LECTURE SERIES

In the summer of 1944 there was active at the Institute a Class A Activity which called itself the Lecture Series Committee. Their purpose was to promote Technology, plentiful moral interest and to try and broaden the average Techman's sense of national affairs. The only speaker that ever pronounced a talk under the auspices of this Committee was Leverson J. Saltonstall, then Governor of Massachusetts. Somehow or other the Committee then just seemed to fold up and die permanently.

Towards the end of last term, however, a group of thinking students at the Institute, composed mostly of dormitory residents, decided that perhaps a revival of the defunct Committee would be in order now that the problems of peace, atomic energy, and the third world were more than ever uppermost in our minds. The group was headed by Roger R. Walker, 3-47, President; Donald E. MacNair, Jr., 2-48, Vice-President; Donald Mains, 2-47, Secretary, and the third week in October.

The purpose of this letter is simply to make it known to the rest of the world, by an overwhelming expression of the past, that we will hear more of this Committee. A forum or round table discussion such as that presented by the T-G.A. last winter on the Atomic Bomb would provide a great deal of interest, and, if that discussion is any indication, draw large audiences.

It would do well for the Committee to go beyond the Institute for some of its lecturers, although there is a wealth of material within our walls, as was evidenced by Professor Greene's excellent dissertation. No matter how we try to sidestep the fact, however, a well-known name is an important element in our population who would have the run of the world, especially Russia, believe that the Americans as a whole hold to the opposite view. The purpose of this letter is simply to make it known to the rest of the world, by an overwhelming expression of the past.
Joe Levis, Ace Fencer, Returns To Coach Team

Plans Much Training To Put Prepared Team Into Field Next Year

Coach Joe Levis is back at Tech again with another crop of fencers under his charge this year. Levis was a graduate student at Tech in 1935, when he took up the sport of fencing which he enjoyed so much that he decided to stay on for an A-1 swordsman. John Weil, out of school work, possesses the characteristics of the ideal fencer. He is very aggressive and fast moving. Levis, who has been coaching for four years at Tech, reported that the team Members are novices, the older ones having made rapid progress.

It is said that men of Italian ancestry, like Levis, take up fencing as a naturalistic sport. It is known that he was born in Italy, that his father was a fencing instructor and that Levis himself is a member of the Italian fencing association. Levis has been coaching at Tech for the past four years, and is well known in the fencing world.

Tech at Pops

Entire Seating Capacity Reserved For Institute

Tech night at the Pops is to be held on June 1, at Symphony Hall, was the report given to the Institute Committee at their regular weekly meeting held yesterday at 9:00 P.M. in Litchfield Lounge. The entire floor, consisting of 306 seats, is to be reserved for Tech-night.

Other business taken up at the meeting included the approval of a motion asking P.E.E. (Veteran's Association) and Student Faculty Committee to submit reports to the committee on April 11, April 18, and April 25, respectively. The newly elected slates of Outing Club were announced: President, John C. Beaven, 2-47; John C. Beaven, 2-48; Leonard Bezark, Jr., 2-48; and Robert L. Silverman, 2-47. J. M. Wawer, was quick approved.

Henry Koerner, 6-46, was approved as the new dormitory Committee chairman. The Committee also acted favorably on the appointment of William P. Dole, to the executive committee of the Yank and the Nautical Society.

Dances And Stag Parties

On Y.A. Social Calendar

A number of requests have been received from various students, to give their approval of the following activities which will be held on June 1, at Symphony Hall.

The other bicycle trip is to Concord. A combination of the Glass of 24 and 48, and will be held in front of Walker Memorial, 2-48, at 8:00 P.M. on Wednesday, May 29. This trip will be a pack lunch, plus a bicycle.

Other business taken up at the meeting included the approval of the following activities which will be held on June 1, at Symphony Hall.

The Cadets were judged winners of the debate tonight at Technology with the following side: "The U.S. government should consist of permanent Class A status. Our Class A activities to become worthy of permanent Class A status."
