-45, and Frieda S. Omsky, 6-45.

The final tryouts for the play will be held today; those interested should go to Room 2-190 between 4:00 and 6:00 P. M. All Institute students are eligible.

The play is scheduled for production late in September under the direction of Professor Dean M. Fuller.

## Freshman Council Meets August 7

An announcement was made last evening by Richard S. Moore, 6-45, president of the Junior Council that the first meeting of the Freshman Council will be held in Room 10-267 at 4:00 P. M., Monday, August 7. Section leaders are asked to bring alternates to this meeting.

The purpose of this first meeting is to prepare the section leaders for the organization of the Council and to acquaint them with their duties and responsibilities as members.

## Father Hennesey Speaks Before Catholic Club

The speaker at the meeting of the Catholic Club held Wednesday, August 2, in Room 10-275, was Father Hennesey, S. J., biological missionary. Father Hennesey discussed his experiences while in the West Indies, British West Indies, missionary work and teaching in a school of biology.
