PRICE FIVE CENTS

## "Jekyll & Hyde" To Be Presented Saturday Night

### New England Mutual Hall Will Be Scene of Dramashop Production

"Dr. Jekyll and Mr. Hyde," the I. T. Dramashop's summer term production, will be given tomorrow evening at 8:30 P. M. in the New England Mutual Hall at Copley Square. Tickets can still be obtained from any member of the Dramashop, at the T. C. A. office, or the Information Office. They will also be on sale at the door tomorrow night.

The male lead of the play is being taken by Durga S. Bajpai, 2-46, who has been in the Dramashop for some time. Last Spring he had one of the important roles in the Dramashop production of "Holliday." The feminine lead in the play is being taken by Virginia M. Sawyer, 2-47. She is new at the Institute but she has had extensive experience in high school dramatics. These two are being ably assisted

(Continued on Page 4)

## Dorm. Committee Discusses Walker

### Bertram Schmitt Made Bemis Hall Chairman

The Dormitory Committee convened last Monday in the Faculty Lounge, Walker Memorial, after a two-week interval. L. Lloyd Balsam, '44, the committee chairman, presided.

Considerable time was spent in discussing problems concerning the conditions at the Walker Memorial dining hall. A temporary subcommittee was appointed to discuss with Mr. Bridges grievances of dormitory residents.

Bertram P. Schmitt, 10-44, was appointed chairman of Bemis Hall to fill the vacancy caused by the former chairman's change of residence.

That the dormitory residents know what goes on at the dormitory meetings, the minutes of a meeting will be posted on the office bulletin board.

## Copies Of New Directory Ready For Distribution

Copies of the 1944-45 Directory Issue of the Massachusetts Institute of Technology Bulletin are now available at the Information Office. The annual directory lists all registered graduate and undergraduate students at the Institute including members of the freshman class who entered in July.

## Saltonstall's Topic Revealed

### Will Concern Politics And Local Problems

"Current Politics and Local Problems" will be Governor Saltonstall's topic in his talk to be given on September 22 at 5:00 P. M. in Room 10-250. The Governor is to be the first speaker in the series of lectures sponsored by the newly formed Lecture Series Committee. In his talk, His Excellency will give particular attention to those problems which pertain to Massachusetts.

The members of the Lecture Series Committee are: Gilbert K. Krulee, 10-44; Bruce A. Lamberton, 10-44; Herbert J. Hansell, 2-46; John R. Kirpatrick, 2-46; and Stuart G. Farnum, 2-46. The faculty advisor is Professor Howard R. Bartlett, head of the English department.

## Course VI To Hold Outing At Riverside

The annual Course VI outing will again be held this year under the sponsorship of the AIEE. The combination picnic and outing which is open to all the members of Course VI will be held on Sunday, September 17, at 3:15 P. M. The group will meet at that time at Riverside Station which may be reached by a Boston and Albany train that leaves South Station at 2:45 P. M. that afternoon. The train may also be boarded at Trinity Place. The cost of the outing will be 80c for couples, 60c for stags, and 50c for the members of the AIEE.

The various activities to be held during the outing will include baseball, tennis, golf, and swimming.

## Combined Prof. Societies Ask Class "A" Recognition And Institute Comm. Seat

### Georgian Room To Be Scene Of Senior Ball

The Georgian Room of the Statler Hotel has been selected as the site of the Senior Ball, which was announced last night by the Senior Week Committee. The dance will start at 9:00 P. M. and will end around 1:00 A. M. Plans are under way for selection of an orchestra, but no announcements will be made until arrangements are complete. Tickets for Senior Week are still being sold at \$10.00 each, to the individual members of the class by the Senior Week Committee.

### Senior Week To Be Reviewed

To acquaint the students with the traditions and events of Senior Week, *The Tech* is going to present a story on each day of Senior Week in each of the next five issues.

The opening event of Senior Week is the Stag Banquet. It will be held on Thursday evening, October 26, at the Vendome Hotel. The affair will be strictly informal, with an abundance of beer. Professor Albert A. Schafer will be toastmaster for the evening, and Dean Harold E. Lobdell will be among the speakers.

## Outing Club Plans Trip To Scituate

This week-end the Outing Club has planned a beach trip to Scituate, the last such trip for the season. Since a hurricane was threatening to blow this way last night, it is possible that the weather will interfere with this trip.

As usual, students from some of the local colleges, such as Wellesley, Simmons and Harvard, will accompany the M.I.T.O.C. members. Weather permitting, a large group is expected to go, as Wellesley alone has well over 30 students signed up on their list for the trip.

## Fabens Made Managing Editor of "THE TECH" For Rest Of Vol. LXIV

A motion to accept the Combined Student Professional Societies as a Class A activity was brought up at yesterday afternoon's regular Institute Committee meeting and was tabled pending investigation. According to the procedure outlined in the constitution, a special investigating committee is automatically set up when an activity applies for Class A recognition, and if the motion accepting the activity is later passed, the activity is placed in a probationary Class A status for one year. The members of the investigating committee are: Alexander S. Giltinan, 2-46, Donald A. Buell, 6-45, and James S. Craig, 2-46.

H. Bruce Fabens, 10-44, was approved as Managing Editor of *The Tech* for the remainder of Volume LXIV. The position had been vacant since the start of the current term. Gerald L. MacKinnon, Jr.,

(Continued on Page 4)

## J. P. To Sponsor Party At Dorms

### Activities Will Extend Over Entire Weekend

The Junior Prom committee has announced that tickets for that affair are completely sold out. The dance will take place on Friday evening, September 29.

It has been decided to have the festivities extend over the entire weekend, including Sunday; the added feature is a Sunday tea dance to be held on Sunday at the Burton Room in the dormitories. Although this plan is not absolutely certain, the committee members expect that the dance will be held.

In addition to this dance and the main one to be held Friday night with Bobby Sherwood's band, there will be parties at various fraternities on Saturday; one will be at Phi Kappa in the afternoon, and two others will take place at Chi Phi and at Theta Chi at night.

The following is a letter received by **The Tech** in response to the editorial about the Walker Dining Service printed in last week's issue.

Dear Sir:

In the last issue of *The Tech* there appeared an editorial concerning the Walker Dining Service. It is felt by a large number of dormitory residents that this editorial was one-sided. Their belief is that the prices of Walker food items are too high and that the quality (being a loose term generally construed to refer to palatability and preparation of the food with no comments on the "raw materials" as originally purchased) leaves things to be desired.

Last Monday in its effort to arrive at a solution to this problem, the Dormitory Committee consummated its plans for the reorganization of a sub-committee to confer with the management of the Walker Dining Service. At its first meeting on Wednesday of this week a large number of suggestions regarding individual food items were brought up and discussed. Mr. Bridges expressed the desire of the Dining Service to improve its service in all ways possible and welcomed the suggestions of the committee. Already as a result of this meeting several improvements have been made e.g., reduction of price of fruit juices and bacon, and return of french fried potatoes to the menu.

The active interest of dormitory residents on this matter is a good sign and through the sub-committee which meets with the Dining Service management at regular intervals, further suggestions can be discussed as the need arises. In this way official action can be taken and the probability of obtaining remedial measures is greatly increased.

Yours truly,  
**Lloyd Balsam**  
 Chairman, Dormitory Committee

# In The Spotlight

Everyone who has ever taken M. S. remembers the jovial Major A. A. Wagner, head of the Military Science Department. He is a well-known member of the faculty, and is very popular with all the students he has come into contact with.

The son of an Army officer, Major Wagner was born in Fort Vancouver, Washington, in 1889. He lived in various parts of the country and later studied at several colleges, receiving his Master's degree from the University of Washington in 1926. One of his classmates in both prep school and college was to become the Major's wife; both were in the same class all through school.

## Explosives Specialist

During the First World War, Major Wagner served the Navy at the Naval Proving Ground and Powder Factory at Indian Head, Maryland. He worked there for eight years mainly on explosives, which are his specialty.

At the end of this time, Major Wagner traveled to the West Coast to work in the powder and explosive business. He has had many interesting experiences during this time including being very close to three plant explosions in which from 30,000 to 125,000 pounds of smokeless powder have blown up.

## Takes Interest in R.O.T.C.

Major Wagner visited Stanford frequently to give the R. O. T. C. unit there a course in explosives. He also went to summer camp at Fort Louis, Washington, with the R. O. T. C.

Then followed five years' service with the Oregon National Guard in the Field Artillery. Once during firing practice with the 155 howitzers, Major Wagner went to trace down several duds after practice and found them missing. He discovered them in the hands of some National Guardsmen who had carried them off. One of the Guardsmen was attempting to hammer the fuse off one of the shells.

## Ordered To Technology

He next spent two years at the office of the Chief of Ordnance, Washington, D. C. and on New Year's Day, 1942, Major Wagner was ordered to the Institute.

His chief interests are the chemistry of explosives, military affairs, and students. The welcome mat to

Why does everything have to happen on Thursday nights? Four weeks ago, **THE TECH'S** office was flooded by a rain-storm so that the reporters had to swim to the night editor's desk. In past years, Thursday night was also quite interesting. Walker kitchen had a whopping big fire, and another time the Sophomores on the staff were almost massacred by a huge mob of freshmen in the halls of Walker.

Now, it's a hurricane! It was so humid last night that the emulsion in the engraving department stuck the negatives to the boards, so this story now fills the space that Major Wagner's picture should take. Apologies to the Major, but everything happens on Thursdays.

**MAJOR A. A. WAGNER (?)**

the Major's office is always out, the visitor is not afraid of the very business-like machine-gun which stands in his office.

## Has Good Opinion of Institute

Major Wagner thinks that Technology is one of the finest places which he has ever been. He believes it is a pleasure as well as a privilege to be responsible for military training of the M. I. cadets. He is very pleased with the rapid progress made by the freshmen who entered in July, although they have had the equivalent of only five days in camp, they are much farther advanced than the G. I.'s. who have had an equal amount of training. The instructors of the Military Department are also very pleased by the smart appearance of the cadets when in uniform.

Major Wagner thinks that Washington, D. C., is the most beautiful city he has ever seen, and that Boston is the most interesting.

## 3 Teams Left In Dorm Softball

Wood, Munroe, Goodale Compete In Tourney

Under the direction of John J. Vozella, Dormitory Athletic Chairman, the Dormitory baseball tournament has gotten under way. The first round has been finished with the result that Wood, Hayden and Goodale are still in the tourney.

Both Hayden and Goodale entered the second round when Bemis and Walcott defaulted. Wood rallied to win over Munroe last Saturday by a score of 9-6, in the only game played thus far.

If weather permits, this weekend will see Wood and Goodale meet for the second round.

The lineups for last Saturday's game were as follows:

<b>Munroe</b>	<b>Wood</b>
Salvani, c.	Spencer, c.
Santich, c.f.	Harsch, p.
Gorin, p.	Dizenzo, 1st.
Mechta, s.s.	Seblyeski, 2nd.
Rifkin, 3rd.	McGuinness, 3rd.
Rossbeck, l.f.	Klemman, s.s.
Bralove, s.c.	Vozella, r.f.
Hampeter, 1st.	Warner, s.c.
Fell, 2nd.	Boyle, c.f.
Steuer, r.f.	Wagner, l.f.

## Track Men Take A.A.U. Physicals

Eight Track And Field Events Make Up Tests

Track Coach Oscar Hedlund is giving the A. A. U. Physical Fitness and Proficiency Tests to all men out for track. The tests consist of eight track and field events as follows: 100 yd. dash, broad jump, mile run, 12-lb. shot, 120 yd. low hurdles, baseball throw, run-walk mile, and high jump.

Individuals may qualify for the primary test, intermediate test and the advanced test. The standards for each are arranged according to age groups, the majority of the candidates between 18 and 24.

### 320 Ft. Baseball Throw

Randolph has done the best in the broad jump so far with a leap of 20 feet. In the mile run, Charlie Goldie topped all runners with a 4:54.4 mile. In the baseball throw, Joe Oechsle made a phenomenal throw of 320 feet. The best time for the Run-Walk mile was made by R. E. Wilson who did a 6:36. In this event the first lap is walked, the second run, the third one walked, and the fourth one run. In the high jump, Humphray cleared the bar at 5' 9 3/4". The 100 yd. dash and low hurdles have not been run as yet.

# Phi Gamma Delta Enters Beaver Key Finals With Win Over Phi Kappa Sigs

### First Inning Decides As Five Phi Gam Runs Score, In 8-3 Victory

One of the most important games that has been played over the past few weeks occurred last Monday afternoon, when the Phi Gamma Delta Softballers met and defeated the Phi Kappa Sigma outfit. The tilt saw two of the strongest teams in this year's league, meeting in a battle which decided the second entry into the round-robin play-off.

The game was decided in the first inning, when the Phi Gams poured on the pressure, and scored five times, before the Phi Kappa Sigs could halt the parade. After that first outburst, the game was close as brilliant fielding cut down chances for both sides. However, that initial margin was too much for the Phi Kappa Sigs to overcome, and the game went to the Phi Gams.

Both teams looked good in the field, as Trageser and Ehrenfried, who arrived late for the Phi Kappa Sigs, hooked up in a close mound duel. Both were ably supported by their teammates, as Jim Craig and Greg Walsh composed a snappy keystone combination for the Phi Gams, and Bob Hildebrand and shortstop Len Dorflinger stood out for the Phi Kappa Sigs.

With two teams now in the round-robin, the Phi Gamma Deltas and the Phi Sigma Kappas, a game will probably be played between them in the near future. The third team in the round-robin will be decided within a week, as Phi Kappa Sigma will meet the Theta Chis.

## Installation of "King-Pins" In Walker Alleys Is Delayed

The installation of the facilities for the use of "king pins" on the bowling alleys in the basement of Walker Memorial will be delayed indefinitely, Ed Pung, the operator of the alleys, revealed yesterday.

Mr. Pung says that all necessary equipment has arrived and now it is only a matter of how soon the "stops" for the balls can be installed. The reason for the delay is that the only men qualified to put in the "stops" are now busy constructing bowling alleys in army and navy camps.

## Cross Country Team To Hold Tryouts Sat.

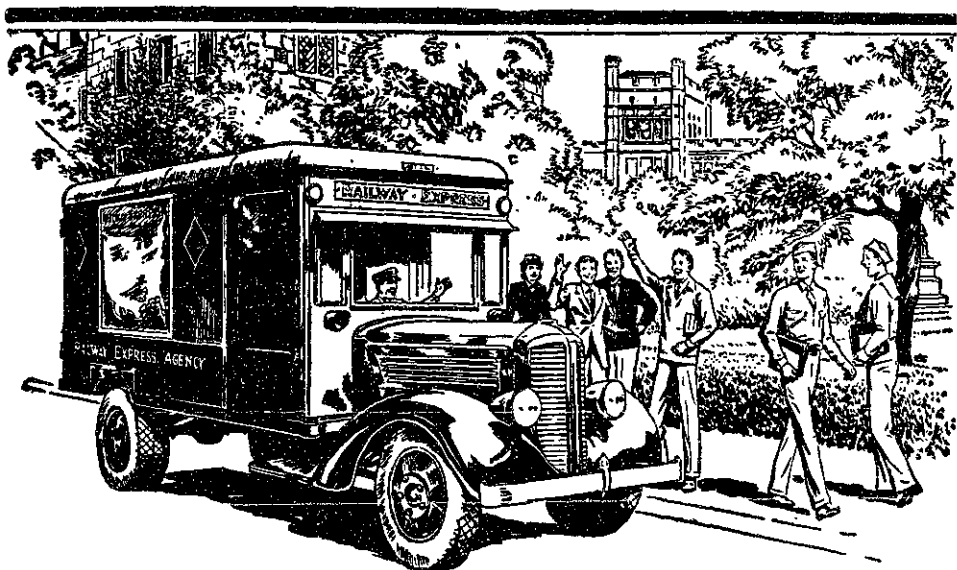

Coach Hedlund wants all cross country men to report on Saturday afternoon three o'clock. The team will run over either the Harvard or Tufts course. The team is preparing for a tough season during which they must defend their title as New England Cross Country Champions.

## Cornell To Race Here On Sept. 23

With the Cornell race on September 23 just one week away, Coach Moch is working on the lineups of the Varsity and J. V. boats. Recent developments have served only to complicate matters as the various crews, with the exception of the Varsity, continue to blow hot and cold on alternate days. The main issue is between the second heavy-weight shell and the lightweights. In the latest time trial in which five boats were entered, the lights finished second to the varsity, while the heavies were last. The varsity's time was 6:42, which is not considered bad at all.

This last week saw several important changes. Doug Russell was shifted back to the port side and took the seat in the varsity which he has filled for two years. Dick Jorgenson was changed to starboard in the second heavy boat, while Ormiston returned to the port after a try as a starboard rower.

At the moment the Varsity lineup is Thorkilson, Hield, Kalb, Rudolf, Russell, Hoaglund, Street, and Hunter. If Thursday's time trial is any indication, this lineup will probably remain unchanged for next week's race.

## "THE BEST-KNOWN VEHICLES IN AMERICA"

What's the best known vehicle on your college campus? You will probably agree it's the Railway Express truck. And one of the best-liked men is the dependable Expressman who drives that truck.

There's a good reason why these trucks are on the campus so frequently. It's to serve your shipping needs. Express Service is a strong, direct link with home.

Railway Express and its coordinated Air Express Division are carrying a substantial shipping load these busy days. You can help the Expressman and his vehicle do their job quicker and better by observing three simple steps: Wrap your laundry or other packages securely... address each clearly... ship them early. We know "A shipment started right is half-way there."

## Physics Society Being Reorganized

### Hope To Have Faculty Members Give Lectures

A group of Course VIII students met this Wednesday at 5:00 P. M. in Room 6-120 to form a temporary committee for the reorganization of the Physics Society. Two former members who were present told of some of the previous activities. The purpose and program of the society were discussed at length. Talk on nuclear physics, solar radiation, x-rays were suggested. The society expects to invite faculty members of the Physics department to talk on their particular fields.

The society hopes to have another meeting in about two weeks. The speakers will be announced later. The members of the reorganization committee are: Walter I. Lang, 10-44, acting chairman; Edward J. Kelly, 6-45; James W. Shearer, 6-45; Keith P. Lanneau, 2-46; Frank H. Low, 2-46; Walter S. Cremens, 2-47; and Albert G. Petschek, 2-47.

## Institute Committee

(Continued from Page 1)

was reinstated as President of the Junior Class. Richard S. Mooney, who had been acting as President since the start of this term, was returned to the Vice-Presidency. Also approved was the election of David P. Flood, 6-45, as Chairman of the Walker Memorial Committee.

### Class Elections Planned

Regular class elections were approved for Wednesday, October 11. They will be held under the supervision of Gabe E. de Roeth, 10-44, Elections Committee Chairman.

A motion was passed authorizing the Chairman of the Budget Committee, Donald A. Buell, to request the withdrawal from the Reserve and Contingency Fund of the Undergraduate Association of appropriate funds to replenish the Senior Class treasury. It was explained that, because of the war situation, the class treasury has been depleted to such a point that the success of the Senior Week program will not be insured without the additional funds.

## Dramashop

(Continued from Page 1)

by an excellent supporting cast consisting of the following: Russell F. Trimble, 2-47; Claude W. Brenner, 2-47; James B. Weaver, G; Joan T. Rothwell, G; Mary Sullivan, 6-45; Elaine M. Bickford, 6-45; William M. Siebert, 2-46; and Robert W. Connor, 2-46.

According to Professor Dean M. Fuller, of the English department, this play is one of the Dramashop's

most unusual productions. Originally written by Robert Louis Stevenson as a short story in the 19th century, "Dr. Jekyll and Mr. Hyde" has become one of the most popular of the mystery dramas, and seems destined to remain so for a long time.

One of the interesting sidelights on this production is the fact that it is being given in the same location in which the first Dramashop play was presented years ago. The first play was given in the old Rogers Building which was located where the New England Mutual Hall stands today.

# EXAMINATION SCHEDULE

## MONDAY, OCTOBER 23—9 A.M.

1.42	Theory of Struct.	Mitsch
1.572	Stat. Indet. Struct.	Wilbur
2.081	Applied Mechanics	Soderberg
2.082	Applied Mechanics	Soderberg
2.41	Heat Engineering	Taft
5.52	Mech., Struct. & React. in Org. Ch.	Morton
6.562	Adv. Network Th.	Guillemin
10.32	Chemical Eng.	Graham
13.55	Marine Engineering	Burtner
14.41	Syn. Meteor.	Austin
14.41N	Syn. Meteor.	Austin
16.22	Aircraft Struct.	Newell
M22	Diff. Equations	Zeldin
M382	Th. of Functions	Cameron
	Special Examinations	

## MONDAY, OCTOBER 23—1:30 P.M.

1.272	Transport. Eng.	Babcock, Bone
1.62	Hydraulics	Russell

M77	Vector Analysis	Hitchcock
	Special Examinations	

## Rifle Team Soon To Be Organized

With the target season drawing near, plans are already under way to organize a rifle team. Sgt. S. Frey of the Military Science department has announced that tryouts will be held today. All those who are interested and have had experience in target-shooting, are urged to attend.

The tryouts will be held from 9:00 to 11:30 A. M. and from 1:00 to 3:00 P. M. at the rifle range, just east of the Alumni Pool.

## Drill Competition Medals Awarded

On September 7 and 8 the final selection of the Freshman and Sophomore winners of the R.O.T. medals for excellence in drill and general military record was made.

In the Sophomore competition first place was given to Robert Chandler, second place to Allen Bralove, and third to Philip Jones. The Freshman winners were Ingram Lee, Edward F. Schwa and Thomas A. Bohanske, in that order.
