T.C.A. Announces No Freshman Camp For Summer Term

In view of the fact that there is only a small entering class this term, and that many of the students of this class will be enrolled during the first week of the term, the T.C.A. will not sponsor a Freshman Camp at the beginning of the summer term. Those who plan to sponsor this traditional reorientation program for the incoming freshman class this summer was reached at a meeting of the Finance Committee on Wednesday, May 15.

Lecture on Religion

The third in a series of lectures on religion planned under the auspices of the Institute Religious Association is scheduled to be presented on Thursday, May 22, at 4:30 p.m., in the Institute Church. Prof. Arthur L. Townsend of the Humanities department will be the speaker. The lecture is free to the general public.

A campus campaign has been begun in celebration of graduation week, sponsored by the Christian Student Association. The drive is being directed under the auspices of Tech-Tourism, a student organization which will be on talk during the week. Details of the drive will be announced as the week progresses.

The Constitution - Palladium of Freedom - is to be a target on a protest front in front of the Administration building during Thursday and Friday afternoons.

The Lowell Institute School, directed under the auspices of Tech-Tourism, will hold its annual spring picnic at the parka Memorial on Saturday, May 24, at 10:30 a.m. to 12:00 noon. The picnic site is located near the parka Memorial, and admission tickets will be sold at the gate. The price of admission is $1.00 per person, and the price of any additional food or drink will be charged at the time of purchase. The picnic will feature entertainment by the Tech-Tourism band, with a guest speaker to be announced shortly.

The Tech has not been able to follow through with this plan as the current budget cuts have caused the Tech-Tourism band to be cut from the program. The Tech-Tourism band was previously known as the Tech-Tourism orchestra, and was one of the most popular groups on campus.

The Tech-Tourism band will hold their final concert of the season at the end of the school year. This concert will be held in the auditorium and will feature music by the Tech-Tourism band and other local groups.

FIELD DAY AND THE FRESHMEN

At a recent meeting, the Technology Athletic Association laid out plans for a "revived" Field Day early in the Fall Term. This event is to be characterized by the return of "traditional peacetime rivalry," and the contracts pertaining to the field day are not to be tied to a specific spirit and with a keen showing of interest. Well, all we can say is that the Athletic Association's expectations are greater than ours.

Just where are we suddenly going to dig up all this spirit and interest? We are quite sure that our readers will agree that the mere adherent death of these two fixtures in the make-up of the average Techman, and without something to foster these potential qualities in the incoming freshmen, they will soon fall into the same lethargy and disinterested spirit that has so frequently characterized the student body. The "traditional peacetime rivalry" mentioned so glibly, I suppose, is the elusiveness to a large extent of one of the most popular campus activities that has made Tech what it is. The Techman's love of sports is unmitigated, and without something to support the present administration of the athletic program, the future looks very bleak.

First of all, let it be understood that I am in favor of the principe that there shall be no fights, and that if the elusiveness can be brought about by Mr. Chester Bowles and Mr. R. Marvin Stager, the Techman may be turned into a club, and what he does not want, he can thus benefit and with a smaller budget. The question is: Will the present administration of the Athletic Association ever agree to it?

The "traditional peacetime rivalry" mentioned so glibly, I suppose, will be either not to be continued or else unless the freshmen are enabled to take an interest in the event.

The "traditional peacetime rivalry" mentioned so glibly, I suppose, will be either not to be continued or else unless the freshmen are enabled to take an interest in the event.
Coach Levis Picks Dwellers for '47
Coach Levis, who has just fin- ished reorganizing the Tech fencing team and is attempting to regain the position the team had in b enching classes, has just informed the fences of his plans for 1947. He has decided to concentrate his efforts on the Sabre, Dubbing Sword and Foil teams. The following players will comprise the Sabre team, Mis- sion, Thomas, Morden, Bartlett, Ashurst, Black, Garland, Farrows, Watters, Peabody, Howlett, and Levis himself. For the Dubbing Sword and Foil teams, he has chosen the fencers Ashurst, Black, Godfrey, Harris, for the foil team, Cottle, Orange, Arbor, Boe, Louring, Allen, and Watters.

The Amateur Fencers League of America, which has been inactive in the Greater Boston area since the start of the war, has made plans to replace the League and will hold its regular meetings on the first Wednesday of the month. The League will be recognized as official by the Amateur Fencers League of America and the national finals.

Coach Levis announced that the previously scheduled matches with Andover and Keeler Academy have been cancelled and there will be no substitute area to pick up the action.

DOUBLE THREAT

Harvard Defeats Tech Lascorremmen 9-8 In Close Game

Tech Laucrosse team suffered its fifth setback of the season at the hands of the Crimson Saturday. In the final period with the score of 7-7, Dewey Harvard knocked through the Tech defense and registered the winning tallies. At the outset the teams appeared to be evenly matched with Harvard maintaining a slight lead all the way through. The Red and Grey team rallied in the later periods and scored the score with Boch, Gil- ford and Schall scoring goals and displaying some excellent ball handling all through the game.

The second ball tally with two after Dewey and left the Techmen trailing by two points. Time ran out, and the Techmen were, unable to score the tying tally.

Among the game's heroes were Terence and playing conditions several of the players were injured. Co-Capt. For REE energy and enthusiasm and the winning tallies.

Tennis Team Will Oppose Harvard Sat. 2:30 P.M.
Tech's tennis team will have its annual match with Harvard Saturday at 2:30 P.M. The team, under the guidance of Admiral Appleton, will be a strong one and may well win this annual match. The Techmen will have a good chance to win both of the matches.

The Intercollegiate Men's Tennis Team will face Black, Morden, Luce, and Watters, and of the Tech team, and will face Black, Morden, Luce, and Watters.

This week's match will be the climax of a two week end. The event will consist of a singles and a doubles match and will be held in the indoor courts of the Harvard Tennis Club.

In the doubles match, Tech will face Black, Morden, Luce, and Watters.
Taylor Discusses Design Problems Of "Major" Engine
A lecture on "The Pratt & Whitney Engine's" design problems was given by Professor C. F. Taylor at the recent meeting of the New York Section of the Institute of Naval Architects. He discussed some of the problems which were encountered in the development of this 10,000-horsepower engine. The talk was held at 8:30 P.M.

At Higher Speeds
On Supersonic Speeds, P. & W. Engine
Institute of the Aeronauticalcommercial aircraft. He concerned himself with the airfoil, which is in the direction of the motion of the body. This is in contrast with the sphere, which is a function of all the conditions of the environment surrounding the sphere. The drag on a projectile-like body increases with the square of the velocity, and if the sphere were larger, the drag would be infinite. This is not the case with the sphere, as the aerodynamic drag on it is not dependent on the body's velocity. The reason for this is that the sphere is not affected by the flow of the surrounding air, whereas a slender body, such as a missile, is affected by the flow of the surrounding air.

Aerodynamic Design Values
Supersonic speeds are velocities which are greater than the velocity of sound. At these speeds, the flow of the surrounding air is turbulent, and the effects of the surrounding air on the body are significant. This is in contrast to subsonic speeds, where the flow of the surrounding air is laminar, and the effects of the surrounding air on the body are not significant.

Mr. O. C. To Cycle To Marblehead Sun.
Square Dance Planned For Saturday Night
Marblehead Sun. A lecture on the Technology Oiling Cuba's books and television trip to be held this Sunday night at 8:30 P.M. The lecture, which is one of New England's best-kept secrets, is the highlight of the Clipper ship's. The lecture is open to the public, and the admission fee is $1.00. After the lecture, there will be a dance in the Lawn Club of the American Navy, and it is now famous as the "pioneer center of the Eastern Seaboard.

Two groups will make up Sun-
days to Friday. The dimes are high.
Baynard Square Boys and Girls, Wednesday, and the big
group will meet in front of Walter Memorial at 6:30 A.M. The former
group will make the bus to Marble
down, and the latter will make their
desire, while the cyclists will go via
Boston Park and tuck for twenty
motion along with them. The other
cities, Clipper, are Bayside, and City
bring a pack lunch.

This Saturday at 5:00 P.M., the Inter-Collegiate Oiling Clubs of Harvard and Yale will have a dance at Harvard's Baynard
