CAMBRIDGE, MASS., FRIDAY, AUGUST 11, 1944

PRICE FIVE CENTS

Newman's Band Will Play At Field Day Dance

Tickets For Affair Will Be Sold In Building 10 Today

The plans for the Field Day dance, to be held on August 26, have been completed. The Field Day Dance Committee, composed of a group of sophomores and the freshman section leaders, announced last night that Ruby Newman's Orchestra has been engaged to provide the music at the dance. It was also announced that tickets for the dance may be purchased by upperclassmen as well as by freshmen and sophomores.

Tickets go on sale today in the lobby of Building 10. The cost will be \$2.40, tax included. The dance, to be held in Morss Hall of Walker Memorial, will begin at 8:00 P. M. and end at midnight. Refreshments will be served. The dance is expected to draw a crowd of about three hundred couples.

Seventeen Elected To Tau Beta Pi

Initiation Will Be Held On Monday, August 28

Tau Beta Pi, the national honorary engineering society, has announced the election of seventeen members, twelve Seniors and five Juniors; these Juniors and Seniors were selected on August 7. The final initiation will be held on Monday, August 28, at the Smith House, pending the completion of other initiation requirements.

The newly elected men are: Senior Class (10-44): Robert E. Benevento, William F. DiZenzo, Henry Fabens, Jack H. Frailey, Roy Gidox, Roderick L. Harris, Edward Holt, Jr., Joseph T. Lester, Jr., W. Matthews, David M. Rock, and Harold Ross, and Gerald C. Swens-

Junior Class (6-45): David P. Wood, Walter H. Levy, Isaay Stempsky, Daniel R. Vershow, and Robert E. Wilson.

Official Notice

Preliminary lists for the Directory of Students will be posted in the following places Tuesday through Friday, August 15-18: Building 10 Lobby, Graduate House, Building 3—Bulletin Board near 3-150, and Building 33.

Each student is requested to inspect a list and to report any errors which he finds to the Registrar's Office on the cards provided.

J.P. Options To Sell Until Monday

Plans For Weekend Still Being Made

The options for the Junior Prom which have been on sale in the main lobby of Building 10 since Wednesday will continue on sale today and Monday from 11:00 A. M. to 2:00 P. M., according to Richard S. Mooney, President of the Junior Class. In addition to these public sales in Building 10, the options will also be on sale in the lobby of the Graduate House tonight for members of the V-12 unit who wish to buy options at that time.

The committee expects that after sales are stopped on Monday the full quota of options will have been sold and that it will be impossible

(Continued on Page 3)

Dramashop Selects Cast For New Play

The Dramashop announced this week the tentative cast for its coming play, "Dr. Jekyll and Mr. Hyde," to be held late in September.

Durga S. Bajpai, 2-46, takes the dual part of Dr. Jekyll and Mr. Hyde. The supporting cast includes R. F. Trimble 2-47, as Sir Danvers Carew; Virginia M. Tower, 2-47, as Diana Carew; Claude W. Brenner, 2-47, as Dr. Lanyon; James B. Weaver, G., as Mr. Utterson; Joan T. Rothwell, G., as Pauline; Mary E. Sullivan, 6-45, as Bridget; Elaine M. Bickford, 6-45, as Connie; William M. Siebert, 2-46, as Richard Enfield; and Robert W. Conner, 2-46, as Inspector Newcomen.

Coast Guard Has Picture Exhibit In Building 10

An exhibit of United States Coast Guard pictures is now on display in the lobby of Building 10. There are many fine pictures showing the work done by the Coast Guard to help invade enemy territory.

One excellent picture vividly portrays the destruction of a Nazi submarine by a Coast Guard cutter. The picture is so good that one can see German sailors jumping into the water while trying to escape the death and destruction being dealt out by the blazing guns of the cutter. Other pictures give an informative account of the various functions of the Coast Guard. Every picture is a tribute to the courage and workmanship of the Coastguardsmen.

Along with the pictures, there is a display of the different types of packages sent by the Red Cross to Americans captured by the enemy.

Frosh Councilmen Hold First Meeting

New Council Plans To Elect Officers Tuesday

Tuesday afternoon in Room 10-267, Richard S. Mooney, 6-45, led the freshman section leaders in their first meeting. At the beginning of the meeting each section leader stood, introduced himself, and told the group which section he represented.

The main topic of discussion was the lack of freshman Field Day spirit. One of the section leaders pointed out that if track and tug-of-war didn't get more freshmen by today, these sports will have to be cancelled for the Field Day program. Each section leader was asked to try to get his section out 100 per cent for field day, if he possibly could.

It was decided at this meeting to elect officers for the freshman council at the next meeting, which is to be held on Tuesday, August 15, at 4:00 P. M., in Room 10-267. The officers who are elected will represent the freshmen on the Institute Committee.

Frosh Smoker Will Be Held Monday Night

Institute To Receive Recognition By Award From Army Ordnance

The entire Freshman class of 10-46 and 2-47 are invited to the traditional All-Tech Smoker to be held Monday evening, August 14, at 6:30 P. M. in Morss Hall, Walker Memorial.

Edward L. Bowles, Technical Advisor to Secretary of War Stimpson, is to be the principal speaker of the evening. President Compton will also speak, and many members of the faculty and administration will be present. Professor Albert A. Schaefer, of the department of Business and Engineering Administration will be the Smoker toastmaster.

One of the events in the Smoker program, which is to begin with a complimentary dinner, will be the presentation of the Distinguished Service Award to the Institute by the Ordnance Department of the United States Army. The award will be presented to Dr. Compton in recognition of the Institute's scientific and engineering achievements associated with the War Department's technical program.

Tickets Are Available For Smoker Speeches

Due to many requests from people around the Institute who wish to hear the speech by Edward L. Bowles at the freshman smoker being held in Morss Hall of Walker Memorial on Monday night, tickets will be available for admission to the smoker following the dinner. These tickets, which are obtainable at the information office for those desiring to attend, will admit the bearer to Morss Hall at approximately 7:30.

Due to the fact that all the facilities of the Walker Memorial Dining Service will be required to accommodate the smoker, there will be no regular dinner served that evening.

FRESHMEN AND TRADITION

One of the oldest traditions at Technology is the All-Tech Smoker. No one seems to know exactly how old it really is, but these smokers were being held annually at the turn of the century. This tradition has survived two wars and three depressions. As an expression of the spirit of Technology this smoker tradition has gathered richness through the years.

This smoker is significant in that it is the first class function of the incoming students. New men will make new acquaintances in their own class, and come to know some of the upperclassmen. They will hear the Glee Club, the President of the Institute, and the President of the Alumni Association. The guest speaker of the evening will be one of the key men in our war program, Edward L. Bowles, who will be making his first public appearance at Technology since the beginning of his war work. They will also see a number of interesting displays as presented by the activities. In a word they will get their first taste of one of the more pleasant aspects of Technology life, the undergraduate social life.

One might look upon this smoker as a good evening's entertainment, but it is far more than "just another smoker." In reality it is the granddaddy of all smokers introducing the new students to the whole of Technology undergraduate life—thus the name All-Tech Smoker.

It is an evening of good food, good fun, and good fellowship. It is a function which every freshman before has attended; it is something the Classes of 10-46 and 2-47 cannot afford to miss.

In The Spotlight

One of the busiest Institute professors these days is Professor Edward L. Bowles, head of the division of electrical communications of the department of Electrical Engineering. Rarely seen around the campus these days, he is taking a brief vacation from his duties in Washington to speak at the Freshman Smoker next Monday evening.

Professor Bowles, born in Westphalia, Mo., received a degree from Washington University in St. Louis, before coming to Technology in 1920 as a graduate student on the staff of the Electrical Engineering department. Subsequent promotions brought him to the rank of full professor in 1937. He is a member of Sigma Xi.

EDWARD L. BOWLES

Directed Navigation Research

Up to World War II, Professor Bowles directed a program of research on fog-navigation problems, including fog dissipation and short wave communication. He also was the director of the Institute's program on instrument landing of aircraft, conducted jointly with the Civil Aeronautics Authority. Furthermore, Professor Bowles was primarily responsible for the extensive micro-wave research program at the Institute, and has been instrumental in enlisting the co-operation of industry in connection with Technology's educational and research programs.

Several years ago Professor Bowles took it upon himself to revise the course in Electrical Engineering so that a series of connected texts on the basic principles of electrical engineering could be presented to Technology Students. So far, three volumes have been compiled and published by the staff.

As well as being a member of a half-dozen professional societies and the Civil Aeronautics Authority,

Professor Bowles has served on several wartime emergency committees. Listed in "Who's Who," he also holds numerous patents, including some on area-measuring devices employing light beams and a light-sensitive cell.

Appointed Stimson Consultant

Ever since April 1942, when he was appointed Expert Consultant to Secretary of War Henry L. Stimson in Washington, Professor Bowles has visited the Institute here and less. Subsequently, in September 1943, he was chosen Communication Consultant to General H. "Hap" Arnold, Commanding General of the Army Air Force. In Building 6, there is an office with Professor Bowles' name on the door, but there are rumors that he has even a desk inside.

Professor Bowles was married in 1922, and has two sons. His residence, (when in this vicinity), is Wellesley Farms, but his office is the Office of the Secretary of War in Washington. Professor Bowles intends to resume research work at the Institute after the War.

Poor Turnout For P.T. Program

Despite a poor turnout for the conditioning program which was announced two weeks ago in *The Tech* Mr. McCarthy, the Institute's Physical Director, announces that because of a great need for a program of this sort for all those who are planning to enter the armed forces, the program will still be held. All those who are interested should see him any day from 12 to 2 at his office, Room 335, in Walker Memorial.

Discussion Period Feature of Catholic Club Meeting

At the weekly meeting of the Catholic Club held on Wednesday August 9, Father Daley of Boston deviated from the regular practice of giving a lecture to the members and held an informal discussion period. Questions relative to the condition of the Church in Spain, Russia, and Germany were discussed. Also discussed were marriage and other timely problems. Refreshments were served.

More Freshmen, Sophs, Needed For Tug Of War

Practice Is Decisive; Lack of Manpower Endangers Contest

Everyone who is interested in Field Day Tug-of-War Competition could sign up immediately with either Johnny Hull or Hank Paynter, who are coaching the Sophomore and Freshmen classes respectively. The Field Day Eligibility Rules demand that all eligibility cards be turned in by the 14th of August.

At the present time, only about ten men from each class have lined up for the competition, and although fifty men needed, twenty-five from each class, class spirit had better take a turn for the better, and get some men on the field for both teams. There are plenty of vacancies that have to be filled, so both members of both classes have a great opportunity to make the team.

Come Out Poor

Of the ten men out from each class, only about five are in steady attendance at the practices. If the intent is to have the fight and drive that was half the battle in previous Field Days, more men have to show up for practices. Tug-of-War may look like a battle of brawn, but it is not brute strength that determines the issue. It is more the development of the proper pull-muscles, and the gaining of coordinated effort that produces the final effort that means victory. Everyone who is interested in competing in Field Day Tug-of-War should come out immediately to practice, where they may sign up for the event and obtain their eligibility cards. Those who are now away for the sport meet at the end of the straight-away, over at Briggs Field around five o'clock. The practice lasts for an hour, and is held at both ends of the grandstand.

Tech Track Champions Win New England Titles

TECH TRACK CHAMPIONS 1944

- A. Bryant—N.E.3A. and N.E.A.A.U.—½ mile
- L. McKee—N.E.A.A.U. Jr.—220 yards
- P. Wright—N.E.3A.—Pole Vault
- C. Goldie—N.E.A.A.U. Jr.—Mile and 1000 yards
- R. Poorman—N.E.A.A.U. Jr.—380 yards
- A. Schwartz—N.E.A.A.U. indoor—3 miles.

Field Day Teams Work At Sailing

Tech Enters Race Week Meet At Marblehead

The Sailing Pavilion has been humming with activity now that Shore School is out, and warm summer breezes are trying the skill of the new helmsmen. The Freshmen and Sophomores are racing continually in order to practice for the Field Day Regatta. The Sophomores can look forward to a good race with the top freshmen skipper, La Fountain, White, Greenbaum, Gaffey, Worton and Murray. With this group of men, Tech will surely come out well in the approaching Freshmen Intercollegiate.

Tech Entries in Race Week

Taking part in Marblehead Race Week is the 110 class Lawley, Schell. Boatswains and Coxswains race there every afternoon. For rainy afternoons, the Nautical Association suggests a visit to the N. A. bookcase in Walker Library. Soon there will be books there covering all phases of yachting activity, from naval architecture for the XIII man to recipes for shipboard meals for the coeds. And there'll be plenty of books for you who want to learn the finer points of sailing or racing.

Theta Chi, Phi Kappa Sigs Triumph In Beaver Key Weekend Softball Tilts

Field Day Practice Spirited In Track

The Field Day relay teams began to take form during the past week as Coach Oscar Hedlund held preliminary trials for places. Oscar has held time trials for 78 Sophomores and 25 freshmen. As it stands now, the Sophs are way ahead in numbers and the competition for positions is very strong.

Many men are back from last year's frosh Field Day relay team, and are out for the Soph relay team. Among these are: W. Casey, W. Bursnall, W. Chapman, W. Grant, H. R. Jackson, F. Westcott, R. Bello, D. Robinson, H. Dickenson, W. Humphreys, D. Schultz. With these experienced men to form the team around it looks as though the Sophs' chances of winning are very favorable.

Final Trials Tuesday

Many more frosh are reporting to the track, to keep alive the hopes of the class. In addition some of the 25 men who have already taken their time trials showed good promise. Oscar announces that the final trials for the relays will start next Tuesday.

This Saturday afternoon at 3 P. M. there will be another handicap meet on Briggs Field. Anyone who wants to may enter, and Oscar is looking for another good turnout. The events are as follows: 100-yard dash, 300-yard dash, ¾-mile run, javelin, and broad jump.

Junior Prom

(Continued from Page 1)

for anyone not already having an option to buy a ticket. So far, according to the committee the sales have been going very well.

The name of the band which is to play at the dance to be held on September 29 in the Imperial Ballroom of the Statler has not as yet been announced. The announcement is expected within the next few weeks, and will appear in **The Tech**.

Plans for the weekend have not as yet been completed, but according to Robert B. Hildebrand, 6-45, there is a possibility that some additional form of entertainment may be provided for ticket-holders on Saturday night.

Excellent Fielding Pitching and Hitting Spark Both Victories

Only a few games remain to be played in the first round of the Beaver Key Softball Elimination Tournament, before the teams will be decided who are to enter the round-robin finals later in the term. As the number of entries still in the running is rapidly being reduced, fewer games are being played each week-end, and will continue in that manner, until the second half of the tournament begins in several weeks. There were two games played the past week-end, one tight one and the other with a great margin in the final score.

Theta Chi and the Chinese Student Club tangled in a bang-up ball game that was close all the way. Theta Chi pushed across a run in the second inning, and another in the fourth, as the sparkling fielding of both teams held the runners off the base-paths, or flashed out with quick double-plays, that ended scoring threats. This small lead was cut in half, when the Chinese Students filled the bases and crashed through with their first run on a steal followed by a hit. Theta Chi pulled the inning out of the fire with another of their quick double-plays, before any further damage was done.

Theta Chi Has Big Inning

This 2-1 score was maintained for another two innings, when the Theta Chi batsmen pounded a few Texas leaguers into the Chinese Students' outfield, and added three more runs before the opposition could put the fire out. That sudden

(Continued on Page 4)

Outing Club To Hold Trip To Mount Monadnock

The trip planned for this week-end by the Outing Club is an overnight journey tomorrow and Sunday to Monadnock Mountain. The group will camp out on the trip.

Another monthly square dance is scheduled for Saturday evening, August 19, at Harvard Memorial Hall; Al Smith will call. Tickets will be on sale during next week at the noon hour in Building 10.

On Sunday, August 20, there will be an I.O.C.A. trip to Singing Beach by bike and train.

T.C.A. Freshman Handbook Ready For Distribution

950 Copies Are Being Released To Students At Office In Walker

The T.C.A. 1944 Handbook, which is now available for all freshmen, may be obtained at the T.C.A. office in Walker Memorial. Some 1500 copies were received, of which 350 were turned over to the Graduate House for use by the V-12 students and 200 were purchased by Professor B. A. Thresher to be sent to Honorary Alumni secretaries throughout the country. The remaining 950 are available to the freshmen and Upperclassmen desiring copies.

The contents of the Handbook feature a welcome to the freshman class by President Karl T. Compton, followed by other welcomes from Dean Harold E. Lobdell, Dean Thomas P. Pitre, and John L. Hull, 10-44, President of the Senior Class.

History of Technology

A brief history of Technology, from the time of the fifteen students who comprised its first class, to the Institute of today, precedes individual descriptions of activities, Field Day statistics, and other articles.

Helpful tips concerning supplies, the building numbering system, and school athletics acquaint the newcomer with Institute customs. A detailed account of T.C.A. organization and activities is followed by an aerial photograph centerspread of the Institute and campus. The Student Constitution and By-Laws of the Institute Committee complete the Handbook.

Christopher G. Boland, 6-45, Publications Manager, was in charge of the edition. Assisting him on the Editorial Staff were: George Dvorak, 6-45; Roger Bart, 2-46; Alan R. Gruber, 2-46; and Samuel Gusman, 2-46. The Business Staff included Peter G. Dayton, 2-46; Robert W. Neal, 2-46; Fred J. Ross, 2-46; and Mark E. Sullivan, 2-46.

Blotter Being Printed

It has also been announced that the 19x24-inch T.C.A. desk blotter was sent to the printer yesterday, the 4500 copies of which are expected the first week in September, and will be available to all students, fraternities, and dormitories at that time.

The blotter consists of a scarlet "T" on which is printed a calendar for the coming eleven months, on the traditional gray background.

Softball

(Continued from Page 3)

outburst finished the game, with the final score standing at 5-2, a close game all the way.

In the only other game played since the last issue of *The Tech*, the Phi Kappa Sigma outfit met and defeated Phi Mu Delta. This was a game that had been postponed several times, and had been holding up the other bracket, in the elimination. The final score was agreed upon at 13-2, as darkness cut the final inning of play, while the Phi Kappa Sigs were still at bat.

Phi Kappa Sigs Ahead All the Way

The Phi Kappa Sigs stepped out to an early lead, by garnering three runs in the first inning, and continuing on to add to their total in each subsequent inning. The game was only about four or five innings long, and so the score reverted to the last full inning, although the Phi Kappa Sigs had run the score up to 19-2, in the darkness. The Phi Kappa Sigs' infield showed up well, behind Pitcher Ehrenfried. For the Phi Mu Delta aggregation, Pete Quamo stood out as pitcher, but didn't receive adequate support.

New Technique With Color Pictures On Sale In Sept.

The newest edition of *Technique* which is scheduled to go on sale in September is progressing rapidly towards completion. The faculty, senior, and fraternity sections are practically finished now. This copy will feature color pictures throughout. To give the seniors more distinction there are fewer seniors pictured on a page.

In general there are going to be several "outstanding innovations" this year. Anybody may order his copy in the *Technique* office, third floor, Walker Memorial. Two-thirds of the copies have already been ordered. In addition to those sections already mentioned, the advertising, picture and sketch sections have recently been finished.

T.C.A. Senior Cabinet Members Are Chosen

The new members of the T.C.A. Senior Cabinet, as chosen by the T.C.A. Executive Committee at a meeting last Wednesday, are the following members of the Class of 10-46:

Robert M. Creek, Director of Ticket Service; William M. Oard, Director of the Technology Cabinet Department; Generoso P. Pope, Director of the Blotter; Frank A. Jones, Director of the Information Department; Donald A. Sillers, Assistant Drive Chairman; Howard

Freshman Debating Tournament Planned

Plans for a freshman Debating Tournament have been announced by the Debating Society. The winning team will meet one from P broke, the time and place to be decided upon later.

Mr. E. F. Perry, of the Engineering department will coach the Debating Team this term, replacing Glenn Leggett, the former coach.

H. Hartman, Director of Boys' Work Division; and William F. Cass, Director of the Church Relations Department.
