Hallett Conducts Popular Orchestra

Mal Hallett, whose orchestra will play at the Junior Prom, has long been known as a provider of Grade A dance rhythms. At one time or another Hallett has had in his band Gene Krupa, Frankie Carle and Jack Teagarden. According to reports the current combination is the smoothest yet. A good many people think so, for it is one of the bands that are heard repeatedly on Coca-Cola's Spotlight Bands. The most recent appearance was last Saturday night when Hallett played on the nationwide hookup from an Army base at Lake Placid.

Other recent appearances of the group were at Hotels Commodore and Park Central and the Paramount Theater in New York; Frank Daly's Terrace Room in Newark, and the Coconut Grove in Los Angeles.

Among his other achievements are the introduction of a good number of hit songs, including "Dearly Beloved," "Let's Get Lost" and "I Left My Heart at the Stage

IFC To Create Advisory Council

National I.F.C. Suggests Changes In Hell Week

At the meeting of the I.F.C. last night it was voted that the Alumni Advisory Council President K. T. Compton had suggested at a meeting of the I.F.C. early this month be organized.

This Advisory Council, which will consist of an alumnus from each fraternity house, would have only advisory powers. The purpose of the organization is to take up interfraternity problems. Creation of this council is the first step of its kind.

John J. Freidberger, 6-45, resigned as president of the I.F.C. last night. David A. Trageser, 6-45 will call for the nomination and election of a successor at the next meeting.

The National I.F.C. suggested that Hell Weeks be run more efficient and orderly so as to be less objectionable to the public. The proposal was discussed.

Informal Walker Dance To Follow Junior Prom On Saturday, April 21

Prof. R. Richards Oldest Tech Man, Is Dead At 100

Famed Metallurgist Headed Course III For Forty-One Years

Prof. Robert H. Richards, '68 oldest graduate and the only remaining member of the Institute's first class passed away Tuesday in his hundred and first year. Prof. Richards was associated with Technology in some capacity ever since its founding.

As an appropriate tribute to Professor Richards, the pall bearers at his burial this week were students and staff members of Course III. They were F. W. Bowdish, E. J. Chapin, S. S. Kocatopcu, H. Liang, S. B. Maloof, and G. S. Preller.

A native of Gardiner, Maine, he was born on August 26, 1844. Previous to his retirement in 1914 as professor emeritus, he was a member of the Institute's faculty for 46 years and was for 41 years head of the department of Mining Engineering. Early in his academic career he established at Technology the first educational laboratories of mining and metallurgy in the world, and revolutionized teaching in these fields by the introduction of laboratory methods of experiment and scientific research.

Following his graduation in 1868, he served for a year as assistant in Chemistry and was then made an instructor in Assaying and Qualitative Analysis. In 1870 he became assistant professor of Analytical Chemistry, and soon after was appointed professor of Mineralogy and Assaying. He held the post of professor of Mining Engineering from 1873 to 1884, and from that time until his retirement was professor of Mining

Ken Reeves To Play; Dance Starts At 8:00; Tickets Cost \$6:60

A big informal dance will be held in Walker Memorial on Saturday evening, April 21, following the Junior Prom. This announcement, made by the Prom Committee, serves to convert the Prom into a weekend affair, with big dances on both Friday and Saturday nights. Ken Reeves and his orchestra will supply the music at the Walker dance, which will last from 8:00 p.m. until midnight. All of Walker will be open, and refreshments will be served. Two fraternity parties, also sponsored by the Junior Prom Committee, will take place that evening. The particular fraternities will be announced next week.

It has been decided, in view of the larger dance planned for Saturday, to redeem the tickets at \$3.00, making the total cost of the tickets \$6.60, tax included. They may be redeemed in the Lobby of Building 10 between 11:00 A.M. and 2:00 P.M., Friday, April 6.

Table reservations may be made on Monday, April 9, by presenting two J.P. tickets in Building 10 between 11:00 A.M. and 2:00 P.M. The tables will seat five couples each.

Members Chosen For Tau Beta Pi

Elected to Tau Beta Pi, the National honorary engineering fraternity, during the past week were:

From the Class of 6-45: James L. Gurney, Robert N. Maglathlin; Donald M. Whitehead, Stephen W. Moulton, Charles H. Goldie, Ralph P. Cromer, and Thomas N. Berlage, Jr.

From the Class of 2-46; Samuel Gusman, William N. Siebert, Stuart Edgerly, Jr., John L. Wandrisco, Lloyd N. Hoover, James V. Chabot, Marshall J. Corbett and Marvin Sparrow.

PROFESSOR R. H. RICHARDS

The students and staff of the Institute were grieved to learn of the death of Professor R. H. Richards early this week. Professor Richards, who reached the age of 100 last August, was a member of the Class of 1868, the Institute's first graduating class. From the time he entered the Institute when it opened its doors in 1865 until his death, Professor Richards was continuously associated with Technology, first as a student, then as a faculty member, and since 1914 as Professor Emeritus. A longtime head of the Metallurgy Department, he is revered and remembered by the many students who passed under his tutelage. In the death of Professor Richards the Institute has lost a staunch supporter and a close friend.

RESEARCH ABILITY VS. TEACHING ABILITY

For many years the question of whether the Institute should select instructors on the basis of their research or their teaching ability has arisen periodically. With the revitalization of the Student-Faculty Committee we feel that now is a good time to broach that subject again.

All too often some freshmen have failed to gain the proper groundwork in their fundamental courses because of poor teaching. In most cases the instructor who taught them was perfectly qualified in the field and his research work was excellent, yet he failed to impart the proper fundamentals to many in his class because he lacked one important essential—the ability to teach.

We feel that a concerted effort should and could be made to select instructors of good teaching ability for the fundamental freshman and Sophomore courses. This would give the students a strong foundation on which to base their later and more advanced courses.

Junior Prom

(Continued from Page 1)

By Wednesday of the same week all five tickets must be shown if the reservation is to be made permanent.

There will be no further open of options, but a few remaining may be obtained from Glen V. flinger, 2-46, in Room 509 at Graduate House.

LONG TOMS — blasting unseen targets — are directed by voices flashing through this artilleryman's radio telephone "switchboard." His FM set can operate on 120 crystal controlled channels, any ten selected instantly by push-buttons. Using its many channels, he connects the battalion commander with spotters up front and in planes; then with battery commanders who focus tremendous firepower. He's helping soften the hard road ahead.

As the nation's largest producer of communications and electronic equipment, Western Electric turns out vast quantities of telephone, radio and detection devices for all branches of our armed forces. Many college graduates — men and women — are helping us put these weapons in our fighters' hands.

Buy all the War Bonds you can — and keep them!

I. I. T. Mile Run Record Broken

Serrie Runs In 4:30.9 In Interclass Meet

The indoor track season came to a close last Saturday with the running of the annual Interclass Meet, the board runway was removed; and the spring season, with running on the cinders, began last Monday.

The outstanding performance of the ten-event intramural meet was turned in by Jim Serrie, who, running on the boards, covered the mile in a record time of 4 minutes 30.9 seconds. The old mark, set by Mordecai Jenkins in 1934, was 4:32.8 seconds. In the 1000-yard run Charles Goldie was only eight-tenths of a second off Jenkins' record of two minutes, 21.8 seconds, also established in 1934.

The results were as follows:

1000-yd. Run—Won by Goldie, '45; Poorman, '45, second; Wildermuth, '47, third; Crimmin, '46, fourth; Hanlan, '47, fifth. Time: 2 minutes, 22 seconds.

1-Mile Run—Won by Serrie, '46; Shea, '47, second; Collmus, '45, third; Poorman, '45, fourth; Chapman, '46, fifth. Time: 4 minutes, 30.9 seconds.

1/2-Mile Run—Won by Keegan, '47; Collmus, '45, second; Bowen, '46, third; Ray, '47, fourth; Mann, '47, fifth. Time: 7 minutes, 30.4 seconds.

200-yd. Run—Won by Chapman, '46; Serrie, '46, second; Poorman, '45, third; Howard, '47, fourth; Schultz, '46, fifth; Knauss, '46, sixth. Time: 33.7 seconds.

100-yd. Run—Won by Crimmin, '46; Key, '46, second; Schindel, '45, third; Bertson, '47, fourth; Elmendorf, '45, fifth. Time: 1 minute, 17.2 seconds.

Shot Put—Won by Ray, '47; Speaker, '45, second; Boul, '46, third; Wilson, '45, fourth; Mahue, '45, fifth. Distance: 37 feet, 10 1/4 inches.

50 Weight—Won by Donahue, '45; Ray, '46, second; Boul, '46, third; Wilson, '45, fourth; Kornreich, '46, fifth. Distance: 36 feet, 2 inches.

20-yd. Dash—Won by Casey, '46; Crimmin, '46, second; Schultz, '46, third; Ford, '47, fourth; Knauss, '46, fifth. Time: 15.2 seconds.

100-yd. Low Hurdles—Won by Schultz, '46; Poorman, '45, second; Jackson, '46, third; Bursnall, '46, fourth; Crimmin, '46, fifth. Time: 7.5 seconds.

50-yd. High Hurdles—Won by Bursnall, '46; Serrie, '46, second; Crimmin, '46, third; Shea, '47, fourth. Time: 7.2 seconds.

Spring Frolic

(Continued from Page 1)

A program of music for the evening. Refreshments will be served free for everyone, and all the lounges will be open. The tickets for the

Lacrosse Team Starts Practice

Lacrosse practice got under way this past week with seventy-five men turning out for practice. Most of last year's team is back and the prospects of a good team are very high. The only varsity man not returning this year is Pete Wyckoff, the star of last year's team.

Practice has been confined to the field just outside the locker room, but it is hoped that the lower field will be ready for use soon. Because of the large number of men out for the sport, there has been difficulty in finding enough equipment to allow everyone to practice.

No schedule has been announced as yet, but it is rumored that games may be played with Army and Navy. It is thought that Tech will have the best team in several seasons with all experienced men out. The men have plenty of spirit and the team should soon be formed.

Dorm Bowling Tourney Starts

In the dormitory bowling contests held Monday, Wood defeated Hayden, last term's champions, 4 to 0, while Munroe tied Walcott 2 to 2. Individual high single honors were won by Barry Brown (Wood), who bowled 183; the winner of the high three was Tony Filardi (Munroe), who bowled 519. Last year's record high three was 486.

Matches scheduled for Monday, April 2 are as follows: Goodale vs. Bemis at 7:00, and Hayden vs. Munroe at 8:15.

dance, which are \$2.40 per couple, tax included, will continue on sale through next week from 11:00 A.M. to 2:00 P.M. in the Lobby of Building 10.

Beaver Key Basketball Finals Get Under Way As S.A.E., Sigma Chi Win Two

Tech Squash Team Defeats Harvard, 4-1 In Final Match

Tech's Varsity Squash Team romped to a 4 to 1 victory over Harvard on the Tech courts, and thus ended their season with only one defeat in seven meets. Rog Sonnabend and Tom Hewson were back in the lineup again. Sonnabend, Peirce, Scherer, and Dorflinger won; Hewson lost.

The Emerson Cup Tournament and the J.V. Tournament, which have been going on for the last two weeks are slightly behind schedule, so that the finals, formerly scheduled for tonight, will not be held until next Tuesday.

Emerson Cup Playoffs

In the Emerson Cup Tournament, the finals will consist of the winner of the Sonnabend vs. Scherer match against the winner of the Peirce vs. Hewson match. For the J.V. Trophy, it will be the winner of the Dorflinger vs. Condie match against the winner of the Taylor vs. Wright match.

The Annual Squash Banquet which is to be held at the Fox and Hounds Club, is scheduled for Tuesday, April 10.

Prof. H. B. Philips Speaks To Mathematical Society

Professor Henry B. Philips, chairman of the Department of Mathematics will speak before the Mathematical Society on "Diffusion." The meeting will be held on Wednesday, April 4, at 5:00 P.M. in Room 2-147.

Sigma Chi Just Nips Theta Chi In Thriller; S.A.E. Routs Phi Delt

Last Saturday saw the opening of the Beaver Key playoffs in basketball with five fraternities and the Chinese Student Club as the participants. The S.A.E. team, favored to take the title, took a long stride toward its goal as it was twice returned victor. However, the defending champs will get a battle from the Sigma Chi's and also the Theta Chi's.

In the most thrilling game played over the past week-end, the Sigma Chi's, led by McGorrough and Dennis, nipped a good Theta Chi team in the last minute of play, 26-23. The Theta Chi team, paced by Bob Wilson and diminutive Bob Murray, piled up a good third period lead only to see it overcome by the speedy ball handling of the Sigma Chi's.

Theta Chi Routs Dekes

The Theta Chi five came back last Tuesday to swamp the Dekes, 28-7, in a game which had been postponed. Leading only 6-4, at the halftime, Theta Chi released a deadly well-organized scoring attack, led by Bill Rapoport, to leave no doubt as to the possible outcome.

The S.A.E.'s won a forfeit game from the Chinese Students last Saturday and routed the Phi Delt the next day, 55-22. This was not accomplished, however, until the S.A.E.'s overcame an 18-16 Phi Delt lead at halftime. The Sigma Chi's prior to their win over Theta Chi, turned back the Phi Delt, 40-30.

The tourney will continue until each team has played every other team at least once and the team with the best record has been crowned champs.

Technique Board Elections Revealed

14 Elected To Junior Soph Board Positions

The election of fourteen men to the Junior and Sophomore Boards of the forthcoming Technique was disclosed this week by Alfred J. Oxenham, 6-45, General Manager of the Yearbook. The new men are already filling their assigned positions and work is progressing rapidly in the hope that the book will be published on schedule.

Members of the Junior Board and their positions are as follows: Richard M. Adler, 2-46, Photographic Editor; William H. Auerswald, 2-46, Advertising Manager; Edward L. Belcher, 2-46, Circulation Manager; Russell K. Dostal, 2-46, Treasurer; Harland A. Gray, 2-46, Biographies Editor; Sheldon L. Hill, 10-46, Art Editor; and James T. Todd, 2-46, Organization Editor.

Those elected to the Sophomore Board are the following: Ronald C. Best, 10-47, Assistant Art Editor; Eugene M. Gettel, 10-46, Assistant Biographies Editor; Donald R. Merriman, 2-47, Assistant Advertising Manager; Charles V. R. Townsend, 2-47, Assistant Organization Editor; Watt W. Webb, 2-47, Assistant Circulation Manager; William L. Whalen, 10-47, Assistant Treasurer; and Theodore R. Yoos, Jr., 2-47, Assistant Organization Editor.

A.I.Ch.E. Elects Officers; Gusman Is New President

At the last meeting of the A.I.Ch.E., this term's officers were elected. They are: Samuel Gusman, 2-46, President; Curt B. Beck, 6-45, Vice president; Robert Bart, 2-46, Secretary; and Richard A. Cotton, 2-47, Treasurer.

Professor Gardner, who addressed the group at the meeting, discussed the topic "Work as a Chemical Engineer." He emphasized the importance of good relations among the employees of a company and also the various phases of chemical engineering which are open to graduates.

Mal Hallett

(Continued from Page 1) Door Canteen." Hallett and his orchestra have also appeared in Warner Brothers shorts. The band has made several waxings on Hit and Decca records. The featured vocalists are lovely Mary Conlon and handsome Norman Welland (for the girls).

Smoker To Be Held By Catholic Club

The Catholic Club will hold a smoker for all Catholic students next Wednesday, April 4, at 5:00 P.M. in the 5:15 Club Room. The program for the coming term will be discussed, and the organization and purposes of the club will be outlined. Freshmen are especially invited.

Prof. Richards

(Continued from Page 1) Engineering and Metallurgy. His appointment as head of the department came in 1873, and from 1878 to 1883 he served as Secretary of the Faculty. The University of Missouri awarded him the honorary degree of doctor of laws in 1908.

The Institute's mining and metallurgical laboratory, first of its kind in the world and antedating any other in the United States by more than a century, existed in 1872. To Richards, then assistant professor of analytical chemistry, was assigned the duty of creating the laboratory, although the idea for its inception is attributed to President Rogers. In addition to his academic achievements, he invented a number of metallurgical devices, including a jet aspirator for chemistry and physics laboratories, a prism for stadia surveying and several ore separators. He is the author of a classic work in four volumes on the subject of "Ore Dressing," completed in 1909, as well as a textbook on the same subject.

During his long career Dr. Richards was honored by scholars and engineers in many countries. He visited Japan in 1929 as a delegate to the World Engineering Congress. Seven years earlier, the Chemical, Metallurgical and Mining Society of South Africa honored him by election to membership. In 1926 his photograph was hung in the Ore Dressing Institute in Leningrad in recognition of his outstanding work in that field.

He was married in 1875 to Ellen H. Swallow, the Institute's first woman graduate and a pioneer in the fields of public health, home economics and food chemistry. She was for 27 years in charge of Technology's laboratory of sanitary chemistry and was instrumental in founding at the Institute the first course in sanitary engineering to be established in any educational institution. Following her death, Professor Richards was married in 1912 to Lillian Jameson.

LooFlirpa Reveals Great Discovery

The greatest boom to engineering education since differential calculus and E2IT has been uncovered behind one of the unmarked doors scattered throughout the Institute where, the noted Montenegrin mathematical physicist, Dr. Eko J. LooFlirpa has been working quietly, forgotten by all except the anonymous character who each morn deposits before his door two bottles of milk and three hard-boiled egg sandwiches (the good doctor's one extravagance).

Dr. LooFlirpa has been at M.I.T. since 1940 when he was given a research fellowship in the department of Physics, the first to be granted to a Montenegrin. Administration officials after viewing his work have stated positively "that if these results are employed to the fullest possible extent, they open up limitless vistas down the pathway of progress."

The device itself, the automatic homework duplicator, will make up to twenty-five copies of the same home work assignment, each in a different style of handwriting and in a different color of ink. It is expected that several ambitious freshmen will turn the \$5.98 or \$4.98 if they higgie, they must invest for the machine into millions overnight (practically) by selling copies of \$.61 and M.I.T. assignments to their classmates at exorbitant prices. Dr. LooFlirpa guarantees that the homework papers produced by his machine will appear different to even the sharpest-eyed, best-trained professor.

When asked the secret of his success by a The Tech reporter in an exclusive interview, the great scientist replied, "Just remember that Sinatra spelled backwards is Nature's and that Sunday is April 1."

East-West Assn. to Hear Schotman at Next Meeting

R. Schotman, former mayor of Batavia, Dutch East Indies, will speak before the East and West Association at their next meeting, which will be held on Tuesday, April 3, at 8:00 P.M. in Room 6-321. Mr. Schotman's topic will be "Dutch Colonial Policy."

Lecture On Television Scheduled For Tonight

The American Institute of Electrical Engineers will present a talk on the general subject of "Television" this evening at 8:00 P.M. in Room 6-120. Mr. F. J. Bingley, chief television engineer of the Philco Corporation, will be the speaker.

9th Tech Embassy To Start April 11

Address By Prof. Schell Will Be Program Highlight

The ninth annual Tech Embassy will begin at 5:00 P.M., Wednesday, April 11, with an address by Professor Erwin H. Schell in Room 10-2. Professor Schell, head of the Department of Business and Engineering Administration, will speak for an hour on the topic, "Spiritual Support and Personal Accomplishment," after which there will be time for questions from the audience. During the program Professor Schell will answer a few such questions as, "What are practical avenues of spiritual support?" and "How do you account for the fact that there are those of us who do not feel the need of religious support?"

The Tech Embassy is sponsored annually by the T.C.A. and is one of its more important functions. It is a religious emphasis program which allows students the opportunity to express their views on religion while gaining an insight into other peoples religions. The second part of the program, during dinner and for an hour afterward, is devoted to this purpose.

The Embassy also forms smaller groups at private dinners at each of which a clergyman or layman chosen by the group will be the leader of the discussion.

For further information about the Embassy contact Donald Haliburton, 10-44, or call Mr. Richards at the T.C.A. Office.

T.C.A. Wants Students To Aid In Boys' Work

The T.C.A. is asking for the services of approximately twenty-five students for boys' work in this vicinity. Advancement is assured after one term's work. Further information may be obtained from Marvin Sparrow, 2-46, T.C.A. Boys' Work Director.
