atomic Energy Panel Planned On Monday At 5

DRS. COMPTON, HARRISON, PROF. WIENER TO PRESENT
Viewpoints On Question
Professor Karl T. Compton, Dean
George Harrison and Professor
Notteri Wiener will participate in a panel discussion on
"Atomic Energy in Peace and War
Monday, January 7, at 5:00 P.M. in Room 10250. This meeting
is under T.C.A. sponsorship.

Each of the three speakers will
give his views on one particular
aspect of the problems connected
with the atomic bomb. The meeting
will start the discussion by recog-
nizing on that a major panelist will be Professor Wiener,
who will concern himself with the
social implications of the atom
science in technology.

Dr. Compton is to round out the panel with a
discussion of a federal regulation from the standpoints of
practical aid and laws that should be enacted.

Experments On Subject
Dr. Compton is a member of the
Secretary of War's Special Advisory
Committee on the Atomic Bomb, and has served as a member of the
National Defense Research Committee of the Office of Scientific
Research and Development since 1942. He has also served as cloud of
the Field of the U.S. National Defense, as director of the Peace
.

Eye Clinic Opened Yesterday In Homberg Memorial Infirmary

A new eye clinic has been
opened in the Homberg Memorial Infirmary. The new clinic has become
working for ever healthful condition.

Eye clinic was made possible by
a generous gift from Mrs. Wil-
lem R. Kales in memory of her
husband, a graduate of the Insti-
tute and a life member of the
hospital, died in 1942. The equip-
ment, which can compare favor-
ably with any similar equipment in the office of any good eye specialist, is
all of the best type.

Mrs. Kales, who is a homemaker,
purchased a year ago the glass for the clinic and spent three months
in the construction of the facility.

When Dr. George A. Ley, Jr.,
invited her to come to Cambridge,

Bakal, Brenner, Cohen, and Mains Form The Tech Managing Board; Other Promotions Announced

PROFESSOR MORRIS Speaks At Annual Banquet In Statler

The election of Richard Bakal, 54c, Claude W. Brenner, 54c, Don-
ald G. Coon, 54c, and the Tech Managing Board, 5-37, to the Managing Board of Volume LXVI of The Tech was announced last Wednesday night at the annual banquet held in the
Statler Hotel.

Bakal is to be the new General Manager: Brenner will hold the position of editor, while Cohen and Mains will be the Business Dep-

PROSPECTUS

As with everyone at the beginning of the New Year, 

Tech is turning over a new leaf. We have made no reso-
lutions, because those are always broken anyway, but we have always been pledged to serving the student body, and hope to continue this duty to the best of our ability. We agree with the general student body that too many straight news stories can become tiresome, so we will try to enliven this Volume with a few more features for your general reading interest.

This is a student publication and we more than welcome any criticisms from you, our fellow students. If you have any gripes just drop us a line, and we'll see what we can do about printing your epistles. Of course space does not always permit, and sometimes our language, but please don't be afraid to voice your opinions. This is your organ, your publication; you should take a more active part in it.

To our sister activities we wish to extend the assurance that we will continue our coverage of all activities and events.

If you feel you have been slighted, don't always blame us. We realize our reporters are good, but they are not ace detectives, so let us know once in a while what you've been doing and what you are intending to do.

As in the past, this column will be devoted to the opinions of the paper, and not the opinions of any one man. We will bring forward to the student body issues of controversy that bear on Tech life, and that concern student welfare.

It has been the custom for every entering Managing Board to appoint a new Editorial Board to help guide the paper, and to set in an advisory position the Managing Board as far as editorial policy is concerned. The men on this board are usually the heads of the other activities, or men who have shown an outstanding interest in extra-curricular work. In view of the diligent service rendered to Volume LXV, we are retaining the present Editorial Board. In addition we are placing our retiring General Manager, Noel N. Coe, 2-46, and David G. Black, Jr., 2-46, on the board. Future appointments will be made as the Class of 2-46 is graduated, and the remaining upperclassmen step into their places as student leaders, so that we may have a full staff to keep The Tech's policies as diverse and broadminded as is necessary in an institution of this caliber.
Sports Flashes

It looks as if the Beaver Key football season was destined to end after the first round of games, for the weather didn't seem to want to be in their vocabulary of late. Of course the weather played an important part in the playing of the games, but it seems the perennial finale was assured by the lack of interest and interest shown by the Beaver Key distortion. In the first place the season should have been started earlier, and in order to advance the season weather would be nothing to the past now and with the ball season in full swing all over the country, not a word had been heard of intramural basketball as yet. Here's hoping that Beaver Key gets on the ball and we hope a good basketball season.

Speaking of basketball Tech has had a hard week, and nothing is the point for the team they have really bad competition. There are two games Monday and Wednesday night which a return will be with Harvard is scheduled in the Walker Gym and it would be good to see a home crowd in the stands as the team on against our arch rivals.

For the first time in four years, one of nation's basketball schedules with more numerous and larger regularities, Wisconsin, Pennsylvania, and Wesleyan appear this year, and surely pregame will return to the water in the challenge the offering. One game turned in by Navy, Columbia, Cornell, M.I.T., and Harvard in a five night crew race this spring on the Beaver down in Maryland in the past few years, the eight from Annapol however, the team's former one man and now a nation's rowing crown. However, the team this year will be their best. The new and fresh crewmen returning to the old and experienced, the team's supremacy will be fully challenged. Here at Tech first baseman Fordwell and Rudolf will feature the return of many old crewmen to the Charles. Matter fact spring's boat is extremely bare as Annapol's and thanks to John Peter, only returning veterans with varying experience and there are practically no men left from the lower bow. Coach Jim Miller is in full swing as he will have to round the veteran crewmen into shape, and be on the ramps of last year's crew.

Navy Intramural League In Final Round Of Season

The Navy intramural basketball league gets into its final round next week, and the season will be played at play to stay at least. The teams will be competing 12 of our 12 points in the playoffs which will start a week from Monday. The exact form of the playoffs has not been determined as yet, but will be out soon.

As the teams enter the final stage of this season's play, team one from this team this company is entrenched in first place with three wins and no losses. Close behind showing naval superiority in number four, Mahew led the offensive with four baskets and one free throw, while Wilson and Marks each rapped up 6 points each. The other teams were dropped in two baskets above to keep team marks in the game all the way.

In the other game played, Bergwell again sparked team twelve in the 13-10 triumph over number ten. Bergwell scored four points, the second highest in the combined points of the opposition. The game was dropped in 7 minutes and 45 seconds on the game Ice, as team twelve flew on the ice to hold Joe Bern. It was a big game.

The games Wednesday night saw team three take another step toward first place by downing number two in a tough game, 11-8. Erickson led the scoring with four field goals and four free throws, but team two went away with number six. Marks added two to the losing side, and wing Mr. Wilson was close behind with 8.

Freshmen!!

Track Coach Oscar Hedlund has reiterated his plea for freshmen to fill the vacancies on the freshmen track teams. To date, there are vacancies on the running, jumping, and throwing teams, which are just pleading to be filled by some ambitious freshmen. If there are any freshmen who believe they can teach others to stay away from the track, long enough to run in 300 and stay on the track two or three times, they can report to Briggs Field any afternoon between 3:30 and 5:00.

Tech Squash Team To Play Dartmouth

Home And Home Series Scheduled With Green

The M.I.T. Squash Team will play its first match of the new year at Harvard, N. H., where they will take on the Dartmouth Bulldogs that Saturday. Although they have already defeated last year's Army Amateur league opener, the request will be striking to equal last year's record. Little is known about the Dartmouth quartet since this will be their first appearance of the season. However, the five men representing the Green are all ex-O. L.'s and veterans of previous matches, and they will be expected to come away with a victory.

The Tech men will probably stand pat on the lineup which faced the Cadesia. That means that Bill Pierce will be playing in the number one spot, with Captains Ross and Whittenhead holding down number two, and Pounder, Dorflinger and Whittenhead to back that order.

Since a home-and-home series has been scheduled, the Beavers will be past in the regular season of the following Tuesday. Thus the Tech team will be especially anxious to get back on the victory trail, in order to be at top trim for the opening home match on January 11.

Weeb Captain Of Rifle Team

Squad To Meet Navy

At Annapolis Jan. 11

The rifle team held a meeting last night, and the command, Tech. Sgt. Free of the Military Science Department, announced the matches scheduled for the remainder of the season.

Next week's meet along the nation's way will mean a trip to the Naval Academy next Wednesday, the two teams are meeting at 3:00 and a.m.

The matches scheduled for the remainder of the season.

The matches scheduled for the remainder of the season.

Fencing Team To Hold A Meeting This Week

The team will be meeting next week to recognize the fencing team, which has been inactive since the winter of 1934. Coach Leach, as well as members of the team, and the command will begin to start the ball rolling. All members are requested to attend the meeting, which will be held in the bulletin board for those not present. Those who have not received the meeting and should be on hand at 8 o'clock on the third floor of Walter. Plans will be made for the forthcoming season.
In the Spotlight

A few restaurants have been getting a shine: the restaurant itself is small, and the tastiness of the food served. (Continued from Page 2)
