CAMBRIDGE, MASS., FRIDAY, MAY 18, 1945

PRICE FIVE CENTS

Tulin Elected ITAA Prexy

Plan Joint Meeting With Advisory Council

Marshall P. Tulin, 2-46, was elected President of the M.I.T. Athletic Association at a meeting held Tuesday in the Tyler Lounge. The other men holding positions on the executive committee are: William H. Peirce, 2-46, Vice-President; Gene M. Gettel, 10-46, Secretary; Daniel B. Carmody, 2-46, Treasurer; James Goldstein, 2-46, Publicity Manager; and Stephen W. Moulton, Member-at-Large. The elections are subject to approval by Institute Committee.

At the meeting retiring President Thomas A. Hewson, 6-45, announced a joint meeting of the M. I. T. and the Advisory Council on Athletics has been planned for June 5. The most important item on the agenda for that meeting is discussion of the pros and cons of a compulsory athletic program at MIT after the war.

C.A. Concludes Clothing Drive

In the direction of post-war reconstruction of the homeless, the Technology clothing drive, held in conjunction with the United National Clothing Collection for over-war relief, netted twenty-six loads of assorted clothing. The clothing was delivered to the Massachusetts State Guard Armory to be sorted, baled, and expressed to shipping depots for immediate over-seas distribution. Volunteers are needed desperately now for this work of sorting and baling clothes. Anyone who has a spare hour can help. Call at the T.C.A. office for further information.

Pandit, Indian Leader, Unable To Deliver Speech

The talk by Mrs. Pandit, one of the leaders of the Indian National Congress, scheduled for this afternoon at the meeting of the International Club has been called off. Mrs. Pandit, currently at San Francisco, will be unable to arrive on time because of transportation complications.

Thursday, May 24, Is Nominations Deadline

Nomination blanks for the class elections, which have been scheduled for May 29, must be turned in at the Information Office, Room 7-111, between Wednesday, May 23, at 9:00 A.M. and Thursday, May 24, at 1:00 P.M. Blanks, which are now available at the Information Office, require 25 signatures. They must be accompanied by a 200 word statement of plans and policies, an M.I.T. activity record in tabular form, and a 4x5 full-face photograph (optional).

Inst. Comm. Asks Activity Reports

Purpose Is To Promote Interest In Activities

Establishing a new practice in its policy towards Technology activities, the Institute Committee voted yesterday to require that at each meeting a ten-minute oral report be given by one Class A and one Class B activity. The report would be given by a member of the activity who is not the activity's representative on the committee.

The reports are designed to keep committee members informed of the activities' policies, their plans for the future, their recent accomplishments, and their financial conditions. Every activity will make a report each scholastic year at a time which will be decided upon by the committee.

Schaefer Recording Industrial Law Lectures For Forthcoming Textbook

In writing his forthcoming book on Industrial Law Professor Albert A. Schaefer has adopted a new technique—instead of expanding a set of lecture notes, he will be consolidating a series of lectures. The small microphone clipped to the lapel of his coat while he delivers his Industrial Law lectures, is connected to a compact electronic voice recorder, and the term's lectures will be made permanent on the small flexible discs on which the recordings are made. About ninety of these wafer-like discs will carry the lectures, but because of their extreme thinness the whole series

Tech Sets Scoring Mark In Winning New England Collegiate Track Meet

Senior Ball Music To Be Furnished By Reuben Moulds

The Senior Week Committee of the Institute's 79th graduating class has chosen Reuben Moulds and his orchestra to play at the Senior Ball which will be held on Friday, June 22 on the Parker House Roof. Since the curfew restrictions have been lifted, the dance will begin at 9:00 P.M. and will continue until 1:00 A.M.

The Senior Banquet, Thursday, June 21 at the Hotel Vendome; Class Day Festivities, Saturday, June 23 in New England Mutual Hall; the Baccalaureate Exercises, Sunday, June 23 at Morss Hall; and the graduation exercises on Monday, June 25 at New England Mutual Hall will all take place as previously announced. The Faculty Tea, however, which was mentioned in a previous issue of *The Tech* should rightly be called the Tea Dance. It will be held Saturday, June 23 at 4:00 P.M. in the Charter Room of the New England Mutual Building.

Team Collects Record Point Total Of 60 7-10; Rhode Island Second

Accumulating the unprecedented total of 60 7/10 points, Tech last Saturday scored a crushing victory over a field of fifteen schools in the fifty-eighth renewal of the New England Intercollegiate Track and Field Meet. Since the team's banner performers, including Casey, Serrie, Goldie, Crimmin, and Hines, ran true to form, Tech, with the added efforts of the other members of the squad, was able to surpass the record of fifty-one points held by Dartmouth for over twenty years.

As early predictions had indicated, Rhode Island placed second with a score of 36 1/2. Although the runner-up team trailed by less than six points just past the half-way mark, M.I.T.'s superior strength decisively tipped the balance in the late events. The totals for the other teams were as follows: Tufts, 19 1/2; Wesleyan, 8 1/5; Brown, 8 1/5; Worcester, 8; Holy Cross, 7; Wil-

Dietz Will Speak At AGCA Meeting

The Associated General Contractors of America Student Chapter, the Course XVII society, will hold a dinner meeting next Tuesday evening, May 22, at the Smith House. Prof. Albert G. H. Dietz, who recently returned to the Institute from the Pacific war theater, will talk on his experiences in the Pacific. There will also be an election of officers for the summer term.

The meeting is open to the students and staff of Course XVII. Any freshman interested in joining the course and who wish to attend the meeting should call at course headquarters, Room 7-221, as soon as possible.

LET'S HAVE SOME INTEREST

With class elections scheduled for May 29, there seems to be an appreciable lack of interest in the elections and in the securing and turning in of nomination blanks. Such widespread lack of interest at this time is deplorable.

If we are to have an efficient and fully representative student government, we must have active interest in the election of the men who are to fill the important posts. No single factor encourages and nourishes the breakdown of good government more than an indifferent electorate.

Unfortunately the lack of interest is not confined only to actual voting. Many men who have the qualifications to serve their class well in office show a remarkable disinterest in running for office. They should get their nomination blanks in and try to inform the members of their classes of their qualifications. A well-informed electorate is a necessity for the election of the candidates best qualified for the positions.

The elections are about a week and a half away; it is high time we thought about them and the men we wished to hold the offices in our classes.

GOOD IDEA

The Institute Committee has adopted an excellent proposal in requiring leaders of each of the activities to deliver oral reports before the committee. This step will go a long way toward acquainting the Institute Committee with the operation and purposes of the various activities.

In addition to merely acquainting the committee with the activities of an organization, this ruling will enable the members of the Institute Committee to question the representative of the activity and to discuss the general aspects of the particular organization. It will serve to clear up a lot of misunderstandings and to expose unsavory and undesirable practices.

Inst. Comm.

(Continued from Page 1)

the Executive Committee. The proposal, which was made by William F. Blitzer, 6-45, met with the immediate approval of most of the members, and after some discussion was passed unanimously.

Also approved was the revised point system of activity ratings, which is now to be more rigidly enforced by the Walker Memorial Committee.

A student whose point rating is five or above must have a 2.50 scholastic rating for the previous term. Fifteen points are allowed any student with better than a 2.50 rating, and a maximum of twenty points may be held by a student whose rating is 3.50 or better. The revised and generally lower point values are posted on a bulletin board in the lobby of Building 10.

A statement of the Junior Prom budget was made by James S. Craig, 2-46, the President of the Junior Class. In response to the able handling of the Junior Prom by the J.P. Committee, a vote of thanks was given by the members of the Institute Committee.

The revised constitution of Agenda, a part of the freshman Dormitory Committee, was also approved after having previously been tabled.

"Battle Of The Sexes" Takes Place On Charles

While the stalwarts of the Tech crew are braving the rigors of war-time travel and the chill winds and waves of Lake Cayuga, to say nothing of the hardship of eating away from Walker, in order to uphold the honor of the Institute in the race with Cornell, Navy, and Columbia, this Saturday afternoon, at two o'clock the valiant men from Harvard will be rowing their panties off in a fight to finish with the Radcliffe wenches.

Through confidential sources The Tech has learned the Harvard team has undergone extensive training for this most important race of the season, including a series of preliminary contests with the Boston School of Anatomy and Embalming, Pine Manor, and Boston Latin School. Harvard won two out of three, losing only to a strong Pine Manor eight by a powderpuff.

The latest quotation from the Watch and Ward Booking Agency sets the odds on the race at six lipsticks to one pair of waterwings, in favor of Radcliffe. The rival crews are betting their own shirts. The finish ought to be interesting.

List Of Principal Blood Contributors Placed In Bldg. 7

A bulletin board containing names of the members of theulty and of the Division of Industrial Cooperation, students, trons, and employees who have contributed a gallon or more blood to date will be placed in corridor of Building 7 today.

At present the Gallon Club has sixty-three members. Of these there are thirty-two staff and faculty members, seventeen members of Division of Industrial Cooperation, ten students, two matrons, and employees. The names of the two Gallon Club members connected with the Chemical Warfare Service are posted in Building 12, and Radiation Laboratories Honor list is in the laboratories.

Leading Blood Donors

The highest contributors are Stanley Kingsbury and William Klemm, both members of the Division of Industrial Cooperation, who have each contributed two gallons. Two stars will appear by their names. Next highest are Professor Avery A. Ashdown, Paul M. Chalmers, and K. Thomas Momose, a former student of Class 2-44, each of whom have contributed fifty pints. Beside their names and names of the others who have contributed 12 pints or more will appear one star.

Glee Club Sings Tonight With Pine Manor Chorus

At 8:15 tonight the Technological Glee Club joins for the first time with the Pine Manor Junior College Chorus in a combined concert to be given at Wellesley. Combined members will open and close a program which will consist of two groups of songs by each club. Mr. Stanley Chapple, the director of the Pine Manor Chorus, will conduct the combined clubs in "All Men, Things," from Mendelssohn's "Hymn of Praise," and Mr. George Sawyer Dunham, director of the Technological club, will conduct the opening number, "Now Thank We All Our God." The dance which will follow the concert will last until 1:00 A.M.

Last Saturday, May 12, the Glee Club journeyed to Bradford to participate in its annual concert with the Bradford Glee Club. The program was much the same as last year, to be given at Pine Manor, with Mr. Frederick Johnson, Bradford director of music, conducting the Mendelssohn chorus.

Tech Sailors Close To C.G.A. Championship Regatta Here This Weekend

The Technology sailing team placed second to the Coast Guard in a twelve-college regatta last Friday and Sunday at the Coast Guard Academy in competition for the Coast Guard Cup. Ace Coast Guard skippers Hildebrandt and tracked up a total of 204 points, being eleven out of the eighteen

Boomer and Brite, sailing for Tech, put away 87 and 79 points, respectively, to produce a total of 172. Brite was next, followed by Northman and Brown. The wind was light both days, accentuating the cadets' knowledge of their own

On Saturday and Sunday about twenty college teams will be present at Tech to compete in the ninth annual I.C.Y.R.A. National Championship Regatta for the Morss Cup. This is usually the most hotly contested trophy of the spring season. To this end, coach "Doc" Lukens had his team out practicing all day this week. Chuck Bloomer and Leigh Brite will sail Tech's unbeaten team, backed by a strong string of crew members, including Al LaFountain and Dan Greenbaum.

F. Schaefer

(Continued from Page 1)

record and then by a flip of the switch answers the question on the same record. When Chinese students are taught to 140 men by 16 teachers, six pupils to a teacher being the maximum for any language in teaching, the problem is solved by artificially "multiplying" the number of teachers through the use of this same record apparatus.

New England college makes use of every freshman's voice through entrance, and periodically after while he is at the college. The same apparatus is in constant use at many colleges and universities, recording the lectures of regular or visiting professors for those who otherwise would not be able to hear them. Thus Professor Schaefer's novel application of the apparatus is but one of many. Professor Schaefer is well known throughout the country as an after-dinner speaker, toastmaster and master-of-ceremonies, and is one of the most popular professors. His popularity which comes as a result of his closer relationship between education and industry, is to be maintained in the fall of this year.

Rifle Team Wins Hearst Trophy

Representatives of the Hearst newspapers will present certificates to the members of the first M.I.T. rifle team on Tuesday, May 22, weather permitting. This team placed second among the R.O.T.C. units of the First Service Command in the 1944-45 William Randolph Hearst National R.O.T.C. competition.

The five members of the team are Watt W. Webb, Charles C. Stewart, William U. McReynolds, William B. Stein, and Colman L. Becker. Of these students the first three in the class of 2-47 and the latter two are now in the service.

The M.I.T. second and third rifle teams came in fourth and sixth, respectively, in the match, in which twenty-three teams were entered.

In the National Service Command match the M.I.T. team placed fourteenth. The teams competing in this match were the winners in their respective Service Command areas, so that these were the top R.O.T.C. teams of the nation.

B.K. Volleyball In Third Round

The Beaver Key Volleyball Tournament is now in its third round, with winners in two of the four brackets already determined.

The two bracket winners are Sigma Alpha Mu in the second bracket, and Phi Kappa Sigma in the third bracket. S. A. M. is winner by virtue of victories over the Dekes and the Lenox Club. The Latin American Students, the favorites in the second bracket, did not play. Phi Kappa Sigma became third bracket winners by defeating Munroe Dorm, Theta Chi, and Phi Gamma Delta, last year's runners-up.

First Bracket Narrowed

The first bracket race has narrowed down to the Turkish Students and Wood Dorm, and the only teams still remaining in fourth bracket competition are Sigma Alpha Epsilon, Hayden Dorm, and Phi Delta Theta.

Tech Crews Race Against Navy, Columbia, Cornell On Lake Cayuga Saturday

Tech Sends Eight Men To IC4A Meet; J.V. Beats Milton

Eight members of the M.I.T. varsity track squad will encounter the stiffest collegiate competition of the East this week end when they participate in the IC4A Track Meet at West Point. Army and Navy are expected to dominate the field of some twenty colleges entered in this annual event.

Tech's eight representatives only last week supplied the impetus to the drive which won for M.I.T. track laurels of New England. This Saturday Casey will compete in the 100 and 220, Crimmin and Chapman in the 440, Goldie in the 880, and Serrie in the mile. In the field Tech will have Hines in the broad jump, Upton in the javelin throw, and Wright in the pole vault.

J. V. Wins

Playing on the opponents' field last Wednesday, the Tech junior varsity scored a 58 1/3 to 49 2/3 victory over Milton. This marks the second victory of the season for the J. V. which previously beat Governor Dummer on Briggs Field.

The schedule of remaining games is as follows:

Saturday, May 19—Wood Dorm vs. Turkish Students, 3 P. M.

Monday, May 21—Hayden vs. S. A. E., 7:30 P.M. Dekes vs. S. A. M., 8:30 P.M.

Tuesday, May 22—Phi Delt vs. S. A. E.—Hayden winner, 7:45 P.M.

Wednesday, May 23—First bracket winner vs Dekes, 7:30 P.M. S. A. M. vs. fourth bracket winner, 8:30 P.M.

Saturday, May 26—First bracket winner vs. fourth bracket winner, 3 P.M.

New J.V. Boasts Potter As Stroke; McKewen & Bowman Also Come Up

Three Tech crews will represent M.I.T. in the season's biggest regatta tomorrow on Lake Cayuga at Ithaca, N. Y. The competition, will be keen as all four contestants, Navy, Columbia, Tech, and the host, Cornell have flashed power and ability. Also the race is scheduled about the time in the season when most crews reach their peak.

The events preceding the race have been confused as only one boat is undefeated. Columbia beat Navy in rough water last week in the Lion's initial appearance. Navy, in turn defeated Tech three weeks ago and Tech whipped Cornell two weeks ago. However, it is known for a fact that the latter two crews have shown marked improvement since their setbacks. The Tech eight, rowing a two mile course for the first time last Saturday in a time trial, turned in good time, and can be counted upon to give a good showing.

Potter Strokes J. V.

The principal note of interest from the boathouse in the last two weeks has been the formation of a new J. V. boat. Ed Potter, who previously had stroked the undefeated fourth boat to two wins over Harvard, has been made stroke of the second crew. The J. V. eight has also been bolstered by the addition of heavies George McKewen and Ned Bowman who seem to have added the necessary punch that the other J. V. lacked. The second boat like the first will row the two mile course against the other three schools.

A third Tech eight stroked by Bill Loeb will race the Navy plebes and the Cornell frosh over a one

Officers Elected By Baton Society

At a meeting held last Tuesday at 8:00 P.M. in Room 1-390, officers were elected for the reestablished Baton Society, the honorary organization for the Musical Clubs. Robert P. Fried, 2-46, was elected president; Robert D. Berkhoff, 6-45, vice-president; Charles Dobony, 2-46, secretary; and Richard J. Steele, 2-46, Treasurer.

This is one of the first Class B activities to be resurrected since the beginning of the war. In addition to the officers, the other charter members are John A. Gunnarson, 2-46, Arnold S. Judson, 2-46, Carl Haushalter, 2-46, and Alexander S. Giltinan, 2-46. Plans are being made by the society to hold another all Tech sing in the near future and to reform the dance band and the concert orchestra. All those interested in the band should contact Keith P. Laneau, 2-46, at the Graduate House, and those who wish information on the concert should see Anthony d'Almeido, 10-47, at the dorms.

Track

(Continued from Page 1)

Williams, 7; Bates, 3; Bowdoin, 2 1/5; Connecticut, 2; Boston College, 2.

Seven Firsts for Tech

Tech's overwhelming triumph was powered by firsts in seven of the fifteen events. Bill Casey won the 100 and 220, clinching both sprints by a strong finish. John Serrie captured the mile without any serious competition, and Royce Crimmin hung up a win in the 440. The most thrilling event was the 880. John Serrie forged into the lead in the stretch drive and seemed to be in full command, only to have Captain Charles Goldie bolt from sixth place to beat him to the tape by a fraction of a step.

In the field Tech was also capably represented. George Upton won the javelin; Bob Hines topped the field of broad jumpers and tied for first in the high jump. Pete Wright, defending champion in the pole vault, had to be content with a tie for second, as Bailey, of Tufts, soared eleven feet for the victory.

Other outstanding performances were turned in by Rhode Island's Ed Petorella, who won both the low and high hurdles, and Eddie Le-

Functional Design Shown In Bldg. 10

The M.I.T. Museum has extended its series of exhibits with a display on modern design now appearing in the lobby of Building Ten. This exhibit deals with the texture, function, shape, design, material of construction, and functional operation of many every-day articles, used both in and about the house. Placards with typical objects attached, having a dissertation on each of the aforementioned topics, are placed on stands surrounding the main body of the exhibit.

In the glass cases are shown articles of both new and old materials. In the newer vane are the lucite cigarette box, and salt and pepper shaker, while dating back to Colombian times are the two objects of Mexican earthenware. Also included under glass are plates and bowls made of wood, a colorful plastic "orange-juicer," glass vases, and metal plates.

mieux, of Worcester Poly, who dethroned defending champion Dunc Blanchard, of Tufts, in the two-mile run.

The results were as follows:

120-yard High Hurdles—Won by Petorella (RI); Strong (Williams), second; O'Brien (Brown), third; Edwards (Wesleyan), fourth. Time: 16.8

100-yard Dash—Won by Casey (MIT); Murphy (HC), second; Bates (Brown), third; Haire (RI), fourth. Time: 10.5

Mile Run—Won by Serrie (MIT); Cavanaugh (RI), second; Poorman (MIT), third; Baker (Wesleyan), fourth. Time: 4:27.3

440-yard Run—Won by Crimmin (MIT); Chase (Williams), second; Chapman (MIT), third; Poreda (RI), fourth. Time: 50.4

Two-Mile Run—Won by Lemieux (Worcester); Blanchard (Tufts), second; Bowen (MIT), third; Yorden (Wesleyan), fourth. Time: 9:51.5

220-yard Dash—Won by Casey (MIT); Murray (Wesleyan), second; Carney (BC), third; Murphy (HC), fourth. Time: 23.1

880-yard Run—Won by Goldie (MIT); Serrie (MIT), second; Goldstein (RI), third; Majsak (HC) fourth. Time: 1:59.8

220-yard Low Hurdles—Won by Petorella (RI); Hamilton (Worcester), second; Boomer (MIT), third; Porter (Tufts), fourth. Time: 25.3

Discus—Won by Luce (Tufts); Speaker (MIT), second; Tootell (RI), third; Kornreich (MIT), fourth. Distance: 139 ft., 1 3/4 in.

Shot Put—Won by Tootell (RI); Luce (Tufts), second; Sicuranza (HC), third; Blank (Williams), fourth. Distance: 46 ft., 6 3/8 in.

Hammer Throw—Won by Congdon (RI); Nahigan (RI), second; Battick (Conn), third; Tootell (RI), fourth. Distance: 145 ft., 5 3/4 in.

Javelin Throw—Won by Upton (MIT); Becker (MIT), second; O'Brien (Brown), third; Oechsele (MIT), fourth. Distance: 180 ft., 4 in.

Pole Vault—Won by Bailey (Tufts); Tie for second by Wright (MIT) and Satti (RI); Edward (RI), fourth. Height: 11 ft., 9 in.

High Jump—Tie for first by Hines (MIT), Dunning (Tufts), Clarkson (Bowdoin), Edwards (Wesleyan), Spriggs (Brown). Height: 5 ft., 7 in.

Broad Jump—Won by Hines (MIT); Parker (Bates), second; Worsam (MIT), third; Mumford (MIT), fourth. Distance: 20 ft., 5 3/8 in.

A. Rotch Architectural Library Is The Oldest In United States

One of the outstanding places of interest in the Institute is the Arthur Rotch Architectural Library. Founded in 1869, the library is the oldest of its type in the United States, although it is not the largest. It serves as a museum as well as a reference library, with approximately one-third of its collection being books, one-third photographs, and one-third miscellaneous articles including textiles, pamphlets and slides.

The library is indebted to former professors and students, as well as to many other architects, who have given valuable collections. Notable among these are:

The Goodhue Library—this was placed in the library by the family of Goodhue, famed architect who designed the Nebraska State Capitol.

The Bullfinch Collection—donated by the Massachusetts architect who designed the Massachusetts State House and many other Boston buildings. Of his large collection of drawings only four are now in the library, as the others are stored in the Library of Congress for safe-keeping. Many of the architect's books are included in this collection.

The Latrobe Collection — stored in the Library of Congress. The library has photostatic copies of all the material that is in the national capitol.

Library Grows Rapidly

At the rear of the library is the Boles Memorial Room, where the material purchased with Boles funds are placed. Exhibits of this material are arranged periodically in the cases provided for this purpose.

The City Planning and Housing Division furnishes an example of the rapid growth of the library. In 1935 twenty linear feet of shelving were devoted to this department. Now the division occupies 200 linear feet of shelving, in addition to thirty vertical files of pamphlet material. This includes the life collection of John Nolan, whose father donated the collection to the Institute.

(Continued Next Week)

Bicycle And Beach Trips Scheduled This Week

The Outing Club is sponsoring a jubilee of events this Sunday. A bicycle trip, led by James Shea, 6-45, is scheduled to leave for the Walker Memorial at 9:00 A.M., accompanied by groups from Radcliffe and Harvard the cyclists will go as far west as Concord, Groton.

At 10:00 A. M. a group will leave from Park St. Under to go on a rock-climbing trip in the Blue Hills. Owing to the purchase of a new rope, safety is assured for all attending persons. For the sea enthusiast a beach trip to Nahant will leave North Station at 10:25 A.M.

Crew

(Continued from Page 3)

mile distance. The lineups of the three boats are: Varsity—Captain Hal Thorkilsen, stroke; Jim Hoaglund, 7; Fran Kurriss, 6; John Taft, 5; Chick Street, 4; Bill Rapoport, 3; Ted Heuchling, 2; Stu Edgerly, bow; Buck Ray, cox. J. V. Ed Potter stroke; Ned Bowman, 7; George McKewen, 6; Ralph Huschke, 5; Bill Shuman, 4; Bob Baker, 3; Bob Hoffman, 2; Fred Bossler bow; John Whitehead, cox. Third boat—Bill Loeb, stroke; Tom Stephenson, 7; Jim Van Meter, 6; Dave Clare, 5; Jim Loweree, 4; Jim Murphy, 3; Ed Tebbetts, 2; Whit Mauzy, bow; Lou Peloubet, cox. Alternates: Howie Feist and Nick Paternoster.

The First Church of Christ, Scientist
