TOUGH ONE TO loose

For the first time in many years a big Technology dance will stop the music and close its doors at 1:00 A.M. tomorrow morning instead of an hour later. The reason for this is that the Hotel Statler management has received too many complaints from clients in the past about noise in the upper floors after an Institute dance. The management does not like to do this from clients in the past about noise in the upper floors after the dance proper had finished. They do not complain about the noise from the band and in the ballroom. It is only that caused by the very small portion of the Technology students who insisted upon being too jubilant in the upper floors and corridors after the dance proper had finished. Perhaps the majority of those who attend the next big dance will not have to suffer because of the thoughtless conduct of a small but conspicuous minority this time.

HELP YOURSELF

The school's leading service organization is starting its annual drive for operating funds Monday night. This organization, the Technology Christian Association, gives freely of its services during the entire year and for only a one-week period annually requests that the student body donates what it can in the only authorized undergraduate drive.

All of the money collected goes directly back to aid the students in innumerable ways. Why not do your part to help their continued full operation?

Have a Coca-Cola = Soldier, refresh yourself

...or a way to relax in camp

To soldiers in camp, from the Gulf Coast to the north woods, Coca-Cola is a reminder of what they left behind. On “Company Street” as on Main Street, Coca-Cola stands for the pause that refreshes. Ice-cold Coca-Cola in your icebox at home is a symbol of a friendly way of living.
